Practically Ended

Government Majority in Imperial Commons Assures Conservatives a Long Reign.

Hon. H. Plunkett's Defeat Causes Uneasiness in Unionist Circles in Ireland.

Londoners Are Preparing to Welcome the Soldiers From South Africa

(Associated Press.)
London, Oct. 13.—The new House of Commons is practically elected and the Conservatives are returned to power with a majority that portends that they will remain in office another six years. Justification of the South African war, the only serious issue in the campaign, has been accomplished in less than two weeks, and the election machinery so suddenly put in motion is already relapsing into the quiescence of ordinary times.

Of contests that mark this week's polling two attracted particular attention, that which resulted in the defeat of Right Hon. Horace Curzon Plunkett, who ran for the south division of Dublin county in the Conservative interest, and that in which Dr. Gavin Brown, Clark, the Radical candidate for Cathness, was beaten.

The Conservative journals of England deplore the opposition within their own party which resulted in

Mr. Plunkett's downfall, regarding it as a serious omen for the future stability of Unionists in Ireland, significant of a serious lack of toleration on their part which threatens to perpetuate religious political strife to the detriment of Ireland's business prosperity.

While the opposition to Mr. Plunkett was nominally based on his giving avowed Home Rulers government positions, a reporter of the Associated Press learns that a most bitter and unbecoming personal feeling had as much, if not more, to do with it than the cause which appeared in the papers. Mr. Plunkett has long maintained a great personal friendship for one of the most charming of Dublin women. What caused outrage at this friendship was the fact that she was an ardent Catholic and Home Ruler, and through her influence, Mr. Plunkett had long been believed to have under the direct influence of Catholic priests. So all the forces of Protestantism were put to work with the result that

Retirement From Public Life.
to the great relief of the leading Liberals who have publicly disavowed responsibility for his actions.

With these old scores settled public opinion is finding a chance to air itself about China, and the far end of the war in South Africa, and is looking forward to the day when the troops return home. What glad enthusiastic scenes will mark the return of the soldiers can be gathered from the extensive preparations already afoot, and the more serious minded, who can scarcely be expected to join in the shouting throngs, are nevertheless equally elated over the prospect of eradication of the abuses and the shortcomings of the army when the popular idol, Lord Roberts, shall be once installed in the War Office.

That these expectations will not be fulfilled exactly the way the public desires can be anticipated from the statement that Lord Roberts has already written to several high officials expressing gratification at again being associated with them. One of these is said to be Gen. Sir Evelyn Wood, adjutant to the forces. But while the clean sweep so much demanded is not likely to occur, it is an undoubted fact that Lord Roberts will have far greater powers than Lord Wolseley, and will use them without respect to persons.

The prospect of another international yacht race is welcomed, and creates an end of anticipation and interest. The spirit of opposition which Sir Thomas Lipton encountered among some of his own people last year, the accusations of self-advertisement, do not appear likely to be repeated this time, for the Bona Fide Spirit of His Sportsmanship is being more recognized.

Mr. Cornelius Vanderbilt's refusal to accept Sir Thomas Lipton's cup for 70 footers won by his yacht Rainbow and the circumstances connected with the race, caused the yachting papers to comment on it regretfully, though the Yachtsman adds: "If Lipton had been an American citizen we might not have had heard so much of this matter." This view, however, is not shared by Sir

EMPRESS FREDERICK.
Reports of Her Condition May Have Serious Effect on Health of the Queen.

(Associated Press.)
New York, Oct. 13.—The alarming news with regard to the condition of Empress Frederick is certain to have a serious effect on the health of the Queen, says a London dispatch to the Tribune. Her Majesty is still sorrowing for the loss of her second son, the Duke of Coburg, and grave consequences might arise should the illness of her eldest daughter have a fatal termination.

Left for Kronberg.
London, Oct. 13.—The Duke and Duchess of Connaught started unexpectedly for Kronberg Prussia, this morning. The secrecy of their movements leads to the belief that the condition of the Dowager Empress Frederick of Germany is more serious than has been admitted.

CHARGE AGAINST A CAPTAIN.
Master of the Yacht Idler Indicted for Manslaughter.

(Associated Press.)
Cleveland, Ohio, Oct. 13.—Captain Charles Holmes, who was in charge of the yacht Idler which foundered off post July 7th in a squall, was yesterday indicted for manslaughter by the federal grand jury. Holmes is charged with criminal carelessness in handling the yacht. The Idler was owned by John and James Corrigan, the wealthy vessel owners. Six members of the Corrigan family were drowned when the boat foundered.

ONTARIO TRAGEDY.
Young Man Shoots His Sweetheart and Takes His Own Life.

(Associated Press.)
St. Thomas, Oct. 13.—Frank McGregor committed suicide last night after having attempted to take the life of his sweetheart, Bertha Batty, by firing three shots one of which inflicted a flesh wound.

Murder At Golden

Man Shot Dead in His Bed in a Hotel Early This Morning

The murderer was placed under arrest immediately after committing the crime.

(Special to the Times.)
Vancouver, Oct. 13.—A special dispatch from Golden says that A. Dando, formerly a member of the N. W. M. P., was murdered in his bed in the Delphine hotel, Golden, early this morning.

The murderer, a painter named F. Collins, well known in Vancouver, was arrested immediately after.

While drunk, Dando proceeded to a house after Collins, and succeeded in wrecking it.

Collins went to secure a warrant and was told to return in an hour. He visited Dando's room in the hotel, and as he walked through the door exclaimed: "It's all off with your brain," and fired. There was a second shot, and when Collins left Dando was found dead with a bullet through his heart.

SERIES OF ACCIDENTS.
Three Steamers Damaged and Much Property Destroyed.

(Associated Press.)
Liverpool, Oct. 13.—A singular series of accidents occurred in the Mersey today. The Norwegian steamer Veritas collided with the Leyland line steamer Devaula from Boston, October 3rd. Unsuccessful efforts were made to beach the Veritas on the Chesire shore, after which she was towed over to the Liverpool side, where she parted tackle and collided with the steamer Earl Howey, causing the latter to break from her moorings. Thereupon both steamers drifted down the river and the Veritas crashed into the thick iron booms stretched from the pier head at St. George's landing stage. Everything above her deck was carried away and she is now a submerged wreck. The Earl of Howey, while drifting, smashed her bows, lost her propeller, and her crew leaped upon the dock wall. The south end of the landing stage was extensively injured.

The aggregate damage done will amount to thousands of pounds.

German Claims.
China, Sept. 1.—In regard to a division of Chinese territory among the powers it seems the opinion of most of the officers here, that if there is such an apportionment Japan will obtain Corea. Everyone here seems to believe a division in Japanese hands all this time. It is hardly to be taken into consideration. It is generally conceded that the most she wants is a money indemnity and possibly a coaling station. The British and the American legation grounds are the central point of interest, and it is here that most of the news of

Black Flags Are Out

Large Force to Escort the Empress Dowager to New Capital.

Dr. Morrison Tells of Events Leading to Siege of Legations.

Indemnity Question May Be Submitted to Court of Arbitration.

(Associated Press.)
Washington, Oct. 13.—The Russian suggestion that the international court of arbitration of The Hague be given jurisdiction over divergences of views arising on the question of Chinese indemnities was submitted to Secretary Hay by M. de Wallant, the Russian charge d'affaires in Washington, in a note on October 3rd. It has received the adherence of the American, the French and the Russian governments, thus giving the suggestion the approval of three of the foremost powers, and strong assurances of its general adoption.

M. de Wallant's note has not been made public. It can be stated, however, that it was the result of the extended exchanges between the French and Russian governments relative to the six proposals in the French note. It expressed approval of the various proposals, and then added the new suggestion relative to giving the Hague tribunal jurisdiction of indemnity in case there should be difference of views.

It is understood that Austria and Italy, and probably Japan, look with favor upon the Hague suggestion. The movement promises to give the first realization to the "Czar's movement in bringing about the international congress of the Hague. The court of arbitration has received the approval of the various governments represented at the Hague, and its formal organization is in progress.

The importance of the United States has attached to it is indicated by the choice of ex-President Harrison and ex-Senator George Gray, of Delaware, as the American members of the tribunal.

The Empress's Journey.
Paris, Oct. 13.—A trustworthy cable dispatch from Shanghai says that Gen. Li, the chief of the Black Flags, has left Canton at the head of a considerable force, and that he will traverse the province of Ho Nan, join the Empress at Shan Fu, capital of the province of Shen Si, for the purpose of acting as her body guard.

The dispatch adds it is believed that the Dowager Empress will arrive at Shan Fu about October 20th.

Empress and Boxers.
London, Oct. 13.—The Times publishes today Dr. Morrison's mail accounts of events that led up to the siege of Peking. He says that the Boxers only became important after the German occupation of Kiao Chow. The Chinese were ascribing the disastrous drought and famine with other troubles to the judgment of heaven for usurpation of the Empress Dowager. She seized upon the Boxer movement, according to Dr. Morrison, as a means of diverting popular wrath from herself to the foreigners and appointed Yu Hsien, founder of the Boxers, to be governor of Shan Tung in March, 1899. Thus, under Imperial protection, the Boxers preached the doctrine that it was the foreigners and not the Empress Dowager who had aroused the wrath of the gods.

