War Materials Near Railway Station Blew Up; Shells Fell on Church and Children Were Buried; Soldiers In Barracks Buried.

Belgrade, April 20.—Several hundred persons were killed, about 1,000 wounded and 30,000 made homeless as the result of the explosion of war material stored at Monastir, according to reports from that southern Serbian city to-day. The disaster was one of the greatest catastrophies of the kind in history.

Athens, April 20 .- Advices from Monastir to-day report great loss of life as a result of an explosion of war materials stored 200 metres from the Monastir railway station.

Hundreds of children were buried in the ruins of a church on which shells fell, and it was believed 1,800 soldiers were buried in the ruins of the barracks, which were demolished, the advices

honor at the Empress Hotel at 1.30 o'clock.

George I. Warren, Publicity Commissioner of the Victoria and Island Publicity Bureau, will leave for Seattle in order that he may accompany the party to Victoria, and show them the points of interest en route. Don. G. Fisher has been appointed the delegate of the Automobile Club of Western Washington, and as flis guests he will have on the voyage Mayor Hugh M. Caldwell of Seattle, and R. M. Semmes, district director of the United States Shipping Board. Representatives of the Seattle Chamber of Commerce who will make the trip include C. Thomas, executive secretary; C. T. Conniver, chairman of the publicity section; M. J. Carrigan, director of the publicity bureau, and Ralph Stacey, vice-president of the Union National Bank. Many others whose names have not yet been reported will make the voyage.

San Juan county is sending five delegates, among whom will be Robert Moran, who owns the beautiful and well known home at Rosario. These men will go direct to Sidney in their own boat and will Join the party en-route to Victoria. All the tourist maps of the Pacific Northwest are being changed to show the new route which forms a portion of the Georgian Circuit. Herbert Cuthbert, Executive Secretary of the Pacific Northwest Tourist Association, and Mr. Ham, of the Ask Mr. Foster service, are in the city to-day, and Mr. Warren is impressing upon them the importance of the new motor-car ferry service as an attraction to tourists.

Carrollton, Ill., April 20.—Breaking of the Hartwell Leve on the Illinois River near here at 11 o'clock last night completed the flooding of 30,000 acres of reclaimed farm land along a 23-mile river front in Greene County. Reports this morning say that few, if any, lives were lost, as the populace of the territory had been forewarned.

Windsor, Ont., April 20.—Sweeping down from the northwest, a windstorm, accompanied by rain and snow, lifted the roof from the building of the Chick Construction Company yesterday, the roof of the single storey concrete building being help and the single storey concrete building being about 8,000 feet of telephone cable. None of the workers in the building was injured.

All power lines between Windsor and Amherstburg were wrecked by the storm. Additional damage was caused by unrooted trees and telegraph poles and several persons received minor injuries when struck by the flying debris carried in the wake of the storm. The thermometer dropped thirty degrees in thirty minutes, falling from sixty to thirty between 4 and 4.30 p.m.

\$300,000 more than the \$500,000 already advanced to carry on city services until the annual general taxes are collected. This new advance of \$300,000 will bring the total loan up to \$800,000, which is \$50,000 more than was advanced last year.

Early this year the city's bank cut down the usual loan of \$750,000 to \$500,000 because the city's annual overdraft has been increasing year after year. When the City Council asked the bank to reconsider its decision and increase the loan to the assurances that the Councild levy sufficient taxes this yea over all running expenses. During the last few days the bank officials here have been taking the matter up with the bank's head offices. To-day Mayor Marchant was informed officially that not only would the bank extend its usual \$750,000 but would increase this sum to \$800,000 by adding \$300,000 to the sum already advanced.

to \$800,000 by adding \$300,000 to the sum already advanced. Having spent already practically all of the money previously-advanced and a large part of the early taxes collected, the Council needed a further loan from the bank baddy. The new advance, it is expected, will pay running expenses until the bulk of the general taxes are collected in the Fall.

Dublin, April 30.—Last night was the worst Dublin has experienced since Easter so far as noise was concerned. The residents were kept awake by continuous rifle and machine gun fire, and the noise of military lorries rushing to the relief of places attacked, but thus far only one casualty has been reported. Several buildings occupied by the Free State Provisional Government and guarded by official troops were attacked, according to the last editions of the morning papers. Headquarters of the Free State Provisional Government were attacked, but despite aerrific firing, entry was not effected. The City Hall and the Telephone Exchange also were heavily assaulted. Canadian Engineering Institute Official Speaks

Montreal, April 20.—Apart from economic considerations, Canadians have grounds for suspecting United States enterprises in international matters by reason of past experience and therefore it is not to the benefit of this country to engage in the project for the deepening of the St. Lawrence, with its contingent navigation and power proposals. This was the view expressed here last night by Arthur Surveyor, consulting engineer and vice-president of the Engineering Institute of Canada, in an address before the Navy League.

Heavy Firing.

According to reports from an independent source, midnight had scarcely passed when heavy revolver firing was heard, opposing parties exchanging dozens of shots. Firing was also observed from the central postoffice building.

Occasionally the short, sharp cracking of revolvers and automatics was almost silenced by the heavier reports of rifles and later, when armored cars belonging to the regulars appeared, there was the quick discharge of machine guns.

At about 12.30 o'clock there was a comparative lull, but twenty minutes later several rapid volleys were fired. The uproar soon subsided and, except for an occasional revolver shot, quiet was restored shortly after 1 a. ... Chicago Canal. Chicago Canal.

Mr. Surveyor cited as a concreinstance of bad faith the case of the Chicago Drainage Canal. Originally permission had been given to allow a flow of 4,000 cubic feet per second when the course of the Chicago River had been reversed for purposes of diverting sewage. The sanitary project, however, developed into a power scheme and the volume of water was increased each year until the level of the St. Lawrence was lowered ten inches at Montreal, representing a loss to shipowners in 1912 of \$300,000. Repeated protests by the Canadian Government had led to no results. Another instance was the dam at Massena, built as a war measure, which, however, had not yet been directions of the street of the s Meanwhile similar firing of con-siderable intensity, accompanied by borab explosions, was heard in other parts of the city, especially in the neighborhood garrisoned by troops

The cat was blamed by Herman P. Tappe, proprietor, as the "jinx" which caused the fire, while the unnamed terrier was credited with saving many of the 100 young women employees from suffocation by barking a prompt alarm. The cat paid with her life.

The girls provided the shopping crowds in the vicinity with thrill after thrill. Some of them sild down ropes made of sheets, other swung on sheet ropes across to another roof, still more leaped three or four feet to firemen's arms, and four were carried out by a fireman, who collapsed on his fifth trip.

The fire itself was triffing. All the damage and excitement were caused by smoke. The fire started in the basement, and a moment later dense clouds of smoke poured through the five-story building.

