"My plan is to have two collections—one for general taxes, the other for school taxes. I would allow other for school taxes. I would allow the School Board to prepare its annual estimates and fix its own tax rate—a rate sufficient to cover its estimated expenditure. Then the school taxes would be collected in April: If, as has been the case in the past, only about seventy-five per cent of the taxes were collected, the School Board would have to suffer its share of the shortage. In the past the Council has been unable to collect all its taxes but it has had to pay all the School Board has asked for

for the only danger I see in this system is that the School Board, anticipating a shortage in tax collections, might pad its estimates to cover this shortage. But I do not think that the Trustees would adopt such a course for they, like the aldermen, realize the serious financial problem of the City and, besides, any such action would arouse a storm of public protest. As a matter of fact, I would not hesitate to stir up public sentiment against any such move if it were attempted."

It has become known to the aldermen that they must do something, and do it pretty quickly, if the city is to carry on until it can collect its annual taxes. As announced in these columns last week, one plan is it move the annual tax collection date forward from November to September. In this way two months would be cut from the time during which the Corporation would have to exist or its bank borrowings. Mayor Marchant's proposal is that the tax date be moved forward one month each year until, a few years hence, taxes will-be collected early in the year.

Another plan is to allow rate-payers to pay their taxes at any time before the collection date and give them six per cent. per year on their money. In announcing the decision of the court on the point of the lesser claims of lien holders Chief Justice Macdonald stated that where a special statute, such as the Mechanics' Lien Act, conflicted with the terms of a general statute, like the County Court Act, the special Act would prevail. Under section thirty-five of the Mechanics' Lien Act appeals in certain cases are prohibited, and the court had no discretion in that event, as far as the claims against the lesser lien holders were concerned. The action will continue this afternoon, with argument submitted on the remainder of the motion of appeal.

The Prince was twice Prime Minister of Japan, in 1889 and again in 1898. At other times he was Chief of the General Staff and Inspector-General of the Army, Minister of Home Affairs, Minister of Justice and President of the Privy Council. Attitude Toward U. S.

Attitude Toward U. S.

Prince Yamagata maintained an attitude of friendship toward the United States.

In a letter written to Poultrey Bigelow in 1921, he appealed to American leaders in thought and affairs for hearty co-operation with "the leading men on this side of the Pacific (the Far East) for the restoration of the traditional friendship between the two nations."

Concerning Japan's actions in Siberia and Shantung, he asserted that these might have given occasion in misinterpretation, but that the time was near at hand when "such misunderstanding will be swept away, when the world will appreciate that Japan never entertained sinister ambitions in these quarters." The Prince characterized the misunderstandings between the United States and Japan "as only passing symptoms, certain to disappear before reason and sanity."

Crime in Vancouver

Vancouver, Feb. 1.—Although the country for miles in every direction is being searched by police officers, no trace of Edward C. Clegg, alleged to have shot his wife to death in their home in North Burnaby early last night and to have seriously wounded his young son and an aged uncle of his wife's, had been found late this morning. The man-hunt was maintained during the night and is being continued to-day.

It is now believed that Henry Morgan, seventy-eight, shot through the lung by Clegg, and the five-year-old Clegg boy, shot in the head, will recover.

From Toronto.

The Clegg family came here from Toronto eight months ago. Some trouble developed between husband and wife over the disposal of money realized from the sale of the Toronto home, owned by Mrs. Clegg, which Clegg induced her to sell. In September, she made formal complaint to the authorities that her husband had abused her, and the magistrate bound him over for twelve months to keep the peace. Clegg went away with the boy, but his wife succeeded in getting the custody of the child in October. Soon after this Clegg went to Seattle, and did not return to Vancouver until a few days ago.

NEW TREATY IS

Washington, Feb. 1.—The draft of the treaty for limitation of naval armaments submitted to-day to the plenary sessions of the Washington International Conference contains only the following preamble in ex-planation of the purposes of the five contracting Governments in reach-ing the agreements set forth:

ing the agreements set forth:

"Desiring to contribute to the maintenance of the general peace and to reduce the burdens of the competition in armament;

"And having resolved, with a view to accomplishing these purposes, to conclude a treaty to limit their respective naval armament (the Powers) to that end have appointed as their plenipotentiaries. (Here follows the lames of the delegates of the Powers.)

the Powers.)

The treaty is divided into three chapters. Chapter One contains the general language of the agreements, covered in twenty separate articles.

Chapter Two contains the detailed, specific agreements on naval matters, many of them in complicated tabular form, which amplify and complete the meaning of the general agreements of Chapter One.

General Provisions.

Chapter One is headed: "General provisions relating to the limitation of naval armament."

Article One thereunder is merely the agreement to limit naval armament as provided in the treaty.

heartburn, bloating and sourness. To have a strong healthy stomach capable of easily and normally digesting three hearty meals a day you simply must keep these stomach acids neutralized and the stomach contents sweet. No artificial digestants are necessary. Just get a few ounces of Bisurated Magnesia from any good drug store and take a teaspoonful of the powder or two tablets in a half glass of water right after eating or whenever the slightest pain is felt. The result is amazing and you will he delighted with the almost instant relief it brings. This famous stomach sweetener combines Magnesia and Bismuth in desirable proportions and is not only splendidly effective but perfectly harmless. Its regular use keeps the stomach sweet, strong and healthy all the time.

Bisurated Magnesia is well known to fruggists everywhere and is used annually by more than a half million people who now eat as they please, in reason with no more fear of indigestion.

