SEVENTY-SIXTH ANNUAL REPORT

May 1, 1957

To His Excellency,
Governor Luther H. Hodges
Raleigh, N. C.

Dear Sir:

In compliance with Section 90-57 of the General Statutes of North Carolina, we are pleased to submit to you and the North Carolina Pharmaceutical Association the Seventy-Sixth Annual Report of the North Carolina Board of Pharmacy. This report contains the proceedings of the Board for the fiscal year ending April 30, 1957.

MEMBERSHIP

There have been no changes in the membership of the Board since the last annual report. At the June meeting Roger A. McDuffie was elected President; R. N. Watson, Vice-President; and H. C. McAllister,

Secretary-Treasurer. The officers and members are as follows:

Roger A. McDuffie..... President
Robert N. Watson..... Vice-President
H. C. McAllister..... Secretary-Treasurer
F. W. Dayvault..... W. Moss Salley, Jr.

The employees are:

Attorneys..... F. O. Bowman and
J. Ruffin Bailey
Inspectors..... T. H. May (Part-time) and
John B. Balas

In the annual election of a member of the Board by the Association, Frank W. Dayvault, of Lenoir, was elected to succeed himself for a five year term.

MEETINGS

During the year ten meetings of the Board were held. All were at the office of the Board at the Institute of Pharmacy, 109

Church Street, in Chapel Hill. The dates of the meetings were as follows:

May 15, 1956	November 20, 1956
June 20, 1956	January 15, 1957
July 17, 1956	February 20, 1957
September 18, 1956	March 19, 1957
October 16, 1956	April 16, 1957

As usual, examinations were held at the June and February meetings.

As has been announced on numerous occasions, pharmacists are welcome to attend the monthly meetings of the Board. Each month, however, special invitations are sent to a number of pharmacists. In response to these a total of 30 pharmacists have attended the meetings during the year. The Board desires to express its appreciation to these pharmacists for their interest in the work of the Board. It is hoped that more pharmacists will attend the monthly meetings in the coming year.

ADMINISTRATION

The office of the Board has been continued at the Institute of Pharmacy, 109 Church Street, in Chapel Hill. The Association provides office space, meeting rooms and other facilities for the Board's work without charge. The Board contributes \$50.00 per month toward the cost of utilities and janitor service (this is listed as "rent" in the audit report).

The Board continues to utilize the facilities of the School of Pharmacy in the examination of candidates for license. These facilities include lecture rooms, laboratories, conference rooms, and the library and technical equipment. The Board desires to express its appreciation to the School of Pharmacy for its cooperation in this regard. These facilities also have been made available without charge.

In October, 1956, Mr. Victor L. Smith resigned as inspector for the Board after having filled this position in a very creditable fashion for more than 2 1/2 years. The Board desires to acknowledge and thank Mr. Smith for his fine services to the Board during this period.

On November 12, 1956 Mr. John B. Balas, of Charlotte, was employed to replace Mr. Smith. Mr. Balas is a graduate of the Phila-

delphia College of Pharmacy and Science and for a number of years was a Federal Narcotics Agent. The Board considers itself fortunate in securing the services of one who has had the training and experience of Mr. Balas in law enforcement work.

The acute shortage of pharmacist personnel which the state has experienced during the past ten years has made it necessary to import approximately 50% of our pharmacists from other states. The vast majority of those immigrating to North Carolina have effected licensure by reciprocity. To assure uniform standards of licensure and to promote the free interchange of licenses among the several states and territories, the Board continues its membership in and support of the work of the National Association of Boards of Pharmacy. In the years just ahead, during which major changes will take place in prerequisite qualifications for licensure in most of the states, it is even more important that our Board utilize the liaison service of the National Association of Boards of Pharmacy, not only to protect the standards of practice in North Carolina but also to protect the rights of our own licentiates who find it necessary to locate in other states. During the year two members and the Attorney attended the National Convention of the N.A.B.P. Four members attended the District #3 meeting (comprised of the 7 Southeastern States and Puerto Rico) which was held, as usual, in conjunction with the district meeting of the American Association of Colleges of Pharmacy.

In previous reports the Board has described the cooperative arrangement which exists between the State Bureau of Investigation and the Board. This arrangement has again been in effect during the year and is expected to continue. During the period covered by this report 14 cases of alleged violations of the Uniform Narcotic Act and one case of barbiturate addiction have been forwarded to the Board for attention.

All of the alleged violations of the Uniform Narcotic Law fell into two general classifications:

1. failure to receive written prescriptions

SEVENTY-SIXTH ANNUAL REPORT

before delivering narcotic drugs for for which prescriptions signed by the practitioner are required; and

2. failure to keep adequate and proper records of the sale of narcotic drugs, including "exempt preparations."

