### Local and Personal

Mrs. Butts is very sick.

Mr. Blodgett, of East San Jose, is reported to be very low.

E. C. Hurlbert has traded his home in Sunnyside for a place in Pacific Grove.

G. E. Giles, from Ball's Ferry, is visiting with his sister, Mrs. R. W. Kennedy.

Miss Winnie Bibb left Tuesday to spend her vacation with friends at Santa Cruz.

The Mercury has been having some excellent articles recently on the thrip investigations.

Miss Louise Boynton of Longmont, Colo., has been visiting the past week with Mrs. R. E. Dunphy.

The Press office will be closed from Friday until next Wednesday. The boss and family will visit at Pacific Grove.

The recently organized Mispah class of the Methodist Sunday school is planning an outing for next Tuesday evening.

F. H. Tibbetts and wife, of San Francisco, while driving through Campbell yesterday stopped to call on E. R. Kennedy.

Miss Mildred Duncan, who is soon to be a bride, was given a kitchen shower Tuesday afternoon at the home of Mrs. Green.

Miss Mary Clark of Claremont, Cal., was in Campbell Wednesday to attend the wedding of her nephew, Rev. George L. Marsh.

A very pretty pin set with pearls was picked up in the Congregational Church last Sunday. Looser enquire of Mr. Fablinger.

Gus Lancaster and Clinton Crow returned Wednesday evening from a fishing trip up in the Deer Creek region. They report a fine time.

Miss Bescherer has the misfortune last week to fall from a chair and fracture one of the bones of the fore arm, from which she has suffered considerably.

The many friends of Chas. Inman and wife will be pleased to know of their return to Campbell. They will live in the Mrs. Timothy place on South Central Avenue.

E. E. Sower has moved his shoe shop into the new Sutter building, and besides doing first-class repair work will also carry a line of shoes. The stock will be in about July 15th.

Men's suits and ladies' clothes cleaned, pressed and dyed in first-class shape by experienced workmen. Leave orders at Rev. Lewis' cottage, on Central avenue. John Wheeler.

Mrs. Whitman gave a luncheon last Saturday in honor of Mrs. B. Sturtevant Peet of Alameda, Mrs. E. K. Johnston and Mrs. C. M. Ayres of San Jose were also among the guests.

The Epworth League will hold its regular business meeting and social tonight at the home of Mr. and Mrs. Palmer on the Los Gatos road. All the members and friends of the league are invited to be present.

The Methodist Sunday School has changed the hour of service from 12:15 to 9:45 a. m. The change took effect last Sunday and resulted in a larger attendance and much increased collection than on the previous Sunday.

Mrs. Daisy Veaco Beckett of Berkeley came down Tuesday to spend a week with her friend Miss Charlotte Davis. Mrs. Beckett will be remembered as a sweet singer who has been heard in Campbell by delighted audiences.

### Graduation Exercises

#### Campbell Schools Close Year's Work and Graduate Large Classes

Commencement exercises of the Campbell Union High School were held on Thursday evening, June 23, in the Assembly Hall. The following excellent program was enjoyed by a full house:

Invocation:  
REV. GEO. E. ATKINSON

"New Mown Hay".....Matthews  
HIGH SCHOOL ORCHESTRA  
Address: "The Value of Purpose"  
MR. HERBERT E. JONES

"Over the Flower Bejewelled Meadows"  
.....Franz Abt  
GIRLS GLEE CLUB  
Presentation of the Class:  
PRINCIPAL J. FRED SMITH  
Awarding of Diplomas.  
"Blue Are the Heavens".....Frank  
GIRLS GLEE CLUB

Benediction:  
REV. J. F. WILSON

#### GRADUATES

Blanche Louise Austin, Cynthia Gale Bersinger, Mildred Marguerite Bohrmann, Edward William Bucknall, Grace Frances Bucknall, Mary Ethel Burleigh, Donald Locke Currier, Nicholas Reed Dunphy, Winnifred Brown Fablinger, Phebe Jean Farley, George Andrew Jaderquist, Augustus Jackson Lancaster, Warren Macy, Phoebe Elizabeth Mitchell, Besse Wylia Palmer, Robert Larimore Pendleton, William Walter Ross, Matie Anna Sawyer, Herbert Joseph Scholz, Eugene Quito Scott.

The Grammar School closed a very successful year's work and graduated an unusually large class. The exercises were held in the High School Assembly Hall on Wednesday evening.

#### PROGRAM

### A Quiet Wedding

A quiet but pretty wedding was solemnized at seven o'clock Wednesday evening at the home of Mr. and Mrs. S. L. Hayes, when Miss Minnie Dawson was united in marriage to Rev. George L. Marsh. The bride and groom, unattended, took their places beneath a canopy of Shasta daisies and ferns to the strains of the wedding march played by Miss Emma Beattie. The ceremony was performed by Rev. George E. Atkinson, pastor of the Congregational church. Only relatives and very close friends of the couple were present. Immediately after the ceremony a wedding supper was served.

Mrs. Marsh has made her home with the Hayes family here for a number of years, except when she has been away teaching. She recently gave up a good position in the Paso Robles schools. When in Campbell she was a valued worker in the Methodist church.

The groom and the officiating clergyman were college friends, and both were born of Missionary parents; Mr. Marsh in Bulgaria and Mr. Atkinson in India.

Mr. and Mrs. Marsh left for Los Angeles, and will spend the summer at Norwalk where he is pastor of the Congregational church. After September first they will make their home at Paso Robles, Mr. Marsh having a return call to the Congregational church of that place. Their many friends in this community extend congratulations and best wishes.