Asserting that there was sistency in the attitude of the Amalgamated Veterans' Association in taking a stand against reduction o work and at the same time announing themselves as prepared to take over positions of Civic employees who might be unwilling to accept a reduction in pay at the hands of the City Council, and also objecting to the alleged influence brought to bear on some of the large building managers in the City to get elevator operators discharged to make room for members of the Amalgamated Veterans, the local branch of the G.W.V. Women, led by a few men, attempted to create some excitement at the Parliament Buildings to-day, when they swarmed into the Premier's offices.

The Premier took two men and four women into his private office to let them tell him the trouble.

They demanded that the Premier call the Legislature together, and vote a relief fund of \$500,000.

Their leader, W. R. Moulton, began urging extreme measures, it is said. The Premier stood for this a few minutes, but when he saw the man was out apparently to create trouble the Premier opened the door himself, and put Moulton out of his office. He then went back, and continued his talk with the other five.

"Mr. Moulton came in here and got so offensive that I had to insist on him leaving," said the Premier afterwards in a statement. "I refused to go on with the interview as long as he was present."

"Their demands were that we should find work for all the unemployed. I haven't a bit of doubt that

any of these people are suffering many or acutely.

Hon. Charles Stewart May Sit For Nanaimo Riding In Commons

Vancouver Island may still have a minister in the Dominion cabinet. To-day chances for having an Island minister began to brighten when it was learned that negotiations have again been started here as a result of telegraphic instructions.

It is planned to find a seat here for the Hon. Charles Stewart, Minister of Interior, who was to have found a seat in the Prairies, but has not yet succeeded in doing so.

There are two of the three Island seats at present held by Meighen supporters, Dr. Tolmie, in Victoria, and C. H. Dickie, in

Nanaimo.

It is understood that the proposal of giving up his seat in order that this constituency might have a cabinet minister in the new Government has been suggested to Dr. Tolmie, but he has declined.

There is now the possibility that Mr. Dickie may retire from Nanaimo to allow that riding to have a cabinet minister and thus be represented in the party in power.

Persons have already gone into the Cowichan district to "feel out" Mr. Dickie and his supporters in his home district. They have returned to Victoria very much encouraged with the reception their proposals have had.

Mr. Dickie's constituency includes Esquimalt, and his supporters say that the continuation of the construction of the Esquimalt drydock will be assured if the present member should retire for the advancement of his riding, and allow a cabinet minister to come in.

Meeting in Colwood Hall Asks **Government Action**

(By Times Correspondent.) Metchosin—Better roads were discussed at a meeting in the Colwood Hall. C. E. Whitney-Griffiths, acting as chairman, opened the proceedings in his usual business-like and concise manner. Well informed on many subjects, he answered a number of questions.

One point introduced by a man

One point introduced by a man present was: "Why does the Government hap! gravel by motor truck from the city, wasting time and in the district?"

A resolution presented.

A resolution presented and passe by the very fair representative mee-ing was as follows:

ing was as follows:

"Whereas, the present coast road extending from the Colwood-Sooke junction and passing through the districts or tapping Albert Head-Metchosin, William Head, Government Quarantine Station, Rocky Point, Beecher Bay and East Sooke, and also the Happy Valley and Luxton Districts, are in a very serious condition:

"And whereas, these roads are the only available means for communication with the City of Victoria, and have been allowed for some years gradually to lapse into a very bad condition;

"And whereas the taxpayers of "And whereas, the taxpayers

"And whereas, the taxpayers of these districts quite appreciate the very serious responsibilities resting upon the Government at the present time, yet must point out the absolute necessity of embarking upon a permanent system of road improvement, as the continuation of this present state of affairs is adding very seriously to the already badly handicapped settlers in these districts;

"Therefore, be it resolved that this meeting urge the early consideration, and commencement of such improvements in keeping with the importance of these roads, recommending above all things the proper ditching of all roads to drain off the water, which is almost wholly responsible every Winter for the serious break-up of these roads, it being the opinion of the meeting that until such time as a hard surface can be built, such as is existing in the Saanich District, the most economical plan is properly to drain, culvert and then put on patrol men to keep holes filled and culverts open."

Home-made Remedy Stops Coughs Quickly

You might be surprised to know that the best thing you can use for a severe cough, is a remedy which is easily prepared at home in just a few moments. It's cheap, but for prompt results it bests anything else you ever tried. Usually stops the ordinary cough or chest cold in 24 hours. Tastes pleasant, too-children like it—and it is pure and good. Pour 2½ ounces of Pinex in a 16-oz. bottle: then fill it up with plain granulated sugar syrup. Or use clarified molasses, honey, or corn ayrup, instead of sugar syrup, if desired. Thus you make 16 ounces—a family supply—but costing no more than a small bottle of ready-made cough syrup.

BRITISH CATTLE

Order Issued Because of Disease in Britain

Ottawa, Feb. 1.—Owing to a serious outbreak of foot and mouth disease in various parts of Great Birlain, an order has been issued by the Department of Agriculture, effective at once, prohibiting importation of all cattle and swine from any part of Great Britain and Ireland. tion of all cattle and swine from any part of Great Britain and Ireland.

This will mean the cancellation of several importation permits which had previously been issued allowing the entry of pedigreed stock from Scotland into Canada, as, the disease having been discovered in Scotland, the embargo is also against shipments from that country.

London, Feb. 1.—Pope Benedict's executive did all it could to bring an end to the recent war, and he remained strictly neutral himself, declared Cardinal Logue, Primate of Ireland, to the Rome correspondent-of The London Times.

The cardinal explained the necessity of economy by pointing out that the late Pope "gave away every penny he could find."

