BOOK FOR FLORISTS.

Low Express Rates on Plants.

We ship plants by all express lines to any part of the country. Under the ruling of the leading express companies plants packed in closed boxes or baskets are now being carried at the "GENERAL SPECIAL" rate, which means a reduction of 20 per cent. from the regular merchandise rate. Boxes weighing less than 100 pounds are charged at pound rates, but the minimum charge is 35c. For example, if the general rate is \$5.00 per 100 lbs., a box containing 25 lbs. will cost \$1.00, which is a saving of 25c.

CHICAGO.

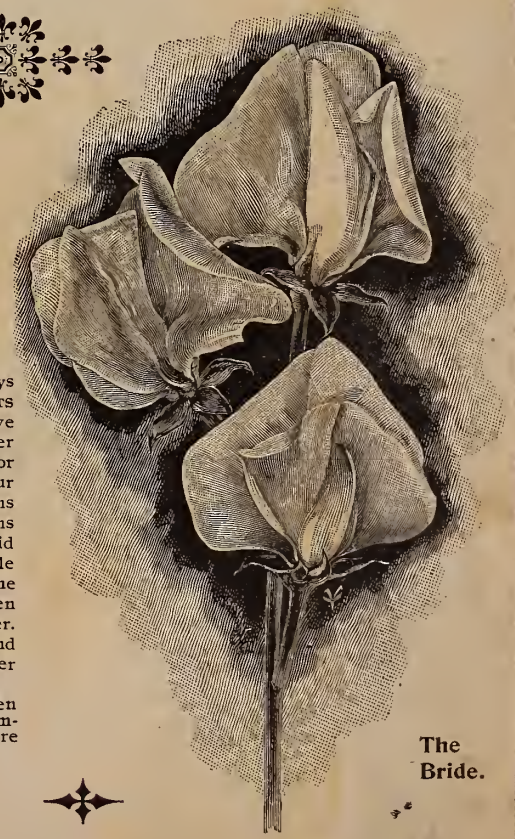

BUSINESS CONDITIONS.

TERMS on Florists' stock: To customers of approved credit, 60 DAYS, except on certain CASH items. Special 3 per cent. discount for cash in Ten days, (from these list prices only), not from the "Special" quotations and excepting NET CASH ITEMS.

New Accounts: New customers, if not already well known, will please send cash with first order and if desiring to open an account send good references, property statement or other information concerning their commercial standing as they may be able to furnish. This will avoid delay which is often very annoying. We cannot be expected to ship goods to those whose good standing is not known to us. For references please name bankers, wholesale merchants or other well-known business men with whom you have had dealings—such information will be held in confidence.

Our Responsibility: While we always aim to have the best BULBS AND DORMANT PLANTS which each season affords from reliable houses, we cannot and do not guarantee any of them to flower or produce a crop of flowers at the prices given, nor will we be responsible for the crop. We assume our customers to be acquainted with these conditions and if the stock is not accepted on such conditions it must be returned at once and any money paid will be refunded. Live plants and like perishable stock should be sent by express; we cannot assume any responsibility whatever for safe arrival when such plants are ordered by freight by the purchaser. The remedy for loss must lie between the buyer and the Railroad Company, but we will gladly render all the aid we can.

We prefer not to send goods C. O. D., but when wanted in that manner some money must accompany order. PERISHABLE stock, plants, etc., are POSITIVELY NOT SENT C. O. D.

Grown by our specialist in the West Indies. The best of this class we have ever seen. The stock bulbs of these were supplied by us from the famous Brazilian Exhibit at the World's Fair in 1893.

For window boxes, show plants or greenhouse growing, this is one of the most decorative plants. Rich, thrifty leaves, handsomer than Begonias, marbled, veined and striped with white, pink and dark red. Bulbs should be started into growth about April 1st, in a warm house. In the fall they can be dried down and stored in a warm place during the winter. Among 40 kinds we mention the following:

The plant is a very strong grower, five to six feet high, with leaves with a texture like rubber. As specimen decorative, as well as a flowering plant for the greenhouse or private conservatory, it is the finest novelty in recent years. Price, 4 inch pot plants, per doz., \$1.50; per 100, \$10.00; dormant roots, per doz., \$1.25; per 100, \$8.00.

