7. At least forty-eight (48) hours prior to the effective date of this memorandum the Ministry of Communications will issue the following instructions to its representatives at all public acceptance offices in Japan where EFM and SCM messages as described in paragraph 6 above will be filed:

a. Effective 0001 hours 15 August 1947, and thereafter until further notice, only BAFSVs will be accepted in prepayment of the charges for EFM and SCM messages from Japan to points in the British Commonwealth.

b. As soon after the close of business on 31 August 1947 as the Ministry of Communications will direct, each public acceptance office concerned will forward to the Treasury of the Ministry of Communications any amount in BAFSVs which is in excess of the amount authorized to be withheld for change making purposes by that office, as set forth in inclosure 1.

8. The Ministry of Communications will supply each of the public acceptance offices for EFM and SCM messages from Japan to the British Commonwealth shown in inclosure 1 of this memorandum, with a list of rates in sterling and payable in BAFSVs, showing charges for all classes of messages currently authorized for transmission from Japan to any point in the British Commonwealth. Inclosure 1 is a list of the public acceptance offices authorized to withhold this currency, together with the amount allocated to each public acceptance office. The Ministry of Communications is further authorized to withhold, as an addition to the amount listed in inclosure 1 for its own Treasury, sufficient BAFSVs to offset any deficiency in the total amount

BASIC: Memo for JG (SCAPIN 1762)

of £ 325. 0. 0 which may be occasioned by one or more of its public acceptance offices not having accumulated the full amount authorized for that public acceptance office. The amount so held by the Treasury of the Ministry of Communications will be reflected in the semi-monthly revenue collection report referred to in paragraph 20 below. The total amount in BAFSVs withheld by the Ministry of Communications, in its Treasury and at its public offices for change making purposes, will be at all times exactly £ 325. 0. 0 in BAFSVs. Any public acceptance office which has not accumulated by 31 August 1947, sufficient BAFSVs to equal the amount authorized, that public acceptance office is authorized to withhold such BAFSVs collected in subsequent semi-monthly periods, or as the Ministry will direct, until such time as the total amount authorized to be withheld for change making purposes in BAFSVs by that office, in accordance with inclosure 1, has been accumulated. 10. The amount in BAFSVs in the possession of any public acceptance office will never be in excess of the amount collected since the last forwarding of collections to the Treasury of the Ministry of Communications plus the amount authorized for change making purposes. The transactions of each public acceptance office involving BAFSVs will be shown by the accounting records of that public acceptance office and such records will be open for inspection at all times by representatives of the Financial Adviser to the General Officer Commanding, British Commonwealth Occupation Force, and to representatives of General Accounting Section, General Headquarters, Supreme Commander for the Allied Powers.

11. The amount authorized for change making purposes must be withheld from the Ministry of Communications' share of the revenue derived from receipts for prepaid messages, described in paragraph 6 above, and must not be withheld from the share due the British Carriers.

12. The amount withheld for change making purposes at any public acceptance office and the number of public acceptance offices shown on inclosure 1 may neither be increased nor decreased without the approval of General Headquarters, Supreme Commander for the Allied Powers; except as provided for while accumulating the withholding fund. By pre-arrangement, large denominations of BAFSVs may be exchanged by public acceptance offices of the Ministry of Communications with the nearest British Commonwealth Paymaster for small denominations so that a proper balance in denominations will be available to facilitate change making.

13. On 20 September 1947, the Ministry of Communications will deposit with the "Transfer Agent for British Commonwealth Telecommunications Funds" (hereinafter referred to as the "British Transfer Agent") the total amount of BAFSVs that has been collected by its public acceptance offices for payment of messages

BASIC: Memo for JG (SCAPIN 1762)

for the period 15 August to 31 August 1947, less the amount of £ 325. 0. 0 authorized to be held for change making purposes. Thereafter the Ministry of Communications will render statements and make deposits in accordance therewith to the "British Transfer Agent" on a semi-monthly basis, the periods of which will be from the 1st to the 15th of the month inclusive, and from the 16th to the last day of the month inclusive. The deposits to be made in accordance with the above will be accompanied by five (5) copies of a preliminary statement showing, from the records of the Ministry of Communications, the amount in pounds sterling (BAFSVs) due in net settlement for all traffic in the period involved (or as a result of adjustment made for previous periods) either from the Japanese Ministry of Communications to the British Carrier or vice versa. The "British Transfer Agent" will forward the statements to the carriers concerned, endorsing one as a receipt to be returned to the Ministry of Communications.

14. If the net balance is in favor of the British Carrier, the "British Transfer Agent" will convert to pounds sterling from the amounts deposited with him the amount due to the British Carrier in net settlement and will convert the balance to Japanese Yen for payment to the Ministry of Communications. If the net balance is in favor of the Ministry of Communications, the "British Transfer Agent" will convert the entire sum deposited to Japanese yen for payment to the Ministry of Communications and will, in addition, deposit in an account designated by the Supreme Commander for the Allied Powers, in sterling, the net sum due to the Japanese Government from the British Carrier, such sum to be under the control of the Supreme Commander for the Allied Powers without restrictions.

15. The Japanese Ministry of Communications' share of revenue for the radiotelegraph services performed in accordance with this directive will be:

- (a) The applicable Japanese terminal charges.
- (b) One-half of the radio rate computed after deduction of the Japanese terminal charge and the U.K. terminal and beyond charges.

16. The British Carriers' share of revenue will be:

- (a) The applicable U. K. terminal charges plus the beyond charges.
- (b) One-half of the radio rate computed after deduction of the Japanese and U. K. terminal charges and the beyond charges.

The figures for this preliminary report are to be collected by means of rapid communication from outlying public acceptance offices, in order that no delay will be incurred in submitting the report to the Financial Adviser.
