INDUSTRIAL NOTES	 							
PROPOSALS								

PERSONAL.

Mr. Robert Kerr, Manager of the Kerr Engine Co., has been elected Mayor of Walkerville, Ont.

Mr. Ernst Weiner, New York Mansger of the German railway material, has returned from Europe.

Mr. Jesmond Taylor Nicholson, mechanical engineer, with the Vulcan Iron Works, Wilkes-Barre, Pa., was mar-ried Feb. 8 to Miss Fannie W. Bate, of that city.

Mr. John Carosis, Chief Engineer of the Electrical De-partment of Leber & Meyer, Buenos Ayres, Argentine Republic, has arrived in New York city on business for

Republic, has arrived in New York city on business for his firm. His headquarters are at 5 William St.

Mr. George S. Davison, M. Am. Soc. C. E., of the firm of Wilkins & Davison, civil engineers, of Pittsburg, Pa., has gone to Mexico to act as Consulting Engineer for the Pittsburg interests in the projected Parral-Durango R. R. He will be gone until April 1.

Messrs. Jas. A. Woodruff, Wm. Kelly, Horton W. Stickle, Lewis H. Rand, Edward M. Markham and Thomas Stickle, Lewis H. Raid, states of the United States Military H. Jackson, graduates of the United States Military Academy, West Point, N. Y., in this year's class, have been assigned to the Corps of Engineers, U. S. Army.

Major Francis L. Hills, M. Am. Soc. C. E., formerly Chief Engineer of the Wilmington & Northern R. R., of Wilmington, Del., has been appointed Chief of the Bureau of Public Works of Porto Rico and will have charge of roads and bridges, water-works and other engineering works.

Mr. Alfred Courtney Lewerenz, Jun. Am. Soc. C. E., formerly Assistant Engineer on the Buffalo, Rochester & Pittsburgh Ry., Mr. Ernest P. Goodrich, of Michigan, and Mr. Leonard M. Cox, of Kentucky, have been nominated by President McKinley as Civil Engineers in the United

Mr. Myron T. Herrick, formerly Receiver for the Wheeling & Lake Eric Ry., with headquarters in Cleveland, O., has been elected President of that road to succeed Mr. A. G. Blair. Mr. D. Adams, Local Treasurer of the com-pany, with offices in Toledo, O., has been elected Assistant Secretary and Treasurer.

OBITUARY.

Mr. Hiram L. Dickinson, contractor, of Mount Kisco, N. Y., died Feb. 15.

Mr. Michael S. Rockey, pump manufacturer, of Columbus, O., died there, Feb. 15, aged 80.

Mr. Edwin Stanton Carpenter, of the Westinghouse Electric & Mfg. Co., Pittsburg, Pa., died in New York city last week, aged 37.

Mr. W. H. Parker, architect, of La Crosse, Wis., died Feb. II, aged 44 He was a graduate of Cornell University, Ithaca, N. Y., and had also studied in Europe.

Mr. Wm. F. Cunningham, Chief Engineer of the School Board of Brooklyn, N. Y., died Feb. 18, aged 60. We was born in that city and had held the above position for 25

Mr. Samuel J. Anthony, who was instrumental in introducing the use of water gas into this country, died in Long Branch, N. J., Feb. 17, aged 60. He was born in Duncannon, Pa.

Mr. Peter W. Neu, of the firm of Heldmaler & Neu, contractors, of Chicago, Ill., was killed recently in Call-fornia, where his firm had the contract for the San Pedro Harbor Improvement.

Capt. Geo. R. Talcott, Corps of Engineers, U. S. Army, in charge of the James River Improvements, died in Richmond, Va., Feb. 18. He was a son of Col. Andrew Talcott, the civil engineer who huilt the Richmond & Danville Ry., now a part of the Southern Ry.

Mr. John A. McMurtrie, railway contractor, of Denver, Colo.. died there Feb. 16, aged 50. He was born in Mauch Chunk, Pa., and built the Rio Grande R. R. over Marshall Pass and through the Grand Canon of the Arkansas. At the time of his death he was engaged in huliding an extension for the Southern Pacific Ry. in California.

Mr. Lewis Miller, inventor of agricultural machinery and implements, and a member of C. Aultman & Co., Canton, O., and Aultman, Miller & Co., of Akron and Mansfield, O., died in the Post-Graduate Hospital, New

York city, Feb. 17, after a surgical operation. He was born in Greentown, O., in 1829, and learned the machinist trade. He started a shop in Canton, O., and devoted himself to inventing agricultural machinery, being the first one, it is said, to produce a practical reaping and binding machine. He established the three plants mentioned above, which are employed in the manufacture of agricultural and other machinery. Mr. Miller was one of the founders of the Chautauqua Assembly in 1874, and was its President from that time until his death.

March 30. Annual meeting, Appleton, Wis., Secy., F. J.

