DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Ships from Sakhalin

The tonnage of the Taifu Maru given as 9,000 tons in Amendment Number 160 is corrected to read 4,570 tons:
Decrease - 4,430 tons of coking coal.

Net increase of imported coking coal - 14,017 tons.

MEMORANDUM FOR: Director General, Economic Stabilization Board

SUBJECT: Notice of Amended Action

1. References are the following memoranda to the Director General, Economic Stabilization Board, from General Headquarters, Supreme Commander for the Allied Powers:

a. File 463.3(11 Jan 47)ESS/IN, dated 11 January 1947, subject: Allocation of Coal for January 1947 and Thereafter.

b. File 463.3(10 May 48)ESS/FEC AC, dated 10 May 1948, subject: Allocation of Coal and Lignite for July, August, and September 1948.

2. Amended Action to the Coal and Lignite Allocation for July, August, and September 1948, ESB Memorandum #161, 10 August 1948, Additional Allocation of Ube Low Grade Coal in the Osaka district, is approved. By this action a total of 3,500 tons of substandard coal is allocated as follows:

RAW MATERIALS INDUSTRIES	
Iron & Steel (Black Smith)	95 tons
Non-Ferrous Metal Products	25 tons
RAILWAY ROLLING STOCK	150 tons
INDUSTRIAL MACH & EQUIP	85 tons
CERAMICS	
Building Brick & Roofing Tile	30 tons
Cement Products	15 tons
Others	5 tons
FOOD PROCESSING	
Bean Products	25 tons
Milk & Milk Products	25 tons
Fats & Oils Extraction & Expression	30 tons
Staple Food-stuffs	130 tons
Alcoholic Beverage	70 tons
Forestry	100 tons
PAPER & PULP	
Paper Pulp	285 tons
Cork	10 tons

over

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

RUBBER & MISC. CONSUMER GOODS	
Rubber Mfg Goods	325 tons
CHEMICAL INDUSTRY	
Inorgamic	80 tons
Synthetic Organic	40 tons
Dyes & Intermediates	555 tons
Oil, Fat & Paint	50 tons
Plastics	60 tons
Medicine	80 tons
Insecticide	20 tons
Others	50 tons
TEXTILE INDUSTRY	
Cotton	255 tons
Wool	70 tons
Dyeing, etc.	840 tons
Leather	15 tons
PUBLIC HEALTH & WELFARE	
Hospital Use	20 tons
Other Uses	5 tons
TOTAL	3,500 tons

MEMORANDUM FOR: Director General, Economic Stabilization Board

SUBJECT: Coal Cargo For Hong Kong

1. In the meeting of 27 July 1948, it was reported to the FEC Allocation Committee that the British ship, "Raynolds," having entered the port of Miike on 20 July, was unable to load for some time because of unavailability of coal. In order to avoid payment of a large demurrage of $1,000 daily for a number of days it was desired that permission be granted for the "Reynolds" to withdraw without losing its order of loading and that another ship, the "St. Edmunds," be permitted to take its place in line on 17 August and receive, at that time, a cargo of coal against the August portion of the summer allocation to the category "Hong Kong" of 27,000 tons quarterly. The requested permission was granted in this one instance to retain the original place of the ship, "Reynolds," in the order of arrivals at port, and ESB was verbally informed of that action. That action is hereby cancelled.

2. The FEC Allocation Committee, on 3 August, discussed this point again in light of a new report--that the British ship, "Reynolds," instead of departing without its cargo, had been loaded, and that another ship was already in the port of Miike awaiting its August coal cargo. This change in the situation led the Committee to cancel its action of 27 July mentioned in paragraph 1 above. Furthermore, in order to avoid the possibility of a misunderstanding, the attention of the Economic Stabilization Board, the Solid Fuels Distribution Kodan, and all concerned, is hereby called to Memorandum to the Japanese Government from General Headquarters, Supreme Commander for the Allied Powers, AG 463.3(15 Feb 46)GD, SCAPIN 576-A, dated 15 February 1946, subject: Loading of Coal for Export at Miike. This memorandum directs that vessels lifting Hong Kong allocation of coal be loaded strictly in rotation, and no priority will be considered or given.

MEMORANDUM FOR: Director General, Economic Stabilization Board

SUBJECT: Notice of Amended Action

1. References are the following memoranda to the Director General, Economic Stabilization Board, from General Headquarters, Supreme Commander for the Allied Powers:

a. File 463.3(11 Jan 47)ESS/IN, dated 11 January 1947, subject: Allocation of Coal for January 1947 and Thereafter.

b. File 463.3(10 May 48)ESS/FEC AC, dated 10 May 1948, subject: Allocation of Coal and Lignite for July, August, and September 1948.

2. Amended Action to the Coal and Lignite Allocation for July, August, and September 1948.

a. The category "Ammonium Sulfate" under the major category "CHEMICAL INDUSTRY" is increased by 10,500 tons of imported semi coke from a total of 8,987 tons to a new total of 19,487 tons. This semi coke is on the following ships.

Miyo	ETA	6 August 1948	at Fushiki	1,700 tons
Itozaki	"	9 "	"	1,500 tons
Soshu	"	12 "	"	1,300 tons
#3 Shinsei	"	15 "	"	1,400 tons
Togamisan	"	18 "	"	1,000 tons
Senzan	"	21 "	"	1,500 tons
Taihoku	"	24 "	"	1,100 tons
Munakata	"	27 "	"	1,000 tons
Total	-		-	10,500 tons

b. The category "Iron & Steel" under the major category "RAW MATERIALS INDUSTRIES" is increased by 1,100 tons of imported coking coal from China and 8,999 tons of imported coking coal from the United States from a total of 93,452 tons to a new total of 103,551 tons. This coal is on the following ships.

Nikkyo, from China	ETA 11 August 1948	at Yawata	1,100 tons
Wm H. Edwards from U.S.A.	9 August 1948	at Kobe	8,999 tons

MEMORANDUM FOR: Director General, Economic Stabilization Board

SUBJECT: Notice of Amended Action

1. References are the followirg memoranda to the Director General, Economic Stabilization Board, from General Headquarters, Supreme Commander for the Allied Powers:

a. File 463.3(11 Jan 47)ESS/IN, dated 11 January 1947, subject: Allocation of Coal for January 1947 and Thereafter.

b. File 463.3(10 May 48)ESS/FEC AC, dated 10 May 1948, subject: Allocation of Coal and Lignite for July, August, and September 1948.

