[Communicated.]

MR. EDITOR.--There having been a resolution passed at the late meeting of the Yolo Co. Teachers' Institute (held during the days of Wednesday, Thursday, Friday and Saturday, the 7th, 8th, 9th and 10th day of October), that I should prepare and forward to you for publication an abstract of the proceedings. I therefore respectfully submit the following:

The Yolo Co. Teachers' Institute met pursuant to a call, at the Court house in Woodland.

The house was called to order at 2 o'clock by Pres. Gaddis, who delivered the opening address. There were two sessions each day, and lectures in the evenings. Among the more prominent teachers present, who took part in the exercises of the Institute, such as lectures, essays or instructors, were Messrs. Scott of Plainfield, Woods of Cottonwood, Ewing of Cacheville, Mackall of Buckeye, Fremman of Woodland, Miss N. J. Fike, of Woodland.

Besides the lectures, drill exercise &c. the following Standard of Qualification was reported, and unanimously adopted: The Committee on the revision of the Standard of Qualifications of Teachers, beg leave to report the following:

SECOND GRADE.

Orthography and reading, and best methods of teaching them; practical Arithmetic through percentage, and the rudiments of Mental Arithmetic; thoroughness in the general principles of Geography and Penmanship; Grammar through Syntax; together with the general principles of Elocution; the best methods of Teaching and Discipline.

FIRST GRADE.

A thorough knowledge of Mental and Practical Arithmetic, Geography, English Grammar, History of the United States, Elementary Philosophy, Physiology, and Elementary Algebra, together with all the requisites for Second Grade certificate.

G. N. FREMAN }
THOMAS EWING } Com.
J. W. MACKALL }

Together with the following resolutions which were unanimously adopted: Resolved, that no Teacher is worthy of the name, or even the confidence of his fellow Teachers or worthy of a Certificate who will not attend Teachers' Institutes and take an Educational Journal.

Resolved, that in connection with our Standard of Qualification, we request the county Board of Examination to consider the attendance or non-attendance of Teachers at our county Institute as among the principal qualifications for receiving certificates or for rejection.

And furthermore, we request that the Board of Examination require all persons who may receive certificates after this date, to sign an agreement to attend county Institutes.

Resolved, that the time has come when a united effort should be made to elevate the standard of Public Schools in Yolo county, and to this end we pledge ourselves to use all legitimate means in our power; and invite the hearty co-operation of all the teachers and other friends of popular education.

Resolved, that we fully endorse the action of the State Institute in the establishment of a professional journal--The California Teacher--and we will help to sustain it with both pen and purse.

Resolved, that a digest of the minutes of this Institute be prepared and forwarded to the Knight's Landing News and to the California Teacher for publication.

G. N. FREMAN.
J. H. L. SCOTT, THOMAS EWING.
J. W. MACKALL.

Committee on Resolutions.

The following were appointed Instructors for the next institute: Of Algebra, Hamblin of Knight's Landing; on Philosophy, Hammond, of Putah; on Arithmetic, Fouch, of Woodland; on History of the United States, Butler, of Washington; on Geography, Mackall, of Buckeye; on Reading and Elocution, Woods, of Cottonwood; on Orthography and Phonetics, Scott, of Plainfield; Music, Reavis, of Buckeye; Object Teaching, Ewing, of Cacheville; English Grammar, Fremman, of Woodland.

All of which is respectfully submitted.
ALBERT FOUCH,
Rec. Sec. Yolo Co. Teachers' Inst.

Storm on the Andes.

An English traveler writes: "From my reverie I was suddenly aroused by the rapidly increasing violence of the storm and the obscurity in which surrounding objects were wrapped. I could not see distinctly for a distance of ten yards ahead; nevertheless, I allowed my mule to follow the track, which every moment became more and more obliterated. I passed the plateau, and began ascending higher and higher; the snow being now nearly knee deep, and the storm raging fearfully. I continued for a short time ascending beneath a ledge of projecting rock, which served to shield me from the fury of the storm; but on emerging from this shelter, further up, a violent gust of wind rushing down a deep gorge, and carrying with it a large quantity of snow and small pebbles, almost blinded me. I was now meditating a rapid retreat, expecting much rougher treatment higher up. While hesitating as to what course I should pursue, my mule became restive and frightened, and attempted to turn back; in so doing she lost her footing on the already frozen and slippery snow, and came down on her knees. I kept the saddle for a moment, but eventually determined on alighting and awaiting the arrival of the remainder of my party.

"On looking around me, all that met my straining gaze was white desolation, as if universal nature was shrouded in a winding sheet of snow; not a rock nor landmark visible. I began to doubt as to whether I was in the right track or not, and took out my pocket compass to ascertain in what direction I had been going when I stopped; but this was no easy task; my mule had turned once or twice, so had I, and for the life of me I could not tell in which direction I had come or how to proceed. It became darker and darker every moment, and the storm increased tenfold. I had my compass on the palm of my hand to level it, and was looking most anxiously at the needle when another terrific gust of wind, stronger than the first, and charged with sand and snow, came down upon me, carrying away my compass my hat and my 'poncho,' tearing my overcoat right up the back, and leaving me in 'tatters.' My mule took fright also, and went off at full speed down the side of the mountain, regardless of load or track.

"I was now obliged to throw myself down and burrow in the snow, in order to avoid the continued fury of the tempest and prevent myself from being blown over the precipice, which through a momentary clearing I got a glimpse of on my right. My poor dog huddled himself close to me, and whined most piteously. I was in danger of being blown away if I stood upright, and of being buried beneath the enormous masses of snow drift if I lay still. I knew not what to do or how to turn, when, to my delight, I found that the wind was blowing off the snow from around me, and had ceased to carry down more from above. I now clearly saw the track about ten feet off, and crept toward it on my hands and feet. In this way I reached the ledge of rocks which I before mentioned as being a sort of shelter, and there rested for a short time, until the fury of the storm had in some measure abated. In about ten minutes the strong gusts of wind ceased, but the snow still continued."