Harriman, Appleton, Wis.

ROCHESTER ENGINEERING SOCIETY.—At the regular meeting of this society, held on Feb. 17, a series of stereopticon views, obtained by a tourist at the Columbian Exposition and elsewhere in the world, were exhibited and explained.

AMERICAN INSTITUTE OF ELECTRICAL ENGI-NEERS.—A meeting of the Institute was held in New York city, on Feb. 15. The paper of the evening, on "Storage Batteries and Rallway Power Stations." was presented by Mr. Robert McA. Lloyd, of New York city An abstract of this paper is given elsewhere in this issue

AMERICAN SOCIETY OF CIVIL ENGINEERS .- A regular meeting of this society was held at the Society House, New York city, on Feb. 15. Mr. E. L. Corthell, M. Am. Soc. C. E., presented a paper entitled "The Approaches and Transportation Facilities of the Paris Exposition of 1900," and exhibited a series of lantern

THE OHIO TILE, BRICK AND DRAINAGE ASSOCIA-TION.—The annual meeting of this association was held at Columbus. Obio, on Feb. 9. The election of officers for the ensuing year resulted as follows: Pres., J. W. Everall, Westerville; Vice-Pres., W. C. Wilson, Brice; Secy., Edw. F. Darnell, Grove City; Treas., W. B. McClure, Warsaw. The next annual meeting will be held at the Southern Hotel, Columbus, O., on the second Tuesday of February. 1900.

THE NEW YORK BUILDING CODE COMMISSION an pointed by the Municipal Assembly to revise the building laws of the city of New York has held several sessions. Invitations to attend the future meetings will be sent to the municipal departments of New York, the technical societies and others interested in building. Objections to societies and others interested in building. Objections to the present laws and suggestions to aid the work of re-vision are asked for by the commission. Public hearings will be held at convenient locations in the different boroughs of the city. Building Commissioner Rudolph L. Daus is Secretary to the Commission.

NATIONAL BRICK MANUFACTURERS' ASSOCIATION.—The annusl meeting of this association was held at Columbus, Obio, Feb. 7-10. Among the papers read were the following: "The Commercial Side of the Brick Business," T. P. Plumridge, St. Louis; Report of the Committee on "Statistics and the Value of Brick as a Building Materfai;" "Real vs. Imitation Fireproofing." W. C. Denison; "Burning Brick in Down Draft Klins," Robert Towles, Wickliffe, O.; "What I Don't Know About Brickmaking," Wm. G. Morrell, Gardner, Me.; "A New Method of Testing Brick," Gorner Jones; "The Evolution of the Paving Brick," H. A. Wheeler, St. Louis, Mo. NATIONAL BRICK MANUFACTURERS' ASSOCIA-

THE CIVIL ENGINEERS' CLUB OF CLEVELAND.—
At the regular meeting, held Feb. 14. Prof. Robert H.
Fernald read a paper entitled "Experiments on the Efficiency of Bicycles," describing investigations made at the Case School of Applied Science, and giving the conclusions. Comparisons were drawn between chain and chainsions. Comparisons were drawn between chain and chain-less bicycles, racing and road wheels, between sprockets of different size, and between thres under different pres-sures. Diagrams showing relative efficiency were ex-bibited. Professor Fernald stated that the experiments would be continued and others made under road condi-tions. The duration of cone and ball hearings would be tested, and the effect of vibration on frames, and the efficiency of different grades of tires at different velocities determined. W. 11. Searles, Secy.

ENGINEERS' CLUB OF ST. LOUIS.—The 485th meeting of this club was held Feh. 15, with 63 members and visitors present. Mr. Bryan was elected as member of the Board of Managers of the Association of Engineering So-

Mr. M. L. Holman opened the discussion of the evening on the "Chicago Drainage Canal," giving a brief de-scription of main features of Chicago's sewerage system, the Chicago River and the canal itself. He also read parts of the law giving the provisions for the construction and taxation to pay for the work. Mr. R. E. McMath explained the relation of the Des-

plaines River, the illinois and Mississippi Canal and the drainage canal. He also discussed some of the carly attempts of Chicago to gain relief from its sewage. The effect of the canal in a commercial way was touched upon.