### In Honor of Miss Stewart

A pleasant event of the week was the reception Tuesday, p. m., given by Mrs. Whitman to Miss Mary A. Stewart of Los Angeles. Between thirty and forty young ladies were present. Miss Stewart spoke upon "Ideals" in a charming manner, illustrating several points with incidents experienced during her trip abroad. Mrs. S. J. Dorr, State President of the W. C. T. U., and Mrs. Bosworth Clark, County Superintendent of Young Woman's Work were also present and spoke.

Vocal and instrumental music added much enjoyment to the occasion. Frappi, tea, cakes and nabiscos were served by the daughter of the house in the dining room which was made attractive with roses, ferns and Shasta daisies. The guests had been asked to bring their cleverest stories and brightest conundrums, which when given created much merriment. The general verdict was "We had a royal good time. Wish there might be more like it."

### W. C. T. U. Annual Meeting

The Annual meeting of the Woman's Christian Temperance Union was held at the home of Mrs. Kennedy on Wednesday afternoon. Mrs. Whitman, Vice-President-at-Large presided and after the opening exercises the following officers were elected for the ensuing year: President, Mrs. Austin; Vice-President, at-Large, Mrs. Stewart; First Vice, Mrs. Kennedy; Second Vice, Mrs. Gilman; Corresponding Secretary, Mrs. Righter; Recording Secretary, Mrs. Farley; Assistant Recording Secretary, Mrs. M. Brown; Treasurer, Mrs. Newcomb; Auditor, Mrs. Savage.

The program for the afternoon was in charge of Mrs. Mears, and was in the interest of Medical Temperance.

The topic "Alcohol and the Heart" was discussed, and the testimony of many prominent men and physicians was given showing the evil effects of alcohol upon the heart.

The subject is of vital interest to all as so many people are under the impression that alcohol strengthens the heart. The following are a few of the testimonies given. Dr. J. J. Ridge who was for years connected with the London Temperance Hospital says: "Alcohol is utterly unable to strengthen the heart, or to give tone to the blood vessels. The relief to uneasy sensations which it gives is due to its benumbing action, the nerves being rendered less sensible to existing conditions, although whatever danger exists is by no means diminished." Dr. C. W. Chapman of the National Hospital for Diseases of the Heart says in the London Lancet:

"The very thing (alcohol) which they supposed had kept their heart going was responsible for many of its difficulties." Dr. J. H. Kellogg of Battle Creek Sanitarium says: "To be cured of palpitation of the heart people must abstain wholly from tobacco, tea, coffee and alcoholic liquors." Sir Victor Horsely the great London surgeon, says: "Surgeons of former days used alcohol extensively to combat shock, but the old theories of shock have been proved erroneous. Alcohol will be less and less used in the future, and the discredit into which it has fallen is justified." Dr. Horatio C. Wood, a well known writer of Medical textbooks, says: "I am perfectly sure that a large dose of alcohol in shock puts a nail in the coffin of the patient." Dr. Frank Billings, dean of Rush Medical College, Chicago, says: "The belief in alcohol as a stimulant is rapidly passing away." Dr. Olsen in a book called "Health for the Million" says: "There is scarcely any article in common use that has a more baneful influence upon the heart than alcohol."

NEWS OF WEEK FROM ALL THE COAST STATES

Occurrences Along the Pacific Slope Presented in Compendious Array.

Passing Events Among Your Neighbors Briefly Told in Short, Newsy Paragraphs.

Stockton.—A glass factory for making bottles and glass jars will be established here by local capitalists.

Napa.—A strong flow of oil has been discovered by oil prospectors in Berryessa valley, on the banks of Capell creek.

San Rafael.—The movement for good roads, started by the Good Roads Association of Marin county, is bearing excellent results, and great enthusiasm is shown everywhere in the project.

Port Angeles, Wash.—Port Angeles voted in favor of licensed saloons at the local option election, the "wets" winning by a vote of 333 to 108. The county, which voted as a separate unit, also went against prohibition.

Bakersfield.—Miss Vega A. Brugman, from Los Angeles polytechnic high school and Throop institute, Pasadena, has been engaged as the head of the domestic science department of the Kern county high school on her promise to stay single a year. Her two predecessors left to get married.

Nome, Alaska.—The schooner Joe Matthews, from Nome for Golovin bay, was crushed in the ice of Behring sea just inside of Cape Dzarby, a few days ago. The 20 passengers and the crew reached shore in safety over the ice and found shelter in Chinak. The schooner is hopelessly crushed and will be a total loss with the cargo.

Avalon, Catalina Island.—Although they are already the highest paid caddies on the Coast, the boys who carry the clubs over the links here went on a strike for increased wages and so compelled a number of women enthusiasts to shoulder their own sticks and go round the course unaccompanied. The boys want 30 cents an hour. Strike-breakers have been hired.

Los Angeles.—The iron workers' unions here announce that they will not resist the efforts to have made permanent the injunction issued by Judge Bordwell to prevent picketing at the Baker Iron Works, and the men will try to conduct the strike without violating a law. The men are on strike for the eight-hour day and \$4 a day, with the abolition of the employers' employment office system.

Stockton.—What many farmers claim is a record has been established by Henry Brack, who harvested 800 acres of barley on Sycamore slough, near the terminus, in San Joaquin county. The barley averaged 35 sacks to the acre. The grain is the volunteer kind and those who have followed farming for years declare they never heard of volunteer grain running so heavy, outside of a few small patches.

