NEW YORK LYCEUM,
UNDER THE DIRECTION OF
MR. CHARLES COUDERT, *and two*
At Greenwich, 8th Avenue, near the North River,
miles from the City of New York.

IN this establishment founded in 1826, by CH. COUDERT, are combined the two other French Schools, one recently conducted by MESSRS. PEUGNET, the other by GENERAL LALLEMAND; it is conducted on the principles which have heretofore been approved in those institutions.

The English, French and Spanish languages will be taught as parts of a general education, by professors giving instruction in their native tongue, and the pupils will be practised constantly in speaking and writing the languages.

The Greek and Latin languages will be taught by competent professors, to those who may desire such instruction; and these pupils will be made to aid themselves in the acquisition of the modern languages, by a comparison with the ancient, so rich in their literature, and so closely connected with the modern, of which they are the sources.

The course of study to be pursued in the Lyceum, will be more or less extensive, according to the time the pupils may intend to devote to it, and the abilities they may display. The Principal does not profess or expect that every scholar will leave the institution with a complete and accomplished education; but, at least, he hopes in all cases to cultivate and improve the mind, and lay a sure and solid foundation for further acquirements. Neither care nor expense will be spared to accomplish these objects. The principles of Grammar, Logic, Intellectual and Moral Philosophy, History, the pure Mathematics, Astronomy; Botany, Geology, Mineralogy, Chemistry, Political Economy, Book-keeping and commercial operations in general, will form a part of the usual elementary course; while those who wish to pursue any parti ular branch more fully and carefully, will have every facility for so doing. Lastly, the attention of the pupils will be particularly directed to the literature of the nations whose language they may study, and the Principal hopes in time to be enabled to form a class competent to follow with pleasure and profit a course of polite literature or Belles Lettres.

Reasoning will be the principle of the discipline as well as of the instructions of the institution, and no corporal punishment will be inflicted.
