The City shall be redistricted by ordinance for the purpose of maintaining approximate equality of registered voting population, at least once in every ten years, but shall not be redistricted within four years after any such redistricting. Redis-
tricting

Any territory hereafter annexed to or consolidated with The City of San Diego shall at the time of such annexation or consolidation be added to an adjacent District or Districts by an ordinance of the Council, provided, that if any territory annexed or consolidated at any one time shall contain qualified voters sufficient to upset the approximate equality of the established districts, the Council shall at least sixty days before an election after such annexation or consolidation redistrict the City regardless of the time limitation of four years heretofore mentioned.

In any redistricting, the districts shall be comprised of contiguous territory and made as equal in registered voters as shown by the registration records, and as geographically compact as possible, and the districts so formed shall, as far as possible, be bounded by natural boundaries, by street lines and/or by City boundary lines.

The petition of a candidate for the office of Councilman shall also state the years of residence in the district from which he seeks nomination. The information hereinabove required shall appear at the head of each petition of nomination, followed by the signature and legal residence of each petitioner written in ink or indelible pencil, and there shall be attached to each petition an affidavit of the person in charge of the petition that each signature has been made in his presence and, to the best of the belief of the affiant, is the genuine signature of the person whose name it purports to be.

Nominating petitions for elective officers other than Councilmen shall be signed by at least 300 qualified electors of the City. The petition of a candidate for the office of Councilman shall be signed by at least 200 qualified electors residing in the district from which the candidate seeks nomination, and names of electors not residing in such district shall not be counted. No person shall sign petitions of nomination for elective officers for a greater number of candidates than are to be elected. No petition of nomination shall be valid unless it conforms to the provisions of this Charter, and no name of any candidate shall be placed on the ballot at the primary election unless the nominating petition of such candidate shall conform substantially to the provisions of this section.

The City Clerk shall be allowed ten days after filing to examine and verify the signatures and other requirements of sufficiency. If the petition of nomination is found to be sufficient and in proper form, the City Clerk shall immediately so certify and place the name or names of candidates therein on the primary ballot in alphabetical order under the proper designation as to office, and cause to be published at least once in the official newspaper, the names of all offices to be filled and the names of candidates as they are to appear on the primary ballot. An insufficient petition may be returned to the person filing the same for additional signatures and the person named as nominee in the petition shall be notified immediately of the insufficiency. A supplementary petition may be presented as provided in the original petition, if such can be filed before the time of closing the nominations.

The City Clerk shall cause sample ballots and instructions to voters to be mailed to the registered electors entitled to vote at each municipal election.

At the right of each name shall appear a square, in which a cross (X) must be stamped designating the choice of that candidate. All elections including the primary, shall be held at the voting places designated by the Council and under such rules and regulations, not inconsistent with the election laws of the State, as the Council may determine by ordinance, except that the Council may consolidate the voting precincts provided for in general State elections in the City and give notice of such consolidation in the ordinance calling the election.

At the regular municipal primary election there shall be ^{Primary election} chosen by the electors of each Council District two (2) candidates for the office of any Councilman from a district whose term expires the succeeding May, and there shall be chosen by all the electors of the City not more than twice the number of candidates necessary to fill any office of any other officer whose term expires the succeeding May.

At the regular municipal election which shall be held on the ^{Regular election} fourth Tuesday in April in the odd numbered years, the electors of the whole City shall select from among the candidates chosen at the primary election in each district one candidate for the office of the Councilman whose term expires the succeeding May, and there shall be chosen by all the electors of the whole City from among the candidates chosen at the primary election one candidate to succeed any other elective officer whose term expires in May succeeding the election. The candidate receiving the highest number of votes for the office for which he was nominated at the primary election shall be declared elected.

The election returns, including primary election returns, for ^{Canvass} each municipal election precinct shall be filed immediately after counting with the City Clerk who shall place them in safe custody until the canvass by the Council. Thereafter there shall be elected at each general municipal election according as their respective terms of office expire either four Councilmen, including the Mayor, or three Councilmen.

Any vacancy occurring in the Council shall be filled from the District in which the vacancy occurs by appointment by the remaining Councilmen; but in the event that said remaining Councilmen fail to fill such vacancy by appointment within

thirty (30) days after the vacancy occurs, they must immediately cause an election to be held to fill such vacancy; provided, however, that any person appointed to fill such vacancy shall hold office only until the next regular municipal election, at which date a person shall be elected to serve for the remainder of such unexpired term.

In case a member of the Council is absent from the City for a period of forty (40) days, unless by permission of the Council, his office shall be declared vacant by the Council and the same filled as in the case of other vacancies.

Each Councilman shall receive as compensation the sum of \$3000.00 per year, payable in monthly installments. All legislative sessions of the Council, whether regular or special shall be open to the public.

All legislative action shall be by ordinance except where otherwise required by the Constitution or laws of the State of California. The Council shall keep a journal of its proceedings which shall be a public record. On the passage of every ordinance the vote shall be taken by yeas and nays and entered upon the journal and no ordinance shall be passed without the concurrence of a majority of the members elected to the Council. The proceedings of the Council shall be public and citizens shall have a reasonable opportunity to be heard. The first meeting of the Council shall be held at ten o'clock A.M. on the first Monday after the first day in May following its election.

Quorum

Section 15. **Quorum.** A majority of the members elected to the Council shall constitute a quorum to do business, but a less number may adjourn from time to time and compel the attendance of absent members in such manner and under such penalties as may be prescribed by ordinance. Except as otherwise provided herein the affirmative vote of a majority of the members elected to the Council shall be necessary to adopt any ordinance, resolution, order or vote; except that a vote to adjourn, or regarding the attendance of absent members, may be adopted by a majority of the members present. No member shall be excused from voting except on matters involving the consideration of his own official conduct or in which his own personal interests are involved.

Section 16. **Introduction and Passage of Ordinances and Resolutions.** Ordinances shall be introduced in the Council only in written or printed form. All ordinances, except the annual ordinances making appropriations and ordinances codifying or re-arranging existing ordinances, shall be confined to one subject, and the subject, or subjects, of all ordinances shall be clearly expressed in the title. No ordinance shall be passed until it has been read on two separate calendar days of the Council, unless the requirements of the reading of it on two separate calendar days be dispensed with by a vote of not less than five members of the Council. The final reading of each ordinance shall be in full unless a written or printed copy thereof shall have been furnished to each member of the Council prior to such reading. The yeas and nays shall be taken upon the passage of all ordinances and entered upon the journal of the proceedings of the Council. emergency measure is an ordinance to provide for the immediate preservation of the public peace, property, health, or safety, in which the emergency claimed is set forth and defined in the preamble thereto. The Council shall by ordinance, by majority vote, adopt an administrative code providing for the detailed powers and duties of the administrative offices and departments of the City Government, based upon the provisions of this Charter. Thereafter, except as established by the provisions of this Charter, the Council may change, abolish, combine, and rearrange the departments, divisions and boards of the City Government provided for in said administrative code, but such ordinance creating, combining, abolishing or decreasing the powers of any department, division or board shall require a vote of five (5) of the members of the Council. The Council may by ordinance, if authorized so to do by the general law of the State, provide that any function of the City may be performed by the County officer in charge of that respective function for the

County or for the establishment of a combined City and County district for the performance of any function.

The city
manager.

Section 27. The City Manager. The Council shall elect a Manager within sixty (60) days from the first meeting in May, under this Charter, who shall be the chief executive and administrative officer of the City. The Manager shall be chosen by the Council solely on the basis of his proven executive and administrative qualifications. The Manager need not, when elected, be a resident of the City or State, but must be a citizen of the United States. He shall, upon his election, immediately become a resident of the City. No member of the Council shall, during the time for which he was elected, or for one (1) year thereafter, be eligible to hold the position of Manager. The Manager shall be elected for an indefinite term, but may be removed at the pleasure of the Council. Before the Manager may be removed he shall, if he so demand, be given a written statement of the reasons alleged for his removal and the right to be heard publicly thereon at a meeting of the Council prior to the final vote on the question of his removal, but pending and during such hearing the Council may suspend him from office. At least two weeks shall be given the Manager between notice and hearing for the preparation of his answer to the reasons for removal. The action of the Council in suspending or removing the Manager shall be final and conclusive on everyone, it being the intention of this Charter to vest all authority and fix all responsibility for such suspension or removal in the Council. He shall receive a salary to be fixed in the annual appropriation ordinance. The salary set in the appropriation ordinance shall not be reduced while the Manager holds office, but may be subject to increase by the Council at its discretion. The Manager shall designate one of his subordinates as Assistant Manager, who shall serve as Manager in case of the absence or disability of the Manager.

In the event of a vacancy in the office of City Manager, the Council shall fill the same within sixty (60) days after the vacancy occurs.

Duties of
the manager

Section 28. Duties of the Manager. It shall be the duty of the Manager to supervise the administration of the affairs of the City except as otherwise specifically provided in this Charter; to make such recommendation to the Council concerning the affairs of the City as may seem to him desirable; to keep the Council advised of the financial condition and future needs of the City; to prepare and submit to the Council the annual budget estimate and such reports as may be required by that body, including an annual report of all the Departments of the City; to see that the ordinances of the City and the laws of the State are enforced; and to perform such other duties as may be prescribed by this Charter or required of him by ordinance or resolution of the Council. Except as otherwise provided in this Charter, all other executive and administrative powers conferred by the laws of the State upon any municipal official shall be exercised by the

Manager or persons designated by him. He shall assume the ^{SAME} position of Director of any Department under his control for which a Director has not been appointed. The Commissions, Directors, or heads of the administrative Departments under the Manager shall be immediately responsible to him for the efficient administration of their respective Departments. The Manager may set aside any action taken by a Director or Department subordinate responsible to him, and may supersede him in authority in the functions of his office or employment. Where no provision has been made by ordinance authorizing a subordinate official to act as departmental head in case of a vacancy, the Manager may designate an interim acting head or perform personally the functions of the office. The Manager, as Chief Budget Officer of the City, shall be responsible for planning the activities of the City government and for adjusting such activities to the finances available. To this end he shall prepare annually a complete financial plan for the ensuing year and shall be responsible for the administration of such a plan when adopted by the Council. He shall be charged with the bringing together of estimates covering the financial needs of the City, with the checking of these estimates against the information relative to past expenditures and income, with the preparation of the budget document and supporting schedules and with the presentation of the budget to the Council. He shall have the power, with the approval of the Council, to employ experts, or consultants to perform work or give advice connected with the Departments of the City when such work or advice is necessary in connection therewith. The Council shall provide sufficient funds in the annual appropriation ordinance or by supplemental appropriation ordinances for such purposes and shall charge such additional services against the appropriation of the respective Departments.

The Manager shall execute all contracts for the Departments under his control. He shall approve all requisitions and vouchers for said Departments in person or through such assistants as he may designate for the purpose.

The Manager may prescribe such general rules and regulations as he may deem necessary or expedient for the general conduct of the administrative Departments. The Commission or Director of each Department shall in like manner prescribe such rules and regulations as may be deemed necessary and expedient for the proper conduct of each Department, not inconsistent with the general rules and regulations prescribed by the Manager.

In order to expedite the work of any Department or to adequately administer an increase in the duties which may devolve on any Department or to cope with periodic or seasonal changes, the Manager, subject to Civil Service regulations, is empowered to transfer employees temporarily from one Department to perform similar duties in another Department. Likewise each Department head shall have power to

transfer employees from one Division to another within his Department.

The Manager may direct any Department or Division, to perform work for any other Department or Division. Such powers to transfer employees or to direct the performance of work shall not apply to the Police or Fire Departments.

The Manager shall prepare and present to the Council an annual report of the City's affairs.

In case of general conflagration, rioting, flood, or other emergency menacing life and property, the Manager shall marshal all the forces of the different Departments of the City for the maintenance of the general security, and shall have the power to deputize or otherwise employ such other persons as he may consider necessary for the purpose of protecting the City and its residents. The Council may, however, in any such emergencies authorize the Mayor to take command of the police, maintain order and enforce the law.

And in such authorized emergencies the Manager shall be subordinate to and shall carry out such duties as may be assigned to him by the Mayor.

Powers of
manager.

Section 29. Responsibility of Manager—Powers of Appointment and Removal. The Manager shall be responsible to the Council for the proper administration of all affairs of the City placed in his charge, and to that end, subject to the Civil Service provisions of this Charter and except as otherwise provided herein, he shall have the power to appoint and remove all officers and employees in the administrative service of the City under his control; but the Manager may authorize the head of a Department or officer responsible to him to appoint and remove subordinates in such Department or office. Appointments made by, or under the authority of, the Manager, shall be on the basis of executive and administrative ability and of the training and experience of such appointees in the work which they are to perform. All such appointments shall be without definite term unless for temporary service not to exceed sixty days. No person directly related to the City Manager by blood or marriage shall be eligible for employment unless such relative was in the employ of the City at the time of the appointment of the City Manager.

Removal of
officers and
employees.

Section 30 Removal of Officers and Employees. All officers and employees in the classified service of the City who are appointed by the Manager or under his authorization may be removed by him or by the officer by whom appointed at any time in accordance with the provisions of this Charter, as contained in Section 129 of Article VIII, relating to Civil Service.

Officers and employees in the unclassified service appointed by the Manager may be removed by him at any time and, in the case of appointees in the unclassified service, the order of the Manager affecting said removal shall be final and conclusive. Any appointee or employee in the unclassified service so removed by the Manager may, however, within five (5)

days after receipt of a Notice of Dismissal, demand a written statement of the reasons therefor. Thereupon it shall be the duty of the Manager to forthwith deliver to the dismissed employee a written statement of the reason for such dismissal, a copy of which statement shall be forthwith filed with the Civil Service Commission or with the Council as hereinafter provided. Upon receipt of such written statement so furnished by the Manager, the Commission or Council shall fix a time and place for a public hearing, at which hearing the Civil Service Commission or the Council, as the case may be, shall have authority to investigate the facts set forth in said written communication from the Manager containing the reasons for said dismissal, and determine the truth or falsity of said facts; the Commission or Council shall report its findings and recommendations made as a result of such hearing, and cause a copy of such findings and recommendations to be delivered to the Manager and file the original with the City Clerk. The dismissed appointee or employee in such cases shall have the right to file with the Civil Service Commission or Council, as the case may be, a written reply or answer to any charges so filed by the Manager. All written documents, including the Manager's written reasons for such dismissal, the written order of dismissal, and the reply of the dismissed appointee or employee, the findings and decisions of the Commission or Council, and any documentary evidence used at the hearing shall be filed with the proper officer of the City as public records, open for inspection at any time. Nothing herein contained, however, shall be construed as in any way limiting the authority and power of the Manager to remove any appointee or employee in the unclassified service of the City, appointed or employed by him, and all such removals shall be final and conclusive.

In the case of removal by the Manager of the Chief of Police, the Chief of the Fire Department, the City Treasurer, or any official whose appointment is confirmed by the Council, all hearings involving the investigation of the reasons for the removal of such officer shall be conducted by the City Council, and in all other cases the hearings shall be conducted by the Civil Service Commission. In the event of a hearing before the Council, the City Clerk shall act as Clerk for such investigation, and in the event of a hearing before the Civil Service Commission, the Personnel Director shall act as the Clerk at such hearing. Appropriation required for city debt.

Any taxpayer of the City or owner of any bond thereof may bring suit against the Auditor and Comptroller in the Superior Court to enforce the provisions of this section and if, upon such suit, it be found that the Council has failed to make an appropriation for the full amount estimated by the Manager and actually required for the City debt and that the Auditor and Comptroller has failed to set up the appropriation account and provide for transfers thereto as required by this section, the court shall order the establishment of such appropriation account and the necessary transfers thereto as hereinbefore provided. And such action by the court shall have the same force and effect in regard to appropriations for the City debt as though taken by the Council in the Annual Appropriation Ordinance.

Section 75. Annual Tax Levy. The Council shall finally adopt, not later than the last Tuesday in August of each year, an ordinance levying upon the assessed valuation of all property in the City, a rate of taxation sufficient to raise the amount estimated to be required in the annual budget and as herein provided, less the amounts estimated to be received from fines, licenses, and other sources of revenue, using as a basis the value of the property as assessed by the County Assessor, as the same may be equalized and returned to the council by the County Auditor as provided by general law. The Council shall immediately thereafter transmit to the County Auditor of the County of San Diego, a statement of such rate or rates so fixed by it.

No special tax shall be permitted except as expressly authorized by this Charter. The foregoing limitations shall not apply in the event of any great necessity or emergency, in which case they may be temporarily suspended, provided that no increase over said limits, except as in this Charter prescribed shall be made in any fiscal year unless authorized by ordinance adopted by the vote of two-thirds of the electors of this City voting on the proposition, and provided further that no indebtedness shall ever be incurred by The City of San Diego for public improvements which shall in the aggregate exceed twenty-five per cent (25%) of the assessed value of all real and personal property of such City, anything in this Charter contained to the contrary notwithstanding. This limitation on the part of the City to incur indebtedness shall be construed to include any indebtedness which may be incurred by special taxes or by the voting of bonds by the electors.

Special
tax levy.

Section 77. Special Tax Levy. The Council shall have the power to levy and collect taxes in addition to the taxes herein or by general law authorized to be levied and collected in an amount sufficient to pay the bonded indebtedness of said City and for the acquisition and construction of permanent improvements, real property, public buildings and structures and public offices, including equipping and furnishing of the same, at the rate of not more than five cents on each one hundred dollars of the assessed valuation during any one fiscal year, provided, however, that said amount of five cents may be increased by a vote of two-thirds of the electors voting on the proposition, but not to exceed the amount limited by Section 76 of this Article.

Assessment
and collec-
tion of
taxes

Section 78. Assessment and Collection of Taxes. The Council shall by ordinance provide that the assessment and collection of taxes for The City of San Diego shall be performed by the County Assessor and County Tax Collector of the County of San Diego and make such arrangements to carry out the provisions of this ordinance. Provided, however, that if at any time the majority of the electors of The City of San Diego voting at an election for that purpose, decide to have the City assume the duty of assessing and collecting the taxes for municipal purposes, then the Council may by ordinance provide for such assessment and collection of taxes by City officers and make the necessary arrangements to carry out the will of the people as expressed at such election.

Special as-

Section 79. Special Assessments. The Council shall have power by ordinance to provide for the payment of all or any part of the cost of any public service or of the acquisition of any land or other property for public use, or of the construction, reconstruction, operation or maintenance of any structure or work in the nature of a public facility

or improvement, by levying and collecting special assessments upon property specially benefited. The mode and manner for the acquisition of any land or other property for public use or of the construction, reconstruction, operation or maintenance of any structure or work in the nature of a public facility or improvement and the levying and collecting of special assessments therefor shall be as prescribed at that time by the general law of the State of California relative thereto; unless the Council shall by ordinance provide otherwise.

Provided, however, that the legal and engineering work of preparing proceedings, plans and specifications, costs and estimates of any improvements under this Section shall be done and performed by the offices of the City Attorney and City Engineer, respectively, unless there shall be filed with the City Clerk for presentation to the Council a request in writing by property owners interested that such engineering and legal work be performed by engineers and attorneys outside of the City employ, and at the same time deposited with said Clerk for the use of the City a sum of money sufficient to cover and pay for the costs of such engineering and legal work. In the event that for any reason such proceeding for a public improvement shall not be carried forward to completion so that assessments upon the property benefited may be legally levied and collected in an amount sufficient to pay the entire cost of said public improvement, including such legal and engineering costs, then and in that event such money so deposited may be used by the City to defray the cost of such engineering and legal work as shall have been done prior to the abandonment of such proceeding. The Council shall order the return of such money, if the proceeding is completed to the extent that such costs for engineering and legal fees have been legally assessed as part of the costs against the property benefited. In no case, however, shall the City ever be held liable for the costs and fees of such outside engineers and attorneys.

Section 80. Money Required To Be In Treasury. No contract, agreement, or other obligation, involving the expenditure of money out of appropriations made by the Council, shall be entered into, nor shall any order for such expenditure be valid unless the Auditor and Comptroller shall first certify to the Council that the money required for such contract, agreement or obligation is in the treasury to the credit of the appropriation from which it is to be drawn and that it is otherwise unencumbered. The certificate of the Auditor and Comptroller shall be filed and made a matter of record in his office and the sum so certified as being in the treasury shall not thereafter be considered unencumbered until the City is discharged from the contract agreement or obligation. All unencumbered moneys actually in the treasury to the credit of the appropriation from which an obligation is to be paid, and all moneys applicable to its payment which before the

maturity thereof, are anticipated to come into the treasury to the credit of such appropriation shall, for the purpose of such certificate be deemed in the treasury to the credit of the appropriation from which the obligation is to be paid. The Council may approve a contract subject to a vote of two-thirds of the electors, extending over a period of years for additions to the real estate, water plant, harbor, or other revenue producing utilities, in excess of the estimated revenue of the year, if in the opinion of the Auditor and Comptroller and the Council there will be money available to meet the payments on the contract as they come due. Provided, however, that nothing herein contained shall be construed as authorizing the incurring of indebtedness in excess of that limited by Section 76 of this Article.

Allotments.

Section 81. Allotments. The Manager shall require the administrative heads of all Departments to submit to him, immediately after the adoption of the Annual Appropriation Ordinance, a work program for the budget year, which program shall include all appropriations for operation and maintenance expenditures and for the acquisition of property and shall show the requested allotments of all appropriations by quarters for the entire year. The Manager shall review the requested allotments of each Department and if necessary revise, alter, or change such allotments before approving the same. The aggregate of such allotments shall not exceed the total appropriations available for the Department for the budget year. The Manager shall transmit a copy of the approved allotments to the Head of the Department and also a copy to the Auditor and Comptroller who shall authorize the expenditures to be made from the appropriations on the basis of such allotments, and not otherwise unless there shall be a balance carried over from a preceding allotment period or unless an additional appropriation or transfer has been made by the Council. The head of each Department may request the Manager to approve a revision of the work program at the beginning of any quarter during the fiscal year and such approval shall be transmitted to the Department Head and the Auditor and Comptroller. The Manager may require that each Department set up a reserve in the original allotments of at least five per cent of the total appropriation of the Department or Divisions thereof. At any time during the fiscal year, this reserve or any portion of it, may be returned by the Manager to the original appropriation to which it belongs and added to any allotment and any unused portion shall remain as an unexpended balance at the end of the budget period. The Council may provide for the creation of revolving funds or of seasonal expenditures for any Department and such funds shall not be subject to the allotment method of distribution.

Examination and Investigation of claims

Section 82. Examination and Investigation of Claims by the Auditor and Comptroller. The Auditor and Comptroller shall examine all payrolls, bills, and other claims and demands,

except claims for damages against the City, and shall issue no warrant for payment unless he finds that the claim is in proper form, correctly computed, and duly approved; that it is legally due and payable; that an appropriation has been made therefor which has not been exhausted; and that there is money in the treasury to make payment. He may investigate a claim and for that purpose may summon before him any officer, agent or employee of the City, any claimant or other person, and examine him upon oath or affirmation relative thereto, and if he finds a claim to be fraudulent, erroneous or otherwise invalid, he shall not issue a warrant therefor. If the Auditor and Comptroller issue a warrant on the treasury authorizing payment of any claim in contravention of the provisions of this Section, he and his sureties shall be jointly and severally liable to the City for the amount of such warrant if paid.

Section 83. Payment of Claims Against the City. No claim against the City shall be paid except by means of a warrant on the treasury issued by the Auditor and Comptroller. The Auditor and Comptroller shall issue no warrant for the payment of a claim unless the claim be evidenced by voucher approved by the head of the Department or office for which the indebtedness was incurred, and each such officer and his surety shall be liable to the City for all loss or damage sustained by reason of his negligence or corrupt approval of any claim. No demand shall be allowed, approved, audited, or paid unless it shall specify each item of the claim and the date thereof; provided, however, that warrants for salaries of officers and employees shall be allowed by the Auditor and Comptroller and paid regularly, semi-monthly, from the treasury without the necessity of any demand therefor or approval thereof as in this section prescribed for other claims. Payment of claims.

Section 84. Money to Be Drawn From Treasury in Accordance With Appropriation. No money shall be drawn from the treasury of the City, nor shall any obligation for the expenditure of money be incurred, except in pursuance of the Annual Appropriation Ordinance, and preliminary appropriation ordinance, or of the annual appropriation changed as authorized by Section 73 and subsection (h) of Section 69 of this Article. At the close of each fiscal year any unencumbered balance of an appropriation except retirement funds, and such trust funds as may be established by this Charter shall revert to the fund from which appropriated and shall be subject to reappropriation but appropriations may be made by the Council, to be paid out of the revenues of the current year, in furtherance of improvements or other objects or works which will not be completed within the year, and any such appropriation shall continue in force until the purpose for which it was made shall have been accomplished or abandoned. Appropriation necessary.

Section 85 Daily Deposits of Money. All moneys received from taxes, licenses, fees, fines, penalties and forfeitures and all moneys which may be collected or received by any officer of Daily deposits of money.

the City in his official capacity, or from any Department of the City for the performance of any official duty and all moneys accruing to the City from any source and all moneys directed by law or by this Charter to be paid or deposited in the treasury, shall be paid into the treasury daily.

Disposition

Section 86. Disposition of Public Moneys. All city officials and employees empowered to collect money for fees, permits, licenses, inspections, services, taxes or other municipal charges, shall collect the same promptly at the time they become due, turn them into the City treasury daily, obtain a receipt therefor, and report the same to the City Auditor and Comptroller weekly. All such moneys and all fines or pecuniary penalties or forfeitures which may accrue to the City, and all funds which may remain in the possession of the City unclaimed after a period of one year from the date when due and payable, shall be credited to the general fund of the City, and shall be applicable to any purpose to which the Council may appropriate them and the Council shall appropriate from this fund whatever sum may be necessary to pay valid claims of more than one year's standing.