2. Amended Action to the Coal and Lignite Allocation for July, August, and September 1948.

a. The category "Carbon & Carbon Products" under the major category "CERAMICS" is increased by 400 tons of imported anthracite from French-Indo-China on board the Jialeong arrived at Yokohama on 31 July 1948.

b. The category "Gas " under the major category "PUBLIC UTILITIES" is decreased by 400 tons out of the 4,000 tons of French-Indo-China anthracite on board the Jialeong arrived at Yokohama on 31 July, leaving a total of 3,600 tons of this fuel for the category "Gas."

c. The category "Synthetic Organic" under the major category "CHEMICAL INDUSTRY" is increased by 1,500 tons of standard coal from a total of 16,200 tons (2,800 tons of anthracite & senseki, and 13,400 tons of other standard coal) to a new total of 17,700 tons (2,800 tons of anthracire & senseki, and 14,900 tons of other standard coal.)

d. The category "INDUSTRIAL RESERVE" is decreased by 1,500 tons of standard coal from a total of 16,550 tons to a new total of 15,050 tons.

SUBJECT: Notice of Amended Action

1. References are the following memoranda to the Director General, Economic Stabilization Board, from General Headquarters, Supreme Commander for the Allied Powers:

a. File 463.3(11 Jan 47)ESS/IN, dated 11 January 1947, subject: Allocation of Coal for January 1947 and Thereafter.

b. File 463.3(10 May 48)ESS/FEC AC, dated 10 May 1948, subject: Allocation of Coal and Lignite for July, August, and September 1948.

2. Amended Action to the Coal and Lignite Allocation for July, August, and September 1948.

a. The category "Ammonium Sulfate" under the major category "CHEMICAL INDUSTRY" is increased by 1,000 tons of imported semi coke from a total of 7,987 tons to a new total of 8,987 tons. This semi coke is on the Munakata Maru expected to arrive at Fushiki on or about 3 August 1948.

b. The category "Gas" under the major category "PUBLIC UTILITIES" is decreased by 9,000 tons of imported gas coal from a total of 81,500 tons to a new total of 72,500 tons. This decrease is a bookkeeping correction only, by reason of the fact that the Yamazono Maru was allocated twice through an error. (Amendment #150.)

463.3(31 Jul 48)ESS/FEC AC No. 160

MEMORANDUM FOR: Director General, Economic Stabilization Board

SUBJECT: Notice of Amended Action

1. References are the following memoranda to the Director General, Economic Stabilization Board, from General Headquarters, Supreme Commander for the Allied Powers:

a. File 463.3(11 Jan 47)ESS/IN, dated 11 January 1947, subject: Allocation of Coal for January 1947 and Thereafter.

b. File 463.3(10 May 48)ESS/FEC AC, dated 10 May 1948, subject: Allocation of Coal and Lignite for July, August, and September 1948.

2. Amended Action to the Coal and Lignite Allocation for July, August, and September 1948.

a. The category "Gas" under the major category "PUBLIC UTILITIES" is increased by 27,000 tons of imported gas coal from a total of 54,500 tons to a new total of 81,500 tons. This increase includes 9,000 tons from the ship "Yamazono" previously allocated to "Iron & Steel" by Amendment #149, par. 2e, but later found to be gas coal of inadequate quality for the iron and steel industry--and two other ships as follows:

Ship		ETA	Port	Tonnage
#1 Taisetsu	(From Sakhalin)	7 August	Osaka	9,000 tons
Yamazono	" "	7 August	Nagoya	9,000 tons

b. The category "Iron & Steel" under the major category "RAW MATERIALS INDUSTRIES" is allocated 9,000 tons of imported coking expected to arrive on the ship "Taifu" on the 8th of August at Muroran, in lieu of the "Yamazono" transferred to the category "Gas" as stated in paragraph 2a above. This results in no change in the imported coking coal allocation to the category "Iron & Steel."

c. The category "Ammonium Sulfate" under the major category "CHEMICAL INDUSTRY" is increased by 1,156 tons of imported semi coke from a total of 6,831 tons to a new total of 7,987 tons. This semi coke is on the ship "Taihoku Maru" expected to arrive at Fushiki on or about 1 August.

b. File 463.3(10 May 48)ESS/FEC AC, dated 10 May 1948, subject: Allocation of Coal and Lignite for July, August, and September 1948.

2. Amended Action to the Coal and Lignite Allocation for July, August, and September 1948.

a. The category "Iron & Steel" under the major category "RAW MATERIALS INDUSTRIES" is increased by 13,002 tons of imported coking coal from a total of 80,450 tons to a new total of 93,452 tons. This coal is on the following ships:

Pacific Coast Coal Co.)
and)The "Despina" ETA Kawasaki, 28 July --9,000 tons
Yaras Steel Coal Contract)

From China - - The "Samaran" ETA Yawata, 27 July - - 4,002 tons

b. The amount of coal on the "Despina" charged to the "Yaras Steel Coal Contract" is 4,400 tons, out of the 9,000 tons shown above.

c. The category "Electric Power" under the major category "PUBLIC UTILITIES" is increased by 3,000 tons of standard coal from a total of 1,211,709 tons to a new total of 1,214,709 tons (155,000 tons of coking coal, and 1,059,709 tons.) for electric power earmarked for carbide.

d. The category "Industrial Reserve" is decreased by 3,000 tons of standard coal from a total of 20,000 tons to a new total of 17,000 tons.

463.3(26 Jul 48)ESS/FEC AC No. 157

MEMORANDUM FOR: Director General, Economic Stabilization Board

SUBJECT: Notice of Amended Action

1. References are the following memoranda to the Director General, Economic Stabilization Board, from General Headquarters, Supreme Commander for the Allied Powers:

a. File 463.3(11 Jan 47)ESS/IN, dated 11 January 1947, subject: Allocation of Coal for January 1947 and Thereafter.

b. File 463.3(10 May 48)ESS/FEC AC, dated 10 May 1948, subject: Allocation of Coal and Lignite for July, August, and September 1948.

c. File 463.3(23 Jun 48)ESS/FEC AC, dated 23 June 1948, subject: Notice of Amended Action No. 142.

d. File 463.3(30 Jun 48)ESS/FEC AC, dated 30 June 1948, subject: Notice of Amended Action No. 146.

e. File 463.3(2 Jul 48)ESS/FEC AC, dated 2 July 1948, subject: Notice of Amended Action No. 147.

f. File 463.3(15 Jul 48)ESS/FEC AC, dated 15 July 1948, subject: Notice of Amended Action No. 151. (Paragraph 2: Approval of ESB Memorandum #136, 6 July 1948, Adjustment Plan of Coal Delivery for the Month of August.)