Mr. Holman described some of the engineering fallacies of the scheme as undertaken. He stated that the original plans had not been followed out, and mentioned that the Chicago engineers themselves do not see the way clear to auccessful fulfillment of the original expectations. E. R. Fish, Secy. "

NATIONAL ASSOCIATION OF MUNICIPAL ELECTRI-CIANS.—The next annual meeting of this association will be held at Wilmington, Del., on Sept. 5-6. The following are some of the papers to be presented: "The Laws and Government of the Wire Department of Boston," Thomas W. Flood, Boston; "Licensing of Employees Engaged in Electrical Work and the Improvement of the Quality of Work and Material," Capt. William Brophy, Boston; Work and Material," Capt. William Brophy, Boston;
"Advisability of Concentrating the Control of all Municipai Electrical Interests Under One Head," Morris W. Mead, Pittshurg; "The Underground System as Applied to the Fire Alarm Telegraph," S. L. Wheeler, Springfield, The Police Signal System of Weigel, Boston; "Aerial Construction of Fire and Police Telegraph Lines," W. H. Thompson, Richmond, Va.; "Progress and Development of the Municipal Electrical Interests of Canada," G. F. MacDonald, Ottawa, Canada

FRANKLIN INSTITUTE.—At the regular meeting of the Mining and Metallurgical Section, held on Feb. 8, Mr. John M. Hartman, Philadeiphia, Pa., read a paper entitled "Notes on the Reduction of Iron Orea." Another paper on "Suhterranean Ice Deposits in America" was presented by Mr. Edwin Swift Balch, also of Philadelphia. Mr. Hartman reviewed the past and present practices involved in the reduction of iron ores, giving detailed accounts of the various ores in use and methods of reducing iron from same.

G. H. Ciamer, Secy., M. and M. Section.
At the meeting of the Mechanical and Engineering Section, held on Feb. 9, "Traveling Cranes" was the topic for discussion. Mr. A. E. Outerbridge, Jr., gave a resume of the history of cranes dating back to the time of the pyramids and continning to the 150-ton two-trolley elec tric crane of recent construction. The economies of shunt and series electric motors, and the relative advantages of different construction of the crane bridges and trolleys is different styles of building construction, also the safety lowering devices, were discussed in the paper and also by the members present who were concerned in the operation and application of cranes for many different purposes.

Daniel Eppelshelmer, Secy., M. and E. Section.

NEW ENGLAND SOCIETY OF GAS ENGINEERS. The 29th annual meeting of this association was held at Young's Hotel, Boston, Mass., on Feb. 16-17. Various reports were read showing the association to he in a good condition frem all standpoints. President S. J. Fowler then read his inaugural address. In this the developments of the past year were reviewed from the gasmakers' standpoint, and the thriving condition of the gas industry well shown. Attention was called to the continued concentration of people into communities, and the growth of the cities and towns of New England was pointed out. This growth, while perhaps unfortunate from the Utopian standpoint, was most heneficial to the gas manufacturers.

Prepayment meters, while meeting with considerable suc

cess in the thickly populated poor sections of English sities, do not seem to take in this country, where overcrowding does not exist, at least in the smaller cities. Incandescent gas lighting seems to be growing in favor. although slowly, owing to the fragile character of the anties, and to the action of the company controlling the patents under which the mantles are manufactured.

The acetylene industry is apparently growing slowly hut surely, judging from the increased manufacture of cal-eium carbide. From the gas manufacturers' standpoint, lis use for certain purposes, such as car lighting, is heginning to be felt, but as a general illuminant it does not

yetsenter into competition at all.

Mr. Fowler briefly described the experiments now being conducted by the New England Gas & Coke Co., which is carbonizing coal to produce coke and gas, saving all the coke and only half (or less) of the gas instead of following the usual practice of saving all of the gas and only two-thirds of the coke. The object being to furnish coke for domestic purposes where hard coal is expensive, but where the disadvantage of soft coal will not permit its use. Following the president's address these papers were read: "A Paper Unnamed," T. H. Hintz, Malden, Mass.; "Dis-tributing Gas at Pressure Higher Than Usually Obtained tributing Gas at Pressure Higner Than Usually Obtained With a Gas Holder, "B. J. Allen, Brookline, Mass.; "Notes on the Design and Extension of a Gas Plant," J. J. Humphreys, Worcester, Mass.; "Correspondence Schools," C. A. Humphreys, New York city; "Advertising," H. K. Morrison, Concord, N. H.; "Considerations Affecting the Choice of Location of a Gas Works," F. C. Shelton, Phila-Choice of Location of a Gas Works," F. C. Shelton, Philadelphia, Pa.; "Notes on the Use of Superheated Steam for Burning Carbon from Retorts," N. W. Gifford, New Bedford, Mass.; "Steam," W. E. McKay.

The following officers were elected for the ensuing year:

Pres., Walter R. Addicks, Boston, Mass.; First Vice-Pres., W. A. Learned, Newtown, Mass.; Second Vice-Pres., W. E. McKay, Boston, Mass.; Secy. and Treas., N. W. Gifford, New Bedford, Mass.; Directors, Jno. A. Coffin, Frank S. Richardson, A. J. Purinton, W. McGregor and W.

