Mr. Arnold admitted that Deal had a revolver on him when arrested. The negfo's story would be that he drew up the auto he was driving towards the curb and MacBeath and Quirk jumped on the running board and struck him over the head. He was taken from the car and knocked down. Deal, the lawyer states, would say that he recollected he had a gun in his possession and broke away in order to throw it in the auto. He was recaptured, a fight ensued and he drew his gun. Some shots were fired; but the defence counsel would leave Deal to tell his own story.

"You can if you read words into it." Mr. Fait repired. "The allegation, the heart of the thing, is left out—that the accused did pay out this money. That may be the in-lended-meaning, but is it there in the indictment? "The Court cannot read words into the indictment any more than into a law."

Mr. Lowe insisted that the charge was perfectly clear—that the finance Committee made a payment of more than \$50 to Staneland without securing the Council's consent.

City Treasurer E. C. Smith was Mr. Lowe's next witness. He identified the cheque issued to pay \$100 to Mr. Staneland.
Mr. Smith repeated his Police Court evidence to the effect that the Staneland grant had been paid before it had been approved by the finance committee. This procedure, he admitted, was not strictly in accordance with the law but was "occasionally" adopted in the case of "an urgent call."
The judge suggested that the sending of a delegate might be an "urgent call."
Mr. Lowe promised, however, to prove that only the Council could approve a delegate's expenses. The Police Commissioner, he said, could only pay out expense money to actual police officials.

Mr. Tait produced city financial records to show various items paid out from the police appropriation without the consent of the Council among them an item to cover the expenses of a police tug-of-war team to Seattle.

Mr. Lowe closed his case at this point. He said that the Council alone could pay a delegate's travelling expenses.

The Finance Committee, Mr. Lower argued, had known of the Council refusal to pay the Staneland grant and had acted in the teeth of this decision.

The Judge said that the modern the Judge said that the modern the finance country of the council since the Armistice was declared is the duty of the people to take the finance of where they stand, he said that the modern the finance country of the second of the Rotary Club at the Empress Hottle, was given a very hearty reception on being introduced by General R. "Perhaps he was satisfied," the Judge remarked. The fact that the Police Commission, had in the first place asked the Council to make the Staneland grant showed that the Commissioners realised that they themselves could not pay the grant out of their funds. "If such a proceeding is countentanced any official could play loose with the city's funds," Mr. Lowe asserted.

TAX SHORTAGE IS \$250,000; SMALLER

Victoria's city land and improvement tax collections were approximately \$250,000 short this year, it was announced at the City Hall late yesterday afternoon when City Treasurer E. C. Smith had completed the work of totalling all money received. In other words, \$1.83 per cent. of the taxes were collected and in previous years the collections were smaller still.

Of a total levy of \$1.588,572, \$1.-300.21 has been collected this year, Mr. Smith explained to-day. "This collection is a great improvement," Mr. Smith stated. "The cleaning out of a lot of land through tax sales undoubtedly improved the collection." The shortage of \$250,000 in the annual tax collections is \$100,000 less than the figure which the Civic Finance Committee was expecting. Under the policy adopted this year taxes will be levied next year to cover this shortage, and thus the city will not get further into debt. On account of this shortage, however, it will be necessary to cut down expenses wherever possible during the remainder of the year

Tom Uphill Has Own Beer Clause If No One Else Will Come Forward With One; Neelands Gives His Opinion On P. G. E. and Compensation and Wage

Labor had its say in the Legislature late yesterday, through its presentatives, Thomas Uphill, of Fernie, and Harry Neelands, of

The former characterized the Mothers' Pensions Act as a "mere skeleton" placed on the statute books to eatch the woman vote. The mount paid needy women was inadequate, said Mr. Uphill, and no FEARS FOR FUTURE would venture to say that \$17.50 per month was sufficient to keep a woman and two children. He asked the Government to increase compensation.

The people demanded beer by the glass, he maintained, and it would be in the best interests of moderation to see that they got it.

Mr. Uphill claimed that conditions at present were worse than in phohibition days. Boys and girls are permitted in places where hard liquor is consumed, but even youths of 20 were kept out of the old bars. He charged that there were members in the Legislature who believed that it would be wise to bring in a beer measure but for political reasons they were affaid to do so.

Against Steol Pigeons. Until something effective was done by the Government on the unemployment question the Labor members intended to keep up their fight, he warned. He also advised Labor to follow the example of the bee and sfore up something for the off season. There was blame on both sides but co-operation should provide a remedy.

He referred to the practice of the douor Control Board in employing tool pigeons and asserted that the perations of some of these reficeted nost discreditably upon the Government. Many were brought in feometican points: some owned fine motor cars and went about the country for \$5 per day and expenses indeavoring to get people to break he law.

country for \$5 per day and expenses endeavoring to get people to break the law.

Mr. Uphill told of cases in Fernie where stool pigeons employed in Bonner's Ferry, were responsible for the arrest of sight persons now facing the possibility of jail sentences and he had no words to fit the cast of stool pigeons who would stoop to such a practice.

Touching upon mining affairs, the Fernie member asked the Government to improve the regulations, so that danger to life would be lessened. He advocated the issuance of insurance policies of \$5,000 each to miners working underground and petitioned the Government to go farther with its mine rescue work.

OF PUBLIC SCHOOL SYSTEM OF B.C.

(Continued from page 1.)