REMARKABLE ESCAPE OF SEVEN CHILDREN.--Between seven and eight o'clock on Monday night, a wagon, containing six little girls, being driven by a boy thirteen years old, along the embankment of the New Jersey Railroad, a short distance west of the Bergen iron bridge, was suddenly precipitated down the deep cut, a distance of about fifty feet, to the railway track below. An alarm being immediately given in the neighborhood, parties with lights hastened to the scene of the disaster, and succeeded in rescuing the unfortunate children from their perilous position just in time to escape a passing train, which a few seconds later swept over the spot upon which the helpless little ones were lying insensible. The whole party were borne to a house near by, where they received every care and attention that their bruised and bleeding state demanded. Medical aid was procured, and upon examination it was thought none of them were fatally injured. When fully restored, the children were removed to their homes in Brunswick street, Jersey City. The boy driver proved to be in a state of complete intoxication. Apparently fearful of punishment for the injuries he had occasioned, he refused to give his name and furnish any particulars whatever of the affair. The other children stated that he had been sent with the horse and wagon for grain from some brewery, where the man had given him beer until he became drunk. The wagon was smashed, but the horse escaped with but slight injury.
--New York Times, 16th ult.

THE man who would try to stab a ghost would "stick at nothing."

AN INCIDENT OF THE WAR.--In one of our beautiful suburban cemeteries was employed as grave digger, up to a week ago, a venerable man. Though poor, he raised four gallant boys, giving each of them a moderate education and a good trade.

The two elder went, five years ago, to New Orleans, where prosperity attended their industry.

The two younger brothers remained with their father. George and Frederick was their names. The latter is about seventeen years of age. When the war broke out, both left their employment and enlisted. At the battle of Fredericksburg, in the very front of their line were the boys Frederik and George. A sortie was made by the riflemen upon the retreating Federals, and among those who dropped were the two boys, the youngest sons of the old grave digger.

The rebel soldiers whose weapons had done the deed, were clad in rags of linsay. They ran with alacrity to secure the clothing, the canteens and money, perhaps of the men they had laid low. The foremost, on reaching the body of the dead enemy, turned it over and to his horror beheld the corpse of his younger brother, his woolen shirt stained with blood oozed from a bullet hole above the heart. Our informant, a chaplain in the Army, could tell us nothing of the other rebel brother. But this one made his way into the Union lines, and is now in the hospital at Alexandria, a hopeless maniac. We learn that in their childhood the youngling of the flock had been the especial charge of the elder. When he left for New Orleans it was in the expectation of entering business to which he could bring up the boy. He lived to shoot down the boy with his own hand. Unless the remaining brother survives, the family is now extinct. The father died of a broken heart, and was buried last Sunday. This is a simple statement of facts. It is doubtless one of ten thousand to be written.--Philadelphia Paper.

STRENGTH OF CHARACTER.--Strength of character consists of two things--power of will and power of self restraint.--It requires two things therefore, for its existence--strong feelings and strong command over them. Now we all very often mistake strong feeling for strong character. A man who bears all before him, before whose frown domestics tremble, and whose bursts of fury make the children of the household quake--because he has his will obeyed and his own way in all things--we call him a strong man. The truth is, that he is a weak man; it is his passions that are strong; he, mastered by them, is weak. You must measure the strength of a man by the power of the feelings he subdues, not by the power of them that subdue him--And hence composure is very often the highest result of strength. Did we ever see a man receive a flagrant injury, and then reply quietly? That is a man spiritually strong. Or did we ever see a man in anguish, stand as if carved out of solid rock, mastering himself? Or one bearing a hopeless daily trial, remain silent and never tell the world what cankered his home peace? That is strength. He who with strong passions, remains chaste; he who, keenly sensitive, with manly powers of indignation in him, can be provoked and yet restrain himself and forgive, these are the strong men, the spiritual heroes.

TO MAKE POTATOE STARCH.--Starch made from the common potato, furnishes an excellent substitute for arrowroot as a wholesome, nutritious food for infants. It also makes a good cheap pudding for the table, if cooked like sago; and as it has not the medicinal properties of the arrowroot, it is much to be preferred as an article of daily food, except for children who are subject to diarrhoea or summer complaint. The process of making the starch is simple, and the time required so short as to put it into the power of every one having the means at hand. Wash any quantity of potatoes perfectly clean, then grate them into a tub half full of clean cold water, stir it up well, let it settle and then pour off the foul water, put the grated potatoes into a fine wire or coarse hair sieve; plunge it into another tub full of clean cold water, and wash the starch through the meshes of the sieve and throw the residue away; or wash it again if any starch remains in the pomace; let it settle again, and repeat this process until the water comes off clear; scrape from the top any remains of the pomace; then take the starch out, put it on dishes to dry in a warm room and it will be fit for use immediately. When wanted for use, mix as much as may be needed in cold water, and stir it into boiling milk, or water if preferred, and it requires no further cooking. It also makes a stiff and beautiful starch for clearing thin muslins and laces.

"Bob, you are missing all the sights on this side." "Never mind, Bill, I'm sighting all the misses on this side."

A DUCKING.--The steamer Cryopolis which arrived at Sacramento on Sunday morning, about one o'clock, had on board a passenger who was so overcome with sleep, or some artificial potation equally as powerful, that he forgot to wake up when the boat first arrived at the wharf. All the passengers who, like himself, had failed to secure state rooms, left for the city as soon as the boat landed. The hero of our story, however, not being in a wakeful mood, slept on for some time after the boat had landed, the noise and confusion seeming only to deepen his slumbers. About three o'clock in the morning he got his peepers slightly ajar, and finding the cabin but dimly lighted and perfectly still, and no passengers to be seen, he arose in great haste and ran to the gangway on the river side of the boat, which had been opened to discharge the Marysville freight. The plank was still showed out a few feet over the water, and the subject of our tale, in his anxiety to get on terra firma, mistook it for the land side of the steamer. The mate saw the man was on the wrong side and shouted to him to that effect, but the fellow misunderstood him and thought he was ordered to get out of the way, which he did by jumping from the plank into the river. By this time he was fully awake and convinced that instead of getting ashore he had got into the river where it was twelve or fifteen feet deep. Some of the hands engaged in discharging freight handed the unlucky fellow a pole, and in that manner he was fished ashore. He took passage the same morning for this city, and arrived home safe. He said it was the biggest jump he ever made in his life, but the Sacramento was too wide for him.--Nevada Journal.