ALEMANNIA. The gigantic flowering Canna. This kind obtained as yet in the way of Cannas. The plant grows about 4½ to 6 feet high. Numerous musa-like glaucous leaves. Above the perfect foliage which alone would be sufficient to render the plant beautiful, emerge numerous elegant, gigantic and wonderful spikes of flowers. The latter are enormous and surpass in size even those of the Canna "Italia." The outer petals are scarlet with a very broad gold-yellow border. The inside of the blooms is scarlet and dark red. Exceedingly beautiful. Each, 35c.

Atalanta. Height 4 feet, large, grayish green foliage with a dark border; flowers deep orange carmine of large size. Plant is a strong grower, early and continuous bloomer. Considered one of the best of this new Italian type. Each, 50c.

Burgundia. Height 4 feet, large glaucous leaves, very large spikes, enormous flowers, resembling an expanded Cattleya, of a brilliant golden yellow with scarlet spots, center fiery red. Each, 50c.; 3 for \$1.00.

America. The first Orchid flowered Canna with dark bronze leaves. Height 4½ feet. The spikes are very large and the flowers enormous, of a very beautiful glowing red, flamed and striped; a combination of colors not seen in the Crozy class. Each, 35c.

Italia. One of the new giant Orchid-flowered types. For size and shape of flower, see our colored plate of Canna Burbank. In color, the center is of brilliant red; the outer half of the circumference of each petal being a wide, irregular band of clear yellow, making with the two colors a very striking flower. Price, dormant roots, doz., \$1.00; 100, \$5.00; 4 inch pot plants, doz., \$1.50; 100, \$8.00.

Austria. Much resembles the Burbank, but far inferior to it in substance of flower and foliage. Price, dormant roots, doz., 75c.; 100, \$4.00; 4 inch pot plants, doz., \$1.00; 100, \$6.50.

NEW CANNAS OF CROZY TYPE.

"THE BURLINGTON"—(Our seedling of 1896.) 3½ feet. Green foliage, flowers large and rounding, of a clear orange-scarlet, with a bronze lustre; strong grower; with clean, handsome flower spikes showing well above the foliage. Each, \$1.00; 3 for \$2.50.

"YELLOW CROZY"—This novelty, proven by us for three years, is a clear, pure canary yellow, with no red marking except a few faint red spots on the smallest lower petal. The effect produced by a bed of it is a solid mass of pure yellow. In size the flower petals are 1½ inches broad, the compact spike shows off well above the foliage, height 3 feet, foliage green. It has a remarkable habit of throwing out additional lateral flower heads from the main spike—often as many as six or seven. In the full sun it bleaches less than any Yellow Canna we have seen, owing to its good substance. It is, in short, just the color and habit of a plant which has been sought for the past five years, a pure "Yellow Crozy." Each, 35c.; per doz., \$3.00; per 100, \$20.00.

President Cleveland—One of the finest Cannas. Height 3½ feet. Green musa-like foliage, throws up very strong, thick, flower stalks; free flowering. The very large flowers form well shaped, compact trusses of bright orange scarlet. Each, 60c.; per doz., \$6.00; per 100, \$40.00.

Mlle. Berat—A most distinct and novel variety, being the nearest approach to a pink yet introduced; it is of a very soft shade of rosy carmine and is very pleasing and unique; foliage green; 3½ feet. Price, 4 inch pot plants, per doz., \$3.00 per 100, \$15.00; dormant roots (while stock lasts), doz., \$2.00; per 100, \$12.00.