2. Amended Action #151, paragraph 1f, above, conveyed to you an approval of ESB Memorandum #136, dated 6 July 1948, Adjustment Plan of Coal Delivery for the Month of August. However, it is noted that this ESB adjustment plan, formulated on 6 July, did not include provision for 1,000 tons shipment in August against the extra 3,000 tons summer quarter allocation to the category "French Indo China," Amended Action #147, dated 2 July 1948, paragraph 1e, above. Your attention is called to the fact that the FEC Allocation Committee's approval of the ESB overall adjustment plan mentioned above was not intended as a cancellation of Amendments being processed through normal channels and not yet reflected in adjustments.

3. The allocation to the category "French Indo China" was one of a group of allocations of indigenous coal based upon adjustments within anticipated supply, as indicated by the following tabulation:

over

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Category Decreases

"Direct Heating" (OCCUPATION FORCES)	#142, par.3b	- decrease	22,500 tons
"Iron & Steel" (RAW MATERIALS IND.)	#146, par.2b	- "	26,000 tons
Total Decreases	- - - -		48,500 tons

Category Increases

CHEMICAL INDUSTRY, Amendment #146, par. 2c, 2d, 2e (later readjusted within the major category with no change in the total, Amendment #153.)		- increase	42,500 tons
"Export Manufacturing Reserve" Amendment #147, par. 2d (held for instructions from ESS/IN)		-	3,000 tons
and			
"French Indo China"	Amendment #147, par. 2b. - - - - - - - - - -		3,000 tons
Total Increases -	- - - -		48,500 tons

In Approving ESB Memorandum #136, 6 July 1948, Adjustment Plan of Coal Delivery for the Month of August, it was not intended that the above mentioned allocation to "French Indo China" be cancelled, and the allocation stands at 3,000 tons for the quarter.

4. Attention is called to the fact that agreement was consummated by ESS/FEC whereby 25,000 tons of French Indo China anthracite at a rate of 4,000 tons per month are being shipped to Japan and that 5,000 tons of Miike Dust at the rate of 1,000 tons each month beginning with July must be shipped to French Indo China in conjunciion with this transaction. The first ship of French Indo China anthracite, listed in Amendment #149, paragraph 2g, is arriving 31 July 1948. You are hereby directed to make proper provision, and so instruct the Coal Kodan, that the regular monthly shipment of 1,000 tons of Miike dust for French Indo China will be provided in August and each month thereafter until the full amount of 5,000 tons have been shipped.

463.3(24 Jul 48)ESS/FEC AC No. 156

MEMORANDUM FOR: Director General, Economic Stabilization Board

SUBJECT: Notice of Amended Action

1. References are the following memoranda to the Director General, Economic Stabilization Board, from General Headquarters, Supreme Commander for the Allied Powers:

a. File 463.3(11 Jan 47)ESS/IN, dated 11 January 1947, subject: Allocation of Coal for January 1947 and Thereafter.

b. File 463.3(10 May 48)ESS/FEC AC, dated 10 May 1948, subject: Allocation of Coal and Lignite for July, August, and September 1948.

2. Amended Action to the Coal and Lignite Allocation for July, August, and September 1948.

a. The category "Iron & Steel" under the major category "RAW MATERIALS INDUSTRIES" is increased by 9,022 tons of imported coking coal from a total of 71,428 tons to a new total of 80,450 tons. This coal is on the ship "Thomas F. Hunt" expected to arrive at Kobe on or about 26 July, carrying 9,022 tons of coking coal from the United States.

b. The category "Ammonium Sulphate" under the major category "CHEMICAL INDUSTRY" is increased by 131 tons of imported semi coke from a total of 6,700 tons to a new total of 6,831 tons.

c. The category "Carbide Calcium Cyanamide" under the major category "CHEMICAL INDUSTRY" is decreased by 131 tons of imported semi coke from a total of 14,529 tons to a new total of 14,398 tons.

d. The transfer of 131 tons of semi coke from the category "Carbide Calcium Cyanamide" to the category "Ammonium Sulphate," paragraphs 2b and 2c above, is an adjustment by reason of a correction in the allocation of ships, paragraphs 2b and 2c of Amendment #149, because of the location of the industries concerned. The ships "Taihoku Maru," arrived at Fushiki with 1,160 tons, is allocated to "Ammonium Sulphate" and the ship "Munakata," arrived at Sakata with 1,029 tons, is allocated to "Carbide Calcium Cyanamide"--instead of the reverse, as originally published.

MEMORANDUM FOR: Director General, Economic Stabilization Board

SUBJECT: Notice of Amended Action

1. References are the following memoranda to the Director General, Economic Stabilization Board, from General Headquarters, Supreme Commander for the Allied Powers:

a. File 463.3(11 Jan 47)ESS/IN, dated 11 January 1947, subject: Allocation of Coal for January 1947 and Thereafter.

b. File 463.3(10 May 48)ESS/FEC AC, dated 10 May 1948, subject: Allocation of Coal and Lignite for July, August, and September 1948.

2. Amended Action to the Coal and Lignite Allocation for July, August, and September 1948.

a. The category "Textile Machinery" under the major category "INDUSTRIAL MACHINERY & EQUIPMENT" is increased by 1,000 tons of imported semi coke from a total of 1,000 tons to a new total of 2,000 tons.

b. The category "Iron & Steel" under the major category "RAW MATERIALS INDUSTRIES" is increased by 100 tons of imported semi coke from a total of nil to a new total of 100 tons.

c. The category "Ammonium Sulphate" under the major category "CHEMICAL INDUSTRY" is increased by 3,200 tons of imported semi coke from a total of 3,500 tons to a new total of 6,700 tons.

d. The imported semi coke for the above allocations is on the following ships:

Masaki Maru	expected to arrive at	Toyama,	21 July 1948	1,500 tons
#3 Shinsei Maru	" " " "	Niigata	28 July 1948	1,300 tons
Senzan Maru	" " " "	Fushiki	1 August 1948	1,500 tons
Total	-	-	-	4,300 tons

e. The category "Gas" under the major category "PUBLIC UTILITIES" is increased by 9,000 tons of imported gas coal from Sakhalin from a total of 45,500 tons to a new total of 54,500 tons. This coal is on the #2 Daikai expected to arrive at Kawasaki on or about 25 July 1948.

over

(16)

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

f. The category "Ammonium Sulphate" under the major category "CHEMICAL INDUSTRY" is increased by 100 tons of anthracite coal produced in the area of the Ube District, from a total of nil to a new total of 100 tons. The new grand total of indigenous coal for this category is 311,040 tons (100 tons of anthracite and 310,940 tons of other standard coal). This allocation is from the stockpile at Sanyo-Muen Coal Mine for the Sanyo Kogyo Company to study its use as a gas producer.