Mr. Tappe said most of the damage was to gowns ordered by Mrs. George Vanderbilt, Mrs. W. R. Hearst, Mrs. Cornellus Vanderbilt, Mrs. George Widener and other wealthy women and would total about \$40,000.

Mr. Tappe said the "jinx" cat had been brought in by one of the girls and given a home in the cellar. He blamed the cat alone for the blaze.

Gold, Lead, Zinc Production Grows. **But Miners Get Less**

Hon. William Sloan, Minister of Mines, Makes His Annual Report of Progress of Industry In This Province; Coal Output Shows Only Small Drop.

British Columbia mines in 1921 produced minerals which rought in \$28,066,641, according to the annual report of the William Sloan, Minister of Mines, completed to-day.

Although the average of metal prices for 1921 was thirty-one per cent. lower than the average for 1920, the decrease in the value of the production for 1921 was only 21.06 per cent. less than the actual value of the production of 1920, which was \$35,543,084.

'This means that in 1920, on an average, the miners received nearly fifty per cent. greater an amount than for a similar quantity of metals in 1921," Mr. Sloan explains.

"This is the financial handicap from outside sources that our miners have had to meet throughout the year, and few of them made a profit at these prices, so that the mining companies deserve great credit for the very good output they made."

Quantity production of some of the valuable minerals was greater last year than in 1920, although the price netted for the product was smaller. These are:

"To appreciate how strenuous have been the obstacles with which metalmining has had to contend with this year, one has to take a broad view of the general conditions as they exist over the world at large. Europe is he world's metal market and with the unsetfled condition of Europe, Europe cannot buy our metals. The result is that there has been on this continent a greatly overstocked metal market, which has brought about a tremendous drop in the market prices of metals.

The Anti-Blue Sunday League Executive started in action this morning with plenty of vim. The petitions to be circulated throughout the city asking the City Council to submit a plebiscite on the question of Sunday closing have been prepared.

The petitions will be placed in every store in the city. The league, of which Herbert Kent is president and William Leal secretary, is also carrying out the terms of the resolution which calls for an appeal to the Attorney-General and Police Commission to stay their hands in the matter of prosecutions until the plebiscit decides the issue. It is possible that the stores in the habit of doing so will be open next Sunday as usual.

Plentiful Crops; Gandhi's Followers Divided

London, April (Canadian Press Cable)—A temporary lull prevails in the political situation in India, ac-cording to a Reuter cable from India, and the much-advertised "National and the much-advertised "National Week" produced a poor response throughout the country, both as regards hartals and collection of funds. It is believed the Non-Co-operationists are seriously short of money. The reasons for the present lull include a good harvest and the impossibility of sustaining popular excitement of the leaders of the Non-Co-operationists. There are also internal dissensions due to Gandhi's removal and failure to achieve results, particularly with regard to the frequently promised home rule.

One of the main stumbling blocks in the way of an understanding is the apparent irreconcilability of the two parties regarding the holding of elections on the existing parliamentary register. IS DUE ON VISIT

Madrid, April 20.—"Would you have the kindness to ask the secretary to speak on the telephone?"

This message, received by a page at the Military Club of Madrid, so astounded him by its politeness that he thought one of the other boys was having a joke with him. He therefore replied: "Hold the line, old bean (or the Spanish equivalent), and I'll give him to you."

To his horror, the secretary addressed the person who had called as "Your Majesty."

Shortly afterwards a message came that the page was to go to the palace. There the King received him and gave him a 100-peseta note, saying laughingly, "There you are, old bean," and invited him to spend the rest of the afternoon at the palace with the royal children. Charles V. Vickrey, General Secretary of the Near East Relief Committee, will arrive in the city to-morrow on a brief visit, according to a message from National Headquarters, New York City.

Germans Agree to Take No Share in Debates on Russia

Do Not Tear Up Treaty With Soviet, But Accept Condition They Have No Delegate Present During Russian Negotiations.

Paris, April 20.—Germany has replied to the Allies, agreeing accept exclusion from the deliberations of the Economic Conference Political Commission on Russian Affairs, says a telephone message from Genoa.

Genoa, April 20 .- Premier Lloyd George to-day said the German delegation to the Economic Conference had agreed to accept the condition of the Allies not to participate in further discussions of Russian affairs as a result of having signed the Russo-German treaty at Rapallo last Sunday.

French headquarters at noon said it had no orders from Paris regarding instructions to the French ambassadors at the allied capitals that they insist upon ener-**NEW PLANE FOR** getic measures and the application

Russia would be "stiff" because the French had not come to the conference, they declared, to be the catspaw for either the Germans or the Russians. They had not re-ceived, they said, the text of the re-ported Russian counter-proposals on the terms of the Allies for a gen-eral convention with Russia, but had heard that they contained conces-sions.

With London, Paris, Berlin and Rome as his principal objective points, Baron D. Obata, member of the Japanese House of Peers and a distinguished diplomat, reached Victoria to-day on board the Japanese liner lyo Maru from Yokohama.

Baron Obata wished it to be clearly understood that he was not going to Genoa as a delegate from Japan to the International Economic Conference. He was attending, he said, the International Parliamentary Commercial Conference, which opens in Paris in May, at which purely commercial conference, which opens in Paris in May, at which purely commercial questions would be discussed.

It is known, however, that Baron Obata is routed via New York to London, and from the British metropolis he will cross the Channel to Paris, probably by aeroplane, and thence to Berlin, finally terminating his European tour at Rome. As far as is known the Japanese diplomahas no intention of going to Genoa. The fact that Baron Obata is going to Rome, however, would indicate that his mission to Europe is not wholly removed from the delibera. tions that are going on at Genoa.

Miss Binzell, Cornell, Addresses Ontario Edu-· cationists

roronto, April 20.—Professor John Dearness, addressing the Spelling Reform Section of the Ontario Educational Association here yest-rday, urged the use of phonetics rs an aid to primary teaching and said a saving of one-third of the children's time could thus be effected.

E. P. McLaurin, of Belleville, advocated the establishment of an advisory council of teachers and members of the boards of education for outside administration.

Miss Alma Binzell, Assistant Professor of the Child Training Pepartment of Cornell University addressed the trustees' section, the home and school federation and the kindergarten section. She advocated the establishment of departments of parents in Canadian and American colleges with nursery schools where children might be observed, studied and managed along lines agreed upon by physicians, psychologists and sociologists.

Incidentally Miss Binzell paid a tribute to the Canadian newspapers. "To be able to come down to breakfast with a local newspaper that does not scream murder, divorce and the latest harrowing sensation at you, she said, "makes me want to ask 'How do you do it?"

Premier Lloyd George said to-day the Political Commission of the Economic Conference would meet to-morrow to consider the Russian reply to the Allies' proposals transmitted to the Russian delegates last week. The reply was expected to be received to-day. Mr. Lloyd George rredicted success for the conference. Mr. Lloyd George emphatically denied that Dr. Walter Rathenau, the German Foreign Minister and signatory for Germany of the treaty, had ever informed him either directly or indirectly of negotiations for the Russo-German pact.

