Aug. 26th 1947.

Subject: Application for permission of movement of machineries.
To : Commanding Officer of Hyogo Military Government Team.

Machinery to be moved:

<u>Name of machine</u>	<u>Code No.</u>	<u>Maker</u>
6 feet lathe	13-10-155	Kinoshita Tekko
Cylindrical grinding m/c.	13-10-112	Kawanishi Koki

From: Takarazuka Plant, Kawanishi Aircraft Co., Ltd.
No.1000, Kurando aza Nikawa, Ryogen-mura, Muko-gun,
Hyogo-ken.

To : Meiwa Automobiles Plant, Kawanishi Aircraft Co., Ltd.
No.1, Naruo aza Ohigashi, Naruo-mura, Muko-gun, Hyogo-ken.

Reason:

Most of the buildings of Takarazuka Plant were destroyed by air-raid in wartime, so repairing these buildings we stored many machineries in them. But the space of these buildings are so small that it is very difficult to rearrange these machineries and to repair and maintain them enough in Takarazuka Plant comparing in Naruo Plant.

We started the production of Auto-three-wheelers as one item of conversion of Kawanishi Aircraft Co., Ltd. in Naruo Plant and mass production was already begun from the end of 1946. But for mass production, we want the machineries mentioned above, as these machineries are necessary to produce the parts of auto-three-wheelers which are the neck point of mass production.

So we should be much obliged, if we could get permission for moving and using these machineries for civilian production and better maintenance.

August 30, 1947

To: Lt. Col. Ressel G. Rehkop,
Commanding,
Hyogo Military Government Team.

Subject: Request for Permission to Remove Two 5HP
Motors for Provisional Use.

Sir,

The Asahi-ga-oka Water-pumping Station in the Dependents' Residential Area of Itami Air Base located at Takarazuka, Ryogen-mura, Muko-gun, Hyogo Prefecture has become unable to carry on supplying water to the aforesaid Dependents' Residential Area owing to a breakdown of motors for its pumping facilities. In order to get over the situation, emergency steps are being taken, but new motors to replace the damaged ones cannot be obtained immediately.

Under the circumstances, we wish, as an expedient measure, to remove two 5HP motors as mentioned below from the Kawanishi Aircraft Co., Takarazuka Plant and install them at the Takarazuka Kogyo, Takarazuka, Hyogo Prefecture for temporary use.

Your kind permission in this connection is respectfully requested.

4. Reason:

Most of the buildings of Takarazuka Plant were destroyed by air-raid in wartime, so repairing these buildings we stored many machineries in them. But the space of these buildings are so small that it is very difficult to rearrange these machineries and to repair and maintain them enough in Takarazuka Plant comparing in Naruo Plant.

And we were permitted to move the machineries from Takarazuka Plant to Meiwa Automobiles Plant in Naruo Plant by Hyogo Military Government Team. (No. 70 - 47 Date 19 April 1947) for better storage and Maintenance. But we want to move the above mentioned machineries with same purpose

So we should be much obliged, if we could get permission for movement of these machineries.

2. The location to where the machineries to be moved:

Obayashi Plant:
Obayashi aza Sumita, Ryogen-mura, Muko-gun, Hyogo-ken.

3. The date in which the machineries to be moved:

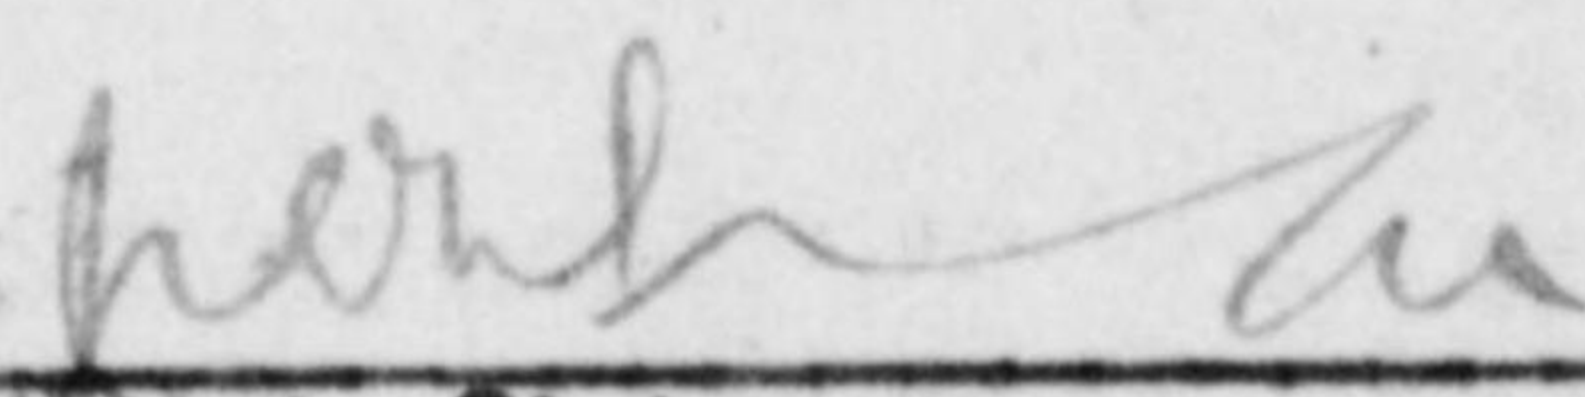

As soon as when permitted.