MEMORANDUM FOR: Director General, Economic Stabilization Board

SUBJECT: Notice of Amended Action

1. References are the following memoranda to the Director General, Economic Stabilization Board, from General Headquarters, Supreme Commander for the Allied Powers:

a. File 463.3(11 Jan 47)ESS/IN, dated 11 January 1947, subject: Allocation of Coal for January 1947 and Thereafter.

b. File 463.3(10 May 48)ESS/FEC AC, dated 10 May 1948, subject: Allocation of Coal and Lignite for July, August, and September 1948.

2. Amended Action to the Coal and Lignite Allocation for July, August, and September 1948.

a. The 9,000 tons of imported coal on the "Etorofu Maru" listed as an allocation to the category "Iron & Steel" in paragraph 2e of Amended Action #149, 15 July 1948, is hereby transferred to the category "Gas" as shown in paragraph 2b below; and the corrected total of imported coal for the category "Iron & Steel" is 71,428 tons. (Double correction: The previous total of imported coal for "Iron & Steel" should have been shown as 80,428 tons instead of 70,428 tons as published in Amendment #149, and is now reduced by 9,000 tons to 71,428 tons.)

b. The category "Gas" under the major category "PUBLIC UTILITIES" is increased by 9,000 tons of imported gas coal from Sakhalin, from a total of 36,500 tons to a new total of 45,500 tons. This coal is on the "Etorofu Maru" arrived at Kawasaki on 15 July 1948.

c. The category "Gas" under the major category "PUBLIC UTILITIES" is decreased by 20,000 tons of standard coal from a total of 559,000 tons (490,000 tons of coking coal, 20,000 tons of anthracite & senseki, and 49,000 tons of other standard coal) to a new total of 539,000 tons (490,000 tons of coking coal, 20,000 tons of anthracite & senseki, and 29,000 tons of other standard coal).

d. The category "Rayon & Staple" under the major category "TEXTILE INDUSTRY" is decreased by 2,439 tons of standard coal from a total of 76,944 tons to a new total of 74,505 tons.

e. The category "Electric Power" under the major category "PUBLIC UTILITIES" is increased by 2,439 tons of standard coal from a total of 1,209,270 tons (155,000 tons of coking coal and 1,054,270 tons of other standard coal) to a new total of 1,211,709 tons (155,000 tons of

14

over

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

coking coal and 1,056,709 tons of other standard coal). The amount of this increase is for private power generation for the category "Rayon & Staple" under the major category "TEXTILE INDUSTRY."

f. The category "Solvay Soda" under the major category "CHEMICAL INDUSTRY" is decreased by 8,500 tons of standard coal from a total of 128,100 tons to a new total of 119,600 tons.

g. The category "Inorganic" under the major category "CHEMICAL INDUSTRY" is increased by 3,000 tons of standard coal from a total of 13,000 tons (300 tons of anthracite & senseki and 12,700 tons of other standard coal) to a new total of 16,000 tons of standard coal (300 tons of anthracite & senseki and 15,700 tons of other standard coal).

h. The category "Dyes & Intermediates" under the major category "CHEMICAL INDUSTRY" is increased by 2,500 tons of standard coal from a total of 49,500 tons to a new total of 52,000 tons.

i. The category "Potassium & Magnesium Salts" under the major category "CHEMICAL INDUSTRY" is increased by 2,000 tons of standard coal from a total of 8,000 tons to a new total of 10,000 tons.

j. The category "Others" (including Gallnut) under the major category "CHEMICAL INDUSTRY" is increased by 1,000 tons of standard coal from a total of 3,500 tons to a new total of 4,500 tons.

MEMORANDUM FOR: Director General, Economic Stabilization Board

SUBJECT: Coal Deliveries For Korea

1. References are the following memoranda to the Director General, Economic Stabilization Board, from General Headquarters, Supreme Commander for the Allied Powers:

a. File 463.3(11 Jan 47)ESS/IN, dated 11 January 1947, subject: Allocation of Coal for January 1947 and Thereafter.

b. File 463.3(10 May 48)ESS/FEC AC, dated 10 May 1948, subject: Allocation of Coal for July, August, and September 1948.

c. File 463.3(17 Jun 48)ESS/FEC AC, dated 17 June 1948, subject: Notice of Amended Action No. 139.

d. File 463.3(7 Jul 48)ESS/FEC AC, dated 7 July 1948, subject: Notice of Amended Action No. 148.

e. File 463.3(15 Jul 48)ESS/FEC AC, dated 15 July 1948, subject: Notice of Amended Action No. 151. (Paragraph 2: Approval of ESB Memorandum #136, 6 July 1948, Adjustment Plan of Coal Delivery for the Month of August.)

2. Amended Action #151, paragraph 1e above, conveyed to you an approval of ESB Memorandum #136, dated 6 July 1948, Adjustment Plan of Coal Delivery for the Month of August, However, it is noted that this ESB adjustment plan, formulated on 6 July, did not include provision for shipments against the extra 90,000 ton allocation to the category "Korea," Amended Action #148, dated 7 July 1948, paragraph 1d above.

3. The FEC Allocation Committee on the following dates allocated the following amounts to the category "Korea" for the summer quarter:

Date of Allocation or Amendment	Amount Allocated
Original Allocation, 10 May 1948	180,000 tons
Amended Action #139, 17 June 1948	20,000 tons
Amended Action #148, 7 July 1948	90,000 tons
Total for the Summer Quarter	290,000 tons

In order to avoid the possibility of a misunderstanding as to whether or not the approval of ESB Memorandum #136, 6 July 1948, Adjustment

over

13

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Plan of Coal Delivery for the Month of August, reflecting the usual 72,000 tons monthly for the category "EXPORT" (including only 60,000 tons for August delivery to "Korea") constituted a cancellation of the additional 90,000 tons summer allocation to "Korea," Amended Action #148, 7 July 1948, your attention is called to the fact that such cancellation was not the intention of the Committee and the total summer allocation for the category "Korea" stands at 290,000 tons.

4. In view of the availability of the shipping capacity, and the urgency of this requirement, it is directed that you instruct the Solid Fuels Distribution Kodan in planning August coal deliveries that this coal be made available to the full amount of shipping capacity of 90,000 tons (60,000 tons plus 30,000 tons) by 20 August 1948.

5. In summary, the summer shipments to the category "Korea" under the major category "EXPORT" should conform to the following tabulation:

July Deliveries	60,000 tons	(regular monthly allocation)
	20,000 tons	(special allocation by Amendment Amendment #139 for one month only.)
	10,000 tons	(Part of the extra 90,000 tons allocation, Amendment #148.)
August Deliveries	60,000 tons	(regular monthly allocation)
	30,000 tons	(one third of the extra 90,000 tons)
September Deliveries	60,000 tons	(regular monthly allocation)
	50,000 tons	(remaining portion of the extra 90,000 tons.)