Measures.

Paris April 20.—Instructions sent by Premier Poincare to the French Ambassadors in the capitals of the Allies, and which are fully approved by the Cabinet, are to insist that energetic measures must be taken and the penalties applied to Germany if the Russo-German treaty is not abrogated. For each search of the premier's position is that there are be no more hesitation in the execution of the Treaty of Versailles and that unless its execution is insisted upon now with evidences of determination on the part of the Allies, the Versailles pact might as well be adandoned altogether.

He holds that none of the concessions made to Germany has led in any respect to conciliation, but rather that they have been taken by Germany as evidence of the weakness of the Allies and as encouragement for further resistance.

Conservative, Nationalist, and Liberal elements are said to have given the Premier to understand they would support his view.

Violations.

Violations.

It was pointed out to-day that the Russo-German treaty had brought to light violations of the Versailles pact by Germany in respect to military materials, the Germans having, it appears, sold the arms which the Russian refugees had left in Germany instead of handing them over to the Allied Commission for destruction, as provided by the Versailles Treaty.

(Article 1 of the Russo-German Treaty, at the end of Clause C, reads:
"The Russian Government renounces payment of the sum Germany has derived from the sale of Russian army material transported into Germany.")

Penalties.

Penalties.

Already there is much speculation concerning the penalties to be imposed upon Germany, as it is considered most probable that some action of this sort will be taken. The occupation of the Ruhr Valley is the foremost suggestion, although there is authoritative opinion that the Allies are unlikely to adopt the precise penalty which the Germans most expect and perhaps best prepared to meet. The financial and economic penalties provided for in the treaty, it is argued, would permit the Allies to bring pressure of the most effective sort at much less cost and trouble than extension of the military occupation.

MORE AGRICULTURAL TRAINING IS URGED

Should Receive More Attention in Schools, Rotarians Told

Agriculture and particularly seed growing should be taught more generally and more fully in the schools of British Columbia, Rotarian George McGregor asserted in an address before the Rotary Club at its luncheon in the Empress Hotel today. "This southern part of Vancouver Island is the best place in Canada for seed growing," said Mr. McGregor, who is a member of the Rotary Committee which encourages school children to grow seeds. "And yet, we hear little of this growing industry. There is plenty of room for expansion and exploitation in this direction, I believe."

"Having inspected mainland schools where agriculture is taught, Mr. McGregor asserted that this subject was one of the mose useful on the curriculum. "There is not enough education along these lines in the schools," he declared, "and certainly there is not sufficient education among the people generally in this respect."

among the people generally in this respect."

Talks on business problems made up the main part of the programme at to-day's luncheon. Rotarian T. R. Myers, in an interesting and instructive-talk, told of the successful efforts of various companies to secure new markets for their goods. Rotarian H. Boorman discussed the gold reserves of various foreign countries in relation to the sale of their bonds here. Edwin Tomlin described the growth of the export trade from this port in cement and its growing use in Asiatic and South American countries. Other speakers were W. E. Nachtrieb and Gordon Jameson.

Do You Envy English Woman's Complexion?

Mrs. Asquith, famous diarist, in a recent interview, took occasion to remark that the Englishwoman's complexion is far more beautiful than that of the average American woman. The truth of this assertion is admitted, if reluctantly, by all who have been in England. But Margot did not mention the fact that the ladies of her country are much given to the use of what is commercially known as mercolized wax, remarkable as a facial rejuvenator. This wax has the peculiar property of absorbing the soiled and lifeless particles of scarf skin as they appear, the fresh new skin underneath, with its bloom of youth and health, then being in evidence. The process is quite harmless, causing no Mercolized wax can be had at drug stores here, as well as abroad, and if you will procure about an ounce of it and apply a little at bedtime, like cold cream, washing it off finornings, you soon will behold in your glowing cheeks a close resemblance to the wonderful transparent beauty of the Englishwooman's complexion.

Methods of financing the comoletion of the new Johnson Street bridge were taken under consideration by Mayor Marchant and the civic Finance Committee at informal conferences this morning in pre-paration for the award of the remaining bridge contract this after-

maining bridge contract this afternoon.

"As we find that the bridge will cost about \$110,000 more than has been provided by the bridge by-law we must raise the remaining money either by direct taxation or a further loan," the Mayor explained after the conference. "My suggestion is that the extra cost should be borne out of general revenue over a period of three years at the rate of \$35,000 a year. I suggest that a sum of \$35,000 a year. I suggest that a sum of \$35,000 a year in the still mates for the purpose this year, in 1923 and in 1924 and in this way further borrowing would be avoided. This would mean the levy of about I mill on the entire assessment each year for three years. However, what the Council will deelde to do.

E. J. Haughton, Division Superintendent of the Dominion Radiotelegraph service, is now authorized to issue amateur wireless licenses. In the past amateurs had to apply direct to the Deputy Minister of Naval Service at Ottawa, the delay in the granting of the license deterring many from taking up wireless as a hobby.

The only qualification necessary for a receiving license is that the applicant must be a British subject. A nominal fee of one dollar is charged for the license, which will be issued forthwith upon satisfying the authorities on the point of nation-

WAGE CUT COMING FOR WOMEN IN B.C. FRUIT INDUSTRIES

Wages paid to women employees in the fruit and vegetable canning industry in British Columbia are too high and will have to be reduced if the industry is not to suffer this season as it did last year.

This is the announcement from the canners of the Province who have petitioned the Minimum Wage Board to open hearing for the establishment of the new scale.

the establishment of the new scale.

The present minimum scale is \$14 a week for experienced employees and \$10 for nexperienced. It was fixed in February, 1920. Seven hundred employees in all parts of the Province will be affected by the reduction if the conference board agrees to it. The wage scales are not set by the Minimum Wage Board but by a conference board of three employers, three employees and three disinterested persons. To set the new scale this board will meet in Vancouver in May.

The employers are anxious to have the lower wage scale in effect before the busy fruit season, which runs from June to October, gets under way.

Mr. Proctor called for his "conscience file," which bore out his remarks that it is a very frequent occurence for people "to lose sleep" after defrauding the company. Some of these run into fairly large amounts. For instance, one of them some little time ago returned the company \$75. He had taken advantage of a settlers rate, but instead of going on the land he went to Vancouver and engaged in some other occupation. Daylight Saving Was Discussed by Commons

Ottawa, April 20 .- Daylight saving held the stage in the House of Commons during practically the whole of yesterday afternoon. W. F. Kay, Liberal member for Missisquoi, Que., had a motion calling for an expression of opinion from the House that "it is desirable that legislation should be introduced this session to prohibit the adoption of daylight saving in any part of Canada." Generally speaking, the trend of opinion was against daylight saving, although the desirability of the resolution in its existing wording was questioned. Discussion was still in progress when the House adjourned at 6 p.m. the order paper to the end of public bills and orders. It is unlikely that anything further will be heard of it this session. Mr. Kay said daylight saving had been introduced as a war-time measure in order to give an hour more of daylight for the cultivation of land, chiefly the garden lots in the cities, which, in the aggregate, produced a large yield. Since the war there has been no general adoption of the practice, but it has been introduced in most of the large cities. If there were to be daylight saving it would be better to have it throughout the whole country, but he, personally, was strongly opposed to it altogether. Mr. Kay expressed the view that if the Federal Parliament had not the power to prohibit daylight saving or to declare standard time, the British North America Act should be amended to give it that power. Farmers could not successfully carry on their work under daylight saving.