ASSOCIATION OF ONTARIO LAND SURVEYORS .- The The annual meeting of this association will be held at the Repository, Parliament Bidg., Toronto, Canada, on Feb 28-March 2. The following is the program of the meeting:

Feb. 28.-Meetings of committees and reports of officers and standing committees; also reports from the committees on "Publication;" "Repository and Biography;" "Polar Research." The following papers will be read: "Permanent Way," W. E. McMullen, St. John, N. B.; "Progress of Gold Mining in the Central Belt of the Rainy River District," H. W. Selby, Dinorwic; "Surveying in the Mining Lands of Ontario," F. I. Foster, Mine Centre; "Dominion Land Surveys," C. F. Aylsworth, Jr., Madoc; "More Remissioned of an Old Land Surveyor," C. Unwin, Toronto;

Report of Committee on Exploration: "Some Incidental Benefits from the Growth of Forests," Thomas South-worth, Toronto; "Azimuths," L. B. Stewart, Toronto; "Ex-plorations," James Dickson, Fenelon Falls.

March I.—Report of the Committee on Engineering, with Question Drawer? "Highway Culverts and Bridges," A. W. Camphell, Toronto; "The Calculation of Strains in Bridge Trusses," James Warren, Walkerton; "Railway Location Work," J. D. Evans, Trenton; Report of Committee on Land Surveying, with Question Drawer; "Our Professional Standing," B. J. Saunders, Fort William; 'Survey of the Boundary Line Between Nipissing and Algoma Districts," A. Niven, Halihurton; "A Trip to the Yukon and Return," Lewis Bolton, Listowel; "The Registry Act," P. S. Gibson, Willowdale; "Open Questions," H. J. Bowman, Berlin; Report of Committee on Topographical Survey. In the evening at 8 o'clock the annual dinner

March 2.—Report of Committee on Drainage, with question Drawer; "Drains of Field Tile," W. F. Van Question Drawer; "Drains of Field Tile," W. F. Van Buskirk, Stratford; "The Lake Wawanosh Drainage Scheme," John H. Jones, Sarnia: "The Payne River Drainage Scheme," T. H. Wiggins, Cornwall; unfinished husiness, new husiness, election of officers, etc.

A. J. Van Nostrand, Secv.

NEW PUBLICATIONS.

DARTMOUTH COLLEGE CATALOGUE. 1898-99.—Published by the College. Paper: 5¼ × 7¾ ins.

This is the 1899 edition of the annual Catalogue, con-

taining a list of the officers and students and outlined courses of study. Particulars regarding the medical school and the College of Civil Engineering are included. REGISTER OF THE LEHIGH UNIVERSITY, 1898-99.—Published by the University. Paper; 5×6% ins.;

This is the usual annual catalogue, giving lists of officers and students and the courses of study. The pamphlet concludes with a list of the Alumni of the University beginning with the class of 1869 and including those

REPORT OF THE COLLEGE OF MECHANICS AND ENGINEERING, UNIVERSITY OF WISCONSIN 1897-98.—Pamph.; 6×9 ins.

This pamphlet is a report presented to the President of the University by a hoard consisting of the instructors of the College of Engineering, appointed to report upon the progress of engineering department of the State College. The increase in attendance is shown by curves and diagrams, which are very hriefly described.

ELECTRIC RAILROAD LIST. Jan.-March., 1899.—The Railroad Gazette. New York city. Quarterly; paper; 4×6 ins.; pp. 252. \$2.00 per year. This is volume one number one of a quarterly publica-

tion in which the publishers intend presenting a complete list of the electric railways of the world. For completeness it also contains cable and horse railroads. The book is gotten up much the same as the well-known "Pocket is gotten up much the same as the well-known "Pocket List of Raiiroad Officials," and is intended to occupy the same field among street railway men that the "Pocket List" does among steam railway officials. It concludes with the full report of the Committee on Rules and Regulations of the American Street Ry. Association on Standard Rules and Regulations for the Government of Employees, and the Standard Classification of Accounts Adopted by the Street Ry. Accountants' Association of America.

THE JOURNAL OF THE IRON AND STEEL INSTITUTE.—Vol. LIV., No. II. London: E. & F. N. Spon. New York: Spon & Chamberlain. Secy.. Bennett H. Brough, 28 Victoria St., London, S. W. Cloth; 6×8% ins.; pp. 624; 26 plates.

This volume of the Journal of the Iron and Steel Institute contains the minutes of proceedings and papers of the Stockholm meeting of the Institute, held Aug. 26, 1898. The following papers are included: "Outlines of "Outlines of the Development of the Swedish Iron Industry." R. Aker-"On the Most Prominent and Characteristic Features of Swedish Iron Ore Mining," G. Nordenstrom; the Danger of Using Too Hard Steel Ralls," C. P. Sand-herg; "On the Iron Ore Deposits of Klirunavaara and Luossavara," H. Lundbohm; "On Experiments Made with a Motor Using Blast Furnace Gas," A. Witz; "On Brittleness Produced in Soft Steel by Annealing," Stead; "On the Micro-Chemistry of Cementation," J. Arnold; "On the Action of Metalloids on Cast Iron," R. Johnson; "On the Action of the Projectile and of the Explosive on the Tuhes of Steel Guns," W. C. Rohertsexplosive on the Tubes of Steel Guns," W. C. Roberts-Austen; "On the Difference of Sulphides Through Steel," E. D. Campbell.