GRAND TOTAL OF SUMMER DELIVERIES - - - - - - - - - 290,000 tons

463.3(15 Jul 48)ESS/FEC AC No. 149

MEMORANDUM FOR: Director General, Economic Stabilization Board

SUBJECT: Notice of Amended Action

1. References are the following memoranda to the Director General, Economic Stabilization Board, from General Headquarters, Supreme Commander for the Allied Powers:

a. File 463.3(11 Jan 47)ESS/IN, dated 11 January 1947, subject: Allocation of Coal for January 1947 and Thereafter.

b. File 463.3(10 May 48)ESS/FEC AC, dated 10 May 1948, subject: Allocation of Coal and Lignite for July, August, and September 1948.

2. Amended Action to the Coal and Lignite Allocation for July, August, and September 1948.

a. The category "Carbide Calcium Cyanamide" under the major category "CHEMICAL INDUSTRY" is increased by 9,088 tons of imported anthracite from the U.S.A. from a total of 27,614 tons to a new total of 36,702 tons. This anthracite is on the Jacob Westervelt arriving on or about 16 July 1948 at Miike. Two thirds of this cargo is for transshipment to Fushiki.

b. The category "Carbide Calcium Cyanamide" under the major category "CHEMICAL INDUSTRY" is increased by 4,310 tons of imported semi coke from a total of 10,219 tons to a new total of 14,529 tons. This semi coke is on the following ships:

Teikai Maru	at Fushiki	1,660 tons
Itozaki Maru	at Naoetsu	1,490 tons
Taihoku Maru	at Fushiki	1,160 tons

c. The category "Ammonium Sulphate" under the major category "CHEMICAL INDUSTRY" is increased by 3,329 tons of imported semi coke from a total of 171 tons to a new total of 3,500 tons. This semi coke is on the following ships:

Munakata	arrived at	Sakata on or about 12 July	1,029 tons
Miyo Maru	" "	Kawasaki on or about 15 July	1,700 tons (approx.)
Kojo Maru	" "	Nagoya on or about 20 July (1,000 tons of this ship is for a different category, par. 2d, below)	600 tons (approx.)

d. The category "Textile Machinery" under the major category "INDUSTRIAL MACHINERY & EQUIPMENT" is increased by

over

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

1,000 tons of imported semi coke from a total of nil to a new total of 1,000 tons. This semi coke is on the Kojo Maru arriving at Nagoya on or about 20 July carrying approximately 1,600 tons. There is another amount of 1,000 tons of semi coke to arrive later at Kawasaki for the Textile Machinery industry. This total of 2,000 tons of semi coke will be distributed as follows:

Kanto	350 tons
Tohoku	80 tons
Hokuriku	80 tons
Tokai	450 tons
Kansai	550 tons
Seibu	60 tons
Shikoku	70 tons
Ried	80 tons
Card Clothing	150 tons
Knitting Needles	40 tons
Wooden Instruments	
a. Bobbins	20 tons
b. Shuttles	20 tons
Wire Heald	50 tons
Total	2,000 tons

e. The category "Iron & Steel" under the major category "RAW MATERIALS INDUSTRIES" is increased by 35,280 tons of imported coking coal from a total of 45,148 tons to a new total of 70,428 tons. This coal is on the following ships:

Tsuruoka	arriving at	Muroran	on or	about	31 July	9,000 tons) From
Yamazono	"	"	"	"	18 July	9,000 tons) Sakhalin
Etorofu	"	"	Kawasaki	"	15 July	9,000 tons)
Dansborg	arriving at	Kamaishi	on or	about	22 July	8,280 tons from U.S.A.

f. The category "Gas" under the major category "PUBLIC UTILITIES" is increased by 18,200 tons of imported gas coal from a total of 18,300 tons to a new total of 36,500 tons. This coal is on the following ships:

Wayo Maru	arriving at	Osaka	on or	about	17 July	9,200 tons
Enkei Maru	"	"	"	"	12 July	9,000 tons

g. The category "Gas" under the major category "PUBLIC UTILITIES" is increased by 4,000 tons of imported anthracite from French Indo China from a total of nil to a new total of 4,000 tons, on the Jialeong arriving at Yokohama on or about 22 July.

MEMORANDUM FOR: Director General, Economic Stabilization Board

SUBJECT: Revised Allocation of Lignite Under New Lignite Control Regulation For July, August, and September 1948.

1. References are the following memoranda to the Director General, Economic Stabilization Board, from General Headquarters, Supreme Commander for the Allied Powers:

a. File 463.3(11 Jan 47)ESS/IN, dated 11 January 1947, subject: Allocation of Coal for January 1947 and Thereafter.

b. File 463.3(10 May 48)ESS/FEC AC, dated 10 May 1948, subject: Allocation of Coal and Lignite for July, August, and September 1948.

2. ESB Memorandum No. 129, 22 June 1948, subject as shown above: The Committee reviewed the revised allocation plan for lignite and action was deferred. Concurrences, indicating complete coordination within ESB with respect to the proposed plan, should be listed for the information of the Committee. In the meantime ESB is instructed to issue allocation tickets for one third of the lignite allocations reflected in the July, August, and September Coal and Lignite allocation schedule referred to in paragraph 1b above.

463.3(30 Jun 48)ESS/FEC AC No. 145

MEMORANDUM FOR: Director General, Economic Stabilization Board

SUBJECT: Notice of Amended Action

1. References are the following memoranda to the Directer General, Economic Stabilization Board, from General Headquarters, Supreme Commander for the Allied Powers:

a. File 463.3(11 Jan 47)ESS/IN, dated 11 January 1947, subject: Allocation of Coal for January 1947 and Thereafter.

b. File 463.3(11 Feb 48)ESS/FEC AC, dated 11 February 1948, subject: Allocation of Coal and Lignite for April, May, and June 1948.

c. File 463.3(10 May 48)ESS/FEC AC, dated 10 May 1948, subject: Allocation of Coal and Lignite for July, August, and September 1948.

c. File 463.3(23 Jun 48)ESS/FEC AC, dated 23 June 1948, subject: Notice of Amended Action No. 142.

2. Amended Action to the Coal and Lignite Allocation for April, May, and June 1948.

a. Amendment #142, 23 June 1948, referred to in paragraph 2d above, authorizing the special allocation of low grade standard coal requested in ESB Memorandum #127 as an additional allocation for the spring quarter, is for delivery during June and later months.