Mr. Jenkins Took a Cracked Club To Tame Lions

The exhibition ended rather badly. It very nearly was a big day for the lions and a sad day for Mr. Jenkins—all for want of proper care in getting ready.

Many a man who has business to do and a living to make and a job to fill is as careless how he feeds his body as Mr. Jenkins was in picking out a club.

Some foods are too heavy, some are too starchy, many lack necessary elements and so starve the body - and many load the system down with fermentation and autointoxication.

Grape-Nuts helps build health and strength. It contains the full richness of wheat and malted barley, including the vital mineral elements, without which the body cannot be fully sustained. Grape-

Nuts digests quickly and wholesomely. Served with cream or good milk, it is a complete foodcrisp and delicious.

Grape-Nuts is just the food for those who care to meet life's situations well prepared in health. Order Grape-Nuts from your grocer today. Try it with cream or milk for breakfast or lunch, or made into a delightful padding for dinner.

Budapest, April 20.—The desire of Mrs. Charles Hapsburg, former Empress of Austria-Hungary, in exile on the Island of Madeira, that her coming child should be born on Hungarian soil, is to be fulfilled. Count Hunyada, in deference to her often-expressed wish, made a trip from Madeira to Hungarian some weeks ago, says the Hungarian Telegraph Agency, and took back with him two cases of Hungarian soil. This will be spread on the floor of Mrs. Hapsburg's room.

IS THE CHURCH A FAILURE?

To the Editor—In the edition of The Daily Times of 15th inst. appeared an article dealing with the visit to this city of a certain noted cartoonist and of an entertainment which was to be given by him at the Metropolitan Church. A part of the article read as follows:

hurch. A part of the article read as ollows:

"On Monday he will give two enterainments at the Metropolitan Church, imatinee in the afternoon, with another performance in the evening. At hese performances he guarantees to artoon some leading clizens of Victoria, and a pleasant surprise is in itore for those who attend.

According to yesterday's issue of The Daily Times the performance was duly arried out as arranged.

Now, Mr. Editor, I am not writing this letter with any idea of criticizing the cartoonist or his entertainment, which, no doubt, was one of the best of its kind. Neither am I at cross-purposes with the church, which endeavors to carry out that high purpose for which it was primarily instituted. But what I wish to know is, why are the churches of this city which, we are given to understand, and very rightly, too, are built for the sole purpose of religious worship, being used as places of anuscement?

Is the church of the present dây a failure? It has every appearance of

nusement?

Is the church of the present day a silure? It has every appearance of decline when, in order to carry on, it ses the house of God as a place of musement.

a decline when, in order to carry on, it uses the house of God as a place of amusement.

Can anyone imagine that an entertainment of the description herein mentioned would be tolerated in the St. Paul's Cathedral, England? Certainly not! Then neither should it be tolerated in any other church. Such a base use of the house of God is sacriege, and any church official who; sanctions such entertainments in the church should resign his or her position.

In these days when so-called moral reformers are trying to make other people practice what they themselves apparently only preach, I think they could make a better use of their time by having a stocktaking day of their own inorder to discover how much better they are than those whom they are trying to reform. I venture to suggest that, at the conclusion of their stocktaking, a good many of them would discover that their stock consisted mainly of, hypocrisy and cant.

Not long since the church authorities were making an awful outcry because of the possibility of having to pay taxes on church property. I maintain that when a church is used as a place of public amusement it has no more right to be exempted from taxes than any theatre or moving picture house.

A large mass of the people look upon the church of the present day as a fallure, and why? Simply because the average church caters only to the monied classes and may see the church cannot live as well as a preach the religion of the lowly Nazarene, who was no respecter of persons, then it is time the church doors were shut and our religious leaders sent back to the land.

Best Decorated Table.

In the competition for the best decorated table, judging was by popular vote, the first prize going to Mrs. Rowland Powell for a charming arrangement of Japanese plum blossom, hyacinth and daffodil blooms, the centrepiece being arranged on a frosted mirror framed in yellow tulle. Mrs. Charles E. Wilson took the second prize with a table artistically decorated with nauve statice, purple aubretia and white, arabis, arranged around a fountain playing into a shallow pond containing goldfish. By a curious coincidence Mrs. Powell won the prize she herself had offered and Mrs. Wilson won the prize kindly donated by Mrs. Playfair.

Lovely Flowers.

Lovely Flowers.

Mrs. P. R. Abell, Mrs. Wilders, Miss Chatham, Miss Brompton and Miss Fawcett had charge of the flowerstall, which was a thing of beauty with its arch of Japanese plum blossom and drapings of purple and white. Miss Morley, Mrs. Wollaston, Mrs. A. T. Harvey and Mrs. His-Hiscocks were at the home cooking stall, and Mrs. Sargison, Mrs. Gordon Kenning, Miss Duncan, Mrs. Fred Moore and Mrs. McLorie attended the candy stall, at which delicious candles were sold in pretty containers. Miss Leitch, Provincial President; Mrs. E. S. Hasell, Mrs. Mc-Micking and Mrs. Gordon Smith, formed the general committee in charge of the arrangements, and Mrs. H. A. S. Morley assisted by Major Wollaston presided at the door.

Charming Dances. Lovely Flowers.

H. A. S. Morley assisted by Major Wollaston presided at the door.

Charming Dances.

A charming feature of the aftermoon were the dances given by a number of little dancers. Mrs. Wendell Shaw's pupils included Miss Grace Trimble, who gave a graceful interpretation of a scarf dance, and the Misses Rosemarie Naismith, Dorothy Westlake and Greta McArthur three dainty nymphs in pale green frocks, who danced delightfully in an artistic presentation of Mendelssohn's Spring Song.

The pupils of Madame Valda danced a stately Elizabethan minuet in costume with all the grace and gallantry of the period, Angela Vaghts making a dignified Queen Elizabeth. Master Jimmie Irvine a gallant Sir Walter Raleigh, and the Misses Alizon Mitchell. Barbara Fontm, Marguerite Vooght, Peggy Pidcock, Guy Ferris Bowden, Margaret Little, Mary Mogg and Molly Little danced delightfully in the roles of courtiers, ladies of the court and pages. The beautiful old Jacobean chairs used in the dance were kindly loaned for the occasion by Miss

DIGESTIVE TROUBLES CAUSE MUCH DISTRESS

Are Nearly Always Due to Thin Watery Blood.