ANNUAL REPORTS OF THE PRESIDENT AND TREASURER OF HARVARD COLLEGE, 1897-98.—Published by the University. Paper; 6 x 91/4 ins.;

This is devoted to the annual statement of the President, Chas. E. Ellot, the reports of the various departments and a statement of the financial standing of the University. In his introduction President Ellot states that 384 alumni graduates, undergraduates or ahort term students served in the recent War. This number included 51 in the Army with the rank of captain or above and 25 in the Navy with the rank of ensign or above, this number including the Secretary and Assistant Secretary of the Navy. The total number of students at the beginning of the year was 1,819, which was a net gain over the preceding year of 65. In the Lawrence Scientific School 418 students of all kind were registered. The total number of books in the various libraries is given as 506,833,

with 413,926 pamphiets. The Treasurer's repor-total principal of \$10,230,960, including investm-sorts producing an income. The total income sorts producing an income. The total incomes \$414,428. The total amount of gifts for this count for the year was \$1,146,323, while other immediate use amounting to \$90,662 were received

TRADE PUBLICATIONS

(The standard sizes for pamphlets and trade catalogue mended by all the princip 1 engineering societies of a States are: 31-2x6 ins. and 9x12 ins.)

SURVEYING AND ENGINEERING INSTRU-Herm. Pfister, 428 Plum St., Cincinnati, 0 64% 99% ins.; pp. 16. This is a catalogue and price list of transis

lites, Y-levels and a level designed specially for use of architects and builders.

PACKING.-Boston Belting Co., Boston, Mass. mph.;

This little pamphlet is really nothing more iustrated list of the various products of the Bosing Co. These include rubher hall valves, dia gaskets, packing rings and packing of all sorts. Belt-

CREOSOTED WOODEN BLOCK PAVEMENT Creosoting Co., Indianapolis, Ind. Paper; 4: ins.; pp. 28; 7 x 4% ins.; pp. 8. These pamphlets describe the creosoied fine block

used in Indianapolis, Galveston and other cities it is reported to be giving very satisfactory results

GAS ENGINES.—The Dayton Globe Iron Works Co., Dayton, O. Paper; 6% x 5¼ ins.; pp. 24.

This little pamphlet describes the "Dayton" gas engine,

which is made in horizontal and vertical types, while one form is mounted on a special wagon frame for portable Particulars are given of plants operated by these

PAINTS FOR IRON WORK.—Chicago Fireproof Covering Co., 50 Franklin St., Chicago, Ill. Paper; 5 × 6% ins.; pp. 8.

This pamphlet gives sketches and particulars of galvanized iron test plates which were painted with various paints and immersed in water for 48 and 106 days. The company's gaivanic varnish shows up well.

POWER TRANSMISSION MACHINERY.—W. A. Jones Foundry & Machine Co. 59 South Jefferson St., Chi-cago, Ill. Paper: 5½ x 7¾ ins.; pp. 72. This is a catalogue and price list of a varied assort-

ment of equipment and supplies, including iron and wooden pulleys, shafting, couplings, clutches, belt-tighteners, tension carriages, conveyors, link helting, and general supplies.

FENCES AND GATES.—Jones National Fence Co., Columbus, O. Paper; 6×9 ins.; pp. 24.

This is a description of the Jones wire fence, which consists of longitudinal wires connected (after being strung) hy vertical wires, secured to the main wires hy them and attaching clamps. The fence is made for railfarm and garden use, and is used as a covering for a special fence gate having a pipe frame and posts.

ELECTRICAL MACHINERY.—The Bullock Electric Mfg. Co., Cincinnati, O. Paper; 9 × 6 ins.; pp. 62.

This handsome publication contains half-tone engrav-

angs and brief descriptions of the company's various types of dynamos, motors, etc., together with a number of engravings of the motors applied to printing presses, machine tools, etc. Some of the motors are of the reversible, variable-speed type.

APPLICATIONS OF ELECTRIC POWER.—The Bullock Electric Mfg. Co., Cincinnati, O. Three bulletins, 7% × 10 ins.; pp. 8 each.

One of these hulletins is devoted to slow-speed directconnected motors for operating newspaper presses; another to generators directly connected to different makes of steam engines, and the third to multipolar generators and otors for direct-current lighting and power.

