C. Fuel	33,000	
Burner Fuel	7,800	
Loss	2,400	
Total	120,000	

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO.

9. Labor Situation:

In accordance to the labor union concerns, no dispute has arose eversince the day strike of 23rd December, 1945 demanding payment of year-end allowance. Furthermore, the labor union had affiliated previously with the National Liaison Congress of Labour Union and All Japan Congress of Industrial Labor Union however, in the sponsored union central conference of August, 1949, a debate continued to withdraw from the said unions, and withdrew officially on 28 October.

Moreover, the re-election of the union staffs had taken place in October. The former Masao Nishimura was re-elected executive committee chairman of the branch office and still holds the office.

With regards to revision of Labor Union Laws effective as from 1 June, 1949, the Refinery made a complete revision in the labor agreements dated 1 August, and it carries up to the present.

Due to the reopening of the Refinery, approximately 100 laborers and technicians transferred from Niigata, Akita and Kashiwazaki Company at the end of last November. In the beginning of this January additional 51 laborers were employed. This completed the necessary number of employees based on the first construction project.

Number of Employees: (As of 23rd February, 1950)

	Male	Female	
Office Employees :	49	14	
Technicians :	36		
Laborers :	298	2	
TOTAL :	383	16	399

DECLASSIFIED E.O. 12065 SECTION 3 402/NSC MR

10. Power Situation:

The Refinery finally reopened its operation on 3 February, 1950. The necessary power is increasing gradually. Including today's estimation, a 1,000 dollar contract had been signed at the time of 1949's application for electricity allotment of the months from January to March. Therefore, under the present circumstances, a possible operation can be predicted with this contract.

However, it is estimated that complete operation can not be done with the mentioned contract in case the operation of this Refinery reaches to the normal due to complete consolidation of the remaining repair works.

Power Rate Table:

TIME	CONTRACT	CONSUMED QUANTITY	MAX. POWER	DEMAND RATE	SPECIFIC RATE	TOTAL
Nov. 1949	490 KW	53,690 KWH	-	66,150.00 (old basic rate)	61,281.00	127,431.00
Dec. 1949	490 KW	48,380 KWH	270 KW	56,538.20	66,860.00	61,116.00
			REMARKS: 66,150 balance (old basic rate)			
Jan. 1950	1000 KW	36,970 KWH	Power rate 50% Maximum revision 230 KW	47,262.20	55,515.60	102,778.00
Mar.(Estimate) 1950	1000 KW	220,000 KWH	500 KW	102,747.00	323.600.00	426.367.00
Jun.(Estimate) 1950	1000 KW	480,000 KWH	1000 KW	112,162.00	672,000.00	784,162.00

Nippon Oil Company, Ltd.
Kudamatsu, Yamaguchi Prefecture

Gentlemen:

I regret that I am unable to attend the re-opening ceremony of your Kudamatsu Refinary.

Your refinary, being among the first to be re-opened in Japan, will play an important part in the Japanese economic rehabilitation through reducing cost of petroleum products which hethertofor were imported.

I wish to extend my best wishes to you for a successful future.

FRANK KOWALSKI, Jr.
Colonel Inf.
Chief, Chugoku Civil Affairs Region

DECLASSIFIED E.O. 12065 SECTION 3 402/NNSS NO.

APPLICATION FOR AUTHORIZED USE AND OR
MOVE OF THE REPARATION EQUIPMENT

45-38 Plant File Sec. II

To : Minister of finance.

From : T. Kuwahara.
Superintendent of Kudamatsu Refinery, Nippon Oil Co., Ltd.
757 Higashitoyoi, Kudamatsu-Shi, Yamaguchi-Ken.

Date : 16th., Jan. 1950

1. Name of Plant. (Code No.)
Oshima Oil Storage of Hiroshima Ex-Army Ordnance Supply Depot.
Code No. 45-28.

2. Location of Plant.
Odomari, Agenosho-Cho, Oshima-Gun, Yamaguchi-Ken.
(Stored at Kudamatsu Refinery, Nippon Oil CO., Ltd.
Kudamatsu-Shi, Yamaguchi-Ken,)

3. Name of products planned.
To be equipped with these machinery in our oil packing factory, and used for filling the products into drums.

4. Experience of the production planned.
This refinery was established in 1929, and hence engaged in operation to refine imported crude oil. During the last war this refinery received damages amounted more than 50 percent of the equipments by bombing, however, had repaired them roughly in a short time after the war ended.
Observing the directive of G. H. Q. we stopped operation since Nov. 1946 as a refinery which located on the Pacific coast.
According to the directive of G. H. Q. which approved re-opening of refining imported crude oil, we have already completed preparation for oil refining facilities,and, at present have provided a refining capacity of 5,000 barrel of crude oil per day.

5. 1939-1949 Production. (Unit: Killo Litre)

Consumption	Production						
	Crude Oil	Gasoline	Kerosene	Light Oil	Fuel Oil	Lubricating Oil	Others
1939	153,084	59,000	13,200	6,400	42,800	18,400	10,900
1940	183,325	69,400	12,500	6,900	62,460	19,950	10,400
1941	124,690	42,306	8,390	6,144	33,105	13,226	7,734
1942	70,275	24,011	4,071	3,591	29,706	6,692	5,299
1943	85,141	24,946	6,733	3,439	35,316	8,824	2,198
1944	80,139	18,764	4,536	2,733	49,255	13,610	672
1945	18,071	2,784	507	288	12,393	2,532	360
1946	Nil	Nil	Nil	Nil	Nil	Nil	Nil
1947	"	"	"	"	"	"	"
1948	"	"	"	"	"	"	"
1949	"	"	"	"	"	"	"

DECLASSIFIED E.O. 12065 SECTION 3 402/NNBS NO.

6. period of desired permission.
   From the date of permission to the date of reparation release.

7. Scale of the production planned by month for period on this application.
   By using these two machinery the packing capacity will be incresed up to 700 drums per day.

8. Name and Location to which products are to be delivered.
   Products which packed in drums by using these machinery are to be supplied for domestic consumption in accordance with the direction of Hiroshima International Trade and Industry Bureau.

9. Scale of proposed change in physical facilities.
   We took delivery of these machinery on 13th. March 1948 according to permission for temporary~~ly~~ use being issued by Chief of Hiroshima Finance Bureau, and afterward we understood these machinery are already designated for reparations.
   These are now stored in our wharehouse.
   These machinery, as described per other item, had been rusted deeply, and some parts were damaged or missed. we are ready already to use these machinery having them repaired or having newly purchased missing parts.

10. Intended expense for authorized use.
    For newly purchasing and or repairing the parts ¥25,000.00
    For labors wages 7,000.00

11. Plan and location to continue the production after reparation removal.
    In case these machinery are removed in the future, acquisition of substitutions being difficult, we shall be obliged to handle packaging by hands which will result in 75 percent less packing capacity.

T. Kuwahara
(Taniji Kuwahara)

Superintendent.
