Illegal Entry

5. Blackmarketing between the Northern Ryukyus and Japan has stopped almost entirely. The stormy condition of the sea at this season of the year and the constant efforts made by the Water Police Patrol throughout the Northern Ryukyus at such locations where these activities have been most prevalent continue to keep illegal transactions at a low level.

POLICE

6. The police organization of the Northern Ryukyus was reduced to 249 officers and men due to the dismissal of one policeman for malfeasance in office and the retirement of two others. No appointments were made to fill these vacancies.

a/ The 96 horses which were reported as losses in January have been accounted for and are shown as gains for Okinawa. In addition 55 horses were imported to Okinawa from outlying islands during March.

b/ Seven swine were exported from Okinawa; four to the Daitos Islands and three to Amami O-Shima, Northern Ryukyus.

Miyako exported 191 pigs and 11 goats to Yaeyama in March.

During the war 90 percent of the livestock population in Okinawa Gunto was destroyed and as a result an important source of fertilizer was lost. The importance of increasing the animal population in the Ryukyus to increase both soil fertility and production cannot be over-emphasized.

Page and urgently requested that the new navy minister be recommended since all other government business had been decided. After renewed insistence by both NAGANO and the witness, SHIMADA agreed to accept.

The witness and SHIMADA continued their conversations relative to the navy's views on the negotiations with America and the need for arriving at a peaceful solution. SHIMADA fully agreed to the witness' position and they discussed the procedure to be followed in carrying out the navy viewpoint. SHIMADA then went to see Premier TOJO to give him a prerequisite to his acceptance of the post. This was to continue negotiations sincerely and earnestly, and approach them from a completely new slant.

SHIMADA was selected simply because he was a high
34574 ranking admiral whom the witness thought possessed * excellent qualifications. The procedure followed in recommending him was no different than that pursued in the past. Both shared the same views and the navy decision to fight was entirely dependent upon the then existing situation which then took a violent turn for the worse.

Report number of items bearing penalty indicia declared obsolete; destroyed, spoiled, or wasted; used for other than mail purposes; used for mail purposes within the theater or command, or with another theater or command in which mail matter will not pass out of Army Postal Service channels (*to be completed by oversea areas only*); return material not returned, or matter on which carrying postage (*air mail or parcel post*) has been paid.

(6) All agencies or organizations will report under item (6) the total number of pieces transferred to, or mailed for, other governmental departments during the quarter. Support by inclosures showing particulars.

(7) Agencies issuing penalty matter to other reporting agencies or organizations will enter the total amount of each type of such matter issued under item (7), except where the issuing agencies consolidate report data and report for their using agencies.

*f*. All organizations and agencies will record physical inventory count under this item.

*g*. Record total entries under item 1*e* and *f*.

*h*. Record item 1*d* less item 1*g*.

*i*. The same figure should be entered under item 1*i*, (1) as is used in item 1*a* (2). However, if a plus entry is used in 1*a* (2), a minus entry must be used in 1*i* (1), and vice versa.

*j*. Record item 1*h* plus or minus 1*i*, depending upon the type of entry in item 1*i* (1).

*k*. This item will not be completed by reporting agencies.

*l*. (1) This item will be completed by all reporting agencies, showing amounts on requisition or in transit but not received.

(2) This item will be completed by all procurement agencies obtaining penalty matter under Postmaster General Contract.

(3) This item will be completed by all procurement agencies obtaining penalty matter through the Government Printing Office.

(4) This item will be completed by all procurement agencies preparing or procuring penalty matter under War Department permit number.

NOTE.—Address to the headquarters which consolidates report data for the preparing agency when applicable. Headquarters, organizations, and installations reporting direct to The Adjutant General will address the report to: The Adjutant General, Attn: Chief, Army Postal Service Branch, Washington 25, D. C.

Reports will be submitted so as to reach The Adjutant General 20 days after the close of each quarter.

BASIS: Request immediate procurement of the required number of fans.

These fans are the absolute minimum needed in order to achieve efficient operation and reasonable comfort of employees of Statistics and Reports Section during the excessively hot Summer season. No air conditioning facilities are available in the Section, as found among Staff Sections assigned to other buildings of the General Headquarters and the present number of fans issued is inadequate. Twelve offices (actually equivalent to 16 offices) must be supplied with only eight fans at present.

