CLASSE WIKI

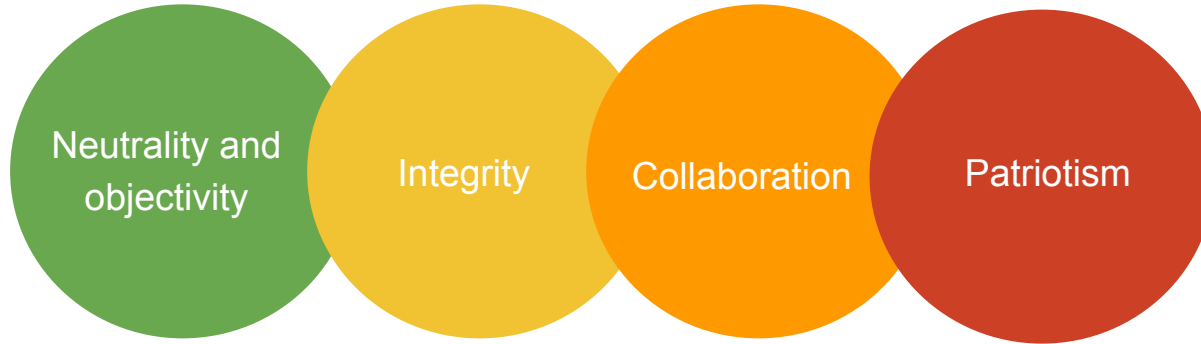

A Wiki Education Programme run with three groups of higher around students in Côte d'Ivoire helped learners develop **citizenship values** and **modern skills**.

By Modjou (CC-by-SA 4.0)

Citizenship values

Digital literacy and other employability skills

- Communication skills, critical thinking, leadership
- Computer skills, digital literacy
- Photography, introduction to free licenses
- Work experience through volunteering

Replication steps

Plan, find schools and funds

Draft the calendar, apply for Grants and contact universities for hosting the classes

1

2

Select and train trainers

Trainers need to be active editors and should familiarize themselves with the Syllabus

Start courses, use the Syllabus or adapt it

The Wiki Education Syllabus describes a 12-week learning programme with exercises

3

4

Monitor and evaluate programme

Adjust programme accordingly, evaluate participants progress and report programme results
