

THE CRICKET TOURNAMENT—SEATTLE ELEVEN.

INQUIRING INTO CHEHALIS DISASTER

EVIDENCE AT FIRST DAY'S PROCEEDINGS

Skipper and Other Officers of Steamer Princess Victoria on the Witness Stand.

(Special to the Times.)

Vancouver, Aug. 22.—Of six witnesses examined yesterday, the opening day of the Chehalis inquiry, five were officers of the Princess Victoria. The sixth was Barrister V. W. Innes, one of the Victoria's passengers on the day of the accident.

The feature of the testimony as a whole was the agreement of all six upon one of the most important points in the inquiry—the number of whistles sounded by Victoria. From Captain Griffin to Barrister Innes all said they distinctly heard two whistles, which, as was explained, meant that the Princess Victoria would go to the port side. These, the captain added, were given as quickly as it was possible to do so when danger was seen.

Here F. Peters pressed the captain for his reason why he had not ordered three whistles. The skipper said the vessel would go astern. Though the captain had ordered a reversal of the engines and telegraphed full speed astern, he admitted that he had not ordered three whistles.

"For a moment I had my mind made up to do it," said the captain. "Then I thought it would mix matters worse than they were."

"I suppose you thought the collision so imminent, that it was useless to blow the three whistles?" said Commander Hunt.

"Yes," said Capt. Griffin, "I concluded that that would be safer."

If there was one dramatic moment in the inquiry yesterday it was when the examination reached this stage, even exceeding in interest the questions regarding the changes in the log. Throughout his two hours upon the witness stand, the captain was cool and collected. He gave his evidence slowly, and at times with apparent deliberation. To opposing counsel he did not at any time assume the attitude of an unwilling witness, nor to counsel for the C. P. R. did he seem too anxious to reply. He treated both equally.

Frequently to questions of the court and counsel he would lean far over the railing of the judge's stand resting himself on outstretched arms or gaze seemingly at a fixed point on the opposite wall before replying. When with counsel supplied both by the Union Steamship Co. and the C. P. R. and with miniature vessels, mere toys, supplied by Mr. Bodwell, the captain described the accident as he saw it, his manner of giving his evidence was unchanged.

The other four officers of the Princess Victoria, examined yesterday were Chief Officer Gunn, M. E. Hilliard (quartermaster), Duncan Stewart (fourth engineer), and Chief Engineer Brownlee. Not only did all agree as to the sounding of two whistles, but they also corroborated the captain's account of the accident in detail that it was the fault of the Chehalis.

Quartermaster Hilliard, the first witness when the commission resumed in the afternoon, agreed with the captain and the chief officer as to the strength of the tide in the narrows, about nine knots. As to the position of the launch and the Chehalis, his testimony was also in effect the same. He still further agreed that at the time of the collision the Princess Victoria was making slight speed astern. This the captain had put at three or four knots.

Duncan Stewart, an engineer on the Victoria, added little to the accounts given. He gave some interesting figures about the Princess. One of these was that it took only four seconds to reverse the engines. The engine room log showed a lapse of a minute and a half to stop and to reverse. They had received no orders to make up speed on that or any day. He agreed that two whistles were blown.

Chief Engineer Brownlee said: "When I first saw the Chehalis she was about three hundred yards distant. I heard the whistles blow, two of them, and when the Chehalis shot across our bows, the same instant the telegraph sounded, I ran down to the engine room and by the time I got there the engine had reversed and the ship was going full speed astern. I came up and saw Mr. Shallerger in the water near our vessel. While he was being rescued I went to the other side of the Princess, but saw nothing there."

Mr. Bodwell asked the witness: "Before you saw the Chehalis change her course, did you detect any trouble?" "No," replied the engineer.

Recalling Chief Officer Gunn, Mr. Martin questioned him as to why the Princess Victoria had the day after the accident altered her course in taking the narrow, passing the Burnaby buoy to the east, the usual course, while going to the west of the usual course on the day of the accident.

"Because of two sailboats being anchored there, I heard Captain Hickey say that was the reason," said Chief Officer Gunn.

V. W. Innes, a passenger on the Princess Victoria on the day of the accident, was the last witness. He had heard the two whistles distinctly. They quickly followed one another, and he thought both were those of the Princess.

The court is in session again to-day.

THE CRICKET TOURNAMENT—BURRARD TEAM.

NELSON'S MAYOR VISITS VICTORIA

INTERESTING CHAT ABOUT KOOTENAY CITY

New Municipal Electric Light Plant Nearing Completion—Regarding Fire Chief Deasy.

Mayor W. G. Gillett, of Nelson, believes in his city. He is enthusiastic over its prospects, and in the course of an interesting conversation yesterday afternoon mentioned many things on which his confidence is founded. Deeply interested in sports of all kinds, he is one of the party who accompanied the Nelson cricket club to the tournament now in progress.

"By October 15th, Nelson will have a complete municipal electric light plant," he said. "At present we are able to supply about two-thirds of the lights in summer and one half in winter, but when the machinery is installed in the new power house at Bonnington, falls there will be a capacity of 5,500 horse-power, enough to supply a city of 20,000 inhabitants. We also have a splendid system of waterworks. At present we get the supply from Cottonwood lake, but an expenditure of \$4,000 will enable the city to connect also with Clearwater lake, doubling the supply now available.

"We are using a lot of water in Nelson. In addition to the domestic services there are fifteen power motors being supplied. With all these running, however, there is never a pressure of less than 115 pounds at the city hall. The C. P. R. uses city water at its workshop for testing boilers, merely at the natural pressure, and as this amounts to ten pounds when the motors are not running, there is no necessity for artificial assistance.

"Speaking of water naturally brings up the question of fire protection. I want Victoria to know that we value Tom Deasy, our present fire chief, and former occupant of the same position here. Since his appointment we have only had one \$125 fire, and there has not been a single alarm for four months. He seems to devote his attention to preventing fires, and Nelson people consider his appointment one of the best that could have been made.

"Victoria is a lovely city, but you must not forget there are others. Flowers and fruit grow perfectly in Nelson, and I am even tempted to say that the capital is exceeded in the beauty of its gardens by our city by the lake. Fruit grows wonderfully well in our part of Kootenay, the apple trees have to be pruned up. Roses are even yet in full bloom, although they have been blossoming since early in June. Of course, to bring about these results requires the use of lots of water, but we have been able to use two million gallons a day without causing any trouble.

"Business in all lines is prosperous in Nelson. The Hall mines smelter is working full blast, obtaining its supply of ore from the Arlington, Hunter V. Hewitt and other mines, principally in the Shocan district. Since the Trail smelter was temporarily closed for repairs it also draws considerably from the St. Eugene, at Moyne. Lumbering is very active. Prices are good and there is a market for all that can be produced. Wholesalers and merchants generally are in a confident state of mind.