**Uniform
accounts
and reports**

Section 87. Uniform Accounts and Reports. The Auditor and Comptroller shall prescribe uniform forms of accounts which shall be observed by all officers and Departments of the City which receive or disburse City moneys. Whenever an act shall be passed by the Legislature of the State providing for uniform municipal accounts or reports, the City Council may elect to conform thereto.

**Monthly
reports.**

Section 88. Monthly Reports of Officers. On the first day of each month every officer authorized by law to charge any fee, commission, percentage, allowance or compensation, must make a written report to the Auditor and Comptroller of all moneys received by him during the preceding month.

**Monthly
statements**

Section 89. Monthly Statements by the Auditor and Comptroller. The Auditor and Comptroller shall prepare for submission to the Council, not later than the tenth day of each month, or when requested, a summary statement of revenues and expenses for the preceding month, detailed as to appropriations and funds in such manner as to show the exact financial condition of the City and of each Department and Division thereof as of the last day of the previous month.

**Bonded in-
debtedness.**

Section 90. Contracting Bonded Indebtedness. (a) Whenever the Council shall determine that the public interest or necessity demands the acquisition, construction or completion of any municipal improvement authorized to be acquired, constructed, completed or maintained by The City of San Diego, the cost of which will be too great to be paid out of the ordinary annual income and revenue of said City, the Council may contract bonded indebtedness for said purposes or any of them, pledging the credit of the City or the property or revenue of any public utility owned by the City and the proceedings taken for incurring such indebtedness shall be in accordance with the mode and manner prescribed by

the provisions of the general laws of the State of California ^{Same.} relative to incurring bonded indebtedness by municipalities in force at the time such proceedings are taken. Every ordinance or resolution determining that the public interest or necessity demands such improvement shall be adopted only by a vote of five members of the Council and it shall require a vote of two-thirds of the electors voting on each proposition at a regular or special election for the issuance of such bonds before said indebtedness or liability for said improvements may be incurred, except ordinances authorizing such bond issues as are specified in Section 92 of this Article. No bonds, except such bonds as have been heretofore or may be hereafter issued for the purpose of acquiring, constructing or completing improvements for the development, conservation and furnishing of water as hereinafter provided, shall be issued on the credit of the City which will increase the bonded indebtedness of said City beyond ten per cent of the assessed valuation of all real and personal property of said City subject to direct taxation as shown by the last preceding valuation for City taxes.

(b) Whenever the Council shall determine that the public interest or necessity demands the acquisition, construction or completion of any municipal improvement for the development, conservation and furnishing of water, whether in the County of San Diego or elsewhere, the Council may contract bonded indebtedness for such improvement for the development, conservation and furnishing of water whenever authorized to do so by a vote of two-thirds of the electors voting at an election held for that purpose in the manner and mode prescribed by the general laws of the State of California in force at the time of holding said election. Bonds issued by virtue of the authority of this paragraph (b) including all bonds now outstanding for the purpose of development, conservation and furnishing of water, shall not exceed in amount the sum of fifteen per cent of the assessed valuation of all real and personal property of said City subject to direct taxation as shown by the last preceding valuation for City taxes. The fifteen per cent limitation contained herein shall be in addition to the amount authorized to be issued for other improvements as set forth in paragraph (a) of this section, it being the intent and purpose of this language to permit the City to incur a bonded indebtedness in an amount not to exceed ten per cent for all municipal improvements other than the development, conservation and furnishing of water, and in addition thereto to authorize bonds in an amount not to exceed fifteen per cent of the assessed valuation for the development, conservation or furnishing of water; provided, however, that indebtedness and liability for municipal improvements of every kind and character authorized to be incurred by the provisions of this Charter shall not exceed in amount the sum of twenty-five per cent of the assessed

valuation of all real and personal property of said City subject to direct taxation as shown by the last preceding valuation for City taxes.

(c) Every issue of bonds authorized by the provisions of this Section shall be payable within a term of years not to exceed the estimated period of usefulness of the property or improvement for which issued, and in no case to exceed the constitutional limit; provided, that at any time the Council may postpone the payment on all bonds issued for an income-producing utility for a period of five years from date of issue, but shall provide for the interest payment from the date of issue.

(d) When the municipal improvement for which the bonds were voted, as provided in the foregoing Subdivisions of this Section, has been fully completed, all or any surplus money derived from the sale of said bonds remaining in the City Treasury shall be used exclusively for the purpose of redeeming said bonds or paying the interest thereon.

Permanent revolving account.

Section 91. General Reserve Account. The Council shall create and maintain a permanent revolving account, to be known as the General Reserve Account, for the purpose of keeping the payment of the running expenses of the City on a cash basis. Said account shall be maintained in an amount sufficient to meet all legal demands against the treasury for the first four months or other necessary period of each fiscal year prior to the collection of taxes. The Council shall have no power to transfer from the General Reserve Account to any other account or fund any moneys except such sum or sums as may be required for the purpose of placing such account or fund as nearly as possible on a cash basis, and except in the event of a public emergency, when it shall be determined by a vote of at least five (5) members of the Council that such moneys shall be expended in order to insure the safety and lives and property of the City or its inhabitants. It shall be the duty of the Council to provide that all moneys so transferred from the General Reserve Account be returned thereto on or before the end of the fiscal year in which said transfers are made; provided, that in any fiscal year in which the total balance in said General Reserve Account exceeds thirty per cent of the total amount of the general budget for that year, the Council may appropriate such excess for any City purpose without returning the same. (See subsection [h] Section 69.)

Short term notes.

Section 92. Borrowing Money on Short Term Notes. If there is not sufficient cash reserve to meet current obligations, bonds or notes may be issued in anticipation of the collection of special assessments, and bonds, notes, or registered warrants on the treasury may be issued in anticipation of the collection of taxes, as authorized by the City Council by ordinance and shall not be deemed the creation of debt within the meaning of Section 90 of this Article. Bonds, notes, or registered warrants on the treasury issued in anticipation of the collection of the taxes of any fiscal year shall be issued only

during the first four months of such fiscal year and each such bond, note, or warrant shall specify that it is payable solely out of the first revenues of the fiscal year in which issued, and before the close of such year, and shall not bear a higher rate of interest than five (5) per cent per annum, and the total amount of such bonds, notes or warrants, authorized and issued in any fiscal year shall not, in the aggregate, be more than twenty-five (25) per cent of the total appropriations of the City for such year. Nothing herein contained shall be construed to authorize the incurring of an obligation against the municipality in excess of that authorized to be incurred by the constitution of the State of California.

Section 93. Loans and Advances. It shall be lawful from time to time to advance money in the General Fund to any bond fund or to use any money in the General Fund for any purpose for which a loan shall have been authorized and bonds actually voted but not yet issued and sold, and the City officials need not sell said bonds until it is necessary to repay the General Fund advances or to replenish such loan fund or funds. The credit of the City shall not be given or loaned to or in aid of any individual, association or corporation; except that suitable provision may be made for the aid and support of the poor. Loans and advances.

Section 94. Contracts. In the construction, reconstruction, or repair of public buildings, streets, utilities and other public works, and in furnishing any supplies, materials, equipment, or contractual services for the same, or for other use by the City, when the expenditure therefor shall exceed the sum of one thousand dollars, the same shall be done by written contract, except as otherwise provided in this Charter, and the Council on the recommendation of the Manager or the head of the Department in charge, if not under the Manager's jurisdiction, shall let the same to the lowest responsible and reliable bidder, not less than ten days after advertising for six consecutive days in a newspaper of a general circulation in the City for sealed proposals for the work contemplated, provided however, that the Council upon the recommendation of the Manager and by a vote of five of its members may order the performance of any such construction and reconstruction or repair work by the appropriate City forces when the estimates submitted as part of the Manager's recommendations indicate that the work can be done by the City force more economically than if let by contract. In case of a great public calamity, such as extraordinary fire, flood, storm, epidemic or other disaster the Council may, by resolution, passed by a vote of five of its members, determine and declare that the public interest or necessity demands the immediate expenditure of public money to safeguard life, health or property, and thereupon they may proceed, without advertising for bids or receiving the same, to expend, or enter into a contract involving the expenditure of any sum required in such emergency, on hand in the City treasury and available for such purpose. Contracts.

All contracts before execution shall be approved as to form and legality by the City Attorney.

Each bidder shall furnish with his bid such security or deposit insuring the execution of the contract by him as shall be specified by the Council or as provided by general law.

Bond
required

The Council shall require each contractor under this Section to insure the faithful performance of his contract by delivering to the City a surety bond in an amount specified by the Council, executed by a surety company authorized to do business in the State of California, and in addition thereto, the retention of sufficient payments under the contract to insure the protection of the City against labor or material liens.

The Council, on the recommendation of the Manager, or the Head of the Department not under the jurisdiction of the Manager, may reject any and all bids and re-advertise for bids. The Council may provide that no contract shall be awarded to any person, firm or corporation, if prison or alien labor is to be employed in performing such contract, or if the wage schedule for employees engaged in performing such contract are based on more than eight hours of labor per day. Any contract may be let for a gross price or on a unit basis and may provide for liquidated damages to the City for every day the contract is uncompleted beyond a specified date. It shall be competent in awarding any contract to compare bids on the basis of time completion, provided, that when any award has been made in consideration, in whole or in part, of the relative time estimates of bidders for the completion of the work, the performance in accordance with such time limits shall be secured by a surety bond as hereinabove provided with adequate sureties and penalties and provided further, that for any contract awarded solely or partially on a specified time for completion the Council shall not extend such time limits unless such extension be recommended by the Manager and the Head of the Department concerned.

No officer, whether elected or appointed, of The City of San Diego shall be or become directly or indirectly interested in, or in the performance of, any contract with or for The City of San Diego, or in the purchase or lease of any property, real or personal, belonging to or taken by said City or which shall be sold for taxes or assessments or by virtue of legal process or suit of said City. Any person wilfully violating this Section of the Charter shall be guilty of a misdemeanor and shall immediately forfeit his office and be thereafter forever barred and disqualified from holding any elective or appointive office in the service of the City.

All contracts entered into in violation of this Section shall be void and shall not be enforceable against said City; provided, however, that officers of a municipality may own stock in public utility service corporations and the City permitted to contract for public utility service when the rates for such service are fixed by law or by virtue of the Railroad Commission of the State of California, and in such cases such con-

tracts shall be valid and enforceable obligations against the municipality, and the officer interested as a stockholder in such public utility corporation shall not be deemed to have an interest in such City contract within the meaning of this Section of the Charter.

Section 95. Preference in Accepting Bids. Any board, officer, commission or department empowered by this Charter to award contracts for goods, wares, merchandise, stores, supplies, drugs, subsistence, materials, equipment, tools, or other products of industry or manufacture, the cost or expense of which is to be paid by the City or any board, office, commission or department thereof, may award a contract for the purchase, sale and furnishing thereof to a regular bidder other than the lowest responsible bidder therefor, when, in the judgment of such awarding board, officer, commission or department, the best interests of the City and public policy relating to the general welfare will be subserved thereby, and when the bidder specifies in his bid the following terms and conditions to be observed in the execution of the contract and he furnishes additional security for the fulfillment thereof, to wit:

(a) That the articles, products or materials are to be in whole or in part manufactured, made or produced in industries established in The City of San Diego or its vicinity, specifying the name and location thereof; and

(b) That the mechanical and other labor, employed in the manufacture, making or production of such articles, products or materials, is to be paid the highest rates of wages prevailing in private industries for comparable work, specifying such rates for each class of labor to be employed;

Provided, however, that the bid of such higher bidder does not in amount or price exceed by five per cent that of the lowest responsible bidder for such contract.

Section 96. Progressive Payments. Any contract may provide for progressive payments if the ordinance or resolution authorizing the work so prescribes, but no progressive payment can be provided for or made at any time which, with prior payments, shall exceed in amount at that time seventy-five per cent of the value of the work done and materials used and no contract shall authorize or permit the payment of more than seventy-five per cent of the contract price before five days after the expiration period of filing liens, and the acceptance thereof by the Head of the Department concerned, and the Manager.

Section 97. Collusion in Bidding. If at any time it shall be found that any party or parties to whom a contract has been awarded has, in presenting any bid or bids, been guilty of collusion with any party or parties in the submission of any bid or for the purpose of preventing any other bid being made, then the contract so awarded may be declared null and void by the Council and the Council shall thereupon re-advertise for new bids for said work or the incomplete portion thereof. The Council shall debar from future bidding all

persons or firms found to be in violation of this Section, or any future firm in which such person is financially interested.

Alteration
in contracts.

Section 98. Alteration in Contracts. Whenever it becomes necessary in the opinion of the Manager to make alterations in any contract entered into by the City, such alterations shall be made only when authorized by the Council upon written recommendation of the Manager. No such alterations shall be valid unless the new price to be paid for any supplies, material, or work under the altered contract shall have been agreed upon in writing and signed by the contractor and the Manager prior to such authorization by the Council.

Continuing
contracts.

Section 99. Continuing Contracts. No contracts involving the payment of money out of the appropriations of more than one year, except public utility franchises, and except bonded indebtedness as provided in Section 90 of this Article, shall be made for a period of more than five years and no such contract shall be valid nor shall any rights, indebtedness, liabilities, nor obligations arise thereunder or be created thereby without notice published in the official newspaper of the City at least two weeks before final action of the Council upon such contract and the approval of not less than five members of the Council and unless submitted to the electors of the City at a regular or special election and approved by a two-thirds majority of those voting thereon.

Favoritism.

Section 100. No Favoritism in Public Contracts. No officer or employee of the City shall aid or assist a bidder in securing a contract to furnish labor, or material, or supplies at a higher price or rate than that proposed by any other bidder, or shall favor one bidder over another, by giving or withholding information, or shall wilfully mislead any bidder in regard to the character of the material or supplies called for, or shall knowingly accept materials or supplies of a quality inferior to that called for by the contract, or shall knowingly certify to a greater amount of labor performed than has actually been performed, or to the receipt of a greater amount of material or supplies than has actually been received. Any officer or employee found guilty of violation of this Section shall forfeit his position immediately.

Effect of
collusion or
favoritism.

Section 101. When Contracts and Agreements are Invalid. All contracts, agreements or other obligations entered into, all ordinances and resolutions passed, and orders adopted, contrary to the provisions of Sections 97 and 100 of this Article may be declared null and void by the Council and thereupon no contractor whatever shall have any claim or demand against the City thereunder, nor shall the Council or any officer of the City waive or qualify the limitations fixed by such section or fasten upon the municipality any liability whatever; provided that all persons who have heretofore furnished material for and/or performed labor on the job shall be protected by the contractor's surety bonds. Any wilful violation of these Sections on contracts shall constitute malfeasance in office, and any officer or employee of the City

found guilty thereof shall thereby forfeit his office or position. Any violation of these Sections, with the knowledge, expressed or implied of the person or corporation contracting with the City shall render the contract voidable by the Council.

Section 102. Continuanace of Contracts. All contracts entered into by the City, or for its benefit, prior to the taking effect of the Charter, shall continue in full force and effect. All public work begun prior to the taking effect of the Charter shall be continued thereunder. Public improvements for which legislative steps shall have been taken under laws or Charter provisions existing at the time this Charter takes effect may be carried to completion in accordance with the provisions of such existing laws and Charter provisions. Existing contracts.

Section 103. Franchises. The Council shall have power, subject to and in accordance with the provisions of the general laws of the State of California, in effect at that time, to grant to any person, firm, or corporation, franchises, and all renewals, extensions and amendments thereof, for the use of any public property under the jurisdiction of the City. Such grants shall be made by ordinance adopted by a vote of five of the members of the Council and only after recommendations thereon have been made by the Manager and an opportunity for free and open competition and for public hearings have been given. No ordinance granting a franchise or a renewal, extension or amendment of an existing franchise shall be effective until thirty days after its passage, during which time it shall be subject to the referendum provisions of this Charter. No franchises shall be transferable except with the approval of the Council expressed by ordinance. Franchises.

Section 104. Term and Plan of Purchase. Within six months after this Charter takes effect, copies of all franchises existing at the time shall be deposited with the Manager. The Council shall certify to the existence of such franchises and shall recognize them for periods not longer than the date of expiration on each. The Manager shall keep a public record of all franchises, leases or permits granted for the use of the public property of the City. The terms of all new franchises shall not extend beyond a period of fifty years, provided that any franchise may be terminated by ordinance at specified intervals of not more than ten years after the beginning of operation, whenever the City shall determine to acquire by condemnation or otherwise the property of any utility necessary for the welfare of the City, such termination to be effective upon and not before payment of the purchase price for the property to be acquired. The method of determining the price to be paid for the property so acquired shall be that provided by law affecting the purchase of public utility properties in effect at the time of the purchase or condemnation of such public utility property. Purchase of franchises.

Section 105. Right of Regulation. All grants, renewals, extensions or amendments of franchise, whether it be so provided in the ordinance or not, shall be subject to the right of Regulation of franchises.

Same

the City to repeal the same by ordinance at any time for misuse or non-use, or for failure to begin construction within the time prescribed, or otherwise to comply with the terms prescribed; also to initiate proceedings before the proper tribunal to require proper and adequate extensions of plant and service, the maintenance of the plant and fixtures at the highest practicable standard of efficiency, the establishing of reasonable standards of service and quality of products, and the preventing of unjust discrimination in service or rates; and also at any time to examine and audit the accounts and other records of any franchise holder, and to require annual and other reports from each franchise holder; provided that the Council may prescribe more detailed forms for the franchise holders within its jurisdiction in addition to the forms and reports required by the General Laws of the State of California and the regulations of the State Railroad Commission; and to impose such other regulations as may be necessary for the health, safety and welfare of the public.

The City may provide that the percentage of gross annual receipts derived from the franchise privilege as fixed by the General Law of the State of California shall be paid to the Treasurer in such amounts and at such times as shall be determined in the ordinance granting the franchise.

The owner of a street or interurban railway franchise or privilege shall at all times keep that portion of the street occupied by his or its tracks in good condition, constantly in repair, flush with the street and with good crossings, and in the event that the street on which said franchise or privilege is granted shall be paved either by the City or under proceedings authorized by the General Laws of the State, the said owner of said franchise or privilege shall be required to pay for only that portion of any construction in excess of that covered by the specifications for the improvement of the rest of the street and which shall be necessary to provide a safe and suitable foundation for the operation of car lines over a paved street. It is the intent and purpose of this Section to relieve the owner of a franchise or privilege to operate street cars on the streets of The City of San Diego of the cost of new surface pavement between the tracks of said owner and for two feet on either side thereof on streets to be hereafter paved, and to require the owner of said franchise or privilege to lay a suitable foundation for the operation of car lines over a paved street.

Nothing herein contained, however, shall relieve the said owner of said franchise or privilege of his or its obligation to keep those portions of the streets occupied by the said owner constantly in repair flush with the street, and with good crossings, and to keep that portion of the pavement now existing or which may hereafter be placed between the rails, and for two feet on each side thereof, and between the tracks if there be more than one, in good condition.

In the event that a street on which a franchise under this Section shall have been granted shall be paved or improved

under any of the General Laws in force at the time said improvement is started, the property owners shall be required to bear the entire cost of the improvements of the street including the cost of improving that portion of the street occupied by the owner of said franchise, save and except that portion required to be borne by the owner of the franchise, as hereinbefore provided.

Section 106. Revocable Permits. Permits revocable at will of the Council for such minor or temporary utility purposes and privileges as may be specified by general ordinance may be granted or revoked by the Council from time to time in accordance with the terms and conditions prescribed thereby and such permits shall not be deemed to be franchises as the term is used in this Charter. Such general ordinance, however, shall be subject to the same procedure as an ordinance granting a franchise and shall not be passed as an emergency measure. Revocable permits.

Section 107. Official Bonds. The Council shall determine which officers shall give bonds for the faithful performance of their official duties and fix the amount of such bonds. Each officer, upon entering upon his duties, shall deliver to the City a surety bond, executed by a reliable surety company authorized to do business in the State of California, in the penal sum required, which surety bonds shall include other offices of which he may be an ex officio incumbent. Said bonds shall be approved by the Council and filed with the Auditor and Comptroller. That of the Auditor and Comptroller shall be filed with the Treasurer. The premium of such bonds shall be paid by the City. Official bonds.

Section 108. Forfeiture of Office for Fraud. Every officer who shall wilfully approve, allow, or pay any demand on the treasury not authorized by law, shall be liable to the City individually and on his official bond, for the amount of the demand so approved, allowed or paid, and shall forfeit such office and be forever debarred and disqualified from holding any position in the service of the City. Fraud.

Section 109. Accounts of Municipally Owned Utilities. Accounts shall be kept for each public utility owned or operated by the City and for each income producing Department or Division distinct from other City accounts and in such manner as to show the true and complete financial result of such City ownership, or ownership and operation, including all assets, liabilities, revenues, and expenses. These accounts shall show the actual cost to the City of each public utility owned and of each income producing Department or Division; the cost of all extensions, additions and improvements; all expenses of maintenance; the amounts set aside for bond interest and redemption; and, in the case of City operation, all operating expenses of every description. Utility accounts

They shall show as nearly as possible the value of any service furnished to or rendered by any such public utility by or to any other city or governmental department. They shall also show a proper allowance for depreciation, insurance,

and interest on the investment, and estimates of the amount of taxes that would be chargeable against the property if privately owned or subject to State tax. When bonds are hereafter issued for any income producing activity, the net income arising from such activity shall be applied upon the interest and principal of said bonds. The Council shall annually cause to be made and printed for public distribution a report showing the financial results of such City ownership, which report shall give the information specified in this Section and such other information as the Council shall deem expedient.

**Limitations
period on
claims
against city.**

Section 110. Time for Bringing Suits Against the City. No suit shall be brought on any claim for money or damages against The City of San Diego, or any officer or Commission of the City until a demand for the same has been presented to the Auditor and Comptroller and rejected in whole or in part by the Council. If rejected in part, suit may be brought to recover the whole. Except in those cases where a shorter period of time is provided by law, all claims for damages against the City must be presented within six months after the occurrence from which the damages arose, and all other claims or demands shall be presented within six months after the last item of the account of claim is approved.

**Annual
audit.**

Section 111. Audit of Accounts of Officers. Each year the Council shall provide that an audit shall be made of all accounts and books of all the Departments of the City. Such audit shall be made by independent auditors who are in no way connected with the City. Upon the death, resignation or removal of any officer of the City, the Auditor and Comptroller shall cause an audit and investigation of the accounts of such officer to be made and shall report to the Manager and the Council. Either the Council or the Manager may at any time provide for an independent examination or audit of the accounts of any or all officers or Departments of the City government. In case of death, resignation or removal of the Auditor and Comptroller, the Manager shall cause an audit to be made of his accounts. If, as a result of any such audit, an officer be found indebted to the City, the Auditor and Comptroller, or other person making such audit, shall immediately give notice thereof to the Council, the Manager and the City Attorney and the latter shall forthwith proceed to collect such indebtedness.

**Appraisal of
city assets.**

Section 112. Appraisal of City Assets. The Auditor and Comptroller shall appraise annually the value of all real estate buildings, structures, furniture and fixtures, supplies, materials, equipment, and property of any kind owned by the City, and may require every officer or Commission to furnish him the data required therefor. Proper depreciation shall be made of all property of any kind which is used by the City for utility purposes and such depreciation shall be made a charge against the Department and taken account of in the charges made for service by that Department. A proper

balance sheet under classified heads shall be presented to the Manager for inclusion in the annual budget and shall be published in the annual report of the Auditor and Comptroller. This balance sheet shall show all convertible and other assets and all liabilities of the City.

Written charges of misconduct or inefficiency against any officer or employee in the classified service may be filed with the Personnel Director by any person. The Commission shall investigate any such charges, or cause them to be investigated, and report the findings of the investigation to the authority responsible for the appointment of the officer or employee against whom the charges have been made. Any person or persons, making an investigation authorized or required by this section, shall have power to subpoena and require the attendance of witnesses and the production of books and papers pertinent to the investigation and to administer oaths to such witnesses. The person so notified may, within five days after such notice, demand a written statement of the reasons therefor and the right to be heard before the Civil Service Commission. Upon such demand the officer making the lay-off, suspension or removal shall supply the person notified thereof and the Civil Service Commission with a written statement of the reasons therefor, and the Commission shall fix a time and place for a public hearing. Following the public hearing, and such investigation as the Civil Service Commission may see fit to make, the Commission shall report its findings and recommendations to the authority responsible for the lay-off, suspension or removal as specified in the notice. Thereupon the authority making the lay-off, suspension or removal shall make such final disposition of the matter as may be determined by the Civil Service

Commission. The decision of the Civil Service Commission in any such case shall be final. A copy of the written statement of reasons given for any lay-off, suspension or removal, and a copy of any written reply thereto by the officer or employee involved, together with a copy of the decision of the Civil Service Commission shall be filed as a public record in the office of the Civil Service Commission.

Such schedule of compensation shall establish a minimum and maximum for any grade upon the recommendation of the Civil Service Commission, and an increase in compensation, within the limits provided for by any grade, may be granted at any time by the City Manager or other appointing authority upon the basis of efficiency and seniority record after having first received the approval of the Civil Service Commission therefor.