VALUE OF GROUND IN LONDON.--For the improvements between Oxford street and Holborn, the land required to be purchased cost £57,000 an acre; for the improvements between Bow street and Charlotte street, the land cost £67,000 an acre; and for that between Coventry street and Long Arc, £19,000 per acre. An addition of ten feet to the width of the new street from Blackfriars to the Mansion House would have cost £110,000, and the proposed width of eighty feet was therefore abandoned. A few years ago a space was vacant in the vicinity of St. Pauls, and when the corporation was requested to leave the space unoccupied, their answer was that the land was worth £60,000, and that the city did not feel justified in making such a sacrifice. But not only is the price of land very high in the metropolis, but the same cause operates in some of the principal towns of the country. In Manchester, land produces £50,000, £60,000, and sometimes £200,000 per acre. In Birmingham, the land held by the North-Western Railway Company was sold for £60,000 per acre; and in Liverpool land sold in the better parts of the town for £150,000 per acre.

TWELVE MILES OF CARS AND LOCOMOTIVES.--During the squally times last summer the Pennsylvania Railroad Company took the precautionary step of concentrating, at points removed from immediate danger, such portions of their rolling stock as were not absolutely needed to carry on a limited business. They had thus concentrated locomotives, passenger and freight cars upon the sidings between East Liberty and Wall Station, on the western division of the road, extending for twelve miles in length.

HARUN-AL-RASCHID ANECDOTE OF THE EMPEROR.--Witness the reply he made, off-hand, when the Court were playing "Questions," one evening, in the Palace of the Tuilleries. The course of the game brought up this question: "What is the quickest way to detect truth and falsehood? It was the Emperor's turn to answer; he replied in less time than I take to tell you: "Throw open the portals of the palace before them both--the first which enters will be falsehood."

"GOOD LIQUOR" AT TROY.--In a suit recently brought before a Justice's Court in Troy, involving the matter of liquor, the defendant further answering says, that the liquor plaintiff seeks to recover for, was nothing more than twenty-two cent whisky colored with logwood, tannin, tincture of bedbugs, old boot-legs and coppers; that he sold this vile stuff at retail to his customers; that they died--to his damage two hundred dollars.

WANTED.--A fifer and drummer to beat time for the "march of intellect;" a pair of snuffers to trim the "light of other days;" a ring that will fit the finger of scorn; a loose pulley to run on the shaft of envy; and a new cushion for the "seat of government."

NAOMI, the daughter of Enoch, was five hundred and eighty years old when she was married. (Courage, lad!) "There never was a goose so fat as I was." "But some day soon or late." "An honest gander came to me." "And took her for his mate."

Declaration of Homestead.
Persons wishing to procure a correct legal form for making out a Declaration of Homestead, as required by the Act of the last Legislature, with the acknowledgement attached thereto, will find printed blanks, on application to the KNIGHT'S LANDING NEWS Office. By filling out these blanks themselves, parties will be subject to no other expense than the fees for acknowledgement and record.

Justices Blanks.
Blank Affidavits, Undertakings, Writ of Attachment and subpoenas, under the NEW LAW, for sale at this Office.

BOARD OF SUPERVISORS.—On Monday next the regular meeting of the Board of Supervisors will be held at Woodland.

On the first page will be found the proceedings of the Teachers' Institute held at Woodland.

SAVE YOUR DIMES.—We would call the attention to the advertisement in another column of C. S. Thomas of this place.

TAXES.—Recollect Chas. H. Gray, Sheriff, will be at this place on Saturday next, the 31st inst., to receive all monies due for taxes. Pay up and save costs!

SWEET POTATOES.—Mr. Parker, of Grand Island, has left with us a very fine bill of sweet potatoes, weighing 10 1/2 pounds.

LIVERY STABLE FOR SALE.—By reference to another column will be found the advertisement of Glascock & Brownell, offering their stable &c. for sale

NEW PAPER.—Beriah Brown, Esq., late Editor of the California Republican, has started a new paper called the Democratic Press in San Francisco, and from appearances of the advertising columns we think he will succeed.

NOTICE TO CONTRACTORS.—We would call the attention in another column to the advertisement ordered by the Board of Supervisors for the building of two bridges and for constructing a Graded or Turnpike Road and Bridge.

COUNTY HOSPITAL.—The Board of Supervisors have advertised in another column for sealed proposals for the Board, Washing, Nursing, Medicines and medical attendance for the indigent sick of Yolo county.

COW CREEK MINES.—During the last 6 days a number of our citizens have left for the Cow Creek mines. All persons having doubts of their richness can see the Rock at Raveley's, opposite the steamboat landing.

LIVELY.—On account of the Foot Race, Ball, and horse Race, a great many people have visited this place, which makes times a little more lively than we have had for some time past.

THE Race between the Oregon Mare "Amanda," and Adams' Black Colt "Chocktaw" for \$3,000 will be run this afternoon, between the hours of 2 and 4 o'clock. This is expected to be the fastest race ever run on record.

The pirate Chapman and her armament sold for \$12,000. The officers and crew of the sloop-of-war Cyane now claim her as a prize, as do also the revenue officers. Suit has been commenced by the officers and crew of the Cyane.