"As if in answer to the Boxers, came anti-foreign outrages," continues the correspondent, "culminating in the destruction of the railway station at Fong Tai. The long awaited rains came on May 28th, and were regarded as a sign of the direct sanction of higher powers to the work of Boxers.

"Three days later extra foreign guards for the legations arrived. The Boxers became increasingly audacious, and things went from bad to worse until the legations were ordered to quit Peking and Baron von Ketteler was killed. There is no shadow of doubt that his murder was deliberately planned by the authorities, and executed by an officer resplendent in the uniform of the Imperial troops."

Mr. Morrison highly praises the fearless courage of Dr. Ament, the American missionary, who, when Mr. Conger was obliged to decline the request for an escort for the Tung Chow missionaries, undertook the journey alone.

"It was an act of courage and devotion," he says "that seemed to us who knew the country a deed of heroism."

On the arrival of the Tung Chow missionaries at Peking they had a conference and sent an appeal by cable to President McKinley on June 8th, over the head of Mr. Conger. "It would be interesting to know," says Dr. Morrison, "whether this ever reached Washington."

Continues His Denunciations

of Rome, pork, tobacco and secret societies, and has succeeded in securing twenty converts. The meetings are the scene of constant disturbances, which occasions Dowie improves by abusing the English press, averring that Masonry is the power which causes it to oppose him. In response to the request of a representative of the Associated Press for information, Mr. Dowie sent word that he had nothing more to say to the press, which, he said, was leagued against him.

The Charge Considered

Board of Health Conclude That Authorities Have Shown No Laxity.

Question Dealt With in Detail—Other Matters Up For Discussion.

A meeting of the board of health was held last evening in the city hall, when Dr. F. Hall's charge against the health department of faulty administration in connection with the case of the McMillan child was dealt with. The board came to the conclusion that there had been no laxity on the part of the municipal health authorities. Another communication was received from Dr. Hall regarding the advertisement of a bacteriological appliance being secured by the city to aid in the diagnosis of certain diseases. It was decided that in view of the fact that the provincial department headquarters in this city had the necessary plant, it was not incumbent on the municipality to purchase the plant.

MINYON'S COUGH CURE

MINYON'S COUGH CURE stops a cough, calms irritation and soothes the chest and acts marvellously as a soothing, expectorant and bronchial agent. It positively cures bronchial cough, with rattling in the windpipe and tightness across the chest, difficulty in breathing, coughs from nasal catarrh, hacking cough of old people, short, dry, quick breathings, whooping cough, and all pulmonary diseases, where the lungs are not too far consumed by the disease. A separate cure for each disease. At all druggists, mostly 25c a bottle. Personal letters to Prof. Minyon, 1505 Arch St., Philadelphia, Pa., U.S.A., answered with free medical advice for all diseases.

came ill. If he was called upon to undertake the work of inspection he would ask for an increase in salary, as he would take considerable time to examine the 2,500 children at present attending the city schools. In reply to a question from the mayor, the doctor said that it would take an hour to thoroughly examine one child. At the rate of ten children a day it would occupy 250 days to examine all the children. In regard to this clause it was decided in the opinion of the board the duties of examining children fell to the province of the parent and family physician, and the board of health did not feel called upon to shoulder the responsibility in the matter.

Referring to that portion of the communication regarding the advisability of securing sterilized swabs for diagnostic purposes, Dr. Fraser said that there had been very little trouble up to the present time in making diagnosis of diphtheria. As he stated before, physicians as a rule went by the appearance and symptoms. A letter was received and filed and Dr. Ernest Hall will be informed of the decision of the board.

Dr. Fraser reported as follows: Victoria, Oct. 8, 1900. The Local Board of Health, Victoria. Gentlemen:—On Saturday last, in company with His Worship the Mayor and the city engineer, I visited Alpha street and Burnside road, a locality in which there have been several cases of typhoid fever recently. The residents attribute the disease to an open drain or stream on Alpha street, but in my opinion the cause is at least one family (Mrs. Carter's) in the use of water from a well so situated as to be sure to be contaminated. In this connection I would respectfully recommend that the city limits be closed, and all other wells in this well be examined, and that some method be devised for the frequent thorough flushing of all surface and box drains.

I have the honor to be, sir, Your obedient servant, R. L. FRASER, M. D., Medical Health Officer. The report was adopted. Another communication was read from Dr. Ernest Hall as follows: Victoria, Oct. 10, 1900. To the Board of Health of the City of Victoria: Gentlemen:—I beg to call your attention to the fact that laxity still exists in municipal quarantine. One child has already died from diphtheria, at No. 1245 Spring street, Spring Ridge. The physician in attendance, I am informed, giving a certificate of death from causes other than diphtheria. I call your attention to this fact to emphasize the necessity of the reforms mentioned in my former correspondence.

ERNEST HALL. Being asked for his opinion, Dr. Fraser said that this certainly was a very strongly worded letter. In regard to the question he was satisfied that it was not diphtheria but pneumonia, as certain signs were present. Further, the duties of the medical health officer should be extended to the usual inspection of all the children of the public schools, including examinations for physical defects and deformities, including defects of hearing, vision and voice. Many children suffer from near sight and deafness, and many other conditions which interfere with their education.

Yours truly, ERNEST HALL. On this subject, Dr. Fraser said that as a rule there was no difficulty in making a diagnosis of diphtheria without a bacteriological examination. There really was no infallible test for diphtheria and all practising physicians were governed largely by the naked eye appearance and the symptoms. Of course a bacteriological department would be a good institution, but in that case a bacteriologist would be required. In some cities a young lady presided over this department.

Ald. Yates interjected that the provincial government had an excellent apparatus. Dr. Fraser replied that Dr. Fagan had called away to Vancouver at the time referred to in Dr. Hall's letter. Dr. Fagan intended that the institution should be permanently. The department was a very expensive one. Dr. Fagan purchased the plant at the expense of the province during his recent visit to San Francisco, and it was at present installed in the premises in the rear of the parliament buildings. The bacteriological department certainly aided diagnosis. It would be of no utility in scarlet fever or disputed smallpox cases, but would prove effective in plague or diphtheria. At the present time he doubted if there could be a practical man in the province who could effectively preside over the department. It was wholly theoretical work and not practical, and no practising physician would have time to control it authoritatively. Dr. Fagan was capable of presiding over the institution, as he had acquired familiarity with the principle in courses in Montreal and San Francisco.

Finally, after some further discussion it was decided to receive and file the communication and inform Dr. Hall that in view of the fact that the provincial department was in the rear of the city, was in possession of the appliances in question it was unnecessary for the city to purchase the plant.

Regarding the matter of a semi-annual school children inspection, Dr. Fraser was of the opinion that this was somewhat a philanthropic. As a general rule parents usually summoned their family physician when their children be-

mother would not allow him to continue with, and took the spoon from him; and when it was withdrawn it had blood on it. Dr. Hall then left, saying he would procure a hack in which to take the child to the isolation hospital. In reply to a question from the mayor, the inspector said that the child was eventually induced to open its mouth by the mother, but that it would not do so for the doctor. In that way Dr. Hall must have made his examination. She further told the inspector that the doctor had not left the house ten minutes before the child died. Mr. Wilson continuing, said that while he was at the house a neighbor who had been on the scene at the time of the doctor's visit fully corroborated Mrs. McMillan's statements. Dr. Fraser said that the father had told him that he had been blaming himself ever since that he had not forcibly ejected Dr. Hall when he came to the house. But the child was in the throes of death, and he did not know what he was doing. The mother also informed him that she did not know who Doctor Hall was when he called. He (Doctor Fraser) had been conversant with this case previously, as Doctor Hart had told him that the child had pneumonia and was expected to die. Confiding, the health officer said that there was no diphtheria membrane in the child's throat when he examined it after death. He was quarantined, the child had a public funeral and the other children were allowed to continue attending school. More certainly had he noticed the diphtheria membrane he would have been originally removed. His duties had not been taken immediately after the mother and father of the child in question informed him that they did not summon Dr. Ernest Hall, and that he had not gone to a block from the house before the child died. The Mayor—How many cases of diphtheria are there in the city to-day, Dr. Fraser?

Dr. Fraser replied that there were two cases reported to him. One was in a residence on Bodwell street, Spring Ridge, which was quarantined, but which was in the isolation hospital. The other was in the isolation hospital. That was precisely the condition of affairs. The child in the isolation hospital had been brought to the Jubilee hospital in a hack by Dr. Ernest Hall, who, when accosted by Dr. Fraser while entering the institution, informed him that it was a case of typhoid. Upon examination Dr. Fraser expressed his opinion that it was a case of diphtheria, and Dr. Hall agreed with him. Dr. Ernest Hall then refused to allow the child to come into the hospital, and it was taken to the isolation hospital adjoining before the necessary arrangements had been made. It was the custom in cases of this nature to leave the patient at home until the nurse and the ambulance were ready, and other essential preparations perfected.

In reply to a question by the mayor, Dr. Fraser said that the child was taken to the hospital in an ordinary hack, which was allowed to leave and return to the city without being disinfected. The Mayor—Did Dr. Ernest Hall return in the hack or in the car?