Legislation

Section 19. The council shall act in legislative matters by ordinance only. Other action of the council, unless otherwise provided, may be taken by resolution, motion or order. No ordinance or resolution or order for the expenditure of money shall be passed without receiving the affirmative votes of a majority of all members of the council.

The enacting clause of all borough ordinances shall be as follows: "The people of the Borough of _____ (inserting the name of the borough) of the City and County of San Francisco do ordain as follows." No ordinance shall be passed by the council on the day of its introduction, nor within five days thereafter, nor at any time other than a regular meeting. A proposed ordinance may be amended or modified between the time of its introduction and the time of its final passage, providing its general scope and original purpose are retained. All ordinances shall be signed by the president and attested by the borough clerk and shall be published at least once in some newspaper of general circulation established, printed and published in the borough, and if there be no such newspaper they shall be posted in at least three public places in the borough before becoming effective.

Every ordinance passed by a council shall go into effect at the expiration of thirty days after its final passage, unless otherwise provided in said ordinance and as otherwise provided herein. Ordinances declared by the council to be necessary

as emergency measures for the immediate preservation of public peace, health, safety, or welfare, containing a statement of the reasons for their urgency, and ordinances ordering or otherwise relating to elections, and ordinances relating to public improvements, the cost of which is to be borne wholly or in part by special assessments, may go into effect at the will of the council.

Borough Fiscal Procedure.

Section 20. Within the time limits fixed by this charter for ^{Finances.} the preparation and adoption of the budget of the city and county, every borough shall cause to be prepared and shall adopt a borough budget which shall be a complete statement of the estimate of the revenues and expenditures of the borough departments for the ensuing year. Such budget shall be prepared substantially in the same manner and in such detail as required for the budget of the city and county so far as the same may be applicable. Upon the adoption of the budget, it shall take effect at the same time and shall be binding upon the borough in substantially the same degree and in the same manner as the city and county budget shall be effective and binding upon the city and county.

The fiscal year of a borough shall be the same as for the city and county.

Within the time limits fixed by law or by this charter for the city and county, the council may levy a borough tax sufficient to raise the amount estimated to be required in the annual budget as herein provided, less the amounts estimated to be received from fines, licenses, and other sources of revenue; but such levy, exclusive of the tax to pay the interest and maintain the sinking funds of the bonded indebtedness of the borough and exclusive of special assessment and district taxes and of the library tax, shall not exceed the rate of one dollar on each one hundred dollars of the assessed valuation of the taxable property within the borough. Should the council fail to fix the tax rate within the time prescribed, then the borough tax rate of the previous year shall constitute the rate of the current year. The council, by ordinance, may provide for a higher tax limit, but such tax limit shall not be effective unless the ordinance fixing such tax limit shall first have been approved by a majority of the borough voters voting thereon.

All borough taxes levied, together with interest thereon and any percentage imposed for delinquency and the cost of collection, which shall be those prescribed in this charter for the city and county, shall constitute liens on the property assessed, which taxes, interest, penalties and charges shall be collected in the same manner as is provided for the collection of city and county taxes, and which liens may be foreclosed upon in the same manner as is provided for the foreclosure of liens for city and county taxes.

Same

All borough taxes shall be levied on the valuation of the taxable property within the borough as shall be fixed by the assessor of the city and county for city and county tax purposes.

There shall be a borough fund for each borough. All borough taxes shall be collected by the tax collector of the city and county and shall be paid into the city and county treasury to the credit of the borough concerned, together with all revenues of a borough received from fines, licenses, and other sources of revenue, except as otherwise provided. Money shall be payable from a borough fund only on warrants drawn with the approval of a council by such borough officer as the council may authorize, and when countersigned by the borough controller.

The manner and time within which deposits of borough moneys received from taxes, licenses, fees, fines, penalties, forfeitures, and all moneys accruing to a borough from any source shall be made, the transfer and disposition of all surplus funds and the manner in which borough accounts shall be kept, shall be provided for by ordinance of the Board of Supervisors, and shall be uniform for all boroughs.

The council shall not create, audit, or permit to accrue, any debt or liability in excess of the available money in the borough fund of the borough that may be legally apportioned and appropriated for such purpose; provided that taxes levied though uncollected are deemed available income and revenue for the year for which levied: and provided, that any borough, during the first year of its existence, may incur such indebtedness or liability as may be necessary, not exceeding in all the income and revenue provided for it in such year, nor shall any warrant be drawn, or evidence of indebtedness be issued, unless there be at the time sufficient money in the borough fund legally applicable to the payment of the same, except as hereinafter provided. When any order or demand is presented to the borough controller for approval and such order or demand is a proper and legal order or demand and the amount of said order or demand does not exceed the amount of the unexpended and not otherwise appropriated moneys remaining in the fund out of which said order is payable but where there are not actual moneys on hand in said fund for the payment of said order or demand, the borough controller must indorse thereon the words, "not approved for want of funds," with the date of presentation and shall, in attestation thereof, affix his signature thereto; and shall number such indorsement and shall register said order or demand in the records of his office and shall thereupon deliver said order or demand to the claimant, or his order. From that time, such order or demand shall bear interest at the rate of six per cent per annum. Such orders or demands, so registered as herein provided, shall be paid in the order in which the same are registered.

All license taxes collected by the city and county within the limits of any borough shall be credited to the borough fund of such borough by the treasurer of the city and county.

Borough Tax Subventions.

Section 21. The Board of Supervisors shall provide by ordinance for a system of subventions from tax funds of the city and county to boroughs which expend funds for the maintenance of streets, sewers, libraries, parks, or playgrounds during any fiscal year; provided that in no event shall the subvention to any borough either exceed the aggregate amount which such borough shall appropriate out of borough funds in said fiscal year for said purposes, or exceed the amount which the city and county shall raise in said fiscal year by city and county taxes levied and assessed for like purposes against taxable property within such borough. Such system of subventions may be modified from time to time by the Board of Supervisors by ordinance, but all ordinances so providing shall apply generally to all boroughs. Taxation

Borough Bonded Indebtedness.

Section 22. A borough may incur an indebtedness, exceeding in any year the income and revenue provided for such year, for the purposes of paying the cost of any borough improvement or acquisition within the power of the borough to make or acquire and may issue and sell borough bonds for such purposes, provided said indebtedness and bonds are authorized as herein provided by ordinance or resolution of the borough pledging the faith and credit of the borough therefor. Such ordinance or resolution shall be adopted and the proposition for the issue and sale of such bonds shall be submitted to a vote of the voters of the borough in substantially the same form and manner and according to the same procedure as is provided in this charter for the issue and sale of bonds by the city and county, or in the manner and form and according to the procedure provided in any general law of the State of California in force at the time governing the issue and sale of bonds by municipalities, so far as the same may be applicable. Bonds.

No such debt shall be incurred and no such bonds shall be issued by any borough without the assent of two-thirds of the voters thereof voting thereon at an election to be held for that purpose, nor unless before or at the time of incurring said debt or issuing said bonds provision shall be made for the collection of an annual tax sufficient to pay the interest on such debt or bonds as it falls due and provision shall also be made to constitute a sinking fund for the payment of the principal thereof on or before maturity.

In no case shall borough bonds be issued for a term which shall exceed the estimated life of the work or improvement for the payment of which they are issued as certified by the council in the ordinance calling the bond election, nor for a term to exceed forty years.

No bond shall be issued on the faith and credit of the borough which will increase the bonded indebtedness thereof beyond five per cent of the assessed valuation of the property within the borough subject to direct taxation as shown by the last preceding assessed valuation.

The proceeds from the sale of borough bonds shall be applied exclusively to the purposes and objects to which the voters of the borough have assented, until such purposes and objects have been accomplished, after which the surplus, if any, shall be transferred to the bond interest or redemption fund of the borough.

Borough bonds shall not constitute or be a debt or general obligation of the city and county.

Borough Special Assessments.

Assess-
ments.

Section 23. In the exercise of its power to provide for the payment of the cost of any public improvement in whole or in part by special assessment levied against the property benefited thereby, a borough acting through its council may establish local improvement districts and levy and collect special assessments and reassessments to pay the costs and expenses of such improvements, which expenses shall be made and assessments levied and collected in conformity with the procedure set forth in this charter for the city and county, or with the procedure set forth in any ordinance passed or adopted thereunder, or with the procedure set forth in any one or more of the general laws of the State of California in force at the time of the improvement relating to the doing of public work or the making of public improvements in municipalities or in counties, so far as the same may be applicable. The council may provide in accordance with the procedure set forth in said charter or said ordinance or general law or laws for the issuance, sale, payment and redemption of interest bearing bonds to represent or to be secured by such assessments or any reassessments remaining unpaid after a certain period, either singly or in the aggregate, and may provide that such assessments or reassessments may be paid in installments and be collected in the same manner in which city and county taxes are collected or otherwise, and for the sale of lands burdened by such assessments or reassessments and for the purchase of same on behalf of the borough in event of nonpayment, and may provide other or alternative methods for such collection by foreclosure or otherwise. Such work or improvements are any permitted to be done by boroughs under this charter or by the city and county or by any such procedure, ordinance or general law.

Nothing contained herein shall prevent the Board of Supervisors from establishing similar local improvement districts where the same shall cover territory in two or more boroughs or parts thereof, or cover territory lying partly within and partly without a borough, or from levying and collecting special assessments and reassessments to pay the cost and expenses of such local public improvements.

In the preparation of estimates, calling for bids, ^{Contracts.} advertising, and awarding of contracts for supplies, materials, labor, official advertising, or for any public work, a borough shall be subject to the provisions of any ordinance as the Board of Supervisors shall provide to be applicable uniformly to all boroughs. Such ordinance shall follow as closely as practicable the provisions of this charter relating to such matters applicable to the city and county and shall charge borough officers with appropriate duties in the premises.

Contracts for the official advertising of a borough shall be let as this charter provides for the letting of contracts for official advertising of the city and county, provided that any such contract shall be let to a daily or weekly newspaper of general circulation established, printed, and published in the borough, if any such there be. If there be no such newspaper, then such contract shall be let to a daily or weekly newspaper of general circulation established, printed and published in the city and county.

Any newspaper of general circulation which for one year next prior to consolidation was established, printed and published in the territory consolidated with the city and county shall thereafter be deemed to have been so established, printed and published as a newspaper of general circulation for said period of one year within said city and county for all purposes of official publication or advertising.

The advertising of the delinquent borough tax list of the property within a borough shall be let by the Board of Supervisors to the lowest responsible bidder for publication in a newspaper of general circulation, established, printed, and published within such borough, if any such there be, and otherwise in such a newspaper established, printed and published in the city and county and such delinquent tax list shall be published in such newspaper at least once.

budget for the payment to the city and county of the costs of such services.

In any such ordinance it shall be provided that all borough officers and employees, not otherwise exempt as herein provided, shall be subject to the civil service provisions of this charter as far as they may be consistently applicable to such officers and employees. Such ordinance shall further provide that there shall be no exemption of any borough officers or employees from the borough civil service system except in the case of elective borough officers, appointees to any borough board or commission not required to give full-time service, and the borough manager, if any. Such ordinance may also provide that any borough officer or employee, who shall be subject to the borough civil service system and who has been continuously employed full time for one year prior thereto by the borough or by the city automatically established as such borough, shall without examination be deemed appointed within the civil service provisions of this charter to the position to which he may be assigned and entitled to all the benefits of said civil service provisions thereafter.

The clerk shall be the appointing officer for such personnel, subject to the civil service provisions of this charter. The clerk shall keep a journal of proceedings of the board and files of all ordinances and resolutions and properly index the same. He shall be responsible for the publication, as required by law, of ordinances, resolutions and other matters acted on by the board for which publication is specified. He shall have such other duties and responsibilities as the board shall prescribe.

Action by Resolution or Ordinance.

Board
action

Section 13. Action of the board of supervisors shall be by ordinance or resolution introduced in writing and passed or adopted by at least a majority of all the members at each reading. Every legislative act shall be by ordinance. The enacting clause of all ordinances shall be, "Be it ordained by the people of the City and County of San Francisco." Every ordinance and resolution, except ordinances making appropriations, shall be confined to one subject which shall be clearly expressed in the title, and ordinances making annual or supplemental appropriations shall be confined to the subject of appropriations. Any ordinance enacting or revising and reenacting a complete municipal code for the city and county, which code shall supersede or repeal all general ordinances

prior thereto, shall be construed to be confined to a single subject.

If any subject is embraced in an ordinance and is not expressed in the title thereof, the ordinance shall be void only as to so much thereof as is not expressed in the title. No ordinance shall be amended in whole or in part unless each section of such ordinance be printed in full, together with the proposed amendment or amendments thereto at the time such amendment or amendments are introduced and voted upon.

An ordinance shall be passed by the board of supervisors only after reference to and report thereon from committee, unless it be an ordinance prepared and reported out by committee, and after two readings and votes at separate meetings of the board, which meetings shall be at least ten days apart; provided, however, that as to an emergency measure as defined in section 16, reference to committee or the readings and votes at separate meetings may be waived by a three-fourths vote of all members of the board. The existing or impending emergency as defined in such ordinance shall be declared by specific vote of the board. No other resolution shall be adopted by the board of supervisors on the date of its introduction and without reference to committee, except by the unanimous consent of the supervisors present. Annual budget and appropriation ordinances shall be passed only after two readings, not less than five days apart, and the second or final passage shall be not less than fifteen days after the introduction of each such ordinance.

No ordinance granting a franchise shall be finally passed within ninety days of its introduction.

Except as otherwise provided in this charter, proposed ordinances which are introduced and referred to committee shall be published in full within three days after their presentation to the board and, if modified, also upon passage on first reading, or as an emergency measure as herein defined; provided, however, that ordinances passed to codify, rearrange and publish existing ordinances, as provided for in section 17, shall not require publication. The term "published" as used in this charter shall mean publication in the official newspaper as required by ordinance or by this charter. The official newspaper is hereby defined to be a daily newspaper of general circulation, published in the city and county and which has a bona fide daily circulation of at least 8000 copies.

The vote on all ordinances and resolutions upon each reading shall be by ayes and noes. The vote by ayes and noes on all measures shall be recorded in the journal of the proceedings of the board.

Approval by Mayor—Reconsideration and Veto.

Section 14. Each proposed resolution or ordinance voted on by the supervisors and failing of passage and each ordinance or resolution adopted by the supervisors shall, within

twenty-four hours of such action, be transmitted to the mayor by the clerk of the board, with appropriate notation of the action of the board thereon. Any resolution acted upon by the board of supervisors by unanimous consent of those present on the date of the introduction of such resolution and any ordinance adopted by the board as an emergency measure shall be acted upon by the mayor within three days after receipt thereof by him from the clerk of the board. All other ordinances or resolutions shall be acted upon by the mayor within ten days of such receipt.

The mayor shall either approve each resolution or ordinance, adopted by the supervisors by signing and returning same to the clerk of the board within the time limit, or he shall disapprove and veto any resolution or ordinance, or veto or reduce any separate appropriation item therein and shall return each such resolution or ordinance to the clerk of the board with his written objections within the time limit. His failure to make such return shall constitute approval and such ordinance or resolution shall take effect without the mayor's signed approval. The clerk of the board shall note such fact on the official copy of such resolution or ordinance. If any separate appropriation item in any resolution or ordinance is vetoed or reduced by the mayor as herein provided, the remainder of any such ordinance or resolution may be approved by the mayor and, if not specifically approved by the mayor, shall take effect without such approval and shall be so noted by the clerk of the board.

The board of supervisors may reconsider any resolution or ordinance vetoed or disapproved, or any separate appropriation item vetoed or reduced by the mayor, and if, after such reconsideration, two-thirds of all the members of the board shall vote in favor of passage thereof, it shall become effective notwithstanding the mayor's veto. If a larger vote is required for the adoption of a measure by the provisions of this charter, such larger vote shall be required to overcome the veto of the mayor. The vote of reconsideration of each such vetoed resolution, ordinance or separate appropriation item therein shall be taken at the convenience of the board. If the ordinance, resolution or separate appropriation item is not passed over the mayor's veto within thirty days, the measure or item shall be lost.

Section 71. All increases in salaries or wages of officers and employees shall be determined at the time of the preparation of the annual budget estimates and the adoption of the annual budget and appropriation ordinances, and no such increase shall be effective prior to the fiscal year for which the budget is adopted. Salary and wage rates for classes of employments subject to salary standardization, as in this charter provided, shall be fixed in the manner provided in this charter. Salary and wage rates for classes of employment not subject to salary standardization, exclusive of compensations fixed by this charter, shall be recommended by the officer, board or commission having appointive power for such employments, and fixed by the budget and the annual salary ordinance. Pending the adoption of salary standards as in this charter provided, the salary and wage rates for positions subject to such standardization shall be as recommended by the officer, board or commission having appointing power for such positions and fixed by the budget and annual salary ordinance; provided that any compensation paid as of January 1, 1931, to an incumbent who legally held a position in the city and county service at that time, shall not be reduced so long as such incumbent legally holds such position. No compensation shall be increased so as to exceed the salary or wage paid for similar services, and of like character and for like service and working conditions in other city departments or in private employments, nor so as to exceed the rate fixed for such service or position in the proposed schedule of compensations issued by the civil service commission under date of April 9, 1930, except as such proposed schedule or compensation is amended as provided in this charter, or extended by the civil service commission to include classifications not included therein.

He shall, by message accompanying such proposed budget, comment upon the financial program incorporated in such budget, the important changes as compared with the previous budget, and the bond issues, if any, recommended by him.

The mayor shall submit to the board of supervisors, at the time that he submits the annual budget estimate, a draft of the annual appropriation ordinance for the ensuing fiscal year, which shall be prepared by the controller. This shall be based on the proposed budget and shall be drafted in such detail as to furnish an adequate basis for accounting control by the controller of each appropriation item for the ensuing fiscal year. Upon submission it shall be deemed to have been regularly introduced and together with the proposed budget shall be published as required for ordinances.

The board of supervisors shall provide printed copies of the mayor's budget message and budget estimate thus prepared, including comparative expenditures and revenues for the current and the preceding fiscal years and other information transmitted therewith, for official use and public distribution.

The board of supervisors shall fix the date or dates, not less than five days after publication as in this section provided, for consideration of and public hearings on the budget estimates and proposed appropriation ordinance.

The board of supervisors may decrease or reject any item contained in the budget estimates, but shall not increase any amount or add any new item for personal services or materials, supplies, or contractual services for any department, unless requested in writing so to do by the mayor, on the recommendation of the chief administrative officer, board, commission or elective officer, in charge of such department.

The board of supervisors may increase or insert appropriations for capital expenditures and public improvements.

After public hearing, and not earlier than the 15th day of May, nor later than the 1st day of June, the board shall adopt the budget estimates as submitted or as amended and shall pass the necessary appropriation ordinance. If the budget is amended by the supervisors, it shall be readvertised prior to final reading or passage, in the manner required for ordinances and resolutions.

Any item in such appropriation ordinance except for bond interest, redemption or other fixed charges, may be vetoed in whole or in part by the mayor within ten days of receipt by him from the clerk of the board of supervisors of the ordinance as passed by the board, and the board of supervisors shall act on such veto not later than the 20th day of June.

The several amounts of estimated revenue and proposed expenditure contained in the annual appropriation ordinance as adopted by the board of supervisors shall be and become appropriated for the ensuing fiscal year to and for the several departments, bureaus, offices, utilities, boards or commissions, and for the purposes specified. The appropriation ordinance shall constitute authority for the controller to set up the required revenue and expenditure accounts. Each department for which an appropriation has been made shall be authorized to use the money so appropriated for the purposes specified in the appropriation ordinance, and within the limits of the appropriation. Appropriation items for bond interest, bond redemption, fixed charges and other purposes not allocated to a specific department shall be subject to the administration of and expenditure by the chief administrative officer for the respective purposes for which such appropriations are made.

Annual Salary Ordinance.

Section 73. The number and rates of compensation for all positions continued or created by the supervisors in adopting each annual budget, and each annual or supplemental appropriation ordinance, shall be established and enumerated in an ordinance continuing and creating positions in city and county departments and offices, and providing the rates of compensation therefor, which ordinance shall be passed or amended at the same time as the annual or supplemental appropriation ordinance is passed. Such ordinance shall be subdivided for each department or office and each organization subdivision thereof. The number of positions enumerated therein shall be segregated by classes according to the civil service classification of employments, and the positions in any department or office under any such class shall not be listed individually or subdivided, except where necessary to show varying rates of pay for employments included in any such class. Rates of compensation enumerated shall be those established by salary standardization schedules, and shall not be listed for individuals or individual positions, except where the compensation of incumbents is higher than the rate fixed by salary standardization, which compensations shall not be reduced so long as the incumbents legally hold such positions. Any increase in the number of positions allowed for any department or office, and seniority or other compensation increases authorized as provided elsewhere in this charter for officers or employees, may be covered by amendment of the appropriate section of the ordinance herein referred to, provided that any such amendment shall include the entire section of such ordinance relating to the department or office in which the increase in number of positions or compensations shall occur. The said ordinance shall constitute the legal basis for check by the civil service commission or the controller as to the legality of the

Annual

ordinance

creation of any position in the city and county service and the rate of compensation fixed therefor.

Appropriations to Meet Utility Deficits.

Appropriations to meet utility deficits.

Section 74. In the event the public utilities commission and the mayor shall propose a budget for any utility which will exceed the estimated revenue of such utility, it shall require a vote of two-thirds of all members of the board of supervisors to approve such budget estimate and to appropriate the funds necessary to provide for the deficiency. No such budget of expenditures in excess of estimated revenues shall be so approved to provide for and include proposed expenditures for additions, betterments, extensions or other capital costs, which shall require financing by authorization and sale of bonds.

The mayor shall recommend and the supervisors shall establish revolving funds designated in this charter as the special election fund and the purchaser's revolving fund, and they shall respectively recommend and establish such revolving funds as may be necessary to facilitate the operation of each utility and institution of the city and county.

Accounts shall also be kept by the controller of each expense appropriation item authorized by the board of supervisors. Every warrant on the treasury shall state specifically by title and number the appropriation item against which such warrant is drawn.

Each such revenue and expense account shall show in detail the amount of the appropriation or appropriations made therefor by the supervisors, the amount drawn thereon, the amount of encumbrance for purchase orders, contracts or other obligations theretofore certified by the controller as against it, and the unencumbered balance to the credit thereof. This balance shall be the "unencumbered balance" as this term is used in this charter.

Transfers.

Transfer of appropriations.

Section 77. Upon written recommendation of the chief administrative officer, or a board or commission for the use of which funds have been appropriated, and the approval of the mayor, the board of supervisors may transfer an unencumbered balance, or part thereof, of an appropriation made for

the use of one department, to another. No such transfer shall be made of utility, bond, school, pension or trust funds, except by way of loans as in this charter provided. On request of a department head and approval by the chief administrative officer, board or commission, respectively, and on the authorization of the controller, funds appropriated for a specific purpose of such department which become surplus may be transferred and used for another specific purpose within the department. The controller shall prescribe the method to be used in making payments for inter-departmental services.

Section 78. On or before the 15th day of September of each year, the board of supervisors by ordinance shall levy a tax, the estimated proceeds of which, together with the total amount of receipts and revenues estimated to be received from all sources, will be sufficient to meet all appropriations made by the annual appropriation ordinance. ^{Annual tax levy}

Revenue to meet current annual interest and redemption or sinking fund for outstanding bonds shall always be provided out of the tax levy; provided, however, that to the extent to which funds are appropriated by the public utilities commission, and available for annual interest and redemption or sinking fund on bonds issued for acquisition, construction or extensions of any utility, no tax shall be levied therefor.

The tax levy shall not exceed the rate of one dollar and sixty-five cents (\$1.65) on each one hundred dollars (\$100) valuation of the property assessed in and subject to taxation by the city and county, exclusive of the following items: (1) State taxes, and taxes for the interest and sinking fund on bonded indebtedness of the city and county; (2) the cost of constructing, maintaining and improving (a) schools, (b) libraries, which tax shall be not less than four cents on each one hundred dollars, (c) parks and squares, which tax shall be not less than ten cents on each one hundred dollars, (d) playgrounds, which tax shall be not less than seven cents on each one hundred dollars, (e) streets, sewers and buildings; (3) the cost of (a) elections, (b) civil service, which tax shall not be less than one-half cent on each one hundred dollars, (c) obligations imposed by state legislative or constitutional enactment and (d) obligations imposed by vote of the people of the city and county.

Section 79. The tax-rate may be such as to produce, by a specifically designated rate, an amount not to exceed one per cent of the amount of the tax levy required to meet expense appropriations, as a reserve fund for any emergency as defined in section 25. Appropriations from such reserve fund shall be made only on the recommendation of the department head concerned, the approval of the chief administrative officer or the board or commission in charge of such department, the ^{Emergency reserve fund}

recommendation of the mayor to the board of supervisors that such appropriation be made, and the vote of three-fourths of the board of supervisors.

The balance in such reserve fund at the end of any year shall be maintained and carried forward. Balances created by unexpended appropriations or unappropriated revenues may, by order of the board of supervisors, be paid into such fund and subsequent annual levies may be made until the accumulated balance in the fund shall amount to a sum not to exceed three per cent of the tax levy required to meet expense appropriations in the then current fiscal year.

Fund Balances—Supplemental Appropriations.

Section 80. Unused and unencumbered appropriations or unencumbered balances in revenue or expense appropriations of the city and county for any fiscal year, exclusive of revenue or moneys required by law to be held in school, bond, bond interest, bond redemption, pension, trust, utility or other specific funds, or to be devoted exclusively to specified purposes, and revenue collected during any fiscal year in excess of the estimated revenue as shown by the annual budget and appropriation ordinance for such fiscal year, shall be held as surplus.