HEAVY FREIGHTS.—During the last two weeks the California Steam Nav. Co's steamers Lark, Capt. Rodgers, and the Gem, Capt. Foster, for Red Bluff, have been well freighted, carrying about 750 tons, saying nothing of the returning freight, showing that business must be on the increase.

THE Election on Wednesday last passed off quietly for the Judicial officers. The vote in the county will be about 400 or 500 less than at the general election. As far as heard from the Union ticket has about 50 majority. E. M. Hiatt (D) and H. Beal (U) are elected Justices of the Peace for Grafton Township.

FOOT RACE.—The Race between Geo. Adams and Jno. Forbes, which was to have come off yesterday, has thus far turned out a bilk; the parties came on the track at 4 1/2 o'clock and stripped for the Race, each, however, playing for the start, and neither could get the advantage of the other. The result was Dark coming on, and the race was not run. Adams proposes to keep trying from day to day until the race is run. It therefore only depends on Forbes to say whether there will be a Race or not. The betting was slightly in favor of Adams. A large crowd being in attendance, much money was staked on the result.

THIS NUMBER of our paper completes the eighth volume of the KNIGHT'S LANDING NEWS. We have sustained the publication of this paper for four years without missing a single number, contrary to the expectations of many and the hopes of not a few. In the conduct of our paper we have not sought to please everybody, having long since learned that all such efforts put forth by whomsoever they might be were futile, but we have aimed to pursue a straightforward consistent and independent course. We have aimed to make the enterprise of publishing a newspaper in Yolo county worthy the support of its friends, and if per chance we might, command the respect of its foes, and the completion of the eighth volume of the paper we accept as evidence that we have not entirely failed of accomplishing our purpose. In the reading matter which the NEWS contains, we have not sought to pander to the taste of the vicious and depraved, but have endeavored to make such selections from a long list of exchanges as would entertain the one or prove of practical use to another class of our readers. We have endeavored as best we could to advance the interests of this town and the surrounding country without detracting from the interest or prosperity of any other town or section of country, for we do not regard him as a benefactor or public spirited man who would pull down or destroy one to build up another town or section of country.

Whilst we have our own views and often give expressions to them in regard to State and National policy and public affairs we have not assumed to speak for any party, nor have we been under the control or patronage of any political party or organization, but have allowed the use of our columns to all who have chosen to speak through them, and we freely concede to all that which we claim for ourselves—the right to think and speak their own sentiments.

Now, reader, if the NEWS is not what it should be, render us a more generous support in the future than you have in the past, and we pledge ourselves to extend its usefulness just in proportion to its increased patronage. And we avail ourselves of this occasion to return to those who have so nobly stood by us our heartfelt thanks for their kindness.

THE substance of the Eastern dispatches, says the Union of yesterday, may be briefly stated. Lee succeeded in getting south of the Rappahannock without serious molestation, and the Army of the Potomac seems to have stopped on the north bank of that stream, where it will probably wait until the railroad is repaired.

Burnside has not advanced upon Lynchburg, but is engaged in recruiting loyal Tennesseans and repelling rebel attacks upon his forces posted southwest of Knoxville.

The most important feature of the news is the announcement that Gen. Banks has effected a landing at Point Isabel, at the mouth of the Rio Grande, preparatory to taking possession of Brownsville (Texas) opposite Matamoros, where an extensive contraband trade has been carried on. Brownsville is over forty miles from Point Isabel. This movement will have great significance to rebels, English blockade runners and French invaders of Mexico.

A Washington newspaper supported by the Government patronage gives currency to various rumors impeaching the courage, ability and subordination of Gen. Rosecrans, referring to that commander as a "lately popular officer."

The paper which contains these statements is generally supposed to be the special organ of the War Department. This is a brave and patriotic soldier's reward for brilliant services rendered since the commencement of the rebellion!

CUSTOMS RECEIPTS.—The receipts for duties at the Custom House, for the first half of this month, including the 15th inst., foot up the sum of \$248,418 22, which is an unusually large amount for the time named. The largest single day's receipts was \$52,301 89.

THE steamer leaving Portland on the 13th inst., took away the following home products of Oregon: 2,195 boxes of apples, 53 packages eggs, 19 packages butter, 11 cases bacon, 28 bales wool, 95 hides, 11 coops chickens, and 40 quarters beef.

A. S. WELLS, who was stabbed by Vincent E. Geiger, at Red Bluff, on the 13th inst., died on Friday afternoon, and was buried under the supervision of the Odd Fellows on Saturday.

THE ENROLLMENT.—A meeting of the Board of Enrollment was held at Marysville on Wednesday last at the Provost Marshal's office, a full Board being present.

The Board proceeded with the appointment of Deputy Enrolling officers, viz:

Butte county—4th sub-district—H. Sunderlin.

Yolo county—1st sub-district—Richard Heat, Washington; 2d sub-district—Thomas I. Dexter, Woodland.

Trinity county—1st sub-district, F. Leach, Minersville; 2d sub-district—Richard Clifford, Weaverville; 3d sub-district—George H. Bunker, Weaverville.

Tehama county—1st sub-district—Irwin Ayres, Red Bluff; 2d sub-district—Owen Gerry, Tehama; 3d sub-district—Saml. English, Red Bluff.

The following counties compose the Northern Enrolling District, and the draft will be made in the order of the alphabetical arrangement, viz:

Del Norte, Humboldt, Klamath, Lake, Marin, Mendocino, Napa, Plumas, Shasta, Sierra, Siskiyou, Solano, Sonoma, Sutter, Tehama, Trinity, Yolo, Yuba.

