All Kinds of Stock in Season

To the Trade

THIS Catalogue is our agent, and we trust that you will find something herein that will interest you, and lead to us having an order from you.

We describe goods in this list in as brief and straightforward manner as possible, and guarantee every article as represented. If you do not find it so, you can return it immediately at our expense, excepting cut flowers. They being of such a perishable nature, it is necessary that our responsibility ceases after we make delivery to express company in good condition and on time, as we cannot be responsible if flowers do not reach you on time, or in good condition, as we do not regulate the railroads or the weather. Although we shall always entertain any complaints that may come before us, and do all within our power to have matters adjusted satisfactory to all concerned.

We desire to impress our customers with the fact that we execute orders by mail, telegraph or telephone in the same careful manner as though you were buying personally over our counters.

The long list of customers who entrust their orders to us, and which is steadily increasing, is evidence enough that we are fast gaining the confidence of our patrons.

Two-thirds of our business is credited to our shipping trade, which has all been gained through our catalogue and advertising system. Why should we not devote our most careful

OFFICE

CUT-FLOWERS DEPT

attention to it? We want our customers to feel that confidence in us, that it matters not what they order, whether it be five cents worth or five hundred dollars worth, that their order will have the same careful attention.

Customers who have been dealing with us from the time we first started a catalogue business will readily see the progress we have made in past five years, and we are constantly taking on new departures and increasing our stock to such an extent that we are now fairly crowded in our large quarters, which are by far the largest in this line of business in Chicago and the west.

We can supply everything our customers may fall in need of, whether pertaining to the florist business or not. We act as purchasing agent for you on anything you desire to buy, and we can save you money.

We are located in the center of the wholesale district of Chicago, the greatest distributing city in the world, and can secure everything and anything known in the manufacturing and commercial world. Send us your orders on your wants and we will guarantee to save you the retailers' profit.

We cheerfully answer all inquiries. Should we make an error, write us about it, we will adjust matters all satisfactory. We are all liable to make mistakes. Think of some you have committed in your time.

Thanking our many patrons for their favors in the past and trusting to have a continuance of the same, which will be treated with the utmost care.

Respectfully,

McKellar & Winterson

...IMPORTANT...

Our Responsibility. Prices given in this catalogue cancels all previous quotations. Prices are subject to unusual fluctuations of the market, without notice to purchaser. All goods are guaranteed as represented, and if not found so; we will cheerfully exchange for other goods, or refund the purchase price, as you may instruct. All claims must be made immediately upon arrival of goods. While we exercise the greatest care to have all seeds and bulbs pure and reliable, we do not warrant the same, and are not responsible for any loss or damage arising from any failure thereof in any respect.

Terms. • Our terms to customers having open account with us, and approved credit, are 30 days on all purchases. 3 per cent. cash in 10 days.

FOR CASH IN 10 DAYS.

Special Cash Discounts on Wire Designs

Orders from \$10.00 to \$ 25.00, 25 per cent. off our list price.
Orders from 25.00 to 50.00, 30 per cent. off our list price.
Orders from 50.00 to 100.00, 35 per cent. off our list price.

Write for special discounts on orders over \$100.00.

All Cut-Flowers, Bulbs, Seeds and Plants net catalogue prices, unless otherwise mentioned. Cut-Flower Price List mailed weekly on application. New customers not having a rating in commercial agencies, will kindly send cash with order, or satisfactory Chicago references, to avoid delay in filling orders; otherwise goods will be shipped C. O. D. All C. O. D. orders, to secure immediate attention, must be accompanied by a remittance equal to one-fifth the value of the order, to be applied as a guarantee of the transportation charges and as evidence of good faith on the part of the purchaser. Such advance will be deducted from the total amount of the collection when goods are accepted.

Remittances.

Send all money in the following manner, viz: Bank Draft, Postal Money Order or Express Money Order. We reserve the right to delay orders accompanied by private checks until checks can be collected. Expense of collecting same will be charged.