ASPHALT BLOCK PAVEMENT.—New Castle Asphalt Block Co., Pittsburg, Pa. Paper; 6% x 5 ins.; pp. 83. This is a very neat and well-lilustrated pamphlet, de-

scribing the mannfacture of the paving blocks, illustrating streets paved with this material and giving tables of the amount of work done in various cities up to and during 1898. There are also a number of testimonials from city engineers and other municipal officers.

GAS ENGINES.—New Era Iron Works Co., Dayton, O. Paper; 8% x 6% ins.; pp. 32.

The "New Era" gas and gasoline engines are of the horizontal, single-cylinder, four-cycle type, and the largest are of 125 HP. The engines have center cranks, with two heavy overhanging flywheels. The pamphlet shows the consecution of the engine, and its application to pump-ing and electric light plants. A number of testimentals are given.

POWDER AND SHOT.—The King Powder Co. and the Peters Cartridge Co., Cincinnati, O. Paper; 374 x 6% ins.; pp. 48; 3% x 6 ins.; pp. 6.

The larger of these two pamphlets describes the various explosives for sporting and hlasting purposes, the Peters shot and cartridges. It contains also the rules of the National Rifle Association and the Amer Shooting Association, and the game laws of the Un The smaller pamphlet is devoted to the Rex

250-VOLT ENGINE TYPE POWER GENERATOR.-inghouse Electric & Mfg. Co., Pittsburg, Pa. Pa 7×10 ins.

This is number 62 of the series of Westinghouse standard circulars. It is published to call attention to a line of direct-current generators constructed particularly for supplying power to motors operating machine tools. cranes, elevators, ventilators, pumps and other machines in factories, mills and mines. They are designed to operate 220-volt motors, thus allowing 30 volts drop on the lines. The special features of design are briefly mentioned and a table of standard sizes and dimensions is

ENGINES AND BOILERS.—Houston, Stanwood & Gamble, Checknoati, O. Paper; 3% × 6 ins.; pp. 32.

This firm manufactures single and double cylinder horizontal engines and tubular and loco-tubular bollers. The contain engines are all fitted with slide valves, and it is claimed the special construction permits the use of high meane pressures, so that the engines will give as good by as short-stroke, high-speed automatic single-engines. Compound engines are built for high pressures and variable loads.

WELL-DRILLING MACHINERY.—American Well Works, Autora, ill. Toree pamphiets; paper; 6 × 9½ ins.; pp. 48; 6 × 9½ ins.; pp. 32; 3½ × 5% ins.; pp. 32.

The two larger pamphiets contain descriptions and prices of the various machines, appliances and supplies used in well drilling and pumping. These include air compressed deep-well pumps, continuous flow numps working sors, deep-well pumps, continuous flow pumps, working barreis and heads, drilling rigs, etc. The smaller pamph-let contains mainly testimonials as to the use of the company's rigs, and prices of pipe and tubes.

9	RAILWAYS.

ARKANSAS.—A bill has been introduced into Congress enacting that the time for the completion of the incline railway upon West Mountain reservation, Hot Springs, Ark., be extended for three years. The right of way has been cleared and the road practically graded up the side of the mountain.

of the mountain.

ARKANSAS & NORTHWESTERN.—Contracts will be let in March, according to reports, for the grading for this proposed railway from Hope to Stamps, Ark., 24 miles. Surveys have been made, and the maximum grade will be 1%. A 45-ib. rail will be laid. W. Y. Foster, Pres., Hope; Gus Knoble, Ch. Engr., Stamps, Ark.

BOYER VALLEY.—M. Vincent, Onawa, Ia., bas been awarded the contract for 31 miles of grading for this new line between Mondamin and Ute, Ia. The grade will be heavy most of the way, with several deep cuts. At Mondamin will be used as a reserve switch yard, in case of a grain blockade, such as the Northwestern experienced in 1898. This company was incorporated Oct. 5 by officers of the Chicago & Northwestern Ry. Co., 22 5th Aye., Chicago.

Ave., Cblcago.

BUCKEYE COAL & RAILROAD.—This company was incorporated in Ohlo, Feb. 15, with a capital stock of \$250,000, to construct railways to its mines, etc. The incorporators are: James H. Hoyt and Gustav Von Dersteiner, of Cleveland, O., S. D. Paine and Glibert D. Preston, of Columbus, O., and Ben H. Akin.

BUFFALO & SUSQUEHANNA.—H. Herden. Ch. Engr., Galeton, Pa., informs us that he is not aware of any projected extension of this line from Wellsville, N. Y., on, as currently reported.

CAROLINA & NORTHERN.—The Atlantic Seaboard Co.

currently reported.

CAROLINA & NORTHERN.—The Atlantic Seaboard Co., Bourse Bldg., Philadelphia, Pa., will soon begin the construction of this line from Goldsboro, N. C., via Lumberton to a point in South Carolina, about 45 miles, according to reports. The company was incorporated, Jan. 10, with a capital stock of \$500,000.