Calling attention to the Pontiff's neutral efforts to terminate the war he added: "When he found he could not end it, he devoted all his energies and moneys to relieve the sufferings it caused. Surely never was there a

He predicted money invested in that manner would "earn big divi-dends and benefit the whole world."

When "Chu Chin Chow" ended its historic run of 2,238 performances in London, one of the spectators who was at the last performance was bame Clara Butt, the famous contralto, who appears in Victoria on Thursday, February 9, at the Royal Victoria Theatre. After the curtain fell, Oscar Asche, the author, turned to Dame Butt, who was in one of the stage boxes, to confer on the great audience the favor of singing the national anthem, as she had done when the theatre was opened in 1897.

"With what superb effect the famous singer responded to the requested. And so ended a night historic in the long annals of the London stage."

From the standpoint of audience interest, as well as with regard to an artistic character portrayal, Katherine MacDonald's latest feature.

"Stranger Than Fiction," now at the Royal Victoria Theatre, is among the best pictures in which the screen's most beautiful woman has appeared.

For the reason that "Stranger Than Fiction" gives Miss MacDonald an opportunity to appear in surroundings vastly different from the usual walls of splendor, this production is a distinct departure.

As Diane Drexel, daughter of a New York society family, Miss MacDonald portrays the role of a girl bored by the social routine which seems a necessary but painful task. So when the guests at one of her society affairs are robbed of their jewels in a sensational loot, the girl welcomes the opportunity to aid in apprehending the Black Heart gang, a band of crooks who have the police force at bay.

The girl's experiences lead her into the tenements, the lower East Side and the Ghetto, where she runs squarely into the dens of the lower world. Strange and exciting are her experiences, despite the fact that they are mixed with humor, when she maets a little orphan lad, known as "Freckles." This part is played by Wesley Barry, whom Miss MacDonald secures for her picture by arrangement with Marshall Nellan. "Strange Than Fiction" is released as an Associated First National attraction, and was directed by J. A. Barry.

Reeve Says N. W. Sewer Agreement Must Be Honored

With J. W. Fulbrook, of Ward Seven, acting as chairman, Councillor Simpson last hight addressed nearly thirty ratepayers of Ward Five at the Royal Oak School.

Mr. Simpson said, "the question before the ratepayers is, briefly, are the ratepayers is, briefly, are the ratepayers satisfied with the past administration of their affairs, or do they seek a change?"

On municipal policy, the Health Centre, school and waterworks, Mr. Simpson spoke on similar lines to his previous addresses, while he pointed out that it was unfair to charge him with drastic wage-cutting because he may have moved or seconded a motion for a fifty cents or ten per cent cut.

He asserted that the whole Council was in accord as to the need of a cut until the office staff came under discussion, and pointed out that lower wages and lower prices are a world-wide condition.

Not Self Seeking.

"To say that my personal ambition is the cause of this election is not true. The Provincial Attorney-General says an election must be held. If would not, in the true sense, be an election to have an acclamatory formality" said Mr. Simpson, urging the vital need of a new poll of the ratepayers.

He said he believed there should have been no time devoted to an effort to get the Government validate note along the refort to get the Government validate and the council desired to change the vital need of a new poll of the ratepayers.

Mr. Simpson advocated no closed sessions of the Council save when personalities are being discussed, this statement being made when discussing Municipal employees and the need of a loyal service, "there are among the ratepayers, wide divergencies of opinion as to whether this is received," he said.

"The only reason why I am before you is to aid in the public business and to take a fair share of the Municipal burden upon my shoulders. Is there anything wrong in this? Surely I am no worse than any other before you," he said.

His initial attack was directed to the sewer by-law "red herring," the Reeve reciting the well-known history of the 1913 agreement and the fact of inclusion of those identical terms in the 1920 by-law now being argued. Reeve Watson maintained the honor of Saanich required the carrying out of the 1913 agreement under which the City of Victoria had spent much money, creating a larger sewer than it needed, for the benefit of, and at the instance of Saanich residents, while on a money basis, the cost was but a few cents per lot in the area to be affected.

On the lack of nomination papers in the last election procedure the Reeve said "I am not condoning any ommission, but every candidate not handing in those declarations is equally responsible with the Returning Officer, and that makes us all share the burden." He then devoted to considerable attention to the election error, showing that first steps

share the burden." He then devoted considerable attention to the election error, showing that first steps to validate the election were taken before polling had well commenced, thereby controverting a statement that Reeve or officials would not have been so active had the election gone differently.

He reported that formal notice from the municipal solicitors reinforced his expressed opinion that no additional fees would have to be paid for election services.

Chairman Grist asked, "Mr. Reeve are you satisfied with the administration of affairs in Saanich in all its highways and by-ways?"
Reeve Watson replied, "In a roundabout way I can answer that. We have but twenty-five per cent. of the money engineers say we should have for road work. I have promised a reduction of taxes for the coming year. We are getting the best we can for the money."

THE STORY OF CAROL KENNICOTT

By SINCLAIR LEWIS

For a month which was one suspended moment of doubt she saw pended moment of doubt she saw Erik only casually, at an Eastern Star dance, at the shop, where, in the presence of Nat Hicks, they conferred with immense particularity on the significance of having one or two buttons on the cuff of Kennicott's new suit. For the benefit of beholders they were respectably vacuous.

Thus barred from him, depressed in the thought of Fern, Carol was suddenly and for the first time convinced that she loved Erik.

She told herself a thousand inspiriting things which he would say if he had the opportunity; for them she admired him, loved him, But she was a fraid to summon him. Hes understood, he did not come. She forgot her every doubt of him, and her discomfort in his background, Each day it seemed impossible to get through the decolation of not seeing him. Each morning, each afternoon, each evening was a compartment divided from all other units of time, cach evening was a compartment divided from all other units of time, distinguished by a sudden "Oh!" I want to see Erik!" which was as deveatating as though she had never said it before.