Such surplus, if not appropriated to the emergency reserve fund as provided by section 79, shall be taken into account as revenue of the ensuing fiscal year; provided, however, that any such surplus created or existing at any time during any fiscal year may be appropriated by the supervisors at the last meeting of such board in any month, by means of an ordinance designated as a supplemental appropriation ordinance, on the recommendation of the chief administrative officer, or any board, commission or elective officer, respectively, and the approval and submission by the mayor of a supplemental budget estimate or request, in the same manner and subject to the same conditions except time, as provided in this charter for the submission and approval of the annual budget and appropriation ordinance.

Tax Collection Reserves and Temporary Loans.

Section 81. The board of supervisors may create by annual tax levy and gradually build up and maintain a revolving fund to be used exclusively for paying that portion of the expenses of the city and county which becomes due and payable or which must be made prior to the receipt of tax payments for any fiscal year; provided that such fund shall be completely reimbursed each year from tax and other revenues not later than the 1st day of January of each fiscal year, and when so reimbursed, such fund shall not be used, drawn upon or borrowed for any further expenditure or other purpose during such fiscal year; and provided, further, that such revolving fund shall not at any time exceed the estimated expenditures for the first five months of the then current fiscal year, less the amount

Revolving
fund

of estimated revenues and receipts from sources other than tax-rate revenues.

In the event that funds are not available in such a revolving fund to meet authorized expenditures for the first six months of any fiscal year, the board of supervisors during the first six months thereof, on the recommendation of the controller, the chief administrative officer and the mayor and the written approval of the officer, board or commission responsible for the management and control of the fund from which it is proposed that the temporarily idle balances be borrowed, may, by ordinance, authorize the temporary borrowing of idle unencumbered balances in any fund except a pension fund, for a period of not to exceed six months, at not less than the then current rate of interest paid by the banks to the city and county on city and county funds deposited with such banks. Such approval shall specify that the amount proposed to be lent from such fund will not be needed for the purpose of such fund prior to the 1st day of January next ensuing. The fund from which such loan is made shall be charged or encumbered with the amount of such loan and such amount shall not be considered as available in such fund for any other appropriation or encumbrance until the loan is repaid.

Such loans shall be secured by, and made solely in anticipation of the collection of taxes levied or to be levied for the current fiscal year, and such loans shall constitute the first demand on, and shall be repaid from the first tax collections for, such current fiscal year.

Receipt, Custody and Deposit of Funds.

Section 82. Disbursement of all public or other funds in the custody of the treasurer, except reimbursement transfers between departments as provided in section 77, shall be made only on warrants drawn by the controller. All moneys and checks received by any officer or employee of the city and county for, or in connection with the business of, the city and county, shall be paid or delivered into the treasury not later than the next business day after its receipt, and shall be receipted for by the treasurer. Daily statements of such receipts and deposits shall be prepared and transmitted to the controller and the treasurer. All pension funds and securities shall be deposited with the treasurer.

Receipts and
deposits

The treasurer, with the written approval of the mayor, the controller and the president of the board of supervisors, may deposit funds in his possession in any licensed national bank or banks within this state, or in any bank or banks authorized to do a banking business and organized under the laws of this state. A depository bank shall furnish as security for such deposits bonds of the United States or of this state, or of any county, municipality, or school district within this state approved by the treasurer and the city attorney. The market value of bonds furnished as security shall be at least ten per cent in excess of the amount of the deposits secured thereby.

The market value of the securities shall be maintained in such proportion at all times and the treasurer is hereby charged with the responsibility of enforcing this requirement. The amount of the deposit shall not exceed the face value of such bonds.

All deposits shall be conditional upon payment of a reasonable rate of interest, not less than two per cent per annum on daily balances. The rate of interest shall be fixed annually in the month of January of each year for such calendar year by the treasurer, the controller and the mayor, and such rate shall be reported in writing forthwith to the board of supervisors. Interest on all moneys so deposited shall be payable quarterly to the treasurer.

No deposit in any bank shall at any time exceed fifty per cent of the paid up capital stock of such bank, and while there are other depository banks available, no deposit in any bank shall exceed ten per cent of the funds under the control of the treasurer available for deposit. Deposits shall be subject to withdrawal on joint demand of the treasurer and the controller. In the event of failure of any depository bank to repay on demand any moneys so held on deposit, the treasurer, with the written approval of the mayor, may, after ten days' written notice to such bank, proceed to sell at public or private sale, any or all of the bonds so held by him as security. Ten days' notice of such sale shall be given by publication. At any time before the sale of the bonds the bank may repay the money deposited, with interest thereon and any expense that may have been incurred by the treasurer relating to or incident to such sale, and the bonds shall not be sold.

The treasurer shall not be responsible for any loss of public moneys resulting from a deposit thereof made in accordance with the provisions of this section. The treasurer shall be responsible for the safe-keeping of all securities deposited by banks. The transfer of money for deposits shall be at the expense of the depository.

Funds received by donation, bequest or legacy for a specific purpose and held in trust for the benefit of the city and county may, with the approval of the controller, be invested by the officer, board or commission charged with control and administration of such trust or funds in securities legal for savings banks.

All interest on moneys so deposited shall accrue to the benefit of the city and county, except that interest derived from the deposit of any bond, utility, pension, trust or other fund created for a specific purpose shall accrue to such fund. Public money, other than that of the city and county, coming into the hands of the treasurer shall be kept as provided by law.

Custody of Moneys and Securities.

Section 83. The supervisors shall by ordinance provide for the safe custody of all money and property in the possession or under the control of the treasurer. Pending the adop-

tion of such ordinance, moneys and securities in possession of the treasurer shall be deposited in a joint custody safe with two combination locks, both of which must be unlocked to open the safe. The combination of one lock shall be known only to the treasurer and one deputy in his office selected by him, and the combination of the other shall be known only to the controller and such assistant in his office as shall be selected by him. The joint custody safe shall be opened only in the presence of the treasurer and either the controller or the assistant in his office having knowledge of the combination, or in the presence of the controller and either the treasurer or the assistant in his office having knowledge of the combination, and either the controller or the said assistant shall attend, at the request of the treasurer, to open the joint custody safe.

A complete record of moneys and securities on deposit in the joint custody safe shall be kept in a joint custody account and the record of any withdrawals shall be verified by the initials of the controller or his said assistant and the treasurer or his said assistant. Money required for current daily payments to be made from the treasury may be withdrawn from the joint custody safe and deposited in another safe, and the balance thereof shall be verified daily at the close of business hours by the treasurer and the controller.

Clearing House Representative.

Section 84. The board of supervisors, by ordinance, upon the recommendation of the mayor, the treasurer and the controller, may designate any bank qualified to be a depository under this charter to be the clearing house representative of the city and county, and the city and county may pay a reasonable fee for the service thereof. The necessary procedure shall be provided by ordinance.

Expenditures and Payment of Claims.

Section 85. No money shall be drawn from the treasury of the city and county, nor shall any obligation for the expenditure of any money be incurred except in pursuance of appropriations or transfers made as in this charter provided.

All salaries and wages shall be payable semi-monthly. No salary or wage shall be paid in advance. It shall be official misconduct for any officer or employee to present or approve a claim for full-time or continuous personal service other than in the manner provided by this charter.

All warrants shall be drawn by the controller, in payment of claims, prepared and signed by the responsible official, for service, supplies and other obligations against the city and county, supported by proper invoices, bills and other necessary data.

The controller shall audit such claims. If he finds the same to be correct and proper in all particulars, and clearly within the purposes for which the appropriation item to which it is charged was made, and that there is an adequate balance in

Payment

and salaries.

such appropriation item to meet the payment, he shall draw and approve the warrant therefor.

If all or any portion of the claim is not correct, or if all proceedings required incidental to such payment have not been followed, the controller may approve such part of such claim as he shall find correct and draw the warrant therefor, or he may return the claim to the department concerned with his disapproval.

Prior to his drawing any warrant therefor, the controller may, in addition to any other inspection required by any other official, make such investigation and inspection as he deems necessary as to the quality, quantity and condition of services, material, supplies or equipment received by any officer or department for which payment is to be made by such warrant. If, in his opinion, any claim is not legal, he shall withhold approval of the same and immediately return such claim, together with a statement of his action thereon and reason therefor, to the responsible official, or transmit the same to the mayor for instructions. No warrant shall be drawn in payment of a claim against a fund in which there is an insufficient unencumbered balance for the payment thereof. Such claims, if legal, shall be registered by the controller in the order of receipt by him, and shall be paid in such order as moneys to cover the same become available in the proper fund.

Limitation on Incurrence of Liabilities.

Section 86. No ordinance or resolution for the expenditure of money, except the annual appropriation ordinance, shall be passed by the board of supervisors unless the controller first certify to such board that there is a sufficient unencumbered balance in a fund that may legally be used for such proposed expenditure, and that, in the judgment of the controller, revenues as anticipated in the appropriation ordinance for such fiscal year and properly applicable to meet such proposed expenditure will be available in the treasury in sufficient amount to meet the same as it becomes due.

Certification
by con-
troller

No obligation involving the expenditure of money shall be incurred or authorized by any officer, employee, board or commission of the city and county unless the controller first certify that there is a valid appropriation from which the expenditure may be made, and that sufficient unencumbered funds are available in the treasury to the credit of such appropriation to pay the amount of such expenditure when it becomes due and payable.

Every officer who shall approve, allow or pay any demand on the treasury not authorized by law, ordinance or this charter, shall be liable to the city and county individually and on his official bond for the amount of the demand so illegally approved, allowed or paid.

Each such certification shall be immediately recorded by the controller. Each sum so recorded shall be an encumbrance for

the purpose certified until such obligation is fulfilled, canceled or discharged, or until the ordinance or resolution is repealed by the board of supervisors.

All obligations incurred, all ordinances passed, and resolutions and orders adopted, contrary to the provisions of this section, shall be void, and any claim or demand against the city and county based thereon shall be invalid.

Limitation on Claims for Damages.

Section 87. All claims for damages against the city and county must be presented to the controller within six months after the occurrence from which it is claimed the damages have arisen; otherwise there shall be no recovery thereon.

PURCHASING.

Purchase and Sale of Material, Supplies and Equipment.

Section 88. The purchaser of supplies shall purchase all materials, supplies and equipment of every kind and nature, and enter into agreements for all contractual services required by the several departments and offices of the city and county, except as in this section otherwise provided. Purchases of books, magazines and periodicals for the library departments, works of art for museums and other articles or things of unusual character as to the purchasing thereof, may, on the recommendation of a department head and the approval of the purchaser, be purchased directly by said department head.

Purchases for construction operations, or for any operations conducted outside the boundaries of the city and county may, on the recommendation of the department head in charge thereof and the approval of the purchaser of supplies, be made by the department head. All such purchases made by officials of departments other than the purchasing department shall be made in accordance with regulations established by the purchaser of supplies. The purchaser of supplies shall have authority to exchange used materials, supplies, and equipment to the advantage of the city and county, advertise for bids, and to sell personal property belonging to the city and county on the recommendation of a department head that such articles are unfit for use.

All purchases shall be by written purchase order or written contract. All purchases in excess of one thousand dollars (\$1,000) shall be by written contract, provided, however, that on the recommendation of the department head, in case of an emergency actually existing, the purchaser of supplies, with the approval of the chief administrative officer, may make such purchases in the open market on the basis of informal bids. At least three bids or quotations shall be secured on open market purchases and a permanent record of all such quotations shall be kept. All contracts and purchase orders in excess of two thousand dollars (\$2,000) for material, supplies or equipment shall require the signature of the chief administrative officer in addition

Same.

to the signature of the purchaser of supplies. The purchaser of supplies shall not enter into any contract or issue any purchase order unless the controller shall certify thereon that sufficient unencumbered balances are available in the proper fund to meet the payments under such purchase order or contract as these become due.

The purchaser of supplies shall establish specifications and tests to cover all recurring purchases of material, supplies and equipment. He shall, as far as is practicable, standardize materials, supplies and equipment according to the use to which they are to be put, when two or more types, brands or kinds are specified or requested by individual departments.

Purchases of equipment shall be made in accordance with specifications furnished by the department requiring such equipment in case the use of such equipment is peculiar to such department. For patented or proprietary articles sold by brand name, the purchaser may require each department requisitioning same by such brand name, to furnish specifications of the article requisitioned and may advertise for bids on the basis of such specifications, under conditions permitting manufacturers of or dealers in other articles made and sold for the same purpose to bid on such specifications or on the specifications of their own product. If the purchaser of supplies recommends the acceptance of the lowest or best bid, stating his reasons in writing therefor, and if the department head concerned recommends the acceptance of any other bid on such proprietary articles, stating his reasons in writing therefor, the award shall be determined by the controller.

The purchaser of supplies shall require departments to make adequate inspection of all purchases, and shall make such other inspection as he deems necessary. He shall direct the rejection of all articles which may be below standards, specifications or samples furnished. He shall not approve any bill or voucher for articles not in conformity with specifications, or which are at variance with any contract.

He shall have charge of central storerooms and warehouses of the city and county. He shall also have charge of a central garage and shop for the repair of city and county equipment. All garages and shops heretofore maintained by departments for the construction, maintenance, and repair of departmental supplies and equipment, and the personnel assigned thereto, excepting the shop and personnel for fire alarm, police telegraph and traffic signal manufacture and repair operated by the department of electricity, are hereby transferred to said central garage and shop.

He shall, under the supervision of the controller, maintain an inventory of all material, supplies and equipment purchased for and in use in all departments and offices of the city and county. He shall be responsible for the periodic check of such property, and in case of loss or damage deemed by him to be due to negligence, he shall report thereon to the mayor, the chief administrative officer and the controller. He shall

have authority to require the transfer of surplus property in any department to stores or to other departments.

Purchasing Procedure.

Section 89. All purchase orders and contracts shall be based on written requisitions, or, for materials or supplies in common use in the various departments, on the purchaser's records of average use by all departments, when approved by the chief administrative officer. The purchaser of supplies shall approve all bills or vouchers for materials, supplies, equipment, and contractual services before the controller shall draw and approve warrants therefor. All contracts for the purchase of materials, supplies and equipment shall be made after inviting sealed bids by publication. All sealed bids received shall be kept on file. When an award of contract is made, notice that the same has been made shall be given by one publication, and any interested person may examine the bids and records at the purchaser's office.

procedure.

Purchaser's Revolving Fund.

Section 90. Appropriations for material, supplies, and equipment shall be segregated in each annual appropriation ordinance for each department or office. Any part of each such fund or appropriation may, on the recommendation of the purchaser of supplies and the approval of the controller, be transferred to or made available in the purchaser's revolving fund. Warrants shall be drawn against such fund by the controller on demand of the purchaser for the payment of bills on which discount for prompt payment may be secured, or for advantageous cash purchasing, under favorable or emergency market conditions, of materials or supplies for future departmental requisition and use. Discounts obtained by the use of the purchaser's revolving fund may be accumulated therein and the supervisors may make annual appropriations to such fund until a sufficient sum, as determined by the controller, is accumulated to meet the average purchasing and discount payment requirements of the city and county.

Purchase, Lease and Sale of Real Property and Improvements.

Section 91. The director of property shall be the head of the department of property. He shall have charge of the purchase of real property and improvements required for all city and county purposes, and the sale and lease of real property and improvements thereon owned by the city and county, except as otherwise provided by this charter. In the acquisition of property required for street opening, widening or other public improvements, the director of property shall make preliminary appraisals of the value of the property sought to be condemned or otherwise acquired, and report thereon to the responsible officer. It shall be his duty, in addition, to assist in such proceedings on the request of the responsible officer.

Director of
property.

He shall have charge of the management of the exposition auditorium.

Each department authorized by the approval of bond issues or by annual or supplemental appropriation ordinances to purchase or lease property or improvements needed for the purposes of such department shall make such purchases or leases through the director of property. He shall make a preliminary valuation of the property to be acquired or leased and report the same to the department requiring such property. For such purposes he may employ independent appraisers. He shall conduct negotiations with the owner or owners thereof, at the conclusion of which he shall report the terms on which such sale or lease may be concluded, together with his recommendations thereon. The head of the department concerned may report to the board of supervisors and recommend acceptance or that proceedings in eminent domain be instituted for the acquisition of such property.

Sale of Property.

Sale of city
property

Section 92. Any real property owned by the city and county, excepting lands for parks and squares, may be sold on the recommendation of the officer, board or commission in charge of the department responsible for the administration of such property. When the board of supervisors, by ordinance, may authorize such sale and determine that the public interest or necessity demands, or will not be inconvenienced by, such sale, the director of property shall make a preliminary appraisal of the value of such property. The director of property shall advertise by publication the time and place of such proposed sale. He shall forthwith report to the department head concerned and to the supervisors the amount of any and all tenders received by him. The supervisors may authorize the acceptance of the highest and best tender, or they may, by ordinance, direct that such property be sold at public auction, date of which shall be fixed in the ordinance. No sale other than a sale at public auction shall be authorized by the supervisors unless the sum offered shall be at least ninety per cent of the preliminary appraisal of such property hereinbefore referred to.

The proceeds of the sale of any property under the control of a department shall be applied by the supervisors to the purchase of additional land for the use of such department if required thereby. Otherwise such proceeds shall be applied to the purchase of additional real property for any city and county purpose, provided, however, that the proceeds of the sale of any property acquired for the use of any utility shall revert to the funds of said utility.

The director of property may, in lieu of sale, arrange for the trading of any real property proposed to be sold for other property required by the department in charge thereof, on the recommendation of the officer, board or commission in

charge of such property and the authorization, by ordinance, of the board of supervisors.

Lease of City Property.

Section 93. When the head of any department in charge of real property shall report to the board of supervisors that certain land is not required for the purposes of the department, the board of supervisors, by ordinance, may authorize the lease of such property. The director of property shall arrange for such lease for a period not to exceed twenty years, to the highest responsible bidder at the highest monthly rent. The director of property shall collect rents due under such lease.

The public utilities commission may provide, by resolution, that agricultural or other lands used and useful for water department purposes and at the same time available for leasing or rental for agricultural purposes shall be subject to lease and administration by the operating forces of the water department; provided, however, that no such lease shall be made to any other public utility without the approval of the board of supervisors by two-thirds vote thereof.

Records of Real Property.

Section 94. The director of property shall maintain complete records and maps of all real property owned by the city, which shall show the purchase price, if known, and the department in charge of each parcel, with reference to deeds or grants establishing the city's title.

He shall annually report to the mayor, the controller, the chief administrative officers, and the supervisors the estimated value of each parcel and improvement. He shall make recommendations to the mayor and chief administrative officer relative to the advantageous use, disposition, or sale of real property not in use.

CONTRACTS.

Public Works and Purchasing Contracts.

Section 95. The construction, reconstruction or repair of public buildings, streets, utilities or other public works or improvements, and the purchasing of supplies, materials and equipment, when the expenditure involved in each case shall exceed the sum of one thousand dollars (\$1,000), shall be done by contract, except as otherwise provided by this charter. It shall constitute official misconduct to split or divide any public work or improvement or purchase into two or more units for the purpose of evading the contract provisions of this section. In an emergency, provided an actual emergency be declared by the board of supervisors to exist, and when authorized by resolution of said board, any public work or improvement may be executed in the most expeditious manner.

Any public work or improvement estimated to cost less than one thousand dollars (\$1,000) may be performed under contract or written order or by the employment of the necessary

Same.

labor and purchase of the necessary materials and supplies directly by the city and county. Any public work or improvement executed by the city, other than routine repair work, shall be authorized by the chief administrative officer or by the heads of departments not under the chief administrative officer, only after detailed estimates have been prepared and submitted by the head of the department concerned. There shall be separate accounting for each work or improvement so executed, which accounting shall include all direct, indirect and supervisory elements of cost chargeable to such work or improvement, and each cost accounting shall be reported to the chief administrative officer, or to the mayor when such work shall have been performed by departments not under the chief administrative officer. All such accounts shall be reported to the controller. Any public work or improvement costing less than one thousand dollars (\$1,000) and not performed by the use of city and county labor, materials, and supplies shall, if not performed under contract, be covered by written order or agreement which shall be based on not less than three bids, notice of which shall be given by three days' posting. Records of such bids shall be kept by the department.

When the expenditure for any public work or improvement shall exceed the sum of one thousand dollars (\$1,000), the same shall be done by contract, except as otherwise provided in this charter. The head of the department in charge of or responsible for the work for which a contract is to be let, or the purchaser of supplies in the case of purchases of materials, supplies and equipment, shall let such contract to the lowest reliable and responsible bidder not less than ten days after advertising by publication for two consecutive days for sealed proposals for the work, improvement or purchase contemplated. Each such advertisement shall contain the reservation of the right to reject any and all bids. The officer responsible for the awarding of any such contract shall require from all bidders information concerning their experience and financial qualifications, as provided by general law relative to such investigations authorized by departments of public works.

The purchaser of supplies with the approval of the chief administrative officer, or the department head concerned with the approval of the board or commission to which he is responsible, may reject any and all bids and readvertise for bids.

The department head or the purchaser of supplies, as the case may be, shall have power to sign such contract for the estimated expenditures thereunder not in excess of two thousand dollars (\$2,000). Any contract involving the expenditure of over two thousand dollars (\$2,000), if for the purchase of materials, supplies or equipment, shall require the joint approval of the purchaser of supplies and the chief administrative officer. If such contract is for any public work or improvement, it shall require the joint approval of the department head and the chief administrative officer relative to departments under his jurisdiction, or the signature of the

department head and the approval by resolution of the board or commission concerned for departments not under the chief administrative officer.

The board of supervisors, by ordinance, shall establish procedure whereby appropriate city and county departments may file sealed bids for the execution of any work to be performed under contract. If such bid is the lowest, the contract shall be awarded to the department. Accurate unit costs shall be kept of all direct and indirect charges incurred by the department under any such contract, which unit costs shall be reported to and audited by the controller monthly and on the completion of the work.

In any case where the lowest gross price or unit cost bid is not accepted, and a contract is entered into with another bidder, written report shall be made to the chief administrative officer, the mayor and the controller by the officer authorized to execute the contract, with the reasons for failure to accept such lowest bid.

Progressive Payments.

Section 96. Any contract may provide for progressive payments, if the advertisement for sealed proposals shall so specify. No progressive payments under any contract shall be made which, with prior payments, shall at any time exceed in amount ninety per cent of the value of the work and labor and materials furnished, and no contract shall authorize or permit the payment of more than ninety per cent of the total contract price before the completion of the work required by such contract and the acceptance thereof by the head of the department concerned.

payments.

Penalties and Extras.

Section 97. If so specified in the published notice soliciting sealed bids for any public work or improvement, any contract therefor may be let for a gross price or on a basis of cost per unit of work to be performed, and may also provide for liquidated damages to the city and county for every day during which the contract is uncompleted beyond such specified date. In awarding any contract, the department head concerned is authorized to compare bids on the basis of time of completion. When any award of contract has been made in consideration, in whole or in part, of the relative time estimates of bidders for the completion of the work, the time within which the contractor shall start work shall be fixed and the performance within such time limits shall be covered by the bond required of the contractor, and no extension may be granted on such contract beyond the date specified for completion, unless the liquidated damages for each day the work is uncompleted beyond the specified date shall be collected; provided, however, that this shall not apply to unavoidable delays due to act of God.

Penalties
and extras.

If it becomes necessary, in the prosecution of any work or improvement under contract, to make alterations or modifica-

tions, or provide for extras in such contract which shall increase the contract cost, such alterations, modifications or extras shall be made only on the written recommendation of the department head responsible for the supervision of the contract, together with the approval of the chief administrative officer or the board or commission, as the case may be, and also the approval of the controller. No such alteration, modification or extra shall be valid, unless the increased price to be paid under the altered or modified contract shall have been agreed upon in writing and signed by the contractor and the department head concerned, and approved as hereinbefore provided. In the performance of any contract awarded on the unit and the unit-cost basis, if the department head concerned ascertains that the amount of work done or to be done shall exceed the estimated amount of the contract by ten per cent, or more, the excess shall be provided for as prescribed by section 80 relative to supplemental appropriations.

Contractors' Working Conditions.

Contractors'
working
conditions

Section 98. Every contract for any public work or improvement, exclusive of purchases, to be performed at the expense of the city and county, or paid out of moneys deposited in the treasury, whether such work is to be done directly under contract awarded, or indirectly by or under sub-contract, sub-partnership, day labor, station work, piece work, or any other arrangement whatsoever, must provide: (1) That in the performance of the contract and all work thereunder, eight hours shall be the maximum hours of labor on any calendar day; (2) that any person performing labor thereunder shall be paid not less than the highest general prevailing rate of wages in private employment for similar work; (3) that any person performing labor in the execution of the contract shall be a citizen of the United States; (4) that all laborers employed in the execution of any contract within the limits of the city and county shall have been residents of the city and county for a period of one year immediately preceding the date of their engagements to perform labor thereunder; provided, however, that the officer empowered to award any such contract may, upon application of the contractor, waive such residence qualifications and issue a permit specifying the extent and terms of such waiver whenever the fact be established that the required number of laborers and mechanics possessing qualifications required by the work to be done cannot be engaged to perform labor thereunder.

The board of supervisors shall have power and authority to make and enforce regulations in the premises not in conflict with the provisions hereof.

Contract Procedure by Ordinance.