San Rafael.—Joseph Avilla, the twelve-year-old boy who played with a dynamite cap a year ago at Corte Madera, where workmen of the Marin Water and Power Company were digging pipe trenches, and lost a finger and thumb in the explosion that followed, received \$1200 by stipulation from the company a few days ago, instead of \$25,000 for which he was suing. The boy found the cap near the place where the men were working and probed its contents with a nail.

San Francisco.—When James Simons appeared before Police Judge Deasy on a charge of disturbing the peace in Market street, he explained that he had just arrived from Reno, walking all the way, to see the Jeffries-Johnson fight, and when he saw from a bulletin in the window of a newspaper office that the fight was to be held in Reno he had a fit and was arrested. Simons was released on his promise to walk back to Reno.

Sacramento.—That money is plentiful in California and "times are good" is apparent from the way money is pouring in to License Superintendent Lou Norton of Secretary of State Curry's office. Last year the license taxes amounted to \$745,000. The increased number of corporations will swell the figures this year. There are about 19,000 "live" corporations in California, and more than 5000 which are exempt from the license taxes. These latter are principally churches and benevolent societies.

PEACH TO WITHSTAND FROST IS OBJECT OF PROF. CLARKE

University Scientist Hopes to Produce New Late Variety of Fruit.

Berkeley.—Prof. Warren T. Clarke of the department of agriculture of the University departed for an extended trip through the southern part of the State last week to continue a series of experiments in the production of peach and almond trees which will blossom three weeks later than the species generally grown here and thus withstand the frost.

This line of experimentation has been carried on by the members of the department of agriculture from time to time for several years, and they will be continued by Professor Clarke under a special fund granted by the Government for investigations of this character.

It is his desire to secure by cross breeding a type which will blossom from one to three weeks later than the varieties known in the southern part of the State, and he believes that the buds will then be protected from the spring frosts, which has in some years ruined the crops. He is also striving to bridge that space when the early varieties ripen and the later ones are ready for picking so that the peach season will be continuous.

Aviator Takes Tumble.

London.—Captain F. S. Cody, the aviator, while making a flight at Aldershot, fell from a height of 100 feet and was seriously injured. His aeroplane was caught in a gust of wind and, becoming unmanageable, plunged to the ground. Cody was pinned beneath the wreckage. Captain Cody, an American by birth, is employed in the British War Department to teach its officers aeronautics.

White Slaver Convicted.

Seattle.—Lucius Katz was found guilty of importing a woman into the United States for immoral purposes by a jury in the Federal court. During the trial evidence was introduced to show Katz imported a woman from British Columbia, taking her to Walla Walla, then to North Yakima, Wash., and then to Pocatello, Idaho, where they were arrested by the immigration authorities.

Three Pens to Sign Bill.

Washington.—President Taft used three pens to sign the postal savings bank bill. These were afterwards given to Representatives Weeks of Massachusetts, Gardner of New Jersey and Murdock of Kansas, the three members who worked indefatigably for the measure in the form in which it was finally adopted.

To Improve Fire Department.

New York.—A greatly improved fire alarm system is to be installed throughout New York city during the summer months. Practically all the wires will be placed underground. Together with other plans for the betterment of the fire department an expenditure of \$2,200,000 is contemplated.

May Build Submarines Here.

Washington.—Awards for four submarine boats have been decided upon by the Secretary of the Navy. Owing to the present distribution of submarines, Secretary Meyer is considering the question of having three of these boats constructed on the Pacific Coast and the fourth on the Atlantic Coast.

Homes Offered Girls.

Oakland.—In response to the notices placed in the city papers, stating that suitable homes were desired for four girls now at the Detention Home, Probation Officer Ruess has received over 100 answers. People in all parts of the State have offered to give the girls good homes.

California's Low Death Rate.

Sacramento.—There were 302 more deaths in California in 1908 than in 1909, according to figures completed at the State Board of Health, an indication that health conditions in the State are rapidly improving. Marriages and births also show an increase for 1909.

Shop at Capital for W. P.

Sacramento.—A local architect has received a contract to erect the first Western Pacific shops. The building will be 221 feet long by 138 feet wide, which will be used as a machine, air-brake and tin shop. The work is to be rushed.

Another Condensed Milk Plant.

Eureka.—Plans have been completed for the erection of a \$50,000 milk condensing plant at Arcata, on Humboldt bay, work on which will be started in the near future.

WORLD'S NEWS PRESENTED IN BRIEF ITEMS

Events of Both Hemispheres Compiled in Pithy Form For Busy Readers

Here You Will Find a Resume of Happenings in Almost Every Part of the Earth.

London.—The Daily Express states that it is probable that the coronation of King George will take place in May, 1911.

Zanesville, O.—The Prohibition State Convention nominated a ticket headed by Dr. H. A. Thompson of Dayton as the candidate for Governor.

Niles.—The Niles fire department has been permanently organized. The fire structure is a modern building and the community possesses a hose cart, ladders and sufficient fire hose.

Trinidad, Colo.—Cecelio Martinez, 19 years old, an employe of the Rocky Mountain Timber Company, was struck by lightning and killed near here a few days ago. A year ago Martinez' father met a similar fate in Wyoming.

New York.—Seventeen persons were injured, eight of them seriously, in an accident on a scenic railroad at Coney Island. One of cars left the track at the top of one of the highest "dips," throwing the occupants, nearly 20 in number, to the pavement below.

Toronto.—Announcement has been made of the Board of Conciliation's award in the arbitration of the differences between the Grand Trunk and Canadian Pacific railways and their trainmen and conductors. It provides a 25 per cent increase in wages from May last.