Vice-President Luizett—3½ feet. Foliage green. Will make an excellent variety for massing, of a rich cherry-red with carmine reflex; produced in large, compact spikes. Each, 25c.; per doz., \$2.50.

Chicago—(Medal.) This is the best vermilion scarlet to date; 5 feet; green foliage with leaves 9 to 10 inches wide, flower truss and stalk stand boldly erect. The large flowers open out nearly flat, petals 1½ inches wide and five in number. The color is a clear, deep vermilion, smooth and without markings, except a purplish gloss. They never fade, but drop off the flower stalk as they pass perfection, leaving it bright and clean so that the bed is always a mass of brilliant scarlet. Price, 4 inch pot plants, per doz., \$1.50; per 100, \$10.00; dormant roots (while the stock lasts), per doz., \$1.25; per 100, \$8.00.

Vaughan's CANNAS

Last year probably doubled the former year's sales of these grand bedding plants. There has been a steady growth in the popular demand since we showed Crozy's twenty novelties (costing us \$2,000.00) at the World's Fair. For our trade orders on Cannas we cultivate in and out of doors at Western Springs a thorough up-to-date assortment. Another trip to Europe last summer (visiting M. Crozy and other French and English specialists) has put us in possession of all the new ones of real merit. We are discarding or throwing into the mixed lots all the named varieties that do not possess high grade flowers or very desirable foliage. Write us for rare or scarce kinds.

NEW HARDY PHLOX.

ROSES FOR FLORISTS.

New Forcing Rose, Mrs. Robert Garrett.

Hybrid Tea of American origin, raised by Mr. John Cook, "The veteran raiser of fine roses." It is a cross between Sombreuil and Mad. Caroline Testout and forms a valuable addition to the class of large roses which is represented almost entirely by the American Beauty. Color soft rich pink, buds very long, flower extra large, delightfully fragrant, rivaling Bridesmaid in color, but larger and much more productive. A sturdy, vigorous grower, a money-maker and a triumph of American skill. The best firms in the country are investing in it. It has won numerous prizes and has elicited the most favorable comments from critical judges. Our stock is of the very best; orders booked now; plants will be sent out March 1st. Price of strong plants from 2½ in. pots, per doz., \$3.50; per 100, \$25.00; per 1,000, \$225.00. 50 at the 100 rate, 500 at the 1,000 rate.

Souv. du President Carnot.

Without a doubt a grand acquisition to the list of Forcing Roses. It has all the good qualities, being a remarkably strong, quick grower, extremely healthy, and a constant and very prolific bloomer. It produces long, stiff stems, with handsome foliage; the color is an exquisite sea-shell pink, with the edge of the petals ivory white. The blooms are larger than either Bride or Kaiserin Augusta Victoria, and of perfect shape. It is being extensively grown in Chicago and vicinity and all who are growing it are pleased with the results. Strong plants, 2½ in. pots, per doz., 75c; per 100, \$5.00. 3½ in. pots, per doz., \$1.50; per 100, \$12.00.

CAROLINE MARNIESSE.—A hardy rose that is always in bloom. As a bedding or pot rose this variety has no superior. It is literally a continuous bloomer, being constantly covered with flowers the entire Summer. The blossoms are of medium size, full and double and borne in very pretty clusters. Color, pure white, slightly tinged with pink, with delightful tea fragrance. Per doz., 60c; per 100, \$4.00.

MLLE. HELENA GAMBIER.—Hybrid Tea. The color at first is a salmon-rose, varying to apricot yellow at the base. A decided advance toward a true yellow Hybrid Tea. Flowers large, very double with full high center. A prolific bloomer. Price, per doz., 60c; per 100, \$4.00.

THE FOUR RAMBLERS.

Yellow Rambler. (*Aglaia*).—This rose is the *hardest yellow climbing rose* yet introduced, and quality of hardiness has been an extremely difficult one to combine with yellow color. We believe that, with very slight attention, it can be grown everywhere that other roses succeed. It also blooms after the same manner as *Crimson Rambler*, in large trusses. Well established plants from 2½ inch pots, per doz., 75c; per 100, \$4.00. Strong one-year-old plants, per doz., \$1.50; per 100, \$10.00.