Contract

ordinance

Section 99. The board of supervisors shall, by ordinance, establish the necessary procedure to be followed in the advertising for bids, the award of contracts, the supervision of contract work, and the acceptance thereof on completion; also

for the security to be given on the filing of bids to guarantee the execution of the contract if awarded, and for the security to be given on the award of contract for the faithful performance thereof and to guarantee the payment of wages for services engaged and of bills contracted for material, supplies and equipment used in the performance of the contract.

Collusion.

Section 100. If any party or parties to whom a contract has been awarded has been guilty of collusion with any officer or representative of the city and county, or any other party or parties, in the submission of any bid or in preventing of any other bid being made, or in knowingly receiving preferential treatment by any officer or an employee of the city and county, then any contract so awarded, if not completed, may be declared null and void by the board of supervisors on the recommendation of the purchasing agent or the department head concerned, as the case may be, and the purchaser of supplies or the department head concerned shall thereupon readvertise for bids for said work for the uncompleted portion thereof. If the work under such contract shall have been completed, the matter shall be referred to the city attorney for such action as may be necessary. Any party or parties guilty of such collusion shall not be permitted to participate in or to bid on any future public work, improvement or purchase to be made by the city and county.

In addition to the method prescribed by the other provisions of this charter, the proceedings for the authorization and issuance of bonds for the acquisition, construction or completion of any public utility or utilities may also be initiated by electors in the manner following: Whenever a petition, signed by qualified electors of the city and county equal in number to fifteen per cent of the electors who voted for all candidates for the office of mayor at the last general election at which a mayor of the city and county was elected, requesting the board of supervisors to submit to the electors of the city and county a proposition or propositions for incurring bonded indebtedness for the acquisition, construction or completion of any public utility or utilities shall be filed in the office in which initiative petitions are required by this charter to be filed, the board of supervisors shall, as soon thereafter as in its judgment shall be practicable, proceed to call an election and submit to the electors of the city and county the proposition or propositions of incurring bonded indebtedness of the city and county for the purpose or purposes set forth in said petition. Neither errors nor informalities in said petition or in the signatures thereto nor the failure of the per-

centage of electors herein specified to sign the same, nor any delay in submitting said proposition or propositions to the electors shall invalidate any bonds which may be issued and sold pursuant to the provisions hereof. The provisions of this charter relating to the filing, verification and certification of initiative petitions shall be applicable to the petition herein referred to. Such election shall be called and held in the same manner as other bond elections of the city and county, and all proceedings for the issuance of bonds for the acquisition, construction or completion of such public utility or utilities, excepting only as otherwise provided in this section, shall be taken in accordance with the provisions hereinbefore set forth in this charter.

The failure of the commission to act within sixty days from and after the date of official submission of any proposed zoning, classification or set-back line by the board of supervisors shall be deemed to be approval of such classification or proposed set-back line by the commission.

Operating Expenses and Reserves.

Section 127. Receipts from each utility operated by the commission shall be paid into the city and county treasury and maintained in a separate fund for each such utility. Appropriations from such funds shall be made for the following purposes for each such utility in the order named, viz: (a) for the payment of operating expenses, pension charges, and proportionate payments to such compensation and other insurance and accident reserve funds as the commission may estab-

Depreciation.

Section 128. For the purpose of providing funds for reconstruction and replacements due to physical and functional depreciation of each of the utilities under the jurisdiction of the commission, the commission must create and maintain a depreciation reserve fund for each such utility, sufficient for the purposes mentioned in this section, and in accordance with an established practice for utilities of similar character. The commission, on the basis of an appraisal of the estimated life and the then current depreciated value of the several classes of property in each utility, shall determine the amount of reasonable annual depreciation of such utility, which shall be the amount necessary to appropriate annually to provide for said reconstruction and replacement. At least every five years thereafter, the commission shall cause an examination to be made of the depreciation reserve funds of each such utility and the reconstruction and replacement expenditures therefrom. The commission, at the same time, shall make an appraisal or may revise the last preceding appraisal of the value and probable useful life of each of the several classes of property of each utility, and shall, on the basis of said appraisal redetermine the amount of the reasonable annual depreciation requirements of each utility. The commission shall pay monthly in cash into each such depreciation fund one-twelfth of the annual amount estimated on the basis herein provided as necessary to meet said depreciation, and each such depreciation fund shall be used for no other purpose. Pending the appraisement of properties as herein provided, there shall be paid each month one-twelfth of the annual amount estimated as necessary to provide for reconstruction and replacements on the basis of the past experience of each utility.

by appropriate means all amounts due for said service, and to discontinue service to delinquent consumers, and to settle and adjust claims arising out of the operation of any said utilities.

Rates may be fixed at varying scales for different classes of service or consumers. The commission may provide for the rendition of utility service outside the limits of the city and county and the rates to be charged therefor which may include proportionate compensation for interest during the construction of the utility rendering such service.

Before adopting or revising any schedule of rates or fares, the commission shall publish in the official newspaper of the city and county for five days notice of its intention so to do and shall fix a time for a public hearing or hearings thereon, which shall be not less than ten days after the last publication of said notice, and at which any resident may present his objection to or views on the proposed schedule of rates, fares or charges.

Rates for each utility shall be so fixed that the revenue therefrom shall be sufficient to pay, for at least the succeeding fiscal year, all expenses of every kind and nature incident to the operation and maintenance of said utility, together with the interest and sinking fund for any bonds issued for the acquisition, construction or extension of said utility; provided that, should the commission propose a schedule of rates, charges or fares for said utility which shall not produce such revenue, it may do so with the approval of the board of supervisors, by a two-thirds vote and it shall thereupon be incumbent to provide by tax levy for the additional amount necessary to meet such deficit. All other changes in rates, charges or fares as proposed by the commission shall be submitted by the commission to the board of supervisors for approval, and, except as in this section otherwise provided, it shall require a two-thirds vote of the board of supervisors to reject the rate changes as proposed by the commission, and if so rejected, such proposed changes in schedules of rates, charges or fares shall be returned to the commission for revision. If the supervisors shall fail to act on any such proposed schedule within thirty days, the schedule shall thereupon become effective.

Said permit shall apply only to streets, avenues or highways over which the declarant operated its railway at any time during the year 1930.

The provisions of this section shall not apply to the franchises granted under the following named ordinances of the city and county, namely, Ordinance Number 288 (New Series) approved October 17, 1907, and Ordinance Number 425 (New Series) approved May 12, 1908, commonly known as the Parkside franchises, and Ordinance Number 1196 (New Series) approved June 14, 1910, commonly known as the Gough Street franchise, and Ordinance Number 1460 (New Series) approved January 23, 1911, commonly known as the Parnassus and Ninth Avenue franchise, nor to that portion of the franchise granted under Order Number 1532, approved November 28, 1879, for the operation of a railway on Howard street from Steuart street to Twenty-sixth street, nor to that portion of the franchises granted under Order Number 1890, approved December 27, 1886, for the operation of a railway commencing at the intersection of Post street with Market street, thence along and upon Post street to Leavenworth street.

Such declaration of surrender shall be executed by the declarant and acknowledged and certified in the manner provided by law for the conveyances of real property. Upon the

presentation to the clerk of the board of supervisors of such declaration of surrender executed, acknowledged and certified, as aforesaid, it shall be the duty of the clerk of the board of supervisors to file the same and to endorse thereon the fact and date of such filing and to sign such endorsement and to deliver to the declarant a true and correct copy of such declaration of surrender so filed with him, with his certificate attached thereto signed by him and attested by the seal of the city and county to the effect that the same is a true and correct copy of the declaration of surrender so filed with him and stating therein the date of such filing and the name of the declarant executing such declaration and such certificate shall be conclusive evidence of the facts therein recited.

year permit

Every permit, given and granted as in this section provided, shall be for the period of twenty-five years, as hereinbefore stated, and shall be subject always to the right of the city and county at any time to acquire and possess the operative railway property of the holder of said permit upon paying the fair value therefor, hereinafter referred to as compensation.

The compensation to be paid for the property to be acquired, as aforesaid, shall be fixed and determined by agreement by and between the owner of such property and the board of supervisors, authorized by ordinance, or by the owner of such property and any other governmental body with legal and proper authority, and, in case of their failure to agree, the said compensation to be paid as aforesaid shall be fixed in any manner provided by law, whether by condemnation proceedings in the exercise of the power of eminent domain or otherwise. The compensation herein referred to shall not include any claim for going concern value or any other like intangible by any declarant.

Whenever the city and county desires to acquire said railway property, the city and county shall give the holder of said permit written notice, duly authorized by ordinance, of its intention to take over and acquire said properties on a date to be stated in said notice, but in no event less than three months nor more than fifteen months from the date of said notice; and, upon payment or tender of said compensation on the date so noticed, together with compensation for the cost, less accrued depreciation, of any additions or betterments to said property since the date of filing said declaration of surrender, said permit shall be thereby revoked and the holder thereof shall immediately deliver said property to the city and county, and transfer the same by appropriate deeds of grant, bargain and sale, and other assurances of title.

Failure of the city and county to pay or tender said compensation, as aforesaid, shall not prevent said city and county from thereafter, at such time as it shall deem proper, taking proceedings to purchase, acquire and possess said operative properties, as in this section provided.

None of the provisions of this charter concerning or relating to the granting of franchises to operate street railways shall

be applicable to the permits given and granted under the provisions of this section or under the provisions of section 132 of this charter or to any right thereunder, it being the purpose and intention of said two sections to provide for permits and rights thereunder which can be used and exercised by the holder thereof, its successors or assigns, without reference to any of the terms or conditions under which franchises may be granted under this charter, until such time as the city and county shall purchase, take over and acquire the operative railway property of such holder.

No line of street railway in the city and county, or any portion thereof, operated under authority of any permit, authorized by the provisions of this charter, shall be abandoned unless the holder of such permit shall, by written petition to the board of supervisors, request authority to make such abandonment, and unless the board of supervisors, upon receiving such a petition, shall authorize such abandonment by ordinance and shall first find that the public interest will not be injured or suffer by such abandonment and shall so recite in the ordinance authorizing such abandonment.

nomination or nominations shall vote in favor thereof, said nomination shall be confirmed and the person or persons named shall take office on the 8th day of January next following. If a majority of the electors vote "No," the nomination shall stand rejected, and such person shall not be eligible for nomination as a member of the board of education for a period of at least three years. Vacancies occurring on said board shall be filled by the mayor for the unexpired term.

Powers and Duties of Board of Education.

Section 135. In addition to the powers conferred by the general laws of the state and other provisions of this charter, the board of education shall have power to establish and maintain such schools as are authorized by the laws of the state as the board may determine, and to change, modify, consolidate or discontinue the same as the public welfare may require.

Board of

powers
and duties

The board shall also have power to employ such teachers and other persons as may be necessary to carry into effect its powers and duties; to fix, alter and approve their salaries and compensations, except as in this charter otherwise provided, and to withhold for good and sufficient cause the whole or any part of the wages, salary, or compensation of any person or persons employed as aforesaid; and to promote, transfer and dismiss teachers, but no teacher shall be dismissed from the department except for insubordination, immoral or unprofessional conduct, or evident unfitness for teaching. Appointment, promotion, assignment and transfer of deputy superintendents, principals, assistants, teachers and all other certificated employees, shall be made by the board of education upon the recommendation of the superintendent of schools. All promotions of teachers shall be based solely on merit. Nothing in this section shall be construed to prevent the board from removing teachers as provided in this charter and the laws of the state. Charges against teachers must be made in writing by the superintendent after investigation and shall be finally passed upon by the board after giving the accused teacher a fair and impartial hearing before said board.

All teachers, heads of departments, vice-principals, principals, supervisors and directors shall be classified as permanent employees in their respective positions after they have been successfully employed in such positions in the school department for a probationary period of three years. In the absence of any action to the contrary by the board of education at the end of the third year of such employment, the classification shall be considered as permanent. A deputy superintendent shall be classified as a permanent employee in such position in the school department in which he was permanently employed immediately prior to his appointment as deputy.

Non-teaching and non-technical positions, and positions not required by law to be filled by a person holding a teaching or other certificate as required by law, shall be employed under the civil service provisions of this charter and the compensa-

The board of education shall have power to grant and to renew, and, for insubordination, immoral or unprofessional conduct, or unfitness for teaching, to revoke teachers' certificates.

The board shall establish regulations subject to the approval of the controller for the disbursement of all moneys belonging to the school department or the school fund or funds, and to secure strict accountability in the expenditure thereof, and to provide for the prompt payment of all salaries due and allowed to officers, teachers and other employees of the school department.

The board shall, between the 1st and 21st days of May of each year, adopt a schedule of salaries for the next ensuing fiscal year for teachers and other employees of the school department. He shall be appointed by said board to serve at its pleasure, and he shall receive such salary as may be fixed by the board. He shall have the powers and duties specified by this charter for department heads, in addition to such powers and duties as are fixed by general law.

The positions of superintendent and deputy superintendent shall be held only by persons of expert or technical training, but shall not be subject to any provisions of this charter prescribing a residence qualification for officers or appointees, provided, however, that during their incumbency appointees to such positions shall reside in the city and county, and in case any appointee shall fail so to do, his appointment shall at once be revoked by the board.

Deputy Superintendents.

Section 137. The superintendent shall appoint such deputy superintendents as shall be authorized by the board of education, and in case of vacancy, such vacancy shall be filled by the superintendent. Such appointments of deputy superintendents shall require the confirmation of the board of education and the appointees shall serve during the pleasure of the superintendent and the board of education. Deputy superintendents shall have had at least five years experience as teachers. Should it be advantageous to appoint one or more deputy superintendents to supervise a special line of educational work, such appointment may be made regardless of teaching experience by an affirmative vote of five members of the board, but the appointee must have had five years experience in the line of work which he will be called upon to supervise.

City Board of Examination.

Section 139. The superintendent and the deputies shall constitute the city board of examination and shall have power to recommend to the board of education the issuance of teachers' certificates in accordance with the laws of the state, and, for immoral or unprofessional conduct, profanity, intemperance or evident unfitness for teaching, to recommend to the board of education the revocation of any certificates previously granted by the board.

Section 140. There is hereby established a civil service commission which is charged with the duty of providing qualified persons for appointment to the service of the city and county. Civil service.

The civil service commission shall consist of three members, appointed by the mayor. The commissioners in office at the time of the adoption of this charter shall continue in office until the expiration of the terms for which they were appointed, and their successors shall be appointed for terms of six years beginning on the 1st day of July of each odd-numbered year.

The persons so appointed shall, before taking office, make under oath and file in the office of the county clerk the following declaration: "I am opposed to appointments to the public service as a reward for political activity and will execute the office of civil service commissioner in the spirit of this declaration." A commissioner may be removed only upon charges preferred, in the same manner as in this charter provided for elective officers. Each of the commissioners shall receive a monthly salary of one hundred dollars (\$100).

The commissioners shall appoint a secretary, who shall be the executive officer of the commission.

Special meetings of the commission for the purpose of considering and adopting examination questions shall not be open to the public.

Powers and Duties.

Civil service
commission
powers
and duties

Section 141. The civil service commission shall be the employment and personnel department of the city and county and shall determine appointments on the basis of merit and fitness, as shown by appropriate tests. The commission shall classify, and from time to time may reclassify, in accordance with duties and responsibilities of the employment, and training and experience required, all places of employment in the departments and offices of the city and county not specifically exempted by this charter from the civil service provisions thereof, or which may be created hereafter by general law and not specifically exempted from said civil service provisions. The commission shall likewise classify all other positions or other places of employments in the city and county service specifically exempted from the civil service provisions of this charter, but which, by the provisions of section 151, thereof, are made subject to classification for salary standardization purposes on the basis of duties and responsibilities of the employment, and training and experience required. The civil service commission shall be the judge of such classifications.

The commission shall also, in accordance with duties and responsibilities, allocate, and from time to time may re-allocate, the positions to the various classes of the classification. The allocation or re-allocation of a position shall not adversely affect the civil service rights of an occupant regularly holding such position. No person shall hold a position outside of the classification to which he has been appointed, provided that every employee of any department or office shall discharge any of the duties pertaining to such department or office to which his chief may temporarily assign him.

The class titles and class numbers assigned to positions by the commission shall be used in all records, reports, statements and communications, including the compensation schedule, annual budget and salary ordinance, payrolls, and appropriation ordinances.

The commission shall adopt rules to carry out the civil service provisions of this charter and, except as otherwise provided in this charter, such rules shall govern applications;

examinations; eligibility; duration of eligible lists; certification of eligibles; appointments; promotions; transfers; resignations; lay-offs or reduction in force, both permanent and temporary, due to lack of work or funds, retrenchment, or completion of work; the filling of positions, temporary, seasonal and permanent; classification; approval of payrolls; and such other matters as are not in conflict with this charter. The commission may, upon one week's notice, make changes in the rules, which changes shall thereupon be published, and be in force; provided that no such change in rules shall affect a case pending before the commission. The secretary may certify eligibles and payrolls and conduct examinations under the rules of the commission.

The commissioners shall have power to institute and prosecute legal proceedings for violations of any of the civil service provisions of this charter.

Positions.

Section 142. All positions in all departments and offices of the city and county, including positions created by laws of the State of California, where the compensation is paid by the city and county, shall be included in the classified civil service of the city and county, and shall be filled from lists of eligibles prepared by the civil service commission, excepting ^{Civil service lists.} (1) positions in which attorneys and physicians are employed in their professional capacity to perform only duties included in their professions, but exclusive of any administrative or executive position for which such professional status constitutes only part of the qualifications therefor; (2) inmate or institutional help, or part-time services, where the compensation including the value of any allowances in addition thereto is less than eighty dollars (\$80) per month; and (3) such positions as, by other provisions in this charter, are specifically exempted from, or where the appointment is designated as exclusive of, the civil service provisions of this charter.

The civil service rights, acquired by persons under the provisions of the charter superseded by this charter, shall continue under this charter.

Where existing positions that have heretofore been exempt from civil service examinations are now made subject to examination by this charter, the incumbents of such positions who have held such positions for a period of one year continuously next preceding the time that this charter shall go into effect, shall be continued in their positions as if appointed thereto after examination and certification from a list of eligibles and shall be governed thereafter by the provisions of this charter.

Any person holding a salaried office under the city and county, whether by election or appointment, who shall, during his term of office, hold or retain any other salaried office under the government of the United States, or of this state, or who shall hold any other salaried office connected with the government of the city and county, or who shall become a member

of the Legislature, shall be deemed to have thereby vacated the office held by him under the city and county.

Creation of Positions.

Creation of
positions by
ordinance

Section 143. Positions in any department or office of the city and county may be created, as provided by this charter, by appropriation ordinance of the board of supervisors. Copy of each such ordinance creating or abolishing positions shall be filed, on the approval thereof, with the civil service commission by the clerk of the board of supervisors. Before the appointing officer shall make recommendation for the creation of any new or additional position in any department or office, he shall request and receive from the commission the proper designation and classification of such position based on the duties and responsibilities thereof, and if such position is included in the classified civil service, the commission may, in writing, express to the appointing officer its opinion as to whether or not such position is needed.

Immediate notice in writing shall be given to the civil service commission by the appointing officer of each department and office of the city and county of the creation or abolition of any position, or of any change in duties if the position is included in the classified civil service, or of any appointment, resignation, suspension, dismissal or other creation of vacancy therein, with the date of any such change. If said appointing officer is also empowered to establish compensation rates or make changes therein, he shall notify the commission of any such rate or change therein. The commission shall maintain a record of all such notifications.

The term "appointing officer" as used in this charter shall also include any board or commission in the exercise of its power to appoint a department head or other officer or employee designated by this charter as appointive by such board or commission.

Applications.

Civil service
examina-
tions

Section 144. Any citizen having the qualifications prescribed by section 7 of this charter may submit himself for any examination under conditions established by the civil service commission. The commission shall advertise in the official paper the time, place and general scope of all examinations for entrance into the public service and may take further appropriate means to interest suitable applicants. When examinations for promotion are to be held, the commission shall give notice thereof to all persons in positions entitling them under the civil service rules, to participate in such examination, by posting information thereof in the office of the commission for a period of ten days and notifying the departments concerned.

Qualifications and Tests.

Qualifica-
tions and
tests

Section 145. All applicants for places in the classified service shall submit to tests, which shall be competitive and

without charge to the applicants. The commission shall control all examinations and may employ suitable persons in or out of the public service to act as examiners. The tests may be written, oral, mechanical or physical, or any combination of them, practical in character and related to matters fairly to test the relative capacity of applicants for the positions to be filled. The commission shall be the sole judge of the adequacy of the tests to rate the capacity of the applicants to perform service for the city and county. The commission may, for each examination, establish a passing mark or may determine the total number of persons who shall constitute the list of eligibles. The commission shall prepare from the returns of the examiners the list of eligibles, arranged in order of relative excellence. No question submitted to applicants shall refer to political or religious opinions or fraternal affiliations. Same.

Applicants for entrance positions in the uniformed forces of the fire and the police departments shall be not less than twenty-one years of age, nor more than thirty-five years of age at the time of appointment, and shall have the physical qualifications required for enlistment in the United States Army, Navy and Marine Corps.

Applicants for positions in the mechanical trades and occupations may, in the discretion of the commission, be rated solely on experience and physical qualifications which may be demonstrated by such evidence and in such manner as the commission may direct, and such applicants may be submitted to such further tests as the commission may require. Examinations of laborers shall relate only to physical qualifications and experience, and laborers establishing their fitness shall rank upon the register in order of priority of application.

The commission may remove all names from the list of eligibles after they have remained thereon for more than two years and all names thereon shall be removed at the expiration of four years. The commission may, however, provide in the scope-circular of any examination that the list of eligibles secured thereby shall automatically expire at a date not less than two nor more than four years after the adoption of such list.

Veterans with thirty days or more actual service, and widows of such veterans, who become eligible for appointment by attaining the passing mark in any examination, shall be allowed an additional credit of five per cent in making up the list of eligibles secured by such examination. The term "veteran" as used in this section shall be taken to mean any person who has been mustered into, or served in, the Army, or enlisted in, or served in, the Navy or Marine Corps, of the United States, in time of war and received an honorable discharge or certificate of honorable active service. In the case of promotive examinations, when the passing mark has been attained, a credit of three per cent shall be allowed to veterans or to widows of such veterans. No more than one such

entrance preference, or one such promotive preference may be allowed to any one person. The civil service commission may, for services or employment specified by the commission, allow general or individual preference, but not less than ten per cent, for entrance appointment of veterans who have suffered permanent disability in line of duty, provided that such disability would not prevent the proper performance of the duties required under such service, or employment, and provided that such disability is of record in the United States Veterans Bureau.

Promotions.

Promotions Section 146. Whenever it deems it to be practicable, the commission shall provide for promotion in the service on the basis of such examinations and tests as the commission may deem appropriate, and shall, in addition, give consideration to ascertained merit and records of city and county service of applicants. The commission shall announce in the examination scope-circular the next lower rank or ranks from which the promotion may be made. All promotions in the police and fire departments, respectively, shall be made from the next lower rank on the basis of examinations and tests, seniority of service and meritorious public service being considered.

No Aid, Hindrance, Fraud or Collusion Permitted

Section 147. No person or officer shall, by himself or in cooperation with other persons, defeat, deceive or obstruct any person in respect to his or her right of examination; or falsely mark, grade, estimate or report upon the examination or proper standing of any person examined hereunder, or aid in so doing; or make any false representations concerning the same, or concerning the person examined; or furnish to any person any special or secret information for the purpose of either improving or injuring the prospects or chances of any person of being appointed, employed or promoted.

Any eligible securing standing on a list by fraud, concealment of fact or violation of commission rules shall be removed from such list and if certified or assigned to a position shall be removed therefrom.

Requisition, Certification and Appointment.

Section 148. Whenever a position controlled by the civil service provisions of this charter is to be filled, the appointing officer shall make a requisition to the civil service commission for a person to fill it. Thereupon, the commission shall certify to the appointing officer the name and address of the person standing highest on the list of eligibles for such position. In case the position is promotive, the commission shall certify the name of the person standing highest on such list. In making such certification, sex shall be disregarded except when a statute, a rule of the commission or the appointing officer specifies sex.

From the requisition of the appointing officer or otherwise, the commission shall determine whether the position is, in character, temporary, seasonal or permanent, and shall notify the candidate in accordance therewith to the end that the candidate may have knowledge of the probable duration of employment. The commission shall provide for such waiver of temporary or seasonal employment as it may deem just to candidates.

Any appointment to a position declared permanent by the commission shall be on probation for a period of six months. At any time before the expiration of six months the appointing officer may terminate the appointment. The commission shall inquire into the circumstances and may declare such person dismissed, or may return the name to the list of eligibles for certification to another department. Immediately prior to the expiration of the six months' probationary period, the appointing officer shall report to the civil service commission as to the competence of the probationer for the position and, if competent, shall recommend permanent appointment.

Emergency Appointments.

Section 149. When no list of eligibles is available for a position requisitioned by an appointing officer, the commission may certify for emergency appointment eligibles from another list deemed by the commission to be suitable to temporarily provide the service desired, or may authorize the appointing officer to make an emergency appointment thereto for a period not exceeding sixty days and only until regular appointments under the provisions of this charter can be made. The commission shall immediately hold an examination and establish an eligible list for such position or positions. If its annual appropriation is insufficient to meet the cost of said examination, it shall report to the mayor the estimated cost thereof, and the mayor shall request and the supervisors shall make supplemental appropriation therefor in the manner provided herein for supplemental appropriations. No person shall be compensated under any emergency appointment or appointments as authorized by this section for a period exceeding ninety days in any fiscal year, and no claim or warrant therefor shall be approved, allowed or paid for any compensation in excess of such ninety days.