Review by the Board of the 14 cases of alleged violations of the Uniform Narcotic Act with one exception failed to reveal any evidence of criminal intent. It appeared that the conditions found in the investigations resulted from laxity on the part of those involved in seeing that the requirements of the law as it relates to written, signed prescriptions and record keeping were fully met. In view of this fact the Board recommended that the cases not be prosecuted and that the evidence be held in abeyance pending the correction of the conditions complained of. These recommendations were followed in all cases. In one case the pharmacist involved was cited to appear before the Board to show cause why his license should not be revoked on the ground of gross immorality. This case is still pending before the Board.

One report received by the Board dealt with improper custody and use of barbiturates. This case being of such a flagrant nature, it was deemed advisable to present the evidence to the courts. The pharmacist was found guilty and was sentenced to work under the supervision of the SH & PWC for a period of 12 months. This sentence was suspended for 5 years on condition that the defendant not dispense any drugs to any one in a period of 12 months, and not thereafter during the 5 year period unless he has a valid license, and that he be of general good behavior and pay a fine of \$50.00 and costs. No further action has been taken in this case by the Board pending the release of this pharmacist from the Veterans Administration Hospital where he was admitted for treatment.

In August of 1956 a rather startling discovery was made regarding the Uniform Narcotic Act as it relates to the sale of exempt narcotics and especially paregoric. At that time it was found that when the Act was revised during the 1953 session of the General Assembly to include marijuana and to give the State Bureau of Investi-

gation certain responsibility for the enforcement of the Act, the exemption for 2 grains of opium per fluid or avoirdupois ounce was not included in the list of preparations classed as "exempt narcotic preparations." This, in effect, placed the sale of paregoric on prescription only in the same class as morphine and other "hard" narcotics. Diligent inquiry failed to reveal how this situation came about, and it was the consensus of those who had anything to do with the amendment at the time that this change was not intended. In order to rectify what appeared to be an error in changing the law, the Legislative Committee of the North Carolina Pharmaceutical Association sponsored an amendment to the Uniform Narcotic Act, which amendment brings the State Act in conformity with the Federal law. This amendment not only provides for the "exemption" of opium (as in paregoric), but also provides for exempt amounts of papaverine, noscopicine and certain other of the lesser alkaloids of opium. This bill was introduced by Senator Kelly Bennett, a pharmacist from Bryson City. It has been passed without opposition by both Houses of the General Assembly and is now law. The Board desires to express its appreciation not only to Senator Bennett for his efforts in behalf of this measure, but also to Representative John Henley of the House from Hope Mills.

At this point it should be observed that the sale of so-called exempt narcotics is surrounded by certain legal requirements which put considerably more responsibility upon the vendor than he is generally aware of. The chief requirements in this regard are:

1. the preparation may be sold only in good faith for a legitimate medical purpose; and
2. the sale must be recorded in a book which is to be provided for that purpose.

This means that before a pharmacist may legally sell any quantity of an exempt narcotic, he must satisfy himself that it is to be used for a legitimate medical purpose. If he fails to do so, the transaction becomes an illegal one. There is a similar obligation

for him to make a complete and adequate record of the sale. Failure to do this causes discrepancies in inventory, which in itself might constitute evidence of violation of the statute. It cannot be recommended too strongly that these two requirements be strictly adhered to. Stricter enforcement of these requirements may be expected.

The cooperative arrangement between the Board and the Federal Bureau of Narcotics which was described in the last annual report has continued unchanged during the period covered by this report. During the year 32 non-pharmacy Class 5 applicants were investigated. Recommendation for approval was made in 21 cases and recommendation for disapproval was made in 11 cases. Eight Class 4 applicants (e.g., Hospitals) were inspected and with one exception all were approved.

The results of the activities of the State and Federal Food and Drug Administrations have been widely publicized in the newspapers of the State. This work has had a salutary effect on those few pharmacists who persist in the violation of the statute. During the year 3 cases have been brought to the attention of the Board by the Federal Food and Drug Administration. All of these cases had been previously convicted in the Federal Courts. Following hearings before the Board the licenses of 2 pharmacists involved were continued on probation. The license of one pharmacist was refused for a period of one year.

In each of these convictions the case had been brought on a charge of misbranding resulting from the sale of legend drugs without a prescription or the refilling of prescriptions for legend drugs without authorization. In each case the pharmacist admitted that he knew that the acts which he had committed were in violation of the law, but pleaded that in his view the law was unnecessarily restrictive and that the prohibition on sales effected by the legend extended beyond the point required to protect the public health. An expression of this sentiment has been voiced in many quarters and is supported by convincing arguments.

However, the facts remains that the law prescribes the manner in which drugs are to be distributed, and we have no legal or moral

right to do otherwise. If these laws are more restrictive than the public interest requires, then it would be proper to endeavor to have them changed. For the pharmacist to attempt to set himself up as the judge as to what may or may not be sold is an indefensible position. Those who persist in following this practice may find themselves in difficulty sooner or later.