"There has only been one serious trouble recently that might have operated as a set back to Nelson. As has been previously reported in the press, a company has been organized to locate and develop a large tract of land on the mountains surrounding the city, divided it up and sold it to United States citizens. Some of these men, who appeared upon the scene and found some of them, their land on the almost perpendicular side of a hill, or on top of a big bluff, there was a kick. At first the agents of the syndicate claimed there had been no misrepresentation, but the board of trade took up the matter with energy and finally all the money they had paid was refunded to them. There is lots of good land for fruit growing that is producing large crops, as will be shown at the annual fair that opens in Nelson on September 15th.

Mayor Gillett will remain in Victoria until the end of the present week.

MINING AT COWICHAN.

Several Claims Recorded in Vicinity During Past Few Days—Bella Cooola Prospects.

Mining activity in the vicinity of Cowichan Lake still continues. The recent finds of copper-gold ores have stimulated further prospecting. As a result, several claims were recorded during the past few days, among them being the Black Bear, on the southeast branch of Robertson river, by W. G. Moody. A group of four adjoining locations has also been recorded, their names being the Koko, by H. H. Reid; the Scotty, by Owen Graham; the Hall, by John Hall; and the Rose, by William Gott.

Another claim was also recorded by S. out the American continent. This is described as being on the summit of a mountain two and a half miles west of Bella Cooola post office, and one mile north of Burrard Channel.

Adding this is another called the Spokesman-Review, located by M. V. Scribner.

ARE WORKING FOR MORE POPULATION

HOW VANCOUVER IS BEING ADVERTISED

The Secretary of the One Hundred Thousand Club is Visiting Victoria.

Norman Norcross, secretary of the One Hundred Thousand Club, Vancouver, is in the city to-day, having come down from the mainland last evening, to see his father through a serious operation performed in the St. Joseph hospital. The One Hundred Thousand Club, Mr. Norcross says, was organized in March last, and its first public demonstration of its existence took the form of a parade on April 6th, marking the 25th anniversary of the city. The parade was a magnificent one, the largest Mr. Norcross thinks that was ever held in the West, and it served to show the resourcefulness of the city. There are a great many people constantly coming into Vancouver, and an exhibition of the kind mentioned, the secretary of the club pointed out, helps to assimilate the population. A great many people were indifferent about displaying floats in the parade, but these people after they saw the parade were much relieved to know that they had fatted in doing so. Now it is proposed to hold a great home industrial exhibition on September 1st, tentatively coming in, seeking information about the place and country. Mr. Norcross says that one of the schemes for attracting attention to the province and to their city in particular is the establishment of a bulletin system. These are numbered and issued according to the demand. A circular is sent forth containing statements about the city or possibly about some part of the province, and if the recipient desires to get further information along the line mentioned in the bulletin then it is forwarded without delay.

"There is too much of the province to be referred to in one bulletin, and if the way of information about any particular part we will provide him with all that he needs," says Mr. Norcross. "We are not confining our work to the mainland, but to the island as well. For instance one feature which we cover is that there is lots of crown land available in the province, and I have adopted as a motto, 'there is but one crop of land, and there will never be another.'"

Mr. Norcross predicts that Vancouver will be one of the largest cities in Canada, but she will not be the only city on the coast. He states that at present there is a growing stream of people entering the Bulkley valley, the Ootza lake country and the Nechaco valley. The latter travel via Bella Cooola and are going in large numbers.

The One Hundred Thousand Club has a membership of 800, and is constantly growing.

MARKED INCREASE IN LOCAL TRAVEL

SHOWN BY RECORDS OF TRAMWAY COMPANY

Thousands More People Paid Fares This Summer Than Last Year—Interesting Statistics.

The statement was made by the Times yesterday that Victoria's reputation as a tourist resort was gradually spreading and taking root throughout the American continent. This is proved, not only by a glance at the hotel registers, but by the increasing number of people using local tramcars.

Many Victorians predicted that there would be a marked falling off in the transient travel this year. They argued that the Lewis & Clarke exposition at Portland and the Dominion fair at New Westminster attracted the crowd of pleasure seekers to the Northwest, a considerable number of whom, naturally, found their way to the capital of British Columbia. Their inference was that without these drawing cards the number of visitors would not anywhere near reach last season's totals. But such calculations, although appearing reasonable at the outset, have been discounted. Rather than decreasing the travel to Victoria has taken on an upward trend that would scarcely be credited even by those most sanguine of this city's beauty, ultimately attracting the large throng of America's nomadic population constantly looking for some new resort, for somewhere to put in the hot summer months in comfortable and pleasurable surroundings. The foregoing is not an exaggeration. It is borne out by a glance at the official record of the numbers travelling on the B. C. Electric Railway Company's lines during the present summer months in comparison with last year.

In conversation with A. T. Goward, manager of the local tramway company, this morning upon the tourist question, the latter informed a Times reporter that the visitors were coming here in larger numbers than ever before. His ground for the assertion were the records of the company which he proceeded to quote as follows: In April 12,000 more people used the local cars than at the same month last year; in May the excess was 40,000; in June, 56,384; in July, 60,000. These figures spoke for themselves. He acknowledged that the increase in the number of fares collected might be attributed to some extent to the marked popularity of the Goreville park. But the advance shown could not be placed entirely at the doors of the recreation grounds. The local business was expected to be pleased as a result of their enterprise in making a summer resort at the Goreville of their own line. They did not believe that its effect was so marked as the increase in the records might be taken to demonstrate. Undoubtedly the general travel was advancing numerically. Victoria was becoming a recognized centre and it was to be hoped that the enterprising advertising campaign of the Victoria Development and Tourist Association would be continued with unabated energy.

A verdict of "accidental death" was returned at the inquest at Lambeth on Elizabeth Martin, seventy years old, who died from injuries caused by falling over a cat.

THE DOUKHOBORS ARE PROSPEROUS

MEMBERS OF COMMUNITY BUSY WITH HARVEST

W. Speers, Superintendent of Immigration, Tells of Conditions in the West.

(Associated Press.)

Winnipeg, Aug. 22.—The well known Doukhobor community, of which Peter Verigin is the head, was visited during the past few days by Wesley Speers, superintendent of immigration, who found the residents in the midst of the harvest operations of the heavy crops. In an interview Mr. Speers said:

"During the past few years complaints have been made from time to time to the department to the effect that irregularities had occurred in connection with the location of the homestead land of the Doukhobors, and the land was being held by them in violation of the law. These complaints have been fully investigated during the past year by officials of the department, and the report of a committee of investigation is now being considered and revised. There is disposition on the part of the government to ask the members of the Doukhobor community to conform in every respect to the regulations concerning the administration of public lands. There is a disposition on the part of members of the community to break away from them, and many have been independent, especially in Saskatchewan. Those who have separated themselves have uniformly done well and are becoming prosperous. This is, however, also true of the community which is in excellent condition and making material advancement. Their railway contract amounts to about \$200,000, and Peter Verigin told me that there would be a handsome profit for the community.

