FAIL TO FRIGHTEN INSPECTOR BATES
Eskimos Have Threatened Him and His Men; Will Carry Out Orders

Le Park, Man., Oct. 30.—It is learned that the unnamed priests murdered by the Baker Lake Eskimos were sent in as missionaries. How they came to their death remains unexplained. The two prospectors were following a gold lead vein northwards from Baker Lake and it is thought they encountered the Eskimo tribe, who, believing they were mounted police came to arrest two of their number suspected of the killing of the American explorers. Bradford and Street, immediately speared them. One of the prospectors was named Colwell; the other's name has not been learned.

The tribe is situated about 200 miles inland from Baker Lake, where Inspector Bates, Sergeant Major Cochran, Corporal Conway, and two constables of the R. N. W. M. P. have pitched their tents in preparation for a winter's work. The police have been given to understand they will be killed if the venture inland, but Inspector Bates told Capt. Lockhart he had been ordered to see the man-killing Eskimos and he proposed to do so peacefully if it could be done; but see them he would despite the threats made against him.

In some places the same location as it held at the time of the Eskimo's death and reports says the natives are determined not to be driven away from their quarters from fear of the police. The crew of the mounted police boat Village Belle believe a clash between the police and the Eskimos is sure to take place if Inspector Bates takes his men inland. The peaceful Eskimo inhabitants on the shores of Chesterfield Inlet have told the police of the dangers to be met with on a journey northward, and they are helping in every way to make the work easier for the officers. Not one of them, however, will volunteer to accompany the police on the trip, and they are obeying their death for the little band of law officers.

Tepehu, the guide with Bradford and Street, told Capt. Lockhart that Street put up a great struggle for his life, and with his body full of spear holes, lived from noon till sundown, when an Eskimo squaw came out and cut his throat and pushed his body over a cliff. Tepehu saved his life by marrying one of the women of the tribe and eventually made his escape to the bay coast. He refused point blank to serve as guide for Inspector Bates.

HAU SHI CHANG RESIGNS.
Washington, Oct. 30.—The resignation of Hsu Shi Chang, Chinese premier, was announced in an official telegram received here yesterday afternoon from Peking. The reason was not given but it is presumed here that he is out of sympathy with the proposed change from the republic to a monarchy.

THE CABINET FORMED BY ARISTIDE BRIAND
New Government Unites All the Parties of the French Republic.

Paris, Oct. 30.—A new cabinet headed by Aristide Briand as prime minister and minister of foreign affairs, came into existence last night. Its personnel is as follows:
Prime minister and minister of foreign affairs: Aristide Briand.
Vice-president of the cabinet and minister of state: Charles de Broqueville.
Minister of war: General J. S. Gallieni.
Minister of justice: Rene Viviani.
Minister of the interior: Louis J. Malvy.
Minister of marine: Rear-Admiral Le Cazé.
Minister of finance: Alexandre Ribot.
Minister of public instruction and inventions, concerning national defence: Professor Paul Painlevé.
Minister of public works: Marcel Sembat.
Minister of commerce: Etienne Clementel.
Minister of colonies: Gaston Doumergue.
Minister of agriculture: Jules Méline.
Minister of labor: Albert Meunier.
Ministers without portfolios: Emile Combes, Leon Bourgeois, Deuts Cochon and Jules Guesde.

The following are under secretaries of state:
War and munitions: Albert Thomas.
Subsistence: Thomas Thiery.
Sanitary services: Justin Godart.
Aviation: Rene Bernard.
Marine: Louis Nail.
General secretary of the ministry of foreign affairs: Jules Cambon.
Under secretary for fine arts: Albert Dalmeier.

This is the first time in the history of the French republic that there is a coalition ministry of all the opposing parties and factions. It follows closely on the recent innovation of forming a coalition cabinet in Great Britain.

The action taken in forming the cabinet was the culmination of a deep popular sentiment that, at the supreme crisis of the war, party division should give way to united action by all the parties in common support of the government.

The only member of the new cabinet not well-known to the public is the minister of marine, Rear-Admiral Marcel Jean Lucien La Caze, commander of the naval forces at Marseilles. He is 55 years of age and has had a brilliant career.

His first important appointment was chief of staff to the late Admiral Germinet, commander of the Mediterranean fleet. In this position he showed great executive ability and attracted the attention of his superiors. He next was appointed naval attaché at Rome, from which place he was

AMERICAN GOVT. WILL NOT SEND A REPLY
Washington, Oct. 29.—The text of Austria-Hungary's second note to the United States on munitions shipments to the allies has been received at the state department. It conforms to the cabled summaries, and will not be given out for publication here. It is not probable that a reply will be sent, as officials consider the tenor of the communication indicates Austria does not expect one.

HEALTH in Old Age
As age advances the blood gets thin, the nerves exhausted and vitality runs low. By building up the nerve force of body and mind Dr. Chase's Nerve Food is an unbounded blessing to people of advanced years. 60 cents a box, all dealers.

Dr. Chase's Nerve Food

JAPAN'S REASON FOR URGING POSTPONEMENT
Tokio, Oct. 30.—Announcement was made by the foreign office yesterday that Japan had requested China to postpone the project for re-establishment of a monarchy. The foreign office statement declares that an undeviating opposition to a monarchical government exists among the Chinese, and that it is far stronger than has been imagined. In fact, according to the foreign office, a feeling of unrest is spreading in all parts of China.

The foreign office praises the administration of President Yuan Shi Kai, but fears the sudden move to re-establish the monarchy is likely in view of the widespread opposition. To cause disorders such as would endanger the future of China.

SENT TO VANCOUVER.
Winnipeg, Oct. 30.—A British district freight agent of the Canadian Northern at Calgary, has been appointed district freight and passenger agent at Vancouver.

SIR CHARLES TUPPER.

Whatever differences of opinion there may be over many aspects of the policies championed by Sir Charles Tupper, it will be commonly agreed that death this morning removed a statesman who was a towering figure in a singularly remarkable group of Canadian public men.

Sir Charles Tupper came from the maritime provinces, the birth-place and training-school of many of Canada's most gifted statesmen. He was a man of strong convictions with a practical mind and was endowed to an unusual degree with the faculty of vigorous and direct expression.

The world is about to be deluged with lectures, addresses and articles in magazines and newspapers on the horrors of war. There will be a multiplication of peace societies in the United States and other neutral countries.

THEIR LAST DIVERSION.

Notwithstanding the lamentations of the prophets of war the Teutonic advance in the Balkans is a diversion and cannot reach a vital spot in the allies' defenses.

loss of prestige at home, the situation in the south would become doubly dangerous for the entente-powers. But Wilhelm would find justification for the German people of a retreat on either the east or west fronts a difficult and dangerous undertaking.

What does the German emperor hope to gain by the Balkan campaign? First, he expects the allies to meet his move by weakening their main fronts, relieving the pressure upon his own gradually diminishing lines.

The enemy's advance in the Balkans will be checked ultimately just as every other move he has made on land and sea has been checked. Then he will find himself confronted with the necessity of reinforcing and supplying another front.

A PEACE PROPAGANDA.

The Kaiser says he did not make this war. The bloodstained thumbprint on the record betrays the identity of the author. The only mind that could be black enough to perpetrate this war is that which authorizes the murder of women and children.

SIR CHARLES TUPPER, EX-PRIME MINISTER, DIES IN ENGLAND

Canadian Medical association. He served on numerous royal commissions and acted in a diplomatic capacity in connection with several treaties, notably the Franco-Canadian treaty of 1857.

announcement has been made in London to the effect that Japan has become a signatory to the treaty by which the allies are bound to continue the war until the time for the negotiation of a common peace arrives.

The death of Warburton Pike, explorer, naturalist and writer, will be widely deplored. His name was familiar to thousands to whom his personality was unknown.

The announcement by the Minister of Militia that his department intends to recruit 100,000 additional troops, bringing Canada's army in the field and in training up to 250,000 men, is timely and will cause general satisfaction.

France has not had a solitary labor strike since the war began, and for months after its commencement, the workmen employed in her factories and arsenals did not know what a holiday was.

William Randolph Hearst's New York newspapers, publish editorials warmly approving the attitude of Lord Northcliffe in England.

Canadian Medical association. He served on numerous royal commissions and acted in a diplomatic capacity in connection with several treaties, notably the Franco-Canadian treaty of 1857.

Throughout his career he was the embodiment of energy, mental and physical force, eloquence, experience and probity of character. For all time his name will be written across the pages of history recording the splendid work which resulted in the confederation of

THE RIGHT FROCK FOR THE MATINEE

Combination of Velvet and Broadcloth, or Velvet and Faille Favored

New York, October 30. There are many interesting plays in town; afternoon teas are among the social demands, and the tea rooms of the Ritz, Plaza, Astor, and Vanderbilt are once more gay with the laughing chatter of many voices. The charming array of gowns makes these more public places wonderfully interesting. The dark rich velvets, combined with satins, taffetas, broadcloths, and velours are most effective and wintry-looking with the touch of fur which almost invariably appears on some part of the gown.

The Popularity of the Jumper. Perhaps the most generally favored style of gown or blouse is the jumper; there is the little jumper bodice made with narrow shoulder straps, crossing suspender fashion down the back, or continuing down each side of the back in straight lines. The sleeveless blouse in various styles is popular, too, with sleeves of satin, taffeta, or crepe Georgette.

Costume of Velvet and Faille.

Many of the blue serge gowns, and the heavier fabrics, such as dave-tyn and velours de laine, are made this way, as many dislike a heavy sleeve. This is also an economical idea, as the sleeves may be varied; a pair of satin or taffeta may do service for mornings, and by substituting a guimpé of crepe Georgette, or chiffon cloth, the same frock becomes dressy enough for afternoon wear. A very chic dress of the new tobacco brown dave-tyn, built on these lines, was made with the jumper bodice buttoning in a double-breasted line in simulation of a vest front. This frock was accompanied by a guimpé of self-toned chiffon. Another material favored for contrasting sleeves is broadened grosgrain; a blue serge, for instance, is made with a guimpé of blue grosgrain broadened in gold, with charmingly harmonious effect.

Among the dressier afternoon frocks the use of velvet combined in various ways with satin, faille, or taffeta, striped or plain, is most agreeable. One charming little frock was made with the lower section of the skirt in velvet, arranged in a Wall-of-Troy design; this same effect was carried out in the lower section of the bodice, which was also of the blue velvet. The upper part of skirt was of striped gros de Londres, and the upper part of the bodice of crepe Georgette. On another interesting costume a jumper bodice of velvet was worn with a pleated skirt of faille, banded around the lower edge with the velvet.

The Swish of the Petticoat. The very name of the petticoat has brought smiles, now, for a season or two, but there is no garment more delightfully feminine. Its gay little ruffles enhance the slenderness of a dainty ankle and its soft swish delights the heart of the really feminine person, no matter how independent she may have been of it for the past season or two. It has really returned this winter after many indications and predictions from smart modistes. It is the real, swishy beruffled thing of years gone by, too. Among the most charming of novelties is a fur-trimmed petticoat to accompany a full-skirted frock for afternoon or evening. Taffeta, chiffon cloth, the soft satins, and batiste are favored materials; while ruffles, gathered, fluted, shirred, corded and plain, are again a part of its adornment.

The Costume Blouse. One or two dainty dressy blouses of

THE "HINGE-UNICUS"

The Latest and Best Tea Infuser. English made. No tea-pot required; makes a pure cup of tea. No springs; prevents the poisonous effects of over-steeping; great saving in tea.

CENTRAL BUILDING, Cor. View and Broad Sts. Victoria, B. C.

chiffon cloth, crepe Georgette, a patterned crepe, or taffetas, is almost a necessity in a well-ordered wardrobe; it will be found economical, too, as often the suit may be made to do service for many of the more dressy occasions by adding one of these becoming costume blouses. The new models show interesting features. One is the high collar

Another Smart Use of Velvet

of the material, piped or banded with a contrasting color. The sleeve is another; they are made very ample through the elbows and, in many instances, are gathered into the armholes; this being a decided departure. Most

AT THE THEATRES

ROYAL VICTORIA THEATRE.
 A good laugh does one good these days, and this is what is obtained by a visit to the Royal Victoria theatre with Sam Bernard, the well-known comedian in an adaptation of his play of the same name entitled "Poor Schmaltz." Mr. Bernard will be liked as "Poor Schmaltz." His interpretation of the barber, who aspired to the honors and privileges and possibilities of a wealthy alliance that fall to the bearer of a title, provides good entertainment. The comedian brings to his aid a measure of facial acrobatics and all-around physical agility that will compare favorably with the screen's most adept performers. In addition there is also shown a weekly with the latest news, and another good one-reel comedy.