Room 404, for example, has no windows opening on the outside of the building, receives little if any fresh air and requires a minimum of four fans to maintain proper circulation.

Statistics and Reports Section employs 78 persons. The required number of fans were forecast for Second Quarter 1948 on Line 15, Bill of Materials, Forecast of Materials to be Supplied under Real Estate Demand for the Period 1 Jan 48 to 31 Dec 48, GHQ-37, Statistics and Reports Section GHQ SCAP, Bank of Chosen; and again confirmed on Line 22, Quartermaster Section, Forecast of Miscellaneous Indigenous Procurement Requirements (other than Operation and Management Services), GHQ-37, 1 April 48 to 31 March 49, GHQ SCAP.

HC 400.34

SUBJECT: Preparation of Table of Allowance

TO: Staff Sections, SCAP and FEC, GHQ.

1. It is requested that sections of SCAP and FEC, GHQ prepare T/A's for their respective section based upon T/A 20-130 (FEC) dated 1 January 1948. This T/A will bear the same number as the Table of Distribution for that section.

2. It is requested that the following procedure will be used in the preparation of section T/A's:

a. A separate section will be prepared for each of the technical services and property will be listed alphabetically by nomenclature.

b. TA 20-130 (FEC) dated 1 January 1948 will be used as a guide. The basis of issue listed therein will not apply to each section; this should be adjusted to actual needs.

c. Items required for efficient operation of the section and not included in TA 20-130 should be included in the section T/A and marked by an asterisk. Complete justification must be shown for each of these items.

d. A list of the number of personnel by job description and rating will accompany each T/A.

e. Inclosure #1 is a sample of form to be used.

3. Any questions relative to the preparation of T/A's should be directed to Lt. V. W. Underwood, phone 43-2219, on ordnance items and to Capt. P. S. Finney, phone 43-2268, on items of the other technical services.

4. At this time the number of copies of T/A 20-130 (FEC) dated 1 January 1948 is limited. Copies may be drawn on hand receipt from GHQ Supply for a specific period.

5. T/A should be completed and submitted to the T/A Board, room 231A Finance Building prior to 20 May 1948.

1. 54-2-4911 TYPEWRITER, non-portable, 11" carriage, L.C.Smith(Request new typewriter) on 29 28 0 6

////////////////////////////////Nothing Follows////////////////////////////////

BASIS:

Statistics and Reports Section is increasing its personnel from 77 persons to 83 persons which will include five (5) additional writers (historian) and one (1) additional clerk-typist. This increase in personnel necessitates the use of six(6) additional typewriters in order to provide minimum operational efficiency in this Section. These typewriters will be used a minimum of 40 hours per week. No part of this requirement can be met by redistributing machines within the Section, due to age of typewriters on hand and shortened deadlines for publications and monographs listed below. Deadlines have been reduced in compliance with desire of the Supreme Commander..

L.C.Smith typewriters, non-portable, 11" carriage are used to type reproduction copies for off-set printing of the Supreme Commander's monthly Summation of Non-Military Activities in Japan, monthly Catalog of SCAPIN's and monthly Catalog of SCAPIN-A's; and for the Commander-in-Chief's bi-monthly Summation of U.S. Army Military Government Activities in the Ryukyu Islands. The typed reproduction copies are photographed for printing process.

Historical Monographs of Non-Military Activities in Japan are being produced in greater volum against reduced deadlines, using L.C.Smith machines. Stencils for the Daily Gazette and monthly Index of SCAPIN's are also prepared on L.C.Smith typewriters.

These publications are required by General Order No. 6, GHQ, SCAP 18 April 1947. The increased rate of production has intensified the need for typewriters and for machines in good condition in order to maintain the required standards of these publications.

AUTHORITY: T/A 20-120(FEC), W.D., 1 January 1948. Consolidated T/A Overhead Bulk Allotment Personnel for Japan and Korea, 1 January 1948.

I certify that the typewriters listed hereon are required for official use within this Section and that no part of this requirement can be set aside by redistribution within this Section.