There were wretched periods when the could not picture him. Usually

come for a walk. I knew! People might see us. But they won't fi walker is not the words blow by and him. "But I didn't mind, because—I was as much reassuring herself as rejoicing in his presence. More disturbing than being unable to visualize him was the darting remembrance of some intimate aspect; his face as they had walked to the boat together at the picnic; the ruddy light on his temples, neck-cords, flat cheeks.

On a November evening when Kennicott was in the country she answered the bell and was confused to find Efrik at the door, stooped, imploring, his hands in the pockets of his topcoat. As though he had been rehearsing his speech he instantly besought:

"Saw your husband driving away," "Ye got to see you. I can't stand it. Come for a walk. I knew! People might see us. But they won't if we hike into the country. "That's nice. Let's hear it."

"Damn it, don't be so casual about it! Can't you take me seriously?"

"My dear boy, if I took you seriously—! I don't want us to be hurt more than—more than we will be. Tell me the poem. I've never had a poem written about me!"

"It isn't really a poem. It's just some words that I love because it seems to me they catch what you are. Of course probably they won't seem so to anybody else, but—Well—

ment. The last revision was in 1911.

British Columbia's laws are contained in three heavy calf-bound rolumes. The Legislature, however, every year passes amendments to these statutes and new laws. The annual legislative output of these runs about 125 pages.

To find out what the law to-day is lawyers have to refer to the three big volumes of revised statutes and then go through the amendments passed during the last ten years. Under the revision and consolidation of the statutes which is to be carried out all the amendments passed during the last ten years to the various acts will be incorporated in the original acts. Acts which have been repealed will be discarded from the revised statutes, and any new acts will be given their place of honor in the big volumes. The work of revision will be carried out by A. V. Plenc, legislative counsel. It will take nearly a year before the work is completed.

SIR OWEN PHILLIPPS, G. C. M. G.

Canadian Pacific Ship Due SS. Arabia Maru and Makura Here at 6 p.m. on Outbound Voyage

With three hundred passengers in her saloon accommodation and her holds jammed full of freight, the big passenger liner Empress of Asia. Capt. Douglas, of the Canadian Pacific Steamships, Ltd., will get away from this port about \$6 'clock to morrow night on her outward voyage to the Orient.

James Macfarlane, in charge of the local C. P. R. ticket offices, has been advised that the Empress of Asia is scheduled to sail from Vancouver at noon to-morrow. The liner is expected to dock here about \$6 'clock in the evening, and after embarking local passengers and shipping malls, will clear direct to sea for Yokohama, her first port of call on the other side of the Pacific.

Prominent among the Empress of Asia's passengers will be George Denny, European manager for the Associated Press, who will spend a considerable period in the Far East in improving the press service of his organization in the Asiatic countries.

Madame Lydia Lipkowska, the famous operatic star, will also be a passenger by the Asia leaving here to-morrow night.

Isaac F. Marcosson, journalist, who is making a tour of the Orient, has booked passage by the Empress of Asia.

CHICAGO TO HAVE OCEAN SERVICE

Ships of New Line Will Reach Sea via Welland Canal and St. Lawrence

Chicago, Feb. 1.—(Canadian Press)
—Montreal and Quebec will be ports
of call for a new regular steamship
service between Chicago and Philadelphia. Officials of the Chicago
Steamship Company announced today that five ocean-going vessels had
been purchased to start the line.
All the ships come within the present dimensions of the Welland Canal
locks so they can cross the Lakes to
the St. Lawrence River.
Regular ports of call will be Detroit, Montreal, Quebec, Boston, New
York and Philadelphia, H. C. Hoskings, general manager of the line
said.

SILVER STATE WILL DOCK AT OGDEN POINT ON OUTBOUND VOYAGE

As a temporary expedient the Admiral liner Sliver State will dock at the Government pier at Ogden Point on her arrival here from Seattle on Saturday afternoon, outbound for the Orient. The S. S. Pine Tree State, sailing outward February 1, is also expected to dock at Ogden Point, but subsequent vessels of the Admiral Line will use the Rithet piers. Piledrivers engaged in driving piles at the end of Pier 2, which is being repaired, has necessitated extra precautions in the docking of big ships, but the work of repairing the damage caused when the S. S. Pine Tree State collided with the end of the pier, will shortly be completed.

Madame Lydia Lipkowska Leaving by Asia For the Far East Madame Lydia Lipkowska, world

Madame Lydia Lipkowska, world famous coloratura soprano of the Chicago Opera Company, the Metropolitan Opera Company, and the Imperial Opera at Petrograd, will be a passenger sailing by the Canadian Pacific liner Empress of Asia tomorrow for the Far East. She is accompanied by Miss Zoha D'Arcy, an operatic singer, and intimate friend. "And so you have heard all about Mary Garden," ejaculated Madame Lipkowska, when interviewed at Vancouver prior to embarkation. The diva was surprised, or was it only a quinz, cal, not to say miscrisvous, look in her eyes, when she commented that surely no place so far away from Chicago would be interested in the so-called squabbles of America's all-hailed Thois and her tenor, Mura-

Mme. Lipkowska seemed just trifle disturbed about the trend

trifle disturbed about the trend of the conversation.
"You know, next Winter I go back to Chicago to open in the Rimsky-Korsokov opera, "Snow-Maiden," Here, I will spell it in Russian—"Snegourotochka"—there—" with a sigh of relief.