Dayton, O.—The Democratic party of Ohio goes into the State campaign this fall with Judson Harmon as its candidate for Governor and President. The Democratic State Convention endorsed him in the strongest terms for President after it had nominated him for Governor by acclamation.

Ithica, N. Y.—The most important incident of alumni day at Cornell was the formal announcement by President Schurman of the University that the late Goldwin Smith had bequeathed all his residuary estate to Cornell University. It is rumored the estate will probably exceed a million dollars.

Chicago.—For the first time in the history of the Chicago public schools a two years' course is to be offered in the high schools, beginning September 1st. Less than one per cent of Chicago's school children graduate from the high schools, the chief reason assigned being their inability to complete the four years' course.

New York.—Flowers are one of the necessities of life and should be brought within reach of the poorest, believes John D. Crimmins, a wealthy philanthropist. Mr. Crimmins is at the head of a committee urging the establishment of a city market under the Queensborough bridge where flowers will be sold at low prices.

Calais, France.—An impressive funeral service was held last week for the crew of the French submarine Pluviose, who lost their lives when the vessel was sunk by a cross-channel steamer off this port on May 26th. President Fallieres, the members of the Cabinet, deputations from Parliament and the foreign naval attaches attended.

St. Paul, Minn.—Three world's automobile records were broken at the Twin City aviation meet at the State Fair grounds. Barney Oldfield lowered the one-mile and two-mile records for a circular track, and Ben Kerscher set a new world's mark for three miles on a circular track. Oldfield's time for the mile was 0:49 4-5 and for the two miles 1:40. Kerscher's record for three miles was 2:36 1-5.

Denver.—Frank Campbell, a member of the Denver police force, was found guilty of voluntary manslaughter by a jury in the District Court. The conviction carried with it a penalty of from one to 12 years in the penitentiary. Campbell was convicted of having caused the death of Roy Blackford, whom he clubbed into submission on May 23d, when Blackford interfered in the arrest of his brother.

Hanford.—F. A. Thompson, who, with his sons, has been the owner of a ranch of 633 acres in the vicinity of Angiola, which was recently sold, stated that in the sale of the ranch a profit of \$75 per acre had been made, not including what had been made from the ranch during the past six years. Mr. Thompson and his sons purchased the ranch six years ago, paying \$25 per acre for it, and the ranch was turned over to the present owners at \$100 per acre.

THE BOSTON BOYS' FOURTH.

"On the Fourth," little Emerson Copley remarked, "I trust you will all bear in mind The request that I make. It is small, I am sure; A trifle, in fact, you will find. I merely would ask that you purchase no punk, No caps or producers of noise With any intention of lowering me To the level of commonplace boys.

"On the Fourth of July," he continued, "to me There is nothing so palpably tame As crackers, torpedoes and kindred affairs, When fired in Liberty's name.

The popping they make is incompetent quite To keep pace with my patriot's zeal, And I frankly confess that they never give vent To the joy that I inwardly feel.

"So allow me," said he, "on the Fourth of July To perse, undisturbed in my den, That document famous which years ago came From the studious Jefferson's pen. Do this, and at eve I will gladly appear, The fireworks costly to see, For the rockets' red glare and the bombs in the air Will remind me of Francis Scott Key." —New York Sun.

AN AMUSING FOURTH INCIDENT.

How Indians Were Treated to Ammonia as War Medicine.

What promised to be the dearest Fourth of July in my life ended in being one of the most amusing. I was sent to the Indian country on Milk river, Montana, to deliver some annuities, and had to wait several weeks for the Indians to come in from their hunting expedition. The Assinboine Indians came straggling into camp one by one, and hung around my camp with undisguised curiosity. I had a headache, and took a quart bottle of ammonia from my medicine chest and sniffed at the cork. I knew how to mystify the Indians, and I did a couple of side steps, rolled my eyes, jerked my body, and pointer my finger to the cardinal points before taking the dose. The Indians were delighted at my pantomime of war medicine. I told them that whoever took that medicine could never be killed in war, but that I was afraid they would join forces with the Sioux and fight against me if I gave them that dose. I knew them to be the greatest foes of the Sioux, but of course I had to be coaxed into giving away my wonderful charm.

After much persuasion I finally agreed to do it, but bargained that it must not be taken in the presence of others. It was so powerful that no novice could take the white man's medicine with others watching him. Of course that made a hit with the Indians at once, and there were many 'volunteers' to be number one.

I selected the chief. He walked into my tent, and I began my mysterious passes at him. In the meantime I had two quart bottles before me. One contained water and the other ammonia. I made him understand that at the end of my speech, when I clapped my hands, he was to take a deep breath and inhale the war medicine as soon as I removed the glass stopper. I don't believe a motion was lost on the Indian; they are good imitators. I gave three war whoops and made my extemporaneous speech. Then I clapped my hands, pulled the cork, and thrust the ammonia under the chief's nose. He took a long, deep breath as directed, and fell backward as one dead. When he revived there were tears rolling down his cheeks, and I ex-

pected to have no more fun that Fourth, but here I had not reckoned on the Indian's sense of humor. That chief went out and was as dumb as an oyster about his treatment, and so close did they keep the secret that every Indian in the camp came into that tent singly and took his war medicine without a murmur.—Gen. C. A. Woodruff.

How Kind!

Big Jimmy (to little Mickey)—Because I like youse, I'll shoot off all yer fireworks fer yer an' not charge yer a dern penny!

MAKING ROMAN CANDLES.

Indispensable Adjuncts to a Proper Fourth of July.