Despite repeated regular and mergency requisitions, no issue of pens has been received since 27 February 1948. Stock on hand of these items is critically low. The replacement factor from the ZI is entirely inadequate for needs of this Section. Japanese manufactured pens break easily and are consumed at much faster than American type.

2. All ten (10) Lefoy sets are used in preparing graphs and charts for the monthly Summation of Non-Military Activities in Japan published by Supreme Commander of the Allied Powers, bi-monthly Summation of U.S. Army MilitaryGovernment Activities in the Ryukyu Islands published by the Commander-in-Chief, Far East and for the Historical record are prescribed by Par. 3, GO. BASIS: Request immediate procurement of the required number of fans.

These fans are the absolute minimum needed in order to achieve efficient operation and reasonable comfort of employees of Statistics and Reports Section during the excessively hot Summer season. No air conditioning facilities are available in the Section, as found among Staff Sections assigned to other buildings of the General Headquarters and the present number of fans issued is inadequate. Twelve offices (actually equivalent to 16 offices) must be supplied with only eight fans at present.

Room 406, for example, has no windows opening on the outside of the building, receives little if any fresh air and requires a minimum of four fans to maintain proper circulation.

Statistics and Reports Section employs 76 persons. The required number of fans were forecast for Second Quarter 1948 on Line 10, Bill of Materials, Forecast of Materials to be Supplied under Real Estate Demand for the Period 1 Jan 48 to 31 Dec 48, QMC-27, Statistics and Reports Section GHQ SCAP, Bank of Chosen; and again confirmed on Line 25, Quartermaster Section, Forecast of Miscellaneous Indigenous Procurement Requirements (other than Operation and Management Services), QMC-37, 1 April 48 to 31 March 49, GHQ SCAP.

## INSTRUCTIONS

1*a*. (1) All using agencies making complete reports will complete item (1).

(2) All reporting agencies will show adjustments necessary to correct amounts reported in previous quarter in item (1). (*Explain by inclosure discrepancies due to previously unreported matter, etc.*)

*b*. (1) All using agencies making complete reports and all supply agencies will complete item (1).

(2)–(3) Procurement agencies only will complete items (2) and (3).

(4) Agencies procuring or preparing penalty matter under War Department permit number only will complete item (4).

*c*. All organizations and agencies will complete entries under *c* when notifications of such mailings have been received.

*d*. Entry under item *d* will be the total of items *a*, *b*, and *c*.

*e*. (1), (2), (3), (4), and (5). Report number of items bearing penalty indicia declared obsolete; destroyed, spoiled, or wasted; used for other than mail purposes; used for mail purposes within the theater or command, or with another theater or command in which mail matter will not pass out of Army Postal Service channels (*to be completed by oversea areas only*); return material not returned, or matter on which carrying postage (*air mail or parcel post*) has been paid.

(6) All agencies or organizations will report under item (6) the total number of pieces transferred to, or mailed for, other governmental departments during the quarter. Support by inclosures showing particulars.

(7) Agencies issuing penalty matter to other reporting agencies or organizations will enter the total amount of each type of such matter issued under item (7), except where the issuing agencies consolidate report data and report for their using agencies.

*f*. All organizations and agencies will record physical inventory count under this item.

*g*. Record total entries under item 1*e* and *f*.

*h*. Record item 1*d* less item 1*g*.

*i*. The same figure should be entered under item 1*i*, (1) as is used in item 1*a* (2). However, if a plus entry is used in 1*a* (2), a minus entry must be used in 1*i* (1), and vice versa.

*j*. Record item 1*h* plus or minus 1*i*, depending upon the type of entry in item 1*i* (1).

*k*. This item will not be completed by reporting agencies.

*l*. (1) This item will be completed by all reporting agencies, showing amounts on requisition or in transit but not received.

(2) This item will be completed by all procurement agencies obtaining penalty matter under Postmaster General Contract.

(3) This item will be completed by all procurement agencies obtaining penalty matter through the Government Printing Office.

(4) This item will be completed by all procurement agencies preparing or procuring penalty matter under War Department permit number.

NOTE.—Address to the headquarters which consolidates report data for the preparing agency when applicable. Headquarters, organizations, and installations reporting direct to The Adjutant General will address the report to: The Adjutant General, Attn: Chief, Army Postal Service Branch, Washington 25, D. C.