EDISON'S "VANITY FAIR"
MRS. FISKE
 Appearing at Majestic theatre in the great Edison Kleipe feature "Vanity Fair."

PRINCESS THEATRE.
 The attraction for next week at the Princess theatre is "The Bill-Brode" by Rex Beach. It is a sequel to "The Spoilers," but as a story is even more fascinating and exciting. A young girl, Cherry Malotte, opens a small cannery factory in Alaska, and is successful in a limited way. She is intelligent enough to perceive that the future contains great possibilities and interests a young American in her idea. He is eager to win a fortune so that he can marry the woman he loves, and makes a strong effort to raise a large sum of money, so that the success of the colored plant seems assured. But by this time the vigilance of the big fish trust is aroused, and the battle is on. It is plain to be seen that the possibilities for action and spirited situations are very strong, and the dramatist has taken advantage of them to weave together a stage story, which is bound to have a powerful effect on the spectator. Miss Vain Calver will be seen in a new light as Cherry, and Mr. Laxme should score as the American. Dave Williams has an important part, with a chance at comedy, and the remainder of the parts are advantageously cast. The usual Princess thoroughness is required in scenery and stage effects is promised.

A teacher observed what she thought a lack of patriotic enthusiasm in one of the boys under her instruction. "Now, Tommy," said she, "tell me what you would think if you saw the Union Jack waving over the field of battle?" "I should think," was the logical reply of "Thomas," "that the wind was blowing."

Phoenix Beer, \$1.50 per doz. quarts.

BIG COMEDY FILM

Scene from "Poor Schmaltz," the great comedy hit now being shown at the Royal Victoria theatre.

London Dry Goods LIMITED
 Store Hours: 1.30 a.m. to 6 p.m.
On Monday Will Commence a Sale of Women's Suits, Coats and Dresses

 "Poor Schmaltz," of course, couldn't pay me five shillins' fine, and I had to go to jail for six days. Mike—"An' how much did you spend to get drunk?" "Oh! 'bout five shillins'." "Yes fool, if yer had not spent yer five shillins' for drink yer'd had yer five shillins' to pay yer foine wid."

SPORTING NEWS

ORGANIZED BASEBALL MAGNATES AGREE UPON MOVEMENT TO ABSORB FEDERALS

Squabble as to Who is President of Western League; Slowfeds Dropped Money

New York, Oct. 30.—Coincidental with the movement to absorb the Federal league without having to bring up the objectionable question of recognition, baseball men are planning a country-wide scheme to change the minor league map. The first move is the further invasion of New England by the International league and the discontinuance of the Eastern association.

The reason for the secrecy about the clubs to be dropped from the International league is the possibility of the Federal league being absorbed and leaving open territory like Newark and Baltimore, from which the International was driven last summer. There is to be a big meeting of all the minor leagues in the country at San Francisco next month, all of the major league magnates have been urged to attend. Most of them will do so. This meeting is to be the scene of the peace settlement with the Feds. It is believed there will be changes in the American association, the other big minor league, so as to take care of the Federal league property out there if the peace plan goes through.

All the major league magnates, even those who have fought so bitterly against paying any attention to the Federal league, are now in accord with the new scheme and have seen the necessity of it to prevent another season of financial reverses.

St. Louis, Mo., Oct. 30.—E. G. Hanlon, president of the St. Louis baseball association, will not attend the annual meeting of the Western league, called to-morrow morning in Chicago by Tip O'Neill. Mr. Hanlon, who is acting president of the league, and who will continue in that office until a successor for O'Neill is elected, says the meeting called for Sunday is illegal and that to his knowledge only two members of the league will answer the call. These members are Jack Holland, of St. Joseph, and Tom Fairweather, of Des Moines.

Tip O'Neill is no longer connected with the Western league, declared Mr. Hanlon, and five members of the

league will not heed any call for a meeting made by him. He has no more right to call a meeting of the Western league than any other outsider.

All-Stars Dropped.
San Francisco, Oct. 29.—The San Francisco club, winners of the Pacific Coast league championship, won the first game of a seven-game post season series yesterday by defeating Oscar Vitt's All Stars, 8 to 7.

The All Stars included a number of world-series stars and the Seals showed their championship calibre by taking such liberties as driving Joe Geacher, of the Philadelphia Nationals, out of the box in two innings, and stealing seven bases off Eddie Burns, who caught every game for the Philadelphia Nationals recently in the world series. The score:

R. H. E.	
All Stars	7 14 2
San Francisco	8 12 3

Batteries.—Coacher, Klawitter, Prough and Burns; Steen, Brown and Sepulveda.

The all-star lineup includes Harry Hooper, of the Boston Red Sox; Oscar Vitt, Detroit Tigers; Johnny Lavan and Ivan Howard, of the St. Louis Browns; Eddie Burns and Davey Cravath, of the Philadelphia Nationals; Oscar Stanton, Detroit Tigers.

Chicago, Oct. 29.—Ban Johnson, American league president, according to a report, will leave shortly for Philadelphia for the purpose of engineering the sale of the Athletics. The Shibles, father and son, say the rumor, are perfectly willing to sell and retire from baseball provided they can get their price.

The Athletics have never been a money-maker, despite the fact that they won American league championships and took part in several world's series.

Slowfeds Drop Money.
Phil Ball, owner of the St. Louis Peaches, admits that his club, piloted by Fielder Jones, lost \$50,000 last season, and that despite the fact that it lost the pennant by only a decimal point, but he now wants to buy either the National league or the American league club at St. Louis. The old-timers on the Mississippi will patronize a winning team and do it right, so if Ball should get hold of one of the established clubs, and kick the Feds, out of the territory, he might recoup some of his losses.

WINTER LEAGUE WILL OPEN EARLY NEXT MONTH

San Bernardino, Oct. 29.—Directors of the Southern California Winter Baseball league last night decided to open their league on Saturday, November 6, with Los Angeles at San Bernardino and the Chicago colored Giants at San Diego. Games will be played every Saturday and Sunday and the local Saturday game will be played at Riverside beginning November 15, which will be Chief Meyers Day, owing to the fact that Meyers will catch for the San Diego team. The Los Angeles team will go under the name of Cline & Cline. Players from the major Federal and minor leagues will be found in the personnel of the teams.

'FRISCO TIED ALL-STARS.

San Francisco, Oct. 30.—The second game in the post-season series between the San Francisco club and Oscar Vitt's all-stars was called in the eleventh inning yesterday, on account of darkness, with the score 3 to 3.

The Seals were the first to score when Schaller knocked home in the fourth. Fanning was a hit wild in the same frame. He walked one man and hit another and then a passed ball and a hit gave the All-Stars two runs. The Seals tied the score in the ninth, when Schaller stole home. Score:

All Stars	3 8 1
San Francisco	2 6 1

Batteries—Covaleski and Stange; Fanning and Schmidt; Sepulveda.

YOAKUM AND BURNS EVEN.

Colorado Springs, Colo., Oct. 29.—Stanley Yoakum, of Denver, and Frankie Burns, of San Francisco, lightweights, fought fifteen fast rounds yesterday to a draw at Ramona. Both men were bleeding profusely at the windup. The fighters finished strong.

N. H. A. MAGNATES ARE PLAINLY WORRIED OVER BREAK WITH WESTERN HOCKEY BODY

Kennedy Will Demand Expulsion of Lichtenhein From League; Latter Will Demand That Kennedy Be Expelled

Montreal, Oct. 30.—That Sam Lichtenhein, 19th president of Wanderers Hockey club, one of the two local clubs in the N. H. A. is handing that association the "double cross" by making arrangements whereby his club will be exempted from the raids for players from which the other clubs are liable by the president of the P. C. H. A. following the peace agreement between the two associations, was a declaration made by George Kennedy, manager of the Canadiens.

Mr. Kennedy declared that he will move at the next meeting of the N. H. A. for the expulsion of Mr. Lichtenhein and the forfeiture of his franchise. This follows an announcement yesterday by Mr. Lichtenhein that he intended to move at the next meeting that the N. H. A. franchise be taken from the Canadiens, whose manager, Mr. Kennedy, Lichtenhein asserted, is responsible for the Patriots' decision to break away from dealings with the N. H. A. because Kennedy refused to pay \$500 due on the purchase last season of Newey Lalonde from the coast managers.

"I will demand at the next meeting of the N. H. A.," said Kennedy, "that all of Lichtenhein's correspondence with the Patriots be shown—not only relating to the new agreement, but other correspondence which I have reason to believe he had. I think he is handling the N. H. A. a fine double cross and throwing down his partners. He says he will put me out of the league, because I am not foolish enough to pay out \$500, when there is no agreement between the two leagues, and when the Patriots might offer the player a larger salary than I am at present, but I will show him—there are two who can play at that game."

Another development to-day in the hockey war, which at this time so far as public knowledge is concerned, has settled down to another worthy battle between Kennedy and Lichtenhein, was the statement of A. L. Caron, president of the National Athletic club, of Montreal, who is in the field to secure the Canadiens' franchise, if it is to be had. Mr. Caron last year

threw a scare into hockey ranks by carrying on negotiations for the organization of an international professional league, in which it was proposed to include teams from Boston, New York, Montreal and Ottawa. Mr. Lichtenhein, president of the Wanderers, said this morning that Mr. Caron was the "other parties" referred to in his announcement yesterday to whom he intended to move the resignation of the Canadian franchise. "I understand that Mr. Caron wants to buy the franchise and turn it over to the Nationals," he said.

Mr. Lichtenhein also stated to-day that if Kennedy can prove an assertion he is said to have made yesterday, to the effect that at a previous time Kennedy's intercession in Lichtenhein's favor kept the Wanderers in the league, he will place his franchise in the hands of the association.

According to a Toronto exchange, Harry Holmes, the star Toronto goaltender, may come west and play with the Patriots. Holmes is said to have received a wire from Frank Patrick when the P. C. H. A. president declared war on the eastern body. The message to Holmes read: "Have you signed with Toronto yet? If not you are eligible to come west. Season commences Dec. 1. Play eighteen games in league series."

Manager Jack Marshall, of the Toronto team, sent out contracts to the players on Oct. 1. Holmes has not yet signed with the Toronto, and will seriously consider the proposition from the Patriots. Toronto, it is said, will have a difficult task in signing any of their players this season, as they have greatly reduced their salaries. Holmes is not on the reserve list of the Toronto this year, and is subject to draft by the Pacific Coast league, as were all the other members of the club with the exception of Foyston, Walker and Cully Wilson.

It would not be surprising to see Holmes in the nets for Victoria this winter, as it is reported that Bert Landis will remain in the east. The Toronto goalie would be a welcome addition to this club, as he is rated as one of the greatest net guardians in the game to-day. Vancouver will have Hughie Lehman again this year, while Portland has secured Herbert from the east in trade for Art Trehon, so that Holmes will either go to Seattle or come here if he decides to come west.

TRAP-SHOOTING TOUR.

Wilmington, Del., Oct. 30.—Arrangements have been completed for a trap-shooting trip of 3,500 miles, to be taken by a team of four well-known baseball players composed of Christopher Mathewson of the New York Nationals, H. H. Davis of the Philadelphia Americans, Otis Crandall of the St. Louis Federals and C. A. Bender, lately with the Baltimore Federals. All are splendid marksmen.

The ball players will shoot a match of 200 targets in 15 cities with teams of amateurs at each place. The opening shoot will be held at the West End Gun club, Richmond, Va., Nov. 8. Thanksgiving day the players will meet a team at the New York Athletic Club grounds, New York, and will go to Hartford for a match the next day at the Hartford Gun Club range. The tour will close at the Palace Gun club in Boston, Nov. 27.