Goods used or damaged after leaving our hands cannot be returned unless by special agreement. Goods bought outside or made to order, will not be exchanged, if sent as originally ordered. When ordering goods, always take advantage of full freight rate. Should you order goods weighing, say 20 pounds, and freight rate to your destination, say is \$1.75 per 100 pounds, look over your stock carefully and you will undoubtedly find something else you are in need of, and by ordering at same time you can have shipped with other goods up to 100 pounds without additional freight charges. This means quite a saving at end of the year.

Notice to Cut-Flower Shippers.

All cut-flowers for market should be carefully packed and shipped to reach us as early in the mornings as possible. Should you not have enough stock to make daily shipments, make shipments on certain days to suit your cut, and ship regular on those days. Mondays, Wednesdays and Saturdays are the best market days; Saturdays especially. We prefer daily consignments if possible. Always put plenty of foliage with Violets, Valley, etc. Never mix long and short stemmed roses together; always grade into first and second quality. In bunching Carnations be careful to have every one a good flower, as one or two inferior blooms will oftentimes condemn the whole bunch, and a lower price is the result. Bunch the poor Carnations separate; we can then sell them for what they are worth. Growers who can ship Sunday mornings, do so, as Sunday is becoming a good day for disposing of stock. Our store is open until noon Sundays. Always be sure to put consignment slip with every shipment; should you be out of consignment slips, addressing tags, etc., notify us and we will furnish same.

Respectfully, **McKELLAR & WINTERSON.**

EVERBLOOMING ALLEGHENY HOLLYHOCKS.

This new variety blooms the first year from seed, and the flowers are most decidedly different than those of the 1d type. They are much larger, 4 to 5 inches in diameter, double and semi double, fringed and curled. The colors are shell pink, rose and ruby red, a shade or two deeper at the center, and exquisitely tinted toward the edge. Mixed. Trade Packet 25c.

ISMENE CALATHINA

..OR..

SUMMER AMARYLLIS.

This Amaryllis, while yet quite a new thing, and very little known of it, is going to be a very profitable article for the florists in general, it being well adapted for both funeral work and for decorations.

It is a very free bloomer, bearing large trusses of pure white Lily shape flowers.

Select bulbs, per doz. \$2.00; per 100 \$12 00; per 1000 \$100.

Second size bulbs, per doz. \$1 00; per 100 \$7.50; per 1000 \$60.00.

PRIMULA.

M. & W's Premium Mixture. Composed of the Giant sorts Chinese Primulas. Fine variety of colors, largely the more attractive and better selling shades. Trade packet 50c; 1,000 seeds \$1 10.

PRIMULA FORBESI.

The grandest and most profitable variety for florists. Produces flowers in three months from seed, and blooms in abundance ten months. It is a robust grower, and thrives even in comparatively a cool, dark place. Stems 10 to 12 inches high, buds grow in clusters of about 20 and open four or five at a time, which makes it a good thing for cutting, as it lasts a full week, opening fresh flowers every day. The blossoms are not quite one-half inch in diameter, of a pleasing rosy lilac with yellow eye. Trade packet 25c.

SPIRÆA ASTILBOIDES FLORIBUNDA,

The Best for Easter Sales.

NAMED DUTCH ROMAN OR MINIATURE HYACINTHS.

These cannot be excelled for growing either as cut-flowers or pot plants, owing to cheapness of bulbs and earliness of flowering. The named varieties are particularly good for growing three or six in a pot, as they produce strong spikes, almost equal to those of the second size named; flowers are stronger and larger than blooms of French Romans.

Prices quoted are for first size bulbs and NOT for SECOND SIZE as generally supplied.

SINGLE NAMED HYACINTHS, FIRST SIZE.

Named Dutch Roman Hyacinths are now largely grown for pot plants.

NAMED HYACINTHS.

Second Size.

These are usually sold under the name of Selected first size, and in comparing prices please bear this in mind. While it is true that some will not produce as large and full spikes as our first size they will nevertheless give good satisfaction. Particularly commendable for bedding where solid colors are desired. For description as to color, etc., see under first size named.

TULIPS.

SINGLE TULIPS.

NOVELTY, OR MAMMOTH LA REINE TULIPS.

