## RECOMMENDATION:

1. As the Soseiryō was turned over to the Social Education Society for the purposes of organizing a Social Activity Program, such as having buildings used for public affairs of various organization; to accomplish the objectives, it would be better to organize a CPH activity program for that vicinity then institute a Womens College for making foreign dresses.
2. As this building was donated to the Kencho for the above purposes, I believe that a better program must be set up to accomplish its objectives.
3. There is no CPH in Wakayama City and Soseiryō will be a ideal place for a model CPH of Wakayama Prefecture. If money determines the maintenances of the building I believe the building must be turned back to the Kencho for a better utilization.
4. This recommendation may be pushing the Women's College afit of existence for the presnet time, but I believe, schools of that kind must be established in different basis.
5. After the institution and organization that are occupying the rooms in the Prefecture Library moves, the Kencho is figuring to organize a CPH set up in the Library, but I still believe that the library must be left to occupy the whole building as a one of cultural centers of the Prefecture.
6. In the objectives for the utilization of the Soseiryō, it can be used for a hostel who comes to Wakayama on visit from outside of the Prefecture. So long as it is, it may be used as a Youth Hostel, which can be planned out as one of the Youth Hostels.