"The matters requiring adjustment in the colony involve no strenuous difficulty. Owing to the peculiar freaks and disturbances of earlier years, newspapers have devoted more attention to these difficulties than the real nature of the situation merits. Whether working as individuals or as a community the Doukhobors are making excellent progress, and will continue to do so. Details of the adjustment of the difficulties will be completed at an early date. These matters have now passed from the department of immigration to the Dominion land branch for supervision."

"In what condition do you find the people of the West generally?" Mr. Speers was asked.

"All our colonies in Manitoba, Saskatchewan and Alberta are very prosperous and hopeful," was the reply.

"They are made up of many nationalities, but there is no exception to the general rule of contentment, the crop of the present year is good and faith is now so thoroughly established that we can look with confidence to a continuance of the present flow of good settlers for all time to come. Nothing would of course contribute so much to this end as the large returns coming at the present time to agriculturists."

"Will the average wheat yield of this season exceed that of 1905?" was asked.

"I feel convinced that the average per acre this year will not equal that of last year, although the increased acreage may bring the total to the same total or in that neighborhood. The labor of harvest operations will be much lessened this year owing to the shortness of the straw, and farm work will be much lessened, and, so far as the supply of farm laborers is adequate for present needs, and there seems no reason to believe that there will be any real dearth of labor."

PLOT FAILED.

Disguised Pirate Boarded Steamer With Intention of Seizing Vessel—Ringleaders Arrested.

(Associated Press.)

Hongkong, Aug. 23.—A plan to hold up the British steamer Nanning, which trades between Canton and Wuchow, has been frustrated. A gang of disguised pirates boarded the steamer at Canton and were reinforced in numbers at way ports.

The greatness of their numbers aroused suspicion, and a careful watch was maintained. At the first sign of resistance the captain threatened to shoot. His prompt action led to the arrest of five of the ringleaders, who were delivered to the British consul at Wuchow.

THE REVOLUTION IN ISLAND OF CUBA

INSURGENTS READY FOR LONG STRUGGLE

Many Business Men are in Favor of Annexation by the United States.

(Associated Press.)

New Orleans, La., Aug. 23.—A special cable from Havana says:

"In spite of government denials the revolutionary movement in Cuba has assumed formidable proportions. The whole island is in a ferment over the uprising and it is impossible to predict at this time what the final result will be.

"The government claims that it will be able to suppress the revolt within two or three weeks, but conservative people do not believe that the revolution can be crushed so easily.

"The revolutionists have been preparing for the struggle ever since the presidential election, and the Palma administration has under estimated their strength.

"It is known that several cargoes of arms and ammunition have been landed in Cuba from the Florida coast during the past two months, and that the insurgents are abundantly supplied with ammunition.

"It is believed by many Havana business men that it will be necessary for the United States to intervene and annex the island before the revolution will be quelled. Annexation is openly favored by the commercial interests in all the large cities and towns in Cuba.

"The revolutionary leaders even prefer annexation to the United States to a continuance of the present conditions. The American residents of the island of Pines have taken sides with the revolutionists against the Palma government, and they are giving the insurgents all the aid possible.

"The title of Pines will be an important base of operation for the revolutionists."

Another Fight.

Havana, Aug. 23.—A fight with Bandera's band occurred at 3 o'clock this morning.

A force of one hundred mounted rural guards which had for three days been seeking to surround the insurgent's force, commanded by Bandera, finally succeeded in so doing after the commander had pitched his tents for the night. In addition to Bandera, two of his followers were killed, but not one of them was captured.

Leader Slain.

Havana, Aug. 23.—General Quintin Bandera, the famous leader of Havana province, who recently headed an insurgent band and began operations against the government, was killed early this morning in an encounter with rural guards.

ALLEGED CONSPIRATORS.

(Associated Press.)

Moscow, Aug. 23.—The trial of three persons, among whom is a daughter of General Kellar, charged with having been connected with the conspiracy against the life of Governor-General Douneassoff, began here to-day.

NOMINATED BY REPUBLICANS.

(Associated Press.)

Lincoln, Neb., Aug. 23.—In a strenuous session of twelve hours yesterday the Republican state convention nominated Geo. L. Sheldon for governor and Melville R. Hopewell for lieutenant-governor.

AMERICAN WON.

(Associated Press.)

Madrid, Aug. 23.—Last night Bobbie Waltham, the American, won the 50 kilometers bicycle race, lapse time 39:36 2/5. He was paced by a motor cycle.

RETURN HOME.

(Associated Press.)

San Sebastian, Aug. 23.—King Alfonso and Queen Victoria arrived here from England to-day and preceded without incident to the Miramar palace.

MANY REFUGEES REACH SANTIAGO

PREPARING TO CARE FOR NEW ARRIVALS

Valparaiso is Now Under Martial Law—Number of Business Houses Reopened.

(Associated Press.)

Valparaiso, Aug. 23.—Some of the business houses here reopened to-day for the first time since the earthquake. Telephone and telegraph communication with Santiago has been re-established, but the lines are almost exclusively used by the government officials.

The city is still under martial law, traffic ceases at 6 o'clock in the evening, and everybody is compelled to take part in the work.

The department of public works at Santiago has appropriated \$100,000 for the construction of sheds to shelter the refugees from Valparaiso and elsewhere, who continue to arrive at the Chilean capital in large numbers. The railroad line between Lima and Quillipe in addition to suffering from the earth shocks of August 16th, has several enormous crevices newly formed in its vicinity.

Valparaiso is still without street lights at night, but order is maintained, thanks to the severity of the authorities, who continue shooting all persons who are caught committing robbery.

"Among the buildings which fell at the time of the earthquake are the Palace of Justice and the Maritime Prefecture."

MRS. LANGTRY HISSED.

Followed From Theatre by a Hostile Crowd.

(Associated Press.)

London, Aug. 23.—Mrs. Langtry, who had two wins at the Folkestone races yesterday, also had an unpleasant experience in the evening. She had been advised to give a dramatic performance in the pavilion at Folkestone. The audience was incensed because the play presented was only a trifling South African episode, lasting about 20 minutes, and a hostile crowd followed Mrs. Langtry off the pier, vigorously hissing. The actress was escorted to her hotel by the police.

THE RIVAL CREWS.

Harvard and Cambridge Oarsmen Move to Putney.

(Associated Press.)