Reason:

We are producing the Auto-three-wheelers which are essential to reconstruct the national economy, and also one of the major products of our reconversion production.

We also produce the Roller Skates which are ordered from Special Service of the Allied Forces in Japan. And the machineries above mentioned, are necessary to produce the gears of the Auto-three-wheelers, and the Roller Skates.

So we should be much obliged and we will make Koji Toyoda (who is the manager of Obayashi Plant, and is lately appointed to be the responsible person for keeping the reparation machineries) his best to keep these machineries in good condition, if we could get permission for moving these machineries to Obayashi Plant to produce these gears, and the Roller Skates.

2. Present location:

Maruyama Seisakusho
No.40, 5 chome Tsukuda-cho, Oyodo-ku, Osaka-shi.

3. The location to where the machineries to be moved:

Naruo Plant.
No.1 Ohigashi, Naruo, Naruo-mura, Muko-gun, Hyogo-ken.

4. The date in which the machineries to be moved:

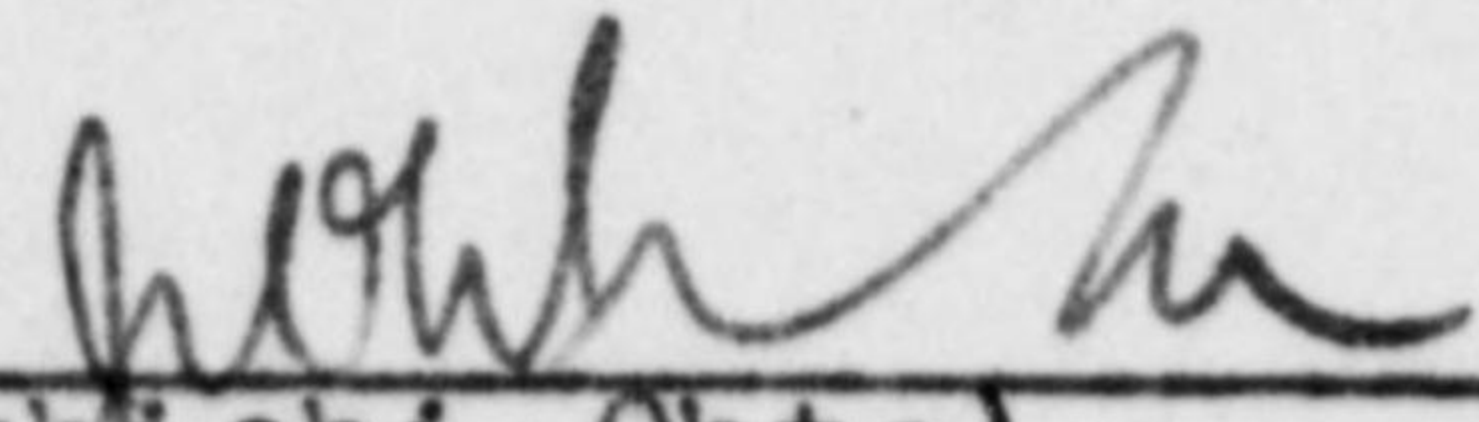

As soon as when permitted.

5. Reason:

As one item of conversion of Kawanishi Aircraft Co., Ltd. production of Auto-three-wheelers was planned, and before the permission of its production in Naruo and Takarazuka Plant was given, we loaned a part of Maruyama Seisakusho, the subcontractor, (No.40, 5 chome, Tsukuda-cho, Oyodo-ku, Osaka-shi) and started production of the experimental type of Auto-three-wheelers and completed it by using the machineries above mentioned, which were once in Maruyama Seisakusho.

But in Maruyama Seisakusho we could not begin Mass production, we moved to Naruo Plant from Maruyama Seisakusho by permission of Hyogo Military Government Team in Oct, 46 and began production as planned.

And though the machineries above mentioned were permitted to bring back to Takarazuka Plant from Maruyama Seisakusho by the Governor of Osaka Pref., we should be much obliged if we could get permission of moving and using of these machineries in Naruo Plant.