In America the manufacture of fireworks has become almost a fine art, and no doubt the youth of our country could find this sort of expression for their patriotic enthusiasm on the Fourth of July without drawing on the products of foreign ingenuity. A glance at the catalogue of any one of the twelve or fifteen large firms engaged in making fireworks in this country discloses almost endless lists of devices.

Every one knows what a Roman candle is, but few know how this indispensable adjunct of a Fourth of July celebration is made. First of all in the making comes the pasteboard cylinder, which is plugged up at one end with clay. After the clay comes a small charge of powder. Then a "star" is pushed down tight on the powder, and charges of powder and stars alternate until the cylinder is filled. Then a fuse is attached which communicates with the powder nearest the top of the cylinder, which, when it is exploded, sends its star sailing upward. A fuse running through the candle connects other charges of powder with the first and explodes them one at a time, each one

shooting out the star which is next above it. The stars are made of chemical mixtures, which vary with the colors which are produced. A red star is sometimes made by mixing four parts of dry nitrate of strontia and fifteen parts of pulverized gunpowder. Copper filings change the color to green. Rosin, salt and a small quantity of amber make it yellow. Small particles of zinc change it to blue, and another and perhaps better red can be made by using a mixture of lampblack and niter.

Fourth of July Dialogue.

Wilfred McGonigle—Say, Spectacles, didder ha' enny fireworks on de Fourth?

Edwin Bostonbeens—Most assuredly, and among the heterogeneous collection I had some elongated circular paste-board tubes that emitted varicolored spheres.

Wilfred McGonigle—Say, dem's Roman candles yer mean, ain't dey?

Edwin Bostonbeens—Precisely, and then I had other cylindrical pyrotechnics with cone shaped apices which, upon being ignited, sailed with velocity toward the empyrean regions and niter.

Wilfred McGonigle—Can't yer say skyrockets? Den wot?

Edwin Bostonbeens—Then I had variegated spheroids that revolved incessantly, with celerity discharging fiery asterisks that split into diverging lines as they sailed into the atmosphere. You may rest assured that I enjoyed those effulgent phenomena.

Wilfred McGonigle—I like pinwheels myself. Did yer hav' enny red lights or green lights?

Edwin Bostonbeens—Not that I am cognizant of, but we had several demonstrations of radium and hellum.

Wilfred McGonigle—Say, Specs, let's set a match to some of dem words and see if dat lanckwidge don't explode. —New York Tribune.

How They Celebrated.

Said the belfry: "Clang! Clang!" Said the crackers: "Rap! Rap!" Said the brass cannon: "Whang!" Said the torpedoes: "Snap!" Said the sky rockets: "Whizz!" Said the candles: "Sh! Pif!" Said the small pinwheels: "Fizz!" Said the big ones: "Whir! Wit!" Said grandma: "There, there!" Said father: "Boys! Boys!" Said mother: "Sake care!" Said cook: "Such a noise!" Said puss: "Gracious me!" Said tower: "Bow-wow!" Said Susie: "Wee-wee!" Said Will: "Hurrah! Ow!"

A WARNING.

**Utterly Wretched**  
**Nervous Prostration Long Endured Before Remedy was Found.**  
 Miss Minerva Reminger, Upper Bern, Pa., writes: "For several years I had nervous prostration, which was utterly wretched. I lived on bread and beef tea because my stomach would not retain anything else. I took many remedies, but obtained no relief until I took Hood's Sarsaparilla, when I began to gain at once. Am now cured."  
 Pure, rich blood makes good, strong nerves, and this is why Hood's Sarsaparilla, which purifies and enriches the blood, cures so many nervous diseases. Get it today in usual liquid form or chocolate tablets called **Sarsatabs**.

**Worms**  
 "Cascarets are certainly fine. I gave a friend one when the doctor was treating him for cancer of the stomach. The next morning he passed four pieces of a tape worm. He then got a box and in three days he passed a tape worm 45 feet long. It was Mr. Matt Freck, of Millersburg, Leuphin Co., Pa. I am quite a worker for Cascarets. I use them myself and find them beneficial for most any disease caused by impure blood."  
 Chas. E. Condon, Lewistown, Pa. (Mills Co.)  
 CUT THIS OUT, mail it with your address to the Sterling Remedy Company, Chicago, Ill., and receive a handsome souvenir gold Bon Bon FREE.

**HELPED LAY ATLANTIC CABLE**  
**William Napper Tells of Expedition of Which He is a Survivor.**  
 One of the survivors of the expedition, if indeed not the only one, that laid the first successful Atlantic cable in 1865 from Ireland to the coast of Newfoundland, William Napper, with his family has been spending several months in San Francisco, the Express of that city says.  
 Speaking of what was thought at the time an impossibility and of the real work in accomplishing the great enterprise, Mr. Napper said:  
 "The cable we laid in 1865 was the first one to be successfully completed so that it could be operated. There was a cable laid in 1856, but it did not last very long. Cyrus W. Field was the promoter of the enterprise, and knowing no such word as 'fail' he again became interested in the cable from Ireland to Newfoundland which we laid in 1865. When we started from Ireland we had 503 men aboard. We took on 14,000 tons of coal and more than 2,000 miles of cable. The Great Eastern was the ship we used to do the work with. In one place the water was so deep it required twenty-four miles of cable to lay four surface miles.  
 "A paper was edited on board the ship and bulletins issued every twenty minutes were tacked on the bridge. The first message sent over the cable is perhaps known by most Americans now. It was: 'Glorious to God in the highest; peace on earth and good will to men.'  
 "When the job was completed Cyrus W. Field, who was with the party, gave each one of the 503 men one month's pay extra."