London, Aug. 23.—The Harvard and Cambridge oarsmen are expected to last night to be in readiness to move to Putney this morning. Their shells are being transported by rail in order to avoid possible injury by the sun. The Harvard men will be the guests of the London Rowing Club.

The intense heat of the last few days, yesterday was the hottest day of the year in London, with a reading of 87 degrees in the shade, has rendered serious practice at Bourne out of the question.

Billiards was brought into fashion by Louis XIV. of France in the 17th century, because his doctor ordered him to take exercise after his meals.

RUN DOWN BY TRAIN.

Stage Coach Wrecked—One Person Killed and Four Others Injured.

(Associated Press.)

Los Angeles, Cal., Aug. 23.—One person was killed and four others were injured late yesterday afternoon by the running down of a mountain resort stage at Asuzia by a Santa Fe passenger train. Mr. D. Rhodes, of Pasadena, was the person killed.

CUBAN INSURGENTS
CAPTURE CITY

SAN LUIS TAKEN AFTER
A SHARP ENGAGEMENT

Number of Men Killed and Wounded—
President Says There is No
Cause for Alarm.

Havana, Aug. 22.—President Palma in an interview with the correspondent of the Associated Press this morning said:

"Our situation at first has been one of unpreparedness as usual in such cases. We will take a little time to prepare, but there is positively no cause for alarm. The bands in Pinar del Rio are smaller than reported and poorly led."

Louis Herez, the last Liberal governor of the province of Pinar del Rio, has joined the insurgents' forces in that province.

According to reliable advices received here this afternoon the insurgents captured the city of San Luis in the province of Pinar del Rio.

A new party of fifty insurgents appeared to-day at Santa Cruz del Norte, Havana province.

Important Gain.
 Havana, Aug. 22.—The insurgents in the province of Pinar del Rio captured the first city there to-day.

At 9 o'clock this morning the force led by Pino Guerra, who is an ex-congressman and an influential man, and who was thought to be many miles eastward, and sundry other insurgent bands attacked San Luis, which is situated on the railroad about ten miles west of Pinar del Rio. A sharp and decisive engagement followed, during which a number of men were killed or wounded. The town was defended by less than 100 rural guards, 50 of whom surrendered to the insurgents and are now held as prisoners.

The insurgent forces are now in possession of the railroad station and of the town, which is resuming its normal condition. In the capture of San Luis, which has a population of about 10,000, the insurgents have obtained an important base for future operations.

It became known later in the day that practically all the inhabitants of the town of Aguacate have, with the Mayor, declared themselves 'insurrect against the government.

A later dispatch from Racho Velez, province of Santa Clara, says that the band of insurgents has been organized there under Col. Reinos, and it is believed that the Mendota is with them. Governor Nunez of Havana province, says that the organization of his loyal bands has begun.

Official Report.
 Paris, Aug. 22.—The Cuban legation received an official dispatch from Havana, dated to-day stating that the government has suppressed the revolution by a few wiretappers in three localities situated in the provinces of Havana and Pinar del Rio and that "Absolute

living (Cameron, and the president delivered his inaugural address.

Thirteen scientific sections of the association met in the University buildings. Perhaps the most interesting meeting was the one where the tuberculosis question was discussed. Papers were read by Dr. F. Montzambert, Ottawa, president; Dr. Samuel Dixon, commissioner of health, Harrisburg, Pa.; Dr. Jas. Robertson, M. H. O., Hamilton, Ont.; Dr. A. Gilchrist, Nice, France; Dr. Probst, secretary of state, B. O. H., Ohio, and Dr. H. Manley, New street, West Bromwich.

Dr. Probst stated that he did not believe that alcohol reduced tuberculosis, except very indirectly, yet it was unproved that alcohol could not be used beneficially in treating the disease.

A feature of the meeting was the announcement of the building and expensive sanatoria by Mr. Joseph Groves, M. B., Isle of Wight.

Another important section meeting was the one on the "White Pass."

The president, Sir Thomas Barlow, Bart., physician to the King, gave an address. The other physician to the King, Sir William Brondont, also spoke. His subject was the pathology and therapeutics of morbid blood pressure.

WHITE PASS RATES.
 The Railway Commission Opens Investigation at Dawson.

Dawson, Aug. 21.—The Canadian railway commission sent from Ottawa began its investigation of the excessive rates charged by the White Pass railway and steamer lines yesterday. Judge Kilham, of Ottawa, is chairman, and Dr. Mills, of Toronto, was the only other member present. Mr. Bernier, the third member, being unable to attend.

The charges are preferred by the Dawson Board of Trade and by others. Former Governor Condon represents the territory and Henry Bleeker represents the board of trade. F. L. Chri represents the White Pass. He came from Ottawa to Dawson with the commission. President Graves, of the White Pass, joined the steamer Skagway and accompanied them to Dawson.

Mr. Graves, General Manager Berdoe, and Traffic Manager Rogers are attending the session.

Counsel quoted railway rates in other countries and then put in evidence the White Pass tariff and the other tariffs. The railway counsel made the objection that the railway commission has no jurisdiction over the river division of the White Pass and none over the twenty miles of the company's railway on the Alaska side from Skagway to Summit of the hearing was taken up with putting in evidence expense bills, proof of the cost of maintenance and the like.

The White Pass counsel declared in opening that the road earns only a fair rate of interest and cannot afford to suffer any reduction in rates without going out of business. Counsel for the other side said the excessive rate prohibits the working of a vast area of low grade gold gravels, now idle.

TOURIST INJURED.
 Edinburgh, Aug. 22.—While a party of American tourists were driving down a mountain near Blairgowrie, county Perth, to-day, the horses bolted, wrecking the carriage. Miss Van Norden, of New York, was thrown out and sustained serious injuries about the head and spine. It is feared she will not recover.

NO DIFFERENCE.
 No distinction is made as to the kind of Piles that Dr. Leonard's Hem-Roid cures.

The names Internal, External, Bleeding, Blind, Itching, Suppurating, etc., are simply names of the different stages through which every case will pass if it continues long enough.

Piles are caused by congestion or stagnation of blood in the lower bowel, and it takes an internal remedy to remove the cause.

Dr. Leonard's Hem-Roid is a tablet taken internally. It is a permanent cure and no case of Piles has ever been found it failed to cure. Money back if it does.

A guarantee with every package. Price \$1.00 at any druggists, or the Wilson-Flye Co., Limited, Niagara Falls, Ont.

PRESENTATION OF PLATE.
 Shield, Silver Service and Cup For the Battleship Dominion.

Quebec, Aug. 22.—H. M. S. Dominion was the scene of gala this afternoon at 1 o'clock. Captain Kingsmill entertained His Excellency, the governor-general, Dominion Premier, Sir Wilfrid Laurier, Lieut.-Governor Sir Louis Jetté, French admirals and captains of the two French cruisers, and others to luncheon on board the battleship.