THE NEW CONTINENTAL TELEGRAPH LINE.—This new line is in course of construction. It will be put up from San Francisco to Reese River this Fall, and next Summer joined to the independent line from Portland to Cleveland, and which is coming west daily. There will be some 35 poles to the mile, the usual number being 25. The poles have all been contracted for, and the wire is now due at San Francisco. The route will be by submarine cable across the Golden Gate, thence to Sacramento by the west side of the river and across the mountains by the Placerville route. The submarine cable is two miles in length, in size the cable is nearly as large as one's wrist—says the Bulletin—about four times the size of the old Atlantic cable, and is said to be the largest ever used. The interior consists of four copper conducting wires, each one insulated by a thick coating of gutta-percha, which furnishes four distinct electric conductors, all in one cable. These conducting wires are protected by a heavy envelopment of tarred jute. Jute is an Indian grass. The jute in its turn is guarded by 27 large wires of galvanized iron, laid laterally and bound together and kept in place by still another wire around them. The cable weighs 13 tons to the mile and costs \$4,000—giving the rate of about 15 1/2 cents per pound.—Bee.

ESCAPED.—On the 14th of last month there was arrested, in this city, a man named Henry Davis, alias Clark, on the charge of grand larceny in stealing forty-five sacks of barley, the property of W. Warner, of Yolo county. The Grand Jury of that county found a true bill of indictment against Davis, but the trial jury brought in a verdict "guilty of petit larceny," whereupon the defendant was sentenced to pay a fine of three hundred dollars, or be imprisoned for one hundred and fifty days. Not being in funds, Davis went in for the latter mode of liquidation. This forenoon, between nine and ten o'clock, Davis was detailed for the special duty of exercising his muscles at sawing wood in the jail-yard. Embracing a favorable opportunity he scaled the fence and gained the classic region of Jibboom street. It is probable that he crossed the bridge and is now snuffing the strong breeze which sweeps over the broad plains of Yolo. Officer Rice is trying to get his eye on Davis, but up to the present time, has been unsuccessful.—Bee.

CLERK OF THE ASSEMBLY.—O. C. Wheeler, for several years the able Secretary of the State Agricultural Society, is a candidate for Clerk of the Assembly. Whether successful or not, we know that no man is more competent, in every way, for this position, than O. C. Wheeler. Then, under his administration, there would be no transfer of bills from their regular order. There may be other candidates as good as this applicant: If so, we don't know the men.—Marysve. App.

TEHAMA TOBACCO.—The Red Bluff Beacon says:

From the best information that we can gather, the county will produce about 40,000 lb of tobacco this year. As every thing goes to show that a good article of tobacco can be raised in this section, and there being no doubt as to its being a profitable crop, we venture to assert that there will be raised in Tehama county next year over 200,000 pounds.

THE Catholics of Philadelphia have completed a splendid Cathedral, at a cost of about 400,000. It has been 17 years since it was commenced. All that architecture and painting could do has been devoted to its adornment.

STATE TREASURY.—On the 19th inst. there was on hand in the State Treasury \$310,850 91—\$18,970 43 of which is credited to the general fund.

STATE TREASURER.—The new State Treasurer, R. Pacheco, assumed the duties of his office on Monday last.

Vote for Governor.
[As far as heard from.]

UPWARD of eleven coffins, originally containing infant corpses, have been discovered hidden between the roof and ceiling of a church in Whitechapel, England, one of the most densely crowded districts of the Metropolis; also, "in a sort of closet, a heap four feet high, composed of children's skulls, legs, with the dried and shriveled flesh hanging from them, intermingled with little hands desiccated until they have acquired the look of bird's claws, and the fragments of coffins, dust, napkins and infants' caps."

The inference is that the bodies were those of stillborn children, or of perhaps some that had died from natural causes, and had been deposited between the ceiling and the roof of the church for the purpose of saving the burial fees, which had been paid by the parents, and which were subsequently embezzled. It is stated that a clue has been obtained as to the guilty parties, but at present it would be considered premature to act upon it.

WHEN a stamp is attached to a marriage certificate, the minister is required by law to write his initials and the date of the marriage on the stamp to cancel it. Clergymen will please take notice of this important request. It would be a sad misfortune if, after living together a few months, the young wedded couple should make the discovery that their marriage was illegal, on account of the clergyman's ignorance or neglect.

MARRIED.
At Knight's Landing, Oct 22, by the Rev. Mr. Burton, Z. Swaringer to Ida Rogers.

County Hospital Notice.

SEALED proposals will be received at the County Clerk's office in Woodland Yolo county until the 16th day of November, 1863, for the board, washing, nursing, medicines and medical attendance for the indigent sick of the county. Separate proposals will also be received for medicines and medical attendance, and for the board, washing and nursing of said sick. Proposals will state the amount which will be charged per week for each person. The person to whom the contract for boarding, nursing and doing the washing may be awarded will be furnished with a portion of the County Hospital building at Woodland for his private use; said Hospital will be furnished with cooking utensils and necessary furniture for the use of patients. A physician to whom the contract may be awarded is required to be a graduate from some legally incorporated College of Medicine.

By Order of the Board of Supervisors.
GILES E. SILL, President.
October 14, 1863. o24-td

Notice to Contractors.

SEALED proposals will be received by the Board of Supervisors at their office in Woodland until the 16th day of November, 1863, for the construction of a Graded or Turnpike Road and Bridge, being the first section of the Tule Road, running from the Sacramento and Yolo Bridge, westwardly to the Tule House. To wit: that portion on the East end of said road near the village of Washington, and of 5000 feet in extent; the work to be done in accordance with plans and specifications on file in the office of said Board at Woodland, and to be paid for by warrants drawn upon the County Road Fund. Separate bids for said Grading and said Bridge will be received and considered, the Board reserving the right to reject any or all bids if they should consider them too high.

By Order of the Board of Supervisors.
GILES E. SILL, President.
October 13, 1863. o24-td

Dr. HOSTETTER'S STOMACH BITTERS, should be in the possession of everybody in the mining region. As a preventive of various dangerous diseases to which the gold seeker is liable, it has no superior. While it is quite palatable even as a beverage, it is speedy and powerful in its effect upon the system. In all cases of Diarrhoea, Dysentery, and the prevailing fevers consequent upon exposure, the Bitters will be found invaluable as a corrective. No man should enter upon the exposed camp life of a miner, without being provided with Hostetter's preventive of stomach disease, nor should any of those who are now engaged in the occupation, fail to have recourse to the Bitters.—Sold by all Druggists and Dealers everywhere.