CASTINE & EASTERN.—The legislature of Maine has been petitioned for a charter for this company, which proposes to huild a standard-gage railway from Brooksville, opposite Castine, to Hancock, via Penohesock, Sedgwick, Biuehili, Surry and Elisworth, Me., motive power to be either steam, electricity or compressed air. J. N. Greene, E. E. Chase and others.

E. E. Chase and others.

CINCINNATI NORTHERN.—W. D. Williams, Ch. Engr.,
Van Wert, O., Informs us that the proposition to extend
this line from Franklin into Cincinnati, O., is only rumor.
At present the company enters Cincinnati over the Cincinnati, Lebanon & Northern Ry.

At present the company enters Cincinnatil over the Cincinnati, Lebanon & Northern Ry.

COPPER RANGE.—Wm. A. Paine, Pres., 27 State St., Boston, Mass., Informs us that cash has been paid in for the completion of this line from Calumet to Greenland, Mich., on the Chicago, Milwaukee & St. Paul Ry. A further extension to Watersmeet, on the Chicago & Northwestern Ry. is also projected, making a total length of 70 miles. Thomas Appleton, Engr., Houghton, Mich. FORT SMITH & WESTERN.—An act has been passed by the House of Representatives authorizing this company to construct and operate a railway through the Choctaw and Creek Nations, Iudian Territory. The directors are: John Valle, Fort Smith, Ark.; George Hayden, Ishpeming, Mich., and others.

GREAT EASTERN.—J. H. Macleary, Gen. Mgr., Suffolk. Va., informs us that hids will be received for the construction of this new railway by March 10. The route is from Seima to Douglas Bay, on Palmaco Sound, via Snowhill, Washingtou and Pantego, N. C., 142 miles. The surveys were completed, but some changes are now heing made, as it was first expected to go to Goldsboro. Ahout 50 miles of right of way have been obtained, and money has heen secured. A large force of men is now making about 1,000 ties a day. J. W. Lynch, Pres., Kinston, N. C.; J. C. Turner, Ch. Engr., Snowhill, N. C.

GULF & SHIP ISLAND.—S. S. Bullis, Gen. Mgr., Guif-rect. Miss. informs us that 30 miles of read has praced.

secured. A large force of men is now making about 1,000 ties a day. J. W. Lynch, Pres., Kinston, N. C.; J. C. Turner, Ch. Engr., Snowhill, N. C.

GULF & SHIP ISLAND.—S. S. Bullis, Gen. Mgr., Guifport, Miss., Informs us that 30 miles of road has practically been located, and that the company will huild. The proposed route is from Hattlesburg. Miss., north 40 miles. J. T. Joues, Pres., Buffalo, N. Y.; J. B. Hatch, Ch. Engr., Hattlesburg.

KNOX CREEK RY. & LUMBER.—Reports state that this company has heen organized with \$150,000 capital stock, to operate lumber milis at Welch, W. Va., with a capacity of 100,000 ft. a day. Among those luterested are: W. C. Ivey, C. J. Johnson, E. R. Monroe and Chas, E. Heald, all of Lynchburg, Va.

MARSHALL, Timpson, Tex., informs us that work is progressing on the first 20 miles of this line to Carthage. Tex. The projected length is 100 miles, from Marshali to Timpson, via Carthage and Gary. The company has the contract. Charles Hanks, Ch. Engr., Timpson.

MISSOURI MIDLAND.—Construction work is expected to hegin in March on this new line from Columbia to Huntsville, Mo., nine miles. Surveys have been made. Several bridges will be needed, and 60-lb. ralls will be laid. Charles Wiggins, Pres., 404 Bank of Commerce Bidg., Robert Moore, Ch. Engr., Laclede Bidg., both of St. Louis, MONROE.—Reports state that the Monroe Construction Co. will hegin the construction of this line, next month, which is projected to run from Fort Smith, Ark., to New Orleans, La., and from Memphls, Tenn., to Galveston, Tex. The section between Monroe and Natchitoches, La., 20 miles, will be huilt first. A. L. Atkins, Gen. Mgr., Arcadia, La.; Ira W. Sylvester, Ch. Engr., Alexandria, La. MUSKOGEE, OKLAHOMA & WESTERN.—An act has passed the House of Representatives authorizing this company to construct and operate a railway through Okiahoma and the Indian Territory. J. T. Nelson, Secy. Indian Territory Consolidated Coal Co., Fort Scott, Kan., can probably give particulars.

ritory Consolidated Coal Co., Fort Scott, Kan., can probably give particulars.

ARTESIAN WELL.—Bridgeton, N. J.—The freeholders committee having the construction of the new insane hospital in charge on Feb. 10, 1899, awarded the contract for sinking a 6-in, artesian well at the hospital to Jos. W. Pratt, Westville, N. J., at \$2.50 a ft. The well will be fitted with the best material and will be completed in March. The well will probably have to be driven about 125 ft. The only other hid was submitted by Thos. II. Harper, Philadelphia, at \$2.75 a ft.