At 3 o'clock the presentation of the shield and silver service from people of Canada and the cup from the people of Halifax was made on board the ship in the presence of a large gathering of prominent people from all parts of the Dominion. The battleship was beautifully decorated for the occasion and the officers and crew were dressed in their full dress uniforms. Capt. Kingsmill, Commander Boyle and officers of the ship were all gathered on the quarter deck to receive invited guests and after this formality was gone through the crew came aft to take part in the function.

The committee from Ontario was composed of J. H. McEwen, chairman, Col. John J. Davidson, W. E. B. McMurrich, K. C., and W. D. Beardmore from Toronto, together with their ladies occupied prominent positions. Besides the members of the committee from Ontario, were Mrs. Fisk, Montreal, and Mrs. Galt, New York.

His excellency the governor-general introduced the members of the committee and in a short speech told of the pleasure it gave him to be present at the presentation which was not the gift from the people of Ontario but from the people of the whole of Canada.

Major John Bellinger has been appointed to succeed Major C. A. Devo as superintendent of the United States army transport service, operating from the Pacific Coast to the Orient and Alaska.

DOCTOR IMPRISONED.
 Gets Week in Jail For Kissing Young Woman in Hotel.

Toronto, Aug. 22.—Dr. Charles W. Wilson, of Montreal, who is prominent in medical and social circles of that city, and who is in attendance at meetings of the British Medical Association here, was this morning sentenced to a week in jail, without the option of a fine.

It appears that Dr. Wilson, while intoxicated in the King Edward hotel, approached a group of women tourists and seized one young lady named Severance, in his arms, a perfect stranger to him, and forcibly kissed her. The young woman's father had Wilson arrested. In the police court this morning Wilson said he was drunk at the time and did not remember anything about the affair. The sentences following in spite of his pleading to be let off with a fine.

WHEN THAT COLD COMES
 how is it to be cured? This method is simplicity itself. Rub the chest and throat well with Nervine, use it as a gargle and take some in hot water before retiring.

Hamilton's Pills. Next morning finds you refreshed, free from cold and bright as a dollar. These household remedies are wonderfully successful, and certainly won't fail in your case. For sale at all dealers.

FIGHT WITH LYNX.
 Fort William, Ont., Aug. 22.—After a desperate struggle with a lynx, which lasted fully five minutes, W. Sutherland, a C. P. R. brakeman, saved his own life by plunging a pocket knife in the animal. Sutherland at the way station of Oscego was sent to the rear of his train to flag. He had walked a short distance down the track when he was attacked by the lynx which succumbed only after being stabbed seven times. Sutherland was severely bitten on the face, but was not seriously injured. This is the second lynx killed in this district this summer.

BRIEF TELEGRAMS.
 A dispatch from Bellingham says: A change of wind saved Alger from further damage by forest fires. Smoke continues to grow dense from the fires in the vicinity.

Chas. E. Brown, the convicted customs silk examiner recently extradited from Canada and released from Sing Sing on a writ of habeas corpus, then rearrested on another indictment, was at New York on Wednesday released from the Tombs on \$20,000 bail.

In the ancient parish church of Cottisbrooke, Northamptonshire, is to be seen an old family pew with a fireplace.

YOU CAN SAVE \$13.15 TO-DAY
 \$11.85 A SUIT
 A well made to measure suit from your tailor costs \$25.00. Thousands of smartly dressed men in Canada save that \$13.15. They deal with us and pay only \$11.85.

WINNIPEG FIRE PROTECTION.
 Winnipeg, Man., Aug. 22.—The board of Manitoba and Northwest underwriters convened to-day in emergency meeting to hear the report of their inspector, Mr. Howe, concerning Winnipeg's water supply for fire protection which is believed to be dangerously inadequate. No definite action was taken by the underwriters, but it is understood a drastic one is contemplated at their regular meeting on August 30th.

DALNY A FREE PORT.
 Tokio, Aug. 22.—The Japanese government notified the foreign governments to-day that Dalen (the new Japanese name for Port Dalny) would be a free port from September 1st.

A HARD CASE OVERCOME.
 No longer necessary to suffer from muscular rheumatism. Every case can be cured. Ferrazole is a powerful remedy proved by David Johnston, of Ormond, Ont. "My wife was a dreadful sufferer," he writes. "For two years she could scarcely do any work. Her knuckles and joints swelled, causing torture. To get up or down stairs was impossible. She took boxes of Ferrazole and rubbed the sore places with Nervine. Improvement started and she mended fast. To-day she is quite cured, and we thank Ferrazole for her recovery." No remedy more popular with doctors than Ferrazole; it does cure, 50c. per box at all dealers.

MODERN HOUSEHOLDERS
 Are installing in their sleeping apartments and dressing chambers the Coplay Wash Basin. A present to your wife and family of one installed by us will make the home more cheery, and have a tendency to add years to your life.

THE NEW FRENCH REMEDY THERAPION
 This successful and highly popular remedy, used in the Continental Hospitals by Ricord, Kottan, Jobert, Volp, and others, combines all the desiderata to be sought in a medicine of the kind, and surpasses everything hitherto employed.
THERAPION No. 1
 in a remarkably short time, often a few days only, removes all discharges from the urinary organs, suppresses suppurations, and the use of which does irreparable harm by laying the foundation of stricture and other serious diseases.
THERAPION No. 2
 for sepsis of the blood, scurvy, pimples, spots, blotches, pains and swelling of the joints, secondary symptoms, gonorrhoea, and all diseases for which it has been too much a fashion to employ mercury, strychnine, &c., and the destruction of salivary teeth and ruin of health. This preparation purifies the whole system through the blood, and cures all venereal diseases, no matter how long standing.
THERAPION No. 3
 for nervous exhaustion, impaired vitality, sleeplessness, and all the distressing consequences of early error, excess, residence in hot, unhealthy climates, &c. It possesses surprising power in restoring strength and vigour to the debilitated.
 It is sold by Chemists and Druggists throughout the world. Price in England 2/6 and 4/6. In ordering, state which of the three numbers is required, and observe these Trade Marks, which is a fac-simile of words "THERAPION" as it appears on British Government Stamp in white letters on a red ground, affixed to every package by order of His Majesty's Hon. Commissioners, and without which it is a forgery.
THE THERAPION is sold by Wholesale from Henderson Bros., Ltd., Victoria, B. C.

CORRECTING THE YOUNG IDEA

Medical science has performed miracles in its efforts to relieve poor suffering humanity from the innumerable ills which ignorant children of men have either remotely or directly brought upon their own heads.