Pink Rambler or Euphrosyne.—Color, a clear light red, with numerous golden anthers. Similar to *Aglaia* in nearly all respects, save color. Per doz., 75c; per 100, \$4.00.

White Rambler or Thalia.—Pure white. In other characteristics very similar to *Aglaia*. Per doz., 75c; per 100, \$4.00.

Crimson Rambler.—2½ inch pots, per doz., 75c; per 100, \$5.00.
4 " " " " " \$1.50; " " " " " \$12.00.

New Yellow Soupert.—MOSELA.

This is a splendid novelty; its origin is almost identical with that of the original Soupert. It blooms in profuse clusters of 3 to 5 flowers, which are very double, ball-shaped and open like a Camellia flower. The petals are tinted white, on beautiful light yellow ground extending to the middle of the petals; 2 inch pots, per 100, \$3.00; 2½ inch pots, per 100, \$4.00; 3½ inch pots, per 100, \$9.00.

SEED GARDENS.**

Sparing neither trouble nor expense to maintain our position in the FLOWER SEED Trade, one of our firm has again made a very extensive trip the past Summer, inspecting not only our own stocks growing on contract, but the fields of all the leading growers and their specialties. He has seen most of the important seed and plant establishments of England, Holland, Belgium, France and Germany, visiting all the special growers of PANSIES, ASTERS, GLOXINIAs, CARNATIONS, etc., making the minutest notes of the quality of each individual grower's stock as he saw it. This places us in a better position than ever to furnish the very best quality of everything. We know the relative value of all varieties of flower seeds from the experience of a lifetime, and our list will be found to contain only those of value and merit. Furthermore, our prices are right, our trade packages very liberal, and we serve you promptly. We want your trade and we know we can fill your orders to your entire satisfaction.

PLEASE NOTE.—Trade packets contain considerable more seed than ordinary or retail packets, being based on Florist's needs for ordinary purposes. Florist's invariably get Trade Packets unless otherwise specified.

FLOWER SEEDS FOR SOWING IN SUMMER.—Cinerarias, Primulas, etc. We issue a special circular in May. Should you fail to receive one, please write for it, as we shall have some very desirable Novelties to offer.

Vaughan's Florists' Asters.

These are among the most important of Florists' Flowers, both for cutting and pot-culture, and we have taken particular pains in having only the best strains, in the most distinct and striking colors and furnish only seed of last year's growth. Nearly all our Aster seed is raised in Erfurt, Germany, where, as is well-known, the best Asters are grown. In comparing prices you will please bear this fact in mind and not confound our strains with inferior French or Italian seed, offered at low prices. The Aster crop was a good one last summer, and good germinating qualities and choice flowers may safely be expected.

GIANT COMET ASTER.

This Giant Strain is a vast improvement on the original Comet Aster, the flowers are of gigantic size, larger than those of any other Aster, and not only are they larger, but they are produced in greater profusion. As many as twenty-five blooms are often found on a single plant. They are of good form, very double, and produced on long, stiff stems, making it an excellent sort for cut-flowers.

NEW MAMMOTH ALLEGHENY HOLLYHOCK, SHOWING TYPE OF FLOWER.

**NEW MAMMOTH
FLOWERING**

ALLEGHENY HOLLYHOCKS.

Blooms the First Year from Seed.....

.....A New Type of Hollyhocks.

The flowers of this new variety are so different from the old conventional ones that but for the similar habit of the plant it would not be taken for a Hollyhock. They are from four to six inches in diameter, running from semi-double to double, and so finely fringed and curled that, compared with the old ones, they have the look of a flower from Fairyland. The colors are shell pink, rose and ruby red, a shade or two deeper at the center, and exquisitely tinted toward the edge. The flowers do not, as on the other double Hollyhocks, rot on the stems, but drop as soon as they fade. Every bud to the top of the plant is developed into flowers, making the flowering season considerable longer. The cut gives an idea of these flowers, but does not by far do them justice, as the fine graceful appearance and peerless shading cannot be reproduced; such colors are found only in silks.