Sanitary Inspector Wilson—I don't know how he returned, but I know he did not return in the hack. Ald. Williams pointed out that the alarm in the neighborhood was caused by the removal of the child to the isolation hospital. He did not believe in condemning Doctor Hall behind his back. This, he said, would be a cowardly proceeding. At the same time he was not in favor of Dr. Ernest Hall, but he believed he should be present at the meeting to explain himself.

Dr. Fraser was not prepared to say that all the wild statements attributed to Dr. Hall were true, but he was certain that the alarm in the neighborhood was engendered by the case of the child that died. This was not a doctor's quarrel, for both he and Doctor Hart were satisfied that the case was pneumonia, and he consequently took no action. It was possible for Dr. Hart and himself to be in error, for there were cases of diphtheria in which there was no membrane in the body at all. The poison in these instances usually caused paralysis of the heart.

Mayor Hayward—There has been laxity in one particular, Dr. Fraser. That is, when it came to our notice that Dr. Hall had not disinfected himself before mingling with other people, after carrying that child to the isolation hospital he was not placed in quarantine.

Dr. Fraser—I really cannot say whether he disinfected himself or not. Ald. Yates wanted Dr. Hall to specify more the "considerable laxity." AM. Kinsman could not see that there had been any faulty administration on the part of the health authorities.

The mayor advised that the letter be received and filed, and Dr. Hall informed that in the opinion of the board of health there had been laxity regarding the case mentioned in the communication.

This took the form of a motion moved by Ald. Cameron and seconded by Ald. Hall. Ald. Yates moved in amendment that an addenda be added to this motion: "That Dr. Ernest Hall be requested to specify his charges." The mover was supported by Ald. Williams. The amendment was lost. This closed the question, and a petition was read from a number of residents of Cadboro Bay road requesting that something be done to abate the nuisance caused by a box drain which discharged its contents under a bridge along the road.

The mayor explained that this communication had been addressed to Dr. Fagan, who had referred it to the board. Finally after further discussion it was decided to inform Dr. Fagan that the sanitary officer would attend to the matter.

Some further discussion ensued on various matters, and after deciding to visit the isolation hospital on Monday morning at 10 o'clock, the board adjourned.

NOMINATIONS. Halifax, Oct. 12.—B. Russell, late Liberal member for Halifax, was yesterday nominated as Liberal candidate for Hants.

Toronto, Oct. 12.—Ex-Ald. John Flett has consented to become the Liberal candidate for Centre Toronto. The nominations reported to-day include George Anderson, Liberal, East Toronto; S. McKinnon, Liberal, Hutton; Hyman, Liberal, London; Ritter, Liberal, North West Toronto; Blair, Liberal, St. John city; Tucker, Liberal, St. John city and coun-

Hamilton, A. T. Wood, the present member, and J. V. Teezel, Liberal. Ottawa, Oct. 12.—The Conservatives of Ottawa to-night selected candidates. Thomas Birkett, a prominent hardware merchant, received nomination as the English-speaking candidate, unanimously. For the French-Canadian representative Dr. Champagne's nomination was made unanimous.

Since 1849 the world's production of meat has increased 57 per cent; that of grain, 129 per cent.

For Every-Day Ailments,

Resulting From Constipation and Deranged Liver and Kidneys, Dr. Chase's Kidney-Liver Pills Are Remarkably Effective.

Besides having a world-wide reputation as a kidney medicine and liver regulator, Dr. Chase's Kidney-Liver Pills enjoy the distinction of being the most valuable family medicine which it is possible to obtain.

In nearly every family, there frequently occurs ill and ailments arising from constipation or clogged, inactive liver or kidneys, which, if neglected, may become painful and even fatal. This is the time to use Dr. Chase's Kidney-Liver Pills. They cure the most severe forms of kidney and liver disease. They also prevent these diseases by keeping the filtering and excretory organs healthy and active.

Instead of weakening the system and deranging the action of these organs, as salts and other harmful drugs, Dr. Chase's Kidney-Liver Pills tone, invigorate and regulate them, and cure thoroughly and permanently. It is impossible to keep in the house a medicine of greater value to the family than is Dr. Chase's Kidney-Liver Pills. One pill a dose, 25 cents a box, at all dealers, or Edmundson, Bates & Co., Toronto.

YOUNG WOMEN'S CHRISTIAN ASSOCIATION. Board and lodging on moderate terms, with special reduction for double-bedded rooms. Young women arriving by trains and steamers will be met, if due notice is given to the Matron.

Officials Protest

Against the Occupation of Chinese Territory by International Forces.

Germany Will Insist That the Ringleaders of Outrages Are Punished.

London, Oct. 13.—The Times correspondent writing from Peking under Thursday's date says: "The Chinese officials declare that stringent orders have been sent to provincial officials not to oppose the advance of the allied column."

Sun Yat Sen in the Field. Hongkong, Oct. 12.—According to dispatches from Canton the reformer, Sun Yat Sen, has unfurled the reform flag in the town of Wei Chou, on East river. This act has given rise to a considerable amount of excitement in military circles in Canton, as it is believed that the object of the reformers is to denude Canton of troops so they can seize the city.

Admiral Ho is pursuing the rebels in a northeasterly direction from San Chan. A British expedition, consisting of the 22nd Bombay Infantry, with artillery, is going to the Kow Loon Hinterland, although the district is reported quiet.

As Viewed in Berlin. Berlin, Oct. 12.—A dispatch received here today says: "A very serious view is taken at Field Marshal Count von Waldersee's headquarters in Tien Tsin of the revolutionary movement. At Canton a false alarm on October 7th caused the Chinese officials there to protest against any occupation of Chinese territory. The Yangtze river, the dispatch adds, openly affirm that they will oppose any advance of the Germans into Shaan Tung province.

The proposal of the Russian government that in case of protracted divergence of views regarding equitable indemnities, this matter might be committed to the consideration of an international court of arbitration at The Hague, is regarded as the most important development in the Chinese situation. Nothing was known publicly in Europe concerning it prior to the publication of President McKinley's answer to the note of Mr. Delcasse. Most of the papers comment unambiguously upon the suggestion.

Germany looks upon the report of the death of the Empress Dowager as a new Chinese intrigue. It is supposed that she intends to disappear temporarily, in order to escape the responsibility for the misdeeds of high officials, and perhaps to prepare another anti-foreign movement.

A high official of the foreign office asserted to-day that a telegram had been sent to the Chinese government demanding direct information as to whether the Empress Dowager is dead. No reply has been received.

The German foreign office is not satisfied with the list of embassies supplied by the Chinese government. "The list is notoriously incomplete," said an influential official, "as it omits at least a score of prominent persons who were active leaders in the movement of foreigners."

Germany, however, is not disposed to insist upon the punishment of all the guilty. What she demands is that an example be made of persons of high rank in order to show the Chinese strikingly and convincingly that the powers have enforced a severe expiation for misdeeds and to teach a wholesome and lasting lesson that the lives and property of foreigners must be safe in China.

No Punishment. Paris, Oct. 12.—A dispatch received by the Savas Agency from Tien Tsin says: "The general opinion of those knowing Chinese ways is that the punishment of the high officials contained in the edict of October 1st will not be executed. The effect is fascinating. It is affirmed that Li Hung Chang has been ordered to reject all demands for territorial compensation and other war indemnities."

"The troops at Peking are suffering from typhoid fever and dysentery."

MINE OWNERS OFFER. Little Chance of It Being Accepted by the Strikers.

Seranton, Pa., Oct. 12.—The terms offered by the operators will be taken up at the convention of striking mine workers to-morrow. From the trend of the remarks of the delegates, it was gathered that the ten per cent. proposition as it now stands has very little chance of being accepted.

The delegates seem, it was learned, to be almost unanimous that the operators should make the fixed time for paying the advance was also thoroughly discussed, while not a few delegates said they would be satisfied with nothing but a more liberal increase in wages.

A woman who is weak, nervous and sleepless, and who has cold hands and feet, cannot feel like a well person. Carter's Iron Pills sensitize the system, remove nervousness, and give strength and rest.

Drawing to A Close

Six Hundred and Twenty-Five Members Returned to the Imperial Commons.

Sir William Harcourt's Majority Greatly Reduced—Four Unionist Gains Yesterday.

London, Oct. 12.—Sir William Vernon Harcourt, like Sir Henry Campbell-Bannerman, has been re-elected with a large diminishing majority, which is regarded by the Ministerialists as virtually a victory for them. The only other results announced this evening is the re-election of Mr. R. C. Moncreaf-Ferguson, Liberal, in Leith, where he defeated E. T. Salmond, Liberal-Unionist.

Hon. F. H. Lamington, the successful Unionist candidate in the southeast division of Durham, who ousted Mr. Richardson, Liberal, the sitting member, is a brother of Capt. Lamington, of the British cruiser Powerful. Perhaps the most striking of the Walthamstow division of Essex, where Mr. D. J. Morgan, Conservative, converted a minority of 300 into a Conservative majority of 2,305, ousting Mr. Sam. Woods, Liberal, a Labor representative who worked in the mines in his youth.

The results of yesterday's elections, given out this morning, show that the Unionists four gains and the Liberals three, their respective totals of gains being 34 and 32. The total number of members of parliament elected is 625, as follows: Ministerialists, 383; opposition, 242.

ANARCHIST INVESTIGATION.