The cities will be visited in this order: Richmond, Baltimore, Pittsburgh, Cincinnati, Indianapolis, St. Louis, Kansas City, Omaha, Des Moines, Minneapolis, Milwaukee, Chicago, Toledo, Detroit, Syracuse, New York, Hartford and Boston.

Make Yanks Offer.
Ocala, Fla., Oct. 30.—An offer of training quarters for the coming season has been telegraphed by the Ocala Baseball association to the New York Americans, who have asked for terms.

TITLE BOUT.

Bellingham, Oct. 30.—If present plans materialize, Milton Harnden of Bellingham and Owen Daily of Omaha will wrestle in Bellingham in December for the lightweight championship of America. Daily holds the title now and Harnden will endeavor to take that honor away from him.

WHITE LOSES DECISION TO ENGLISH LIGHTWEIGHT

Milwaukee, Wis., Oct. 29.—Charlie White's title aspirations received a set-back last night when the Chicago boy lost a newspaper verdict to Matt Wells, ex-lightweight champion of England. White, who has the reputation of being the heaviest hitting lightweight in the game to-day, never had a chance to land his terrific wallop on the clever Briton. Although Wells was accorded the decision, his margin was slight. He had a decided advantage in the third, sixth, eighth, and ninth rounds, while White had the better of the fourth, seventh and tenth rounds. Wells easily outpointed White at long range fighting, but the Chicago boy had the better of the in-fightings.

WILL NOT BE REINSTATED.

New Haven, Conn., Oct. 30.—Yale will not reinstate the five prominent athletes who recently withdrew from inter-collegiate competition, so long as the Yale rule concerning playing summer baseball stands in its present form. This was made plain to-night by Prof. Robert N. Corwin, chairman of the Yale athletic committee, who made public a letter he had written to Dean Le Baron R. Briggs, of Harvard, both Harvard and Princeton had written to Prof. Corwin, expressing the desire of the undergraduates of those universities that the athletes be allowed to rejoin their teams.

PLAYERS MAY JUMP.

Portland, Oct. 30.—According to Bill Spears, captain of the Portland team, who arrived in the city yesterday, Bill Stumpf is not the only Portland player likely to jump to the Federals, if he gets a reasonable offer.

Spears says that Ray Bates, generally considered the best third baseman in the circuit, is also willing to join the outlaws provided that they come across with a reasonable amount of coin.

CONQUERED WHITE

MATT WELLS

EX-lightweight champion of England, who outpointed Charlie White last night in a ten-round no-decision bout. Wells intends to return to the old country shortly, and enlist in the army.

ORDERS CUP REPLACED.

New York, Oct. 29.—Sir Adam Beck, director of remounts of Canada, has been ordered by the National Horse Show association to donate a replica of the Canadian challenge cup for competition this year.

The original cup, which was won by an officer of the British army, now serving in the war, has been lost, and the association has applied to the French government for assistance in finding it.

REMARKED ON THE SIDE

California Develops Another Cinder Flyer.
Apparently the Pacific Coast is developing another cinder path flyer in Frank Sloan, the youth who recently broke the American inter-scholastic record for the quarter mile by running that distance in 48.1-5 seconds. An idea of this schoolboy's speed can be gathered from the fact that although thousands of 44 yard dashes have been run in the past fifteen years the record has been broken but three times. In 1901 C. Long set the time at 50.1-5 seconds where it remained until Ted Meredith cut it down to 43.4-5 seconds in 1912 while attending Mercersburg academy. Three years later Sloan cut three-fifths of a second off Meredith's time, and if he continues to improve as Ted did after graduation from scholastic ranks, the California lad will eventually rank with the great quarter-milest of athletic history.

Entire Team Has Enlisted.
The Marylebone Cricket Club has 2,112 members, serving in the army and the navy, and lost in killed sixty-nine members to May 8. Considering the number of members who are over fifty years of age and many of them are doing duty in some shape or form—it can be said that practically every member of serviceable age is on active service. Lord's has been, and is now, more of a military camp than the headquarters of the national game; the M. C. C. has given generously to different war funds.

I'd like to be a pitcher
Amid the baseball fleet
With Duffy Lewis out in left
And Hooper out in right;
With Speaker out in centre field
And with no fence near.
I'd like to pitch upon that club
For sixty cents a year.

HEAVY DEMAND FOR TICKETS TO TOURNEY

Boxers Ease Up in Their Training; Gov. Whitman Does Not Object to Decision

Judging from rush for tickets every seat in the Willows building will be occupied Tuesday night when the Army vs. Navy championship bouts will be staged under the auspices of the Western Scots. Almost every ringside seat has been disposed of, while the general admission seats are also being grabbed up. It is anticipated that the building where the bouts will be staged, like a setting sun, will be empty in a few hours. The promoters expect that every available inch of space will be occupied.

Today all the boxers who are billed to participate in the tournament eased up training, only doing a little shipping and boxing a few rounds. Yesterday was the last day of strenuous work in preparation for the events. Pts. McHugh, better known as Cyclone Scott, and Russ Leighton, principals in the headliner, went through a hard day's work. Scott boxed a number of rounds with Joe Bayley, and skipped for half an hour. Leighton worked out with some Esquimaux deckyard policemen, skipped and punched the bag.

To date no referee has been selected, but it is probable that Cpl. Jimmy Hewitt or Lieut. Baird will be the selection of the promoters for the third man in the ring. The following is the complete programme:

- Headliner.
12 rounds—Cyclone Scott, Western Scots, vs. Russ Leighton, navy.
135 Pounds.
- 4 rounds—Pts. Augustine, Western Scots, vs. Seaman Hollingum, navy.
135 Pounds.
- 6 rounds—Seaman Milne, navy, vs. opponent yet to be selected.
135 Pounds.
- 6 rounds—Pts. Boyce, Western Scots, vs. Pte. Dunn, Western Scots.
- 6 rounds—Fred Seedhouse, navy, vs. Pte. Parsons, Western Scots.

May Permit Decision.
New York, Oct. 30.—If the New York state boxing commission desires to permit referees' decisions in pugilistic contests, Gov. Whitman will not object, he has announced. Fred A. Wenck, chairman of the commission, said recently that the commission would not pass finally on the question of decisions, for which there is much agitation, until two more members of the commission had been appointed by the governor and his views on decisions obtained. The governor said he would make the additional appointments within a few days.

GRIDIRON STAR KILLED.

Baltimore, Md., Oct. 30.—John Prentiss Poe, Jr., soldier-adventurer, clubman and once famous football player of Princeton, popularly known as "Johnny" Poe, was killed on September 22 while fighting as a private along the northern boundary of France.

In the drive which started on that date, the Black Watch regiment, of which he was a member, practically was annihilated.

For men -

- who are used to a close shave

— who count it a necessity, and for it daily sacrifice much precious time—the Gillette Safety Razor is a friend indeed.

Its strokes are so free and velvet-smooth that at first you can scarcely realize how clean a job it is making. With it you can finish shaving while you would be getting an ordinary razor stopped, or waiting for the call of "Next!"

A turn of the handle adjusts the Gillette for the lightest shave on a tender skin or the closest work on a heavy beard. It is always adaptable to the moment's need, and always ready—no stropping or honing. Wherever there is soap and water, it will shave you with safety, comfort and despatch. Don't go on wasting time and missing comfort—get a

VICTORIA RUGBY UNION WILL MEET MONDAY

A meeting of the Victoria Rugby Union will be held at the office of E. E. Billingshurst, in the Canadian Bank of Commerce building on Monday at 5.30 p.m. to make preparations for the coming season. It is probable that the intermediate league will be open for entries after Monday night's meeting. Acting Secretary Bill announces that a team will be selected to represent the Union against the Willows Camp on Saturday next, as the opening fixture of the rugby season.

KING'S HORSE WON.

London, Oct. 30.—King George's Friar Marcus won the Queensbury handicap at Newmarket yesterday. The horse and its rider were given an ovation.

MAY SUCCEED FATHER.

New York, Oct. 30.—Harry Mortimer may succeed his father, the late James Mortimer, as superintendent of the annual show of the Ladies' Kennel Association of America.

WILL SELL HENLEY.

Los Angeles, Cal., Oct. 30.—Clarence (Cack) Henley, veteran pitcher of the Vernon Pacific Coast league team, will not be in the 1916 lineup, Ed. Maier, owner, announced to-day. He said Henley will be sold or traded.

FLOORED CHAMP TWICE.

Memphis, Oct. 30.—Johnny Williams, of Baltimore, bantamweight champion, and Pat Moore, of Memphis, fought a fast eight-round no-decision bout here last night. Williams was floored twice, but each time regained his feet quickly.

FOUGHT TO DRAW.

Fort Wayne, Ind., Oct. 29.—Ad Wolgast, former lightweight champion, and Hal Stewart, of Fort Wayne, fought ten rounds here yesterday. A draw resulted in the opinion of newspaper men.

PELKY BADLY BEATEN.

Oshkosh, Wis., Oct. 30.—Fred Fulton was accorded a newspaper decision over Arthur Pelky in the fifth round of the scheduled ten-round bout here

MEMBERS OF LIVESTOCK UNION IN CONVENTION

—Photo by Shaw Bros.

On Thursday evening the conferences of the Western Canada Livestock Union were brought to a close with a banquet at the Empress hotel. Many important resolutions were passed, and questions discussed during the two days the members sat in session here. The photograph shows the party on the steps of the Empress hotel.

TALKED TO ROTARY CLUB ON OPTIMISM

W. T. Williams Gave Entertaining Address at Thursday's Luncheon

The following was contributed by W. T. Williams at the weekly luncheon of the Rotary club, held at the Empress hotel, October 28.

OPTIMISM.

"An optimist is a booster and a pessimist is a knocker. All residents of this city may be divided into three classes—optimists, pessimists, and neutrals—or the lukewarm or half-hearted.

"I think it is safe to say that all members of this club are optimists, and for my own part I certainly am an optimist, and will now proceed to tell you why I am optimistic regarding Victoria and British Columbia, and the outlook in general.

"I believe that the war will be over within a year, and will result in a complete victory for the allies. I believe that business is showing signs of improvement, and at the conclusion of the war that business in all lines will 'boom' for the following two or three years, as all natural resources that this province can provide will be in great demand throughout the world.

"I believe that when times get back to normal, real estate in the city of Victoria and vicinity will again be in demand, and that all of us who own property will be able to sell at fair prices.

"I believe that trains will be running on the C. N. E. between Patricia bay and Sooke river within six months, and that a ferry service will be in operation between Patricia bay and Mann in the same time.

"I believe that work on the Johnson street bridge will be well under way within six months, and that work on the C. N. E. terminals on the Saanich reserve will be started immediately.

"I believe that work on the drydock at Esquimalt will be started within two years, as the site has already been purchased by the government.

"I believe that the breakwater will be finished in due course, and that when completed, Victoria will have the most commodious and finest harbor on the Pacific coast. I believe that we will all live to see a bridge across Seymour Narrows, thus linking up the island with the mainland.

"I believe that the resources of Vancouver Island in the way of lumber, fish, kelp, coal and other natural products are practically unlimited.

"I believe that the lumber industry shows great signs of improvement, and that large orders are expected from Europe shortly, and also from the prairie provinces.

"I believe that Victoria has the finest climate in the world. Remember, I said, 'the world,' and I will defy anyone to dispute this statement.

"I believe that the parkland buildings are the finest in Canada, though not so large as those at Ottawa.

"I believe that the Empress is one of the finest and most comfortable tourist hotels on the continent, because everybody says so, and what everybody says must be true.

"I believe that the waters of the George are the finest for natural beauty, bathing, boating and aquatic sports of any on the continent.

"I believe that the motor roads and driveways of Victoria and vicinity are unequalled for the quality of the roads and the beauty of scenery anywhere on the continent.

"I believe that if the citizens of Victoria would co-operate with the Development association in properly advertising the city, it is possible to increase the population to 100,000 in three years.

"I believe it is a privilege to be able to live in Victoria, as it is one of the most delightful places in the world in which to reside.

"I believe that Victoria and the North Pacific coast generally is the easiest place in the world in which to make a living.

"I believe that there are between twenty and thirty millionaires in Victoria, and that the bulk of the population is well to do.

"I believe that Victoria has a population of between 50,000 and 60,000, and that this could be doubled in three years providing that the citizens would subscribe sufficient funds to advertise the city properly.

