REMARKS

1. In each year during from 1942 to 1944, the actual number of the personnel exceeds the authorized strength. This is because in those years the authorized strength was reduced in order to curtail the expenditure and it was approved, to preserve temporarily the surplus members as outside the authorized strength.

2. The actual number in 1945 and in 1946 exceeds the authorized strength. This is due to the fact that in those years demobilized persons from the army and navy were temporarily preserved as surplus outside the authorized strength, on account of the authorized strength has exceeded to its maximum authorized strength.

3. Besides, in November 1946, 1,200 men in all were temporarily removed from prefectures as shown under list A and were transferred to prefectures as under list B to meet temporary need to guard the barracks, residences, warehouses, etc. of the Occupation Troops and goods to be returned to the Allied countries and goods for reparation and to patrol coasts.

This action was temporary one, so the authorized strength list is not changed.

1. Request black on white photostats (seven copies each) of the attached 17 charts and tables. As these photostats are to be bound in a volume that opens from the bottom, binding space must be left at top.

3. Size: All sheets to be reduced to standard typewriter sheet size (8x 10½ inches), with the full 13 inch length of the original reduced to this size. This will provide the necessary binding margin at the top of each. The large sheet ("PRESENT ORGANIZATION CHART - TOKYO-TO POLICE SYSTEM) should be reduced so that it is in the lowest possible position on the 8x11 reproduction.

See sample negative attached
(Positive prints desired).