**MARVELOUS PROFICIENCY**  
 Before Superior Judge George H. Cabanis and representatives of the "Examiner," "Chronicle," "Call," "Bulletin" and "Post," the great dailies of San Francisco, the graduating class of Gallagher-Marsh Business College, 1256 Market street, San Francisco, on June 11, 1910, wrote over 300 words per minute; they also wrote from a charge to the jury in a murder case 175 words per minute for twenty minutes, and read the same back readily and without a material error. From year to year this college demonstrates the superiority of its course of instruction before Superior Judges and newspaper reporters. Such proficiency is not attainable elsewhere. Send to college for literature containing full report and endorsement of newspapers and then you will understand why all graduates get good positions.

One of the newest "turn-down" electric lamps includes a high power tungsten filament and a one-candle-power carbon filament, the two alternately switched off and on by cords.

**FRUIT TRANSFER**

**Why an Alias**  
 One afternoon, when the Duke of Edinburgh and Sir Arthur Sullivan, having finished a duet, were sitting down to a homely "dish of tea" provided by Mrs. Sullivan, the composer's mother, it suddenly occurred to her to start the subject of family names and titles, which puzzled the good lady considerably.  
 "Sir," she said, "your family name is Guelph."  
 "My dear mother," began Arthur. "But it is, isn't it?" she persisted.  
 "Certainly," replied the duke, much amused. "What's the matter with it, Mrs. Sullivan?"  
 "Oh, nothing," returned the excellent old lady musingly. "Only I can't understand why you don't call yourself by your proper name."  
 Arthur wanted to explain to her, but the duke would not allow him to.  
 "There's nothing to be ashamed of in the name of Guelph, Mrs. Sullivan," he said gravely.  
 "That's exactly what I say," persisted Arthur's mother; "nothing whatever as far as I know, and that being so, why you should not call yourself by it I can't understand."—F. C. Burdand's "Records and Reminiscences."

**No Other Way.**  
 The ostrich had stuck its head in the sand.  
 "I know what I'm doing," muttered the bird, through its ears; "I'm trying to escape the stockyards smell!"—Chicago Tribune.

**Our New Hair Vigor**

Ayer's Hair Vigor was good, the best that was made. But Ayer's Hair Vigor, new improved formula, is better. It is the one great specific for falling hair. A new preparation in every way. New bottle. New contents. Ask your druggist to show it to you, "the new kind."  
 Does not change the color of the hair.

**Ayer's**  
 Formula with each bottle show it to your doctor. Ask him about it, then do as he says.  
 As we now make our new Hair Vigor it does not have the slightest effect upon the color of the hair. You may use it freely and for any length of time without fear of changing the color. Stops falling hair. Cures dandruff.  
 Made by the J. C. Ayer Co., Lowell, Mass.

Try it today, but insist on having the genuine Hostetter's, with our Private Stamp over neck.

**HOSTETTER'S CELEBRATED STOMACH BITTER**

**KANSAS CITY'S WAY.**  
 Example in Pluck and Spirit Other Cities May Well Emulate.  
 In thirty days Kansas City completed the subscriptions for a fund of more than \$1,000,000 to place and maintain a line of freight boats on the Missouri river between that city and St. Louis, says the Nashville Tennessean. Such a line means water competition on all freight rates between Kansas City and all seaports. The Mississippi will be opened up for Kansas City business by the new line and the great packing center will be insured a permanent advantage in rates over cities less fortunately situated.  
 The Missouri river is a treacherous stream. Its navigation is difficult, but shipbuilders are confident they can provide boats of shallow draft which will be able to ply between Kansas City and St. Louis practically the entire year. Such a line will insure the commercial supremacy of Kansas City over neighboring packing centers, and the business men of the Missouri city were not slow in availing themselves of this advantage.  
 Every city with a navigable river should profit by the pluck and spirit shown by Kansas City. When great commercial interests combine they are capable of working to their mutual benefit.  
 In Europe barges abound on every stream which has a permanent channel affording more than two feet of water. The United States must come to a realization of the value of its waterways. Boats must be built for the heavy freight which can well be carried by the slower means of transportation. This country is outgrowing its rail-ways. It requires added freight lines and rivers stand ready for the reception of barges capable of carrying an unlimited amount of freight.

**FOR SALE**  
 Timber Lands; Saw, Single and Planing Mills built and sold for cash. Partners wanted in mills; \$500 up. City and Country Real Estate bought and sold for cash. 724-4 Pacific Building, Brokers' Agents, San Francisco, Cal.

Recent fossil discoveries in England showed that there existed in that country in prehistoric days an ancestor of the modern horse fully as large as his up-to-date descendants.