Rheumatism, Neuralgia,
Lumbago, Stiff neck and joints, Sprains, Bruises, Cuts and Wounds, Piles, Headache, and all Rheumatic and Nervous Disorders

Yield readily to the wonderful properties of Sweet's Infallible Liniment. Prepared by Dr. Sweet, of Connecticut, the famous bone setter, who has used it in his practice for more than twenty years, during which time it has in no case ever failed to afford immediate relief. One trial will convince the most skeptical. Price only 25 cents. — Sold by all the Druggists.

HOSTETTER, SMITH & DEAN,
s12-1m Sole Agents San Francisco.

Dr. Guyssot's Improved Extract of Yellow Dock and Sarsaparilla, is a SURE REMEDY FOR Hereditary Taint. Thousands of individuals are cured with grievous complaints, which they inherit from their parents. The use of the Yellow Dock and Sarsaparilla will prevent all this, and save a vast amount of misery, and many valuable lives, for it thoroughly expels from the system the latent taint, which is the seed of disease, and so takes off the curse by which the sin or misfortune of the parents are so often visited upon the innocent offspring.

Parents owe it to their children to guard them against the effects of maladies that may be communicated by descent, and children of parents that have at any time been affected with consumption, scrofula or syphilis, owe it to themselves to take precaution against the disease being revived in them. Guyssot's Extract of Yellow Dock and Sarsaparilla is sure antidote in such cases.

Correspondence from Reese River.

AUSTIN, October 11th. 1863.

S. W. RAVELEY, Esq.
Dear Sir!—Supposing that you'd like to here something from a place having acquired in so short a time so much renown as Austin, I'll pen you this evening a few lines. I have been a resident of this Territory now since last spring, and may be called one of the pioneers of Austin, and am therefore enabled to have formed a tolerably good idea of the resources and prospects of this country. To describe to you the growth and prosperity of this place, would be almost useless, as it is such as to baffle all description. I will only remark that Austin in 4 months time has leaped with a tremendous bound from a village of a few canvass tents to a thriving and flourishing city with an habitation of about 6000 or 7000 souls. Substantial stone buildings all along the streets testify to the confidence felt by the present inhabitants in the permanent growth and prosperity of our enterprising and flourishing town. People in spite of the lateness of the season, continue flocking in from all parts of the Territory as well as California; everybody trying to get hold of a few valuable lots and feet. Lots have advanced from some \$50 00 or \$100 00 to the snug little sum of from a thousand to five thousand. These prices are for lots on Main street; on other streets they sell from \$50 00 to \$1000 00. Rich strikes are made every day in mining, and it is almost past conception what this place will be in a few years hence; certainly the richest ever known to mankind. All business houses are doing very well; hotels, restaurants and lodging houses are always crowded, even to such an extent, that most people not having houses of their own, have to lodge with nothing but the canopy of heaven for their shelter. I have often noticed well known San Francisco speculators crawling out of the haystacks in the morning, shaking off the dust from their clothes. This is roughing it some like the California pioneers had to do. Building is going on livelier than ever in spite of the enormous prices demanded for lumber (at the present time from \$400 00 to \$500 00 per M.) and the scarcity of mechanics. Stone masons and brick layers earn from \$10 00 to \$25 00 per diem; carpenters' wages are from eight to ten dollars a day. Adobes and lumber are very scarce; splendid granite for building purposes is plenty and can be taken out almost anywhere in those hills. It is very doubtful whether we will be supplied with provisions enough to last us through the winter, although from five to twenty large teams are arriving daily. It depends entirely upon the winter; in such a one as we had last year, teams can travel all winter from here to Washoe; but if we should get such a season as we had two years ago we will be cut off from all supplies. Several companies have been formed in California with the object to send out trustworthy men to prospect and locate ledges for the shareholders, of some of which I am the agent. In my opinion this enterprise will prove highly remunerative to its shareholders. If you feel inclined to form a similar company in your neighborhood, I should like to act as your agent here. The expenses of such a Company would be about \$300 00 per month, including my fee of \$50 00 per month. This can be divided in as many shares as you please, although it would not be well to have more than 10 or at the most 15 persons interested in it. The smaller the company, the better, of course. I should want to take a share in it myself, and my assessments would be deducted from my salary. The books of the company will be very strictly kept and monthly accounts sent to your secretary in Knight's Landing. Prospecting can be prosecuted nearly all winter, at least in such a season as we had last year. Prospectors used to turn out their horses to graze on the hillsides in January last. Any person wanting to have business of almost any description transacted in this place will find it to his advantage to give me a call, as my charges will be moderate. As I have been living for the last three years in your neighborhood, I think that my reputation is such as to deserve confidence, although other references would be given if required. If I can be of any service to you in regard to giving information about anything out here, I'll be most glad to do so. My address is A. Schlemann, Austin, Reese River. Hoping that you &c. I remain yours &c. A. SCHLEMMANN.

DR. HOSTETTER'S STOMACH BITTERS.

THE OPERATION OF THIS PALATABLE remedy upon the stomach, liver and excretory organs is singularly soothing and conservative. It regulates, recruits and purifies them. Dyspepsia in all its forms yields to its control and invigorating properties.

Invigorate the System.
Vigorous digestion and pure bile produce nutritious blood, and nutritious blood a healthy frame. Does the victim of a dyspeptic stomach and a disordered liver desire to know how the digestion may be improved, the bile and other fluids of the body purified?

Dr. Hostetter's Stomach Bitters
Will accomplish this desirable revolution in the system, regulating the secretions and excretions, giving tone to the animal juices which dissolve the food, strengthen every relaxed nerve, muscle and fibre, and brings the whole machinery of vitality into vigorous and healthful play.