PROFESSIONALISM IN ATHLETICS

The human branch of the animal family being in these latter days more inclined to play than to work, we suppose it is but natural that the common inclination for amusement should be taken advantage of by enterprising spirits who are ever ready to improve their opportunities.

marizing the results of the struggle for baseball supremacy in the United States during the present year, thus describes the humorous features in the situation: "Of course, nothing like such reversals of form in a single season could happen if the teams which carried the fortunes of the several American municipalities were really locally representative."

"Of course one understands that professional baseball is merely for all concerned a gainful trade, and a branch of the 'show business,' and not a sport, properly speaking, at all; and also that the cities which offer the largest 'grounds' are entitled, on commercial grounds, to attractive teams."

"DAFT DAYS."

We suppose a few grains of wheat are to be found in the thousands of bushels of trash run through printing presses of the world annually, and by courtesy called "novels." We candidly confess we do not know a great deal about that.

Doubtless some readers of the Times had the rare pleasure of meeting Mr. Neil Munro when that gentleman was in British Columbia a few years ago. Mr. Munro is attached to Blackwood's Edinburgh Magazine, a publication of the old school and intensely Tory in its political predilections.

EXCITING GAME AT OAK BAY GROUNDS

PORTLAND TEAM WON BY NARROW MARGIN

In Cricket Tourney Match With Burdards—Victoria Defeated Nelson

unable to step over the intervening space, their last wicket being taken when the score standing thus, Portland went first to bat, and, as stated in these columns yesterday, ran up a score of 107 before being retired. Immediately after lunch the Burdard presentatives started batting. Fenwick and Atkinson, who did the bowling for the Americans, held their Canadian rivals down well. Runs were alarmingly slow in being recorded. As the innings progressed it became evident that the Mainlanders were going to have difficulty to reach the total scored by Portland. Later on it was apparent that it was a question whether they could accomplish such a thing. Rhodes with 31 and Carr Hilton with 12 were the only ones to reach double figures. Just towards the finish Fenwick settled Burdard's chances of success by taking three wickets in one over. The visitors and their adherents, needless to say, were delighted with the outcome, and announced their pleasure in no uncertain terms.

Meanwhile the Victoria and Nelson teams were playing at the Jubilee hospital grounds. The morning's play has already been chronicled by the Times. Nelson's score in their first innings was 80 and then Victoria went in. Barnacle and York (W.) being the first batting combination. The former ran up 25 before being dismissed. Cobbett chalked up 49 and York went out for 35. York (L.) followed his brother and made 67. A. S. R. Martin ran up 47 and H. A. Goward went as far as the 14 mark before allowing the ball to touch his wicket. These were the principal scores. As may be gathered by a glance over the list the Victoria batsmen were in fine fettle and had very little difficulty in distancing their opponents.

The detailed scores follow:

THOROUGHBREDS

BY W. S. FRASER.

CHAPTER IX—(Continued.)

"Mike thinks Lauzanne is a bad horse," the girl said, changing the subject, "but he'll win a big race this coming season. You just keep your eye on Lauzanne. Here's your carrot, old chap," she said, stroking the horse's neck, "and we must go if we're to have that drive. Will you hitch the gray to the buggy for us, Mike?" she asked of Gaynor, as they came out of the stable.

"I'll wait here."

As Mike started off there came to their ears a sound of turmoil from Diaboli's box; impatient kicks against the boards from the horse, and smothered imprecations from the boy.

"Hear that fend!" the girl exclaimed, and there was wrath in her voice.

"He does seem a bad horse," concurred Mortimer.

"I didn't mean Diaboli; it's the boy. It's all his evil doing. Oh, I've only one glove," she exclaimed. "I know where it is, though; that mischievous rascal Lauzanne, nibbled it from the front of my jacket; I saw him do it, but forgot to pick it up."

"Allow me, Miss Porter; I'll get it for you."

"No; please don't," with emphasis. As she started back she had a detaining hand on her arm. "I'd much prefer to go myself; Lauzanne distrusts strangers and might make trouble."

As she glit entered the stable, Mortimer sauntered on in the direction Mike had gone.

Allis opened the door of Lauzanne's stall, passed in, and searched in the straw for the lost glove.

LACROSSE.

THE FINAL MATCH.

"The game which takes place next Saturday at Recreation park, Vancouver, will be one that should be the most exciting of the season. The game played in New Westminster last Saturday demonstrated that the Maple Leafs have been improving right along. Take the three of the recent matches they have won in the margin for any of the three teams in the league, and you will be boasting. When Vancouver met with Maple Leafs three weeks ago it was necessary to play extra time to enable them to defeat the Maple Leafs.

Maple Leafs were beaten by the New Westminster 6-4 in a game that was called by the referee a gift to the Royal City. Last Saturday the Maple Leafs played New Westminster to a standstill after a first unlucky quarter, and if they had had about ten minutes more to play, would undoubtedly have won on the score. As it was they were only beaten by one goal, and this tempts the supporters of the Gray and Maroon to think they can administer a dressing down to the Maple Leafs. On the other hand, the city agents in town, on no scruples which will prevent them in capturing these nicely laid plans and are quite as confident that they will emerge from Saturday's battle victorious once more.

No one can say that the games this year have not been close enough as regards the scoring in the league. As regards the team in floating along on top of the heap it is more by virtue of their singular good luck, combined with their undoubted strength, than because the local teams are in any way inferior as players. Be that as it may, the game on Saturday will be a good one from the fact that Maple Leafs have the time they are going to win and are leaving no stone unturned to have the team in good shape, and the Vancouver are just as anxious to come out with the long end of the score which will give them a strong fighting chance to bring back the championship to the city."—Vancouver News-Advertiser.

WRESTLING.

MATSUDA-SWANSON BOUT.

"Nothing definite has as yet been settled regarding the Matsuda-Swanson wrestling match," says the Nanaimo Herald. "One thousand dollars is the wager Matsuda's backers are willing to put up. It is likely some arrangement will be arrived at in the course of a day, but Matsuda insists that the match must be pulled off in Vancouver. The Vancouver crowd is anxious to have the 'go' there and will have barrels of money to back the Jap if the two men meet. Arrangements have already been made to hold out a date to accommodate the opera house for the event."

LAWS TENNIS.

CHAMPIONSHIP MATCHES.
 Newport, R. I., Aug. 22.—Two championships were firmly fixed for at least one more year in the tennis tournament at the Casino-tennis club, at Newport, Boston, and Holcombe Ward, of Orange, N. J., became the permanent owners of the doubles trophies by defeating H. H. Hockett and P. R. Alexander, of New York, while Earl H. Behr, of Yale University, put out of the all-comers singles tournament, former champion Wm. A. Larned, N. of Summit, N. J., who had but one more victory to obtain possession of the single championship.

ATHLETICS.