Mr. Neclands ridiculed the idea of encouraging more people to come to this Province. True, he said, the Government was encouraging farmers, but he would like to know how much better the farmer was off. Recently he had attended a farmers' meeting and they were forced to ask the Government for loans to tide them over a bad season.

He referred to the P. G. E. issue and the long addresses of the Premier and Opposition leader. It reminded him, he said, of a little rhyme: rhyme:
"We'll talk and talk about the

rhyme;

"We'll talk and talk about the P. G. E.

I'll pan you and you pan me.
But the people will be no wiser."

Mr. Neelands thought the Government railway was as good as others of its standard, but it never should have been built. It stood to-day as a "monument to colossal stupidity or rascality," and was a sick proposition. No wonder a medical man had been called in to administer to its needs. Perhaps, he added, the next step would be to call an undertaker.

Mr. Neelands made a strong plea for the restoration of autonomy for South Vancouver.

He wanted improved conditions in the enforcement of the Mothers' Pensions and Workmen's Compensation Acts. In the case of the latter he guggested that more than one medical man's opinion be made available.

The South Vancouver member protested against the representations made recently by the Canadian Manufacturers' Association with regard to amendments to the Minimum Wage Act. They were asking too much, he claimed, and practically wanted to name the personnel of the board. He asked that Labor be heard on this matter before a decision was reached. To this Attorney-General Manson responded that a Labor defegation had already presented its views. retary of the Canadian Mining Insti-tute, and judge of students papers from Canadian universities, and H. G. Nichols, who is familiar with stu-dents from all parts of the British Empire, both stated that the stud-ents papers from U.B.C. were the best they had ever seen.

Did Nothing For University.

Dr. MacLean recalled how the University was endowed with 2,000,004 acres of land in 1907, but up until 1917, ten years, nothing was done by the late Government to develop that endowment. Not an acre was rented, not an acre sold, much of it not even surveyed, and not a single attempt made to convert that 2,000,-000 acres into anything financially. attempt made to convert that 2,000,600 acres into anything financially

the minister went op. "Look over

he believed important statements of Analyses of the crops of pheasants to show what they eat, and that they actually destroy growing grain was given to the Legislature in detail last night by J. A. Catherwood, Conservative member for Dewdney.

These analyses were presented in connection with the demands of the Ratepayers' Association of Pitt Meadows so that farmers would be given the right to protect themselves against Chinese pheasants, which are active in destroying grain crops.

What was found in the crops of a dozen pheasants was given in detail, every bit of grain, potatoes and every worm being counted. In one crop 689 oat grains were found as well as pieces of potatoes and hundreds of grains of wheat. But out of all these crops there were found only three green worms and four bugs.

"These analyses are sworn to by several witnesses, who saw the

green worms and four bugs.

"These analyses are sworn to by several witnesses, who saw the actual operations," Mr. Catherwood went on. "They are given to contradict Dr. Baker's claims that 95 percent, of the food of pheasants was bugs and worms."

Mr. Catherwood told the Legislature that amendments to the Liduor Act are badly needed, as proved by the way the Act had been working out. He declared that the Attorney-General had taken the right step in sending out questionnaires to get the views of members on the Liquor Act. He brought up the case of a man in his constituency who had been caught taking dog salmon for fertilizer and had put the man to needless expense by summonsing him to New Westminster instead of to the nearest magistrate at Mission.

M. B. Jackson, K. C., interrupted to say that the fish administration was under the Dominion Government and this police officer, Pike, was one of the best trained officials in the service of the Province.

Attorney-General Manson asked that such instances be brought to his attention. He said that Pike was a very efficient game warden and ought to know his business.

Mr. Catherwood urged that all dyking commissioners should be elected instead of some under the old act being appointed apparently for all time. COLDS GRIP

Of the many outstanding achievements of the Royal Engineers in the late war that will go down in the history of British military engineering none will secure a higher place than the building of the Kantara Ludd railway over the desert sands of Palestine in the late campaign.

An illustrated lantern lecture on railway construction in the Holy Land will be given by Major G. A. Walkem. M.E.I.C. before the Victoria branch of the Engineering institute of Camada on December 11. It was announced last night at the regular meeting of that body. Definite plans are to be stated later, when the public will be made welcome. Major Walkem, of Vancouver, was attached to the Royal Engineers in Palestine, and his view of that work will be of absorbing interest to the mechanically minded. The meeting, held at the office of the organization in the Brown Block, was the occusion of the nomination of officers for the year 1923. An able address on "The Policy of the Institute" was given by Major Walkem, who was then pressed to give the Palestine lecture. which this country naturally take which this country naturally takes the greatest interest, hardly figured in the election campaign, and it is noteworthy that Ex-Governor Cox of Ohio, the Democratic leader, who left. "A moderate veduction in their majority sagacious Republicans realized might prove a blessing in disguise to their party by restoring a much needed sense of discipline in the ranks, but where they were looking forward to a little wholesome correction, which they were putteredly to take kindly, they have received a heavy blow. The pendulum has swung right over from their side to the other, and the violence of its swinging may derrange the party mechanism and other mechanisms in ways wholly undesirable and unforseen."

NORTH SAANICH WOMEN MET

Special to The Times.

