JACOB & JOSEF KOHN,

VIENNA.

The CHAIRS as well as the ARMCHAIRS, N° 10/14. 11/14. 14. 14½. 15. 18. 18½. 19. 20. 22. 24. 25. 29. 30. 32 are made with circular seats and strong coarse caning, whilst all other numbers have heart shaped seats, those of N° 12. 16. 17 being of especially large size.

As regards the latter category, the caning of the CHAIRS and ARMCHAIRS N° 1. 8. 10. 11. 17. 21. 23. 33 is coarse, that of the N° 2. 3. 4. 7. 13. 26 fine, the seats being fluted, and N° 5. 6. 9. 12. 16. 27. 28 are made likewise with fluted seats and their caning is altogether superior.

All CHAIRS and ARMCHAIRS with circular seats can, if required, be made with removeable caning at the extracharge stated in the price list. —

The seats and backs of all CHAIRS, ARMCHAIRS and SOFAS are joined, as may be desired, either by means of screws and bolts with visible polished heads, or with invisible patent screws, without any difference in price. —

If specially ordered, but then only at a corresponding extracharge, the rings can be fixed to the legs with polished screws and bolts. —

We forward the goods, according to orders, either ready mounted, merely banded with straw, or in pieces, packed carefully in cases. — In the latter instance it is left to the buyer to say whether they are to be completely taken to pieces or whether the front legs are to remain in the seats, which would materially facilitate the remounting at destination; still, it increases the bulk and tare. —

To protect the public against spurious imitations we affix to the inside of the seats our trade mark and exact address

JACOB & JOSEF KOHN