Price, per trade pkt., 25c.; 1-8 oz., \$1.50.

SOME GOOD NEW GLOXINIAS.

Queen Victoria.—The plants are of robust and compact habit, the leaves small and always healthy, the snow-white flowers stand upright and are freely produced. Price per pkt., 35c.

CYCLOPS.—Corolla brilliant velvety carmine shading lighter towards the broad, pure white border; the throat is finely sprinkled with dark red dots; the flowers are of gigantic size. Price per pkt., 35c.

GOLIATH.—Velvety purple violet corolla, passing towards the pure white border into azure blue; also of enormous size. Per pkt., 35c.

One pkt. each of the above three choice Gloxinias for 90c.

NEW FORGET-ME-NOT "WATER NYMPH."

Myosotis palustris semperflorens "Nixenaunge."

This is the largest flowering variety of the true Forget-me-not. The very best for cut-flowers. The individual blossoms are very large, of the most charming sky-blue, with a clear yellow eye. They are borne in large clusters and on stems up to 15 inches long. Trade pkt., 25c.

Vaughan's Early and Late Flowering

FORGET-ME-NOT.

This sort will bloom in six to eight weeks after sowing and will bring forth its flowers throughout the whole summer and fall and continue through the winter if taken up and potted. The flowers are borne on long, stiff stems, are of most exquisite sky-blue with a delicate white center, and they furnish the best cut-flowers, they are satisfied with moisture and a somewhat shaded position. Trade pkt., 15c.

NEW BUTTERFLY CYCLAMEN.

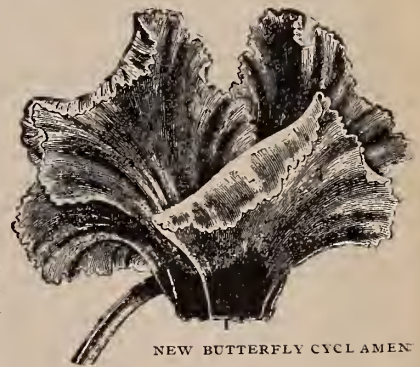

(Cyclamen Papilio.)

This is the most unique and beautiful novelty of the year. It is an absolutely distinct race of this beautiful flower and the type is "fixed." The flowers are as large as those of the Giant-Flowered varieties while they far surpass them in variety and richness of colors. Their peculiar and handsome form however is the most distinctive feature of this new race, and the name Butterfly is, we think most appropriate. Our engraving does not do this beautiful flower justice but it conveys an idea of its handsome shape. We have seen the plants in bloom at the originator's place in Brussels the past summer and can vouch for the beauty and distinct character of this novelty.

Price, per pkt. of 3 seeds, \$1.00; 10 seeds, \$3.00.

MIXTURE OF NEW CANNAS.

The seed we offer under this name has been saved from new varieties only, such as Chicago, Leonard Vaughan, Yellow Crozy, Chas. Paul, President Carnot and others, and will produce excellent flowers, undoubtedly some that are entirely new; Cannas will bloom from seed the first year if sown in February or March. Per oz., 25c.

NEW BUTTERFLY CYCLAMEN

GLOXINIA QUEEN VICTORIA.

LOBELIA "BEDDING QUEEN."

Lobelia erinus pumila splendens.

This new variety is undoubtedly the most remarkable and magnificent of the dwarf Lobelias. The habit of the plant is very dwarf and compact, forming handsome little bushes which are entirely covered with large flowers of deepest purple, contrasting most charmingly with the pure white eye. Its freedom and duration of bloom is remarkable, the flowers lasting until late in the Fall. The best Lobelia for carpet beds, borders and pots. Trade pkt., 25c.