Sidney—The monthly meeting of the North Sanich Women's Institute took place. On Tuesday afternoon at Beach House. The president, Mrs. Veitch, was in the chair, and opened the meeting; Mrs. Speedle, the secretary, reading the minutes of the last meeting, which were adopted. The treasurer's (Mrs. Philp) report was read, showing \$62.50 was taken at the recent performance of "Esmeraida." The report was adopted. After several business matters had been discussed Mrs. Deacon, who was the official delegates at the recent conference in Victoria, read a resume of the addresses and happenings during the conference. The meeting then adjourned. All then went into the kitchen of Beach House, where Mr. Enwright, of Victoria, gave a very interesting and instructive demonstration of cooking with aluminum ware, at the end of which all those present tasted all he had cooked. Mrs. Johns won a casserole dish given by Mr. Enwright, musher five being the lucky number. Mrs. Deacon won a baking tin in a word competition. A silver collection was taken.

"WE ARE THE LIVING" Reply to Famous Poem Is Written

W. G. Foss, B. A., has just published a poem, "We are the Living," in nswer to Lt.-Col. McCrae's famous oem, which is available for salesin tastefully illuminated border. This order design has been produced at the Times Engraving Plant, and has be same theme dominating the deign as the historic original. Poem ards have been issued to the numer of 5,000, and part of the proceeds till go to disabled soldiers. The oem reads as follows:

WE ARE THE LIVING.

Planders' fields we do not lie here poppies grow and larks do fly rever singing as they go, yove the bodies row on row, those whose duty 'twas to die.

G. W. V. A. Publication Contains Considerable of Interest.

The Poppy Day Year Book, 1922, saued by the Great War Veterans' association (British Columbia compand) in aid of the Armistice Day Poppy Campaign, is a most artistic and interesting book of sixty-four pages, and is something that will brove of value as a keepsake by many of the veterans who served overseas, and their relatives.

The publication has an attractive sover in color, and one of the chief eatures of interest in the issue is he list of actions in which the Canadians won fame and glory. A con-

ans won fame and glory. A con-derable amount of valuable infor-ation regarding pensions and mat-ers dealing with the organization re dealt with, and the entire book-t is full of matters which will in-terest the veteran.

OUTLINE THISTORY The Romance of Mother Earth

TO-DAY'S INSTALMENT-52 Gods, Priests and Kings—(Cont'd)

In the early days of Sumeria and Akkadia the city-kings were priests and medicine men rather than kings, and it was only when foreign conquerors sought to establish their hold in relation to existing institutions that the distinction of priest and king became definite.

But the god of the priests remained as the real overlord of the land and of priest and king alike. He was the universal landlord; the wealth and authority of his temples and establishments outshone those of the king. Especially was this the case within the city walls.

Especially was this the case within the city walls.

Hammurabl, the founder of the first Babylonian empire, is one of the earlier monarchs whom we find taking a firm grip upon the affairs of the community. He does it with the utinost politeness to the gods. In an inscription recording his irrigation work in Sumeria and Akkadia, he begins: "When Anu and Bel entrusted me with the rule of Sumer and Akkad—" We possess a code of laws made by this same Hammurabi—it is the earliest known code of law—and at the head of this code we see the figure of Hammurabi—reciving the law from its nominal promulgator the god Shamash.

in the earliest known code of law—and at the head of this code we see the figure of Hammurabi receiving the law from its nominal promulgator the god Shamash.

Gods as Spoils of War.

An act of great political importance in the conquest of any city was the carrying off, of its god to become a subordinate in the temple of its conqueror. This was far more important than the subjugation of king by king. Merodach, the Babylonian Juviler, was carried off by the Elamites, and Babylon did not feel independent until its return,

But sometimes a conqueror was straid of the god he had conquered in the collection of letters addressed to Amenophis III and IV at Tel-Amarna in Egypt, to which allusion has already been made, is one from a certain king. Tushratta, king of Mitanni, who has conquered Aswria and taken the status of the goddess shater. Apparently he has sent this statue into Egypt, nartly to acknowledge the overlordship of Amenophis but partly because he fears her anger (Winckler).

In the Bible is related (Sam iv. 1) how the Ark of the Covenant of the God of Babylon: he never took the land of Bel': and finally struck at that power by destroying altogether the holy part of the city of Babylon fell down and was beskern, and how the propole of Ashdod were smitten with disease. In the latter story particularly, the gods and priests fill the scene: there is no king in evidence at all.

Right through the history of the Pabylonian and Asvyrian remires no monarch seems to have felt his tenure of power secure in Babylon until

The Great God "Bel" of Babylon Sardanapalus was given a lonian instead of a military Asthat Sardanapalus was given a Babylonian instead of a military Assyrian education. He became a great collector of the clay documents of the past; and his library, which has been unearthed, is now the most precious source of historical material in the world. But for all his learning he kept his grip on the Assyrian army; he made a temporary conquest of Egypt, suppressed a rebellion in Babylon, and carried out a number of successful expeditions.

As we have already told, he was almost the last of the Assyrian monarchs. The Aryan tribes, who knewmore of war than of priestcraft, and particularly the Scythians, the Medes and Persians, had long been pressing upon Assyria from the north and northeast. The Medes and Persians formed an alliance with the nomadic Semitle Chaldeans of the south for the sent undoing of Assyria. Nine-

Semitle Chaldeans of the south for the joint undoing of Assyria. Nineveh, the Assyrian capital, fell to these Aryans in 606 B.C.