Flowers of these "Novelty" Tulips brought the past season the highest price of all varieties sent in to the Chicago market, and they have been shipped in large quantities as far as New York City. They are produced from mammoth bulbs of the variety "La Reine," and by growing them in a cool and shaded situation after they come into bud.

LARGE FLOWERING TULIPS.

For Forcing and Bedding.

Best forcing varieties for cut flowers here have proved to be La Reine, Keizerskroon, Yellow Prince and Murillo. These varieties can be safely recommended. We handle strictly first size Tulip Bulbs. Not less than 260 of a variety at 1000 rate, nor less than 25 at 100 rate. We recommend the following as being some of the most profitable varieties to grow for cut-flowers; we import large quantities of these, securing the choicest bulbs obtainable in Holland. **Note low prices.**

JAPAN GROWN LILIUM LONGIFLORUM.

Orders placed now will be most certain of delivery and secure inside prices.

Japan Liliium Longiflorum have proved a most desirable substitute for Liliium Harrisii for late Easter flowering because of their comparative freedom from disease, as well as being unmixed with the latter variety. While they are later blooming than Harrisii, florists should experience no trouble to bring them into flower in good time since Easter does not occur in 1900 until 15 days later than in 1899. Owing to the increasing demand for this Lily the supply will likely be exhausted before planting time and it is doubtful if late orders will be filled in full. Prices subject to change. We supply 250 at thousand rate.

LILY OF THE VALLEY.

Our strains of Lily of the Valley are the best the market produces, and stock sent out by us last year gave the best of satisfaction. We shall deliver this stock as early as the same can be secured from the growers after maturity. Pips will be of the best quality which the season affords, carefully grown, as well as ripened and of full size. Such as with proper handling ought to give most satisfactory results—so much, however, depends on the treatment of this stock in forcing and storage that we will not assume any responsibility for the crop.

Artificial Plants, Flowers and Prepared Tropical Palms.

All prepared palms are shipped without pots or tubs, as it reduces the express charges. They can be placed in any ordinary pot or tub filled with sand, cement or soil. The leaves on these Palms can be taken out and dusted or washed with water and reinserted in socket. On receiving these Palms, put them in any ordinary flower pot filled with sand, cement or soil and shape plant carefully. The increasing demand on these Palms has been so great that we have put in a full stock of them, and can fill orders on very short notice. Some of our best decorators are now using these plants for decorations, as they are a great saving of stock, as experienced with natural palms. Our prices are very low.

We can supply an excellent imitation of almost any known flower in a very fine quality, and will be pleased to send description and quotations if desired. Our American Beauty Rose for instance, see cut No. 1533, is such a good imitation that they will deceive any expert at the first moment until the touch will teach him the nature of the goods

REMEMBER

We are strictly headquarters for fine Cyclamen Seed and Plants. The cut shown here was taken from a photo taken Dec. 18th, 1899, with 52 open flowers at that time. It will readily be seen that the plant is perfection itself, being very symmetrical.

As all florists know, it is a very hard matter to secure natural orange blossoms just when wanted, therefore you will find these blossoms very useful, and all florists should have a small stock of them on hand. They can be used to great advantage and are very like the natural flower.

We can supply any kind of Artificial Leaves, Flowers, etc., not listed in Catalogue. Write us for prices on anything you may want in this line. Our prices are very low.

ORCHIDS

HOUSE OF CATTLEYA TRIANAE

We have made arrangements to act as western agents for one of the largest importers and growers of this most beautiful and rarest of all flowers, and we are enabled to offer at lowest prices stock of all the leading varieties as well as the special novelties being introduced almost continually. In addition to this list we have numerous other varieties being imported constantly from the forests of Mexico, Central and South America and the East Indies. If you are interested in Orchids of any kind write us and we shall be glad to submit lists and prices on any novelties received.

We have handled enormous quantities of cut Orchid Flowers, from same shipper for whom we offer plants, and have always found them far superior in quality to anything in the market. The steady increase in demand for Orchid Blooms has led us to handling the plant stock as well as blossoms, and growers will make no mistake by investing in this stock for commercial purposes. Orchids are pronounced by professional

growers to be the easiest plant to grow of any in existence, after once becoming familiar with their habits.