No Evidence to Show Plot to Kill King. Humbert Was Laid in Pasternon.

New York, Oct. 12.—The commission appointed by the Supreme court of New Jersey, at the request of the Italian government, to investigate the acts of anarchists in Pasternon and other places in the state where anarchist groups exist, began an inquiry in West Hoboken this forenoon.

At the conclusion of the investigation in Pasternon, Mr. Trimble, the commissioner, said that nothing had been learned to show that the plot to kill King Humbert had been laid in Pasternon. The inquiry in that city came to an end because of the refusal of the local managers of the Western Union and Postal Telegraph Companies to produce messages received and sent by anarchists there. A number of witnesses who reside in West Hoboken have been summoned to appear before the commissioner. Brees, the slayer of Humbert, was a resident of West Hoboken, and his wife still lives there with her children. It is understood that Mrs. Brees will be among the witnesses called upon to testify.

REINFORCEMENTS FOR HALIFAX.

St. John's, Nfld., Oct. 12.—Allan liner Corean, Capt. Stewart, from Glasgow September 20th, and Liverpool October 2nd, which arrived this evening, brought 1st artillerymen to reinforce the British garrison at Halifax and Bermuda. The men were under the command of Major Hill, who was on the staff of Col. Mahon during the advance to the relief of Matruh.

"Oiling Up."

Just a little oil on the engine at the right time may mean the difference between life and death to the passengers and crew. What oil is to the friction of the delicate parts of the engine, Dr. Pierce's Golden Medical Discovery is to the delicate organs of the body. It eases their labor, prevents the loss of power and waste of energy caused by friction. Many a man who was laid low, whose limbs ached, whose back walked when he ached, whose head was laid down, who breathed with difficulty, and coughed constantly, has been perfectly cured by the use of Dr. Pierce's Golden Medical Discovery. It purifies the blood, strengthens the stomach and heals weak lungs.

Accept no substitute for Golden Medical Discovery, nor any medicine called "just as good" by the dealer.

Mr. Chas. Hewrick, of Lenox, Macomb Co., Mich., writes: "I have never felt better in my life than I do now. I have taken Dr. Pierce's Golden Medical Discovery right along. I can now walk well with ease, and hope to live three times as long as I have done. I had to use crutches for nearly two years, I think I am doing fine. I do not cough now and I can sleep like a school boy. You must know that I have been treated in two hospitals and by three doctors, but received no benefit, so I think your medicine is the only medicine for me."

Dr. Pierce's Medical-Adviser in paper cover, is sent free on receipt of 31-cent stamps to pay expense of customs and mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

Neuragia

is Rheumatism of the face. Uric Acid left in the blood by disordered kidneys lodges along the nerve which branches from the eye over the forehead; and across the cheek to the side of the nose. The cause is the same as in all Rheumatism—disordered Kidneys. The cure is likewise the same—

Dodd's Kidney Pills

Finally, after some further discussion it was decided to receive and file the communication and inform Dr. Hall that in view of the fact that the provincial department was in the rear of the city, was in possession of the appliances in question it was unnecessary for the city to purchase the plant.

Over Worked Nurses

Directors of Jubilee Hospital Consider Staff Has Too Much To Do.

Protracted Meeting of the Board Deliberate on This and Other Matters.

Several subjects of special interest were brought up and discussed at last evening's meeting of the Jubilee hospital, not the least important of which was a proposal to increase the nursing staff at present overworked. The meeting in consequence was a very lengthy one, an adjournment not having been reached until 10.40 o'clock. Capt. Gibson of Chemainus was present, and during the evening addressed the board.

The medical officer reported that during the month of September the number of patients admitted into the hospital was 57; the number of patients treated was 103; the total days' stay was 1,438 days, and the daily average cost per diem was \$1.83.

Robert Jenkinson, steward, reported that the supplies are being furnished satisfactorily, and acknowledged the receipt of the following donations: Box of pears, F. Senn; sack of pears, Mrs. Geo. Mitchell; and box of apples, Mrs. Alex. McLean.

J. Stuart Yates wrote on behalf of a special committee appointed by the city council to report on the disinfecting apparatus, stating that they the hospital committee would like to confer with a committee from the board to discuss the matter thoroughly, with a view of seeing what arrangement, if any, could be made between the two with reference to the purchase and operation of such a machine.

The letter was received and referred to the executive committee to report back to the board.

Dr. J. D. Helmecken, in a communication, said that he was always under the impression that a free ward for the treatment of the poor was available, and that under this supposition he had sent a patient to the hospital. Since leaving the institution, the doctor said, this patient had received several bills. He asked to be informed if there is a free ward "or if the government grant and the public subscriptions to the hospital are for assisting the hospital in the treatment of the poor."

In another communication Dr. Helmecken regretted that the board seemed to doubt his word, and that the board should think he was imposing on them.

Mr. Wilson, in reply, objected to the way the board had been addressed by the doctor, and expressed surprise that any professional man in the city should be so ignorant of the rules and regulations of the hospital.

The letters were received and filed.

The finance committee showed the book of the hospital for the past few months. During the period 5,700 patients have been treated at the hospital at a cost of \$9,142.33, or at an average daily cost of \$1.60. The amounts received from paying patients were as follows: June, \$1,402.20; July, \$1,647.06; August, \$1,189.75; and September, \$1,258.05, making a total of \$5,497.06.

The special committee on the medical officer's remuneration presented their report, which in substance recommended that when that officer takes possession of the house now being built for him on the hospital grounds, his salary shall be \$185 per month, out of which he shall find himself in receipt of independent of meters being provided for water and electric light. This amount was arrived at by estimating the present cost of the doctor in cash and supplies to the board and is as nearly an equivalent as is possible to arrive at.

After some discussion the report of the committee was adopted.

The buildings and grounds committee next submitted a lengthy report, over which a very lively debate took place between Messrs. Wilson and Davies. The former accused the latter of being extravagant in respect to the kitchen garden. In reply Mr. Davies charged Mr. Wilson with having "fixed ideas, and of never getting beyond little country economy."

Mr. Forman thought that it would be a good plan for a special meeting to be called for Monday afternoon, and to settle their differences, and there was a great deal of work before the meeting.

The report was taken up seriatim, and was in substance as follows: "Your grounds committee submit for your consideration the advisability of appointing a committee for the purpose of locating the proposed buildings to be erected upon the hospital grounds, such as additional wards, children's ward, maternity ward, Nurses' Home, etc., with power to employ professional assistance." Referred back to the committee for report as to the cost.

The new drain laid by Mr. Murray has been inspected, and we desire to express our satisfaction at the workmanlike manner in which the contract has been carried out, as we have reason to believe that his labor was deservedly given gratuitously." Approved.

"It is proposed to make a walk to the western gate on a line with the front of the administration building; to have the grounds to the west of the roadway plowed and prepared for lawn and garden purposes; to have made a lawn and garden in front of the doctor's new residence, and to thoroughly make ready for the next season the kitchen garden." Approved.

The special committee on the proposed changes to the nursing staff of the hospital reported that they found that the charges for a special nurse was \$2 per day of 24 hours, while the cost to the hospital was \$15 per week of 7 days of 12 hours each. They recommended that the charge for a special nurse, after the usual term of recovery from the effects of an anaesthetic be at the rate of \$3 per day of 24 hours, or that patients provide for their own special nursing, subject to the approval of the officers of

Fast Boats To the North

Such Are Promised For Next Year by the O. P. N. Company.

Unsatisfactory Mail Service to Port Essington to Be Investigated.

Mr. Thompson, of the C. P. N. Co., at yesterday's meeting of the board of trade, confirmed the rumor that next year the C. P. N. Co. would greatly improve the transportation to the North from this port. Steamers, the equal of any on the coast to-day, are promised and a service in every way up to date is promised.

This was the most important subject discussed at the board. Any discussion in regard to "A" Company and its rumored removal was unanimously vetoed. President McQuade, Col. Prior, D. R. Ker, and others strongly deprecated public agitation, which can only result in mischief.

In addition to President McQuade and Secretary Elworthy, there were present: J. G. McQuade, A. B. Eraser, J. Schell, Capitain Devereaux, C. F. Todd, L. Crease, W. Thompson, Capt. Cox, B. Boggs, G. Burns, A. R. Linton, J. "Percy" P. W. Patterson, D. R. Ker, J. Christie, J. J. Shallock, J. Bryden, Col. Prior, Alkman, Mara, Claxton, Simon Leiser, Wooton, Brenchley, A. E. Greenwood, Major Nicholles, G. A. Kirke and A. L. Belyea.

President McQuade read the interim report of the board as follows: "The council have had under consideration the necessity of extending the tramway on to the outer wharf and the placing of extra cars to meet steamers. The matter has been in the hands of a special committee so far have been unable to obtain from the tramway company a promise that the desired extension will be made in the near future."

The council have accepted the invitation of the Vancouver board of trade to help prepare a draft of a bill dealing with local legislative matters, to be submitted to the local legislature. The joint committees have held one meeting, and the board's committee have asked for further time to report, which has been granted.

"A communication has been received from the Atlin board of trade embodying several suggestions for the betterment of the Atlin community. One request was for the appointment of a County court judge for that district, which your council approved. The suggestion for changes to the Mining Act was considered best left in the hands of the legislature.