Strengthen the System.
The best means of imparting vigor to the broken-down frame and shattered constitution, which has yet been invented or discovered, is proffered to the feeble of both sexes and all ages in

Dr. Hostetter's Stomach Bitters.
Debility, from whatever cause arising, may be cured; strength, in whatever manner it may have been wanted, may be restored by the use of this powerful and healthful invigorant. For indigestion and all its painful effects, bodily and mental, they are a positive specific.

A Word to the Aged.
In the decline of life the loss of vital force consequent upon physical decay can only be safely supplied by some vivifying preparation which recruits the strength and spirits, without entailing the exhaustion which is always the final effect of ordinary stimulants. We tender to the aged

Dr. Hostetter's Stomach Bitters
As an invigorant and restorative, immediate in its beneficial action and permanent in its effects. It tones the stomach, improves the appetite, and acts like a charm upon the spirits.

For Females.
Thousands of ladies resort to it as a remedy for hysteria, fluttering of the heart, nervous headache, vertigo, general debility, and all peculiar disturbances & derangements to which, as a sex, they are subject. It cheers and enlightens the oppressed mental powers, as well as strengthens the body, and its use is never followed by any reaction.

Beware of Counterfeits. Purchase only of reliable dealers, Sold everywhere.
H. HOSTETTER, SMITH & DEAN, Agents,
227 Montgomery street, (Russ Block,) San Francisco.

Dr. Guysott's Improved

Yellow Dock and Sarsaparilla
Will Cure without Fail

Scrofula or King's Evil, Cancers, Tumors, Eruptions of the skin, Erysipelas, Chronic Sore Eyes, Ringworm or Tetter, Scald Head, Rheumatism, Pains in the Bones and Joints, Old Sores and Ulcers, Salt Rheum, Diseases of the Kidneys, Loss of Appetite, Disease arising from the use of Mercury, Pain in the Side and Shoulder, General Debility, Dropsy, Jaundice, Lumbago, &c.

Dr. Guysott's Extract of Yellow Dock and Sarsaparilla put up in the largest sized bottles, contains more of the Honduras Sarsaparilla than any other preparation extant, which is combined with the extract of Yellow Dock, the extract of Wild Cherry and the Balsam of Fir, thus making the remedy more thoroughly efficient than any other Sarsaparilla before the public. At the same time it is perfectly free from ALL mineral poisons, which can not be said of any other of the Sarsaparilla compounds. The invalid should beware of poisons. Mercury, Iron, Quinine, Potash, Iodine, Sulphur, Arsenic, and many other mineral and metallic poisons enter into and form the active basis of most of the sarsaparilla and panaceas of the day. Guysott's Compound Extract of Yellow Dock and Sarsaparilla does not contain a particle of the substances; as any one can ascertain by applying the necessary tests.

These poisons may occasionally remove disease, but they so vitiate the blood and impregnate the whole system with their baneful effects, that the first cold or the first attack of disease, prostrates the patient's strength and subjects him or her to the most excruciating torture, and renders another cure almost impossible and hopeless. Let all poisonous sarsaparilla preparations alone, and use **Guysott's Improved Extract of Yellow Dock and Sarsaparilla**, which is thoroughly efficacious, perfectly harmless and purely vegetable. All kinds of diseases yield to its genial influence.

Caution.—Beware of counterfeits. All genuine Dr. Guysott's Extract of Yellow Dock and Sarsaparilla has the name of JOHN D. PARK, Present Proprietor, Cincinnati, O., on the label.
Remember this fact when buying, all without the name of "JOHN D. PARK, Cincinnati, Ohio," on the label are counterfeits.
Sold by all Druggists.
H. HOSTETTER, SMITH & DEAN,
sole Agents for Pacific Coast,
San Francisco.

TARRANT'S

THE Knight's Landing News.

ARREST OF BELLE BOYD.—This lady, who gained for herself much notoriety as a rebel spy, mail carrier, &c., was arrested in Martinsburg, Virginia, on Thursday night, by one of Capt. Johnson's detectives, who had been sent for the purpose by that officer. She was brought to Washington on Friday evening, and committed to the old Capitol by Capt. Todd. It will be recollected that Belle was confined in the Old Capitol some time ago on the same charge, and was sent South with the distinct understanding that she should remain there during the war. Instead of doing so, Captain Johnson heard of her being in Philadelphia soon after her release. He went on after her, but she had left that city, and was last week heard of in Martinsburg, Va., where the detectives arrested her. Belle is about nineteen years of age, not pretty, but very intelligent and witty. She will probably be held as a prisoner during the war.—*Wash. Rep.*

THE GRAVE OF DOUGLAS.—A Bostonian, who has a temporary residence in Chicago, writing home a few weeks ago, says: "I went out of the city limits the other day, and saw the prisons of the Morgan raid men, and also the grave of Stephen A. Douglas. He is buried upon the Lake shore, in a beautiful spot. There is no monument erected over him, with name or history; a simple mound, with a wooden fence around it, tells where Douglas lies. The city of Chicago is spreading its limits every day. In a comparatively short time, the grave of Douglas will be covered by houses of business, and the man who, in his day of pride and honor, was a dictator in the Congress of the nation, will not have a stone to mark his last resting place. 'What shadows we are! What shadows we pursue!'"

WOMAN'S PROPER STUDY.—Without doubt, the proper study of womanhood is woman. Her attributes, her governing motives, and the whole internal machinery of her being can surely be better understood and more thoroughly sifted by those who, added to the same instinctive basis, possess the practical ability to give name and expression to the emotions which, in those less gifted of her sex, amount to little more than vague dreamings. Female writers should, of necessity, devote the best energies of their minds to the enlightenment and entertainment of their own sex. There is the right to use the scalpel, fearlessly in probing wounds of whose existence and depth they alone can form a just conception; and theirs the privilege to strike the tender cords of womanly sensibility with womanly sympathy.