3. Amended Action to the Coal and Lignite Allocation for July, August, and September 1948.

a. An amount of 60 tons of standard coal will be made available for heating and cooking use of the National Personnal Commission during its meeting scheduled for the period from 2 August until 1 October 1948 for conducting civil service examinations. This coal will be provided out of the amount of 245 tons released to the category "Gov't & Pub Use & Public Works" by Amendment #142, referred to in paragraph 2a above, or by other adjustment in the categories "Gov't & Pub Use and Public Works" or "Other Uses" under the major category "PUBLIC HEALTH & WELFARE," in the allocation schedule for July, August, and September 1948. A report is requested from ESB for information of the Committee in regard to this adjustment.

463.3(30 Jun 48)ESS/FEC AC No. 146

MEMORANDUM FOR: Director General, Economic Stabilization Board

SUBJECT: Notice of Amended Action

1. References are the following memoranda to the Director General, Economic Stabilization Board, from General Headquarters, Supreme Commander for the Allied Powers:

a. File 463.3(11 Jan 47)ESS/IN, dated 11 January 1947, subject: Allocation of Coal for January 1947 and Thereafter.

b. File 463.3(10 May 48)ESS/FEC AC dated 10 May 1948, subject: Allocation of Coal and Lignite for July, August, and September 1948.

2. Amended Action to the Coal and Lignite Allocation for July, August, and September 1948.

a. The category "Iron & Steel" under the major category "RAW MATERIALS INDUSTRIES" is increased by 2,800 tons of imported coking coal from a total of 24,500 tons to a new total of 27,300 tons. This increase represents a correction to paragraph 3a of Amendment #142, 23 June 1948, and reflects the actual amount of coal in the ship Kenkoku Maru, arrived at Muroran for Wanishi Iron Works. The amount of the Bill of Lading for this ship, originally showing 6,500 tons, has been corrected to read 9,300 tons.

b. The category "Iron & Steel" under the major category "RAW MATERIALS INDUSTRIES" is decreased by 26,000 tons of standard coal from a total of 812,400 tons (395,000 tons of coking coal, 4,000 tons of anthracite and senseki, and 413,400 tons of other standard coal) to a new total of 786,400 tons (395,000 tons of coking coal, 4,000 tons of anthracite and senseki, and 387,400 tons of other standard coal.)

c. The category "Gelatin" under the major category "CHEMICAL INDUSTRY" is increased by 2,000 tons of other standard coal from a total of 1,000 tons to a new total of 3,000 tons.

d. The category "Ammonium Sulphate" under the major category "CHEMICAL INDUSTRY" is increased by 13,000 tons of standard coal from a total of 297,940 tons to a new total of 310,940 tons.

e. The category "Solvay Soda" under the major category "CHEMICAL INDUSTRY" is increased by 27,500 tons of standard coal from a total of 100,600 tons to a new total of 128,100 tons.

MEMORANDUM FOR: Director General, Economic Stabilization Board

SUBJECT: Extension Of Allocation Tickets For 6,000 tons Of Standard Coal For Delivery To Electric Power In Kyushu

1. References are the following memoranda to the Director General, Economic Stabilization Board, from General Headquarters, Supreme Commander for the Allied Powers:

a. 463.3(11 Jan 47)ESS/IN, dated 11 January 1947, subject: Allocation of Coal for January 1947 and Thereafter.

b. 463.3(11 Feb 48)ESS/FEC AC, dated 11 February 1948, subject: Allocation of Coal for April, May, and June 1948.

c. 463.3(11 Mar 48)ESS/FEC AC, dated 11 Mar 1948, subject: Alterations or Changes to Coal Allocations as Determined by the FEC Allocation Committee.

2. Extension of delivery period for 6,000 tons of coal allocated to the Electric Power Industry in Kyushu.

a. The allocation tickets for 6,000 tons of standard coal under the category "Electric Power" for Kyushu are extended for a period of 30 days beyond the regular expiration date at the end of the first quarter (April, May, and June.) The local Kodan should be notified immediately by telegram to start delivering against this amount of 6,000 tons.

b. Also, attention is called, and the Kodan should be so instructed, that where it is necessary to divert coal to Electric Power for the use of the coal mines in producing coal, the Coal Kodan has the right, under the Memorandum of 11 March 1948 referred to in paragraph 1c above, to make the required emergency changes and report the action post facto to the FEC Allocation Committee.

Prime Minister's Office and
Ministry of Commerce and Industry Ordinance No. 3

March 18, 1948

The Electric Power Demand and Supply Regulation (Prime Minister's October 1947) shall be amended as follows:

Prime Minister
ASHIDA, Hitoshi
Minister of Commerce and Industry
MIZUTANI, Chozaburo

In article 3, paragraph 1, item 3, after "the amount stipulated in the contract" the following shall be inserted:

(If the lights installed or the amount stipulated in the contract is excessive considering the purpose of usage or place where the electricity is used, the allocation may be done on the basis of the number of lights or amount of power designated by the Director.)

In Article 8, paragraph 2 "basis of allocation or the allocation" shall be amended as follows:

Basis of allocation or the allocation or the number of lights or amount of power designated by the Director as the basis of allocation.

In article 11, paragraph 1 "to stop using power" shall be amended as follows:

To stop supply or usage of power.

In Article 11, paragraph 2 "consumer" shall read as "power enterpriser or consumer" and the following shall be added as proviso:

However, ever when the day or hour to stop supply or usage of power is designated, the electric enterpriser may supply power to the electric consumer designated by the Director or the olectic consumer designated by the Director may use power under the supervision of the director.

In Appendix 2, Table of Demanding Groups, Purpose of Usage of Products and Competent Authorities Concerned, "Removal of reparations" in Demanding Groups item shall be amended as "Preservation and removal of reparations" and before "Metal products for daily use" in Purpose of using power item shall be inserted "Casting of Coinage" and as the Competent Authorities concerned "Ministry of Finance" shall be added.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Supplementary Provision

This ordinance shall come into force as from the day of its promulgation.

Prime Ministers Office and
Ministry of Commerce and Industry Notification No. 1

The Allocation Standard and Others referred to in the Electric Power Demand and Supply Adjustment Regulations) Prime Minister's Office and Ministry of Commerce and Industry Notification No. 6, issued in November 1947) shall be amended as follows and shall come into force as from March 10, 1948. However, the allocation altered bythe amendment of this notification shall be applicable as from the date of examination after the date of enforcement of the Notification and the allocation until the date of examination shall be same as before.

Prime Minister
ASHIDA Hitoshi
Minister of Commerce and Industry
MIZUTANI, Chozaburo

Article 5. The grades in case of stoppage of electric power usage and supply referred to in Article 11, paragraph 1 of the Regulation shall be determined as stated in Attached Table 5. However, as for electric consumer of the 1st Category Demand who do not fall under the meter-rate system because of the absence of meters, exceptions shall be made.

The hours during which the usage of electric heaters and flat-rate lights of the 2nd and the 3rd Category Demand in prohibited shall be determined as follows.