"I believe that this city will some

day become the Los Angeles of Canada, owing to its climate, geographical position and natural attractions generally.

"I believe that when Victoria reaches 100,000 population, real estate in the business centre will be worth \$4,500 per front foot.

"In conclusion I believe that the so-called 'boom' that this city has just passed through was not a boom at all, but a steady rise in values which lasted for seven years, as the move started in 1906, and reached its height in 1913. The population in 1906 was between 20,000 and 23,000, and increased steadily during the seven years until in 1913 the population reached 60,000.

"Prices of real estate also advanced steadily, though they did not more than keep pace with the population. To prove this I will quote business property on Government street between Fort street and Yates street. In 1906 property in this area was worth about \$1,500 per front foot. In 1913 it was sold as high as \$2,500 and \$3,000. This at the outside was a 100% rise in value, while the population had increased 200%, or from 20,000 to 60,000. Therefore I contend that the rise in value of this property in particular was quite normal, and that there was no evidence of a 'boom.' I am quite ready to admit that some property was sold at far more than it was worth, but this was caused by speculators putting subdivisions on the market, and inducing the inexperienced to buy in the hope of selling out at a big advance.

"Again take first class residential property in the best location in the city. In 1906, lots on St. Charles street, Rockland avenue, Craterdarroch, and similar locations, which are the best residential lots in the city, and were therefore the highest in price, were for sale at from \$2,000 to \$2,500 per lot of 120 ft. In 1913 these lots sold for \$4,000 and in some cases \$5,000 per lot. This was again a doubling in value, whereas the population had increased three times. This goes to show in my opinion that the so-called 'boom' was really a steady advance, spread over seven years, and therefore was quite legitimate and in accord with the increase of population.

"The cause of the quiet times which came on us in 1913, causing a decline in real estate activity, was in my opinion traceable directly to the great European war which is now raging, though at that time actual war had not been declared. The actual slowing down of business was caused by the action of the banks and financial institutions calling in all loans, overdrafts, and outstanding accounts generally in anticipation of this great war, which it is only reasonable to suppose they knew was coming closer every day, and was bound to break out sooner or later, as the money markets are particularly sensitive as regards wars and rumors of wars. It is only reasonable to suppose that they had information on the subject at least a year in advance of the general public in this part of the world.

"In my opinion, therefore, business property and good residential property is not set too high even at the prices which prevailed in 1913, and while there is very little activity today in real estate, I contend that when times again become normal, prices again will reach the 1912 and 1913 mark.

"Just a word further about the movement inaugurated by our president, Mr. Higgins, to assist the Development association by getting 1,000 new members to join the association at \$1 per month each, thereby adding to the funds of the association \$1,000 per month.

"The Development association is supported entirely at present by a yearly grant from the city of \$7,000 per year, which pays all overhead charges and leaves about \$2,000 for actual advertising. This looks on the face of it as poor business, as it is costing the association \$7,000 per year in overhead charges to spend \$2,000; but if the Rotary club can augment the funds of association by \$12,000 per year, this \$12,000 will all be spent in actual advertising, as the overhead charges still remain the same, and a tremendous lot of publicity work can be done for this \$12,000 per year at no additional cost to the association.

"This, gentlemen, looks to me like good business, and I wish to endorse this idea of our president, Mr. Higgins, as a scheme well worthy of the best efforts of the Rotary club of this city.

"Personally I found no difficulty in getting ten subscribers for the Development association at \$1 per month

each, in the first half hour after starting out on Tuesday morning, and I now stand ready to assist any member of this club who may have found a difficulty in getting his list of ten members by a personal canvass with the said member or members.

Let us all therefore push this movement along as we may be sure that if we do not advertise our own city, no one else is going to do it for us.

PRESENT POSITION OF BRIDGE NEGOTIATIONS

Mayor Points Out That Debentures Would Have Little Chance of Sale Locally

Public attention has been directed to the Johnson street bridge apparently by the stated intention of the C.N.P.R. to proceed with improvements on the old reserve.

Knowing that debentures cannot be sold in the usual channels, many suggestions are being made as to the method of raising the money. The difficulty in the way of following the advice to sell debenture bonds for the bridge across the counter at the city treasurer was presented to the mayor this morning.

The banks on the American side of the line have powers of investment in mortgages, and thus it is found that private citizens, who in Canada loan on mortgage, are displaced by the banks across the line. A municipal security here is not likely to stand much competition with a first mortgage on house property, now yielding 5 per cent, whereas in the United States the private individual, being cut out of one of the safest investments by the financial concerns, is willing to buy municipal securities at a fair rate of interest. If debentures were sold over the counter, the investor who can reap a rich harvest in British Columbia to-day when the average citizen is short of money, is only going to buy local securities as an act of patriotism.

So far as the progress on the Johnson street bridge negotiations is concerned, the government signed the agreement late in August, and the C.N.P.R. Pacific railway is only waiting till there is an assurance of a start being made on the bridge.

The company's attitude, it appears, is that if it signed the agreement and the work was delayed it might have to renew its present structure alone, without waiting for the other parties.

One of the aldermen, discussing the matter, expressed his surprise that the Equiquait council should pass a resolution at its meeting this week respecting that construction had been delayed, and urging upon the government the necessity of bringing parties together with a view to an early commencement on construction. His surprise was occasioned, he stated, because Esquimalt had declined to contribute when the scheme was under consideration in 1912.

So far all attempts to get any satisfaction from the department at Ottawa as to the change in the width of the swing span of the Rock Bay bridge is concerned, have been unavailing. This lack of communication adds naturally to the discontent of Victoria West and Esquimalt residents, who only have one vehicular crossing of the harbor at present.

TERMS WITH OAK BAY

Water Agreement to Be Signed; Contribution to Northeast Sewer.

Formal agreements for the rate of equality to be made by Oak Bay municipality to the city for water after January 1 and for the use of the city sewer were discussed at the north-streets committee yesterday afternoon at the request of the mayor.

He pointed out that the Oak Bay council desired to have formal confirmation of the terms reached by the joint committee in July, fixing the price at six cents per thousand gallons. Oak Bay also, in view of the failure of the Saanich council to sign the agreement for joint use of the north-east sewer, asked that the city should sign, irrespective of Saanich's action.

The committee agreed to the arrangement with the municipality with regard to water, to be based on a five-year term, subject to readjustment if the mains of the district have to be enlarged in consequence of Oak Bay's needs. The question of the sewer agree-

ment was left to the sewer committee, city solicitor and engineer for a report. No action was taken with a report on the cost of providing a surface drain to serve the section of Chambers street. It would cost, the engineer reported, \$4,000 to construct the drain from Bay street to Queen's avenue, and to extend it to the main sewer on King's road would require an additional \$2,500. The committee, decided to meet the request of the city school board and provide board walks on the streets leading up to Burnside school.

THREE OSAKA LINERS ARE CROSSING POND

Tacoma, Manila and Tosan Have Left Yokohama for Victoria; Extra Ship Needed

Three Japanese steamships flying the ensign of the Osaka Shosen Kaisha are now crossing the Pacific from Yokohama.

Word came over the cable yesterday that the steamship Tosan Maru, which is coming here on her second trip as an extra ship, sailed from Yokohama on Thursday.

On Thursday last the new liner Manila, in command of Capt. Kobayashi, sailed from Yokohama for Victoria.

The Tacoma Maru, Capt. Hamada, was scheduled to leave Yokohama on Sunday last, but so far no advices have been received by the local agents.

SAILOR-ARTIST WILL REJOIN BRITISH NAVY

Harry Cowper, of G. T. P. Steamer Prince George, Has Painted Many Sea Scenes

After having sailed on boats of the G. T. P. fleet since that company commenced operations on this coast and having covered approximately 250,000 miles, Harry Cowper, the talented sailor-artist of the steamer Prince George, has severed his connection with the ship in order to rejoin the Royal Navy.

Cowper is one of the finest painters of marine scenes who have sailed on this coast. His oil-paintings are exquisite and he has taken prizes in many art shows.

The first casualty to be suffered by the men who have left the Prince George for service at the front, was announced a few days ago. Pte. Alex. Donald was killed "somewhere in France" on October 12.

ANACORTES WILL HAVE ANOTHER BIG CANNERY

Anacortes, Wash., Oct. 29.—Incorporation papers will be filed during the coming week by the newly organized Salina Packing Company, of this city, with a capital stock of \$25,000, and work will be commenced at once on the company's new cannery.

CURIOSITY AROUSED IN NEW S. S. COMPANY

Pacific & Eastern Steamship Co., Incorporated in New York; Chinese Interested

New York, Oct. 29.—Interest and curiosity was aroused in shipping circles here by the incorporation at Albany, N. Y., of the Pacific & Eastern Steamship company.

The incorporation papers showed that the new company is to be capitalized at \$2,000,000, and that some of the shares are owned by prominent Chinese, one of them Kai Fu Shu, who is about to retire as Chinese minister at Washington.

Charles Blandy, a New York lawyer, one of the directors, said that he was not at liberty to discuss the purposes of the new company without consulting his clients. "We are, of course," he said, "only nominal incorporators. It is a big enterprise."

San Francisco, Oct. 29.—Arrived: Str. Queen from Seattle; str. J. B. Stetson from Astoria; str. Speedwell from Bandon; str. Hibbard from Portland; str. Col. E. L. Drake, for Seattle.

Port Angeles, Oct. 29.—Sailed: Str. William Olson from Tacoma; towing, Seattle, Oct. 29.—Arrived: Str. Admiral Evans, Southeastern, via Southwestern Alaska; str. Congress, San Diego, via San Francisco; str. Palouse, Southeastern Alaska, via Tacoma and Everett; str. Iwalani, Port Townsend, for quarantine; str. Wasp, Tacoma; str. Fulton, Tacoma; schrg. In Cases of Digestive Debility,

Benger's Food forms an appetising and easily digested cream. It is so soothing as to allay internal irritation, and so delicious as to gently incite into activity the weakened digestive functions and process of nutrition.

Begin Benger's food when digestion is deranged; always use it in temporary sickness, in infantile diarrhoea, and whenever internal disorder prevails in infant, invalid, or aged person.

BENGER'S Food

For INFANTS, INVALIDS and the AGED

is obtainable from all Stores, Grocers, etc. in sealed-tin price 6c and 5s.

Benger's Food is a little work of a study on the part of the medical profession, and the aged, will be found very useful in all cases.

BENGER'S FOOD, Ltd., Manchester, Eng.

Agents: The National Drug and Chemical Co. of Canada, Ltd., Montreal, Que., Toronto, Ont., Vancouver, B.C., Regina, Sask., Winnipeg, Man., St. John, N.S., Halifax, N.S., London, Ont., Victoria, B.C.

Extract from "BRITISH MEDICAL JOURNAL" March 23, 1907.

"A Most Valuable Food"

At a time when the preparation of artificial foodstuffs is receiving more attention than ever before, and when new forms of easily assimilable fat to take the place of cod-liver oil are being frequently brought to the notice of the medical profession, it is desirable that some of the older forms of administering natural fats should not be lost sight of. Among natural fats, butter easily takes first place for nutritive value, and when combined with a suitable soluble carbohydrate, a most valuable food is produced.

The BUTTER SCOTCH which Messrs. Callard & Bowers (Duke's Road, Buxton Road, W. C.) have prepared for fifty years is such an article which has the great advantage of being palatable, so palatable in fact, that children are more likely to need restraining from excess than any persuading to take it. This BUTTER SCOTCH is stated to contain 11 1/2 per cent. of fat and 7 1/2 per cent. of sugar, and the results of an analysis which we have made recently of specimens substantially confirm these figures. Further chemical examination of the butter extracted showed it to be genuine butter fat. This perfection can therefore be recommended, not only as a harmless sweetener, but also as a very useful addition to the diet in suitable cases.

In all the Principal candy stores in Victoria.

OFFERS PARK SITE ON BURNSIDE ROAD

City Council Has Land Submitted to It to Purchase; By-law Amendments

An offer has been made to the city council of two and a half acres of land for park purposes in Block Three, Burnside road, opposite Oliver street.