Do not think that because your stomach is easily upset you are the victim of some serious malady. One of the most common causes of indigestion is anaemia, or thin, watery blood. In fact it has become generally recognized that healthy activity

gestion is anaemia, or thin, watery blood. In fact it has become generally recognized that healthy activity of the stomach is impossible unless the blood is rich and red.

Dr. Williams' Pink Pills have been found valuable in cases of indigestion, nervous dyspepsia and stomach weakness, just because they are a blood builder and nerve tonic. The rich, red blood following their use not only imparts a healthy digestion, but carries color to the cheeks and lips, and gives vigor to the muscles. One important point to remember is that Dr. Williams' Pink Pills contain no harmful drugs or oplates and are thus to be preferred to preparations that merely stimulate for a time. Before you begin worrying unnecessarily about your state of health, try the tonic treatment of Dr. Williams' Pink Pills. You will be surprised to see how rapidly your appetite returns and your debilitated system revives. Miss Sarah Farquhar, North Brookfield, N. S., who has proved the value of these pills in cases of this kind says: "For a long time I was a sufferer from indigestion, which seemed to carry with it, as the eating was followed by severe pains in the stomach, causing at times nausea and vomiting, and at other times an accumulation of gas that caused severe palpitation of the heart and a smothering sensation. The result was that my general health was seriously affected and the least exertion would tire me out. I had taken much medicine, but did not get more than temporary reflef until I began using Dr. Williams' Pink Pills, which I took for a considerable time, with the result that I now enjoy every meal and am no longer distressed after eating. I find myself in every way enjoying better health, and I cheerfully recommend these pills to similar sufferers."

Stops Pain Instantly

The simplest way to end a corn is Blue-jay. A touch stops the pain instantly. Then the corn loosens and comes out. Made in two forms—a colorless, clear liquid (one drop does it!) and in extra thin plasters. Use whichever form you prefer, plasters or the liquid—the action is the same. Safe, gentle. Made in a world-famed laboratory. Sold by all druggists.

"They say every one is of some use in the world," chirped Mr. Wren. "So I expect that the cuckoo has its place But they are so seldom seen that really do not know much about them." It can tell you something about the cuckoo," said Mrs. Sparrow, who had been stiting near listening to all that had been said. The cuckoo is worth do for I heard Mr. Man saying the other day he was glad that cuckoos had come here to live, for they would take care of the caterpillars and inch worms.

"Mr. Man said they would kill many more than they ate and that no other bird was of such help in his orchard." "Well, they are poor housekeepers!" snapped Jennie Wren. "They should be good at something. But I can keep my house in order and take care of plenty of small insects that would spoil things in the garden if I did not good at something. Merchandise of German manufacture is being dumped into Japan and other countries of the Orient and the Teutonic trade agents are to be found everywhere.

The policy of the Allies, says Mr. Edwards, helped the Germans, who are rapidly getting back into their pre-war commercial stride. Trade depression is general in Japan and Mr. Edwards states there is little prospects of conditions improving. The financial situation is becomin serious. Mr. Edwards, who has bee

Vancouver, April 20.—Harry McCoy, North Vancouver, was-instantly killed, and Edward J. Gorman, of
this city, received injuries which may
prove fatal, at the Ballantyne Pier
in course of construction here, in an
accident caused by a falling hammer
which was being hoisted into place
for the driving of piles. McCoy was
almost decapitated by the falling
hammer, which struck him at the
back of the head. He was 50 years
of age and leaves a wife and four
children.

When Kipling wrote his lines on "Rolling down to Rio" he probably did
not think that aboard the modern ocean liner his poem would be so closely
paraphrased as the accompanying picture shows. Here we have Miss Edith

Birthday Party.—The banquet and entertainment given resterday under the auspices of the Social Guild proved an unprecedented success. The room looked most springlike, with its profusion of daffodils and lilies. The visitors did ample justice to the good things provided, for them. The greatest credit is due to the conveners, Mrs. G. S. Summerville for the banquet, and S. Morris for the concert. In the regrettable absence of the president Mrs. F. W. Ball, Mrs. Stephen Morris acted in that capacity. The rector, Rev. H. Pearson, was chairman of the concert, the artists taking part being Messrs, Mearn, Stubbs, Ramsey, and Miss-Frances, who gave songs. Mrs. Wafker and Mrs. G. S. Summerville rendered recitations, Miss Bird, A. F. C. M., gave pianoforte solos, and proved a most efficient accompanist. The members would like to take this opportunity of thanking all those who assisted in making the party a success.

The train was duly flagged, the desired scene photographed and Mr Terriss then went into the town with his company to finish some other rural scenes. Toward evening the assistant director went back to the station to arrange for the transportation of the company to New York The station agent dejectedly told him that he had just received a telegram saying he would be replaced by another man.

"What!" cried the assistant. "Fired already? Well, I'll go into the railroad offices when I reach New York and see if I cannot square things for you."

"Courage" was adapted for the icreen by Sada Cowan from Andrew Soutar's novel of the same name. Dominion Theatre, there is a scen wherein Walter Hiers, playing the role of Jimmy, breaks a valuable vase while calling at the home of the wealthy fiance of his sweetheart's sister.

When it came to making that scene

Sometimes an act of kindness recets like a boomerang and does the three was almost as much tension and anxiety as to whether or not the vase metable would break correctly and the scene three was almost as much tension and anxiety as to whether or not the vase would break correctly and the scene appear natural, as if the actor had really prepared to shatter a costly vase instead of the prop one provided by the studio plaster makers. "Do you think it'll break all right?" asked Walter, anxiously. "I'm sure of it," asserted Mr. de Mille, but of course, no one knows the studio plaster makers. "One you think it'll break all right?" asked Walter, anxiously. "I'm sure of it," asserted Mr. de Mille, but of course, no one knows anything like that for certain, as directors have often found at a critical moment.

Agnes Ayres, playing Virginia Blaine, Leah Wyant, who portrays Fanny, and Jack Holt, as Stafford waited expectantly and with bated breath. The camera signal was given the scene was worked up and Walter Hiers let the vase drop.

As it fell, even the cameras seemed to hush their noise, and then, it parted nicely just as was required and a long sigh of relief went up from all concerned.

"THE SILENT CALL" COMING

the departure of a country girl from her home to make her way in the big city.

Its railroad station looked as though it might have been a peanut stand in the Centennial Exposition in Philadelphia in 1876. There was a single track vanishing in the distance above and below the station. Twice a day a train pantingly and reluctantly halted. The morning train arrived before the sun was quite up and the evening train arrived after sundown. This made it impossible to photograph the girl boarding the train because there was not light enough at the scheduled times.