The general use of water meters in Cleveland, O., has reduced the per capita consumption from 174 gallons to 101, indicating that the waste has been stopped.  
 Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.  
 A Rare Experience.  
 "No doubt you recall the most enjoyable railroad trip you ever made?"  
 "Oh, yes. It was a short trip of only half a day, but because his private car had been derailed the president of the road was traveling with the common herd in an ordinary Pullman car."  
 "And so you enjoyed the novelty of traveling in close proximity to the president of the road?"  
 "No; it wasn't that particularly. I enjoyed seeing the porter look humble."  
 "—Birmingham Age-Herald.  
 To Fit the Crime.  
 "I ain't no saint, boss," said the hob. "I wasn't voted a couple o' hundred repeaters in my precinct, an' they sent me to the penitentiary for it."  
 "Great Caesar!" exclaimed the man who had just befriended him. "I did the same thing once, and they sent me to Congress for it!"—Chicago Tribune.

 as cool and white as a dairy. No smell, no smoke, no heat, no dust. No old-fashioned contrivances. The

**New Perfection**  
**WICK BLUE FLAME**  
**Oil Cook-stove**

is the latest practical, scientific cook-stove. It will cook the most elaborate dinner without heating the kitchen.  
 Boils, bakes, or roasts better than any range. Ready in a second. Extinguished in a second. Fitted with Cabinet Top, with collapsible rests, towel rack, and every up-to-date feature imaginable. You want it, because it will cook any dinner and not heat the room. No heat, no smell, no smoke, no coal to bring in, no ashes to carry out. It does away with the drudgery of cooking, and makes it a pleasure. Women with the light touch for pastry especially appreciate it, because they can immediately have a quick fire, simply by turning a handle. No half-hour preparation. It not only is less trouble than coal, but it costs less. Absolutely no smell, no smoke; and it doesn't heat the kitchen.  
 The nickel finish, with the turquoise blue of the enameled chimneys, makes the stove ornamental and attractive. Made with 1, 2 and 3 burners; the 2 and 3-burner stoves can be had with or without Cabinet.

**A SANE FOURTH**

Some might almost say "A Novel Fourth," when by a sane Fourth  
 is meant one without the noise and rattle of fire-crackers. But when  
 one remembers the scores of deaths that have occurred every Fourth for  
 some years past as a result of fireworks accidents, and the many more  
 injured, more or less seriously, surely the phrase A Sane Fourth, is cor-  
 rect. While the idea is one that more and more is appealing to fathers  
 and mothers all over the land. When one stops to think that such  
 cities as Washington, D. C., Toledo, Cleveland, Chicago and New York,  
 the first municipality of the U. S., have all adopted the plan; that such  
 men as Pres. Taft, Governors Deneen, Hughes and Draper and many  
 other public men, are behind the plan, one feels his hope for a Sane  
 Fourth turning to a certainty that soon the lives of our youth will not be  
 sacrificed to the excitement of the powder, flash. Friday the return to  
 the "old-fashioned" celebration promises a distinct novelty as well as a  
 great improvement on the usual rattle of giant crackers, and toy cannon,  
 with the frightened teams, disable boys, with the antitoxin stations in  
 all our larger cities so that the victims of the reckless burning of powder  
 may be saved from the awful danger of tetanus. Parades, races and  
 athletic contests with suitable prizes, patriotic exercises for those so in-  
 clined, illuminations of autos and street cars at night, with a fire works  
 display under expert management and in a place where there is no dan-  
 ger to property or life, these in the larger cities; while in the smaller  
 towns and rural communities, the above plans adapted to the situation,  
 with family picnics, etc., as inclination suggests, will provide a delight-  
 ful day with all safe and sound. In the places where this plan has been  
 tried once there is this year no thought of returning to the noise and  
 confusion with its attendant danger of the former celebration. The in-  
 terest in the plan seems keen the country over, and our Nation's birth-  
 day promises to come into its own. It is so long now since our ances-  
 tors threw off the yoke of George the Third, that certainly we can pro-  
 fitably dispense with the gunpowder incense and the burning of sacrifice  
 of loud smelling savor to the Goddess of Liberty, with its usual offering  
 of several scores of costly human sacrifices, mostly boys and girls, in  
 celebration of each returning anniversary of our National Independence.  
 In fact if we adopt a sane and safe Fourth, the million or more of immi-  
 grants who will next Monday spend their first Fourth on American soil,  
 will be the better able to distinguish the meaning of American Demo-  
 cracy from the celebration of a Chinese funeral. All honor to our Coun-  
 try Womans Club for their manly (!) stand on this vital question. The  
 time will soon come, if we rightly read the signs of the times, when the  
 fatal toy-pistol and the fire cracker will be by government authority  
 eliminated from our great American anniversary.

GEO. E. ATKINSON.

FOR SALE—A good town lot, 50 x 140  
 feet, 12 prune trees. Enquire at Press  
 office.  
 Carpenter work by day or hour, odd  
 jobs. Shop at Miracle's lumber yard.  
 A. W. Adams.

**Congregational Church**

Next Sunday, July 3rd will be the  
 Sacrament of the Lord's Supper. Theme:  
 "The River and the Dead Sea." In the  
 evening there will be NO Christian En-  
 deavor or Evening service on account of  
 the State C. E. Convention in San Jose.  
 All of our Endeavorers and friends of the  
 great C. E. movement are urged to attend  
 the great meeting Sunday evening at the  
 Auditorium in San Jose, and all other  
 meetings when possible these next days.  
 It will be years before we have such an-  
 other opportunity.  
 Geo. E. Atkinson, Pastor.

**SUNNY OAKS**

The Misses Palmer left Wednesday  
 morning for a month's sojourn at Mt.  
 Hermon.  
 Mrs. Thaddeus Joy and her mother,  
 Mrs. Ross, are spending the week at  
 Capitola.  
 Miss Chrissie Woodward has returned  
 from San Francisco where she was brides-  
 maid for her cousin.  
 Miss Vivienne Castle has returned from  
 a visit to Santa Cruz.  
 Mrs. A. H. Joy left Tuesday for a visit  
 to Mt. Hermon, she expects to go to  
 Capitola before her return home.  
 Rev. Mag. and wife with their son and  
 daughter of Oakland expect to spend  
 the month of July in the Misses Palmer's  
 cottage on Virginia Avenue.

