SECTION I
INVENTORY DATA

1.	Total items originally inventoried:		93
2.	Originally inventoried items not available for allocation:		
a.	EX items		
	(1) Originally inventoried EX	0	
	(2) Subsequently deleted from EX classification	0	
	(3) Total (line a(1) less line d(2))		0
b.	Subsequently released from custody		0
	(1) Woodworking*		0
	(2) Others*		0
c.	Destroyed SP*		0
d.	Subsequent losses from fire, theft, etc.*		0
e.	Released from dispersed location*		15
f.	Shipped to TID*		0
g.	Removed under PD*	0	
h.	Removed on allocation	0	
i.	RELEASED AS MELT-DOWN SCRAP BY CPC-109 dtd 50 (See Sec. VI C)	26	
3.	Total deduction from original inventory		41
4.	Item missed from original inventory-subsequently picked up		0
5.	Adjusted original inventory total (line 1 less line 3, plus line 4)		52
6.	Subsequent additions to inventory		
a.	Returned PD'd items*		0
b.	Added on evaluation		0
c.			
d.			
7.	Inventory total		52
8.	"U" items		0
9.	Total items available for allocation (line 7 less line 8)		52

SECTION II
MISCELLANEOUS

1. Non-inventoried items shipped to TID —
2. Items inventoried under other plant code number 0 (Not included in line 9, SEC I)
3. Authorized transformer capacity — KW
4. EX items subsequent to original inventory —

September 20 , 1948.

SUBJECT: Application for Permission to Removal of Machinery.

TO : Commanding Officer,
Hiroshima Military Government Team.

Sir,

We deem it necessary to remove the 22 machine tools of the third class, which are being dispersed to Ibara-mura, Takata-gun, Hiroshima Prefecture, to Yoshijima-Hagoromo-cho, Hiroshima City in order to maintain their condition.

Therefore, I hereby cordially entreat you to give permission to the above-stated removal.

Yours respectfully,

(Signature) Hansho Inomata

8 January 1951

SUBJECT: Report of Field Trip, Hiroshima City, Hiroshima Prefecture, 6 January 1951.

TO : Chief
Economics Section

PREPARED BY: W. F. Armstrong, Distribution & Industry Division.

1. REFERENCE:

O. D. 11.

2. PURPOSE:

Inspection of Nagoromo Seisakusho, (MUN, 11-12).

3. BACKGROUND:

Routine.

4. DISCUSSION:

There are 52 reparations machines in this dead storage.

5. CONCLUSION:

Maintenance of reparations machines were found to be satisfactory.

5. RECOMMENDATIONS:

None.

W. F. ARMSTRONG
Distribution & Industry Division

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

FIELD TRIP REPORT

R. P. LORD

10 August 1950

1. Purpose:

Inspection of Hagoromo Seisakusho, Code No. 11-12.

2. Background:

Surveillance in accordance with O.D. 11, 10 April 1950.

3. Discussion:

This storage area comprises one building housing seventy-eight (78) machines of which twenty-six (26) have been approved for scrapping by CPC. (copy of this authorization in our file). Plant has not started scrapping operations as yet but will do so as soon as they receive formal CPC notification.

4. Conclusion:

The addition of one fire extinguisher, as recommended by Mr. Laffin, CPC/SCAP, during his inspection in April has been accomplished.

Equipment inspected and found in good condition.

5. Recommendations:

None.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

FIELD TRIP REPORT

R.G. STRADLEY

24 March 1950

1. Purpose:

Inspection of reparation plants at Hagoromo Works Code Number 11- 12.

2. Background:

Surveillance in accordiance with O.D. 51.

3. Discussion:

93 items were orfginally inventoried for reparation and 15 items were released subsequent to inventory, date of release is 23 February 1948.

Code numbers of the 15 released items are:

11-12-79	11-12-84	11-12-89
11-12-80	11-12-85	11-12-90
11-12-81	11-12-86	11-12-91
11-12-82	11-12-87	11-12-92
11-12-82	11-12-88	11-12-93

The plant employs 3 guards.

4. Conclusion:

Needed maintenance work of the reparation machines has started.

5. Recommendation:

None.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

SUBJECT: Inspection of Reparations Plants in Hiroshima Prefecture
6-7-9-12-13-14 December 1949

The Saka Electric Power Plant of Nippon Hassoden was visited on 6 December. This plant was not inventoried as it is not included on list in SCAPIN 1489, dated 27 January 1947. Plant seems to be run in an orderly and efficient manner.

Toyo Kogyo Kabushiki, 11-28. Plant inspected on 6 December. 176 machines in authorized use were checked and found to be well maintained. Entire plant was in excellent condition. This company now manufacturing three-wheel motorcycle trucks. Production is 800 monthly with ready market. Some export orders for India were being filled at time of inspection. Company officials displayed cooperative attitude throughout inspection.