A little thing like that doesn't worry a director. "There is a train that passes through here at noon without pausing," Mr. Terriss told his assistant. "Arrange to flag it."

An ordinary man would have said that it was impossible. The assistant did not despair. He approached the station agent and sounded him out. At the first suggestion that he flag the train simply to help a motion picture company, the agent refused pointblank. "Why, I'd lose my job," "The Silent Call," H. O. Davis' presentation of the Laurence Trimble-Jane Murfin production released through Associated First Nationa Pictures, inc., starts its run at the Royal Victoria Theatre next week. In addition to wonderfoil photography and speedy action the picture is said to have one of the most remarkable screen characterizations in the presentation of a dog in a leading role. This canine in question is Strongheart, a Belgian police dog, specially brought into this country by Miss Murfin to play this role. The dual nature of the animal in the picture, half dog, half wolf, has a counterpart in his dual role first as an avenging destiny and secondly as a canine Cupid. The combination tend to make the picture a composite of swift action and tense interest. All of the scenes were filined in the tend to make the picture a composite of swift action and tense interest.

All of the scenes were filmed in the High Sierra mountains of Northern California, and they present some of the most beautiful photography ever shown on the screen.

Laurence Trimble directed, and Miss Murfin, his co-producer, wrote the scenario from Hal G. Evarts' "The Cross Pull."

The cast includes John Bowers Kathryn McGuire, William J. Dyer, Ray Howard, James Mason, Nelson McDowell, E. J. Brady and Rebert Bolder.

NEW IDEA OF CANADIAN HISTORY IS NOW CONSIDERED

Dr. Adam Shortt, C.M.G., who is in Dr. Adam Shortt, C.M.G., who is in Victoria to conduct a civic inquiry, has been engaged, since he was last in Victoria on a somewhat similar undertaking, in historical research of a most interesting character.

He is now Chairman of the Historical Manuscripts Publication Board. After stating what had already been done to clucidate the early history of Canada under French occupation in its two centres of the St. Lawrence and Acadia, he mentioned that a new volume is shortly to be issued. Much has been written, he pointed out, with regard to the wars of the seventeenth and eighteenth pointed out, with regard to the wars of the seventeenth and eighteenth century prior to the Conquest. The general opinion appeared to be that events in Canada were a reflex of the struggles between Great Britain and France in Europe, but an investigation of the old documents showed a clear cut ecomonic and social Canadian development.

It was the intention of the folumes now in preparation, Dr. St. ett told The Times, to indicate clearly the progress of human society in this

SET FIRE TO HIS SHACK AND THEN SHOT HIMSELF

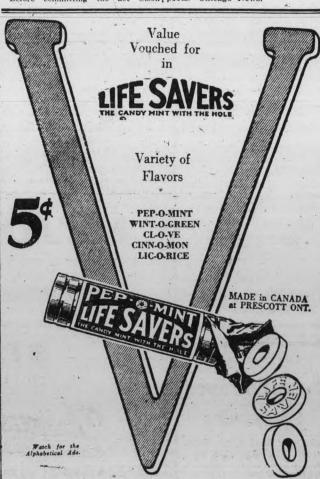

Sault Ste. Mārie, Ont., April 20.—
Driven to despondency by alleged crooked work on the part of three men, who he claimed had cheated him, Jacob Olson, of Danish descent and owner of ten acres of pottery claims on Desbarats Lake, cremated himself yesterday in his small shack. He first set fire to his shack and then shot himself with a rifle, which was found lying by his side.

Before committing the act Olson

placed beneath a tree near his cabin a satchel, a rifle and a note, in which he explained his reason for taking his own life. The substance of the note was that he blamed a few parties for cheating him in a mining deal, which has been a mining deal, which was the substance of the highest him in a mining deal, but he had no relatives living in Canada.

Finals on Saturday,

The finals will be staged on Saturday evening at the "Y" and the tussle between Duncan and the Firsts should be a whirlwind display.

The Huskies were expected to give the Firsts a close run last night but they failed. Art Webster was the star of the winning team, running up a remarkable total of 33 points himself. Art's total was more than the combined total of the "Huskies."

Webster opened the scoring with a free shot, then Stan Moore started a fine rush, passed a hot one to Tom Nute, who scored a nice basket, putting Huskies ahead for the only time during the game. Webster began dropping them in from all angles, running the score up to 11-6. Tom Nute secured a few nice shots but Gus McKinnon secured two more for the Firsts, keeping a safe lead.

Cal Little was off color, but livened up for a while and netted one basket, then Webster ran up another string of points, making the halftime score 22-12.

The same Thing.

The second period was a repetition of the first, the Firsts having the upper hand all through. Bob Whyte executed some fine dribbling, his passes to Webster nearly always resulting in a score. Gus McKinnon plaved a very fast game, netting 10 points, and organizing many fast rushes in conjunction with Forbes, Whyte and McKinnon. Webster rarely missed a shot, raining in basket after basket with unerring aim.

Peden Off In Shooting.

The Huskies, on the other hand, were decidedly off in their shooting, Peden and Brindley missing many fine chances, Peden in particular having decided hard luck with his shots. Tom Nute scored nine points for Huskies, Stan Moore securing seven, but their team play was not nearly up to the standard of the Firsts.

The Duncan Deerhunters stayed in the running by winning a rough and tumble match from the "Y" youngsters. By winning the semi-final Duncan will have to charter a special E. & N. train on Saturday, making another expedition to the city in hopes of carrying away the "Y" trophy.

Johnny Peden and Ted Hopkins opened the scoring for the "Y," gaining a four-point lead, then Eddie Rutledge got a line on the basket, scoring ten points in rapid style. Rutledge was the only man of the visitors who seemed at home on the strange floor in the opening period.

Albert Dirom, the nine-foot-six centre man of the up-Island aggregation, eventually got accustomed to the local floor, slipping in four points before half-time.

Pete McKechnie ploughed his way through the whole visiting team and scored once with a good shot, the period ending 15-6 in favor of Duncan.

On resuming play Eddie Rutledge found the net again, but the "Y" gained slightly when Hopkins and Peden scored rapidly.

"Doc" French thought the game would look safer if Duncan had a few more points, so he proceeded to score three baskets in two minutes, making the score 23 to 9.

Can Canter 25 Miles Like This Athlete?

Boston, April 20.—Although the Boston A. A. would not accept the entry of the seventy-year-old Winchester athlete, Peter Foley, for yesterday's Marathon run, he declared there was no law against his running 25 miles and a few minutes after the official entrants had swung down the road he trotted after them.

The field drew away from him, but he did not care. He only wanted to show that at his age he could run 25 miles as he had done on many previous Marathon Days and to celebrate his seventieth birthday, which was yesterday.

Three hours and 48 minutes after he started the veteran crossed the finish line, cheered by the crowd which had waited for him.