So the conversation changed. Did Madame like America? Oh, yes, very much. She had been there for years. This was supplemented by a bit of additional history, the telling of which Madame delegated to Miss Zoha D'Arcy.

"Before the war Madame has been prima donna with the Imperial Grand Opera at Petrograd," said Miss

"Before the war Madame has been prima donna with the Imperial Grand Opera at Petrograd," said Miss D'Arcy. "When the revolution came she managed to escape, with some difficulty, by way of Odessa. She has blayed with the Boston Opera Company, besides grand opera in New York and Chicago, and also in London and on the continguit, in Paris and Milan". Madame nodded affirmation. "Ard I know whet you will ask me "he said, "what role I like best. It is so, I confess I like grand opera, perhaps better than concert singing. Travitata, Barbler de Seville—oh, I like ever so many.

viata, Barbier de Seville—oh, I like ever so many.

"You might tell the musical people who will be interested, that I have with me Professor Sklarcvski, formerly of the conservatory of in.isic in Petroxyad, who will play the concert zecompaniments. This is his fourth tour of the Orient."

"And from Tokyo ve go to Shanghai and Pekin, and then Java, and from there to Sumatra, and perhaps to Indo-China and heme that way. I am not yet sure."

One-other question Madame swiftly anticipated. What of Maria Jeritza, the Viennese blonde singer who has captured the hearts of New York, taken the critics by storm and ousted Gesaldine Farrar from her premiere role of Towa?

"Jeritza is wonderful," said Madame.

"She is augmous." communited.

Relatives Are Located.—The Pro Relatives Are Located.—The Provincial Police are now in touch with the father of the man found drowned on Pender Island. John Kramer, the victim, it was found, was the son of Leo Kramer, of Mildmay, Ontarie The police are in receipt of funeral directions for the disposal of the body. The body was found on Pender Island on Monday by Provincial Constable Rogers, and had been in the water some time. Papers found on the body led to the tracing of the relative.

Claim is Unsuccessful.—A claim for \$140, under a mechanic's lien, for wages alleged to be due was dismissed in the County Court yesterday by His Honor Judge Lampman. Nic Seminoff, the holder of the lien, was not present, nor represented by counsel, Seminoff was given three years at the Fall Assizes by Mr. Justice Murphy, on a conviction by jury of arson. The plaintiff is now in jail serving that term. The claim was brought against Mrs. Olga Drayman, whose house at Roderick Street, Saanich, Seminoff was convicted of burning, the case being fully reported in The Times at that period. It is understood that some action will be taen to endeavor to secure a new trial for Seminoff.

trial for Seminoff.

Suspended Sentence.—James Hilton and Samuel Graham, convicted on eight charges of theft, were given suspended sentence of twelve months each, and a warning in police court. Character evidence was produced by their counsel R. C. Lows, to show that the boys previously were of good record. The parents were placed on two sureties of \$250 each to see that the lads conduct themselves in a fit manner for the next six months. The evidence showed that the cases SAVETHE COUPONS

JANUARY WEATHER

Past Month Sunnier, Colder and Drie Than Usual.

Climatic conditions on the Pacific Coast seem to be changing, according to old-time residents of the city, and this theory gains credence by the report of the past month's weather issued from the Gonzales Heights Observatory, January was sunnier, colder and drier than is usual for the first month in the year. The mean temperature was 36 degrees, with the highest 47 on the 16th, and the lowest 21 on the 30th, with the minimum on the ground 18 on the last day of the month.

Total rainfall was two inches, and snowfall 7.77 inches, making a total precipitation of 2.77 inches or 1.54 inches below the average. On the other hand the amount of bright sunshine recorded was 107 hours 6 minutes, or 36 hours above the average.

MAYOR RESCUES WAGE CONFERENCE

Diplomacy Prevents Early Disruption; Cut Outside Workers

Mayor Marchant's soothing diplomacy and taot alone prevented an open break when representatives of the City Council and of Civic employees at yesterday to consider reduction of Civic wages and salaries, it became known at the City Hall this morning. Warm dispute over the powers of the conference and the status of the employees' representatives arose during the day, but finally, when a break seemed imminent, the Mayor stepped in and managed to compose these differences.

It was agreed that the Mayor should give out a statement covering the work of the conference and today His Worship said that a reduction of ten per cent in the wages of outside City employees had been considered just and equitable. While no final action was taken the employees' representatives agreed that the 1918 scale of charges should be put into effect again. This would mean a reduction of about ten per cent and would fix \$4 a day as the basis for laborers' pay.

This proposed reduction, however, will have to be considered in the light of whatever action the Council takes in connection with the salaries of the City Hall clerical staff. It is pointed out that the outside employees could claim that they should not have their wages reduced if no reductions should be made among the clerical workers. On the other hand, at least some members of the Council are not at all convinced that any reductions should be made inside the Hall. City Hall employees' salaries will be considered at a conference Friday or Saturday. Mayor Marchant's soothing diplomacy and taot alone prevented an

Two More Lectures Will Be Given Here.

Here.

The lectures which are being given on the above subject by Dr. J. D. O. Powers are being extremely well attended, and those desirous of hearing him should come early to-night and to-morrow night. Last night Dr. Powers spoke on the subject of "The Science of Suggestion," and among other points brought out during his lecture were the following:

"For good or for ill suggestion is one of the most potent forces in use in modern life and to understand how to use it for splendid ends constitutes a liberal education.

"A newspaper is a solid mass of suggestion to the rader and that paper is most valuable which knows how to subordinate those suggestions which are bad in their tendency and to make prominent those which are of real and great value.

"All advertising is dependent on knowing the science of suggestion and is a failure or a brilliant success as it secures or fails to secure results in business.