The council met promptly after the annual general meeting and appointed a special committee to arrange for a conference with the Coast Steamship Company report upon the provincial requirements in handling the Yukon and Northern trade. The desired meeting could not be arranged in time to draft a report for submission to the legislature at last session, but arrangements have been made to have a report prepared in time for the next session.

The committee on fisheries have been unable to find any information upon the Pacific coast, and have recommended that the Dominion government undertake the same as those made by the United States fisheries steamship Albatross. This recommendation has been endorsed by the council and the Ottawa authorities have been notified accordingly.

An address of welcome was presented to His Excellency the Governor-General on his return from the North, in which the attention was directed to some of the difficulties which Canadian trade with the Yukon and Atlin gold fields is carried on.

Mr. Robert Ward represented the board at the fourth congress of Chambers of Commerce of the Empire, and introduced a resolution urging the speedy settlement of the Alaska boundary question. His report will be laid before you.

Your railway committee has investigated the desired Coast-Kootenay railway, and learned from Dr. Milne that if the Vancouver, Victoria & Eastern Railway Company was revived, the company were prepared to commence immediate construction. The provincial government were notified accordingly.

Your committee have been asked to prepare a copy of the annual report of the local agents of the Pacific Coast Steamship Co. were asked if they could arrange for their Alaska excursions to reach Victoria during daylight, and give passengers an opportunity of seeing the city. They advised that no change can be made to the present arrangements.

Further representations have been forwarded to Ottawa pointing out the urgency for the establishment of a Dominion government assay office at Dawson, or at some point in this province. Further than a formal acknowledgment of the communication, the board is unaware that any action has been taken in the matter.

The council was informed that government smelters are operated in Australia and inquiries have been made; and when received, the committee will report as to whether or not similar smelters could be advantageously operated in this province.

Mr. D. R. Ker was appointed to represent this board at a convention for the organization of a Provincial Good Roads Association, and has been appointed one of the representatives of that association.

The difference in the bank clearing returns between this city and Vancouver has been reported upon by your finance committee, who state those returns cannot be rectified as an indication of the volume of business done at these points.

On the subject of tramway extension, Mr. Shallock said the company was considering the matter, and had given the committee a satisfactory answer. Although the matter had not been satisfactorily adjusted, the company had shown every disposition to meet the wishes of the board.

Mr. Bryden, on being requested to give his impressions of his northern trip, said the mail service was most unsatisfactory to Port Essington, most sometimes requiring three weeks to reach them. The passenger service, too, was unsatisfactory, and caused a great deal of dissatisfaction.

Mr. Shallock, speaking of the 'Alaska

Insane Passengers

Vessels Reach Honolulu, One From British Columbia, With Curious Tales.

Strange Story of a Madman on United States Transport Thomas.

Captain Morse and crew of the ship Fort George, which reached Honolulu with coal cargo from Oyster Harbor on the 27th of last month, report an exciting time during the latter part of their journey with a crazy negro, who tried to clean out the vessel and succeeded in injuring the captain so that he was laid up for several days. The crazy man is R. George, a native of the West Indies, 26 years old and a giant in stature. He is six feet four inches in height, and when he started a club to clean out the fore-castle it did not take him long to finish the job.

George's first signs of insanity were shown on the 17th, when he attacked the crew at the wheel in the morning, declaring that the man tried to shoot him. Then the negro went to his bunk in a pipe and announced that he was not going to do any more work this trip.

"I thought he might have been imposed upon by the whites," said Captain Morse, "and went forward to sympathize with him and see that he got fair treatment. He shouted that he would do no more work. 'I think you will,' I said, and I took the pipe away and with the help of several men we put him in jail, not using irons. He seemed to be all right, and I released him. In a short time he had the ship in a state of panic. He began throwing things over and he chased members of the crew with a razor, and naturally none of them wanted to tackle him. He is a man of tremendously powerful physique, and he would have thrown everything that was loose overhead if we left him alone, so I went for him. In the fight he gave me a blow that knocked me against the side of the ship, striking my breast over a spot where I had two ribs broken a few years ago, and the effect of the blow put me on the shelf for three or four days."

The crew were used on the negro this time and as he seemed to have very strong objections to going below, he was chained to the main hatch, and there he spent the last ten days of the journey. He was given his bed on deck.

Still another remarkable story is told in connection with the voyage of the U. S. transport Thomas, which arrived at Honolulu about the same time as the Fort George. The Hawaiian Star says: "Yesterday the Thomas carried a stowaway in irons, for in addition to being insane the man was suspected of being guilty of murder. His name is James Hughes, and he was turned over to the Hawaii police for an investigation of his career."

"The same night that the Thomas sailed Hughes was discovered aboard with another stowaway. Both men were put in irons, but Hughes was considered a more dangerous character, and he finally refused to perform the task assigned him. He was put in irons and given a dig of bread and water for two days. At the end of that time he was delirious, and it was deemed necessary to put him into the hospital under the surgeon's care. Hughes raved wildly and in his rambling gave the details of a murder which he claimed to have committed. According to his story he took man named O'Brien to Golden Gate Park, San Francisco, about two weeks before the Thomas sailed and stabbed him to death with a knife. Several other men were concerned in the crime, and one of them was captured. Hughes kept continuing crying that his pal had peached on him or was about to do so.

"These statements aroused the suspicions of the men on the transport, and when several recalled such a murder as Hughes described, it was decided to keep the man in irons and turn him over to the authorities in Honolulu in order that he could be held until Chief of Police Sullivan of San Francisco could be acquainted with the arrest."

"Hughes was interviewed at Honolulu, and disclaimed all knowledge of such a murder. He said that he had not been to Golden Gate Park within six months, and knew nothing of any murder there where anyone named O'Brien had met his end. Hughes said that he was in the moon business with Al Connors at the corner of Eighth and Folsom streets, San Francisco, and before that time had run a grocery store, corner of Natoma street and Harrison Court. High Sheriff Brown will hold the man if the command of the Thomas will surrender Hughes on an order as a stowaway. Hughes will, in this event, be held until word will have been received from San Francisco authorities. High Sheriff Brown says that he recalls no such crime as was alleged by Hughes."

ONE MORE UNFORTUNATE

Wanted the DIAMOND DYES, but was induced by her dealer to try another make.

A lady writing from a small town in New Brunswick to the proprietors of Diamond Dyes, writes: "Please find enclosed Express Money Order for six packets of Diamond Dyes, colors as mentioned below. I have been a user of Diamond Dyes for over five years, and they have given me entire satisfaction. A few weeks ago our merchant was out of a color I wanted in the Diamond Dyes and strongly recommended another make he was selling. I bought the packet with many doubts as to their worth. I made an effort to dye an old cream colored opera shawl with the new dye. The ghastly result almost drove me mad. There was not a semblance of any decided color. Now I am obliged to dye it black, and will do the work with the Diamond Dyes. No more poor muddy dyes for me while I can send to you for the reliable Diamond Dyes."

STOP THE PAIN BUT DESTROY THE STOMACH

STOP THE PAIN BUT DESTROY THE STOMACH—This is the only way to cure. So many nervous nostrums purporting to cure, in the end do the patient immensely more harm than good. Dr. Von Stan's Pepsin Tablets are a purely vegetable pepsin preparation, as harmless as milk—thoroughly acting prevents any disorder of the digestive organs. 40 in a box, 25 cents. Sold by Dean & Hancock and Hall & Co.—40.

TO MEET SIR HIBBERT.

Winnipeg, Oct. 12.—Brandon Conservatives have invited Mr. Sifton to meet Sir Hibbert Tupper on the platform at Brandon to-morrow night.

Mr. Sifton accepted by wire to-day, cancelling two engagements in Lisgar.

CGAR MAKERS' STRIKE

New York, Oct. 12.—Samuel Gompers, president of the American Federation of Labor, is in the city to endeavor to settle the cigar makers' strike, which has lasted now for more than four months.

PREPREFERENTIAL TARIFF.

Captain, Oct. 12.—The South African League to-day passed a resolution in favor of a preferential tariff on British manufactures, and adopted a resolution adverse to the Dutch language being abandoned, which was a suggestion by Mr. Cecil Rhodes.

Mrs. Chas. Smith, of Jimes, Ohio, writes: "I have used every remedy for my headache, but Carter's Little Liver Pills did me more good than all the rest."

"A NIGHT IN TOWN."

Plenty of Fun Promised at the Theatre on Monday Night.

"A Night in Town" is the title of the new play which Eddie Foy and his company of comedians will present at the Victoria theatre on Monday night.

The piece is a translation and adaptation of an Italian farce, which has already been produced in London with great success, under the title of "In Town." It was secured by Eddie Foy for this company, as it possesses a part in which the comedian is very happily placed, and affords an opportunity for the unlimited display of his many versatile talents. The reports here from the East indicate that at length Foy has secured a piece worthy of him, and it will be a source of congratulation to his many admirers in this city, as he has always been held in high esteem by theatre-goers here.

"A Night in Town" is a legitimate comedy, interspersed with musical numbers but relying essentially upon the humor of its lines and situations for its success. The comedy will be pure and wholesome, and fit for all classes of theatre-goers to go and see. One of the principal members of the company is Eva Tanguay, who, by the way, has been remarkably successful during the past two years in the East in originating new characters. She is a virtuous, soubrette, can sing, dance and act, and with all is beautiful to look at.