A NOTABLE MEET.
 The Vancouver Athletic Club's big meet takes place on September 22. Instruction for both men and women, and G. Hackett have been appointed the committee to arrange things in connection with it and make the programme, and already the track team is getting down to work. Teams from Seattle, Portland and Victoria are going to compete with the Terminal City athletes, so that there will be good work done on all sides. Sherring is going to try to reduce the time in a five mile run, and incidentally display the stride he adopted in winning the Marathon race in Athens.

BASEBALL.

GAMES DECLARED OFF.
 The matches which were being arranged to take place on Saturday and Sunday between the Nanaimo and Victoria teams on Innes grounds will not be played because the Cool City nine cannot come down this week. It is proposed that the two teams will be able to arrange a couple of games in Victoria before long. Both are anxious for the fray and when they do meet the contest is safe to say, will be well worth witnessing.

ASSOCIATION FOOTBALL.

Y. M. C. A. MEETING.
 Next Tuesday evening a meeting of Y. M. C. A. members will be held at the rooms, Broad street, for the purpose of organizing a football club. It has been decided to enter teams in the Junior and Intermediate series. From present indications the material available will enable the association to secure a first-class team in the league. All belonging to the association interested in Association football are requested to make a point of being present.

TH then had Allis thought of calling for help; her one idea had been for the boy's safety.

"Like a flash the full peril of the situation dawned upon her; perhaps her life would be given for the boy who well deserved his punishment. She had seen two stallions fight, and knew that their ferocious natures, once roused, could then she possessed. Yes, surely she would be killed—her strong life trampled out by the frenzied animal. Incoherently but altogether these thoughts filled her mind; also the knowledge that Mike was beyond hearing.

"Help, Mortimer!" she called.

He heard it as he reached the stable door. Even then he would have been too late had not other rescue come more quickly.

(To be continued.)

A BOLD STEP.

To overcome the well-grounded and reasonable objections of the more intelligent to the use of secret, medicinal compounds, Dr. R. V. Pierce, of Buffalo, N. Y., some time ago, decided to make a bold departure from the usual course pursued by the makers of put-up medicines for domestic use, and so has published broadcast and openly to the whole world, a full and complete list of all the ingredients entering into the composition of his widely celebrated medicines. Thus he has taken his numerous patrons and patients into his full confidence. Thus too he has absolutely and completely removed his medicines from among secret nostrums of doubtful merits, and made them Remedies of Known Composition.

They are now in a class all by themselves—being absolutely and in every sense Non-secret.

By this bold step Dr. Pierce has shown that his formulas are of such excellence that he is not afraid to subject them to the fullest scrutiny.

So many false formulas and malicious statements concerning his medicines had been published through the connivance of jealous competitors and disgruntled doctors, that Dr. Pierce determined to completely disarm his assailants by a full and frank statement of their exact composition, verifying the same under oath as complete and correct. This he has done and to the complete discomfiture of those who had assailed his good name as well as of the well-earned reputation of his world-famed medicines.

Not only does the wrapper of every bottle of Dr. Pierce's Golden Medical Discovery, the famous medicine for weak stomach, torpid liver, or biliousness and all catarrhal diseases wherever located, have printed upon it, in plain English, a full and complete list of all the ingredients composing it, but a small book has been compiled from numerous standard medical works, of all the different schools of practice, containing very numerous extracts from the writings of leading practitioners of medicine, endorsing in the strongest possible terms, each and every ingredient. One of these little books will be mailed free to any one sending address on postal card or by letter, to Dr. R. V. Pierce, Buffalo, N. Y., and requesting the same. From this booklet it will be learned that Dr. Pierce's medicines contain no alcohol, narcotics, mineral agents or other poisons or injurious agents, and that they are made from native, medicinal roots of great value; also that some of the most valuable ingredients contained in Dr. Pierce's Favorite Prescription for weak, nervous, over-worked, "run-down," nervous and debilitated women, were employed, long years ago by the Indians for similar ailments affecting their squaws. In fact, one of the most valuable medicinal plants entering into the composition of Dr. Pierce's Favorite Prescription was known to the Indians as "Squaw-Weed." Our knowledge of the medicinal value of this native medicinal plant was gained from the Indians.

As made up by improved and exact processes, and with the use of specially designed chemical apparatus, the "Favorite Prescription" is a most efficient remedy for regulating all the womanly functions; correcting displacements, as prolapsus, anteversion and retroversion, overcoming painful periods, toning up the nerves and bringing about a perfect state of health.

POPULAR WANTING PLACE FOR BUYERS AND SELLERS, FIRST, LAST AND ALL THE TIMES REAL ESTATE DIRECTORY.

Notice is hereby given that, 30 days after date, I intend to apply to the Chief Commissioner of Lands and Works for a special license to cut and carry away timber upon the lands situate on Yeo Island, Skeena District, British Columbia, described as follows: No. 1.—Commencing at a post planted on the west shore of Yeo Island, about 1 1/2 miles south of the north end of said island, thence running across said island easterly, thence following the shore line northerly, westerly and southerly to the point of commencement.

THE LINE OF DANGER. One great merchant in Gotham makes it a rule never to allow his appropriation of advertising space to be determined by the expense of bringing them to the store with well defined ideas of what they want to buy. Below this mark is the line of danger in any business, he says. How does the rule apply to your business? An "Ad." in THE TIMES (whether it be in the Daily or Weekly Edition) always has the desired result.

BRITISH COLUMBIA LAND & INVESTMENT AGENCY, LIMITED. 40 GOVERNMENT STREET. \$1,000—5 roomed cottage (modern), large corner lot, only 5 minutes' walk from Office. \$1,000—5 roomed cottage, corner lot in James Bay, in good condition; installment plan.

MUTINY OF COSSACKS. Demand to Be Relieved From Police Duty—Authorities Suppress News. (Associated Press.)

St. Petersburg, Aug. 23.—The Associated Press learns by mail that the strictest censorship is now exercised over press dispatches in the Caucasus in order to conceal the state of affairs, both regarding the true inwardness of the Tartar-Armenian warfare and the fermentation among Russian troops. The Armenian-Tartar situation is worse than is known to the outside world. Almost all the Russian military units are disaffected, and even the Cossacks are rebelling against doing police duty. The latest mutiny is that of the Poltava Cossacks, who several days ago at Tiflis formally demanded to be relieved from police duty, and asked for discharge of those who had served over three years. The entire regiment was disbanded and confined under guard in their barracks. See devastated San Francisco—Gorge Park bioscope to-night.

WEDDED AT KNOX CHURCH. Mr. Rutherford Wilson and Miss Bertha Hartley the Happy Principals.

Two popular young Victorians were the principals in an interesting ceremony yesterday afternoon when Rev. Jos. McCoy united in matrimonial bonds Mr. Rutherford Wilson, second son of Mr. and Mrs. Alex. Wilson, and Miss Bertha Hartley, second daughter of Mrs. R. G. Howell, of Richmond Avenue.