1. As for electric heaters, from 5 P.M. to 8 P.M.

2. As for flat-rate lights, from 30 minutes after daybreak to 30 minutes before sunset.

In Article 6, paragraph 1, item 2, "the usage of electricity" shall be amended as the "supply or the usage of electricity".

The stipulation of Art 6, paragraph 2 shall be amended as follows:

Notwithstanding the preceding paragraph, the designation of amount of power per day, week, ten days or half month or the maximum power during a day, week, ten days or month referred to in Art. 11, par. 1 of the Regulations may as well be made by the Director of Regional Bureau of Commerce and

Allocation Standards for the 2 & 3 Category Demands

1. The 2nd Category Demand (Business Demand)

Classification	Kind of Contract	Subdivision of contract	Power Allocation Standard: Ordinary Districts	Power Allocation Standard: Long Time Lighting Districts
A	Light service by light meter	Ordinary light service	As for 1 to 10 contracted lights 2.5KWH per one light over 10 lights, 1,5 KWH per light, provided, however, 20 KWH are the minimum.	"2.5 KWH in the ordinary districts shall read as 3 KWH, provided, however, 25 KWH are the minimum.
		Compound light service	For lights, same as ordinary light service. For electric machines (excluding electic heaters), 30 KWH per 1 KWH of the contracted capacity.	The for lights shall be the same as above. That for electric machines shall be the same as in the ordinary districts.
	Light service for major consumers		60 KWH per 1 KW of the contracted capacity.	"60 KWH", in the ordinary districts shall read as "70 KWH".
	Compound power service		70 KWH per 1 KW of the contracted capacity.	"70 KWH" in the ordinary districts shall read as "85 KWH".
	Power service for smaller consumers		30 KWH per 1 kw of the contracted capacity.	Same as ordinary districts.
	Light service by flat-rate		For those other than shops (not including department stores) the entire capacity shall be 100 W, provided, however, those whose installed capacity was over 100W at the time the notification was revised shall be left intact.	Same as ordinary districts.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 45013

		The entire capacity for shops (not including department stores) shall be 100W, provided, however, those whose installed capacity was in excess of 100W but not more than 160 W shall be left intact as at the time of revision of the notification and those whose installed capacity exceeds 160 W shall be 160 W.	Same as ordinary districts those
		Those which have been already installed but are not furnished with current meters and unable to abide by the above standards shall be limited to 200 W for 5 to 7 lights and 300 W for more than 8 lights.	
		The above two standards of allocation do not include the capacity for radios (same for light service by flat-rate appearing hereafter).	Same as ordinary districts
Light service by meter	Ordinary light service	As for 1 to 10 contracted lights, 2 KWH per one light. As for lights over 10 lights, 1 KWH per one light, provided, however, 20 KWH are the minimum.	2 KWH in the ordinary districts shall read as 2.5 KWH, provided, however, the minimum shall be 25 KWH.
	Compound light service	For electric light, same as ordinary light service. For electric machines (excluding electric heaters) 30 KWH per 1 KW of the contracted capacity.	That for electric lights shall be the same as above. That for electric machines shall be the same as in the ordinary districts.
Light service for major consumers		35 KWH per 1 KW of the contracted capacity.	"35 KWH in the ordinary districts shall read 45 KWH.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 45013

Compound power service	45 KWH per 1 KW of the contract capacity.	"45 KWH" in the ordinary districts shall read "55 KWH".
Power service for smaller consumers	30 KWH per 1 KW of the contracted capacity.	Same as in the ordinary districts.
Light service by flat-rate	Same as that for shops (not including department stores)	Same as in the ordinary districts.

2. The 3rd Category Demand (Residential Demand)

Classification	Kind of contract	Subdivision of contract	Power Allocation Standard: Ordinary districts	Power Allocation Standard: Long Time lighting district
A (General Residential	Light service by meter	Ordinary light service	Irrespective of the number of lamps installed, 20 KWH.	Irrespective of the number of lamps installed, 25KWH.
		Compound light service.	That for lights shall be same as ordinary light service. That for motors of electrical apparatus shall be 30 KWH per 1 KW of the contracted capacity. For electric heaters for cooking and water boiling, the following amount of power shall be allotted according to the locality of the residence such as A or B district and the number of family (excluding metal coupon holders.) A district 1 person 20 KWH 2 person or above 45 KWH B district 1 person 15 KWH 2 persons or above 45KWH	For lights same as above For motors of electrical apparatus and heaters for cooking and water boiling same as in ordinary districts.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 45013

		Light service for major consumers.	Same as in the case of compound light service.	Same as above.
		Compound per service.	Same as in the case of compound light service.	Same as above.
		Power service for smaller consumers.	30 KWH per 1 KW of the contracted capacity.	Same as in ordinary districts.
		Light service by flat-rate	The entire capacity shall be 100 W, provided, however, those whose installed capacity was in excess of 100W but not more than 160 W at the time of revision of the notification shall be left intact. Those whose installed capacity exceeds 160 W shall be 160 W.	Same as in ordianry districts.
B. (Special Residential Usage)	Light service by meter	Ordinary light service.	Irrespective of the number of lamps installed, the sum total of 20 KWH for master's family and 15 KWH for each lodging family, however, in such cases as supplying dormitories etc, where the above way is in adequate, 7 KWH for each of the contracted number.	20 KWH, 15 KWH and 7 KWH in the ordinary districts shall read as 25 KWH, 18 KWH and 8 KWH.
		Compound light service	For light, same as ordinary light service. For motors of electrical apparatus, 30 KWH per 1 KW of the contracted capacity. For electric heaters for cooking and water boiling, the sum total of the following	For electric lights, same as above. For motors of electrical apparatus and heaters for cooking and water boiling, same as in the ordinary districts.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 45013

	amounts shall be allotted to a residence holding several families according to the locality of the residence such as A or B district and the number of families (excluding meal coupon holders). A district 1 person 20 KWH 2 persons or above 45 KWH B district 1 person 15 KWH 2 persons or above 35 KWH	
Light service for major consumers.	Same as in case of the compound light service.	Same as above.
Compound powers service	Same as in case of the compound light service.	Same as above.
Power service for smaller consumers.	30 KWH per 1 KW of the contracted capacity.	Same as in ordinary districts.
Light service by flat-rate.	The entire capacity shall be 100 W provided, however, those whose installed capacity at the time of revision of the notification was in excess of 100 W shall be left intact.	Same as in ordinary districts.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 91013 4750

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

1. The allotted amounts of power shown in the tables represent the power ration for a month and allotment shall be made by each contract.

2. The allocations in the tables for long time lighting districts shall be done only from November 1 to March 31, while in other months the allocation shall be done in accordance with ordinary districts.