Emergency
appoint-
ments.

Verification of Payrolls.

Section 150. All personal services shall be paid by warrants on the basis of a claim, bill, timeroll or payroll approved by the head of the department or office employing such service. The claims, bills or payrolls, hereinafter designated as payrolls, for salaries, wages or compensation for personal services of all officers, assistants and employees of every class or description, without regard to the name or title by which they are known, for each department or office of the city and county shall be transmitted to the civil service commission before presentation to the controller.

The secretary of the commission shall examine and approve such payroll for all persons legally appointed to or employed in positions legally established under this charter. The payrolls thus approved, with notation of any item thereof disapproved, shall be then certified by the secretary of the commission and transmitted by him to the controller. The controller shall not approve and the treasurer shall not pay any claim for personal services, or pay check or warrant for salary, wages or compensation unless the same shall have been approved by the said secretary.

For the purpose of the verification of claims, bills, timerolls, or payrolls, contractual services represented by teams or trucks hired by any department head or other officer of the city and county shall be considered in the same manner as personal service items and shall be included on payrolls as approved by said department heads or other officers, and shall be subject to examination and approval by the secretary of the civil service commission and the controller in the same manner as payments for personal services.

The salary, wage or other compensation fixed for each officer and employee in, or as provided by this charter, shall be in full compensation for all services rendered, and every officer and employee shall pay all fees and other moneys received by him, in the course of his office or employment, into the city and county treasury except as provided in section 32 of this charter.

No officer or employee shall be paid for a greater time than that covered by his actual service.

Standardization of Compensations.

Standard-
ization of
compensa-
tions.

Section 151. The board of supervisors shall have power and it shall be its duty to fix by ordinance from time to time, as in this section provided, all salaries, wages and compensations of every kind and nature, except pension or retirement allowances, for the positions, or places of employment, of all officers and employees of all departments, offices, boards and commissions of the city and county in all cases where such compensations are paid by the city and county.

Compensations specified in this charter shall not be subject to the provisions of this section. Compensations of the teaching and other technical forces of the school department, librarians and technical assistants of the library department, employees of the California Palace of the Legion of Honor, the M. H. de Young Memorial Museum, Steinhart Aquarium, park and law library departments, construction employees engaged outside of the city and county, part-time employees, and inmate and institutional help receiving less than fifty dollars (\$50) per month, shall be fixed by the department head in charge thereof, with the approval of the board or commission, if any, in charge of the department concerned and subject to the budget and appropriation provisions of this charter; provided that part-time employees shall be recorded

as such by a department head, only with the approval of the civil service commission and, when so recorded, shall be noted as part-time on payrolls, budget estimates, salary ordinances and similar documents.

In fixing schedules of compensation, as in this section provided, the board of supervisors, through the civil service commission, shall cause a schedule of compensations to be proposed, based upon the classification as provided in section 141, under which like compensation shall be paid for like service, with due regard to the seniority of the personnel included in each class, and with regard also to other compensations in the city and county service not subject to salary standardization. Such compensations shall be not higher than prevailing rates for like service and working conditions in private employment or in other comparable governmental organizations in this state.

Schedule of
compensa-
tions.

The board of supervisors may approve, amend or reject the schedule of compensations proposed by the civil service commission; provided that any proposed amendment by the board of supervisors shall, before adoption, be referred to the civil service commission for report as to what other changes, and the cost thereof such proposed amendment would require to maintain an equitable relationship with other rates in such schedule.

Where any compensation paid on January 1, 1931, is higher than the standard compensation fixed as provided in this section for such position or employment, said compensation shall be continued to the incumbent of such position as long as he legally holds said position, and department heads, in cooperation with the civil service commission where said commission has jurisdiction, shall continuously offer all possible opportunities to said incumbents to assume duties and responsibilities in higher classifications consistent with the higher rates of compensation hereby continued. New entrants to such positions shall be paid at the rates fixed for such duties, responsibilities and positions by the schedule of compensations hereinbefore in this section referred to.

Pending the adoption of salary standards as provided in this section, no increases in compensation shall be allowed other than as authorized in section 71 of this charter.

Where compensations for services commonly paid on an hourly or a per diem basis are established on a weekly, semi-monthly or monthly salary basis for city and county service, such salary shall be based on the prevailing hourly or per diem rate, where this can be established, and the application thereto of the normal or average hours or days of actual working time, in the city and county service, including an allowance for annual vacation. Every person employed in the city and county service shall, after one year's service, be allowed a vacation with pay of two calendar weeks, annually, as long as he continues in his employment.

Service Records.

Service
Records

Section 152. The civil service commission shall establish an inspection service for the purpose of investigating the conduct of and action of appointees in all positions and of securing records of service for promotion and other purposes. All departments shall cooperate with the commission in making its investigations and any person hindering the commission or its agents shall be subject to suspension.

Leaves of Absence.

Leaves of
absence

Section 153. Leaves of absence to officers and employees of the city and county shall be governed by rules established by the civil service commission, provided that leave of absence to any officer or employee for the purpose of leaving the city and county, taking a position outside of the city and county service, or accepting a position in some department or office of the city and county other than the one in which he is employed and where the duties are in no way related to the duties covered by his civil service classification, shall be limited to six months; and provided, further, that no limit shall be placed on a leave of absence granted to enable an officer or employee to accept promotion to a non-civil service position in the same department in which he holds civil service status, or promotion to co-related work in another department or office of the city and county.

Leaves of absence shall be granted to officers, employees and persons on eligible lists for terms of service in the Army, the Navy or the Marine Corps, in time of war and for such time thereafter as may be provided by rule of the commission, but not to exceed two years after the proclamation of peace, except in case of disability incurred in line of duty, when such disability shall extend beyond such period. If a person on such leave has been appointed to a permanent position, he shall be entitled to resume such position at the expiration of his leave, and if any civil service rights accrue to any appointee by reason of seniority, the term of service shall be reckoned a part of his service under the city and county, exclusive of service under the retirement provisions of this charter. If persons on such leave have standing on an eligible list, they shall retain their places thereon, and upon presenting an honorable discharge from such wartime service shall be preferred for appointment in the order of standing upon such register at the time of enlistment and before candidates securing standing through an examination held subsequent to such enlistment.

The civil service commission, by rule and subject to the approval of the board of supervisors by ordinance, shall provide for leaves of absence due to illness or disability, which leave or leaves may be cumulative, if not used as authorized, provided that the accumulated unused period of sick leave shall not exceed six months, regardless of length of service, and provided further that violation or abuse of the provisions of said rule and ordinance by any officer or employee shall be deemed an act of insubordination and inattention to duties.

Suspension and Dismissal for Cause.

Section 154. No person employed under the civil service provisions of this charter, exclusive of members of the police and fire departments as provided under section 155, hereof, in a position defined by the commission as "permanent" shall be removed or discharged except for cause, upon written charges, and after an opportunity to be heard in his own defence. Pending such hearing, the appointing officer may suspend the person so accused; but such suspension shall not be valid for more than thirty days, unless hearing upon the charge shall be delayed beyond such time by the act of the accused person. When charges are made, the appointing officer shall, in writing, notify the person accused of the time and place when the charges will be heard, by mailing such statement to his last known address. The appointing officer shall publicly hear and determine the charges, and may exonerate, suspend or dismiss the accused. The civil service commission shall immediately be notified of the charges when made, of the hearing, and of the finding thereon. The finding of the appointing officer shall be final, unless within thirty days therefrom the dismissed employee appeals to the civil service commission. The appeal and all proceedings shall be in writing and shall briefly state the grounds therefor. The civil service commission shall examine into the case and may require the appointing officer to furnish a record of the hearing and may require in writing any additional evidence it deems material, and may, thereupon, make such decision as it deems just. The order or decision of the commission upon such appeal shall be final and shall forthwith be enforced by the appointing officer. If the civil service commission shall reverse or alter the finding of the appointing officer it may, in its discretion, order that the employee affected be paid salary from the time of his discharge or suspension.

Suspension and dismissal of employees.

The civil service commission may hear and determine any charge filed by a citizen or by the authorized agents of the commission when the appointing officer neglects or refuses to act. Removal or discharge may be made for any of the following causes: incompetence, habitual intemperance, immoral conduct, insubordination, discourteous treatment of the public, dishonesty, inattention to duties, or engaging in prohibited political activities.

Nothing in this section shall limit or restrict rules adopted by the commission governing lay-offs or reduction in force.

The appointing officer may, for disciplinary purposes, suspend a subordinate for a period not exceeding thirty days; and suspension shall carry with it the loss of salary for the period of suspension.

Fire and Police Disciplinary Procedure.

Section 155. Members of the fire or the police department guilty of any offense or violation of the rules and regulations of their respective departments, shall be liable to be punished by reprimand, or by fine not exceeding one month's salary for any

Fire and police penalties for violation of rules and regulations.

offense, or by suspension for not to exceed three months, or by dismissal, after trial and hearing by the commissioners of their respective departments.

Members of either department shall not be subject to dismissal, nor to punishment for any breach of duty or misconduct, except for cause, nor until after a fair and impartial trial before the commissioners of their respective departments, upon a verified complaint filed with such commission setting forth specifically the acts complained of, and after such reasonable notice to them as to time and place of hearings as such commission may, by rule, prescribe. The accused shall be entitled, upon hearing, to appear personally and by counsel; to have a public trial; and to secure and enforce, free of expense, the attendance of all witnesses necessary for his defense.

Transfer of Disabled.

Section 156. When a civil service employee other than a member of the police and fire department, who has served not less than three years in his position has become incapable through age, accident or other disability of performing the duties of his position, the civil service commission may, with the consent of the appointing officer, transfer him to a position within his capacities, whether or not within the class for which he qualified for appointment; but such position shall be one having a lesser compensation than the one from which he may be transferred, and his compensation shall not thereafter be increased.

Prohibition of Political Activity.

Section 157. Active participation in city and county politics, relative to the election or appointment of public officials, by civil service employees and eligibles of the city and county, is subversive of the best interests of the merit system and, therefore, persons holding positions in the classified civil service or on eligible lists for such positions shall take no active part in such political campaigns, or in soliciting votes, or in levying, contributing or soliciting funds or support, in each case for the purpose of favoring or hindering the appointment or election of candidates for city and county offices. Violation of the provisions of this section shall be deemed an act of insubordination and considered good cause for suspension or dismissal from position or removal from eligible list.

PENSIONS AND RETIREMENT.

Retirement System for Officers and Employees.

Pensions and
retirement
system
created

Section 158. In order to continue in force, with modifications as are set forth in this charter, provisions already existing for retirement and death benefits for officers and employees of the city and county, the San Francisco City and County Employees' Retirement System, hereinafter referred to as the retirement system or the system, is hereby created. Elective officers and members of boards and commissions shall not be

eligible to the benefits of said retirement system. Officers who are made appointive by this charter, as well as officers and employees of offices heretofore not under the retirement system and who are brought under the said system by this charter, who shall have attained the age of at least seventy years on the date said charter becomes effective, shall not become members of the retirement system. Such officers and employees who shall not have attained the age of seventy years on such date shall become members of said retirement system on the date this charter becomes effective and any benefits granted on account of service excluding service rendered as lawful members of the retirement system, rendered by said officers and employees to the city and county prior to such date shall be provided by contributions of the city and county.

Ordinance No 5561 (New Series) and amendments thereto, now establishing the employees' retirement system, shall continue in force until amended or revoked by the board of supervisors as provided in this section. The board of supervisors is hereby empowered to enact, by a vote of three-fourths of its members, any and all ordinances necessary to carry into effect the provisions of sections 158 to 172, both inclusive, of this charter; provided that the board of supervisors shall secure, through the retirement board, an actuarial report of the cost and effect of any proposed change in the benefits under the retirement system, before enacting an ordinance or before voting to submit any proposed charter amendment providing for such change.

Retirement Board.

Section 159. The retirement system shall be managed by a retirement board, which is hereby created, and which shall be the successor and have the powers and duties of the board of administration, the board of trustees of the police relief and pension fund and the board of fire pension fund commissioners. The retirement board shall consist of the president of the board of supervisors, the city attorney, a resident official of a life insurance company, and an officer of a bank to be appointed by the mayor, and three members elected from the active members, who shall not include retired persons of the retirement system, provided that the city attorney may designate, by written document filed with the said retirement board, an assistant city attorney to attend meetings of the said board and to act for him and in his place. The term of office of the five members, other than the ex officio members, shall be five years, one term expiring each year and the terms of such five members now holding office being unchanged by this section. The members of the retirement board shall serve without compensation. The board shall appoint an actuary, who shall hold office at its pleasure, and may appoint a secretary, provided that the positions of secretary and actuary may be consolidated into one position by the said board, and the board may employ a consulting actuary from time to time. The

Powers and
duties of
retirement
board

secretary or actuary shall have the power to administer oaths and affirmations in all matters pertaining to the business of the retirement system.

The retirement board shall be the sole authority and judge, under such general ordinances as may be adopted by the supervisors, as to the conditions under which members may receive and may continue to receive benefits of any sort under the retirement system, and shall have exclusive control of the administration and investment of such fund or funds as may be established, provided that all investments shall be of the character legal for insurance companies in California

Actuarial Tables, Rates and Valuations.

Section 160. The mortality, service and other tables and the rates of contribution for members as recommended by the actuary and the valuations determined by him and approved by the retirement board shall be conclusive and final, and the retirement system shall be based thereon. The total amount, as determined by the actuary and approved by the board, of the contributions required during any fiscal year of the city and county under the retirement system shall be paid into the retirement system by the city and county during such year. Liabilities accruing under the retirement system because of service rendered to the city and county by persons prior to the date their respective classes become eligible for membership in the system, and administrative costs under the system, shall be met by contributions to the retirement system by the city and county, in addition to any amounts contributed to meet liabilities accruing because of service rendered by such persons after becoming members of the system, provided that such prior service liabilities may be met by annual appropriations instead of by one appropriation for the total amount of the liabilities; and provided further, that such appropriation for any one year shall not be less than the amount disbursed during that year on account of prior service.

Contributions to the retirement system required of the city and county shall be charged by the controller against the general fund or the school, utility, bond or other special fund under which the service was rendered, on account of which the contribution is required; provided that contributions required on account of service rendered by any person prior to becoming a member of the system, under a temporary fund, such as bond or county roads funds, or a fund then no longer existing, may be charged against the general fund, and provided, further, that any contributions required on account of persons receiving benefits under subdivision (c) of section 165, shall be charged against the general fund.

Continuous Service.

Section 161. Continuous service shall be defined by the board of supervisors, but the absence of any officer or employee of the city and county from service caused by reason of the

of continu-
ous service

service of such officer or employee in the military or naval forces of the United States in any war in which the United States has engaged or may become engaged, shall not be deemed to be such an absence from service as shall break the continuity of service required of such officer or employee to entitle him to a pension or retirement allowance as provided under the retirement system, but the period of such absence in such military or naval service shall not be deemed service for the city and county.

Definition, Members of Fire and Police Departments.

Section 162. For the purposes of the retirement system, any officer or employee of the police or the fire departments whose employment therein began prior to January 1, 1900, or whose employment therein began on or shall begin after that date and was or shall be subject to a charter maximum age at the time of employment of not over thirty-five years, shall be considered to be a member of the police department or the fire department, respectively. Any fire or police service outside the limits of the city and county performed by a member of the retirement system and under orders of a superior officer of any such member, shall be considered as city and county service, and any disability or death incurred therein shall be covered under the provisions of the retirement system.

Pensions of Retired Persons.

Section 163. No person retired for service or disability and in receipt of a retirement allowance under the retirement system shall serve in any elective or appointive position in the city and county service, including membership on boards and commissions, nor shall such person receive any payment for service rendered to the city and county after retirement, provided that service as an election officer or juror shall not be affected by this section. Pensions

Should any retired person, except persons retired for service prior to January 8, 1932, and persons retired because of disability incurred in the performance of duty, engage in a gainful occupation prior to attaining the age of sixty-two, the retirement board shall reduce that part of his monthly pension or retirement allowance which is provided by contributions of the city and county, to an amount which, when added to the amount earned monthly by him in such occupation, shall not exceed the compensation on the basis of which his pension or retirement allowance was determined.

Contributions to Retirement Fund.

Section 164. The city and county shall contribute jointly with the members of the retirement system to meet the liabilities accruing under the system because of service rendered to the city and county by persons after becoming members of the system. Members of the system shall contribute not to exceed ten per cent of their salaries or wages, provided that members may, at their option, elect to contribute at rates in addition to (Contributions to retirement fund)

those fixed as normal by the retirement board. The city and county shall contribute an amount equal to normal contributions of members as provided for in the preceding sentence, but the city and county shall not contribute any amount because of additional contributions by members.

Miscellaneous Officers and Employees.

Retirement
system
provision:
as to mem-
bership

Section 165. Officers and employees of the city and county, except members of the police and the fire departments, shall become members of the retirement system subject only to the following provisions, in addition to the provisions contained in sections 158 to 164, of this charter, both inclusive:

(a) The system shall be applied to such offices, departments, bureaus, or classes of officers or employees of the city and county, including teachers in the San Francisco school department, as the supervisors shall determine; provided, however, that the contributions to be made by said teachers and the benefits to be received by said teachers under said retirement system shall be based upon the proportion of the salaries of said teachers which have been and shall be paid out of funds contributed by the city and county, excluding therefrom the portion of such salaries which have been or shall be paid out of funds contributed by the State of California; and in determining such proportion it shall be taken to be the same proportion which the whole amount of money contributed by the city and county to the common school fund in any fiscal year bears to the whole amount of money contributed to such fund in such year by the state and by the city and county; and provided, further, that nothing herein contained shall be construed to deprive any teacher of the right to receive benefits under any pension or retirement system now or hereafter established by the State of California.

(b) No member of the retirement system shall be retired, except in case of disability incapacitating him for the performance of his duties, unless he shall have attained the age of sixty-two years and completed ten years of continuous service, but retirement shall be compulsory at the age of seventy years. It may be provided, however, under such retirement system, that members may retire after thirty years of continuous service; the benefits at retirement in such cases to be determined, because of retirement at an age below sixty-two, in accordance with the tables recommended by the actuary and approved by said retirement board.

(c) All persons who were retired prior to October 1, 1925, from service as teachers in the public schools of San Francisco, under the provisions of the law of 1913, establishing the California Public School Teachers' Retirement Salary Fund, shall be entitled to and shall receive retirement allowances, to be calculated on the same basis as that established for determining the retirement allowances provided for members of the said retirement system.

Present Police Department Members.

Section 166. Persons who are members of the police department on the 8th day of January, 1932, shall become members of the Retirement System on that date, subject only to the following provisions in addition to the provisions contained in sections 158 to 163, both inclusive, of this charter:

Retirement system provisions as to members of police department

(a) Any member of the department who has arrived or shall arrive at the age of sixty-two years, and who has completed thirty years of continuous service as an active member of the department next preceding his retirement, may retire from service at his option, provided that retirement shall be compulsory at the age of seventy years. Such retired member shall receive a monthly pension, payable throughout his life, equal to one-half of the amount of the monthly salary attached to the rank held by him three years prior to the date of his retirement, hereinafter referred to in this section and section 167 as a "pension."

Before the first payment of the pension is made, such retired member may elect to receive the actuarial equivalent of his pension, partly in a pension to be received by him throughout his life, and partly in other benefits payable after his death to another person or persons, provided that such election shall be subject to all the conditions prescribed by the board of supervisors to govern similar elections by other members of the retirement system, including the character and amount of such other benefits.

(b) Any member of the department who shall become physically disabled by reason of any bodily injury received in the performance of his duty, may be retired upon a monthly pension, as defined in subdivision (a), of this section, payable throughout his life. In case his disability shall cease, his pension shall cease, and he shall be restored to the service in the rank he occupied at the time of his retirement.

(c) The family of any member of the department who may be killed or injured while in the performance of his duties, and who shall have been continuously incapacitated from the performance of any duties and who shall have died as the result of such injury, shall receive the following benefits and the receipt by such member of a pension under this section during his lifetime shall not bar the said family from such benefits:

First, should the decedent leave a widow to whom he was married prior to the date of the injury resulting in death, such widow shall, as long as she may live and remain unmarried, be paid a monthly pension equal to one-half of the salary attached to the rank held by the decedent at the time of his said injury; provided, however, that should said widow die, leaving a child or children under the age of sixteen years, said pension shall continue to such child or such children collectively until the youngest child arrives at the age of sixteen years.

Second, should the decedent leave no widow, but leave an orphan child or children under the age of sixteen years, such child or children collectively shall receive a monthly pension

equal to one-half of the salary attached to the rank held by their father at the time of his said injury until the youngest attains the age of sixteen years.

Third, should the decedent leave no widow and no orphan child or children, but leave a parent or parents depending solely upon him for support, such parents, so depending, shall collectively receive a monthly pension equal to one-half of the salary attached to the rank held by the decedent at the time of his said injury during such time as the retirement board may unanimously determine its necessity.

(d) A sum equal to the contributions, with interest, made by persons who become members of the retirement system under this section to any other pension fund shall be paid by the city and county to the retirement system. Each member of the department shall contribute two dollars (\$2) per month to the retirement system to be applied on the cost of the benefits at death and retirement provided under this section. Should a member be separated from city service through any cause other than death or retirement, then such contributions with interest shall be refunded to him under such conditions as may be fixed by the board of supervisors for the refund of contributions of other members of the retirement system.

(e) When any member of the department shall die from natural causes and before retirement, there shall be paid to his estate or beneficiary a death benefit, the amount of which and the conditions for the payment of which shall be determined in the manner prescribed by the board of supervisors for the death benefit of other members of the retirement system.

(f) In addition to the other contributions required of the city and county under the retirement system, the city and county shall contribute to the retirement system during each fiscal year a sum which, together with the members' contributions provided for in subdivision (d) of this section, shall be equal to the liabilities accruing under the retirement system because of service rendered during such year by persons becoming members on the 8th day of January, 1932, under this section. If, subsequent to such fiscal year, it shall be determined that such contribution by the city and county, together with the members' contributions, was not sufficient to meet such liability, then the city and county shall make such additional contribution as may be necessary to make up the deficit.

(g) No benefits shall be provided under the retirement system for, nor shall any contribution be required of, persons who become members of the retirement system under this section, in addition to the benefits specifically provided and contributions specifically required in such section.

That portion of any pension payable because of the death or retirement of any of such persons which is provided by contributions of the city and county shall be reduced, in the manner fixed by the board of supervisors, by the amount of any benefits payable to or on account of such person, under the work-

men's compensation insurance and safety law of the State of same. California.

(h) Persons who are members of the police department on the 8th day of January, 1932, shall have the option, to be exercised in writing on or before the 1st day of July, 1932, of becoming members of the retirement system under the provisions of section 168, which applies to persons who become members of the department after the 8th day of January, 1932. If such persons shall affirmatively exercise such option within the time specified, then they shall not receive any benefit or make any contribution under this section, but shall become members of the retirement system and shall receive benefits and make contributions on the same basis as persons who become members of the department after the 8th day of January, 1932, provided that a pension for each person affirmatively exercising such option shall be payable on account of service rendered to the city and county prior to the 8th day of January, 1932, by contributions of the city and county and such members' contributions as are transferred from other pension funds, which pension shall be the same percentage, regardless of the age of retirement, of his final compensation, as defined by the board of supervisors, for each year of such service, as the contributions of the member and the city and county are calculated to provide upon retirement at age sixty-two for each year of service rendered as a member of the retirement system.

Present Retired Members and Present Beneficiaries, Police Department.

Section 167. Any member of the police department who shall have been retired and shall be receiving a pension on the 8th day of January, 1932, and any widow, child, children or parents of a deceased member of the department, who shall be receiving a pension on the 8th day of January, 1932, shall continue to receive such pension, subject to the provisions of section 166 governing the payment of pensions. Such pension shall be paid by the retirement system, but no other benefits shall be provided for such retired members, widows, children, or parents.

Future Members of Police Department.

Section 168. Persons who become members of the police department after the 8th day of January, 1932, shall become members of the retirement system subject only to the following provision in addition to the provisions contained in sections 158 to 164, both inclusive, of this charter: No such member of the retirement system shall be retired, except in case of disability incapacitating him for the performance of his duties, unless he shall have attained the age of sixty-two years, and completed twenty-five years of continuous service, except that retirement shall be compulsory at the age of seventy years. It may be provided, however, under such retirement system, that members may retire after thirty years of continuous service, the benefits

at retirement in such cases to be determined, because of retirement at an age below sixty-two, in accordance with the tables recommended by the actuary and approved by said retirement board.

The retirement board, by unanimous vote, may retire from service any aged, disabled or infirm member of the fire department who has arrived at the age of sixty years and who has completed twenty years of continuous service as a member of the department next preceding such age, who may be ascertained to be, by reason of such age, infirmity or other disability, unfit for the performance of his duties. Such retired member shall receive a monthly pension, payable throughout his life, equal to one-half the amount of the salary attached to the rank held by him three years prior to the date of his retirement hereinafter referred to as "pension" in this and following sections; provided that where such retirement is based on disability alone, in case the disability of such member shall cease, his pension shall cease, and he shall be restored to service in the rank he occupied at the time of his retirement. Should any said retired member die leaving a widow, who shall have been married to the decedent at least one year prior to the date of his retirement, such widow shall, as long as she may live and remain unmarried, be paid said pension; provided further, that should said widow die leaving a child or children under the age of sixteen years, said pension shall continue to be paid such child or such children collectively until the youngest child arrives at the age of sixteen years; and provided, further, that should said retired member die leaving no widow but leaving an orphan child or children under the age of sixteen years, such child or children collectively shall receive said pension until the youngest child attains the age of sixteen years.