Sixty-seven years after the taking of Nineveh by the Aryans, which left Babylonia to the Semitic Chaldeans, the last monarch of the Chaldean empire (the second Babylonian empire), Nabonidus, the father of Belshazzar, was overthrown by Cyrus, the Persian.

was overthrown by Cyrus, the Persian.

This Nabonidus, again, was a
highly educated monarch, who
brought far too much intelligence and
imagination, and not enough of the
short range wisdom of this world to
affairs of state. He conducted antiquarian researches, and to his researches it is that we owe the date
of 2,750 B. C., assigned to Sargon I
and still accepted by many authorities. He was proud of this determination and left inscriptions to record
it.

It is clear he was a religious inno-vator; he built and rearranged tem-ples and attempted to centralize re-ligion in Pabylon by bringing a numher of local gods to the temple of Bel-Marduk. No doubt he realized the weakness and disunion of his em-pire due to these conflicting cults and had some conception of unification in his mind.

A Priestly Betrayal.

Events were marching too rapidly for any such development. His innovation had manifestly raised the suspicion and hostility of the priesthood of Bel. They sided with the Persians. The soldiers of Cyrus entered Babylon without fighting. Nabondidus was taken prisoner, and Persian sentinels were set at the gates of the temple, of Bel. "where the services continued without intermission."

Cyrus did, in fact, set up the Persian Empire in Babylon with the Llessing of Bel-Marduk. He gratified the conservative instincts of the (Concluded on page 17.)

There is one British Columbia product which is in greater demand in its home field than are all other brands combined. Grocers tell us they sell approximately five cases of Pacific Milk to one case of all the others. Since we have succeeded, through an improved process, in making each can 43 per cent. oream the demand for this good milk has steadily increased.

Pacific Milk is the only milk now being packed in British Columbia.

The Gordon Head Women's Institute witnessed with much interest an excellent demonstration of salad making at its meeting yesterday afternoon by Mrs. J. D. Gordon of Victoria in her practical little talk. Mrs Gordon emphasized the value of making food appetizing and polated out the fallacy of the argument redvanced by the woman who declared. Oh, eats is just eats." The speaker also gave many practical hints on home cooking and housekeeping. Mrs Erd and Mrs Scott served the salad that was made at the demonstration, together with bread and butter, tea and cake A business meeting preceded the demonstration. \$86,600 REQUIRED FOR **COMMUNITY CHEST**

After mature consideration the Budget Committee of the Community Chest scheme has set the final estimate required as \$36,600 and the drive to raise this amount will commence Saturday. An appeal is being made to 11,000 homes in the city in the hope that the whole town will respond to this appeal on behalf of the charitable welfare and character-building institutions of Victoria. The Ministerial Association has endorsed the scheme, and the various churches will make an appeal from the pulpit on Sunday. While an army of canvassers will be engaged, it is hoped that where possible subscribers will send their donations direct to the headquarters at 45 Arcade Building, thus saving the time of these voluntary workers.

possible to take over the goalkeeping job.

Last night the Maroons shot out the S. O. S. to Lehman, urging him to report earlier than December I, the date on which he expected to reach the Coast. With Art Duncan still unsigned and Jack Adams also an absentee, it looks as if Vancouver will enter the first match with three of last year's regulars missing. Whether the newcomers will be able to fill the gaps and hold the strong Seattle squad in check is problematical.

All of the players have been showing encouraging form in practice but the team will be up, against what local fans regard as the strongest on the circuit as Seattle starts with the 1921-22 outfit intact and with McCarthy, Briden and Fraser three pretty fair substitutes on the bench-Holmes will be back in goal, and Riley and Rowe will be doing defence duty again with Fraser alternating with-the Jatter. On the line will be Walker, Foyston and Riley.

Right now the Mets appear to have the edge on both Vancouver and Victoria, but whether they will be as clever and speedy under six-man rules remains to be seen.

Seattle, Nov. 9.—Seattle's ice hockey squad went through another lively practice session yesterday afternoon on the ice at the Arena.

Jim Riley, Bernie Morris and Jack Walker were at their Best. The three veteran members of the Metropolitans were skating at top speed and sagging the net in mid-season form. Tom McCarthy, a new addition to the local force, did not show up as well as, in previous workouts. It may have been that he was easing up a bit after his strenuous performance, or that the great work of the trio of veterans east his efforts a trifle into the shade.

horse. Brown, Robwer, Collins and Lovelace in trades.

Cooper and Morrison are said to be the only pitchers that are sure of their jobs next year.

Considering the fact that the Pirates did not begin to work properly until Walter Schmidt deserted the holdout ranks, it is rather unusual to hear talk from Pittsburgh that Barney Dreyfuss wants to get rid of him. Schmidt is one of the finest catchers in the league, but he and his boss cannot agree on what salary he is worth.

Just before the close of the season Schmidt wrote to a friend in Califors ria that he was going to manage the team in 1833, and it gave rise to re-

Raised Guarantee on Cowichan Club and Rep Game at Duncan Cancelled

Owing to the fact that the Edmonon ruggers raised the ante on the Cowichen Club the game slated for yesterday afternoon at Duncan was cancelled. The Albertans were to have played a representative Vanouver Island team.

The Cowichan Club had offered to meet the guarantee of \$150 but at the last minute the amount was raised to

\$500' and the officials decided to call off the engagement.