"The patent medicine regime is absolutely built up on the science of subtle suggestion and has grown into an enormous business through its use.

"No business man can succeed in a

use.

"No business man can succeed in a great way without he understands and uses this power.

"It is a most potent force both for good or ill in the hands of a physician. We all know the difference upon us of having a doctor come in who is sunny and of good cheer, and of one who is pessimistic and has lost his grip and is in doubt.

"But, it reaches farther than all

one who is pessimistic and has lost his grip and is in doubt.

"But it reaches farther than all this, and affects the secretions of the body itself. A series of farreaching investigations by Prof. Elmer Gates of Washington, D. C. proved that all thoughts such as anger, hate, malice, prejudice, selfishness, anxiety, fear, etc., produce deadly ptomaines in the body which in time do their deadly byork in destroying the body; and that on the other hand such thoughts as hope and joy and love, and good will and all normal thinking produce healthful

Anaemia Thin, watery blood is no more purishing than thin, watery milk

Mrs. F. G. Simmons, 42 Curtis St., Brantford, Ont., writes: Mrs. F. G. Simmons, 42 Curtis St., Brantford, Ont., writes:

"For about eight years I suffered from anaemia, My circulation was poor, my gums and lips were pale and my hands and feet were always cold. I was nervous and unable to sleep well. I had frequent headaches, seemed resiless and easily worried or irritated, There was a buzzing sound in my ears, Indigestion was also one of my complaints, and I often was attacked by weak spells. I went to a doctor, who told me I was anaemic, but as I did not get any better I decided to try Dr. Chae's Nerve Food, and after the first box I felt brighter and my headaches completely disappeared. I continued using the Nerve Food for quite a while. I am quite well now, and cheerfully and gratefully recommend Dr. Chase's Nerve Food to people suffering as I did before I used this splendid medicine."

Annual Meeting of Presbyteri Church in Oak Bay Held.

The annual meeting of the St. Columba Church, Oak Bay, was well attended, and the various reports read to the meeting disclosed the fact that the church was in a very satisfactory condition as regards finance, attendance and the good work accomplished.

satisfactory condition as regards finance, attendance and the good work accomplished.

Rev. Thomas McConnell presided. The year 1921 was the most successful in the church's history, despite the adverse conditions, and no less than 126 new members were enrolled, it appeared. The Sunday School has more than doubled in attendance.

There was raised by the congregation for expenses a sum of \$5,745, and for Missions apart from the Women's Society, \$522. The W. M. S. mised \$119-a total in all for Missions of \$441. The total revenue of the congregation amounted to \$7,300. This included the complete liquidation of the floating indebtedness which contained one rather large item of \$800, and in all amounted to something like \$1,155.

The Sunday School report showed a membership of over 200, with a large staff of earnest and loyal teachers. The Ladies' Aid report, which was read by Mrs. M. G. Moore, showed that \$1,400 had been raised during the year. In adition to many other splendid things done by the Ladies' Aid they presented a church bell to the congregation.

The Young People's Society raised over \$500, with a large part of which they creeted a fine wooden tennis court, which his practically completely paid for. Fine reports were presented by the Canadian girls in training, the Grante Club Young Men's Bible Class and the choir.

Pete Muldoon Counts on Vic- BAYS OPPOSE GYROS tory To-night Over Victoria -First Time New Aristocrats Line-up Has Performed on Seattle Ice

Seattle, Feb. 1.—His team in better condition than at any time this season, Pietro Muldoon will throw his hockey forces against Victoria tonight in an effort to put Seattle on an even keel with the Capitals.

In spite of Monday's reverse in the North, the Met leader is enthusiastic over the work of the men in the past three starts. With Roy Rickey's leg growing stronger with every game, the Seattle chances loom brighter than they have for quite a spell. The Victorians, bested by the Mets last Friday, are here to redeem that game, but the home-lee advantage gives Seattle the edge.

In the Victorians, bested by the Mets last Friday, are here to redeem that game, but the home-lee advantage gives Seattle the edge.

In the Victorians to have the largest attendance at to-night's games that has ever witnessed hockey in the Commercial League, "stated George Lovatt, president of the league, when speaking of to-night's double-header, which is expected to be the fastest since the new circuit opened. "In have received many words and letters of congratulations since the formation of the league," continued the genial George "which all goes to show how popular we are getting."

The Victorians, bested by the Mets last Friday, are here to redeem that game, but the home-lee advantage gives Seattle the edge.

Muldoon gives the following reasons for his optimism:

Rickey is back in form again, and that means that the entire club is going at top speed. I was a bit afraid that the defence man could not stand up under the strain, but his knee has not troubled him in the least.

Morris Showing Better.

Bernie Morris has shown remarkable form in the past week, and if Bernie can continue at this pace he will make oug forward line much stronger. Morris is checking back harder than I have ever seen him, and with Foyston also showing his old-time skill, we are sitting pretty.

Peter announces that he will start Jim Riley to-night, which will give Briden the utility role. Under the present plan, no member of the squad can be rightly termed a substitute, as Muldoon has his spares in the play as much as his regulars. Briden will refleve the first man who tires on the line, with Fraser ready to spell either Rickey or Rowe. This keeps the club at maximum strength at all times.

According to the local skipper, Harry Meeking is filling the bill at rover in an able manner. Meeking has all the qualities of a rover. He is a fast skater, and can stick-handle his way through the rival defence.

For Grand Challenge Competition at Nelson

Nelson, Feb. 1.—C. D. Blackwood's rink defeated the J. G. Bunyan rink in the final of the Grand Challenge Competition of the recent Provincial Bopspile here last night by 13-17. Blackwood already has a great margin over any other rink in the recent spile for the Grand Aggregate, which constitutes the Provincial Championship. Two other finals of the late big meet at Rossland.