**UNION DISTRICT**

The We and Our Neighbors Club was  
 delightfully entertained at the home of  
 Mrs. Emina Loosmore on Saturday  
 afternoon last. A Victrola furnished the  
 music for the afternoon which was greatly  
 enjoyed. Mrs. Loosmore was assisted  
 in passing the delicious refreshments by  
 her daughter Miss Annie Loosmore and  
 grand daughter Miss Grace Jordan of  
 Santa Rosa.  
 Mrs. W. A. Riggs and baby daughter  
 Mildred spent last week's end at the  
 home of her sister Mrs. John Stewart in  
 the Santa Cruz Mountains.  
 Mrs. Ed. Howes and son Floyd, Beach  
 Burdick and Miss Belle Burdick enjoyed  
 from Saturday until Tuesday at Capitola.  
 Mr. Frank Johnson came over from  
 Menlo Park on Sunday to visit with re-  
 latives at the Comer home.  
 Miss Corinne Forrest of San Francisco  
 is enjoying a few weeks' visit with her  
 aunt Mrs. A. H. Downing.  
 Miss Eunice Edwards of Napa and Miss  
 Bernice Arnerich of Alameda are visiting  
 for a few weeks with relatives at the E.  
 B. Scott home and also in San Jose.  
 June 27, 1910.

**EXCHANGE**

114 acres grain or dairy and alfalfa  
 land in Kings County. 5 room modern  
 house. Small barn. Plenty of artesian  
 water. Located 2 miles from Corcoran.  
 Price \$100.00 per acre. Mortgage  
 \$6000.00. Will exchange equity for 10  
 acres in this vicinity. It is worth your  
 while to investigate this.

20 acres in the Santa Cruz mountains.  
 12 acres prunes, 1 acre apples, 4 acres  
 table grapes, few cherries, 2 acres plum  
 trees. This place has produced good  
 crops right along, while many places in  
 the valley have failed. Price \$5000.00.  
 Will consider exchange for country or  
 town property.

**The Fruit Season IS CLOSE AT HAND**

The Farmers Union is ready to supply you with  
 everything that's needed from the pails for picking to  
 the jars for preserving.

We have a big stock of lye and sulphur, and fruit  
 growers and driers will do well to get in touch with us  
 before the season begins.

A complete stock of general merchandise is of-  
 fered at the Farmers Union; whatever is needed in the  
 home and about the farm can be bought here, and usu-  
 ally for less money than you'll have to pay at most  
 places.

Our various lines embrace Provisions, Crockery,  
 Teas and Coffees, Hardware, Farm and Garden Imple-  
 ments, etc.

Careful attention given to all mail orders. It will  
 pay you to become a regular patron at "Santa Clara  
 County's Greatest General Merchandise Store."

Write us for prices on anything you need.

 San Jose Branch at Campbell

**POSE AS A CAPITALIST**

For ONE DOLLAR we will send you three handsomely lithographed, but worthless,  
 stock certificates, which you can fill out yourself for any amount, and have lots of fun  
 showing to your friends as proof that you are wealthy. These certificates appear to rep-  
 resent railway, gold mining and insurance enterprises and look just like the "real thing,"  
 but must not be used to realize money on.

ONE SAMPLE FOR FIFTY CENTS.  
 (send two cent stamp for illustrated circular)

Satisfaction given Prices reasonable  
 Box 40, R. F. D. 10, McCoy Ave.

**An Honest Opinion**

That's what you want when your  
 eyes begin to trouble you.

If you need glasses you want to  
 know it, if you don't need them you  
 want to know what is needed.

I will examine your eyes carefully,  
 without the use of annoying or dangerous  
 drugs, and then advise you honestly as to  
 what course you ought to pursue.

**Values That Will Bring Crowds of Men To Our Store During**

**Our Semi-Annual Clearance Sale**

Here's a genuine sale, Gentlemen—a real opportunity—a bona fide price-lowering on clothing and furnishings  
 of the highest order. No value-juggling, no exploitation of half-truths, no misrepresentations.

Every six months we clean house—gather up all odd garments, all twos and threes, all broken lots and scat-  
 tered lines, and clear them out at any cost. We don't claim to sell you a dollar's worth for ten cents, to make you  
 rich in a day, to stretch your money from ten to twenty times as far as it will usually go—but we do say that our  
 sales offer opportunities for real saving that are seldom—very seldom—equalled.

**The Great Sale Is Still On**

This season we'll surpass our best efforts. We've more merchandise to clear away than usual, to be frank  
 with you. The construction work on the new First National Bank building has been a serious handicap to us—for  
 months entrance to our store was all but completely blocked.

There's no use beating around the bush. This hindrance cut into our business and checked what promised to  
 be an exceptional season. We planned for a big season—but we overstepped the mark and now have considerable  
 more goods to dispose of than we would ordinarily have had.

However, we're not asking for sympathy. We're explaining the predicament so that you may appreciate the  
 force behind these prices—so that you may know that this sale is based upon sound sense and good reason. The  
 goods are here and we've got to clear them out—that's all. And we promise you better values than you've ever  
 been offered before.

**THAD. W. HOBSON CO.**

16 W. Santa Clara St. = = San Jose

**The A. Van der Naillen School**  
 of Practical Civil, Electrical, Mining Engineering  
 Established 1874  
 Occupying their own building, workshop and labora-  
 tories. Open all year. Great demand for students in  
 all lines. Few students absent except at once. Address  
 51st St. and Telegraph Ave., Oakland, Cal.