MIGNONETTE "YELLOW GIANT."

This is by all odds the very best of the golden yellow flowered Mignonettes, the flowers being larger, the spikes thicker, and last but not least, it brings a larger proportion of true plants than other large flowering strains of yellow Mignonette. We secured this seed from the originator and it will not be found in any other American catalogue. Trade pkt., 25c.

LOBELIA "BEDDING QUEEN."

SINGLE DAHLIA, GIANT PERFECTION.

The seeds of this new Dahlia have been saved from the largest and broadest petaled flowers only, varying in diameter from 4 to 5 inches. The plants are of a very vigorous and branching habit of growth, and produce their immense flowers in great abundance. They are of good, symmetrical form, and in the greatest variety of colors, being self-colors of all the shades found among Dahlias, as well as marbled, striped, flaked and blotched. If Dahlia seed is sown in March or April, or before, the plants will bloom from August until killed by frost. Trade pkt., 25c.

Climbing Nasturtium "VESUVIUS."

This is by far the most brilliant of all the Nasturtiums. The flowers are of very large size, perfectly round, the petals overlapping each other, while the color is the most dazzling fiery rose imaginable. We recommend this novelty. Per oz., 20c.; lb., \$2.50.

Antirrhinum. (*Queen of the North.*)—In this new sort we have one of the finest and most beautiful of all Snapdragons. The plants grow into handsome, regular bushes, 12 inches high, covered with large, white flowers of a deliciously sweet perfume. Suitable for bedding and pot-culture. An excellent winter-bloomer. Trade pkt., 10c.; 1/4 oz., 30c.

Vaughan's International Pansy Mixture.

This is the Pansy mixture for every Florist who would realize the highest prices for his flowers and plants. It contains the cream of the cream of every noted Pansy growers' product the whole world over. The Pansies grown for this mixture have been repeatedly personally inspected by us in the fields, and we thus became acquainted not only with the quality of the general assortment of each individual grower but we also made selections of their choicest varieties. Thus it can be readily understood that we are in position to make up *The Finest Combination* of kinds in the world, and this we are doing each year with our "International Mixture." It contains, besides all the choicest German Pansies in their wide range of beautiful colorings; all the separate colors of the Giant Trimardeaus with their immense flowers and rich colors. It contains the Giant Cassier and Bugnot strains, the product of celebrated Scotch strains, the Falaise and Boulogne Giants, in fact there is no strain of any of the celebrated Pansy Specialists not represented in our INTERNATIONAL MIXTURE. Price, per oz., \$10.00, ½ oz., \$5.00; 1-8 oz., \$1.50; trade pkt., 50c. (Less 10 per cent. for cash.)

Eight Choice New Pansies.

COQUETTE DE POISSY. This is undoubtedly the prettiest of all the light-blue Pansies. The flowers are of good size, perfect form and good substance. The color is most unique being a light lavender shading into pure white towards the edge of the petals, a dark lavender blotch on the lower petal and a yellow star in the center. Resembles the coloring of a Cattleya. Pkt., 25c.; ½ oz., 50c.

GIANT "ADONIS." Trimardeau size flower, of good form and substance. Color a magnificent light blue with a white center which set off the dark blotches on the petals in a most striking manner. Pkt., 25c.; ½ oz., 85c.

GIANT "FREYA." Trimardeau size flower, color rich deep purple violet with a broad white margin which shows just as distinctly on the back of the petals and this peculiarity gives a bed of these a very unique and rich appearance not obtained by any other sort. Pkt., 25c.; ½ oz., 85c.

PRESIDENT CARNOT. This new sort originated from the Giant Cassier class and possesses the regular, dwarf habit of the same also its free flowering qualities which render it so well adapted for bedding purposes. The ground color is white and each petal is almost covered with a deep, rich velvety blotch of dark violet blue, leaving a broad white margin. This sort comes perfectly true from seed and is one of the most effective of our entire list. Pkt., 25c.; 1/8, \$1.00.