Former Victorian Who Sees Great Changes in the City. F. G. Lyman, of the firm of Lyman-Knox & Company, Ltd., importers and wholesale druggists, Montreal, is paying Victoria a visit. Twenty years ago Mr. Lyman was a member of the local drug firm of Langley & Company. In 1886 he sold out his interest to Henderson Bros., after having resided here a year. Mr. Lyman has noticed great changes in Victoria. The streets particularly represent a great improvement. Victoria has now a life about it such as one might see in any city. Speaking of Montreal, Mr. Lyman says that the city is going ahead very rapidly. At one time Toronto was gaining on the big Canadian metropolis, but this condition no longer prevails. The growth of the two cities, Mr. Lyman thinks, is very nearly equal. In Montreal the building is of a very solid kind. Tenement houses are being erected, and there are other signs of the development of a large city.

LEGAL NEWS. Applications Disposed of in Chambers This Morning. In Chambers this morning Mr. Justice Irvine disposed of a number of applications as follows: Lepoine vs. Brown—An application for an order in the case of Grand Forks to the Supreme Court of Canada was refused. Helpin vs. Fowler—An application for the transfer of the action to the Supreme Court was stood over. Mr. Mann for plaintiff, Mr. Macdonald for defendant. Re Wm. Stirling, deceased—An application by G. H. Barnard to approve sale of an order was made accepting \$77. Estate of J. B. Cohn—An application from W. H. Langley for letters of administration was granted to the widow. Estate of J. E. Church—On the application of Frank Higgins the official administrator was appointed. Estate of Martha Robinson, deceased—An application by A. D. Cressie to fix the remuneration of the executor resulted in the fixing of it at 5 per cent.

PRUSSIAN BAKERIES. Government Inspectors Issue Report on Sanitary Conditions. (Associated Press.)

Berlin, Aug. 22.—The government medical department has issued a report on the sanitary condition of Prussian bakeries and slaughterhouses to which the newspapers are giving sensational prominence, one of which under the caption, "America in Prussia," remarks: "The reports say that butchering establishments were found in a very unclean condition. The government inspectors found conditions in the bakeries to be particularly objectionable. In one town they kneaded the dough with their feet and one bakery was found to be occupied by cats and hens. One baker admitted that his floor and vats were scrubbed only once a year."

FIRE FIGHTERS INJURED. (Associated Press.) Chicago, Aug. 23.—Thirteen firemen were either overcome by smoke or injured by explosions while fighting a fire in the paint-manufacturing plant of John Lucas, on North Desplantes street today. The fire caused a property loss of \$45,000.

THE CRICKET TOURNEY. Standing of Final Match Between Victoria and Burrard Teams—The Other Game. The cricket tournament proper will conclude with the match in progress between the Victoria and Burrard teams at the Jubilee hospital grounds as the Times goes to press. The outcome of this will decide whether the Island or Mainland of British Columbia will hold the championship of the Pacific Coast for 1906. But while the result of to-day's game will practically settle the outcome of the competition, a sort of grand finale has been arranged which should be of exceptional interest. It will be a game between the players and an eleven selected from the best players of all other competing teams. Such an exhibition, needless to say, should be well worth witnessing. Up to noon Victoria was reported to have made an exceedingly good showing against their rivals from the Terminal City, Vancouver, or the Burrards, went to bat first and were retired for 58 runs. The house eleven followed, and the opening combination managed to hold their wickets for 42. This was the standing when an adjournment was ordered for lunch. The outlook, without a doubt, was then very bright for the home representatives. But there is nothing more uncertain than a cricket match, and the players and an eleven selected from the best players of all other competing teams. Such an exhibition, needless to say, should be well worth witnessing. Up to noon Victoria was reported to have made an exceedingly good showing against their rivals from the Terminal City, Vancouver, or the Burrards, went to bat first and were retired for 58 runs. The house eleven followed, and the opening combination managed to hold their wickets for 42. This was the standing when an adjournment was ordered for lunch. The outlook, without a doubt, was then very bright for the home representatives. But there is nothing more uncertain than a cricket match, and the players and an eleven selected from the best players of all other competing teams. Such an exhibition, needless to say, should be well worth witnessing.

TENNIS MATCHES. Results of Yesterday's Games in Seattle—The Finals. The final match of the Seattle tennis tournament in the men's singles for the Carter cup are being played this afternoon between Payne, of Tacoma, and Joe Tyler, of Seattle. In the doubles for the state honors, Russell and Tyler will be pitted against Payne and Armstrong, of Tacoma, the team whom Russell and Tyler defeated by a narrow margin in the Northwest tourney. In the ladies' singles, Miss E. and Miss A. Ryan will meet. In the ladies' doubles it simers down to the Misses Ryan and the winners of Carstens and Miss Pooley and Miss Bell. In the mixed doubles Hunter and Miss E. Ryan and Pooley and Miss A. Ryan will meet in the finals. Following are the scores of yesterday's matches: Singles—Payne beat Armstrong, 4-6, 6-3, 6-1; Payne beat Russell, 7-5, 2-6, 6-0; Tyler beat Beals, 5-3, 6-1. Men's doubles—Russell and Tyler beat Hunter and Johnson, 6-2, 7-5; Payne and Armstrong beat Rihet and Pooley, 6-2, 7-5; Payne and Armstrong beat Moore and Ballinger, 6-3, 6-4. Mixed doubles—Miss Ryan and Pooley beat Miss Bell and Ballinger, 6-2, 6-4; Miss Ryan and Hunter beat McDougall and Miss Pitts, 7-5, 6-1; McDougall and Miss Pitts beat Tyler and Miss Pooley, 5-7, 6-2, 6-2. Women's singles—Miss Ryan beat Miss Scofield, 6-1, 6-0; Miss E. Ryan beat Miss Mason, 6-0, 6-1. Women's doubles—Miss E. Ryan and Miss A. Ryan beat Miss Pitts and Miss M. Pitts, 6-0, 6-1.

There is Not a Shadow of Doubt But That "Foot Elm" is One of the Greatest Remedies Known for All Foot Troubles.

MARRIED. WILSON-HARTLEY—At Knox Presbyterian church on August 22nd, Mr. Rutherford Wilson, second son of Mr. and Mrs. Alex. Wilson, and Miss Bertha Hartley, second daughter of Mrs. R. G. Howell, both of Victoria.

DIED. FEE—In this city, on the 23rd instant, Mary Elizabeth, relict of the late David E. Fee, a native of County Longford, Ireland, aged 73 years. The funeral will take place from her late residence, No. 96 North Park street, on Saturday, Aug. 25th, at 8:30 a. m., and at the Roman Catholic Cathedral at 9 o'clock. Friends please accept this intimation.