The communication, which will be before the aldermen on Monday evening, states that the owner asks \$20,000, to be taken in city debentures. The land has a frontage of 297 feet to Burnside road, and runs back 400 feet, with a right-of-way to Douglas street. The property has a number of good trees upon it, and house, somewhat damaged in a recent fire, which the letter points out could be easily re-roofed as a play-house for children, or for a similar purpose. The proximity to the Burnside school is emphasized in the communication, and the lack of park or playground accommodation in the northwest portion of the city. It may be explained that the city bought Stadacona park by an issue of debentures, and that the property owned by the trustees at Burnside school is one and two-thirds of an acre, the purchase price of which was slightly in excess of the amount quoted in the communication.

Several amendments to existing by-laws are posted for attention at the meeting, the scales to readjust the local department of the city. In order that Mr. Hannington may take over the duties of his office on his arrival next week. Another three by-laws propose to allow the city to purchase buildings, electric wiring, and sewer connections to be paid to the city treasury instead of the respective departments. The by-law regulating liquor licenses has to be amended to allow a qualification for bartenders to be insisted upon, as well as the issuance of the certificate.

JUDGMENT IS RESERVED

In Alleged Hold-up Case Magistrate Will Give Decision on Monday.

The trio accused of holding up Peter Lanchick in Oriental Alley and stealing \$12 from him—James Welsh, James Riley and Alexander Hardaker—appeared before the police magistrate this morning on remand, and the hearing of the charge against them was concluded.

Harry Brown, a bartender in the St. Francis bar, was called at the request of Hardaker, but his testimony was really that of a crown witness. He said the three men in the bar together on Wednesday night about half-past nine o'clock, and they went out together. Later on Riley and Welsh were in together.

The three men each went into the witness-box and told his story. It looks as if they had all spent the day "sponging" for drinks from customers in various bars in the lower part of the city, but their accounts of their movements did not tally and all of them deplored having been in the St. Francis together at any time during the day. Each confessed to several drinks but, except Welsh, maintained that he was not drunk while the others had had too much. Welsh had not had that indefinite quantity until some time that he was unable to fix, after which he knew nothing, he claimed.

Constable Ireland, who arrested Welsh and Lanchick for fighting on Johnson street at ten minutes after 11 o'clock on Wednesday night, when Lanchick was on top of Welsh, and naming him for having, as he then alleged, taken his watch, stated that both men had been drinking but were quite able to know what they were doing.

The magistrate reserved his judgment in the case until Monday in order to look over the evidence.

Paddy: "May I ask where you come from?" Englishman: "From Worcester, sir," proudly. Paddy: "Then that accounts for your saucer."

SUCCESSFUL CONCERT IN AID OF RED CROSS

Rex Theatre, Esquimalt, Was Packed to Its Limit Last Evening.

Again the Rex theatre, Esquimalt, proved quite inadequate for the would-be patrons of the Red Cross entertainment, another in the series of which was held last evening. A Wolfenden acted as announcer, and a varied programme of excellent character proved an advertisement which will assure a full house at future events of the kind.

The feature of the evening was the recital by Pte. George Little, late of the 13th Battalion, who has returned from the front, of some of his experiences. His narrative dealt mostly with the part which the Red Cross society is playing in the care of the wounded, men found on the battlefield, as although himself the victim of gas poisoning as well as German shrapnel. Pte. Little preferred to speak rather of the great agency of mercy than of his own sufferings. His appeal for the support of the funds of the organization which is doing such a noble work should prove yet another incentive to the stay-at-home citizens to push every endeavor which will assist in swelling the funds of the Red Cross society.

Some interesting films were run off during the course of the evening, and a five-piece orchestra contributed incidental music, which was much appreciated. The programme included vocal numbers by Mrs. Macdonald, Mrs. Charles Wilson, Mrs. Douglas McCann, Miss Mamie Fraser and Jettell, all of whom were heartily received. The Sisters Shearer gave a very interesting exhibition of the Highland fling, accompanied very capably on the bagpipes by Miss Agnes Wallace, Miss Phyllis DuBois, another dancer, gave a lively performance of the Irish jig, which won her much applause.

In her rendering of "Jack's the Boy" Mrs. McCann was supported by a midget chorus composed of the Misses Kirk, Fraser, Briggs, and Curran. The final patriotic tableau was a striking feature of the performance; the parts being taken as follows: Miss Agnes, "Britannia"; Mrs. Gerald Nunn, "Canada"; Miss Robertson, "New Zealand"; Miss Bridgman, "Australia"; Mrs. Sweeney, "England"; Miss Phyllis Barton and Miss Agnes Wallace, "Scotland"; Miss H. Du Bois, "Ireland"; Miss Mary Rattenbury, "Wales"; Miss N. Logan, "British Africa"; Mrs. Thomas Brown, "India"; Mrs. Douglas McCann, "Serbia"; Miss Lucy Little, "France"; Miss McDougall, "Russia"; Miss Peggy Pearce, "Italy"; Mrs. Gillan, "Japan"; Miss Pemberton, "Belgium."

Piper J. Wallace attracted many to the theatre by playing a number of selections before the performance commenced.

The following young ladies acted as ushers: Miss Gladys Peters, Miss S. Bains, Miss Vera Young, and Miss Winnie Gust.

COLLECTED \$1,004

Red and Blue Cross Flower Guild Achieves Wonderful Success as Result of Campaign.

The Red and Blue Cross Flower Guild has disbanded, owing to the unfavorable weather conditions, after collecting no less than \$1,004. This is a remarkable record, and everyone interested in the enterprise will join in congratulating the organizers on the splendid results achieved in so short a time through the sale of flowers. As the Guild started out on its mission with the idea of collecting a thousand dollars, they have even succeeded in surpassing their intentions, this by the loyal labors of those who adhered to their purpose day by day and week by week during the summer.

The thanks of the Guild are again extended to all those who so kindly and ably assisted, and especially to Mr. Parkington, the head gardener at the

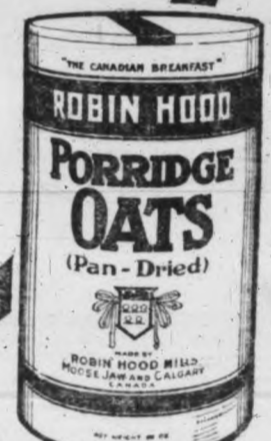

A deliciously wholesome food like "Robin Hood" Porridge Oats, is the children's best friend.

It satisfies their always-hungry appetites, and gives their busy brains and bodies just the nutriment required to build up strength and vigor.

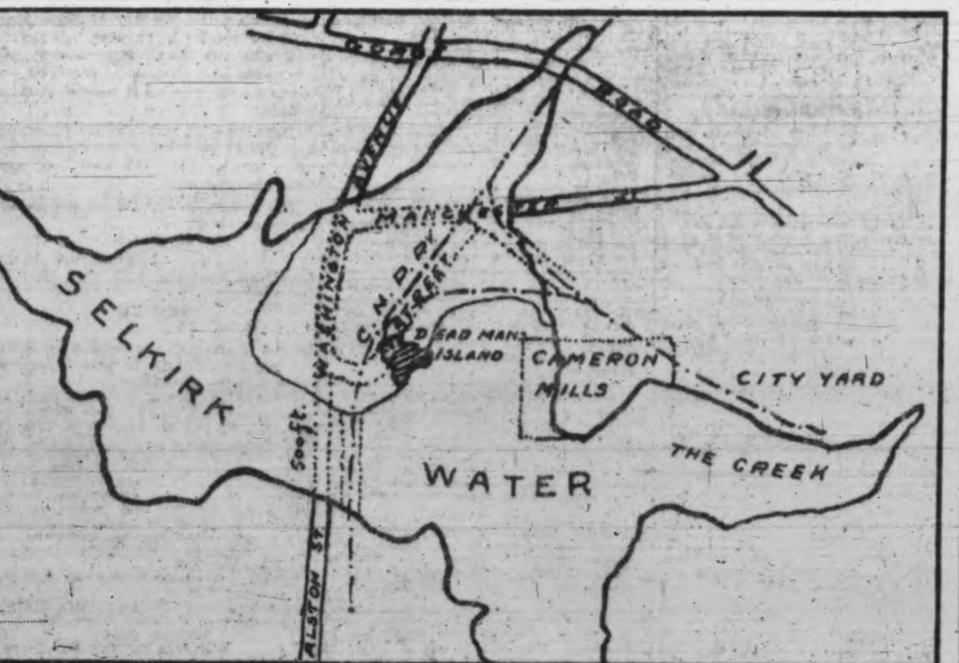

ROBIN HOOD PORRIDGE OATS

are certainly the smoothest, richest, most delicious porridge oats that ever tempted the appetite of a hungry child. And they take less time to cook.

Beautiful Silverware in exchange for Coupons packed in every "Robin Hood" tube.

SELKIRK WATER RECLAMATION SCHEME

The above sketch plan shows the proposed treatment of Selkirk water to provide for the crossing of the Canadian Northern Pacific railway, the extension of the Cameron mills, and the reclamation of land for industrial sites, as approved by the city aldermen yesterday afternoon. The line indicates the limit of the proposed filling in of land to the level of the railway grade. Full details of the scheme are published elsewhere.

HALLOWE'EN PRANKS WILL BE PREVENTED

Force of Special Constables Sworn in for Duty To-night and To-morrow

Halloween pranks of a mischievous nature are properly frowned upon by the authorities, and steps are being taken to prevent any such to-night or to-morrow night, and to protect the property of citizens.

Anyone found committing what amounts to malicious damage by the carrying away of gates, or the removal of property of anything of that sort, will be arrested and after being made to restore the property will be charged with the offence.

To supplement the work of the uniformed and plain-clothes force, which is too small to give a special patrol to the districts where boys and youths are most likely to be operating, a dozen special constables were sworn in this morning by Magistrate Jay. As these men will be in plain clothes and will be assigned beats which will cover the city pretty well, it will be well for those who have any designs upon gates or fences to abandon these.

The chief of police asks citizens to assist the force as far as they can by looking after their property, locking up anything that can be protected in that way, removing loose gates and the like. This will reduce the risk to a minimum. This care should extend over to-morrow night as well as to-night.

James peering out of the window at drizzle falling on the links—"What many old Brassey growl so, when Sopper dragged him home? Didn't know he minded a Scotch mist so much?"

Spith (sitting by the grill-room fire)—"Huh! 'Twasn't the Scotch mist it was the missed Scotch."

He (passionately)—"I would go to the ends of the earth for you!"

She (calmly)—"Good-bye!"

PRACTICED SURVEYING WITHOUT AUTHORITY

C. H. Topp Fined Fifty Dollars for Work Done Upon Sooke Lake Watershed

That Charles H. Topp, former city engineer, practised the profession of land surveying without having been authorized to do so by the corporation of land surveyors of the province of British Columbia was the decision of Magistrate Jay, delivered in the provincial police court this forenoon.

Mr. Topp's firm, C. H. Topp & Company, which consists of C. H. Topp and George White-Fraser, P. L. S., Cobble Hill, was awarded the contract for the survey of the property which the city is purchasing from the E. & N. Railway company for the purpose of protecting the watershed of Sooke lake, and this was carried out by it during the past two months.

It was claimed by the corporation of land surveyors that this constituted practising illegally under the act, and an information was laid at the instance of the board after investigation by David G. McNaughton, a private detective. The evidence was heard by the magistrate earlier in the week, H. A. Maclean, K. C., acting for the corporation and J. A. Aikman for the defence.

"In this case," said his worship this morning, "after considering the evidence and the law and authorities bearing upon it, I have come to the conclusion that the accused was carrying on the practice of the profession of surveying of lands in the province, and that he was not so authorized or registered under the B. C. Land Surveyors' Act. Therefore I have to impose the penalty established by the act, \$50."

STRANGE COINCIDENCE

Sister Superior of St. Ann's, Wins Painting of Priest by Selecting Ticket With Date of Month.

A strange coincidence has come to light in connection with the raffle of the painting of a Belgian priest which was held last night at the Empress Ballroom. The picture, as announced in another column, went to the Sister Superior of St. Ann's convent, holder of the winning ticket, No. 29.

The Sister Superior many months ago took a number of tickets with the idea of selling them to any who might express a wish for a chance on the painting. But time went on and her packet of tickets remained as large as ever, no requests having been received. Yesterday, October 23, the committee telephoned and asked the Sister Superior to return these unsold.