The remainder of the company, judging by the names in the cast, is an excellent one, and the performance should be up to expectations.

SAVED THEIR BOY

HE HAD BEEN WEAK AND AILING FROM INFANCY.

As He Grew Older His Trouble Seemed to Increase and His Parents Thought Him Doomed to an Invalid's Life—Dr. Williams' Pink Pills Cured Him When Hope Had Almost Departed.

From the Post, Toronto, Ont.

Mr. James Dabaud and wife are two of the best known residents of the town of Toronto, where they have passed many years. In their family they have a little son, who, although but ten years of age, has experienced much affliction, and on many occasions expended many a dollar in the search for his renewed health—all in vain; however, until Dr. Williams' Pink Pills were brought into use. A "Post" reporter hearing of the cure called at Mr. Dabaud's cosy home and received full particulars from Mrs. Dabaud. "I am pleased," said Mr. Dabaud, "to have the public made aware of the facts of my boy's case if it is likely to help some other sufferer. Charley is now ten years of age. In infancy he was a delicate child, but from four to seven he scarcely passed a well day. At four years of age he began to complain of frequent headaches, which later became almost continuous, and soon symptoms of general debility developed. His appetite was poor and he grew pale and emaciated, and the least exertion caused severe palpitation and fluttering of the heart and dizziness. At times there was considerable derangement of his stomach, looseness of the lips and a shortness of breath. He would often lie awake at night and rise in the morning listless and unrefreshed. During his illness he was treated by two doctors. Both differed in the diagnosis of his case. One said if his treatment was persisted in there was no improvement. The second also attended him for some time with no better results. Some time after my attention was attracted by my aunt to Dr. Williams' Pink Pills, and about September, 1897, I procured a box and began taking them. We had long before come to the conclusion he would be an invalid for life, but believing it a duty I owed to my child to procure all means of relief, I was determined to give Dr. Williams' Pink Pills a fair trial. The good effects of the first box were apparent, and five boxes were used, which were taken in about six months' time, when he was strong and well, and could attend school, and play and frolic as other healthy boys do. As every symptom of his old trouble has vanished, I consider his cure complete. The pills have certainly done him a world of good, as nearly three years ago since passed away and he has not seen a sick day in that length of time. I shall ever feel that we owe our boy's health to Dr. Williams' Pink Pills, and believe that their prompt use would relieve much suffering."

Dr. Williams' Pink Pills are just as valuable in the case of children as with adults, and many little ones would soon thrive and grow fat under this treatment, which has no equal for building up the blood and giving renewed strength to brain, body and nerves. Sold by all dealers or sent post paid at 5c a box or six boxes for \$2.50, by addressing the Dr. Williams' Medicine Co., Brockville, Ont. Do not be persuaded to try something else said to be "just as good."

For One Month Only.

Waltham Watch Co., highest grade P. S. Bartlett, 27 ruby jewels, gold settings, nickel movement, patent regulator, double sunk dial, adjusted to all climates, price reduced for one month, \$12.50; same in gold movement, \$16.00. Three month trial allowed, if not satisfactory cash returned. Watches \$25.00 (warranted) stock, stemwind and set.

—The meeting of the executive of the
Local Council of Women will be held on
Monday at 2.30 at the city hall, when
important business will be discussed, and
arrangements made for the annual meet-
ing in December. Any resolution from
affiliated societies must be handed in to
the secretary before Monday's meeting.
Regular daily Excursions to Seattle
by steamer "Utopia." Fare, \$1.00
round trip. Good for a whole month.
The second class cruiser Amphion,
which was such a favorite while on her
previous commission on this station, will,
in the course of a few months, again be
up at her berth in Esquimalt harbor. She
was commissioned for this station to
relieve the Leander, two weeks ago, at
Devonport. Capt. Finnis will not re-
turn on her, having been posted to a
first-class battleship in the Mediterran-
ean by Capt. J. Casement, who
hoisted his flag on her on the occasion
of her official designation for this place.
The cruiser has been thoroughly over-
hauled since her return home, the sum of
£27,500 having been spent in her refit.
The sale on Monday will include
some elegant furniture. Cuthbert sale-
rooms.
—Captain A. L. Hall, of the steamer
Walla Walla, was presented with a
handsome cup in Seattle the other day
by the passengers, who were with him
in quarantine at William Head a month
or so ago. The gift was presented by
Mrs. Miller, wife of Dr. Miller, of that
city, assisted by Miss L. Maud Parker,
Miss V. M. Baldwin and others. The
cup, which now ornaments the cabin of
one side of the steamer, bears on
one side the inscription: "Capt. A. L.
Hall, B. C., September 6th to 20th,
1900," and on the other bears the words:
"Walla Walla Walla, hear us holla. Sus-
pect, smallpox, Walla Walla Walla."
—Only 50 cents to Port Townsend or
Seattle, \$1.00 for return ticket on fast
steamer Rosalie.

WRECK-BAY GOLD WASHING.
From One Hundred to Five Hundred Dollars a
Day Being Cleaned at New Diggings.

Fog during the entire voyage was met
with on the West Coast by the steamer
Winnapa, Capt. Townsend, which arriv-
ing from Ahousett and way points at 7
o'clock this morning. So gloomy was the
weather that the steamer did not ven-
ture into Wreck Bay where the big plac-
er mines were remaining full blast, but re-
ports from the district, received at Al-
berni, bear out the most sanguine expec-
tations as to the heavy yield when the
new gold washing plant had been set in
operation.
The news, obtained at Alberni, was in
effect that from \$100 to \$500 a day was
being cleaned up. The Winnapa called
at the Monitor mines on the Alberni
caul and handed the cable on which the
aerial train is to be run 1,400 feet up
the mountain side from the water front
to where the mine is situated. The
frame work for this cable has been con-
structed; the large ore buckets are on
hand, and in a very short time the
Monitor will be in a position to be mak-
ing regular shipments to Victoria.
The steamer sighted no sealers on her
trip. She had as passengers on her re-
turn Mr. and Mrs. Jones from Alberni;
O. Wrybunt, from San Juan; A. D.
Dadds, a representative of the Royal
Soap Works; W. Hutchins, of S. B.
Greening & Co., tea merchants, of Ham-
ilton; H. Windle and G. Hamer, from
Wreck Bay; W. Fraser and W. Puschins.

259 DOUGLAS ST.

THE PASSING THROUGH.
Arrivals of the Day at City Hotels—Guests
of the Cooriders.

D. W. Gardiner, Douglas Caples and
S. E. Irwin, a party of miners who have
been examining the country surrounding
Clayoquot Sound, preparatory to staking
claims, arrived in the city from the West
Coast last evening. Mr. Gardiner has
already resided on the coast for two
years, and has some very rich
claims near Elk river. In an interview
Mr. Caples said there were quite a num-
ber of prospectors in the country, and
that the present condition of things on
the coast was very bright. Mr. Caples
has done a great deal of mining in the
Cascade mountains. On account of the
few who have prospected in that country
people believe it to be destitute of gold,
but he says, while he was there, he
made some very rich strikes, which he
expects will turn out well. He says
that the surface showing is sometimes
not very good, but on sinking the quartz
invariably improves. Mr. Caples also
has an interest in some mines in Wash-
ington, about 35 miles from Vancouver
on the Columbia. These mines are
largely owned by a mining company of
Portland, but so far no shipments have
been made. The company are now em-
ployed getting the machinery in place,
and work will be commenced as soon as
possible. The ledge is well defined, and
he thinks the property will turn out rich.
Mr. Caples is staying at the Queen's at
present, but will leave for Vancouver,
Wash., as soon as he has completed his
business in this city.

Peter McLagan, Peter Davidson and
George Baker, all well known Victorians,
have arrived home from the Klondike,
the former with a big amount of gold.
They reached Seattle on the steamer City
of Seattle yesterday and came on to this
city on the Victorian to-day. Mr. Mc-
Lagan has for some time been foreman
of the C. J. Johnson Company, which
owns claims on Hunker creek. He re-
ports that when he left the North nearly
all the claims were closing down and
preparing for the winter. The company
employed, which he was working were instig-
ating more machinery, and would be ready
to begin work in the early spring. Mr.
McLagan brought down a considerable
amount of gold dust, and has some very
handsome nuggets from Hunker creek.
The City of Seattle, on her last trip, he
says, brought down the largest shipment
of gold dust this year, nearly all be-
longing to miners who have come South
in order to escape the extreme rigors of
the far northern climate. Peter David-
son, with whom he travelled, was a form-
er employee of the Truck & Dray Com-
pany, while George Baker was not many
years ago the driver of an ice wagon in
this city. Mr. McLagan will spend the
greater part of the winter in this city,
and in the spring will return North.