We can safely guarantee the very best stock that can be obtained at the lowest possible prices. The prices are liable to fluctuations according to the market.

You can safely entrust your orders to us on either plants or flowers of Orchids. We always aim to keep a steady supply of cut Orchids on hand.

GRAFTED ROSES ON MANETTI.

FORCING VARIETIES.

Ready after March 1st. \$10.00 per 100.

Bride, Perle, Bridesmaid, Kaiserina Augusta Victoria, American Beauty, Meteor.

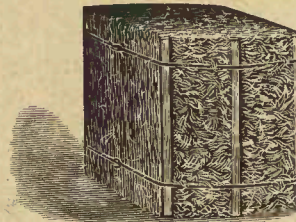

The demand for very high grade cut flowers has led to a consequent demand for that stock which will give the largest blooms on the finest stems, and it is the general consensus of opinion that Teas on Manetti are far superior in this respect. One of the most noted growers in this country says that "good grafted stock brings from 60 to 65 per cent of highest grade blooms where own root stock will give only 30 to 35 per cent of the same."

SPHAGNUM MOSS

PUT UP IN NEW FORM

We are Strictly Headquarters on Sphagnum.

DRY WEIGHT 30 TO 40 LBS.

A GREAT improvement in baling Sphagnum Moss has been achieved in baling it more compressed than in the old method of the burlap bales. These bales contain the same amount of moss as burlap bales but are only about one third the size, though making it much more conveniently in handling and storing. This is strictly high grade moss, clean and free from sticks.

DIRECTIONS FOR USE:—Do not undertake to pull the Moss apart when dry. When opening the Moss for use, cut the wires and pour water on one of the sides of the bale covered by slats and you will find the fiber is uninjured, and that the Moss will shake out loose and fresh as when gathered from the marsh. The compactness of the bale excludes the air and makes the keeping qualities, as well as its convenience, far superior to the old methods of baling Moss.

Jas. Vick's Sons, Florists and Seedsmen, Rochester, N. Y., write us: "We followed your directions in cutting wires and wetting down the Moss, and it is the finest sample we have ever used, perfectly free from roots and other matter."

In ordering parts state the size of Wrench.

All sizes to 24 inch packed in wood boxes of 1/2 dozen.

36 and 48 inch packed in wood boxes of 1/6 dozen.

This Wrench is drop forged from bar steel, is interchangeable in all its parts, and has no wooden handle to break.

Does not lock upon the pipe, but releases its hold readily. Grips the pipe firmly without lost motion. Does not crush the pipe nor slip. The movable jaw and the nut are made with a round top and bottom thread, guaranteed not to strip or bur. An inserted jaw is placed in the handle, which can be renewed for little expense when dull or worn.

NOTICE. When ordering parts for Wrenches state whether for Trimo, or for Trimo A. The name is stamped on each handle.

Will leave no bur on the pipe.

This pipe cutter is made in three sizes, Nos. 1, 2 and 3, and to cut pipe from 1/8 to 3 inches. It has points of superiority over cutters heretofore in use.

1st. The construction of this cutter is such that it does not crawl either to the right or to the left, but cuts a square end every time, and also saves materially the breakage of the cutting wheel.

2d. It leaves no bur on the pipe, but is smooth and ready for the threading die without the use of a file.

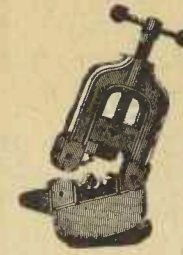

3d. The cutting wheels are drop-forged and from the best of tool steel. The bur removing rolls are case hardened. This tool is made throughout in a workmanlike

manner, and is giving the best of satisfaction.

MALLEABLE SWING.

The Malleable Iron Pipe Vise is preferable to the cast iron vise in every respect, being much lighter, more durable and cheaper. Has interchangeable cut steel jaws, and is constructed to do the heaviest work, great care having been taken in manufacturing the various parts, and the strength put where it is most required.