The time of De Mar , the winner of the race was 2 hours 18 minutes 10 seconds, a new record.

game—as its chief spokesman—and for his sympathetic help for the young player.

For thirty years he has been the foremost English golfer, and he is as proud of his native Westward Hotas the Scotsman is of his St. Andrews. He has, indeed, dured to poke fun at the Scot. He has poured scorn on the famous road hole on the famous Fifeshire course, and he has declared that the Scotsman could not play because he could not pitch. But, on these occasions, one has noted a twinkle in his eyes. "J. H." has a rare fund of humor.

But he #s still very human, and those who know the man have an insight into his charactercr believe they have. They will tell you that they know how the game is going with him from the angle at which he wears his cap, and also that when Fate is unkind he is always to be found striding out at an unusual pace well in front of the nusual pace well in front of the

At a recent meeting of the Victoria Amateur League six clubs were granted franchises, two new teams being admitted along with the four clubs that played last year. The officials figured on two clubs dropping out, the Conservatives being practically out of the race, with Yarrows also doubtful.

The Conservatives are still holding on to their franchise, the heads of the club being anxious to sell their berth, but no one wants to buy it. It was thought that the Sons of Canada might angle for it, but they cannot find the necessary backing. IT USED TO BE FISH STORIES; NOW WHO'S **GOT BEST GOLF YARN**

Chicago, April 20.—The "long-est drive" story is one that al-ways finds a place in the golfer's stock of yarns, and the latest comes from William C. Caldwell, of Pana, Ill., who tops all previous stories with a claim of 489 yards on a single shot. Caldwell states that the drive was made at the Midland Country Club at St. Louis, and that he overdrove the fifth hole, 484 yards, by five yards. His claim overshadows that of the 415-yard drive by Frank Dennis, the 20-year-old professional at the Crewe Gold Club, in England, likewise that of Scott Scammel of the Spring Lake Golf and Country Club, who made a drive a few months ago of 440 yards.

The Princess Pats' No. 2 indoor baseball team, last year's Garrison League champions, made its initial appearance in the league on Tuesday at Work Point, and was successful in defeating their opponents, the Machine Gunners' "A" team, by one run, the final score being 7 to 6 in their favor. It was not until the sixth inning that the winners showed any signs of coming out on top, the score until then being in favor of the Machine Gunners, who seemed to have their opponents baffled, holding them down for one run in five innings.

Stores Plans National Selling

New York, April 20.—The Bureau of Research and Information of the National Retail Dry Goods Association has made an exhaustive analysis of conditions of wireless telephony in the United States in advance for the first Radio Conference of Retail Merchants.

The conference, composed of representatives of all department stores concerned with the mercantile development of radio, is discussing the various problems arising from the necessity of establishing on a dependable merchandising basis the distribution of radio sets and parts. The research bureau's report shows that there are now in the United States seventy-one licensed broadcasting stations, of which seven are department stores. Of these seven, three are in Philadelphia, one is in New York, one in Newark, N.J., one in St. Louis and one in Los Angeles.

It is now recognized, the report says, that selling of radio, equipment is a merchandising opportunity of the first order, with \$70,000,000,000 weekly, in spite of a shortage of manufactured sets and parts that leaves defice the competities of the conservative volume for immediate exploitation. In many of the large stores in New York, Chicago and Pittsburgh, the sale of radio apparatus averages from \$5,000 to \$6,000 weekly, in spite of a shortage of manufactured sets and parts that leaves deliveries far behind.

One of the chief problems that the smaller retailers will have to face is the competitive enter the field, but it will be a month or two yet-before the big houses get out their catalogues, so the smaller merchant will have an excellent opportunity' of educating his eustomers and

New York, April 20.—Herbert L. Schamberg, managing director of the National Council of Traveling Salesmen's Associations, announced that fully 15,-000 salesmen are expected to attend the the convention of the twenty-eight associations announced that fully 15,-000 salesmen are expected to attend the convention of the twenty-eight associations of the twenty-eight association of the twenty-eight association of the convention of the series of the council, which is seven years old. "We will be the first staged by the council, which is seven years old. "We will map out," Mr. Schamberg said, "an extensive campaign for the repeal of the surtax on Pullman charges. An effort will be made also to carry to a greater and more extensive scope our present plan of full cooperation with the hotels in reducing frates.

"The need for a general cut in the cost of commercial traveling has prompted us to hold the convention. A rearwass of leading firms showed us that the sale of traveling representatives because of traveling costs are cut as the production of the representative because of the production of the production as step nearer the awaited prosperity."

The national council has attempted a few things without more than a modiquin of success, and in many instances has done the public more sectual immediate benefit than it has its members, in money volume of saving. It was instrumental in having the Absentee Voting Bill passed; it has already done much to have baggage transfer rates

New Westminster, April 20.—Thirty-year six per cent waterworks bonds of par value of \$220,000 were sold today to the Lumberman's Trust Company, Portland, Oregon, at a price of 98 in American funds, with exchange standing to-day at 21/6. This is equivalent to a fraction slightly over par in Canadian funds and is looked upon as the best price on Municipal issues in British Columbia for some time.

Sinking fund and interest on this saue was met by a twenty per cent increase in the water rates which went into effect last Fall.

RUSSIA'S REPLY

Answer Given to Allies' Proprosals at Genoa

Genoa, April 20.—The Russian reply to the Allies' proposals regarding Russia, which was handed to the Allied representatives this evening, is reported to be quite conciliatory in nature.

Lloyd George.

Genoa, April 20.—Premier Lloyd George, speaking to newspaper correspondents to-day, said the incident with the Germans over the Rapallot treaty had been practically settled and he believed the Soviet's reply to the Allied proposals regarding Russia would be such as to permit further negotiations.

Unless the conference adopted the proposed agreement pledging against aggressive action, declared Mr. Lloyd George, he would consider the conference a failure, but he was convinced it would adopt the non-aggression agreement.

Germans Busy.
The German delegation was in a feverish state of activity to-day considering its next step. The delegation met last night in secret session and again at 10 o'clock this morning.

Many wild rumors were in circulation concerning what took place at these meetings. One was that Foreign Minister Rathenau, who signed the treaty, would be made the scapegoat of the incident, some reports going so far as to assert he would resign.

Leading French delegates pronounced that he must either submit to the renunciation of the Rapallo pact or resign.

M. Tchitcherin, the Soviet Foreign Minister, when asked to-day why notice of the negotiations had not been given Mr. Lloyd George, replied:

"For the simple reason that Russia is not a British colony."

When further asked whether the treaty meant also a Russo-German alliance, M. Tchitchetin replied:

"Walt and see. All the fuss made ever this treaty is quite unjustified. I think it should be taken as a model for the Genoa Conference. The Republic of the Soviets would be glar to conclude similar treaties with other courtries, especially the United States."

Nanaimo—The funeral of the late Joseph Robinson was held yesterday afternoon.