A number of Victorians were picked to play on the rep team and were to have motored to Duncan yesterday morning. Boss Johnson was selected for full-back. McInnes was to be incorporated in the three-quarters, while Taylor was to be used at five-eighths. The forwards included Irvin Blyth, Broadbelt, Colpman and Gravlin.

Battling Siki Nearly Mobbed By Furious Fans at Paris Bout

Paris, Nov. 9.—Battling Siki, the Senegalese fighter who some time ago dethroned Georges Carpentier, is in trouble with the Boxing Pedration as the result of striking another boxer's manager.

Siki last night acted as second to Ercole de Balzac, the French middleweight champion, who was fighting Maurice Prunier. In the eleventh round Balzac took the count. Siki apparently displeased at the result, crossed the ring and struck Fernand Cuny, Prunier's manager. The spectators were furious at the assault and tried to get at Siki. The Senegalese was rescued, however, and escorted out of the hall by the police.

It was announced that a complaint would be filed with the French Boxing Federation which would meet to decide whether Siki should be rmanently disqualified from fighting under Federation rules because his misconduct.

Bulletin—London, Nov. 9.—The Home Office to-day intimated to the promoters of the Battling Siki-Joe Beckett fight, scheduled for December 7, that the contest will not be allowed to take place. The articles of agreement between Siki and Beckett call for a 20-round conest for the heavyweight championship of Europe, to be staged in

The authorities state that the bout will not be allowed in either that auditorium "or any other place in the United Kingdom," helding the view that "in contests between men of color and white men, the temperaments of the contestants are not comparable and, moreover, all

The Home Office takes the further view that there is such a large number of colored men in the British Empire "that such co considered against the national interest and they tend to rouse pas-sions which it is inadvisable to stimulate."

As a precedent the officials point to the action of the Crown law

officers in 1911 when they intervened in the contemplated match be tween Jack Johnson and Bombardier Wells.

Yesterday afternoon at the canteen grounds the Garrison soccer team defeated the sallors from the H.M.S. Capetown by the score of three to two. At the end of the first balf the score stood two to one in favor of the soldiers. After the interval each team scored once.

After the game had been going about twenty minutes the sallors jumped into the lead, the ball being tisken down the field by the centre balf, Halloran, who passed to Collins at outside right. Collins shot the ball into the net. With about ten minutes to go for half time watted the score by taking a long shot from in front of the goal, the sallors' goalle letting time only a few minutes off Coulter put the Garrison one ahead when, on a pass from Spiers, he beat the opposing net guardian with a low drive. The whitele then sounded for half time.

Garrison — Weir; Grimes and Crimes; Ward, Mitchell and Armstrong; Cummings, Sharcolt, Spiers, Coulter and Watt.

'Newsy" Admits That He Has Signed a Contract to Play With Crescents

Inside Story Shows That Lalonde Soured on His Canadien Boss

Montreal, Nov. 9.—Newsy Lalonde admitted to The Star yesterday that he had already signed his contract with the Saskatoon Crescents, and J. T. McOrmond, of the Western club, is forwarding that document to-day to his colleagues in Saskatoon.

"Although there has been a great deal of talk one way and another recently in regard to the rumor that Lalonde might not go to Saskatoon after all, although traded for Aurel Joliat by the Canadiens, it would appear that this report has absolutely no foundation." The Star says.

"The whole secret of the fracas lies in the fact that Lalonde soured on Dandurand over an offer of financial assistance made when Dandurand bought the club," says The Toronto Star. "Dandurand, who had his capital tied up, passed over Lalonde's offer of a loan in favor of the money of other friends, and Lalonde feithurt. The grand old man of professional hockey' did not go very well early last season, and Dandurand called him down and practically accused him of not trying. Lalonde blew up and resigned. WANDERERS SCORE WIN OVER SAILORS

Fast, Open Play Features Rugby Game at Oak Bay: Capetown's Threes Good

Although H. M. S. Capetown's ruggers were defeated by the Wanderers at Oak Bay Park yesterday afternoon by 7-3, they can take satisfaction from the fact that their back division showed the spectators the finest and fastest work that has been put on here this season. The sailors' three-quarters were particularly brilliant and were constantly carrying the ball for great gains. It was a very open and interesting game and although the Wanderers' forwards had a little the better of the Captown's scrum the sailors held a decided advantage in their backs. Armitage and Brownrigg were particularly brilliant on the sailors' three-quarter line, the former showing good running ability. He got over for the sailors' only try.

who thirty-five years ago was the famous Belasco beauty and star of 'Floradora," whose appearance at the Royal Victoria Theatre here has been arranged for her by Manager Den ham. Miss Hopper will be here fo six days, starting Monday, November 13, and from the stage and through 13, and from the stage and through the medium of the screen will give to the men and women of Victoria the secret of how she has both regained and maintained her youth. First of all she has a new face. It was given her through plastic surgery. She stepped into the surgeon's chair, she admits with her face, wrinkled, prominent crows' feet about her eyes, and muscles sagged, which thick powder or cosmatics could neither hide or efface. Twelve days later she stepped into the same surgeon's office, with every appearance of a young girl, rushed the doctors and nurses into embraces while she told how happy she was to get back her youthful face. The picture attraction for the week will be Allen Holubar's latest photo-dramatic sensation "Hurricane's Gal."