Japan Steel Works, 11-14. Inspected on 7-9 December. 360 machines listed on Inventory Data Sheet as being in authorized use after evaluation are only temporary use items. None of these items were located on first day of inspection "because person in charge of these items was absent." Authorized use machinery was inspected and found in poor condition. Rust appeared on several machines in addition to most machinery being poorly marked. Two machines 11-5(71)-17 and 11-14-421 were found in use although there was no authority on record for their temporary or authorized use. Explanation was given that machines were needed so therefor they were placed in use. Motor 11-14-2825 was attached to authorized use machine 11-14-146. The motor originally attached to this machine was said to be under repair. Motor finally located lying on dirt floor, no effort made to repair. Two unidentifiable motors attached to 11-14-1766U. Motors formerly attached to this machine were located lying in corner of warehouse. No explanation given.

On 9 December plant officials were "prepared" to show me the 360 items added on evaluation and listed on their Inventory Data Sheet by code numbers which I had in my possession for checking purposes. Machines shown me (approximately 50) evidentally had code numbers painted on after my first visit as paint was still wet on them. The "man in charge" was never seen and all items seen were located in warehouses previously visited on 7 December. Compressor marked 11-14-3044 found to be 11-14-3024. Motor attached to 11-14-1309U had code number 11-14-2739 marked on. Motor was covered on front with machine oil. After wiping off the oil, code number 11-14-1309 appeared very prominently. Checking serial number of machine showed code number to be 11-14-1309. This was another effort on their part to cover up for items which they did not locate or properly code. Dead storage equipment also found in poor condition. Warehouses where machinery is stored are in need of repairs. Overall impression of plant is bad. Custodian is guilty of negligence and cover up tactics.

Shinko Godo inspected on 12 December. Four (4) machines are in temporary use here. The machines were dispersed from Toyo Seikan. All are in good condition. Code numbers are: 11-15-108, 111, 113, 114.

Toyo Seikan 11-15, inspected on 12 December. Dead storage area contains 124 machines. 31 machines from this location are in temporary use at Toyo Kikai by permission of HMLT letter dtd 6 December 1948. These 31 machines inspected and no discripancies noted. All dead storage equipment is in excellent condition.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Asahi Sangyo 11-10, 11-5(73). Inspected on 12 December. 94 items were listed as being in authorized use. This figure should be 84 as ten machines listed as AU are in error. Machine numbers 11-5(73)-50, 11-5(73)-41 temporary use and 11-10-100, 11-10-113, 11-10-109, 11-10-116, 11-10-134, 11-10-137 authorized use were found in poor shape. 11-10-192U part of jib crane is lying outside building. Custodian says this cannot be used and should be scrapped. Motor marked "EX" found to be 11-10-138 authorized use machine. Marking of machinery is very poor as is maintenance. Custodian very sorry plant appeared in such condition.

Shinko Gomu 11-5(91) inspected on 13 December. Nine (9) machines are in authorized use by letter of HMGT. Five (5) machines are in temporary yse. Application was sent to HMGT in February 1948 asking authorized use of temporary use machinery. No answer was received. Machinery inspected and found in good condition.

Kurashiki Cotton Spinning Works 11-2. Dead storage area inspected on 13 December. 272 machines checked and found to be well stored and maintained in four warehouses.

X Hagoromo Wroks 11-12. Inspected on 14 December. Dead storage area containing 78 machines. All machinery checked and found in good condition.

Hiroshima Machine Tool Works 11-17
Mitsubishi Heavy Industries

Inspected on 14 December. All machinery in use and storage inspected and found in excellent condition. Stored machinery is well housed.

CHUGOKU LIAISON AND COORDINATION OFFICE

CHL No. 32 (TK)

23 March 1951

SUBJECT: Application for Release of Reparation Equipment for Melt-down Purpose

TO : Chief, Chugoku Civil Affairs Region
(attn: Chief, Economic Section)

In accordance with your Memorandum CCAR 386.3 dated 1 Dec. 1950, forwarded herewith is an application on subject above submitted by Chief of the Commerce and Industry Dept. of Hiroshima Pref. Gov't.

It is cordially requested your high consideration for approval be given to the subject application.

OSAMU ITAGAKI
Director
Chugoku Liaison & Coordination Office

Inclosure: as indicated above.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

HIROSHIMA PREFECTURAL OFFICE

Hiroshima City

Serial No: Hiro-Shin-Ki 18 16 March 1951

SUBJECT: Application for Release of Reparation Equipment for Melt-down Purpose

TO : Chief
Chugoku Civil Affairs Region

You are cordially requested to be kind enough to take an appropriate action to approve the enclosed application from Hagoromo Seisakusha as the machineries were inspected and confirmed by Mr. J. S. Levan of GHQ, SCAP on February 7, 1951 and they are, we think, unserviceable in present condition.

FOR THE PREFECTURAL GOVERNOR:

for T. Tajima
