Adolph Fischer and his favorite Chrysanthemums

Chrysanthemums

HARDY EXHIBITION CHRYSANTHEMUM—Bronze, Pink, Lavender, White, Red and Yellow, flowers measure 4 to 6 inches in diameter. Bloom August, September, October each year. These are beauties.

We reserve the right to substitute for colors not in stock when your order is received, to avoid delay in making shipment.

Our collection contains the best and most beautiful of the newer varieties, as well as the choicest of the standard sorts. We offer them at prices within the reach of all, as we would like to see them growing in every garden and in every home.

VERY LARGE FLOWERING VARIETIES.

OCONTO—Pure white. Immense large.

AUNT MARY—Old Rose color.

UNAKA—Pink. Enormous size.

CANARY BIRD—Rich golden-yellow; extra.

EXCELSIOR—Rich, fine yellow.

TINTS OF GOLD—Extra large.

GLORY OF SEVEN OAKS (Carrie)—Deep golden yellow; a beauty.

SUN GLOW—A yellow beauty. Immense size.

INDIAN—A fine shade of Indian-red.

JACK FROST—Snow-white; very free flowering.

OLD LAVENDER—A beautiful shade of lavender.

CRANFORDS WHITE—Very large.

GOACHERS CRIMSON—A beauty.

MME. F. NONIN—Delicate pink.

MADUSE—Very fine bronze.

6 Plants for\$1.10

GRAND PRIZE COLLECTION—The World's Newest and Largest Exhibition Varieties. The Six Varieties Given Below Are the Best in Their Several Classes and Colors. Of the many Chrysanthemums which we grow the following varieties are the finest, largest and most easily grown. These famous varieties can be seen in full bloom in our Greenhouses in October and early November and we wish all could come and see them.

GOLDEN CHADWICK—When high-class blooms are the object, this variety reigns supreme. Its rich yellow color, combined with the good characteristics of the Chadwicks, places it as one of the best late yellows.

W. H. CHADWICK—For the markets that want select stock, this variety stands alone. Slightly pinkish when grown cool, it is even more charming than when pure white.

CHADWICK SUPREME—Color variegated. (A Beauty).

CHIEFTAIN—Deep, clear pink; incurved in type.

EDWIN SEIDEWITZ—A beautiful late incurved; bright pink.

PINK TREASURE—A new variety of the brightest possible pink color. Large flowers and one of the best growers.

Each 20c, or 6 for\$1.10

Grow these six Varieties in 6 to 8 inch flower pots, plunge same in ground, keep in your garden during the summer; before danger of frost, transfer to a sunny window. They will then bloom indoors for a long time.

Don't wait for seed to come up.
 OUR PLANTS bloom the **WHOLE SEASON.**

Hardy Carnation, Very Fragrant

(GRENADINE)

These Grenadine-carnations belong to the eldest and solidest early blooming varieties of the numerous kinds of carnations. They are known as thankful flowers, fit for groups and beddings by their compact and symmetrical growth; of highest effect in the season's producing flowers by flowers.

Plant carnations 1 foot apart each way and use good garden soil, mix with old manure, water early in the morning during hot summer days. If large flowers are wanted, grow only one bud on each stem. These fine, hardy Grenadine Carnations produce 80% of the finest fragrant double flowers.

HARDY BUTTERFLY BUSH or SUMMER LILAC

A pretty shrub of spreading habit, growing 4½ to 6 feet high and flowering freely the first season. The long tapering flower-spikes, often 12 to 15 inches long, are covered densely with lilac-like violet-mauve colored blooms from June till frost. Delightfully fragrant. During the summer months this plant is a mecca for butterflies, and for this reason it is named the "Butterfly Bush." (Last forever.)

3 Plants for\$1.10

GYPSOPHILA (Baby's Breath)

Free flowering plants of easy culture, excellent for cutting to mix with other flowers.

6 Plants for\$1.10