Cast as the captain of a smuggling schooner, Dorothy Phillips will be seen in "Hurricane's Gal," a First National attraction produced by Allen Holubar.

National attraction produced by Allen Holubar.

Lola, the girl captain, has a fiery temperament and she rules her, crew by brute force. A government secret service agent, who has concealed himself in the schoner's hold, is revealed early in the story. Shielding his real identity, he arouses the love of the girl, who had never felt such attraction toward a man before. Revenue officers seize the vessel, but the girl escapes in a life boat with a Swedish mate and a Chinese cook. Later she meets again the man who betrayed her after arousing her affections. The struggle between love and hate rages in her

MARCEL DUPRE RECEIVED PRAISE OF MUSICIANS

When musicians universally accord homage to a member of their profession it is certain their genius has arrived. Paderwski is an example of such homage. Marcel Dupre, organist at Notre Dame is another. Musicians in Europe and America have joined in an enthusiastic chorus of praises of Dupre, rare in musical history. Louis Vierne, Organiste Titulaire de Notre Dame, acclaimed Dupre in this manner, "He has indeed realized the supreme type of the perfect organist, such as the great men of the past dreamed of, and Bach above all." Widor, Secretary of the French Institute, addressing the audience at the conclusion of Dupre's remarkable Bach recitals assured him that "Bach, if he had been here, would have embraced, you and pressed you to his heart!"

English musicians have termed Dupre "A Paginini of the Organ" and American musicians who attended his debut in New York in November, 1921, were unable to find words to express their admiration. Leopold Slokowski, conductor of the Philadelphia Symphony Orchestra—said, "I consider the coming of Dupre to a, crica of supreme importance." Edward Shippon Barnes, writing in the Diapason said: "The effect of the recital was overwheming, the scintillating heauty of his playing impossible to describe." T. Scott Buhrman, editor of The American Organist in New York, wrote: "It was the most inspring, the most marvelous, the When musicians universally accord

New York, wrote: "It was the most inspiring, the most marvelous, the most flawless, the most flawless, the most flawless, the most astounding bit of organ playing ever heard in our city." Dr. J. M. Ward, of Philadelphia, wrote. "He came, we heard, he conquered."

THE KEEPSAKE

"Have you anything besides this photograph by which I can identify him?" asked the detective.
"Yes, I have," replied the hard-featured matron whose husband had deserted her.

And going to her bureau drawer she took out a bunch-of ginger-colored hair, tied with a ribbon.
"Him and me had some words one days," she said, "and I pulled this out of his head."

IS BEST F. W. ANDERSON CAN SAY OF P. G. E.

That the Government should carry out a very careful survey of the natural resources of the country contiguous to the P. G. E. Railway and investigate the possibilities of operating the line by lighter equipment, was the recommendation which Fred W. Anderson, Liberal member for Kamloops, made to the Legislature in the debate.

He maintained that the experts, Sullivan, Hinton and Dennis had not spent sufficient time on their investigations to secure the fullest information. However, before more money was lost in this "financial sink-hole" the greatest care should be exercised. Mr. Anderson asserted that of the \$41,600,000 invested in the P.G.E., \$28,000,000

was chargeable to the Conservative administration and \$14,000,000 to the present Government. No less than \$10,800,000 had been spent as interest, while there had been a deficit in operating expenses of \$1,279,000. For the year ending June 30 last there was a deficit of \$455,000.

there was a deficit of \$455,000.

The Kamloops member charged the Opposition with unfair tactics in criticizing the railway department. Mr. Essing's objection to the expenditure of \$45 per thousand feet for bridge timber was uncalled for, since engineers would agree that special timber for Howe trusses was not high at that price. Other criticisms were equally unfair, he added.

Wants Independent Directors.

Manta Independent Directors.

Mr. Anderson advocated the appointment of an independent board of sidrectors for the Government line, and said that the press reports to the effect that he had proposed the selection of "dollar a year" men as directors was absolutely wrong. He favored paying competent directors, and thought that good men could be secured without any difficulty.

He referred to Mr. Esling as the railway critic of the Opposition, but wondered, why the Rossiand member thought he knew so much about the I'. G. E. Railway when he had never taken the trouble to go over the line.

Note to the Public:

"No person shall ship eggs or cause eggs to be shipped or delivered or displayed for sale in cases or containers which are marked or labelled with the name of any class and grade specified in these regulations, unless the quality and weight of the eggs contained therein is equal to or better than such class and grade."

continue to carry the heavy load, which was becoming unbearable and no large sums should be spent with-cut first making the most complete investigation.

Urges Fraser Canyon Route.

Speaking of highways, the Kamioops member added another boost for the Fraser Canyon route as a section of the Transprovincial Highway. He said that if the Federal Government did its part and restored the broken sections of the old Cariboo Road the Provincial Department of Public Works could get the connecting section built for about \$300,000, instead of \$1.00,000, the estimated cost of the Hope-Princeton section. He asked that the Government consider the building of a road from Kamloops through to Edmonton via Jasper Park. Already 110 miles of highway had been constructed north of Kamloops and the country needed a through road.

Mr. Anderson appealed to the Government to assist the Boy Scouts and Girl Guides. Their encouragement would mean a great deal in the upbuilding of splendid men and women.

In any centre they should an extension.