PUNSTER'S CATECHISM.—Why should the male sex avoid the letter A? Because it makes men mean. What is that which every man can divide, but no man can tell where it has been divided? Water. Why is a woman often making a noise? Because she is always in a bustle. What part of a ship is like a farmer? The tiller. What is the oldest tree in America? The elder tree? What day of the year is a command to go ahead? March 4th.

A YARN FROM NEW ORLEANS.—Henry Meyers of New Orleans was struck by lightning and supposed to be dead. A coroner's jury so pronounced him, and preparation was made for the funeral. Just, however, as the coffin was about to be closed, the dead man sat bolt upright, and after surveying the scene a few minutes, inquired the cause of all these gloomy preparations. The electric shock had suspended animation for over 24 hours.

An old lady in Pennsylvania had a great aversion to rye, and would never eat it in any form, "Till of late," said she, they have got to making it into whisky, and I can, now and then, worry down a little."

COOPER once slurred a certain governor by attributing the disease in potatoes to the mortification they felt at seeing so small a member of their family in the gubernatorial chair.

A paragraph has been going the rounds about an old lady who had a moustache on her lip. It is not uncommon hereabouts for young ladies to have moustaches on their lips.

PAT Doolan, at Gettysburg, bowed his head to a cannon ball which whizzed past six inches above his bare skin. "Faith," says Pat, "one never loses anything by politeness."

"Boy, what's become of the hole I saw in your pants the other day?" (Young America, carefully examining his unmentionables) "It's worn out, sir!"

PLATO being told that some enemies had spoken ill of him, said: "It matters not; I will endeavor so to live, that no one shall believe them."

"ARE you the mate?" said a man to the Irish cook of a vessel in port. "No," said he, "but I'm the man as boils the mate."

Mr. White looks black, does he change color?

The national debt of England is stated to be \$700,732,139.

HOTELS.

CACHEVILLE HOTEL.

W. Campbell, Proprietor.

THE PROPRIETOR TAKES PLEASURE in announcing to his numerous friends and acquaintances that he has taken the above Hotel, and is now ready to accommodate families and permanent boarders, in the best style and most satisfactory manner.

The DINING ROOM is spacious, and is well calculated to accommodate any number of guests.

The BAR-ROOM is also large, and will at all times be supplied with the choicest brands of WINES and LIQUORS that can be procured in the San Francisco market.

The proprietor has spared neither trouble or expense in fitting up this Hotel in all its essential appointments, to make it the best Hotel north of Sacramento.

Mr. Campbell hopes by strict attention to business, and a desire on his part to please his patrons, to receive a share of the public patronage. W. CAMPBELL, Cacheville, March 29, 1862. m29-tf

LICK HOUSE,

ALSTROM & CO.—The undersigned, formerly proprietors of the Oriental Hotel, respectfully inform the public that they have purchased the Lease and Furniture of the Lick House. Our friends and the public can rest assured that we shall leave nothing undone to merit their patronage.

It is conceded that the Lick House, has far superior advantages over all other hotels in California.

The house being but three stores high, the rooms are easy of access, well lighted, and contain all the modern improvements; the staircase and halls are wide, spacious and airy.

The Kitchen and Pantry are being enlarged, and we are certain of being able to give complete satisfaction in the Dining-hall department.

The Office will be under the superintendence of Mr. FRANK J. LAWLER, late of the St. Nicholas, New York.

S. ALSTROM, G. S. JOHNSON, J. M. LAWLER, San Francisco, Cal., April, 1863. ap25-tf

R. H. McDONALD & CO.

NEW YORK.

BAKER & HAMILTON,

IMPORTERS AND DEALERS IN

Farming Implements & Machines, J STREET, BETWEEN FRONT AND 3D, Sacramento.

VIZ: Threshing, reaping and mowing machines; horse hay rakes, cast and steel plows, plow castings, cultivators, harrows, harrow teeth, churns, cheese presses, grain cradles, seed sowers, corn planters, corn shellers, hoes, horse hoes, shovels, spades and trowels, garden shears, reels and lines, garden rakes, straw cutters, sugar mills, fan mills, hay and manure forks, hay knives, axes, hatchets, ax-handles, sickles, scythes, snathes, bush scythes, road scrapers, grind stones, wheel barrows, sausage cutters and stuffers, ox yokes and bows, patent bow pins, budding and pruning knives, well wheels and buckets, etc., etc.

PATENT COMBINED GANG PLOW,

SEED SOWER AND HARROW.

We have purchased the right this great labor-saving implement for the State of California, and are having a number made in the Atlantic States for this market.

With this combined Machine one man, with six horses, can do the work of three twelve inch plows, besides sowing the grain, and harrowing it in as he proceeds, thus finishing his work in the best manner possible, without being obliged to travel over the plowed ground. This Machine was very thoroughly tested by the farmers of Santa Clara county, where some eighty are now in use; also, by the Messrs. Hensel & Kethley, of this county, and Messrs. Hoppin Brothers, near Cacheville, Yolo county. It is made very substantial; is not liable to get out of order, and being on large truck wheels, the Gang Plow, Seed Sower and Harrow, runs lighter than three plows would, cutting the same amount of land.

We are desirous of having these plows generally introduced throughout the State, and are therefore prepared to offer very favorable inducements to farmers and the trade. The following are some of the names of our customers who have used them for the past two seasons:

Sacramento county—Hensel & Kethley. Yolo county—Hoppin Brothers, L. M. Curtis, Caleb Davis, C. Travers, A. J. Scroggins. Sutter county—M. Boulware, A. L. Chandler. Colusa county—James Timothy, J. Crouch. Butte county—Major J. Bidwell. Placer county—E. Miles.

Field, Grass, Herd, Flower

AND GARDEN SEEDS

A large portion of which are imported by Express, and selected by experienced Seedsmen in the East, packed in hermetically sealed cases, and guaranteed.

Land and horse Hay Presses made to order. nov22-3m
