## STANDARDS OF PRACTICE FOR DIRECTORIES

Adopted June 23, 1914 at the Convention of American Directory Publishers held at Toronto, Canada, in conjunction with the Convention of the Associated Advertising Clubs of the World.

The Publisher of a directory should dedicate his best efforts to the cause of business and Social Service, and to this end pledge himself:

1. To consider, first, the interests of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.
4. To increase public Knowledge of what directories contain, to study public needs, and so far as possible make directories supply them; to revise methods and classifications so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of Buyer to Seller.
5. To decline any advertisement which has a tendency to mislead, or which does not conform to business integrity.
6. To solicit subscriptions and advertising solely upon the merits of the publication.
7. To avoid misrepresentation by Statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers rather than on number of copies sold.
8. To co-operate with all organizations and individuals engaged in creative advertising work.
9. To avoid unfair competition.
10. To determine what is the highest and largest function of the field which he serves, and then to strive in every legitimate way to promote that function.