However, continued Mr. Anderson, the Opposition Leader had a reputation for abuse in the House and the time had come when many high-class men refused to enter public life because of the abuse they might be subjected to. He lauded the Premier for coming to the ald of Mr. Proctor, who recently resigned as Chief Engineer of the Railway Department. Because the man "slipped" it was not for the Opposition to throw stones at him.

Would Cut Debate.

The member advocated the aboli-tion of the long debate on the King's Speech, saying that it would be bet-ter to follow the practice in other legislatures and confine speaking to the budget debate. He also suggested the establishmant of a "Hansard" so that accurate reports of the proceed-ings of the Legislature would be on file.

After Mr. Pooley.

Reference was made to the remarks of R. H. Pooley. Conservative member for Esquirialt, anent Magistrate H. C. Shaw of Vancouver, who acted as commissioner in the Baker beaver enquiry. In calling that official a lapdog the Esquimalt member had simply been "telling on himself and running back to the type to which he belonged."

He could not see where Mr. Pooley could. claim credit for saving the beaver, especially when the Game board had lately opened the season for beaver. Apparently there were lots of them.

YOU understand that if eggs can be graded for export, we can grade them for home consumption, and you will now be sure of the quality you are getting. We used to depend entirely on getting our eggs fresh from the country. But 'fresh from the country' doesn't mean 'fresh' in the way the consumer means, 'fresh.' The meaning to the consumer is eggs of high quality. And we could never be sure that our country eggs were uniform as to quality. We just sold them as we got them - 'fresh from the country,' 'new laid,' etc., and passed on

the risk to our customers." "Yes, and many a time I made up my mind I'd never buy eggs in your store again. Why, sometimes, two and three out of a dozen would be worth the price.'

"Yes, but we tried to do the best we could under the old system of marketing eggs. The new system will be much more satisfactory. Eggs will soon all be sold by grade. They will be graded according to the Canadian standard grades, the as eggs for exp provincial shipment. We will buy them according to grade and sell them according to grade. The very freshest, largest, nicest eggs will be graded 'specials.' The next grade will be called 'extras.' Then will come 'firsts,' and last 'seconds'."

"Well, it will be satisfactory to know what one is getting. I think the grading of all eggs will be a big. long step in the right direction. And I for one will use more eggs."

Ask your grocer for graded eggs, and be sure that they come out of a container marked "specials," "extras," "firsts" or "seconds."

IN Victoria there are now more than one hundred homes heated by the Calorie Furnace. The remarkable achievement of installing this great number of furnaces has been possible solely because the Caloric lives up to its guarantee to reduce fuel consumption from one-third to one-half.

Many of these Caloric owners were skeptical at first about the Calorie's ability to heat many rooms through a single register. Now they are convinced that the Caloric method of heat radiation is the only practical and most economic method of heating the home. Let us tell you about the Caloric heating system to-day.

School Board Commends Interest of Parent-Teachers'

Consideration of applications from various bodies for the use of school buildings occupied much of the attention of the Board of School Trustees last evening when in the absence of Chairman George Jay, Trustees Bekwith presided. Others present were Trustees Mrs. Spofford, Sivertz, Walker and P. R. Browne, and Municipal Inspector G. H. Deane, Messrs. J. W. Clark and Carey, of the Margaret Jenkins Parent-Teacher Association, appeared before the board asking that twenty-five trees be removed from the lot recently granted for school use by the City Council in order to permit the association, appeared before the board asking that twenty-five trees be removed from the lot recently granted for school use by the City Council in order to permit the association, at proceed with its plans to improve the school grounds and provide additional playing grounds for the younger children. It was stated that work done by the P.T.A. would be carried out only under the supervision and with the co-operation of the interest of the P.T.A. commending its efforts, but reminded the board that any expenditure entailed in this connection would have to be made out of capital account. On the motion of Trustee Sivertz the matter was referred to the building and grounds committee for report as to the cost of removing the trees, with a rider to the effect that the matter be given the most favorable consideration, After the motion had passed Trustee Walker pointed out that the lot in question belonged to the city and that the matter should be taken up with the Council.

The Dean of Columbia wrote asking for the temporary use of the amnex to the Kingston Street School as a Sunday School. On the recommendation of Municipal Inspector Deans the request will be accessed to, Trusties Sivertz voting against the motion on the ground that by doing so the board was creating a precedent which might fead to an inundation of such requests.

might lead to an inundation of such requests.

A letter from the Provincial Council of Social Hygiene again requesting permission to place posters in the High School and College, and to permit competent speakers to address the students, was, on the motion of Trustee Brown, seconded by Trustee Mrs. Spofford, referred to the school nedical officer for report.

An application from the Sunday School Athletic Association for the use of the High School gymnasium once a week was referred to the Muricipal Inspector, and the school piracipal for report. The same course was faken with similar applications

Communications from Dr. Donald, school medical officer, asking the board to arrange the lighting and heating of the school clinic, and from the Janitors and Engineers Association regarding salaries, were referred to the building and grounds committee for report. This committee was also asked to report at the next meeting on the proposed installation of sinks at the High School, for which tenders were called a month ago.

The resignation of Miss Winifred Ross, of the George Jay School, was received and accepted.

Trustee Mrs. Spofford reported for the finance committee.

The report of the building and grounds committee was presented by Trustee Walker and received without discussion.

