FOR RELEASE MONDAY
August 10, 1981

UMTA Technical Notice 2-81

The U. S. Department of Transportation's Urban Mass Transportation Administration released today an updated directory of 686 local fixed route transit operations in 279 urbanized areas (UZAs) of over 50,000 population.

As shown in the summaries on page 19, the vehicle requirements for weekday schedules in these UZAs are 3,566 commuter rail cars, 7,450 rapid transit cars, 551 light rail cars, 42,925 motor coaches, 503 trolley coaches and 28 cable cars. These figures are peak requirements, not fleet size.

For purposes of this compilation, a transit operation is a fixed route, regularly scheduled service, available to the general public, offering rides wholly within, or commuter rides from outside a particular UZA. Maps showing UZA borders appear in U.S. Census Bureau publication PC (1)-A, by states.

UZA listings are in the order of population rank. To find a particular UZA, refer to page 1, where UZAs are listed alphabetically, or to page 21, where they are listed by states.

Users of this directory desiring to identify systems of a certain size, or operating different modes, will find useful information in column 5.

This directory replaces Technical Notice 2-80 dated August 1, 1980. Another listing in this series is TN 1-81 dated March 9, 1981, reporting services available in communities of less than 50,000 population. Taken together these two are intended to represent the transit universe within the United States.

Communications concerning this directory should be addressed to:

Transit Industry Liaison, UPM-45
Office of Transportation Management
400 Seventh Street SW, Room 6432
Washington, D.C. 20590

or by telephone to J.P. Jones at 202-426-9157.

SOURCES

- *The American Public Transit Association (see page 20) annually publishes a directory identifying U. S. Transit System Members. There were 281 in the 1981 edition. That directory was a primary source, along with APTA's weekly publication, "Passenger Transport". John Neff, Manager of the APTA Statistical Department, reconciled APTA and UMTA records of transit operations.
- *Bus Ride Magazine, PO Box 1472, Spokane WA 99210, 509-328-9181, William A. Luke, Editor, produces a Bus Industry Directory listing more than 3,000 intercity, school, charter and transit operations. The 1980-1981 edition was referred to frequently.
- *The American Association of State Highway and Transportation Officials (AASHTO) has a Standing Committee on Public Transportation. (See page 20.) At least one person from each state having responsibility for transit information is a member of that Committee. The AASHTO staff and members of the Committee have been most cooperative.
- *Information about the New York-Northeastern New Jersey UZA shown on pages 2 and 3 was provided by Peter Donner of the Tri-State Regional Planning Commission, Martin E. Robins of New Jersey Transit, Morris Tarshis of the City of New York, and others having responsibility for individual and/or County operations.
- *Peak vehicle requirements were provided by schedule department managers or by general managers. Transportation Planners in Metropolitan Planning Organizations identified operations in those UZAs where several transit services are available.

COLUMN HEADING DEFINITIONS

- Column #1 shows the population rank of the UZA according to the population figure used by UMTA to apportion Section 5 operating expense funds.
- " 2 identifies each transit agency or operation. Where two are responsible for one service, such as a public agency that contracts with a transit operator, both are shown.
- " 3 indicates the population figure referred to in column #1, which was published in 1974 in connection with legislation authorizing federal support of transit system operating expense.
- " 4 denotes membership in the American Public Transit Association as shown in their 1981 directory, where more detailed information may be found.
- " 5 shows the maximum number of vehicles in regularly scheduled, fixed route service during weekday rush hours, as of May, 1981.
- " 6 indicates that some or all buses and/or garages are privately owned by the operator.
- " 7 identifies a contact person, usually the chief executive responsible for the operation of the transit system or for the public agency.
- " 8 is a listing of the titles, abbreviated, of the contact persons. The key to the title abbreviations appears below.
- Columns 9, 10 and 11 show the mailing address of the contact person.
- Column 12 lists the telephone numbers of the contact persons.
- " 13.- Around 1970, firms that once owned and operated transit systems began to offer their management expertise and personnel to newly formed transit authorities on a contract basis. As private owners were bought out, many public authorities turned to contract management firms to provide at least one transit manager, and depending upon the terms of the contract, up to eight department heads. There are five such firms dominating this field. Column 13 identifies these firms and indicates where they are managing by contract, through the symbols as below:

ATC-American Transit Corp. Paul J. Ballard, VP 120 S. Central, Suite 1500 St. Louis, MO 63105 314-726-9200	ATE Management & Service Co. Philip J. Ringo, CEO 617 Vine St., Suite 800 Cincinnati, OH 45202 513-381-7424	CCL-City Coach Lines, Inc. Joseph G. Poquette, Pres. 3733 University Blvd. W. Jacksonville, FL 32217 904-737-7722	McD-McDonald Transit Associates L. L. Heil, President PO Box 1477 Ft. Worth, TX 76101 817-870-6221	NCM-National City Mngmnt Co. Stanley H. Gates, Jr. Pres. 9720 Town Park Dr., Suite 109 Houston, TX 77036 713-772-1272
--	---	---	--	---

X in column 13 indicates a contract exists with a local transit management firm that has no other transit management contract.