Among the commercial men registered
at the Driad are R. A. Nesbit, J. R.
Bastedo and George Strachan, of Toron-
to; J. R. Morris and Donald Reid, of
Montreal, and Thos. Glass, of Glasgow.
Miss Gifford, Miss Smith, Miss Hall,
Mrs. Aldrich and Mr. Babcock, all of
Seattle, are spending some time in this
city. They are registered at the Demin-
ion.
H. Warner, secretary-treasurer of the
Quaisno Mining & Reduction Company,
returned yesterday with his bride from
Spokane.
Mrs. Bell, the well known Seattle ar-

Kilmarnock Scotch Whisky
This very fine quality of Scotch Whisky is fast
growing in favor in British Columbia. It has for
many years been the leading whisky all over Europe,
and is to be obtained in all the leading hotels, clubs
and refreshment places in London and other large
cities of Great Britain. It is termed the "Johnnie
Walker", which means Walker's famous "Kilmar-
nock".
The people of British Columbia demand a good
Scotch Whisky, which we take pleasure in present-
ing, and if you will try the "Kilmarnock", you will
accept no other. The proprietors of this whisky,
Messrs. John Walker & Sons, of Kilmarnock, do
not spend money in fancy advertising matter, and
attractive labels, bottles, etc., preferring to put the
value into the whisky, thus giving the consumer the
benefit.
The "Kilmarnock" is always the same in quality.
It is to be found in all the clubs, hotels and refresh-
ment places in British Columbia. Take no substi-
tute. If your grocer does not keep it, come to us,
and we will take pleasure in directing you to places
where it can be obtained, if desired, in small quanti-
ties. We have it in case and in wood.

A GREAT SUCCESS.

Beech Benefit Nets a Handsome Sum for the Returned Soldier.

The Beech, for whom a most successful benefit concert was given a few evenings ago, has addressed the following self-explanatory letter to the press:

Sir—I beg through the columns of your valuable journal to return my most sincere thanks to the ladies and gentlemen who very kindly gave their assistance at the benefit concert tendered to me on last Thursday evening. Also to the managers of the Times, the Colonist, and the Philharmonic hall for their generous reductions made on bills of expenses. To the Mayor, Col. Prior, Lt.-Col. Gregory, officers of the Fifth Regiment and general public for their liberal patronage. I wish also to express my gratitude to Mr. E. Bechon and Mr. C. A. Lombard, who so well managed the musical as well as the business parts of the concert, and were the means of its so successful result, viz., \$140, having been turned over to me as the net proceeds of the concert, a statement of which I herewith enclose. I remain, sir,

Yours truly, A. C. BEECH, Late with the Victoria Contingent.

THE STATEMENT.

Dear Mr. Beech—Herewith I have pleasure in enclosing the statement of \$140 being net proceeds of the benefit concert tendered you at Philharmonic hall on Thursday, October 11th, also statement as follows:

Table with columns: Receipts, Expenditure, Total. Receipts: To gross returns from concert \$169.50. Expenditure: Colonist \$11.00, Times \$0.00, Rent of hall \$5.00, Rent of chairs \$7.50, Cartage of piano \$2.00, Use of Karp piano Free, Cash, Mr. Beech \$140.00. Total \$169.50.

Respectfully yours, C. A. LOMBARD.

ITCHING PILES.

Mr. O. P. St. John, Dominion Inspector of Steamboats, 246 Shaw street, Toronto, writes: "I suffered for nine years with itching piles. After trying many remedies in vain, I began to use Dr. Chase's Ointment and it has entirely cured me."

HOW DOLLS ARE MADE.

It is a Complicated Process and Many Hands Are Engaged.

The American consul at Coburg, in a recent report, states that while the toy trade of Thuringia may be traced back to the Middle Ages, the doll trade is much more recent; the first doll having been manufactured there about 40 or 50 years ago. The process of making dolls is described as complicated. The commonest kind now in the market is that known as the wax doll, the trunk being of cheap shirting stuffed with sawdust, while the legs, arms, and head are usually of paper-mache, the last having a thin wax covering.

The glass eyes are blown out of tubes held over a strong gas flame; they are joined by wire, and if they are to open and shut a lead weight is attached to the wire. The dressing of dolls is also an extensive industry; manufacturers employing as many as 200 or 300 hands, mostly girls. Uniforms have become common for dolls in recent years, and representations of well known characters, those dressed in khaki being just now made for the English market. Thuringian dolls are mostly cheap, and a long list of sizes and prices given by the consul shows five different classes of dolls—wax, or mat, wax model, jointed, doll-body, and dressed and 27 different kinds of the hair is an art in itself. The largest is a 31-in. (80 centimeter) wax or mat doll, which sells at about \$4 a dozen, the 94 in. doll in the same class selling at 10c. per dozen. The most expensive in the list—which includes only the most marketable dolls of medium quality—is the 19 in. dressed doll, which sells for about \$11 per dozen.

ABSOLUTE SECURITY.

Genuine Carter's Little Liver Pills. Must Bear Signature of Dr. J. C. Carter. See Fac-Simile Wrapper Below.

Very small and so easy to take as sugar. FOR HEADACHE, FOR DIZZINESS, FOR BILIOUSNESS, FOR TORPID LIVER, FOR CONSTIPATION, FOR SALLOW SKIN, FOR THE COMPLEXION.

CURE SICK HEADACHE.

In the Morning! Is the morning, as it should be, the brightest portion of your day? YES? Then your liver is naturally active... NO? If you cannot answer the question in the affirmative, the remedy is at hand. A teaspoonful of ...Abbey's Effervescent Salt in a half-tumbler of water taken before breakfast, will stimulate the liver and digestive organs and brightens the whole system.

THE EVENING PAPER. MAKE certain that the medium through which you propose to place your announcement before the public is the right medium in the right place. A newspaper like The Victoria Daily Times. The acknowledged home paper of the City of Victoria, circulates among the people to whom your advertisement will appeal. RATES FURNISHED ON APPLICATION.

JOHN COCHRANE, CHEMIST.
N. W. COR. YATES AND DOUGLAS STS.

"BLACK FLAGS" ARE OUT.

(Continued from page 1.)

The day is gathered and discussed. The Germans claim that they have the greatest right to dictate the terms of peace, on account of the murder of Baron von Kettler, but the other ministers claim that their having been besieged, bombarded and in peril of their lives for weeks, constitutes just as much of an affront to their respective nations as though they had been killed.

Report Discredited.

New York, Oct. 13.—A Herald dispatch from Berlin says the German government is very well satisfied with the excellent relations between the German and Russian forces in China. On the other hand, the English reports of a rebellion in South China are discredited at Berlin as merely for the object of provoking English occupation.

Some Horrible Sights.

Tung Chow, Aug. 30.—It is 80 miles by river from Tsingtau to this place, and now, two weeks after the allied forces marched there, the signs of war and devastation are more apparent than they were at first. Posts have been stationed at intervals of a few miles, and the troops have completed the work of desolation and ruin. The villages that were only partially burned are now utterly destroyed, as they were found to be hiding places for snipers, who attacked single travellers and occasional small parties.

The English and American troops are supplied with chickens and eggs by the Chinese, who sell the former at a dollar a dozen and eggs for one dollar a hundred.

The Chinese avoid Russian camps as the Russians are even now killing them in a most brutal and cold-blooded manner, irrespective of age or sex. There is hardly a man in the Chinese relief expedition who has not a story to tell of Russian barbarities of which he had been an eye witness. Some of the stories are so execrably revolting that it is difficult to believe them. At this place, which is the river port for Pekin, two coolies who had been towing a Russian boat lay down to rest at the completion of their task. They were seized by four Russian soldiers, thrown into the water, and while swimming were used as targets and shot to death. Coolies well, but do not pay them. The English and Americans pay their laborers 30 cents a day (Mexican), and furnish rations of rice; vegetables being obtainable free all along the river banks. No complaints have been heard of the German's treatment of their coolies, but the French beat theirs unmercifully and kick them on the slightest provocation.

China is to-day paying dearly for her sins and her folly. Dogs and hogs along the river bank are living off human flesh. Bodies are not buried, and these animals are the only scavengers.

—Drill Hall Saturday night.

UNIQUE INDUSTRY

Instituted in Chinatown, Where Dead Hogs Are Roasted to a Nicety.

The fire in the Chinese shacks on the corner of Government and Discovery streets a few days ago disclosed the interesting fact that an industry has been flourishing within the precincts of this city with which very few of the citizens are probably conversant. This is none other than a hog-roasting industry, and there is every reason to believe that it is quite remunerative. This conveys an adequate idea of the originality of the Chinese in mercantile pursuits and substantiates the assertion volunteered in some quarters that the Chinaman is a pushing and distinctly up-to-date individual.

The lucrative industry of hog-roasting has been for some time past promoted in the shacks in the locality above mentioned belonging to On Hing. The facilities with which the process is effected are quite simple but effective. In each of the structures a circular vat has been constructed of brick, eight feet in height and four feet in diameter. A short distance from the top an iron bar is placed on which the hog hangs while being roasted. Underneath the vat the officiating Celestial constructs a large fire and allows it to burn for several hours until the cavity becomes sufficiently torrid to allow of the installation of the animal.

When everything is ready the quadruped is treated and hung on the iron bar inside the vat and the process of roasting commences severely. Several curious visitors are authority for the statement that a more effective process could not be found in the most modern culinary establishment in the land, and that the fastidious taste of the epicure would certainly be gratified by a morsel. The promoters retail the roasted animal either in its entirety or in installments to the various Chinese butcher marts in Chinatown, and as pig is quite a common article of food there the business must be profitable. There can be little to lose at any rate. Then, again, special ceremonies such as marriages or celebrations commemorative of national events must be attended to in Chinatown, and this explains the fact that the promoters of the institution are not often idle.

