A long-exposure photograph of a rocky coastline at night. The sky is filled with stars, and the Milky Way galaxy is visible, arching across the upper half of the frame. The foreground shows dark, jagged rocks in the water, which appears blurred due to the long exposure. The overall scene is dark and atmospheric.

**Scoping is all about
our aspiration!**

The background is a light gray collage of various line-art icons. These include architectural structures like the Brandenburg Gate and the Eiffel Tower, geographical maps of continents, animals such as a kiwi bird and a kangaroo, scientific symbols like a planet Saturn and a satellite, and other cultural or historical figures like a person with a headband and a sphinx. The icons are scattered across the white background.
