Formats

If you create the illustration on **paper**:

- Recommended minimum size: DIN A5 (landscape). Photographs of illustrations must be studio photographs. Scans of illustrations must be high-quality, sharp and high-resolution.
- Digitized PNG files must not be compressed.

If you create the illustration as a **bitmap**:

- Approximate **minimum** size of the file to be published: 1800 x 1270 pixels (more than 2 Mpx). Approximate **recommended** size: 2500 x 1764 (more than 4 Mpx).
- Maximum file size: 100 MB.

If you create a **vector graphic** (preferable), use the standard SVG format.

Image display guidelines:

- Approximate image display dimensions on description page: 718 x 500 pixels.
- Approximate image display dimensions in a Wikipedia article: 500 x 348 pixels.

Keep in mind the approximate display dimensions to ensure that the illustration has an appropriate level of detail for its publication context.