Pulled itself together last night and defeated the Knights of Columbus by a score of four to two in the Junior Hockey League. In the first period the "High" got away to a start of a one-goal lead, and scored again early in the second before the K. of C. boys rallied and evened things up. Don Maclean did the scoring for the High School up to this juncture, putting his two long shots into the net despite Mat Fagan's attempts to avert the catastrophe. Reid scored for the K. of C. in the second period, and Sutton found the net in the third.

The High School boys certainly played good hockey last night, and the team worked harder than ever. "Hap" Champion played a splendid game in the net, blocking some hard did some very effectual checking. The Mount of the K. of C. line-up, and that of Joe Brinton has been added to their own. Berkeley, Cal., Feb. 1.—Andy Smith, football coach of the University of California, believes the influence of love on the athlete is beneficial instead of harmful.

"All athletes are in love; how could a popular athlete help having a girl?" he asked. "In my experience I have found it a good thing to have an athlete in love, provided strict training rules are maintained during the season. Of course the athletes must not stay out late loving. There are plenty of pretty girls on the California campus and I'm glad there are. I believe it helps California sports."

CHAMPION BILLIARD PLAYER WITHDRAWS

New York, Feb. 1.—Charles Heddon, of Dowagiac, Mich., present champion, withdrew from the National Amateur Class A 18.2 balk line championship tournament at the Crescent Athletic Club, Brooklyn, yesterday. His reason was given as due to acts on the part of Edward Gardner, former holder of the title, in the match Monday night, in which Heddon was defeated 193 to 300.

He is said to regard the action of Gardner in not remaining in his chair quietly while his opponent was at table as highly uncthical. Heddon left yesterday for Deroit. Referee Ryan declared Gardner requested permission to leave the enclosure Monday night.

Emil A. Renner, Yougstown, Ohio, defeated T. Henry Clarkson, New York, 300 points to 191 in the fourth game of the tournament.

Intermediates to Play Centrals, of Vancouver, Here on Saturday For B. C. Championship-Frost Only Thing That Will Stop Rep Rugby Game

There is only one thing that will stop the Victoria rep rugby squad from going over to Vancouver on Saturday and taking another whirl at Varsity, and that is a continuance of Jack Frost's visit. A thaw is pre-licted, and if the ground softens the eam will go across.

dieted, and if the ground softens the team will go across.

This same provision holds good in respect to the game which is to be played here on Saturday between the Centrals, intermediate champions of Vancouver, and the local picked rugby squad. These teams are to play for the intermediate rugby championship of British Columbia. The game will be staged at Oak Baypark.

A Good Squad.

A Good Squad.

park.

A Good Squad.

The Victoria Rugby Union has selected its intermediate team from players of the senior league who have not figured in a McKechnie Cup game this season.

Great efforts have been made this year by the Rugby Union to encourage the schoolboys and those who have just left school to play rugby. Whether these efforts have been justified will be seen on Saturday afternoon, as the team to represent Victoria here will include players well on the right side of their rugby prime. With them is a leavening of hardworking, steady, and experienced players, including one outstanding figure, well-known to Victoria rugby players as the "Old War Horse." That age is not necessarilly a deterrent to fitness is amply shown in his case for a harder worker in the scrum or a better forward in the loose would be hard to find. Anyone who two weeks ago saw Kinch of the Naval College, dribble the ball over half the length of the field throu i a couple of inches of mud and at least en of the Old Boys' players, after playing a hard game for over fifty minutes should have no doubts that fitness does not depend on the himber of birthdays a man has passed.

Many Cadets on Team.

CHRIST CHURCH HAVE

Many Cadets on Team. Many Cadets on Team.

With him are six more of the Naval College players, and of that six, three, Taylor, Beech and Adams will play in the key position between the forwards and the outsides. They form a combination which has shown itself equal, if not superior, to anything that has been put up against it in the Barnard Cup league, and the Vancouver team should find considerable difficulty in overcoming it. The pack is made up sound players, most of whom have had their names under consideration more than once for a place on the first representative side, and consists of a blending of experience and youth, With

Harry Eagles, Los Angeles, won the decision over Johnny Jordan, of Anacortes, in the semi-windup.

Farrell Gets Decision.

Los Angeles, Feb. 1.—Marty Farrell, New York middleweight, was given the decision over Bert Colima of Whittier, Cal., at the end of their four-round match at Vernon Arena here last night. In the semi-finals Chic Roach, of Los Angeles, defeated Harry Casey, of Seattle. They are 138-pounders.

Walker Wins On Points.

Philadelphia, Feb. 1.—Mickey Walker, Newark middleweight, outpointed Soldier Bartfield in an 8-round bout last night. Bartfield had the advantage in the sixth round, but the others went to Walker by big margins. combination counts for anything Mitchell should always be anticipating what Adams at five-eighths (whom he has played behind on his own college side) is going to do with the ball.

For defence, Goodacre at fullback, though not having played in the Barnard Leagues games as yet, has shown that he is certainly the best available fullback in Victoria after the Victoria captain, Boss Johnson. His brother, who played for the rep side last season here, and for Vancouver at the beginning of this season here, and for Vancouver at the beginning of this season here, and for Vancouver at the beginning of this season here, and for Vancouver at the beginning of this young-ster after he has collected a bit more experience. He is the outstanding example of new blood coming into the game, and there is a pleasure in store for those who will be able to see the game on Saturday. Absolutely fearless, and with a good kick he never spares himself, and if the captain of the team will see that he is always backed up, so as to offset the chance of the opposing side having the extra man to pass to, it will be something very nuch out of the ordinary that breaks the defence.