If these figures are compared with those of last year it will be noted that there is a general trend towards shorter hours.

At the close of the fiscal year there were 1791 pharmacists on the active roster. This is a net increase of 49 over the previous year, and is next to the smallest increase during a six-year period. The net increase in the number of pharmacists has declined each year during the past three years. This is explained by the fact that the number of pharmacists who come out of retirement to again enter practice has about reached its maximum potential and by the fact that

the number of pharmacists coming into the State by reciprocity has declined somewhat this year. Of the total number on the active list, 1284 are engaged in retail practice on a full time basis and 62 on a part-time basis, making a total of 1346 in retail practice. Fifty pharmacists are engaged in hospital practice. This leaves a total of 69 pharmacists engaged in other types of pharmaceutical pursuits.

In previous years the Board has empha-

sized the need for more pharmacists. It has been well established that the only dependable manner in which this need can be met is by increasing our training facilities. It now appears that this requirement will finally be met. There are, however, strong forces competing for the funds that would normally be appropriated for this project. Worthy as these demands might be, it is incumbent on every pharmacist to see that his legislator does not lose sight of our long overdue building for the School of Pharmacy.

On May 1 there were 944 pharmacy outlets in the State. This is a net increase of two during the year. Twenty-six of the total number are classified as hospital pharmacies. This represents a loss of two hospital pharmacies and a net gain of four retail pharmacies. The number of retail pharmacies is now 918.

The number of retail pharmacies operating under physicians' permits has also declined during the year. This number now stands at 19 and represents a decrease of seven from the number being so operated last year.

The number of pharmacists per retail pharmacy outlet still remains unsatisfactory. It continues at 1.4 pharmacists per outlet and is next to the lowest in the Nation. When all aspects of a remedy for the problem are considered, it is felt that we should strive to train a sufficient number of pharmacists so as to provide 2.0 pharmacists per pharmacy outlet by 1975. This goal is felt to be not only professionally desirable but economically feasible. This number would still leave approximately one third of our pharmacies being operated under the burdensome condition of having only one pharmacist.

In the application for the renewal of pharmacy permits, space was provided for entering the number of prescriptions filled in each pharmacy for the preceding twelve months. This information was furnished for 769 of the 944 outlets. There 769 stores listed a total of 13,204,818 new and refill prescriptions. This was an average of 17,171 per store. If this number is projected to the total number of stores, a figure of 16,209,424 is obtained. This is a substantial increase over the previous year when the

figure was 15,166,000, or an average of 16,100 per store. The mean average was 13,500 per store. Refill prescriptions accounted for 35.2% of the total.

In the last annual report it was stated that a survey would be undertaken regarding the distribution of drugs in hospitals and industrial health centers. Work on the hospital aspect of this project has gone forward during the year. Progress on the study so far includes:

1. tabulation of hospitals in the State as to location, type, size and administrative personnel;
2. exploratory conference with officials of the Hospital Administrators' Association;
3. collection of information regarding existing practices involving distribution of drugs in hospitals;
4. a study of the pharmacy laws with special reference to their application to hospitals.

In regard to the last item, the language of our law seems to be uncertain when applied to hospitals. Two conferences have been had with the Attorney General in this connection. By mutual consent the further study with the Attorney General has been deferred until after the adjournment of the General Assembly so as to allow more time for its consideration. There is some indication that new legislation must be enacted in order to clarify the situation. If this be true, it should only be undertaken as a joint project by all groups concerned so as to arrive at a solution of the problem based on the public interest.

PRACTICAL PHARMACY EXPERIENCE

From time to time in the annual reports reference has been made to the practical experience or apprentice training program which was inaugurated by the Board in 1949. Up to now most of the Board's activities in this connection have been directed largely toward the trainee to thoroughly explain to him what is expected of him. It is constantly emphasized to the apprentice, or intern, that although this experience period is one of the legal requirements that must be satisfied, it should not be looked upon as

just another hurdle to be crossed before licensure. On the other hand, it should be viewed as an opportunity to learn to translate formal knowledge into terms of actual practice. It is believed that for the most part our students now understand this. It is felt, however, that we have not devoted enough time to the supervising pharmacists who are acting as preceptors to the trainees to thoroughly familiarize them with the total objectives of the training program. In the past, the Secretary has attempted to visit as many of the trainees while on the job as possible. However, time has permitted only a small percentage of these to be covered. In order to rectify this situation, the Board has engaged Dr. Ben Cooper, Professor of Practical Pharmacy at the School of Pharmacy, to call on each intern and supervising pharmacist during the coming summer. It is felt that by doing this, assistance will not only be given to the supervising pharmacists and interns, but it will also enable the Board to get first hand information on how this experience program might be made even more valuable.