(b) The family of any member of the fire department who shall die as a result of any injury received during the performance of his duty, or from sickness clearly, unmistakably and

First, should the decedent leave a widow to whom he was married prior to the date of the injury resulting in death, his widow shall, as long as she may live and remain unmarried, be paid a monthly pension equal to one-half of the salary attached to the rank held by the decedent at the time of his said injury provided, however, that should said widow die, leaving a child or children under the age of sixteen years, said pension shall continue to such child or children collectively until the youngest child arrives at the age of sixteen years.

Second, should the decedent leave no widow, but leave an orphan child or children under the age of sixteen years, such child or such children collectively shall receive said pension until the youngest child attains the age of sixteen years.

Third, should the decedent leave no widow and no orphan child or children, but leave a parent or parents dependent solely upon him for support, such parents so depending shall collectively receive said pension during such time as the retirement board may unanimously determine its necessity.

(c) When any member of the department shall die from natural causes and before retirement, and when no pension is payable to his widow or children, there shall be paid to his estate or beneficiary a death benefit, the amount of which and the conditions for the payment of which shall be determined in the manner prescribed by the board of supervisors for the death benefit of other members of the retirement system.

(d) In addition to the other contributions required of the city and county under the retirement system, the city and county shall contribute to the retirement system during each fiscal year a sum which shall be equal to the liabilities accruing under the retirement system because of service rendered during such year by persons becoming members on the 8th day of January, 1932, under this section. If, subsequent to such fiscal year, it shall be determined that such contribution by the city and county was not sufficient to meet such liability, then the city and county shall make such additional contribution as may be necessary to make up the deficit.

(e) No benefits shall be provided under the retirement system for, nor shall any contributions be required of, persons who become members of the retirement system under this section, in addition to the benefits specifically provided and contributions specifically required in such section. Any pension payable because of the death or retirement of any of such persons shall be reduced, in the manner fixed by the board of supervisors, by the amount of any benefits payable to or on account of such person, under the workmen's compensation insurance and safety law of the State of California.

(f) Persons who are members of the fire department on the 8th day of January, 1932, shall have the option, to be exercised in writing on or before the 1st day of July, 1932, of becoming members of the retirement system under the provisions of section 171, which applies to persons who become members of the department after the 8th day of January, 1932. results

Section 178. The canvass of voters, canvass of returns, declaration of election and certificate of election shall be made as provided by general law. If a person elected fails to qualify, the office shall be filled as in this charter provided for a vacancy in such office.

Initiative, Referendum and Recall.

Section 179. The registered voters shall have power to propose by petition, and to adopt or to reject at the polls, any ordinance, act or other measure which is within the power conferred upon the board of supervisors to enact, or any legislative act which is within the power conferred upon any other board, commission or officer to adopt, or any amendment to the charter. Such ordinance, act, charter amendment or other measure may be so proposed by filing with the registrar a petition setting forth said measure in full, signed by registered voters of the city and county as many in number as the percentages hereinafter required of the entire vote for all candidates for the office of mayor cast at the last preceding regular municipal election.

Declaration
of policy
to be sub-
mitted to
electors

Any declaration of policy may be submitted to the electors in the manner provided for the submission of ordinances; and when approved by a majority of the qualified electors voting on said declaration, it shall thereupon be the duty of the board of supervisors to enact an ordinance or ordinances to carry such policies or principles into effect, subject to the referendum provisions of this charter.

Any ordinance which the supervisors are empowered to pass may be submitted to the electors by a majority of the board at a general election or at a special election called for the purpose, said election to be held not less than thirty days from the date of the call. Any such ordinance may be proposed by one-third of the supervisors or by the mayor, and when so proposed shall be submitted to the electors at the next succeeding general election. No ordinance passed by the supervisors granting any public utility franchise or privilege, shall go into effect until the expiration of sixty days from the date it becomes final. At the end of such sixty days such ordinance shall be in force and effect, unless within such

period there shall be filed with the registrar a petition signed by registered voters equal in number to five per cent of the entire vote cast for mayor at the last preceding regular municipal election, requesting that such ordinance be submitted to the electors. In case such petition is filed, such ordinance shall not go into effect until approved by a majority of the voters voting thereon at a general or special election.

Any elective official, the chief administrative officer, the controller or any member of the board of education or the public utilities commission may be recalled by the electors. The procedure to effect such recall shall be as follows: A petition demanding the recall from office of the person sought to be recalled shall be filed with the registrar. Said petition shall contain a statement of the grounds on which the recall is sought. Any insufficiency of form or substance in such statement shall in no wise affect the validity of the election and proceedings held thereunder. No recall petition shall be filed against any officer until he has held his office for at least six months.

Petitions.

Section 180. The filing, verification and certification of initiative, referendum and recall petitions shall be in accordance with general law, and rules and regulations of the registrar of voters relative to details not covered by general law, except as otherwise provided by this charter. Any signer to a petition may withdraw his name from the same by filing with the registrar of voters a verified revocation of his signature before the filing of the petition. No signature can be revoked after the petition has been filed. Unless and until it be proven otherwise by official investigation by the registrar, it shall be presumed that the petition filed conforms to all legal requirements and contains the signatures of the requisite number of registered voters, and after an election based thereon, the sufficiency of such petition shall not be questioned.

Initiative
referendum
and recall
petitions

If any signature be questioned, the registrar shall mail notice to such purported signer, stating that his or her name is attached to such petition and citing him or her to appear before said registrar forthwith, naming the time and place. Said citation shall enclose a blank affidavit, which may be used to deny that the affiant signed such petition. If such person does not desire to attend in person, he may swear to such affidavit of denial before any officer authorized to take oaths, and mail the same to the registrar. If he does not so attend and deny such signature in person or by making and mailing such affidavit of denial before the time when the registrar must, under general law, make final determination, the signature to such petition must be treated as genuine. The registrar shall keep a list of the names of all purported signers who appear before him and deny their signature under oath, and also file and keep such affidavits for at least one year.

Special Election Fund.

Election
fund.

Section 181. The board of supervisors, in the first annual budget to be hereafter adopted by said board, shall appropriate not less than fifty thousand dollars to be known as the special election fund, to be used exclusively for defraying the cost of verifying petitions and other expenses of all special elections initiated by petition of the electorate, including recall elections. In the event of the expenditure of any of said fund, the board of supervisors in the next succeeding annual budget shall appropriate a sum sufficient to reimburse said special election fund.

Time of Election.

Calling of
special
election

Section 182. If the petition accompanying a proposed initiative measure, declaration of policy, or recall be signed by registered voters equal in number to ten per cent of the entire vote cast for mayor at the last preceding general municipal election and contains a request that said measure, policy or recall be submitted forthwith to a vote of the electorate at a special election, then the registrar shall forthwith call a special election, which shall be held at a date not less than thirty nor more than forty days from the date of calling the same, at which said measure or policy, without alteration, or said recall shall be submitted to a vote of the electorate, unless within sixty days of a general or primary election, in which event it shall be submitted at such general or primary election.

If the petition accompanying a proposed initiative measure or declaration of policy be signed by registered voters equal in number to five per cent but less than ten per cent of the said entire vote, then such measure or measures, without alteration, shall be submitted by the registrar to a vote of the electorate at the next general state or municipal election that shall occur at any time after thirty days from the date of the certificate of sufficiency attached to the petition accompanying such measure, unless the board of supervisors, by ordinance, direct that the measure or policy be voted on at a special election prior thereto.

Measures and Arguments to Be Mailed to Voters.

Election
material to
be mailed
voters

Section 183. Whenever any measure is required by this charter to be submitted to the voters of the city and county at any election, the registrar shall cause the measure or policy to be printed on sheets measuring six by nine inches, and shall mail the same with a sample ballot to each voter, at least five days prior to the election. This printed copy may be attached to any other matter required to be printed and mailed.

With or upon the sample ballot mailed to each voter prior to a recall election, there shall be transmitted the reasons for demanding the recall of the officer as set forth in the recall petition, printed in not more than three hundred words, and with or upon the same ballot the printed statement of the officer

in not more than three hundred words justifying his course in office.

If the proposition be submitted to the registered voters upon an initiative, referendum or recall petition, the persons filing said petition shall have the right to present to the registrar at any time twenty-five days prior to said election, copies of printed arguments favoring their petition, and the registrar shall not accept arguments favoring said petition without the approval of those filing said petition. If said proposition be submitted by the mayor or by the board of supervisors, or by one-third of the board of supervisors, they shall have a similar right to present copies of printed arguments. Said arguments, for or against, shall be printed and shall not exceed four pages, six by nine inches in size, for each proposition. Any person, committee or organization opposing the measure, policy, charter amendment, or recall placed before the voters may present, in like manner and of the same form and size and within the same time, printed arguments opposing said proposition. Copies of said arguments shall be delivered to the registrar equal in number to five per cent in excess of the total number of registered voters. The registrar shall cause one copy of each of said arguments to be mailed with the copy of the measure or the amendment.

Form of Ballot—Majority Vote.

Section 184. The ballots used when voting upon any proposed measure, referendum, policy, recall or confirmation shall contain a general statement thereof, followed by the words "Yes" and "No," so arranged that the voter may indicate his choice upon the ballot. If a majority of the qualified electors voting on said proposed measure, referendum, policy, recall or confirmation shall vote in favor thereof, it shall go into effect ten days after the declaration of the official count. The general statement or question provided for in this section shall be prepared by the city attorney and shall consist of not over thirty words.

If the official proposed to be removed at any recall election shall, as the result of said election, be recalled, the mayor shall appoint his successor for the unexpired term and the officer so recalled shall be ineligible to hold any city and county office for two years; should said officer be retained in his office, he shall be reimbursed out of the special election fund for his expenses in such recall election; provided that such payment shall not exceed the amount he is permitted to spend under the Purity of Elections Act now in force.

Competing and Conflicting Measures—Repeal.

Section 185. When two or more proposed measures are of the same general purpose, the registrar shall so declare, and shall cause the ballots to be so printed that the voter, first, may choose between any measure or none, and, secondly, may express his preference for any one. If a majority of the votes

on the first question is affirmative, then the measure receiving the highest number of votes shall become law and the others fail of passage. In case two or more measures are tied for the highest vote, they shall be resubmitted at the next ensuing general election. If there is a conflict between two or more measures or between two or more charter amendments adopted at the same election, then the measure or charter amendment receiving the highest affirmative vote shall prevail.

No initiative, ordinance or measure or declaration of policy approved by the electorate under the provision of this charter shall be subject to veto, or be amended or repealed except by vote of the electorate, unless such ordinance or measure shall otherwise provide.

Substantial Compliance.

Section 186 No informalities in conducting municipal, special, initiative, referendum or recall elections shall invalidate such elections if they have been conducted fairly and in substantial compliance with and conformity to the requirements of this charter.

Except as otherwise provided, borough elective officers shall be elected to serve for terms of four years and until their successors are elected and qualify.

Within fifteen days after the establishment of a new borough created upon petition as herein provided, the mayor of the city and county shall appoint five qualified residents of the borough as members of the council to serve until their successors are elected and qualify. At the next succeeding general borough election, the voters thereof shall elect three members of the council to serve for terms of two years, and two members to serve for terms of four years, beginning at twelve o'clock noon on the 8th day of January following the date of their election.

The council of a borough which by consolidation is automatically established, shall consist of the same number of members as shall compose the council of the city at the time consolidation becomes effective. The city councilmen in office at the time of such consolidation shall continue in office as borough councilmen until the end of the terms for which they were respectively elected, and thereafter until twelve o'clock noon on the 8th day of January of the first succeeding even-numbered year. At the general borough election immediately preceding the expiration of the terms of any such members of a borough council, the voters of the borough shall elect their successors to serve for terms of four years. The first meeting shall be held within thirty days after its establishment at the time and place upon which a majority of the council shall in writing agree upon. All legislative sessions of the council, whether regular or special, shall be open to the public. A majority of all members of the council shall constitute a quorum for the transaction of business. All borough records shall be open to the public.

No member of the borough council shall receive compensation for his services unless an ordinance providing for such compensation shall first have been approved by a majority of the borough voters voting thereon; provided, however, that councilmen of a borough automatically established shall continue to receive the same compensation as provided for councilmen by the city which it succeeds at the time consolidation becomes effective, until the borough provides otherwise by ordinance approved by a majority vote of the vote cast thereon.

The council shall by ordinance determine what bonds, if any, are to be given by the elective and appointive officers of the borough, and shall fix their amounts and form, and such bonds shall be approved in the case of a borough controller by the council and in the case of all other officers by the borough controller, and the premiums thereon shall be paid by the borough.

He shall have power to inquire into all contracts, including the performance thereof and into all proceedings involving the expenditure of public funds to which the borough is a party, and into the financial transactions of all officers and employees of the borough. For this purpose he may administer oaths, summon witnesses and order the production of relevant books and papers. If any person fails to obey such summons or order or refuses to answer any proper question, the borough controller may petition a court of competent jurisdiction for an order directing such person to comply with said summons or order or to answer such questions. He shall have power to employ such expert accountants or other agents as he may deem necessary to carry out his powers, and the council shall appropriate such funds as may be needed for this purpose.

Section 202. The council may provide, by borough ordinance, for a borough planning commission of five members. The ordinance shall provide for the qualifications, manner of appointment, terms, and compensation of the members of such commission, but no compensation shall be paid any member unless the ordinance providing for such compensation shall first have been approved by a majority of the borough voters voting thereon. Said ordinance shall provide that the borough planning commission shall have and exercise within the borough such powers and duties as shall correspond to, so far as possible, the powers and duties of the planning commission of the city and county.

Until a borough planning commission is provided, the council shall have and exercise within the borough such powers and duties of a planning commission as the council, by ordinance, may provide.

The borough planning commission, or the council, as the case may be, shall have such advisory powers relating to any planning matter of the city and county affecting any property,

streets, public work or public improvement of or within the borough, as may be provided by ordinance of the board of supervisors.

The borough planning commission, or the council, as the case may be, shall have power to recommend changes in or the repeal of any city ordinance establishing zones for the uses of property within the borough which may be continued in effect upon consolidation. In the determination of which class of occupation zones the property within a borough may be divided, or in the modification of any city zoning ordinance continued in effect, the borough planning commission, or the council, as the case may be, shall accept the classification of occupation zones which the board of supervisors, by ordinance, shall establish for the city and county.

The city manager of a city automatically established as a borough shall continue to hold such office as borough manager until removed by the council, and the council may appoint his successor.

The borough manager shall be chosen by the council without regard to political consideration and solely with reference to his executive and administrative qualifications. Residence within the borough shall not be a qualification for his appointment; but promptly thereafter during his term of office, he shall become and shall remain an actual resident of the borough.

The powers and duties of the borough manager shall be as follows:

(l) To possess such additional powers and duties as may be provided in this charter or by ordinance.

The borough manager shall have the right to take part in the discussion of all matters coming before the council, but shall have no vote therein.

In case of the absence or disability of the borough manager, the council may designate some qualified person to perform the duties of the office temporarily.

No member of the council shall in any manner, directly or indirectly, by suggestion or otherwise, attempt to influence or coerce the borough manager in making of any appointment or the purchase of supplies, or attempt to exact any promise relative to any appointment from any candidate for borough manager, or discuss, directly or indirectly, with any such candidate the matter of appointments to borough offices or employments. Any violation of the foregoing provisions of this section shall constitute a misdemeanor and shall work a forfeiture of the office of the offending member of the council, who may be removed therefrom by the council or by any court of competent jurisdiction.

No persons related to a borough manager by blood or by marriage shall be eligible for borough employment.

A borough manager may, by written agreement of the councils of the boroughs interested, act as joint manager for two or more boroughs, in which case he shall become a resident of one of the boroughs so interested and shall devote his entire time to the interests of such boroughs.

Borough Legislation.

Section 205. The council shall act in legislative matters by ordinance only. Other action of the council, unless otherwise provided, may be taken by resolution, motion or order. No

ordinance or resolution or order for the expenditure of money shall be passed without receiving the affirmative votes of a majority of all members of the council.

The enacting clause of all borough ordinances shall be as follows: "The people of the Borough of _____ (inserting the name of the borough) of the City and County of San Francisco do ordain as follows." No ordinance shall be passed by the council on the day of its introduction, nor within five days thereafter, nor at any time other than a regular meeting. A proposed ordinance may be amended or modified between the time of its introduction and the time of its final passage, providing its general scope and original purpose are retained. All ordinances shall be signed by the president and attested by the borough clerk and shall be published at least once in some newspaper of general circulation established, printed and published in the borough, and if there be no such newspaper they shall be posted in at least three public places in the borough before becoming effective.

Every ordinance passed by a council shall go into effect at the expiration of thirty days after its final passage, unless otherwise provided in said ordinance and as otherwise provided herein. Ordinances declared by the council to be necessary as emergency measures for the immediate preservation of public peace, health, or safety, containing a statement of the reasons for their urgency, and ordinances ordering or otherwise relating to elections, and ordinances relating to public improvements, the cost of which is to be borne wholly or in part by special assessments, may go into effect at the will of the council.

Borough Fiscal Procedure.

Section 206. Within the time limits fixed by this charter for the preparation and adoption of the budget of the city and county, every borough shall cause to be prepared and shall adopt a borough budget which shall be a complete statement of the estimate of the revenues and expenditures of the borough departments for the ensuing year. Such budget shall be prepared substantially in the same manner and in such detail as required for the budget of the city and county so far as the same may be applicable. Upon the adoption of the budget, it shall take effect at the same time and shall be binding upon the borough in substantially the same degree and in the same manner as the city and county budget shall be effective and binding upon the city and county.

Borough
fiscal
procedure

The fiscal year of a borough shall be the same as for the city and county.

Within the time limits fixed by law or by this charter for the city and county, the borough council may levy a borough tax sufficient to raise the amount estimated to be required in the annual budget as herein provided, less the amounts estimated to be received from fines, licenses, and other sources of revenue; but such levy, exclusive of the tax to pay the interest

Same.

and maintain the sinking funds of the bonded indebtedness of the borough, and exclusive of special assessment and district taxes and of the library tax, shall not exceed the rate of one dollar on each one hundred dollars of the assessed valuation of the taxable property within the borough. Should the council fail to fix the tax rate within the time prescribed, then the borough tax rate of the previous year shall constitute the rate of the current year. The council, by ordinance, may provide for a higher tax limit, but such tax limit shall not be effective unless the ordinance fixing such tax limit shall first have been approved by a majority of the borough voters voting thereon.

All borough taxes levied, together with interest thereon and any percentage imposed for delinquency and the cost of collection, which shall be those prescribed in this charter for the city and county, shall constitute liens on the property assessed, which taxes, interest, penalties and charges shall be collected in the same manner as is provided for the collection of city and county taxes, and which liens may be foreclosed upon in the same manner as is provided for the foreclosure of liens for city and county taxes.

All borough taxes shall be levied on the valuation of the taxable property within the borough as shall be fixed by the assessor of the city and county for city and county tax purposes.

There shall be a borough fund for each borough. All borough taxes shall be collected by the tax collector of the city and county and shall be paid into the city and county treasury to the credit of the borough concerned, together with all revenues of a borough received from fines, licenses, and other sources of revenue, except as otherwise provided. Money shall be payable from a borough fund only on warrants drawn with the approval of a borough council by such borough officer as the council may authorize, and when countersigned by the borough controller.

The manner and time within which deposits of borough moneys received from taxes, licenses, fees, fines, penalties, forfeitures, and all moneys accruing to a borough from any source shall be made and the transfer and disposition of all surplus funds, shall be provided for by ordinance of the board of supervisors, and shall be uniform for all boroughs.

The council shall not create, audit, or permit to accrue, any debt or liability in excess of the available money in the borough fund of the borough that may be legally apportioned and appropriated for such purpose; provided that taxes levied though uncollected are deemed available income and revenue for the year for which levied; and provided, that any borough, during the first year of its existence, may incur such indebtedness or liability as may be necessary, not exceeding in all the income and revenue provided for it in such year, nor shall any warrant be drawn, or evidence of indebtedness be issued, unless there be at the time sufficient money in the borough

fund legally applicable to the payment of the same, except as hereinafter provided. When any order or demand is presented to the borough controller for approval and is not approved for want of funds and the amount of said order or demand does not exceed the income and revenue for the year in which the indebtedness was incurred, such borough controller must indorse thereon the words, "not approved for want of funds," with the date of presentation and shall, in attestation thereof, affix his signature thereto; and shall number such indorsement and shall register said order or demand in the records of his office and shall thereupon deliver said order or demand to the claimant, or his order. From that time, such order or demand shall bear interest at the rate of six per cent per annum. Such orders or demands, so registered as herein provided, shall be paid in the order in which the same are registered.

All license taxes collected by the city and county within the limits of any borough shall be credited to the borough fund of such borough by the treasurer of the city and county.

Borough Tax Subventions.

Section 207. For those boroughs which shall within their own boundaries perform municipal functions concerned with the maintenance of streets, sewers, parks, libraries, and playgrounds, which would otherwise be the municipal obligation of the city and county, the board of supervisors shall by ordinance provide for a system of subventions to such boroughs from tax funds of the city and county, provided that in no event shall such subvention to any borough in any one fiscal year either exceed the amount which such borough shall appropriate out of borough funds in that year for such municipal functions, or exceed the amount which the city and county shall raise in that year by city and county taxes for similar municipal purposes of the city and county upon the assessed valuation of taxable property within such borough. Such system of subventions may be modified from time to time by the board of supervisors by ordinance, but all ordinances providing for such a system shall apply generally to all boroughs.

Borough Bonded Indebtedness.

Section 208. A borough may incur an indebtedness, exceeding in any year the income and revenue provided for such year, for the purposes of paying the cost of any borough improvement or acquisition within the power of the borough to make or acquire and may issue and sell borough bonds for such purposes, provided said indebtedness and bonds are authorized as herein provided by ordinance or resolution of the borough pledging the faith and credit of the borough therefor. Such ordinance or resolution shall be adopted and the proposition for the issue and sale of such bonds shall be submitted to a vote of the voters of the borough in substantially the same form and manner and according to the same procedure as is provided in this charter for the issue and sale

of bonds by the city and county, or in the manner and form and according to the procedure provided in any general law of the State of California in force at the time governing the issue and sale of bonds by municipalities, so far as the same may be applicable.

No such debt shall be incurred and no such bonds shall be issued by any borough without the assent of two-thirds of the voters thereof voting thereon at an election to be held for that purpose, nor unless before or at the time of incurring said debt or issuing said bonds provision shall be made for the collection of an annual tax sufficient to pay the interest on such debt or bonds as it falls due and provision shall also be made to constitute a sinking fund for the payment of the principal thereof on or before maturity.

In no case shall borough bonds be issued for a term which shall exceed the estimated life of the work or improvement for the payment of which they are issued as certified by the council in the ordinance calling the bond election, nor for a term to exceed forty years.

No bond shall be issued on the faith and credit of the borough which will increase the bonded indebtedness thereof beyond five per cent of the assessed valuation of the property within the borough subject to direct taxation as shown by the last preceding assessed valuation.

The proceeds from the sale of borough bonds shall be applied exclusively to the purposes and objects to which the voters of the borough have assented, until such purposes and objects have been accomplished, after which the surplus, if any, shall be transferred to the bond interest or redemption fund of the borough.

Borough bonds shall not constitute a debt or general obligation of the city and county.

Borough Special Assessments.

Special assessments.

Section 209. In the exercise of its power to provide for the payment of the cost of any public improvement in whole or in part by special assessment levied against the property benefited thereby, a borough acting through its council may establish local improvement districts and levy and collect special assessments and reassessments to pay the costs and expenses of such improvements, which expenses shall be made and assessments levied and collected in conformity with the procedure set forth in this charter for the city and county, or with the procedure set forth in any ordinance passed or adopted thereunder, or with the procedure set forth in any one or more of the general laws of the State of California in force at the time of the improvement relating to the doing of public work or the making of public improvements in municipalities or in counties, so far as the same may be applicable. The council may provide in accordance with the procedure set forth in said charter or said ordinance or general law or laws for the issuance, sale, payment and redemption of interest bearing

bonds to represent or to be secured by such assessments or any reassessments remaining unpaid after a certain period, either singly or in the aggregate, and may provide that such assessments or reassessments may be paid in installments and be collected in the same manner in which city and county taxes are collected or otherwise, and for the sale of lands burdened by such assessments or reassessments and for the purchase of same on behalf of the borough in event of nonpayment, and may provide other or alternative methods for such collection by foreclosure or otherwise. Such work or improvements are any permitted to be done by boroughs under this charter or by the city and county or by any such procedure, ordinance or general law.

Nothing contained herein shall prevent the board of supervisors from establishing similar local improvement districts where the same shall cover territory in two or more boroughs or parts thereof, or cover territory lying partly within and partly without a borough, or from levying and collecting special assessments and reassessments to pay the cost and expenses of such local public improvements.

Borough Contracts and Official Advertising.

Section 210. In the preparation of estimates, calling for bids, advertising, and awarding of contracts for supplies, materials, labor, official advertising, or for any public work, a borough shall be subject to the provisions of any ordinance as the board of supervisors shall provide to be applicable uniformly to all boroughs. Such ordinance shall follow as closely as practicable the provisions of this charter relating to such matters applicable to the city and county and shall charge borough officers with appropriate duties in the premises.

