Those who hold this opinion may have taken a more dispassionate and a more accurate survey of the situation, may better comprehend the feelings and the purposes of the people of the North, than those who are more singuine of an early returning sense of justice among that people, among whom we do not class ourselves. We have always believed that to slidy the passions evoked by the war would be a work of time, and that both sections had much suffering to encounter before the era of good feeling could be expected to return.

There is a movement on foot among the friends of General Grant to have President Johnson nominate Hon. N. P. Rev. Dr. Boynton, of the Congregational Church at Washington, whose prayers and sermons have been of the most Radical stamp, has demonstrated the extent of his brotherly love for the African by refusing to admit two colored men to his church.