SPECIAL CASTINGS.—Worcester, Mass.—The following bids were received by R. B. Dodge, Jr., Mayor, Feb. 13. 1899, for furnishing iron castings to the water depart ment: Rice, Barton & Fales, 2.7-16 cts. new, 40 cts. a 100 for old, castings: Wheeler Foundry, new 24 cts., old 50 cts.; Arnold & Pierce, new 24 cts., old 50 cts.; Holyoke Machine Co., new 2½ cts., old 30 cts.; Prespey Pero, new 24 cts., old 50 cts. (accepted).

INDUSTRIAL NOTES.

THE LUFKIN RULE CO., Saginaw, Mich., is introducing a 50-ft. steel measuring tape known as the "Reliable Junior." It weighs but 5 oz., including its leather case.

THE BULLOCK ELECTRIC MFG. CO., of Cincinnati, O., announces that it has moved its manufacturing plant to East Norwood, O., but the mail address will continue to be at Cincinnati. The new plant is said to have no shafting or heiting, every tool having an independent motor with a new method of variable apeed control.

THE AMERICAN FOUNDRY & CAR CO., the incorporation of which was noted in our last issue, is reported to have also secured control of the Buffalo Car Mfg. Co. and the Niagara Wheel Co. Buffalo, N. Y., the Ensign Mfg. Co., Hustington, W. Va., and the car plant of Pennock Bros., Minerva, O.

THE LAKE ERIE ASPHALT BLOCK CO., of Pittsburg,

MIS. CO., HUSTINGON, W. VA., and the car plant of renock Broa., Minerva, O.

THE LAKE ERIE ASPHALT BLOCK CO., of Pittsburg,
Pa. (in which the New Castle Asphalt Block Co., of the same city, is interested), is huilding a new plant at Toledo, O., for the manufacture of asphalt paving blocks. The New Castle company laid about 110,000 sq. yds. of this paving during 1898.

THE BALTIMORE & OHIO R. R. CO. has purchased 30,394 cars and 218 locomotive; since March 1, 1896. The company recently placed orders with the Pressed Steel Car Co. and the Carnegie Co. for 5,009 steel coal cars and has also recently purchased five postal cars, ten express cars, ten combination cars and six dining cars.

THE VIRGINIA COAL. IRON & RY. CO., which was re-

press cars, ten combination cars and six dining cara. THE VIRGINIA COAL. IRON & RY. CO., which was recently organized with \$5,000,000 capital, has acquired the South Atlantic & Ohio R. R., 71 miles long; the Bristol; Elizahethon & North Carolina Ry., 22 miles long, and Iron furnaces at Bristol. Tenm., and Marion, Maxmeadows, Pulsaki, Salem and Roanoke, Va., including 6,000 acres of iron ore land and 125,000 acres of coal land. Mr. Geo. L. Carter, for ten years past President of the Carter Coal & Iron Co., has been elected General Manager of the new company.

ELECTRIC LIGHTING.

CENTRALIA, ILL

Sealed proposals will be received by the City Council of the City of Centralia, Illinois, and opened in open Council meeting at 8 o'clock p. m., on the 7th day of March, A. D. 1899, for furnishing and operating fifty-three ore electric arc lights for street lighting in said city for a period of five years, accordi to plana and specifications now on file in the office of City Attorney J. J. Bundy.

Ail hids shall be sealed and endorsed and ddressed to M. E. Drum, Chairman. Each hid shall be accompanied by a deposit of \$100 or a certified check made payable to A. Saxer, City Treasurer; checks or deposits to be returned as soon as hids are opened and disposed of.

The Council reserves the right to reject any

Centralia, Iliinois, Feb. 9th, 1899.

ELECTRIC LIGHT PLANT.

BALTIMORE, MD

Proposals, endorsed "Proposal for Electric Lighting Plant at Mount Royal Pumping Station," addressed to the Board of Awards of Baltimore City, will be received at the office of the City Register, City Hall, Baltimore, Md., until 12 o'clock, noon, Wednesday, March 1st, 1899, for furnishing all the materials and labor required for installing a complete electric lighting plant for the Mount Royal Pumping Station, Baltimore.

Copies of the plans and specifications may be obtained at the office of Henry Brauns, Architect. Room 29. Builders' Exchange Building. Baltimore, where explanations of the same will be given by James E. Hewes, Electrical

All proposals must be accompanied by tified check for five hundred dollars (\$500). made psyable to the Mayor and City Council of Baltimore; and the successful bidder will be required to give satisfactory bond for the faithful performance of the agreement, in smount equal to double the value of the con-

The Board of Awards reserves the right to reject any or all bids,

By order of the Board of Awards.