But in connection with this industry there is an aspect of danger, and Chief

HAPPENINGS OF A DAY ALONG THE WATERFRONT

VICTORIA TIDES

By F. Napier Dunlop.

The zero of the accompanying scale corresponds to the average lowest yearly tide, and 18.6 feet above the all of the Equinoctial dry dock.

Time	Height above zero.	Time	Height above zero.
0:40 a.m.	2.1 feet.	1:40 a.m.	2.8 feet.
9:40 a.m.	7.3 feet.	10:40 a.m.	7.2 feet.
1:30 p.m.	13.3 feet.	2:30 p.m.	7.0 feet.
8:30 p.m.	8.7 feet.	7:30 p.m.	7.9 feet.

The sealers Walter L. Rich and Venture have returned from Behring Sea. Both are lying in the bay to-day. They arrived last evening, the Rich in tow of the tug Lorne, which picked her up in the straits. Captain Jacobsen and crew of the wrecked schooner Minnie were on board, and between both crews the vessel obtained a total catch of 520 skins. As follows: September 1st, E. B. Martin 220. An account of the loss of the schooner Minnie has already been told having been supplied by three of the shipwrecked crew who arrived here some months ago. As described by Captain Jacobsen in the Minnie's log, the disaster happened as follows: July 28.—Have anchor and made sail for Behring Sea, 7 p.m.: Blowing fresh from the westerly; double-reefed mainsail and fished jib; foggy. 11 p.m.: Vessel struck on Ugnak Island; lowered the boats and canoes and stood by the vessel until daylight; then found that she was on the rocks and gave evidence against the corporation, as they knew it meant dismissal from the company's employ.

For the Crown, Mr. Robertson contended that it was absurd to expect the same conditions on a line like the E. & N. and the Southern Pacific. Duggan was responsible for certain actions, and there could be no excuse for his neglect. The charge of the judge was strongly against the prisoner, whom he contended had not excessive duties excepting at the time trains were arriving and departing. Accidents happened on the best managed railroads, and it is reasonable to suppose that the railway company would exercise care in these matters, if only for the safety of its own stock.

The remainder of the charge was in similar terms, the court holding that the prisoner was not the scapegoat as had been alleged, for a powerful corporation, however, are simply because of the fact that by neglecting his duty he had occasioned a terrible accident.

The jury retired at 2 o'clock, and at 5:12 returned with a verdict of "guilty," with a strong recommendation to mercy.

Mr. Justice Drake sentenced the prisoner to the following words: "You have had a fair trial, which has extended over a large field, and nothing has been left undone to make your position clear. Everyone, of course, has the greatest sympathy with you and the unfortunate persons who lost relatives through that collision, but that accident was solely due to neglect on your part, of duties which you had done for twelve months or more. Of course, reasons have been given as to why you failed on this occasion to perform those duties; that you had many duties to perform, but you should have allowed anything or anyone to interfere with any special work you might have had to do, such as telegraphing the coming and going of trains. It is only necessary to point out that you were there as station master, and it was your duty to manage matters there so that your work would not be interfered with. If people came about interfering with you at such times you had control of the work there and you could have told them to wait until you had attended to your important work. But this unfortunate accident occurred through your neglect of these precautions and duties. I intend to give the fullest weight the recommendation to mercy, and I think that justice will be secured by sentencing you to nine months' imprisonment."

British ship Ardnamurchan will be launched from the Esquimalt marine ways to-day, and to-morrow or next day the tug Lorne will tow her to the Fraser. The Lorne is now engaged towing the dismantled bark Colorado to Union from Tacoma. The ship J. B. Brown will follow the Ardnamurchan on the ways to-morrow.

H. M. S. Impregious, recently flagship on this station, has lately undergone a sea voyage from Devonport to test her new gun mountings. Her six-inch breechloaders have been replaced by ten cost of refitting her for a four years' commission was \$30,000.

It is stated by a Vancouver paper that the C. P. R. Co. have prepared plans for one of the finest steamers in British Columbia to run on the route between the Nelson & Kootenay Landing in connection with the Crow's Nest Pass railway.

Steamship Tacoma will leave here for the Orient on Tuesday. The next steamer of the N. P. fleet inward bound will be the Glenogee, which is due here on the 19th inst.

The new C. P. N. steamer built on the Esquimalt marine ways in the upper harbor will be launched next week.

British bark Atifags has arrived at Ladysmith from Kahlulu, H. I., to load a return cargo of coal.

Steamer Cottage City left for the

North early this afternoon. She received as passengers at Victoria John Richards and C. H. Beadwell.

Lake Champlain was sighted off Cape Madeline at 7 a.m. yesterday.

Steamer Aorangi left Brisbane for Victoria on the 12th inst.

R. M. S. Empress of Japan is due to arrive on Tuesday.

NOTES FROM OTTAWA

(Special to the Times.)

Ottawa, Oct. 13.—Application will be made next session for an act to incorporate the Century Life Insurance Co. for the purpose of doing a general life insurance business. Tappin, Peters and Gilmore are making the application.

The following appointments will be gazetted to-day: Joseph Emery Robidoux, of Montreal, to be judge of the Supreme court of the province of Quebec; Geo. F. Gregory, St. John, N. B., to be a justice judge of the Supreme court of the province of New Brunswick.

MARRIAGE IN VANCOUVER

(Special to the Times.)

Vancouver, Oct. 13.—P. F. Burns, of the firm of Burns, Boyd & Co., and Miss Mae Cassidy, daughter of Geo. Cassidy, were married in St. Andrew's church. They left for a honeymoon in Victoria and California.

LACROSSE.
NO GAME TO-DAY.
No match is being played at the Caledonia grounds this afternoon, as neither the Vancouver nor New Westminster intermediate teams were down. Even if they had, the present unfavorable weather would have prevented anything but a falling competition.

FENCING.
MEETING POSTPONED.
New York, Oct. 12.—The meeting of the N. Y. Y. C. to be called for Tuesday, has been postponed until Wednesday, October 17th, when Sir Thos. Lipton's challenge will be read.

New York, Oct. 13.—The contents of Sir Thos. Lipton's challenge for the American Cup will not be made public until Wednesday night's meeting of the New York yacht club, when the challenge will be presented, acted upon, and its contents given out for publication. There is no doubt of its acceptability by the club.

HOCKEY.
PRACTICE CALLED OFF.
Owing to the pupils of the High school being their field sports at the Oak Bay park this afternoon, the hockey practice set for that time was called off.

HIGH SCHOOL CLUB.
But it is not only to the energy of the juvenile element in the schools that athletic activity is due. The hockey team recently organized by the young ladies of the Victoria High school is frequently to be seen in the field preparing for coming contests. The upper portion of the Central school grounds are not favorable to a more than ordinary exposition of the game, even by expert players, but this does not militate one iota against the active participation of the club with some of the young ladies with the elusive spirit toward their opponents' goal.

FOOTBALL.
GETTING READY FOR THE FRAY.
Every day after school hours, weather permitting, the playgrounds of the Central school afford a scene of moderate amusement. Several departments of pastime are represented here by energetic, healthy juveniles, in whom the desire for athletic supremacy is stronger probably than in the older generation. Naturally, football is the prominent sport, and almost every class has its representative team. Unfortunately the irregular character of the grounds preclude the possibility of expert play, or the demonstration of youthful athleticism; but an obstacle such as this is a mere bugaboo when the Victoria school boys, and even the prominent rock in the upper portion of the ground, or the other rocky obstruction in the centre of the field, in juvenile parlance "cents no loss." To the Victoria Rugby football club great credit is due for the present interest manifested by the lads in this game, for each school to sustain traditions, and will endeavor to have its position in the football field. Besides, the circles at stake, and loyalty will spur the boys on. Invariably Association football has been the game largely taken up by the school boys, but the generous offer of a trophy by the Victoria Rugby football club has resulted in the organization of a Rugby club in most of the educational institutions here. That the Victoria High school will enter the contest is indicated by the following letter received by H. D. Holmbeck, of the Victoria Rugby football club:

50 Fernwood road, Victoria, B. C., Oct. 12th, 1900.

Dear Sir:—I beg to inform you that the Victoria High school desires to enter a Rugby football team in the league to compete with the other teams for the cup presented by the Victoria Rugby football club.

Yours truly,
WILLIAM A. BLACKBURN,
Secretary.

Healthy Hair

A man with a thin head of hair is a marked man.

But the big bald spot is not the kind of a mark most men like.

Too many men in their twenties are bald. This is absurd and all unnecessary. Healthy hair shows a man's strength. To build up the hair from the roots, to prevent and to cure baldness, use—

AYER'S Hair Vigor

It always restores color to faded or gray hair. Notice the establishment in the land, and that the fastidious taste of the epicure would certainly be gratified by a morsel. The promoters retail the roasted animal either in its entirety or in installments to the various Chinese butcher marts in Chinatown, and as pig is quite a common article of food there the business must be profitable. There can be little to lose at any rate. Then, again, special ceremonies such as marriages or celebrations commemorative of national events must be attended to in Chinatown, and this explains the fact that the promoters of the institution are not often idle.