Mr. Robinson, who was a resident of this city for the past thirty-three years, was 58 years of age. He was a native of Dudley, Worcestershire, England. For the greater part of his residence here he was engaged in the barbering business. For some time he conducted his business personally, but was finally compelled to give it up owing to ill health. He is survived by his widow and four daughters: Mrs. A. Akenhead, Nanaimo; Mrs. G. Edgecombe, Seattle, and Miss Vera and Miss Dora, both at home, and two sons, Joseph, of Vancouver, and Frederick, of San Francisco.

FIRST HAND STORY FROM SOUTHERN

B. C. Mining Man Here After Winter's Investigation

The man who wishes to understand

The man who wishes to understand the oil situation in Texas and Oklahoma must go down there and see for himself. The golden prospects of the alluring prospectus may remain only as dreams because holdings just off the oil pools may be as valueless as land 50 miles removed. This is the opinion of J. Wendle, veteran mining operator of Barkerville, who has wintered with his wife in the two states named, and visited all the important oil centres.

Mr. Wendle, who is at the Strathcona Hotel, desired The Times expressly to state that he has no stock to sell in any concern, that he has acquired certain royalties, but has no interest in any property which would induce him to view the situation as he found it in any way except dispassionately.

Fortune and Failure.

Fortune and Failure.

With the aid of a geological mar of the two states, Mr. Wendle showed how the majority of the producing wells of eastern Oklahoma and central Texas are located on the Pennsylvania strata, and on the fault line of adjoining strata. In spite of warnings wells have been sunk in places where there is no prospect of oil, and much capital has been wasted, he points out. Some of the best properties have yielded about 10,000 barrels a day, while others have been so productive when first opened that they have blown the caps off, and the machinery has fallen in a hole filled with mud and water which has replaced the top of the well.

quired 15 acres, could not hold it alone, and divided it with another man. They in turn discovered that a third partner must be brought in to save the property, when suddenly a run of 16,000 barrels a day began, as a consequence they were offered \$600,000 each, and yet refused! The refusal was based on the fact that with the possibility of two more rigs in the concession they stood to divide far more than \$1,800,000—a fortune following beggary. These instances, he stated, were exceptional, and little was heard of the countless failures.

Victims of Excitement.

He stated the reason, in his opin-

Victims of Excitement.

He stated the reason, in his opinion, for so many failures, was due to the mad rush by inexperienced locators to get in with every discovery. To hear them talk it would seem that there was no more oil under the soil of the great state, while perhaps a short distance away a far better property might be picked up by those who had patience and judgment.

Mr. Wendle described the great pipe lines to the Coast, the methods of storing oil until the oil could enter the conveyor pipes, and the protection from ignition at the surface.

He considers the bogus schemes for selling stock, and unloading worthless properties on guillible investors to arise largely from the temptation to pass the loss on to the public from the staking of areas just off the pools which will never produce oil, and are just gambler's chances. Those properties which are bona fide producers for the short period of their maximum yield are giving good returns to the owners, and proving a great stimulus to business in the Southwest.

Mr. Wendle will leave for Barkerville, where he is engaged in hydraulic mining, in a few days.

It is usually the naturally nervous child who has the greatest ambition, and by denying his or herself the requisite amount of outdoor exercise comes up to the examinations with too little energy and vitality left.

Fortunately the child's system quickly responds to such restorative treatment as Dr. Chase's Nerve Food. The blood is enriched, the nerve cells are replenished and health and vigor is soon restored. Mr. S. F. Flarity, Wiarton,

Ont., writes:

"My daughter, eleven years of age, was in a run-down condition and suffered from a nervousness which showed a tendency toward St. Vitus' dance. I got a few boxes of Dr. Chase's Nerve Food for her, and by the time she had taken three boxes there was a big change in her. She is much stronger, and her system in general is built up. She has recovered from her nervous weakness, and you could not detect a trace of it now."

WARD THREE MEN

Meeting at Gordon Head Hall Protests Eviction From Work on Waterworks

Over sixty ratepayers of Ward Three, Saanich, at the Gordon Head Hall last night, received reports upon the progress of the waterworks extension from Councillor Vantreight and Reeve Watson. Ex-Councillor W. F. Somers presided, and Councillors Macnicol and Dooley were present by invitation.

Councillor Vantreight said installation was progressing fast under the circumstances, but could give no assurance as to when water service would commence. He regarded the laying of the mains as a ward affair, but had met opposition to this view at the Council board.

Municipal Vote, Ward Work.

at the Council board.

Municipal Vote, Ward Work.

"As a voting matter the waterworks is a municipal project. Seeing
that there is no question of a
Saanich wide mill levy to pay for it,
but, on the contrary, Ward Three is
to pay the whole cost, I can only
consider installation as a ward matter. On this point, however, I have
not as yet been able to secure my
own way," explained Councillor
Vantreight.

"I am standing behind the workers
of this ward, I think they have a
right to a preference on this job," he
said.

From the floor much dissatisfac-

From the floor much dissatisfaction with the employment system was voiced, the retention of one gang unchanged being criticized as being protection for outsiders while Ward Three men included in a second gang had nearly all been laid off.

Councillor Vantreight denied the possibility of getting a full day's work from men who have walked six miles to work, and thought insistence on employing such men as relief entitled the Council to classify the whole waterworks extension as a relief job, and so secure Provincial and Dominion assistance.

The introduction of allegations that some Gordon Head residents had been working on the extension and employing Chinamen on their farms produced a crossfire of personalities.

Reeve Watson's Objective.

Reeve Watson said, "the only reason I wanted to be Reeve of Saanich this year was to see the waterworks extension put in expeditiously and as cheaplying possible. Had I known what we were to be up against, I would possibly have acted differently at that time."

He promised to support at the Council an equal apportionment of the work among the wards, a basis which would result in a much shorter lay-off of Ward Three men.

A motion placing the meeting on record as favoring preference in employment for Ward Three men needing work on the waterworks extension then passed unanimously, the meeting closing with votes of thanks to Reeve Watson and the Councillors attending for the information given.

Huge Crane Which Is Swinging Bridge Steel Into Place Here

This is the 180-foot derrick which the Canadian Bridge Company has erected on the site of the new Johnson Street Bridge to lift into place the enormous steel girders which will form the superstructure of the viaduct. This derrick is probably the largest that has been used on the Pacific Coast. One of the company's daring and skilled bridge workers is seen perched at the end of the derrick beam about two hundred feet above the water. The picture also shows some of the steel already installed by the Bridge Company.

Councillor Dooley told the audience they were looking at the whole affair "from a very petitfogging point of view" and urged a broader outlook in a spirited address.

"I stand here with a record as a very staunch supporter of water for Gordon Head, and I promise you that, if Wards Seven and Two get their sewer by-law through this Summer, you men shall have the same chance at that employment as I am to-night asking you to give the other."
