COMMISSION

COMMISSION DECISION

of 9 July 1997

on a common technical regulation for terminal equipment to be connected to public circuit switched data networks and ONP leased circuits using a CCITT Recommendation X.21 type interface

(Text with EEA relevance)

(97/544/EC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Directive 91/263/EEC of 29 April 1991 on the approximation of the laws of the Member States concerning telecommunications terminal equipment, including the mutual recognition of their conformity (¹), as amended by Directive 93/68/EEC (²), and in particular Article 6 (2), second indent, thereof,

Whereas the Commission has adopted the measure identifying the type of terminal equipment for which a common technical regulation is required, as well as the associated scope statement;

Whereas the corresponding harmonized standards, or parts thereof, implementing the essential requirements which are to be transformed into common technical regulations should be adopted;

Whereas the common technical regulation adopted in this Decision is in accordance with the opinion of ACTE,

HAS ADOPTED THIS DECISION:

Article 1

1. This Decision shall apply to data terminal equipment intended to be connected to public circuit switched

data networks and ONP leased circuits using a CCITT Recommendation X.21 interface and falling within the scope of the harmonized standard identified in Article 2 (1) of this Decision.

2. This Decision establishes a common technical regulation covering the technical characteristics (electrical and mechanical interface requirements and access control protocol) to be provided by terminal equipment using a CCITT Recommendation X.21 interface, or at an interface physically, functionally and electrically compatible with CCITT Recommendation X.21 but operating at any data signalling rate up to, and including, 1 984 kbit/s.

Article 2

- 1. The common technical regulation shall include the harmonized standard prepared by the relevant standardization body implementing to the extent applicable the essential requirements referred to in Article 4 (d) of Directive 91/263/EEC. The reference to the standard is set out in the Annex.
- 2. Terminal equipment covered by this Decision shall comply with the common technical regulation referred to in paragraph 1, shall meet the essential requirements referred to in Article 4 (a) and (b) of Directive 91/263/EEC, and shall meet the requirements of any other applicable Directives, in particular Council Directives 73/23/EEC (³) and 89/336/EEC (⁴).

^{(&#}x27;) OJ No L 128, 23. 5. 1991, p. 1.

⁽²⁾ OJ No L 220, 31. 8. 1993, p. 1.

⁽³⁾ OJ No L 77, 26. 3. 1973, p. 29.

⁽⁴⁾ OJ No L 139, 23. 5. 1989, p. 19.

Article 3

Notified Bodies designated for carrying out the procedures referred to in Article 9 of Directive 91/263/EEC shall, as regards terminal equipment covered by Article 1 (1) of this Decision, use or ensure the use of the harmonized standard referred to in Article 2 (1) within one year after the notification of this Decision at the latest.

Article 4

This Decision is addressed to the Member States.

Done at Brussels, 9 July 1997.

For the Commission

Martin BANGEMANN

Member of the Commission

ANNEX

Reference to the harmonized standard applicable

The harmonized standard referred to in Article 2 of the Decision is:

Attachment requirements for terminal equipment to be connected to circuit switched data networks and leased circuits using a CCITT Recommendation X.21 interface, or at an interface physically, functionally and electrically compatible with CCITT Recommendation X.21 but operating at any data signalling rate up to, and including, 1 984 kbit/s
