APR 15 1907  
A. O. G.

SAN FRANCISCO, October 31, 1902.

TO THE HONORABLE, THE BOARD OF TRUSTEES OF THE  
STATE NORMAL SCHOOL AT SAN FRANCISCO.

*Gentlemen*—In June, 1901, your honorable body adopted resolutions defining the purpose of the State Normal School at San Francisco, and your policy in the graduation of teachers. The resolutions stated:—

**“State Normal Schools are supported and should be conducted for the sole purpose of supplying public schools with teachers of the highest efficiency.**

**“The Trustees of the San Francisco State Normal School desire that the school shall be so conducted that a certificate of graduation therefrom shall be esteemed an honorable distinction by the holder thereof, as being a certain guarantee of thorough training and proficiency as a teacher, and so recognized by school officials.**

**“That the President shall certify to the Trustees for graduation only those students who can be confidently and honestly recommended to school trustees, superintendents, and boards of education as teachers of undoubted capability.”**

It is now some sixteen months since these resolutions were adopted, and during this intervening period the graduates of the school have been tested in the public schools of the State. I herewith submit a report upon certain facts of experience which I believe justify the high standard and rigorous policy which your honorable body has established in the administration of this school, and indicate a prompt appreciation on the part of the public school officials.

#### NUMBER OF POSITIONS FILLED.

The following schedule shows the number of students graduated since the school's opening and the number of appointments to public school positions which have been made from each class:—

DATE OF GRADUATION.	Number in Class.	POSITIONS FILLED.			Married.	Died.
		Autumn, 1901.	Spring, 1902.	Autumn, 1902.		
June, 1901 .....	36	30	29	31	2	.....
Dec., 1901 .....	8	.....	7	6	1	1
June, 1902 .....	25	.....	.....	25	.....	.....
Sept., 1902 .....	3	.....	.....	3	.....	.....
Totals .....	72	30	36	65	3	1

*No graduate who would accept a position has failed to secure one. Of the seven graduates who have not taken schools this autumn, one has died, three have been mar-*

ried, and the remaining three, all living in San Francisco, have declined positions requiring them to live away from their homes.

#### **PLAN OF FILLING POSITIONS.**

The plan which the faculty uses in recommending graduates is as follows: The faculty prepares and adopts a statement concerning the qualifications of each graduate, stating specifically her essential qualities as a teacher. These statements are not issued to graduates as a general recommendation, but are sent directly to trustees or superintendents, always accompanied by a stamped envelope for the return to the school. During the present year a small photograph of the graduate is attached to her statement. To this statement are also appended a printed copy of the resolution of the Board defining its policy of management of the school, and a brief description of the system of preparing teachers, and the fact that graduates will not use personal or political influences upon trustees or members of boards of education.

Thus far 84 different public school positions (not counting the positions to which our graduates have been elected for a second term) have been filled. The methods by which these appointments have been made and the number of positions secured under each method are shown by the following:—

1—Upon application to the Normal School by superintendents or trustees.....	28
2—Upon application by the Normal School to school trustees, first learning of vacancies through letters of inquiry addressed to school officials...18	
3—By competitive examination for teachers' positions in San Francisco.....	12
4—By application of graduates with recommendation of Normal School.....	16
5—By independent application of graduates.....	10
Total .....	84

#### TEST OF COMPETITIVE EXAMINATION.

The relative proficiency of San Francisco State Normal graduates was shown by the result of the competitive examination held by the Board of Education of San Francisco under a civil-service system in July, 1902. Of the 200 competitors, 27 were university graduates, either of Berkeley or Stanford, generally with several years' experience; 18 were San Francisco State Normal School graduates; 39 were graduates of reputable State Normals other than San Francisco; 63 were graduates of the San Francisco City Normal School (now discontinued); 43 were teachers without professional training. Six of the successful thirty, or twenty per cent, were graduates of the San Francisco State Normal School. Averaging the standings of the above five classes of competitors, the records show that the grad-

uates of the San Francisco State Normal School out-ranked all others. These averages were as follows:—

Average of graduates of San Francisco State Normal School.....	77.6
Average of graduates of the California universities.....	77.3
Average of graduates of other public Normal schools .....	74.3
Average of graduates of San Francisco City Normal School .....	70.0
Average of untrained teachers.....	68.4

#### DISTRIBUTION OF GRADUATES.

Of the 101 positions held by San Francisco Normal graduates in 1901-1902 and 1902-1903, 49 have been city or town schools, and 52 have been rural schools.

	City or Town.	Rural.
1901-1902.....	14	23
1902-1903.....	35	29
	49	52

The above figures show a marked increase in the proportion of our graduates accepted in cities and towns during the second year.