GIANT TRIMARDEAU, Red (Fiery Faces.) The flowers are of fine form, good texture, and the color a very bright scarlet with a gold edge and yellow center, while the three lower petals are marked with a deep, almost black spot, which gives the flower a face-like appearance. Pkt., 25c.; 1/8 oz., 75c.

GIANT AURORA. Pure white. Pkt., 25c.; 1-8 oz., 50c.

GIANT GOLDEN QUEEN. Pure yellow. Pkt., 25c.; 1-8 oz., 75c.

These two are very desirable, being pure, without the dark blotches on the petals, extra large, almost Trimardeau size, and fill the place of the long-looked-for yellow and white of large size.

MAD, PERRET, GIANT. Trimardeau size of flower, of perfect form and best substance, the edge of the petal is somewhat frilled which lends it a very graceful appearance. The colors are of dark wine color, pink and red, beautifully veined and all with a broad white margin. A sort which should be in every collection. Pkt., 25c.

NEW CLIMBING NASTURTIUM, **MAD. GUNTHER'S HYBRIDS.**

For richness and variety of colors these new hybrids have no equals among Nasturtiums. There are shades of rose, salmon, brightest red, pale yellow, either as self colors or spotted and striped. The foliage is mostly dark and contrasts very effectively with the rich colors. They are climbers and free and continuous bloomers.

SINGLE ASTERS, Mixed.—Trade packet, 10c.; oz., 75c.

Improved Single, or Marguerite Aster.

When first we noticed these single Asters revived and advertised in foreign catalogues, we could not understand why any one should want these, when the double flowers are so much handsomer, and therefore decided not to catalogue them. We had in mind the old-fashioned ones, so like the wild Asters, but when, on our European trip last Summer, we saw them growing in large fields, we were converted and convinced that they deserved a place in our list. The plants are about 18 inches high are vigorous growers and bear on long, wiry stems an abundance of flowers 3 to 4 inches in diameter, resembling Ox-Eyed Daisies. The pink

IMPROVED SINGLE, OR MARGUERITE ASTER.

Mammoth-Flowered Heliotrope.

Blooms from seed the first year, and as easily as Sweet Peas or Balsams.

Heliotropes will bloom as easily from seed as any of the common annuals. Sow the seed in the open ground about the first of May, and the handsome bushes will furnish cut-flowers all Summer and Fall. Our packets contain over 100 seeds and include the very best sorts. Trade pkt., 25c.

New White Balsam "Alba Perfecta."

A Balsam that will produce large double white flowers is what seed growers have been seeking for a long time and we know that lovers of this beautiful flower and florists will give the "Alba Perfecta" a warm welcome. The flowers are extremely double, very large and of the true Camelia-shape, in fact might be called a white Miniature Camelia.

Trade packet, 25c., ¼ oz., 60c.

PETUNIA "SNOWBALL."

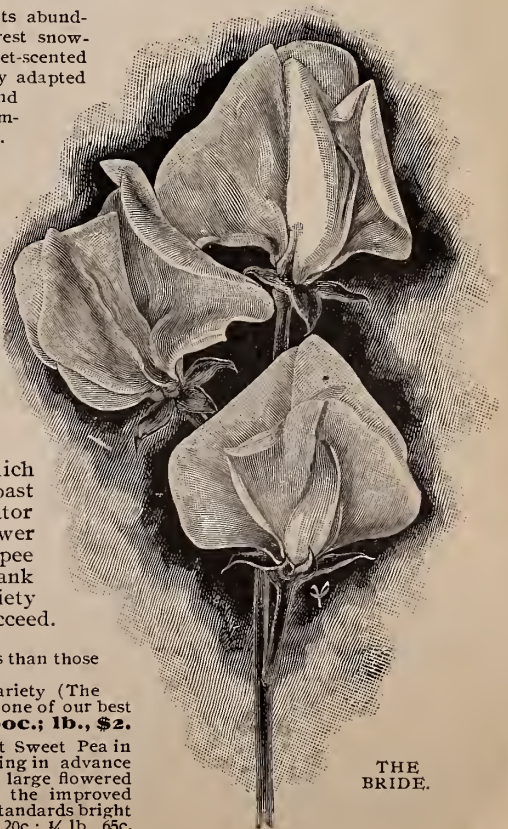

Petunia 'Snowball.'