Reports will be submitted so as to reach The Adjutant General 20 days after the close of each quarter.

LAST ITEM

BASIS: Statistics and Reports Section is authorized 33 typewriters, non-portable, 11" carriage, but has on hand only 28 such machines. Addition of two typewriters will still be below authorized allowance, will provide only for the minimum operating needs of the Section, and will not permit any reserve to replace machines in repair shop. These typewriters will be used a minimum of 40 hours per week. No part of this requirement can be met by redistributing machines within the Section, due to age of typewriters on hand and shortened deadlines for publications and monographs listed below. Deadlines have been reduced in compliance with desires of the Supreme Commander.

L. C. Smith typewriters, non-portable, 11" carriage are used to type reproduction copies for off-set printing of the Supreme Commander's monthly Summation of Non-Military Activities in Japan, monthly Catalog of SCAPIN's and monthly Catalog of SCAPIN-Ai's; and for the Commander-in-Chief's bi-monthly Summation of U. S. Army Military Government Activities in the Ryukyu Islands. The typed reproduction copies are photographed for printing process.

Historical Monographs of Non-Military Activities in Japan are being produced in greater volume against reduced deadlines, using L. C. Smith machines. Stencils for the Daily Gazette and monthly Index of SCAPIN's are also prepared on L. C. Smith typewriters.

These publications are required by General Order No. 6, GHQ, SCAP, 18 April 1947. The increased rate of production has intensified the need for typewriters and for machines in good condition in order to maintain the required standards of these publications.

AUTHORITY: T/A 20-130(FEC), W. D., 1 January 1948. Consolidated T/A Overhead Bulk Allotment Personnel for Japan and Korea, 1 January 1948.

I certify that the typewriters listed hereon are required for official use within this Section and that no part of this requirement can be set aside by redistribution within this Section.

Addendum to Revised Proposed Table of Allowances for Overhead Bulk Allotment Personnel

SRS

Attn: CG, Hq. & Sv. Gp. 26 February 1948
S-3

1. Reference Revised Proposed Table of Allowances for Overhead Bulk Allotment Personnel in General Headquarters, Supreme Commander for the Allied Powers and Far East Command, 1 January 1947. The following addendum to Section IV is requested in order that SRS may operate efficiently in performing its assigned function of preparing graphs, charts and maps for the monthly Summation of Non-military Activities in Japan, bi-monthly Summation of United States Army Military Government Activities in the Ryukyus Islands and Historical Monographs of Non-military Activities in Japan:

ADDENDUM TO SECTION IV
ENGINEER EQUIPMENT

| Item | Allowance | Basis of Issue and Remarks |
|---|---|---|
| Pen. Lettering, LeRoy, w/guides | 1 | per draftsman SRS |

2. At present time the Proposed Table of Allowances authorizes only one (1) Pen, Lettering, LeRoy, w/guides per Section, and one (1) per 10 draftsmen.

a. One (1) set per each draftsman in this Section is essential, inasmuch as the LeRoy Pen is the principal instrument constantly in use by each SRS draftsman in preparing the outlays of graphs, charts and maps incorporated in the Summations.

b. The current allotment of authorized draftsman allowed SRS is 10. Ten LeRoy sets are on hand. Replacement issues of pen points from the Z. I. are received only on the basis of two authorized sets. This makes it necessary to depend on issues of pen points obtained through procurement demand on Japanese manufacturers. Japanese points in sizes #00 particularly are not of proper quality, break far too easily, and are not received in sufficient quantities because of difficulty in manufacture.

3. Deadlines for publication of Summations and completion of Monographs have been greatly emphasized in compliance with recently expressed desires of the Supreme Commander. This intensifies the need for an increase in LeRoy sets and for adequate replacement of pen points.

4. In view of the above facts, it is requested that Addendum to Table of Allowances be made in order that the issue of replacement pen points may be increased by the increase of authorized LeRoy sets from two to 10.

MEMO FOR RECORD: Maj. Lucas (Organization & Equipment Branch, G-3) on 26 February informed Exec. SRS that correct channel for above is to CG, Hq & Sv. Gp. Attn: S-3.