She did so, after selecting from the number one for herself. In choosing her ticket, however, she selected the one bearing the number 23, "Because," she said, "that was the date of the month, and I thought it would be as lucky as any other."

The winning ticket really proved to be No. 23, and the painting is going to a home where it will be eminently suited to its surroundings, and will at the same time be a reflection of the service which the good nuns are ever doing for the orphaned and homeless children in the world.

PARLAMENT BUILDINGS, AND THE ONE WHO PLACED THE TABLE AND CHAIRS EACH UNDER THE TREE; ALSO TO MR. JACKSON, MANAGER OF THE EMPRESS HOTEL, WHO SO WILLINGLY HELPED BY ALLOWING THE LADIES TO SELL FLOWERS TO THE GUESTS IN THE HOTEL. ABOVE ALL, GRATEFUL THANKS ARE DUE TO MRS. HUMPHREY, OF THE "POPPIERS," FOR SO UNFAILINGLY RECEIVING AND LOOKING AFTER ALL FLOWERS WHICH WERE DONATED EACH DAY BY MANY GENEROUS FRIENDS, TO WHOM THE GUILD ALSO EXTENDS ITS THANKS.

At Christmas the Guild will sell half the proceeds of which will go to help the wounded men at the front. A meeting, which all members are requested to attend, will be announced later.

WELLINGTON COAL

Our old reliable Wellington is the most popular all-round coal on the market. LUMP, \$7.00 per ton. NUT, \$6.00 per ton.

We would draw your attention to our COMOX COAL, a hard, real furnace coal. The burning of this fuel in the furnace will effect a material saving: \$7.00 per ton.

STEFANSSON EXPECTS TO RETURN NEXT YEAR

Canadian Explorer Has Supplies on Hand Now for Two Years

Toronto, Oct. 29.—The following dispatch has been received by the Globe from Vilhjalmar Stefansson, the Canadian explorer in the Arctic, reporting his departure for further exploration: "Cape Kettle, Banks Island, Sept. 3. (Via Circle, Alaska, Oct. 26). "The North Star sailed on August 24 under command of Wilkins, of Adelaide, Australia, the only Britisher besides myself now in the northern region of the expedition. The destination of the North Star is Prince Albert Land and Melville Island, via Capes Alfred and Prottesley. Four men are under the command of Wilkins. "The Polar Bear sails to-day under my command with ten white men and some Eskimos bound north. The expedition now has lay dogs as against twenty odd last year, and its equipment and prospects are better than at any time since the Karikuk drifted off. With luck no worse than in the previous season we should finish the exploration of the ice west to the 14th meridian and to 82 north latitude. Expect to return south next year, but have supplies to last two years, and even after that no worry need be felt on the score of starvation, though other accidents are naturally possible. "The unexplored tract comprises an area about the size of Greenland and something the same shape with the point around the North Pole. It is greater in extent than Manitoba, Saskatchewan and Alberta combined.

ALLIES LANDING ON BULGARIAN COAST?

Berlin Dispatch Say Large Number of Transports Are Off Makri

Lausanne, Oct. 29.—Berlin dispatches to-day reported that the allies had attempted to land in force on the coast of Bulgaria between Makri and Maronia, west of Dedagatch. "A large number of French and British transports are off Makri, it was stated. "Still intact. "Nish, Oct. 29.—The Serbian forces still are in the first line of mountain-defences and in position to hold back the Teutonic invaders for another fortnight. "A statement to this effect, issued by the Serbian general staff to-day, added: "The morale and spirit of our troops is excellent and it is not yet too late for outside help. Even the slightest aid from the allies will help immensely, however."

TRENCHES CAPTURED IN THE CHAMPAGNE

French Made Gain at 'La Courtine' on Front of 150 Metres

Paris, Oct. 29.—Several more trenches in the sector of 'La Courtine' in the Champagne, were captured by the French yesterday, when they advanced on a front of about 150 metres, according to the official communication issued last night. Fighting has been going on around these works since the French captured the major portion of the salient a fortnight ago. The Germans lost heavily in yesterday's operations. "Bombardment of a part of the front in Lorraine, during which a military train at the station of Buttecourt was hit by French shells, also was reported. "The communication follows: "In the course of the continuous combats that are going on in the Champagne for the possession of those portions of 'La Courtine' works, which are still occupied by the Germans, we realized to-day perceptible progress by taking from the enemy, on a front of about 150 metres, several trenches, which the Germans defended up to the last moment with the greatest tenacity. We have taken 200 wounded prisoners, including a company commander and two officers, the Germans having lost besides nearly 400 men killed or wounded. "On the Lorraine front a German bombardment of an especially violent character is reported to have taken place in the forest of Parroy and La Vezouze River. Our artillery replied by shelling effectively the batteries and works of the enemy. Our artillery hit a military train in the station of Buttecourt. "Belgian Statement. "The following Belgian communication was issued last night: "Some short bombardments occurred on the front of Rykelbosch, Perys, Maison de Bourg, St. Jacques Cappelle, and the Ferryman's House."

GRANBY REFLECTED STEEL REACHED HIGH LEVEL OF TRADING

IMPROVED FEELING LEVEL OF TRADING

Bids in Local List Had More Snap Than Previously

Railroad Stocks Absorbed by Buyers in Best of Style

The recent substantial betterment in the copper metal status is being reflected in more vital fashion in the shares of all copper concerns just now. Granby's gain this morning can be attributed to such improved feeling. The long distance outlook for the copper has appeared favorable enough to create excellent investment dealings in Granby especially, and last prices today were strong. The bid otherwise was not outwardly altered, but there was more snap to bids than for the last three sessions. Standard Lead is being traded at \$1.50 per share, with very few sales under that mark.

(By F. W. Stevenson & Co.)

New York, Oct. 29.—The improvement continued throughout the day's session, with moderate reactions at the last. The industrial was more active than in the morning, but in the recent past, the rails were absorbed on an active scale at advancing prices and the relative scarcity of offerings in the advance resulted in being secured easily. Steel was favored by a continuance of reports of large orders and a new high level for it. It is said that many contracts are being refused as deliveries on new orders cannot be made promptly and the prices of finished products are being advanced steadily.

TURKS ADMIT TRENCHES WERE BROKEN DOWN

Constantinople, Oct. 29.—It was claimed in an official statement issued by the war office last night that a terrific bombardment by the allies on the Gallipoli Peninsula had caused in certain trenches on the Turkish left wing and that a heavy bombardment by the allies at other points, assisted by two monitors, accomplished no results.

BEARS HAD MORE THEIR OWN WAY IN WHEAT PIT

(By F. W. Stevenson & Co.)

Chicago, Oct. 29.—If the action of wheat yesterday was disappointing to the "large receipt" bears, to-day was more in keeping with their desires. Prices advanced down gradually on withdrawal of buying. During the recent bear campaign Liverpool showed a steady advancing tendency and advice attributed this firmness to an urgent millers' demand. The foreign situation remains and is, in fact, even more bullish than before. The poor grade of wheat which arrived here from Duluth also caused apprehension and makes shorts realize that it probably will be a hard matter to secure contract grade for December delivery. This places the December in a high position.

Wheat	Open	High	Low	Close

TO-DAY'S TRADING ON THE WINNIPEG MARKET

Winnipeg, Oct. 29.—Wheat closed at 2 1/2 cents lower than yesterday, but buyers closed the lower and unchanged, and fixed close to lower to higher. A reaction occurred in prices. The high mark in October being now out of the way, the sentiment turned more bearish. The demand for Canadian wheat and oats, however, holds strong, and Liverpool being firm, prices are supported. The demand for all grades of cash wheat was good, a premium over November of 1/2 cent being paid on No. 1 Northern. Oats and hay were also in good demand, a premium of 2c over November being paid on No. 2 C. W. Export. House reported an active inquiry for all grades of wheat for export and new sales were contracted for the month of 50,000 bushels of wheat in the early part of the day. Practically all countries in Europe that are open to shipping there is an urgent demand for oats of low grades. "The total receipts yesterday were 2,150 cars, and of that number 1,450 were contract grades. Oats are coming along in volume, 300 cars being inspected yesterday as against 74 a year ago. Deliveries through the clearing house to-day were 1,282,000 bushels of wheat, 30,000 bushels of oats, 6,000 bushels of flax, and 6,000 bushels of barley.

MONTREAL STOCKS

(By F. A. Borden & Co.)

Montreal, Oct. 29.—The local market compares favorably with New York these days as regards activity and buoyancy. The Steel issues held the centre of the stage in to-day's short session. Nova Scotia Steel showing a gain of three dollars at one time on active trading. Dominion Iron was slower, closing fractionally higher, and Steel of Canada put on one point. Canada Car Foundry was unchanged at 37. The weakness in this stock is hard to explain, as the condition of the company is as good as ever. Steel is remarkably good. This stock probably will sell considerably higher. Dominion Bridge was not quite so spectacular, opening up two points, but selling off on realizing sales. The power issues did practically nothing today.

ALL ACTIONS MUST BE IN BRITISH COLUMBIA

Regina, Oct. 29.—All actions relating to the closing up of the affairs of the Dominion Trust company must be brought in the British Columbia courts, according to a decision of the judges of the Supreme court on this date this morning.

The decision was rendered on an appeal from a decision of Mr. Justice Brown in the test case of Mowat vs. the Dominion Trust. The estate of the late Alexander Mowat, totalling \$150,000, was administered by the Dominion Trust company, and G. H. Blair, acting for the widow, asked the supreme court for an order for an accounting by the liquidator of the Trust company. He argued that to require an action to be taken in the British Columbia courts would entail great expense on his client and that to require Saskatchewan people to go to British Columbia for justice in the matter of the defunct company, would be both an injustice and a great unnecessary expense. He admitted, however, the necessity for obtaining the consent of the courts of British Columbia.

REPORTED FRENCH HAVE TAKEN STRUMNITZA

London, Oct. 29.—A dispatch to the Exchange Telegraph company from Athens says: "It is learned from a good source that the French, after a three days' fight, have occupied Strumnitza and advanced 40 kilometres (about 25 miles) into Bulgarian territory. The Bulgarians lost heavily."

Sofia, Oct. 27.—(Delayed).—The damage done by the bombardment of Aegean Sea towns and some villages by the allied fleet recently was greater than it first reported. One fourth of the entire city of Dedagatch was razed by the shells of the warships.

GERMANY CAN NOT SEPARATE THE ALLIES

London, Oct. 29.—Announcement was made yesterday that a note had been addressed to the Japanese government on October 19, inviting it to give adherence to the declaration of Great Britain, France and Russia, signed on September 5 of last year, that none of these nations would conclude a separate peace. On the same day that this request was made, Count Inohye, Japanese ambassador to Great Britain, replied that he had been authorized by his government to give "its full and complete adherence to the terms of this declaration."

Italy also is a party to this agreement, having given adherence to the treaty at the time she entered the war last May.

ATTEMPTING TO "TAME AND BRIDLE BELGIUM"

Hamburger Paper Seems to Think It Can Be Done by Murdering British Women

London, Oct. 29.—The Hamburger Nachrichten says, in an article under the heading "Caveat Cant," that "the recent trial of the conspirators proves that the German officials whose duty it is to tame and bridle Belgium will not allow any Englishwoman or a subject of any other hostile nation to take shelter under the cover of charity or the costume of a nurse in order to assist our warriors behind the lines of our warriors."

"We have forgotten sentimentalism," continues the Nachrichten.

The paper says that Miss Cavell has become the Jeanne d'Arc of Brussels and a British national saint, but "she did not fight with the banner of the church in her left hand and a sword in the other."

Another outbreak. Amsterdam, Oct. 29.—The Vossische Zeitung yesterday urged the German government to request Brand Whitlock's recall as United States minister to Belgium, using the Cavell case as a reason.

The paper stated that Mr. Whitlock is minister at Havre instead of Brussels, and that if the United States desires a representative at Brussels, it should select one agreeable to Germany.

STRUGGLE CONTINUES ON ITALIAN FRONT

London, Oct. 30.—Along the western, eastern, and the Italian fronts severe fighting is reported without decisive results. An important struggle is in progress on the Austro-Italian line in the Alps. The Italian attacks were repulsed after a sanguinary struggle.