Contracts for the official advertising of a borough shall be let as this charter provides for the letting of contracts for official advertising of the city and county, provided that any such contract shall be let to a daily or weekly newspaper of general circulation established, printed, and published in the borough, if any such there be. If there be no such newspaper, then such contract shall be let to a daily or weekly newspaper of general circulation established, printed and published in the city and county.

Any newspaper of general circulation which for one year next prior to consolidation was established, printed and published in the territory consolidated with the city and county shall thereafter be deemed to have been so established, printed and published as a newspaper of general circulation for said period of one year within said city and county for all purposes of official publication or advertising.

The advertising of the delinquent borough tax list of the property within a borough shall be let by the board of supervisors to the lowest responsible bidder for publication in a newspaper of general circulation printed and published within such borough, if any such there be, and otherwise in such a

newspaper printed and published in the city and county and such delinquent tax list shall be published in such newspaper at least once.

Interest in Borough Contracts.

Section 211. No officer or employee of a borough shall be or become directly or indirectly interested in any contract of such borough. Any such officer or employee violating the provisions of this section shall forfeit his office or place of employment and be disqualified from being elected, appointed or employed in the service of such borough, or the city and county, or any other borough thereof, and such contract shall be void.

Borough Civil Service.

Civil service Section 212. Whenever the voters of a borough shall approve an ordinance of the council providing for civil service for officers and employees of the borough, the council shall enter into an agreement with the civil service commission of the city and county for the administration of the civil service system of the borough, and it shall provide in the borough budget for the payment to the city and county of the costs of such services.

In any such ordinance it shall be provided that all borough officers and employees, not otherwise exempt as herein provided, shall be subject to the civil service provisions of this charter as far as they may be consistently applicable to such officers and employees. Such ordinance shall further provide that there shall be no exemption of any borough officers or employees from the borough civil service system except in the case of elective borough officers, appointees to any borough board or commission not required to give full-time service, and the borough manager, if any. Such ordinance may also provide that any borough officer or employee, who shall be subject to the borough civil service system and who has been continuously employed full-time for one year prior thereto by the borough or by the city automatically established as such borough, shall without any examination be deemed appointed within the civil service provisions of this charter to the position to which he may be assigned and entitled to all the benefits of said civil service provisions thereafter.

Whenever the voters of a borough shall approve an ordinance of the council providing for retirement allowances and death benefits applicable to officers and employees of the borough, the council shall enter into an agreement with the retirement board of the city and county for the administration of the borough retirement allowances and death benefits, and for contributions by the borough and the borough officers and employees to the retirement system of the city and county in like manner as is provided for such administration and contributions by the city and county and city and county officers and employees.

The right of borough officers and employees to participate in such a retirement system, the manner in which they may participate, and the benefits they may enjoy, shall be those provided by the retirement system for officers and employees of the city and county.

In any such borough ordinance it may be provided that any officer or employee participating in its benefits shall receive credit for his prior continuous full-time service to the borough and/or to the city automatically established as such borough, and all liabilities accruing under such system because of such prior service shall be met by the borough.

Borough Elections.

Section 214. The primary and general elections of a ^{Elections.} borough shall be held at the time provided in this charter for municipal primary and general elections of the city and county. Except as otherwise provided in this charter, the council by ordinance shall call any special borough election and notice of such special election shall be given by proclamation issued by the president of the council and posted and published as the council may direct for the period of at least thirty days next preceding the date of such election. Any borough election shall be conducted and canvassed in the same manner as an election of the city and county, but the cost of any special election shall be borne by the borough. A borough special election may be called to be held on any day appointed for any primary or general election of the city and county.

Borough Initiative, Referendum, and Recall.

Section 215. The voters of a borough may invoke the initiative provisions of this charter to apply to any borough ordinance, and they may also invoke the referendum provisions of this charter to apply to any ordinance, act or measure of a borough council. The council may submit any ordinance it is empowered to pass to a vote of the borough voters. The voters of a borough may invoke the recall provisions of this charter to apply to any elective borough officer. It shall be the duty of the board of supervisors, by ordinance uniformly applicable to all boroughs, to make the provisions of this section effective.

established as successor to any such city, shall continue in the position to which he may be assigned in the employ of the borough until the end of his term or if without a term until removed by the authority to whom power of removal is committed.

All contracts for materials, supplies and labor, and all public works, special assessments or similar proceedings entered into or undertaken by a city consolidated with the city and county in force or in course of performance when consolidation becomes effective, shall be continued and perfected by the borough automatically succeeding any such city, provided the borough shall have jurisdiction in the matter for which such contracts were entered into or over such public works, special assessment or similar proceedings, and otherwise by the city and county.

All ordinances of a city consolidated with the city and county which are not inconsistent with the provisions of this charter or with any ordinance of the city and county shall, until repealed or amended by borough ordinances, be continued in force as ordinances of the borough automatically succeeding such city.

General Legislation for Boroughs.

Section 218. CHAPTER 58.

Senate Concurrent Resolution No. 10—Relative to the orderly addition of new roads to the state highway system, after

engineering and economic studies by the California highway commission and the department of public works.

[Filed with Secretary of State May 7, 1931.]

Additions
to secondary
state high-
way system.

WHEREAS, It appears that some highways not now in the state highway system are carrying a volume of state traffic that far exceeds the local traffic carried on said roads thus placing upon the counties in which these roads are located an undue and heavy maintenance burden; and

WHEREAS, A preliminary investigation by the California highway commission and department of public works indicates that there is at the present time a decidedly greater mileage of such roads in the south, as compared with those in the north, carrying this excessive state traffic; and

WHEREAS, An executive message was transmitted to the Legislature under date of March 12, 1929, in which was suggested certain underlying principles to be observed in the inclusion of new secondary roads within the state highway system; now therefore be it

Resolved by the Senate, the Assembly concurring, That the principles enunciated in said executive message be observed in the inclusion of new roads within the state highway system, and that the California highway commission and the department of public works be, and they are hereby directed to observe the following principles in the inclusion of new roads within the state highway system:

1. Additions may during the next two years be made to the secondary state highway system totaling not more than fifteen per cent of the existing secondary state highway mileage as now constituted under chapter 794, statutes of 1927, approved May 26, 1927 (state highway classification act), said mileage to be added in the ratio of not less than three nor more than four miles in the south to one mile in the north.

2. For budgetary purposes, this mileage shall be included as a part of the state highway system by the California highway commission when the necessary surveys are completed; provided, however, no money be expended on same until they have been finally included in the system by legislative act.

3. There shall be no change in the present statutory division of secondary highway funds; and, be it further

Study of
highway
traffic.

Resolved, That the California highway commission and the department of public works be and they are hereby directed to make a careful study of the state highway system to ascertain and determine routes not now in the system which, either by reason of the large volume of state traffic that they are now carrying, or by reason of the relief that they would afford to heavy traffic upon present state highways, or as highways serving as important interstate links, might properly be included and added to the state highway system; and be it further

[Filed with Secretary of State May 15, 1931]

Constitution
Art IV,
Sec. 1.

Resolved by the Senate, the Assembly concurring, That the Legislature of the State of California, at its forty-ninth regu-

lar session commencing on the fifth day of January, 1931, two-thirds of all the members elected to each of the two houses of said Legislature voting in favor thereof, hereby proposes to the people of the State of California that section 1 of article four of the constitution of said state be amended to read as follows:

Section 1. The legislative power of this state shall be vested in a Senate and Assembly which shall be designated "The Legislature of the State of California," but the people reserve to themselves the power to propose laws and amendments to the constitution, and to adopt or reject the same, at the polls independent of the Legislature, and also reserve the power, at their own option, to so adopt or reject any act, or section or part of any act, passed by the Legislature. The enacting clause of every law shall be "The people of the State of California do enact as follows:"

The first power reserved to the people shall be known as the initiative. Upon the presentation to the secretary of state of a petition certified as herein provided to have been signed by qualified electors, equal in number to eight per cent of all the votes cast for all candidates for governor at the last preceding general election, at which a governor was elected, proposing a law or amendment to the constitution, set forth in full in said petition, the secretary of state shall submit the said proposed law or amendment to the constitution to the electors at the next succeeding general election occurring subsequent to ninety days after the presentation aforesaid of said petition, or at any special election called by the governor in his discretion prior to such general election. All such initiative petitions shall have printed across the top thereof in twelve-point black-face type the following: "Initiative measure to be submitted directly to the electors."

Upon the presentation to the secretary of state, at any time not less than ten days before the commencement of any regular session of the Legislature, of a petition certified as herein provided to have been signed by qualified electors of the state equal in number to five per cent of all the votes cast for all candidates for governor at the last preceding general election, at which a governor was elected, proposing a law set forth in full in said petition, the secretary of state shall transmit the same to the Legislature as soon as it convenes and organizes. The law proposed by such petition shall be either enacted or rejected without change or amendment by the Legislature, within forty days from the time it is received by the Legislature. If any law proposed by such petition shall be enacted by the Legislature it shall be subject to referendum, as hereinafter provided. If any law so petitioned for be rejected, or if no action is taken upon it by the Legislature, within said forty days, the secretary of state shall submit it to the people for approval or rejection at the next ensuing general election. The Legislature may reject any measure so proposed by initiative petition and propose a different one on the same subject by a yea and nay vote upon separate roll call, and in

such event both measures shall be submitted by the secretary of state to the electors for approval or rejection at the next ensuing general election or at a prior special election called by the governor, in his discretion, for such purpose. All said initiative petitions last above described shall have printed in twelve-point black-face type the following: "Initiative measure to be presented to the Legislature."

Referendum

The second power reserved to the people shall be known as the referendum. No act passed by the Legislature shall go into effect until ninety days after the final adjournment of the session of the Legislature which passed such act, except acts calling elections, acts providing for tax levies or appropriations for the usual current expenses of the state, and urgency measures necessary for the immediate preservation of the public peace, health or safety, passed by a two-thirds vote of all the members elected to each house. Whenever it is deemed necessary for the immediate preservation of the public peace, health or safety that a law shall go into immediate effect, a statement of the facts constituting such necessity shall be set forth in one section of the act, which section shall be passed only upon a yea and nay vote, upon a separate roll call thereon; provided, however, that no measure creating or abolishing any office or changing the salary, term or duties of any officer, or granting any franchise or special privilege, or creating any vested right or interest, shall be construed to be an urgency measure. Any law so passed by the Legislature and declared to be an urgency measure shall go into immediate effect.

Upon the presentation to the secretary of state within ninety days after the final adjournment of the Legislature of a petition certified as herein provided, to have been signed by qualified electors equal in number to five per cent of all the votes cast for all candidates for governor at the last preceding general election at which a governor was elected, asking that any act or section or part of any act of the Legislature be submitted to the electors for their approval or rejection, the secretary of state shall submit to the electors for their approval or rejection, such act, or section or part of such act, at the next succeeding general election occurring at any time subsequent to thirty days after the filing of said petition or at any special election which may be called by the governor, in his discretion, prior to such regular election, and no such act or section or part of such act shall go into effect until and unless approved by a majority of the qualified electors voting thereon; but if a referendum petition is filed against any section or part of any act the remainder of such act shall not be delayed from going into effect.

Effect of initiative and referendum measures

Any act, law or amendment to the constitution submitted to the people by either initiative or referendum petition and approved by a majority of the votes cast thereon, at any election, shall take effect five days after the date of the official declaration of the vote by the secretary of state. No act, law

or amendment to the constitution, initiated or adopted by the people, shall be subject to the veto power of the governor, and no act, law or amendment to the constitution, adopted by the people at the polls under the initiative provisions of this section, shall be amended or repealed except by a vote of the electors, unless otherwise provided in said initiative measure; but acts and laws adopted by the people under the referendum provisions of this section may be amended by the Legislature at any subsequent session thereof. If any provision or provisions of two or more measures, approved by the electors at the same election, conflict, the provision or provisions of the measure receiving the highest affirmative vote shall prevail. Until otherwise provided by law, all measures submitted to a vote of the electors, under the provisions of this section, shall be printed, and together with arguments for and against each such measure by those in favor of, and those opposed to, it shall be mailed to each elector in the same manner as now provided by law as to amendments to the constitution, proposed by the Legislature; and the persons to prepare and present such arguments shall, until otherwise provided by law, be selected by the presiding officer of the Senate.

If for any reason any initiative or referendum measure, proposed by petition as herein provided, be not submitted at the election specified in this section, such failure shall not prevent its submission at a succeeding general election, and no law or amendment to the constitution, proposed by the Legislature, shall be submitted at any election unless at the same election there shall be submitted all measures proposed by petition of the electors, if any be so proposed, as herein provided.

Failure to
submit at
election

Prior to circulation of any initiative or referendum petition for signatures thereof, a draft of the said petition shall be submitted to the attorney general with a written request that he prepare a title, and summary of the chief purpose and points of said proposed measure, said title and summary not to exceed one hundred words in all. The persons presenting such request to the attorney general shall be known as "proponents" of said proposed measure. The attorney general shall preserve said written request until after the next general election.

Preparation
by attorney
general

Any initiative or referendum petition may be presented in sections, but each section shall contain a full and correct copy of the title and text of the proposed measure. Each signer shall add to his signature his place of residence, giving the street and number if such exist. His election precinct shall also appear on the paper after his name. The number of signatures attached to each section shall be at the pleasure of the person soliciting signatures to the same. Any qualified elector of the state shall be competent to solicit said signatures within the county or city and county of which he is an elector. Each section of the petition shall bear the name of the county or city and county in which it is circulated, and only qualified electors of such county or city and county shall be competent

Sections of

Each section shall have attached thereto the affidavit of the person soliciting signatures to the same, stating his own qualifications and that all the signatures to the attached section were made in his presence and that to the best of his knowledge and belief each signature to the section is the genuine signature of the person whose name it purports to be, and no other affidavit thereto shall be required. The affidavit of any person soliciting signatures hereunder shall be verified free of charge by any officer authorized to administer oaths. Such petitions so verified shall be prima facie evidence that the signatures thereon are genuine and that the persons signing the same are qualified electors. Unless and until it be otherwise proven upon official investigation, it shall be presumed that the petition presented contains the signatures of the requisite number of qualified electors.

Each section of the petition shall be filed with the clerk or registrar of voters of the county or city and county in which it was circulated, but all said sections circulated in any county or city and county shall be filed at the same time. Within twenty days after the filing of such petition in his office the said clerk, or registrar of voters, shall determine from the records of registration what number of qualified electors have signed the same, and if necessary the board of supervisors shall allow said clerk or registrar additional assistance for the purpose of examining such petition and provide for their compensation. The said clerk or registrar, upon the completion of such examination, shall forthwith attach to said petition, except the signatures thereto appended, his certificate, properly dated, showing the result of said examination and shall forthwith transmit said petition, together with his said certificate, to the secretary of state and also file a copy of said certificate in his office. Within forty days from the transmission of the said petition and certificate by the clerk or registrar to the secretary of state, a supplemental petition identical with the original as to the body of the petition but containing supplemental names, may be filed with the clerk or registrar of voters, as aforesaid.

Supple-
mental
petition

The right to file the original petition shall be reserved to its proponents, as defined herein and any section thereof or supplement thereto presented for filing by any person or persons other than the proponents of a measure or by persons duly authorized in writing by such proponents shall be disregarded by the county clerk or registrar of voters.

The clerk or registrar of voters shall within ten days after the filing of such supplemental petition make like examination thereof, as of the original petition, and upon the completion of such examination shall forthwith attach to said petition his certificate, properly dated, showing the result of said examination, and shall forthwith transmit a copy of said supplemental petition, except the signatures thereto appended, together with his certificate, to the secretary of state.

When the secretary of state shall have received from one or more county clerks or registrars of voters a petition certified as herein provided to have been signed by the requisite number of qualified electors, he shall forthwith transmit to the county clerk or registrar of voters of every county or city and county in the state his certificate showing such fact. A petition shall be deemed to be filed with the secretary of state upon the date of the receipt by him of a certificate or certificates showing said petition to be signed by the requisite number of electors of the state. Any county clerk or registrar of voters shall, upon receipt of such copy, file the same for record in his office. The duties herein imposed upon the clerk or registrar of voters shall be performed by such registrar of voters in all cases where the office of registrar of voters exists.

Certification
to secretary
of state

The initiative and referendum powers of the people are hereby further reserved to the electors of each county, city and county, city and town of the state to be exercised under such procedure as may be provided by law. Until otherwise provided by law, the legislative body of any such county, city and county, city or town may provide for the manner of exercising the initiative and referendum powers herein reserved to such counties, cities and counties, cities and towns, but shall not require more than fifteen per cent of the electors thereof to propose any initiative measure nor more than ten per cent of the electors thereof to order the referendum. Nothing contained in this section shall be construed as affecting or limiting the present or future powers of cities or counties and counties having charters adopted under the provisions of section 8 of article eleven of this constitution. In the submission to the electors of any measure under this section, all officers shall be guided by the general laws of this state, except as is herein otherwise provided. This section is self-executing, but legislation may be enacted to facilitate its operation, but in no way limiting or restricting either the provisions of this section or the powers herein reserved.

Taxation

No property in any territory hereafter consolidated with or annexed to any city or city and county shall be taxed for the payment of any indebtedness of such city or city and county outstanding at the date of such consolidation or annexation and for the payment of which the property in such territory was not, prior to such consolidation or annexation, subject to such taxation, unless there shall have been submitted to the qualified electors of such territory the proposition regarding the assumption of indebtedness as hereinbefore set forth and the same shall have been approved by a majority of such electors voting thereon.

Bonded indebtedness

7. In all cases of annexation of unincorporated territory to an incorporated city, or the consolidation of two or more incorporated cities, assumption of existing bonded indebtedness by such unincorporated territory or by either of the cities so consolidating may be made by a majority vote of the qualified electors voting thereon in the territory or city which shall assume an existing bonded indebtedness. This provision shall apply whether annexation or consolidation is effected under this section or any other section of this constitution, and the provisions of section 18 of this article shall not be a prohibition thereof.

The Legislature shall enact such general laws as may be necessary to carry out the provisions of this section and such general or special laws as may be necessary to carry out the provisions of subdivisions five and six of this section, including any such general or special act as may be necessary to permit

a consolidated city and county to submit a new charter or charter amendment to take effect at the time that any consolidation, by reason of annexation to such consolidated city and county, takes effect, and, also, any such general law or special act as may be necessary to provide for any period after such consolidation, by reason of such annexation, takes effect, and prior to the adoption and approval of any such new charter or charter amendment.

Any such charter shall be framed by a board of fifteen freeholders chosen by the electors of such city at any general or special election, but no person shall be eligible as a candidate for such board unless he shall have been, for the five years next preceding, an elector of said city. The amendments so submitted shall be advertised in the same manner as herein provided for the advertisement of a proposed charter, and the election thereon held at a date to be fixed by the

legislative body of such city, not less than forty, and not more than sixty, days after the completion of the advertising in the official paper. The election laws of such city, or city and county shall, so far as applicable, govern all elections held under the authority of this section

WHEREAS, It is obvious that in order to solve such problems most effectively, each Legislature must give systematic, scientific and business-like consideration to the actual facts which have a bearing upon each question—to the extent that such facts have been determined by reliable research; and

WHEREAS, Each Legislature must give similar consideration to the methods and experience of other jurisdictions in dealing with problems similar to its own; and

WHEREAS, No such problems can be dealt with adequately until facilities are established to assist every inquiring legislator to secure the most accurate information and the most expert advice which are available; and

WHEREAS, Experience indicates the necessity for an interstate legislative reference bureau to serve as a clearing house of information between all of the legislative reference services which are now being conducted by numerous states, and also to serve as a clearing house of information between the legislatures and all other agencies which are engaged in the study and analysis of legislative problems, such as governmental departments, political science departments of universities, competent reputable associations, and all other sources of information; and

WHEREAS, Experience also indicates that in certain states which do not maintain substantial legislative reference services, there is an imperative need for such an interstate legislative reference bureau, which will assist the legislators of those states to secure whatever information they desire in analyzing the legislative problems which they must determine, and to make more readily accessible for them, without cost, the valuable material which is at all times available from the legislative reference libraries and bureaus of various other states, and from many other reliable sources; and

WHEREAS, Every individual legislator in the United States shares the responsibility for improving the present inadequate and unsatisfactory condition of the legislative processes, but neither any individual legislator, nor any group of legislators from one state, can bring about such improvement without the cooperation of legislators of other states; and

WHEREAS, Such an interstate legislative reference bureau can not be maintained by any one state alone, without the cooperation of the legislatures of other states; and

WHEREAS, In order to set the machinery in motion to secure the necessary cooperation of the forty-eight Legislatures, members of each Legislature are working together in the development of the project of the American Legislators' Association; and

WHEREAS, The said American Legislators' Association has now established in the vicinity of the University of Chicago, the Interstate Legislative Reference Bureau, which by explicit pledge is without color of politics, partisanship or propaganda, is conducted without profit, and is engaged upon three principal purposes:

First: To procure promptly for all inquiring state legislators, and their agents, whatever information or advice they desire in connection with any legislative problem, primarily by assisting them to secure, without cost, the benefit of all researches conducted by governmental departments, universities, associations, legislative reference bureaus, and other agencies throughout the United States.

Second: To conduct a systematic study of the legislative processes of each of the states, in order to ascertain the practices which contribute most to efficient and economical organization and procedure; and to render all possible assistance to each legislature—and to each legislative reference bureau—which is endeavoring to improve its organization.

Third: To publish for the benefit of all state legislators the monthly magazine, state government, as well as special bulletins, and thus to disseminate information which will be helpful to all conscientious students of legislation; and

WHEREAS, The American Legislators' Association is promoting acquaintance and mutual understanding among all individuals and organizations officially concerned with the impartial and scientific functioning of the legislatures of the various states, by the organization of standing committees and advisory boards, and otherwise; and

WHEREAS, The character and project of the American Legislators' Association have the endorsement, and its organization has the active cooperation, not only of its membership, which consists entirely of members and ex-members of state legislatures, but also of numbers of other responsible citizens, many of whom, having specialized knowledge, are serving on the association's advisory boards; now, therefore, be it

Resolved by the Assembly, the Senate concurring. That the organization of the American Legislators' Association and of the Interstate Legislative Reference Bureau are hereby commended as legitimate and constructive efforts to assist the legislatures of the various states in the efficient performance of their work.

Assembly Joint Resolution No. 27—Relating to memorializing the President of the United States by appropriate means to put the United States on record as requesting the permanent opium committee of the League of Nations, Geneva, Switzerland, to urge upon the governments of certain nations the immediate necessity of limiting the production of all habit-forming narcotic drugs and the raw materials from which they are made to the amount actually required for strictly medicinal and scientific purposes at the forthcoming opium conference of the League of Nations.

[Filed with Secretary of State May 15, 1931]

WHEREAS, The report of the head office of the federal police ^{Narcotic control} of Vienna to the League of Nations, June 16, 1930, states:

Senate Joint Resolution No. 14.—Relative to memorializing and petitioning congress to enact legislation to eliminate the restrictions which now attach to the taxation of national banking associations, and creating a committee to further such purpose.

[Filed with Secretary of State May 15, 1931]

Taxation
of national
banks.

WHEREAS, The joint legislative committee on taxation of the forty-eighth session of the California Legislature has filed its report with the Senate and Assembly and sets forth the necessity of an amendment to section 5219 of the revised statutes of the United States, which statute is the sole authority for states to tax national banking associations and has recommended that the Legislature of the state take appropriate action designed to secure an amendment to section 5219 so that the state will be permitted greater latitude in the taxation of national banks; and

WHEREAS, It appears from such report that the present provisions of the said section 5219 so restrict the power of the states that this state is unable to enact a measure for the taxation of national banks that is capable of producing adequate revenues from such associations, and the state is required, in order to tax such associations, to adjust a large portion of its tax system to conform to the method selected for the taxation of national banking associations; and

WHEREAS, The forty-ninth session of the Legislature of the State of California approves recommendation number six of the said joint legislative committee on taxation as expressed in its report, and believes that such an amendment is essential before any revision of the state's tax system to distribute more equitably the tax burden can be achieved; now, therefore, be it

Resolved, That the Legislature of the State of California petitions the seventy-second session of the congress of the United States to enact legislation to so amend section 5219 of the revised statutes of the United States that the states will be permitted greater latitude in the taxation of national banks; and be it further

Resolved, That the Legislature of the State of California requests the honorable senators and representatives in the national congress representing this state in the senate and the house of representatives of the United States to use every honorable means to secure such an amendment to section 5219; and be it further

taxation

Resolved, That a committee of four members, consisting of two members of the Assembly, one of whom shall be the speaker of the Assembly and the other shall be appointed by the speaker of the Assembly, and two members of the Senate, to be appointed by the president of the Senate, be appointed to attend the hearings of the senate and the house committees on

banking and currency, or such other hearings and take such other action as said committee hereby authorized may deem necessary, to urge the national congress to adopt such an amendment to section 5219 as is herein advocated; and be it further

Resolved, That the sum of four thousand dollars, or so much thereof as may be necessary, is hereby set apart, reserved and appropriated out of the legislative contingent funds of the Senate and Assembly which may have heretofore or may hereafter be appropriated for the contingent expenses of the Senate and Assembly by this session of the Legislature, said sum to be payable one-half from the contingent fund of the Senate and one-half from the contingent fund of the Assembly but not exceeding the sum of four thousand dollars in all, for the purpose of paying the expenses incurred by the committee herein designated under the authority hereof, and for the purposes herein set forth, and said payments shall be disbursed from time to time by controller's warrants to be drawn against such contingent funds upon the written orders of the members of said committee herein provided for; and be it further
