DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 774013

Kyoto Pref. Mechanical Industry Guidance Institute

Aug. 11, 1947

SUBJECT: Petition for Borrowing Machines in Sonobe Plant of Osaka Military Arsenal.

TO : Major Sheffield,
Commanding Officer of Kyoto M. G. T.

THROUGH: Kyoto Liaison Office.

Ours is an guidance organ for middle and small mechanical industrialists, aiming at the promotion of their technique and rationalization of their way of business. During the war middle and small mechanical plants in Kyoto Pref. were obliged to do work for the army, but after the termination of hostilities they were all released and have been able to follow their own civilian line of business.

The economical situation of this country is in a state of chaos and many makers themselves are at a loss what to manufacture. Now we are planning to help them out of the present difficulty and contribute to the civilian industry of our country, by making them manufacture Sewing-machines and Bicycles.

As the first step we are now investigating how to use small plants without changing their present equipments and make parts of sewing-machines and what kinds of machines and tools and operation are necessary. In compliance with the request of makers, we are making preparations to establish a Model Plant and begin to manufacture sewing-machine parts arranging for makers to buy necessary machines on the other hand.

As our institute was not first established as a guidance organ, but we only utilized the equipments necessary for training mechanics, our machines are not satisfactory, being different from what we need in kind and size and we should be very happy if we

Now we are planning to help them out of the present difficulty and contribute to the civilian industry of our country, by making them manufacture Sewing-machines and Bicycles.

As the first step we are now investigating how to use small plants without changing their present equipments and make parts of sewing-machines and what kinds of machines and tools and operation are necessary. In compliance with the request of makers, we are making preparations to establish a Model Plant and begin to manufacture sewing-machine parts arranging for makers to buy necessary machines on the other hand.

As our institute was not first established as a guidance organ, but we only utilized the equipments necessary for training mechanics, our machines are not satisfactory, being different from what we need in kind and size and we should be very happy if we could borrow the machines in Sonobe Plant of former Osaka Military Arsenal shown in the annexed sheets. We firmly believe that we can keep them in perfect condition taking great care of them.

Here we earnestly ask you to take this into your consideration and kindly permit us to remove and use them not only for middle and small makers but also for the industry of our country.

Subject; Petition for temporary use enventoried machines located in Sonobe Factory.

To ; Kyoto Military Government Team.

Thru ; Kyoto Liaison Office.

1. Companie's Condition
Our work is the making of spining machines and we are now endeavouring to make machines for companies who are in export trade. We also make spinning and electric meters.

2. Reason for Petition
Our company has already recived orders from Toyo Spinning Co. Ltd. and Nihon Spinning Co. Ltd. We are unable to fill the orders because of scarcity of materials. We have done our utmost in trying to procure the machines, but us they are very special ones we cannot do so.
We hope to borrow thes machines very much, and would like to ask you to symathize with us, in our distress.
(The specific discription is written on addifional page.)

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

FINANCE MINISTRY
OSAKA OFFICE

NO NP 286

28 May 47

SUBJECT: Request for the Temporary Use of Reparation Machinery.

TO : Kyoto Military Government Team.

THROUGH: Kyoto Liaison Office.

1. Enclosed is a petition submitted by Mr. Y. Suzuki, the President of Shimazu Seisakusho Ltd. who humbly requests you for the temporary use of the machinery. The machinery had been dispersed to Terada Works, Terada-mura, Kuze-gun, Kyoto Prefecture from the former Osaka Arsenal.

2. The said company desires to remove the machinery to the Sanjo Works of the same located at 18, Kuwahara-cho, Nishinokyo, Nakakyo-ku, Kyoto City for its operation if your favourable permission is given.

3. Though such indispensable machinery as the gear sets for coal mining are manufactured at present in the company, owing to the great shortage of the machinery required, the products are badly limitted to the half of the number scheduled by Osaka Commercial and Industrial Bureau.

4. As to this case the Osaka Commercial and Industrial Bureau also desires to obtain your special permission to enable the said company to remove and use the machinery.

5. On the reasons stated above we respectfully beg you to invite your consideration to grant the said company to use the machinery on the temporary basis.

Date 19, May 1947

To: Kyoto Military Government Team, Kyoto Pref.

Thru: Osaka Financial Bureau.

Subject: Application for Approval of Temporary Use of the Machines under custody for Reparation but not yet determined (decided) as Reparation Object.

Our Sanjo Works designated as the Important Plant for Coal Mine Machines is devoting ourselves in the production of the reducing gears, geared motors and winches for collieries.

To meet the urgent demand of collieries, we have to make at least 50 sets of geared motors and reducing gears per month, and so far as motors concern, the makers promised us to supply with the required motors, but we want badly more Gear Hobbers without which the required quantity of gear sets can not be produced.

We have, fortunately 2 suitable Gear-Hobbers which belong to ex-Osaka-Arsenal and stored at Terada Works under custody which should be removed to somewhere with other machines there as soon as the warehouse for them is decided, as the land and buildings were sold to Kyoto Prefecture Office under G.H.Q. permission, and we wish to have your kind permission to move these 2 machines to Sanjo Works and allow us to use them temporarily for the production of the gear sets for coal mines.

We beleive, should our wish be granted, we could produce the required quantity of gear sets and thereby could contribute to the increase of coal output which is the Golden Key to the restoration of Japanese industry as well as national welfare.

This is the very reason we submit this application, and your kind and prompt permission is greatly appreciated.

SUBJECT: Revision of Prefectural and Plant Code Number for Osaka Military Arsenal, Sonobe Branch

TO : Kyoto Kanzai Shisho, Osaka Finance Bureau

THRU : Kyoto Liaison Office

1. It is requested prefectural and plant code number, marked on all machines inventoried at Osaka Military Arsenal, Sonobe Branch, be amended by deleting 32(K)-32(S) and substituting 22-132(S).

2. Machine numbers will remain the same as originally assigned.

3. Upon completion of the work, please notify this office for our inspection.