The cabinet changes in France are finding an echo in the discussion as to the advisability of creating a British war council, to consist of the prime minister, the war secretary and the first lord of the admiralty, to have supreme direction of the war.

It is reported unofficially that King George, who was injured on Thursday by a fall from his horse, passed a good day yesterday.

TRIED TO ESCAPE; SHOT BY DETECTIVE

Vancouver, Oct. 29.—Two Japanese escaped from the police station early this morning complaining that they had been held up and robbed and badly mauled by a single hold-up man, whom they described accurately. The Japanese were suffering from such serious injuries that they were hurried to the hospital, while half-a-dozen detectives searched for the robber. Detective Inish located the thief comfortably eating a meal in a restaurant. The man made a break for liberty and the officer promptly shot him. The first bullet passed through the man's lungs and when he reached the hospital he was in bad shape. The robber is about 25 years of age and told the hospital attendants that his name was Fortune.

FINED \$1,000 EACH IN SAN FRANCISCO

San Francisco, Oct. 29.—Dr. Thomas Addeis and Ralph K. Blair, both of San Francisco, convicted of violating the neutrality of the United States by conspiring to hire and retain men in this country for the British army, in the United States district court, to-day were fined \$1,000 each. No prison sentence was imposed.

MORE GOLD SENT TO STATES FROM CANADA

New York, Oct. 29.—Two hundred cases, containing the equivalent of \$5,000,000, in British sovereigns, were received at the assay office to-day from Ottawa for the account of J. P. Morgan & Company. Late yesterday more than 100 cases containing \$2,750,000 were delivered at the assay office by the Guaranty Trust Company.

AGAIN TO-MORROW.

Paris, Oct. 29.—Reports from Bucharest say that the demonstration there last Sunday in favor of the entente, powers, which resulted in collisions between the police and the manifestants, is to be followed by a similar affair to-morrow. A Bucharest dispatch says that to-morrow's demonstration which has been arranged by the Nationalists "will be the last constitutional effort to induce the government to take part in the war."

BARON WELBY DEAD.

London, Oct. 29.—Baron Welby (Reginald Earle Welby), who was prominent for a long time in financial circles, died yesterday at Malwood at the age of 83.

Reginald Earle Welby, the first Baron Welby, was elevated to the peerage in 1894.

WILL BE HANGED.

Sydney, N. S., Oct. 29.—"Could not the job be done at once?" asked Felix Karlichek, an Austrian, on being sentenced yesterday to be hanged on Jan. 19 for the murder of his wife, a German woman. The crime followed a domestic quarrel. The prisoner picked up a rifle and shot his wife dead.

GERMANY CAN NOT SEPARATE THE ALLIES

London, Oct. 29.—Announcement was made yesterday that a note had been addressed to the Japanese government on October 19, inviting it to give adherence to the declaration of Great Britain, France and Russia, signed on September 5 of last year, that none of these nations would conclude a separate peace. On the same day that this request was made, Count Inohye, Japanese ambassador to Great Britain, replied that he had been authorized by his government to give "its full and complete adherence to the terms of this declaration."

Italy also is a party to this agreement, having given adherence to the treaty at the time she entered the war last May.

ATTEMPTING TO "TAME AND BRIDLE BELGIUM"

Hamburger Paper Seems to Think It Can Be Done by Murdering British Women

London, Oct. 29.—The Hamburger Nachrichten says, in an article under the heading "Caveat Cant," that "the recent trial of the conspirators proves that the German officials whose duty it is to tame and bridle Belgium will not allow any Englishwoman or a subject of any other hostile nation to take shelter under the cover of charity or the costume of a nurse in order to assist our warriors behind the lines of our warriors."

"We have forgotten sentimentalism," continues the Nachrichten.

The paper says that Miss Cavell has become the Jeanne d'Arc of Brussels and a British national saint, but "she did not fight with the banner of the church in her left hand and a sword in the other."

Another outbreak. Amsterdam, Oct. 29.—The Vossische Zeitung yesterday urged the German government to request Brand Whitlock's recall as United States minister to Belgium, using the Cavell case as a reason.

The paper stated that Mr. Whitlock is minister at Havre instead of Brussels, and that if the United States desires a representative at Brussels, it should select one agreeable to Germany.

STRUGGLE CONTINUES ON ITALIAN FRONT

London, Oct. 30.—Along the western, eastern, and the Italian fronts severe fighting is reported without decisive results. An important struggle is in progress on the Austro-Italian line in the Alps. The Italian attacks were repulsed after a sanguinary struggle.

The cabinet changes in France are finding an echo in the discussion as to the advisability of creating a British war council, to consist of the prime minister, the war secretary and the first lord of the admiralty, to have supreme direction of the war.

It is reported unofficially that King George, who was injured on Thursday by a fall from his horse, passed a good day yesterday.

TRIED TO ESCAPE; SHOT BY DETECTIVE

Vancouver, Oct. 29.—Two Japanese escaped from the police station early this morning complaining that they had been held up and robbed and badly mauled by a single hold-up man, whom they described accurately. The Japanese were suffering from such serious injuries that they were hurried to the hospital, while half-a-dozen detectives searched for the robber. Detective Inish located the thief comfortably eating a meal in a restaurant. The man made a break for liberty and the officer promptly shot him. The first bullet passed through the man's lungs and when he reached the hospital he was in bad shape. The robber is about 25 years of age and told the hospital attendants that his name was Fortune.

FINED \$1,000 EACH IN SAN FRANCISCO

San Francisco, Oct. 29.—Dr. Thomas Addeis and Ralph K. Blair, both of San Francisco, convicted of violating the neutrality of the United States by conspiring to hire and retain men in this country for the British army, in the United States district court, to-day were fined \$1,000 each. No prison sentence was imposed.

MORE GOLD SENT TO STATES FROM CANADA

New York, Oct. 29.—Two hundred cases, containing the equivalent of \$5,000,000, in British sovereigns, were received at the assay office to-day from Ottawa for the account of J. P. Morgan & Company. Late yesterday more than 100 cases containing \$2,750,000 were delivered at the assay office by the Guaranty Trust Company.

AGAIN TO-MORROW.

Paris, Oct. 29.—Reports from Bucharest say that the demonstration there last Sunday in favor of the entente, powers, which resulted in collisions between the police and the manifestants, is to be followed by a similar affair to-morrow. A Bucharest dispatch says that to-morrow's demonstration which has been arranged by the Nationalists "will be the last constitutional effort to induce the government to take part in the war."

BARON WELBY DEAD.

London, Oct. 29.—Baron Welby (Reginald Earle Welby), who was prominent for a long time in financial circles, died yesterday at Malwood at the age of 83.

Reginald Earle Welby, the first Baron Welby, was elevated to the peerage in 1894.

WILL BE HANGED.

Sydney, N. S., Oct. 29.—"Could not the job be done at once?" asked Felix Karlichek, an Austrian, on being sentenced yesterday to be hanged on Jan. 19 for the murder of his wife, a German woman. The crime followed a domestic quarrel. The prisoner picked up a rifle and shot his wife dead.

REVELSTOKE CAMP IS

ABANDONED IN WINTER

Prisoners Moved to a New Camp at Field; Consolation Prize for Revelstoke

After all the outlay upon the alien internment camp on Mount Revelstoke early this summer, the camp is being closed for the winter, and the two hundred aliens there are being moved to another camp which is being established at Field.

Whether the camp will be opened again in the spring seems to be a matter of doubt. Major R. Palmer, of the 89th Pioneers, is in Revelstoke this week superintending the removal of the guards and the prisoners, and he believes that it will be, but he does not give the people of that city any assurance to that effect. The board of trade has been taking up with him the matter of retaining the camp at Revelstoke, and someone has been quoted here as saying that R. F. Green, M. P. should be asked to take it up with the Ottawa government "as the effectiveness of Mr. Green's influence at Ottawa has already been demonstrated." Major Palmer says he made no such statement.

The weather on the mountain already is making it impossible for the aliens to perform much in the way of road work," says the Revelstoke Mail-Herald, "and Major Palmer expects permanent snow at the camp site in the course of a short time. A camp on the mountain during the winter Major Palmer considers quite impracticable, owing chiefly to the difficulty and cost of transportation, and to the impossibility of keeping the aliens employed."

Lieut. W. H. Wallace is camp commandant at Field, where he took the first 25 prisoners, and Lieut. Taylor, of the B. C. Horse, took several guards and 25 more prisoners there this week. The 149 left at the camp will be removed within ten days. At Banff another alien camp is established, where 200 prisoners from Brandon and 200 more from Mount Castles, seventeen miles west of Banff, are to be interned. Both these camps are as high up in the snow as that at Mount Revelstoke, but it is expected that the aliens held in both will be employed all through winter months cutting wood, clearing right-of-way, building bridges and crushing rock.

The Revelstoke people are being consoled for the loss of the camp by the promise that the supplies for the new camp are to be purchased in their city.

"SUPERFLUITIES" SALE

Proceeds of Event to Be Held in Near Future Will Go to Red Cross Funds.

On a date to be announced in due course a Red Cross Society and "Superfluties" sale will be held in the city. Although arrangements are not quite completed extraordinary interest is being displayed in the event, and numerous offers both of superfluties and of assistance have been made. Already stores have been placed at the disposal of the committee, strong rooms have been offered rent free, and the services of expert furniture removers given.

The offers of "superfluties" are varied, ranging from Persian rugs to Persian cats, and from a brand new pony cart to an obsolete ambulance wagon. One lady has decided that her hands are pretty enough without rings, and has offered these as well as some valuable pictures and various objects of "art and virtue."

The scheme has only recently been proposed, but everyone seems already to be considering not if they will give but what they will give. One has a valuable pearl scarf pin, another has a beautiful old English tallboys for which room could not be found in his home. These are superfluties, and will no doubt fetch a high price. But everyone has not valuable things like this in the way of superfluties, and such may offer smaller things which, while less valuable in their aggregate, will return a large sum of money to the Red Cross society. On the day that the idea was suggested a lady wrote to the Red Cross society saying that she possessed a very valuable piece of Brussels lace and wanted the society to raffie it and give the proceeds to the Red Cross fund. This will now be offered for sale.

The company promoter, who had served somewhere in France, was relating some of his alleged experiences. "The shell came sailing through the air. Bang! It burst. Death stared me in the face. I thought of all I had ever done." "You must have thought of a regular directory of shareholders," interrupted a listener.

TICKET NO. 29 WINS IN PICTURE RAFFLE

Drawing for "Belgian Monk" Held Last Night in Connection With Lecture

No. 29 is the winning ticket for the painting of a "Belgian Monk" presented several months ago by Mrs. Mary Ritter Hamilton, the artist, in aid of the orphan children of Belgium sufferers through the war. Everyone interested in the fate of the picture will be delighted that it goes to the Sister Superior of St. Ann's convent, holder of the ticket, than whom no more suitable recipient could possibly have been arranged had a committee of selection debated the matter for weeks. The drawing took place last evening in connection with a lecture and entertainment held at the Empress ballroom, the small daughter of W. S. Terry, the Belgian consul, picking out the winning number.

The public took considerable interest in the event, and there were many present to hear the lecture by Mme. Sanderson-Mogin on Belgian art. The subject was treated in a very sympathetic manner, the lecturer by apt description of paintings, sculpture, and architecture, bringing vividly before her hearers the beauties of the thing defined. Many cities of Flanders now laid waste or defiled by the Huns were visited, stereoscopic views assisting the more graphically to show the objects of art described.

In a brief preamble Mme. Sanderson told something of the history of Belgium and her cities. It was not, unfortunately, the first time that the little country had been the battlefield of the nations. But never before in her history had such acts of vandalism, such ruthless destruction of works of art in such places, be said that a nation could produce little or practically no art until its nationality was deeply established. Belgium had developed this, at first by the growth of its individual towns apart, then by the welding together of interests. The very situation of Flanders had made it a centre of industry and commerce.