3. Those who use power for electric machines (excluding electric heaters) by meter-rate compound light contract or major light service contract or compound power contract (confined to electric consumers of the 3rd Category Demand) shall not have allotment of such machines unless they make a report of the capacities of said machines to the electrical enterprisers who supply power (hereinafter simply called electric enterpriser). In such case the name plate capacities of the machines of which they have reported shall be regarded as the contract amount. In case, however, the unit of the machine capacities are stated in horse power, one horse power shall be regarded as one kilowatt.

4. Allotments of power for cooking or water boiling shall be made only to those electric consumers of the 3rd Category Demand A (general residential usage) and B (special residential usage) in the under mentioned A and B districts who have made meter-rate compound light contract or major light service contract or compound power contract (those who are supplied with gas for 24 hours shall be excluded.)

(a) A district: 23 wards and all cities of Tokyo-To, all cities in Saitama Pref., Chiba Pref., Kanagawa Pref., Aichi Pref. Kyoto Pref., Osaka Pref., and Hyogo Pref., and those districts specially designated by the Director of the Regional Bureau of Commerce and Industry as falling under this group.

(b) B district: Cities of all districts except Kyushu district (excluding those enumerated in the preceding item A district) and also districts specially designated by the Director of the Regional Bureau of Commerce and Industry as falling under this group.

5. Allocation of power for cooking and water boiling to electric consumer of the 3rd category Demand under stipulations of meter-rate compound light contract or major light service contract or compound power contract shall be the sub total of the standard allocations to all families and the amount equivalent to the standard allocation for each family involved, in case two or more families use electricity by the same contract when a request is filed to the electric enterpriser accompanied by a certificate proving the facts.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

6. In case an electric consumer of the 2nd Category Demand who is other than a meter-rate ordinary light contracting party is not able to abide by the allotted amount of power because of their being forced to use heaters for operational purpose due to certain particular nature of his business preventing the use of other fuels, 50 KW of heater capacity, at his request to the electric enterpriser shall be added to his allocation (in case an allocation standerd for heaters is included in the calculated power allotment such allocation standard for heaters shall be deducted from the total allotment).

7. The allocation for electric consumers (limited to electric heaters) of the 3rd Category Demands (special residential use) shall be done on the basis of a report of the electric enterpriser accompanied by a certificate stating the facts as to the families involved.

8. In case an electric consumer of the 3rd Category Demand A (general residential use) who is a meter-rate light contracting party is not able to abide by the allotted amount of power because two or more familis use electricity by the same contract (should a family have more than eight members, such familility shall be regarded as two families), or in case an electric consumer of the 3rd Category Deman A (general residential use) or B (special residential use) cannot abide by the allotted amount of power because there are students of middle school or the above grade school in the family, such consumers may file a request for un additional power allocation with the electric enterpriser accompanied by a certificate proving such fact. For six months only after his request, the following amount of power shall be added to his allocation standard.

	Ordinary districts	Long time lighting districts
(a) For each additional family in two or more families	15 KWH	18 KWH
(b) Students and pupils	Middle school	Middle school
up to two persons	3 KWH	4 KWH
more than two persons	6 KWH	6 KWH
	High school or above grade school	High school or above grade schod
up to two persons	5 KWH	6 KWH
more than two persons	7 KWH	8 KWH

9. In case an electric consumer of the 3rd Categor Demand is unable to abide by the allotted amount of power due to childbirth, funeral or marriage ceremony or tending a sick person,

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

he may file a request for an additional power allocation with the electric enterpriser accompanied by a certificate proving such fact. The following amount of power shall be added to his allocation standard.

(a)	Child-birth	5 KWH per case
(b)	Funeral ceremony	3 KWH per case
(c)	Marriage ceremony	3 KWH per case
(d)	Tending a sick person	0.5 KWH multiplied by the required number of days.

10. In case an electric consumer of the 2nd or 3rd Category Demand is unable to abide by the allotted amount of power for any of the reasons mentioned hereunder, he may file a request for alteration of power allocation stipulated in Article 9 paragraph 1 of the Regulations through electric enterprisers accompanied by statement proving such fact.

(a) In case where a motor is required to be operated for a long time for drainage of gushing water.

(b) In case a long time lighting is required due to the nature of business or the structure of the building.

(c) In case more than allotted amount of power is required for some other particular reasons.

NOTE:

1. The long time lighting districts referred to in the Tables are Hokkaido, Aomori, Akita, Yamagata and those districts where a long time lighting is required due to deep snows and which the director of the Regional Bureau of Commerce and Industry has designated as such districts.

2. Kings and sub-divisions of contracts referred to in Tables involve the following:

(a) Light service by meter means electric light demand furnished with integrating watt-eterste measure and amount of power consumed. Light service by flatrate means electric light demand not furnished with integrating watt-motor.

(b) Ordinary light service means the demand for electric light service only. Compound light service means the electric light demand accompanied by the power demand for meteres of 500 VA or the above.

(c) Light service for major consumers means the electric light demand with 6 KW or the above electrical equipment in continous service.

(d) Compound power service means the electric power demand of 20 KW or the above contracted power maximum which, however, is used continously in common for lighting, motors ,

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

motors, heaters in the same electric system and voltage, provided electric light equipment shall be over 20 percent but less than 80 percent of all electric consuming equipment.

(e) Power service for smaller consumers means the electric power demand of 50 KW of the less contracted power maximum, which however, is used continuously for motors, heaters and other electrical equipments.

Separate Table (4)

Percentage of Decrease in Power Allocation

1. The 1st Category Demand (Industrial Demand)

Classification	Percentage of Decrease	
	The 1st class	The 2nd class
A-a		100% of the allotted amount.
A-b	10% of the allotted amount	20% "
B	20% "	30% "
C	30%	30% "

2. The 2nd and 3rd Category Demands (Business and Residential Demands)

Classification	Percentage of Decrease
The 2nd category demand	20% of the allotted amount
The 3rd Category Demand	20% "

Separate Table (5)

Classes of Power Restrictions as per Power Holiday System

Category Demand	The 1st Class	The 2nd Class	The 3rd Class
A-a A-b	One day in every two weeks	One day in every week	One day in every week
The 1st category demand B	One day in every two weeks	One day in every week	Two days in every week
C	One day in every week	Two days in every week	Three days in every week
The 2nd category demand	One day in every week	Two days in every week	Three days in every week
The 3rd category demand	One day in every week	Two days in every week	Three days in every week

As to power holidays in this Table, the hours during which the supply and the usage of power is prohibited shall be, as a rule, from 5 a.m. to 10 p.m. in the 1st Category demand and 7 a.m. to 5 p.m. in the 2nd and the 3rd Category Demands.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 74503/3