Member For Richmond Urges Speed in Construction

Thinks South Vancouver Affairs Not as Good as Might Be

Much of the address which Thomas Pearson, Conservative member for Richmond, had prepared to deliver in the Legislature was eliminated when he heard the announcement that the Government intended to proceed with the construction of the University at Point Grey However, he urged that no time

However, he urged that no time be lost in providing adequate facilities, so that prospective students might complete their studies under the most favorable conditions.

Mr. Pearson assured the Government that they need have no fear of the financial side of the question, since once the University was assured of permanency the adjacent Government lands would find a ready market. He also told of how the B. C. Electric Co. had promised transportation facilities when required, even if a motor bus service was substituted for street cars.

Dealing with South Vancouver matters, he advised the Government to restore autonomy immediately, claiming that under a reeve, and council the municipality could manage better. He did not think the administration of South Vancouver's affairs reflected very creditably upon the Government, since South Vancouver now faced \$300,000 of debt more than when the Government stepped in; and this despite the fact that the taxation was \$500,000 higher annually.

South Vancouver was the home of industrial workers, said the Richmond

GOVERN OFFICIALS

By-law Would Prevent City Workers' Organizations Collecting Money

Collecting Money

What city officials shall do and at they shall not do is defined in austive detail in a new by-law ich Mayor William Marchant is fling now. This by-law will be diy for the consideration of the y Council shortly, the Mayor anianced to-day.

The new Duties of Officers By-reality consolidation and revision of a mber of somewhat similar by-laws deh overlaps and are confusing."

Mayor explained. "The new measies will cover all the points conned in the older by-laws and some wones besides. It covers all city partments, including the Fire Determent, but it does not deal with police, who are under the Police mmission."

Outline What They Expect in **Expenditure Reductions**

The election to the City Council of a suitable number, which will, in turn, select the Mayor, the entire body to serve the interests of the city gratis; control by the Council of all departments in the role of an advisory board with heads of departments responsible for the proper conduct of their departments; a Police Commission comprised of the Mayor, Police Chief and County Court Judge, as advocated by the Police Chiefs of Canada convention in Victoria this Summer; a per capita charge of twenty-five per cent. of the cost to parents wishing to educate their children beyond the public school; slashing reductions in civic expenditures, and numerous other boints, were among the principles adopted at last night's meeting of the Taxpayers Protective Association, held in the Board room of the Belmont building.

C. T. Cross presided, and John Day acted as secretary.

The ratepayers heartily endorsed the Amusement Centre scheme, which was explained by Mr. Cross, and it was felt that the entire city would be behind this proposal which is calculated to improve conditions and bring the city a revenue from property which now has not the slishtest chance of ever returning a five cent piece as Mr. Cross put it.

Suggestions as to how to reduce expenditure and how best to run the city were flying thick and fast. James A. Griffith argued in favor of a city manager. A. H. Jay remarked that the Council could do as much in one meeting as they now do in a month. The Old Country system of the Council could do as much in one meeting as they now do in a month. Who Owns the City Hall

Who Owns the City Hail
Fred Landsberg' referred to the
Mayor's refusal to allow the ratepayers the use of the City Council
chamber for the holding of meetings.
We sent our secretary to ask for the
use of the City Hail for meetings of
the taxpayers. We are the owners of
the taxpayers. We are the owners of
the City Hail and have a right to
use it." he said.
"This organization was not formed
until a week after the prosecution of
the Mayor and finance committee
v-as launched, and we were not a
party to that prosecution. It is an
insuit to the intelligence of the ratepayers to refuse us the use of the
City Hail," said Mr. Landsberg.
The speaker then explained that
there were several thousands of taxpayers in the city and that they must
get together and give their advice
and moral support before the city's
problems can be solved. He regretted that at that meeting there were
culy forty present. It was a case of
everybody sitting back and letting
George do it, he declared. This would
not do, however, and Mr. Landsberg
appealed for more members and bigser attendances. At the first meeting
fity members signed up. At the
neeting twenty new members joined.

Mr. Landsberg blamed the Mayor

Building Restrictions

wanted to buy for building or any other purpose.

The effect of the activities of the Civic Retrenchment League was pointed out by Mr. Landsberg. who regretted its disbandment in 1918. Since then the expenditures had rup up to an outrageous figure.

Home owners and not the big tax-payers are the ones most vitally affected by extravagance and high taxation. It was a very lamentable state of affairs when the School Board could demand almost anything it wanted, and the Council had to supply the funds whether collected by it or not. With a per capita school appropriation the Board would have its limit.

tending the High School was \$119, the city was taking in students from outside municipalities at \$85 per capita, he stated. Water which cost the city ten cents was sold to other municipalities for six cents. "We are making money fast." said Mr. Landeberg. Frank Higgins, K. C., who was largely responsible for forming the

First Issue of "Pacific Coast Motorist" Takes Decided Stand Break up congestion

In the first issue of a new publication a special effort to please everybody is usually present—it comes as
a delightful surprise therefore to
find an initial volume with decided
and fixed views on even contentious
questions. Perhaps the highest compliment that can be paid to "The Pacific Coast Motorist," a Vancouver
publication the first issue of which
is just off the press, is that it gives
the appearance of having been in the
periodical field for a great many
years.

C. T. Cross referred to the fact that the Belmont Building, one of the finest and most costly in the city, had been built on the distinct understanding there would be no taxation of improvements. It was built "under a contract," he said, but that contract had been broken by the city, and taxes were being imposed on improvements.