During the first year the following cities or towns appointed our graduates: San Francisco, 6; Oakland, 1; Modesto, 1; Redlands, 1; Paso Robles, 1; San Pablo, 1; Benicia, 1; Bakersfield, 1; Alameda, 1. At the end of the year all of these city appointees were re-elected to their positions or were offered them, and San Francisco

took 6 others; Oakland, 3; Modesto, 1; Redlands, 1; Paso Robles, 2; San Pablo, 1.

In 1902 the list of cities and towns having representatives of our school was increased by the following: Berkeley, Sausalito, Sanger, San Rafael, Hanford, Concord, Cloverdale, Santa Rosa, Vallejo, Riverside, and Weaverville.

During 1901-1902, 17 counties contained representatives of the San Francisco State Normal School, and in 1902-1903 twenty-four counties, as follows: Mendocino, 2; Sonoma, 7; Yolo, 1; Lake, 1; Napa, 1; Solano, 1; Marin, 3; Contra Costa, 4; Alameda, 9; San Francisco, 12; Tulare, 1; El Dorado, 1; Trinity, 1; Monterey, 2; Santa Cruz, 1; San Luis Obispo, 2; Stanislaus, 1; Madera, 1; Fresno, 1; Kings, 2; Kern, 5; San Bernardino, 2; Orange, 2; Riverside, 1.

I append letters received from school officials in the counties which have the largest number of our graduates and who can legitimately speak of the quality of the work of our graduates as teachers.

Respectfully submitted,

FREDERIC BURK,  
*President.*

## TESTS OF PRACTICAL EXPERIENCE.

. . . With reference to the quality of the work done in Marin County schools by teachers who are graduates from the State Normal School at San Francisco, I desire to say that their work has been eminently satisfactory. During the past year four teachers have come to us from your school. Under quite different conditions as to schools and environment, each has been successful in her particular field of labor. All were beginners, yet from the first day in the schoolroom as teachers, they showed adaptability to surroundings, as well as a knowledge of what to do and how to do it. Where the practice-teaching is less thorough in the training-school, beginners usually find difficulty in adjusting their acquired theories to the actual conditions found in their schools. No such difficulty was met by the teachers from the San Francisco Normal who have worked with us. Furthermore, these teachers have some comprehension of the *ends* that a teacher should keep in view in her work; also a knowledge of the progressive steps best suited to attain those ends. The schools of the State need more teachers with that kind of training. Send us more of your graduates.—ROBT. FURLONG, *Superintendent of Schools, Marin County.*

---

. . . After a most careful consideration, the Board of Education devised a system of appointment of teachers based on merit and efficiency. In our recent examination, held July 8, 1902, over two hundred applicants entered the competitive test for appointments to the San Francisco School Department. Graduates from

the San Francisco State Normal School showed unusual ability, both in the oral and in the written examinations. I might say also that like power was shown in an examination of the Board held December 28, 1901.

The graduates of the San Francisco State Normal School who are now teaching in our city have shown marked ability, not only in general methods of teaching, but also in the power to properly discipline classes. Their greatest strength, in my opinion, is their versatility and power to adjust themselves to local conditions, and at the same time steadily improving the classes under their control.

I trust that the San Francisco State Normal School will continue to do in the future as excellent work as it has done in the past.—CECIL W. MARK, *Member S. F. Board of Education.*

---

. . . I am more than satisfied with the work that is being done in this county by the graduates of the San Francisco Normal School since the school became a State Normal. The teachers you have sent me are earnest, sincere, and competent. I trust that when there are vacancies to be filled in future, we will be able to get our share of San Francisco Normal School girls to fill them.—MINNIE COULTER, *Superintendent of Schools, Sonoma County.*

---

. . . In answer to your inquiry in reference to graduates from your school, will say that we have in our Department, as regular teachers, Miss E. Parsons, Miss

Amy S. Furlong, and Miss M. H. Morrison. On our substitute list, we have Miss Evangeline Adams and Miss Eva Fulton, who have done considerable work.

These teachers have all shown that they have received careful training in their practice work. They take up the regular school work in such a manner as to show their preparation and their confidence in their ability to succeed.—J. W. McClymonds, *City Superintendent Schools of Oakland.*

## ROLL OF GRADUATES.

The following is a complete roll of the graduates from preparation for the Normal School, home addresses,

<i>Name.</i>	<i>Home Address.</i>	<i>Class Graduating Graduates of</i>
Ahrens, Mabel.....	425 Harrison St., S. F.....	S. F. Girls' H. S.....