Altogether the Rugby Union has brought out a team, well balanced with a happy combination of speed and experience, and if each individual members plays up to his game, Vancouver will find that even with a team away, Victoria still has plenty of good material up her sleeve.

Vancouver Has Fast Team.

One word about the Vancouver side side last season here, and for Vancouver at the beginning of this season here, and for Vancouver at the beginning of this season here, and for Vancouver at the beginning of this season here, and for Vancouver at the beginning of this season here, and for Vancouver at the beginning of this season here, and for Vancouver at the beginning of this season here, and for Vancouver at the season here, and for Vancouver at the beginning of this season here, and for Vancouver at the season here, and for Vancouver season here,

shown. Since that time the clubs have played for some two months and the team to play on Saturday has shown in Vancouver that it is much superior to all the others. It will be a case of team work against individual ability to a great extent, but to offset that as much as possible the Rubgy Union has shown considerable ability in selecting a combination of playes from the various clubs in the places where combination counts.

This year marked the entry of the British Columbia University ruggers into the provincial series for the Mc-Kechnie Cup, and they have been successful in copping the silverware. Florrie Gates played a great game

27 pcints herself. Christ Church have not lost a game yet in the Senior Sunday School League, being still tied with St. Andrews girls for first place. Both these teams are playing well, and the result of the league will be in doubt for some time yet.

The Fairfield Fairles while lack-ing 'he experience of their opponents played well, Winona Ross doing some good work on the forward line, scoring two nice baskets.

The teams were:
Christ Church—Kathy Welburn,
Phyllis Gates, Florrie Gates, Grace
Wellburn and Marjorie Locke.
Fairfields—Winona Ross, D. Gar-

Dinsdale did mest of the scoring.

The teams were:
Harmony — Kathleen Freestone,
Winnie Robinson, Dorothy Lea,
Phyllis Morley and Violet Welsh.
Wide Awakes—Eleanor Dinsdale,
Fay Forster, Queenie Wilson, Kathleen Freeman and Helen Smallwood.

know that the only way to argue with poor business is to turn on pub-licity steam. Good advertising will take the edge off so-called dull times.

Everyman's Problem

"If I save the same amount during the next ten years of my life that I have saved during the past ten years, how much will I be worth?" What will be the answer in your own case? Are you proud or ashamed of your Bank Account? It is better to say "I'm glad I saved" than "I wish I had". No man ever retired on the money he spent

Hold Your Share

Victory Bonds bought or held now, in addition to affording the investor the maximum of security, will enable the holder to participate in the increasing market values which are certain throughout the coming years.

The present valuation of Victory Bonds aggregates \$100,000,000 over the valuation of a year ago. This we regard as only the beginning of the general rise in bond values.

The yields today range from 5 to 6%; the yield on Government Bonds was, before the war, normally around 4 to $4\frac{1}{2}$ %. The approach to these yields must inevitably mean a further very substantial appreciation.

Are you holding as much as you should of this premier security? It is impos-sible to suggest a better investment.

We have every facility for handling War Loan business. Your orders will receive our best attention

At Toimie School last night thirty
Ward Two ratepayers split into active factions when, after an address by Councillor Simpson, Reeve Watson urged Mr. Simpson to explain paragraphs of his platform referring to espionage, financial investments and other matters.

On a vote endorsation was accord-

ment.

Mr. Fullbrook actively opposed Reeve Watson's point of view as to the onus for the new election, asserting the cost to be due to acts of the Reeve and officials, and not to those backing new candidates in their fight. To this Reeve Watson retorted, "That is exactly where the responsibility does belong," this provoking another storm, with Ernest Orr telling of an interview with the Premier.

law, were set out by R. G. Howell, and John R. Bunn, before the congregation of the First Presbyter'an Church on Sunday in connection with the congregational resolution on the matter. The reasons read by Mr. Howell are:

The City's Character.

1. Victoria is known all over Canada for the character of her Sunday observance—anyone who travels about will know that.

2. Different attempts have been made in the past, and another is being made now to improve the reputation of the city in this particular.

3. Opposition to better law enforcement in this regard always appears under different guises, but in reality-from two principal sources:

(1) Those who wish to commercialize the day. Aldermen See Possibility of Considerable Revenue

will be forced to pay the city's \$2 road tax this year under plans which are being speeded up at the City Hall now.

Members of the City Council have investigated the possibility of collecting this tax and, after conferring on the matter with City Solicitor H. S. Pringle, believe that they can secure considerable revenue through this little-exploited channel.

In the past a small amount of

To this I wish to make reply:

1. While all good people are naturally interested in the preservation of the Sabbath, yet "The Lord's Day Act" has nothing whatever to do with religion nor church-going. The most casual reading of the Act would reveal this, but yet it is constantly said that the enforcement of the Act is an attempt to make people religious by law. Those who persist in making this statement are either wilfully uninformed or wilfully attempting to deceive, and it is time that they were ignored.

2. As to the matter of business, I sympathize with men who are striving to carry on under the pressure of the times, but I refuse to think that our retailers are the kind of men who would stoop to make money through the violation of a law which others must keep.

In the past a small amount of money has been collected through the road tax but large numbers of people never paid the levy. To secure a vote non-property owners must pay this tax but, except at the last election, few have bothered to do so. The Police Commission election in December resulted in the registration of the largest number of non-property owners in years but it is expected that this number will drop heavily at the next election.

The plan of the civic authorities now is to collect the \$2 tax both from
