Del Sack & Western RR Co

Dear Sir

Inclosed please
find draft on B of Sept 19 for
\$3718⁴²/₁₀₀ being the amt of our bill
of Coal for August, we should have
sent it before but waited in hopes
to get bills to send to J. D. Albright and
they saw the Exchange of yr B at
which we are subject to, we presume
he has not drawn upon your office
as we advised him to the effect that
we should send Currency, but cannot
get it, we will this day advise him
off our having sent the draft to
New York

Hartford July 22^d 1858
C. B. Roberts Propriet.

Dear Sir,

Your favor of 21st inst
is at hand & contents noticed, Also bill
received - The S. W. A. G. Hazard was
loaded June 30th & bill lading for
154³/₄ Tons - The cargo was landed
into our carts & weighed out 164 Tons -
we concluded that a mistake of one ton
load was made & not intended, this was
our supposition, not knowing your mode
of weighing - It is fortunate that we took this
cargo into our yard & weighed it out as we
always do when taken into yard - We sell about
two thirds of the load we have of you by the
invoice & of course we cannot say anything
as to weight - What we have taken into yard
more generally fall short from half to one Ton
One small cargo of 100 Tons fell short 2¹/₂
Tons, which we wrote Mr. Quintard - Some
over run a little $\frac{1}{4}$ to $\frac{1}{2}$ of a Ton - We have
two sets of Fairbanks Iron Scales which are
tested often & are kept very accurate for our
own protection as well as the public, to whom we sell
coal - Our weigh masters are experienced careful men
in whom we have confidence - Yours Respectfully. E. F. Flower

The Delaware, Lackawanna and Western Rail-Road Company,

TRANSPORTATION DEPARTMENT.

Puncheon Station, Penn. Dec 29 1858

J. S. Alburgh
Esq.

I do not see what the Central folks are doing at unless it is to keep us kept our way coal on hand until we get enough for a train say 50 cars then they will run them down they running very slow that such an arrangement will do more to suppress the sale of our coal along their line than anything they have yet done we are anxious to bring it about.

I don't see anything "method" that can be devised" to make it easier than it now is. Under present arrangements they only take our coal once a week which I think is altogether too long to keep customers waiting

Yours Truly

J. S. French

PROPOSALS FOR COAL.

OFFICE OF THE GOVERNORS OF THE ALMS HOUSE.

NEW-YORK, MAY 5th, 1858.

SEALED PROPOSALS will be received by the Governors of the Alms House, at their Office, Rotunda, Park, until one o'clock of the 14th instant, for furnishing 10,000 tons of best quality White Ash Anthracite Coal, free from slate, dust and all other impurities; each ton to weigh 2,240 lbs. of the following sizes:

1,540	Tons	Broken,	without	Nut	or	Pea,	<i>S.B. Townsend</i>
1,605	"	Egg,	"	"	"	"	
4,155	"	Stove,	"	"	"	"	
2,700	"	Nut,	"	Pea,	"	"	

with the privilege of varying the sizes, and increasing the quantity not to exceed 2,500 tons.

The coal to be well screened, and delivered clean, at the foot of Rivington-street, and foot of 26th street, E. R.; and at such other piers, on the East or North Rivers, as may be directed, and at Blackwell's and Randall's Islands, (steamboat for towing to and from Islands, to be furnished by the Department without charge, but boat and cargo to be at the risk of their owners,) into carts furnished by the Governors, to be delivered in such quantities and at such times as may be required, on or before the first day of November next, free of all expense, and to be subject to the inspection of a person or persons appointed by the Governors, whose decision, as to quantity, quality and order, shall be final.

Proposals to give a full description of the coal, from what mine, and the name it is known by in this market, and to be accompanied with the proper signature of two responsible persons, as security for the faithful performance of the contract.

The Committee on Supplies reserve the right of rejecting any and all offers deemed by them not advantageous to the Department; and proposals not in strict conformity with the above will not be considered.

Payments will be made in cash, on the regular pay-days of the Department.

No Assignment of Contract will be permitted, without the consent of the Board of Governors.

Further information can be obtained upon application at the Office.

copy of the

manuscript

which you

sent me

London 4 February 1858.

Drake Mills Esq.

President Delaware, Lactawanna & Western R.R. Co
51 Wall Street - New York.

Dear Sir,

We are obliged by your communication of 15 Dec. & 5th ult. with report of our managing Committee on the result, thus far, of the plans submitted to all holding Interest in this Company. - While we feel now that we must practically leave ourselves greatly in the hands of our Direction, to secure, by their careful management and working of our Line, the recovery of its position, & freedom from present & future embarrassments, we do not care to disguise the anxiety which we feel with regard to our large interests in this Company, & the necessity which seems to call upon the more prominent shareholders to take a more active interest in the support or the condemnation of such measures as may be submitted to them, than heretofore. - We shall therefore avail ourselves of the opening for direct correspondence, which your first letter has given to us, by occasional letters, with which we propose to trouble you, when there may be any special occasion for such communication between us. -

For the present, the plan for relief has been accepted by a sufficient majority of the Share Holders, Bond Holders, & general & special Creditors of our Company to make it effectual in providing for the immediate calls, & leaving therefore the receipts which the Coal traffic might immediately to give us, for payment of current expenses, & accumulating

1858
John A. Smith Esq
51
Wall
Street
New
York

John A. Smith

accumulating for payment of interest & Dividends in due course.

- We agree therefore that there is no room for suggestions, even were they desirable, to alter the course now determined.

- We are holders of one half the (\$109,250) Capital Stock subscribed in Europe. & a large portion of the Bonds with representations of the latter it would of course be not easy to confer. & the only object in being prepared now with the names, if possible, of all on this side the Atlantic holding interest in our Line, would be for future reference, with the hope of saving time by unanimity on any subject hereafter to be submitted to the share holders for discussion - We should therefore be glad to have, at your leisure, any particulars of holding of stock or Bonds in Europe, for convenience in communication if need be.

As regards the floating debt, particulars of which are furnished by our Secy. Mr. Odell, we think we are right in objecting to the principle of its creation, although we are willing to admit that there may be special circumstances to justify it - there is a strong feeling in this country against Floating Debt by R.R. Companies - it is no doubt founded on the experience of the past year, & the heavy embarrassment involved by the pressure of these liabilities, without power to meet them, because of the original expectation of taking them up by the issue of Bonds. The placing of 2nd & 3rd Mortg. Bonds of most R.R. Lines is uncertain at the best of times - it is impossible, of course, under any financial stringency - it is not therefore perhaps, too much to say that it would be better policy to avoid expenditures which could be met only by extraordinary means - or to provide for any special

outlay, only by the creation of liabilities for which, as in Bonds of usual term of maturity, there is ample time to provide.

It is however quite probable that we should have been unable to prescribe any other course than that which was adopted at your meeting of 30 April ult. had we been present - The Debt had been incurred, & it was imperative to find the means of meeting it -

We find by the figures a total Debt of

Withd. & pmts. of which only part available. of .. \$1,489,176.43⁴
1,213,702.29

leaving apparently to provide - \$275,474.14

and we suppose accordingly that the sum of \$600,000 was raised from among the Managers & Stockholders to meet the deficiency & provide for the immediate embarrassments of the Line.

In conclusion we are glad to see that there is prospect of immediate traffic to employ all the capacity of our Line & we shall now anxiously look for the publication of the receipts as the only sure test of the returning value of our property.

Yours truly,

John Tulliat