These were the source of its art. Each country had produced its special line of art. Painting and sculpture belonged essentially to Italy and Flanders, but in such widely different respects. The former country art was the reflection of an aristocratic, in Flanders it was the expression of a purely commercial people who spent their wealth in the erection and decoration of beautiful Guild halls, whose artists made portraits of her famous merchants, or painted for a rich client a picture of his patron saint. Belgium's independence dated from 1830, and since then her arts had flourished undisturbed, with the result that she had stored within her boundaries treasures not only of a rich past under Austrian, Dutch, and Spanish rule in turn, but of the prosperous nineteenth century.

One of two views of Ostend, the seaside town with its examples of modern architecture, were the introduction of the interesting trip through Flanders which followed. Bruges, the next place visited, offered many beautiful glimpses of canal spanned by the graceful bridges which had given the city its name. A detractor had said as long ago as the twelfth century, when the sea had ceased to supply water sufficient to place the city on the great highway of commerce, that Bruges was dead. But Bruges had a soul. This was seen in the many examples of mellowed architecture, the ancient belfry, with its forty-eight bells, being one of the beautiful instances cited. It was in Bruges that Hans Memling, the famous Flemish artist, died. Among the immortal works which he had left was the panel of fourteen scenes illustrating the legend of St. Ursula and the 11,000 virgins of St. Cologne, and some of these scenes Mme. Sanderson had thrown on the screen. Another glimpse of Bruges was the Palais de Justice, some of the interior decorations of which were in the pure renaissance style and very ornate.

Ghent, the centre of a network of canals, dated from an early time in commercial importance, and was full of intensely interesting souvenirs. The brothers Van Eyck had there done much of their painting in oils, and had left many interesting examples of their work in portraiture and the painting of rich textures. Among the pictures shown was one of great historical interest showing a lady being introduced to her new home. This had been discovered by Major-General Hay, and had been purchased by the British government.

Few could think of Antwerp, the most prosperous and wealthy of cities until the Germans came, without sadness. Its fame dated from the early part of the twelfth century. It had been the home of Van Dyke, Teniers and Rubens, and there were to be found innumerable beautiful buildings, paintings and carvings. Some of the more famous works of Van Dyke were shown, including the group of children of Charles I. and Cornelia Van der Lye. The town hall at Antwerp was described at some length, this too being in pure renaissance style of architecture.

From Antwerp the lecturer took her audience to Louvain, once splendid with its universities and libraries, now a scene of ruin and destruction. Of Liege and Tournai she also described something, finally bringing her narrative to an end with some views of the ruins of Ypres. In the shattered churches and public buildings of which were the lost treasures of art and literature which could never be restored.

The slides were excellent, and of unusual interest, having been specially prepared for the occasion by Mrs. Huxtable, who also operated the lantern. After a vote of thanks to the lecturer the drawing for the ticket took

Join the Crowds That Will Show Here To-night

End of the Month Cleaning-Up Sale and Sale of Remnants

Satin and Moire Underskirts Marked at Clearing Out Prices

Pretty Underskirts in serviceable qualities of materials. Colors, grey, rose, mahogany, cerise, purple, brown, sky, sage and sand. Reg. values to \$3.25. Sale price is \$1.99

The Bargain Basement Offers Many Month End Bargains

Women's Warm Coats in smart styles, with belted backs. These are made of a heavy quality blanket cloth, in grey and black. Special, \$6.75 and \$8.75

To Lower Our Stock of Coats We Have Made Important Reductions

Reg. Values \$17.00 to \$22.50—Sale Price \$13.75

There are just 45 of these Smart Coats, and they are that new coat many of them have not yet been shown—but here they are being offered to you at this small price. The styles are all good, comprising the smartest features and novelty effects of the season. Not only do you have a selection of 15 various styles, but an even greater assortment of cloths and colors. In fact the general assortment is so good that we know we have a coat that will suit your particular fancy and requirements.

A Clean-Up Sale of Lingerie and Semi-Tailored Waists

And such a fine assortment of styles, too. Dainty waists of muslin and voile, embroidered in pretty designs or trimmed with dainty laces and insertions. You may choose from white, flesh and a few pretty striped effects. Sale price .90c

Odd Lines of Corsets—All Reliable Makes

Well-known brands, such as R. & G. Binner, Loreite, Thompson, and D. & A. are included in this lot. The lot consists of a few broken lines and were marked at prices from \$3.00 to \$7.50 pair. Sizes 19, 20, 22 and 24. Special, pair \$1.90

A Timely Sale of Comforters

Fine Cotton Filled Comforters of special quality, covered with lustrous silkline in pretty floral designs. These are well made and were excellent value at the prices. Regular price \$2.50. Special price \$2.10
Regular price \$3.50. Special \$3.15
Regular price \$4.50. Special \$4.17

DAUGHTERS OF PITY DO MUCH GOOD WORK

Annual Meeting of Order Held Yesterday Afternoon; Officers Elected

The annual meeting of the Daughters of Pity took place yesterday afternoon at the Y. W. C. A., the hon. president, Mrs. Hassell, and Miss Lovell, the president, being among those present. A very hearty welcome was given to the Very Rev. the Dean of Columbia.

The minutes of the last meeting were read and adopted. Correspondence read included a card of acknowledgement to the secretary of the Jubilee hospital, thanking the order for their donation of clothes to the children's ward. A letter from Miss MacKenzie, the lady superintendent at the hospital, also thanked the Daughters of Pity for the help they had given in providing refreshments at the graduation exercises held last week at the Alexandra ballroom.

The secretary's report for the year ended—discussed an increase of five members, and showed also that besides helping the children, were supplied with necessities and helping two needy cases, they had made a donation of \$100 towards Kathleen Dunsmuir's soup kitchen and a donation of five dozen bandages to the Red Cross. The treasurer's report showed receipts for the year amounting to \$1,231.17, with expenditures of \$782.17.

In a brief address Miss Lovell mentioned that a number of the members were training for nurses, and expressed the best wishes for all happiness to the three members who had recently been married. She also expressed the hope that all members would do their best to get new members during the coming year. In the past she had been greatly helped by the workers in the order, and to each and all she wished to speak her thanks.

The Dean of Columbia spoke a few words of advice and encouragement. He told the order that in their work in the children's ward at the hospital they were helping to make strong men and women for the future.

Very cordial votes of thanks to the dean, on motion of Miss Hassell, and to Miss Lovell, the retiring president, on motion of Miss Litterer, were passed, after which the election of officers took place. This resulted as follows:

President, Miss E. Litterer; vice-president, Miss Lenora; secretary, Miss Gunnison; treasurer, Miss Bannerman; executive committee, Mrs. M. R. Ross, Miss E. Taylor, and Miss Hiscok.

The meeting concluded with a discussion on the advisability of holding Young Meetings, and it was finally decided that the order should meet on the second and third Monday of each month, the first meeting to be on November 8 at the home of Miss Lovell and after that at the home of Mrs. Hassell.

WAIT ORDERS TO GO

Twenty-Five Men of No. 5 Company, R. C. G. A. Ready to Leave for England When Called.

The whole of No. 5 company, R. C. G. A., volunteered at once in response to the message received by Capt. A. Mulcahy through the headquarters military district No. 11, for a detachment of men to leave on overseas service. Only 25 N. C. O.'s in the company, however, were wanted and these were selected and are ready to leave the moment any further orders are received. The men would go to England to train on the heavy guns.

TOBACCO HABIT CURED

Dr. McTaggart's Remedy for this annoying habit will cure the desire for tobacco in every form. A purely vegetable remedy—safe to take—brings back the shattered nerves to their normal condition. Sold successfully for twenty years. Recommended and used by physicians. Write for free booklet. Correspondence confidential. Literature and medicine in plain wrappers.

DR. McTAGGART'S REMEDY
Established 20 Years
303B Stair Building, Toronto, Can.

VICTORIAN MAY GET CARNEGIE HERO MEDAL

J. Leo Primeau is Strongly Recommended for "Wonderful Rescue; Jumped From Train"

His many friends in Victoria will be pleased to learn to-day that J.-Leo Primeau, who for some time kept the best state butcher-store in this city, has been strongly recommended for the Carnegie hero medal for saving a young fellow from drowning.

The rescue occurred on Christmas Day, 1911. Primeau was traveling at the time in a C. P. R. beach-line train from Lindsay, Ont. The snow was thick on the ground, and winter sports were in full swing.

At a moment when the train was passing along the top of a very steep bank, Primeau saw, on a pond at the foot of the hill, a young fellow named E. Edgar Ware, who had been skating, in difficulties through the breaking of the ice. Unable to swim he was in great danger of being drowned through the great depth of the water, and the numbing effect of the intense cold which prevented him from keeping a grip on the edge of the ice.

Without a thought of his own danger the Victorian man jumped from the train while it was yet in motion, and throwing away his overcoat, plunged at full speed down the hill and into the icy water, succeeding after a struggle in bringing the drowning man to terra firma.

No public recognition was given to the act at the time, and Primeau himself, ever modest and unassuming, never spoke of it. But the brave act was never forgotten, and now it appears likely that one of the most envied decorations for personal bravery will be worthily granted.

Mr. Primeau left Victoria some time ago for the east. He resided for four years in Victoria, was a member of the Knights of Columbus, and an all-round good fellow with a host of friends, who will rejoice that his pluck is about to be rewarded. For some time he worked with Dixie Ross & Co. and later set up business for himself.

Carnegie Hero Medal. The Carnegie hero fund was first established by Andrew Carnegie in 1904 for the purpose of rewarding such persons as should perform deeds of heroism which would otherwise receive no appreciation, beyond possibly a paragraph in the newspapers. Mr. Carnegie endowed the fund with \$5,000,000, the expenditure of which was to be directed by a commission of his own naming. Since its inception the fund has rewarded 394 persons. Cash awards accompanied most of the medals. In establishing the fund it was its founder's desire to place in a somewhat better pecuniary position than before those following peaceful avocations who have been injured in heroic efforts to save human life, and in case of their deaths to provide for the widows and children as long as that should be necessary and advisable. The medal is counted among the highest awards for bravery in civilian life.

As a hospital nurse sat on a railway platform waiting for her train, a portly country dame waddled towards her. With a sigh of relief she sank down on the seat and disposed of her six parcels and umbrella. Then she started chatting. "Ah," she said, eyeing the nurse's uniform admiringly, "I don't know what we'd do without the likes of you!" "Oh, now, you're too kind!" protested the nurse with a smile. "I'm quite sure you do me things as worthy every day!" "Not me, miss," replied the old lady, mournfully. "I can kill a duck or a fowl or the best, that'll admit. But when it comes to 'uman beings my 'eart falls me!"

PANTAGES THEATRE

This evening is the last opportunity theatregoers will have of enjoying the highly interesting programme at Pantages. Next week Bothwell Browne, heads the new bill, and is a great artist in his own field. For those who are not intimately acquainted with Browne it seems difficult to reconcile the seemingly contradictory facts of the graceful "young woman" who trips the light fantastic toe, and is apparently the belle of all dancing femininity, who at last proves to be but a "mere man." In "The Green Venus" this female impersonator has a semi-classic which includes by way of good measure the services of a large chorus of beautiful girls.

Joe Whitehead contributes a lot of comedy, and Gertie Van Dyke offers a number of well-chosen songs. The Three Chums constitute a trio of clever young men who sing. Jonathan draws cartoons which will arouse the interest of the audience. There will be the usual effective motion pictures as the offering of the Pantagescope.

WATERFRONT RECRUIT

John Hanley, on Periodic Visit to Police Court, Announces His Enlistment.

John Hanley, "Scotty," a well known character along the waterfront, has joined the 88th Victoria Fusiliers for service abroad, according to the story which he told the police magistrate this morning.

Scotty was arrested last night by Constable Florence and made one of his frequent appearances in the police court to-day, on a charge of using obscene language on the public streets. When the constable noticed him on Yates street about half-past nine o'clock last evening he was in a condition which made it wise for him to get back to the Willows, and the constable warned him to take the next car. Hanley turned on him with a flood of vile language which was not checked by the presence of several women waiting for cars.

Hanley informed the court that he was out on a pass which was up at ten o'clock, and that he was waiting for a jitney to take him to the camp at the Willows when he was arrested. He claimed that the police had a grudge against him.

Taking him at his word as to his enlistment the court told him to get back to the camp as fast as he could and to stay there. This he promised to do.

New Wellington Coal