As an indication of the importance the Board attaches to this training program, it should be noted that the notebook record of the trainee will be graded and this grade will account for 20% of the grade on the practical examination.

DRUG STORE INSPECTION AND LAW ENFORCEMENT

During the year the Board has continuously employed one full time inspector. As was stated earlier, Mr. V. L. Smith continued work until October 15, 1956, when he resigned and was replaced by Mr. John B. Balas on November 12, 1956. Inspector May has continued on a part-time basis. The reports of the work covered by these men follow:

Report of Attorney Bailey

May 2, 1957

To: Members of the North Carolina Board of Pharmacy

Subject: Annual Report

Herewith is submitted my report covering the period from May, 1, 1956 to April 30, 1957.

During the period of this report I have attended each of the regular monthly meetings of the Board and the regular examination meetings.

My actual participation in inspection work has been rather limited during the past fiscal year, however, the results of all of the inspections throughout the State in which law violations have been discovered have been brought to my attention.

A great deal of time has been consumed in investigations of particular matters brought to the attention of the Board, especially with reference to hospital pharmacies, industrial first aid rooms, state institutions and veterinary drug outlets.

There have been several serious cases before the Board involving disciplinary action and I have participated in each of these proceedings in an advisory capacity to the Board in addition to carrying out my duties in questioning the individuals appearing before the Board.

A good deal of time at each Board meet-

ing is spent in explaining to newly licensed pharmacists, either by examination or reciprocity, and newly permitted retail outlets the meaning and effect of the laws of the State of North Carolina with regard to the practice of pharmacy and the operation of permitted retail outlets. Again this year I express the sincere belief that the understanding of the laws of the State with respect to the practice of pharmacy by the individual holding the license and the individuals responsible for the permitted outlet will contribute greatly to a higher standard of pharmacy being practiced in our state. It has, since my connection with the Board, been my desire that emphasis be placed upon the responsibility of each and every individual registered to practice pharmacy in the State of North Carolina to uphold his profession and to safeguard the public safety and welfare of the citizens of North Carolina by practicing the highest ethics and by full compliance with the laws as set forth by the Legislature.

While there are still pending many cases involving disciplinary action against individuals who continue to violate the standards of good professional conduct and the laws regulating the practice of pharmacy throughout the state of North Carolina and while it is unfortunate that such conditions continue to exist and continue to be a major portion of the business brought before the North Carolina Board of Pharmacy, it is my feeling that the North Carolina Board of Pharmacy is increasing its effectiveness each month by its understanding approach to the practical side of pharmacy and that eventually the practice of pharmacy will truly be restricted to properly qualified pharmacists or apothecaries and thereby the public health, safety and welfare, which is the prime objective of all the laws under which the Board operates, will be better served.

Respectfully submitted,
J. Ruffin Bailey

Reference has been made to the cases which had been referred to the attention of the Board by other agencies and the disposition of these cases was reviewed. In addition, eight cases have been heard by the

Board in compliance with Section 9 of the Rules and Regulations of the Board which provides for an opportunity for a hearing before having the alleged violation presented to the courts for prosecution. Five of these cases involved the illegal practice of pharmacy, two the intemperate use of alcohol, and one a combination of the illegal practice of pharmacy and the falsifying of an application for a drug store permit. Four of the cases in the first category were adjusted by consent through Board action and one was recommended for prosecution. One pharmacist was placed on probation and the license of another was revoked as the result of the intemperate use of alcohol. The permit of one drug store was revoked after representations made in the application were found to be false and fraudulent. A petition for judicial review was subsequently filed by the defendant in this case. Although the Board has filed a complete transcript of all hearings in the matter, the case has not yet been tried. In addition to the eight cases referred to above, three additional cases of alleged violation of the pharmacy law were adjusted through conferences with the attorneys for both sides after an opportunity for hearings had been waived.

In recent months the inspectors for the Board have collected evidence of violation of the pharmacy law in a number of cases. Re-

ports of these findings are now being processed by the Board and it can be expected that those found in violation will be punished.

Since the State has found it necessary to enact legislation to protect the public in matters dealing with the distribution of drugs, morality and common sense demand that we conduct ourselves and our pharmacies in such a fashion as to assure the public that we do in fact afford the protection for which the law stands. The Board of Pharmacy is committed to this end. It seeks the active, positive cooperation of every pharmacist in the State in effecting this purpose. However, the Board will not refrain from prosecuting those who persist in endangering the public through their disregard for the requirements of the law.

FINANCIAL REPORT

The fiscal year of the Board closed on April 30, 1957. There has not been sufficient time since that date to have a certified audit made of the financial records of the Board. However, this will be done and the results will be published with the annual report as usual.