For an everbearing white flower, suitable for beds and borders, we think this new Petunia has few equals. Our illustration, which is a reproduction from a photograph, shows its dwarf, bushy habit and also its abundance of bloom. The flowers are purest snow-white, of good shape and size, sweet-scented and lasting. This plant is eminently adapted to our climate on account of its heat and drought resisting qualities. We recommend it. Trade packet (400 seeds), 25c.

New Double Petunia

PINK LILIPUT.

This is a most delightful little plant, about 8 inches high, covered with lovely little flowers, borne freely on its many branches. The color, background is brilliant rose on which the regular, pure white stripes stand out in bold relief. The seed will yield about 30 per cent. of double flowering plants. Pkt. (50 seeds), 25c.

THE BRIDE.

NEW CALIFORNIA SWEET PEAS.

THE BRIDE.

This novelty is a beautiful large, white-seeded variety which has been selected by Mr. Lynch, of Menlo Park, for the past four years. It is a pure white selection from Mrs. Eckford and is the strongest germinator among all the white-seeded varieties—so often poor growers. Grown for the cut-flower market of San Francisco in competition with the other high class whites like Blanch Burpee and Emily Henderson, it has brought the highest figures over them all, taking first rank among the whites. Mr. Lynch claims that it is equal in size and form to any white variety grown, and every seed will grow, an important advantage, as the early plantings always succeed.

The Cornell Bulletin in naming the best Sweet Peas of each color, classes The Bride first as a white. Frank Pelicano, a leading florist of San Francisco stated: "We can sell more Bride Sweet Pea blossoms than those of any other variety which we have ever handled."

Prof. Tracy, in a recent review of some of the newer Sweet Peas says: "The especial merit of this variety (The Bride) is in its length, strength and grace of flower stem, and the disposition of the blooms thereon, being one of our best sorts in these respects, and forming an exceedingly graceful bunch." **Price, per oz., 20c.; ¼ lb., 60c.; 1 lb., \$2.**

CALIFORNIA.—This is the best "self color" in soft pink, of the shade of Daybreak Carnation, the lightest self among Sweet Peas. The form and size are perfect. Rev. W. T. Hutchins says of it: "It is different from all of our other self-pinks and a good thing." Price, per oz., 20c.; ¼ lb., 75c.

EMILY LYNCH.—It is the earliest Sweet Pea in existence, blooming in advance of Extra Early Blanche Ferry. This is a large flowered form of Duke of York, but larger and of the improved grandiflora form. Wings buff cream and standards bright rosy pink with primrose tint. Price, per oz., 20c.; ¼ lb., 65c.

Vaughan's International Primula Mixture.

This mixture is composed of the most saleable colors of Single Flowering Chinese Primulas, the best whites, pinks and reds, with a sprinkling of other colors, enough to give a large variety of colors, the most important shades predominating. It contains some of the above mentioned Giant sorts, some Fernleaved, some blue; also some with dark leaves and stems. We have taken special pains to make this mixture as complete as possible, and unreservedly recommend it to everyone.

••••• SHEEP MANURE. •••••

Specially recommended for Roses and Flowering Plants.

Sheep Manure is one of the very best fertilizers we have used either in liquid form or mixed with the soil at the time of planting. We have proof of the power of Sheep Manure as a fertilizer if we look at the crops of grain produced on land that has been pastured with sheep. Nothing in the way of animal manure can equal it as a crop producer.
