OER – Logic Model

Situation

There are still not a lot of OER available, nor people contributing to create more. This makes it hard to argue for the value, since there is so few examples showing what can be done.

Priorities

Boost the amount of available OER and increase the participation in relevant projects.

INPUTS

What we invest

Staff time

Knowledge about educational sector

OUTPUTS

Participants   Activities   Direct Products

Who we reach	What we do	What we create
Wikimedians	Improve meta pages and features on Wikibooks and Wikiversity	Improved pages
Teachers		Tutorials
Policy makers	Promote OER	Informational material
Principals	Conduct workshops	
School librarians	Support online	
OER community	Develop informational material	

OUTCOMES - IMPACT

Short term   Intermediate   Long-Term

Results in terms of **Learning**	Results in terms of changing **Action**	Results in terms of change to the **Conditions**
New OER	Emergent community on Wikibooks and Wikiversity	Higher quality of OER on Wikimedia projects
New users on Wikibooks and Wikiversity	More producers of OER	Healthy and sustainable community on Wikibooks and Wikiversity
Positive attitudes towards OER		
Motivation to participate in a sharing culture
