VICTORY FOR SCIENCE.

Frost Can Be Successfully Warded Off by Smudging.

George A. Fleming of Visalia, profiting by a paper recently written by W. H. Hammon, forcast official of the United States Weather Bureau here made an experiment during the recent cold snap and succeeded in protecting the fruit growing on his 400-acre farm from any damage by frost. His neighbors' crops, which were unprotected, suffered quite seriously.

Hammon's method was somewhat of an improvement over the one recommended by Finkel of San Bernardino. The latter advised the use of large vats of water with fires built around them to produce condensation. Hammon suggested the use of small fires, sprayed from time to time. The large fires recommended by Finkel, he thought, would produce an updraft carrying the moisture too high to do any good. In turn Fleming has improved on Hammon's idea. His method is described in a letter written to Hammon and received yesterday. The letter reads as follows:

Dear Sir: Your valued favor of the 3rd inst. relative to protection from frost received. Thanks for valuable information conveyed. Have made use of it to our great advantage three times during the latter part of last week. Damage is reported within a few miles of us where no effort of protection was made, but can discover no evidence of frost here at all. Almonds, early plums, apricots and peaches, all of which either in blossom or already formed, escaped the slightest injury.

In endeavoring to carry out your idea of evaporating as much water as possible with the least amount of rising heat we used several plans. We could not spray water on our fires, as, in order to make evaporation continuous, it required a man

to attend each fire. We burned brush beforehand on our avenues and open spaces, and the beds of live coals formed were smudged with wet straw and manure several hours before sunrise and kept wet.

This could not be done among the trees without danger of burning them. We therefore heaped wet straw on a wire network four feet square stretched from four stakes driven into the ground, the straw being about one and a half feet from the ground. Small fires were built under them, and a man could attend to several, occasionally replenishing the fire and wetting the straw.

But we finally hit on a still better scheme. We built similar wire frames on our low truck wagons, stretching them from four wagon stakes and heaping wet manure over them. Dirt was thrown on the wagon beds to protect them, and pots of burning tar was set underneath the straw roof. A barrel of water on the wagon was used to keep the straw wet. These wagons were driven about and did the best work, as they could go wherever most needed. The smoke and vapor were carrier to the rear as the wagon moved, and, being at once out of the rising heat, fell close to the ground in a long white trail. At daylight our whole 400 acres of orchard was covered with a white fog extending from the ground about twenty feet high.

It looks now as if one could absolutely protect against any ordinary frost, and if so you will have earned our everlasting gratitude.—*Chronicle.*

Grand Concert.

The concert at Masonic Hall, Los Gatos, Tuesday evening April 7th will be an event of unusual merit. The San Jose Orchestral Society will be represented with thirty pieces. The d'Ablaing String Quartette will assist. The program will also include cornet, trombone and vocal solos by the best San Jose talent. Prof. F. Loui King of Kings Conservatory will act as director.

Justice Court.

On last Monday the case in which Michael Kerlock was charged with unlawfully taking water from the irrigating ditch of the Santa Clara Valley Water Company came up before Justice Campbell, District Attorney Harrington representing the prosecution and C. W. Davison the defence. The evidence given in by witnesses examined seemed to indicate a simple misunderstanding as to the use of the water and the jury very promptly brought in a verdict of "not guilty."

An attachment suit came up before Justice Campbell on last Thursday morning. Ed Gilman had caused an attachment to be placed on a house belonging to E. M. White to force the payment of a rent bill claimed to be due. Mr. Gilman acted as his own lawyer, while Mr. White was represented by Attorney C. W. Davison. The defense claims a yearly contract which in accordance with law produced on the subject would give the privilege of paying at the end of the year. The judge took the case under advisement until Friday morning when he gave his decision in favor of the plaintiff. The defendant has appealed to the Superior Court.

A Chinese Wedding.

On next Tuesday evening at Y. M. C. A. Hall will occur a most interesting event—a very realistic representation of a Chinese wedding conducted by Wong Foo Shun. The participants will all be arrayed in gorgeous Chinese apparel and the various scenes will be illuminated by calcium light. The above gentleman will also give an illustrated lecture on the manners and customs of the Chinese. Admission 15cts. Children 10cts.

A Successful Entertainment.

The musical and literary entertainment given at Y. M. C. A. hall on last Tuesday evening brought out a full house and the interest manifested would indicate that all were well entertained. The program consisted of four or five selections by the Y. M. C. A. band under the able leadership of J. W. Clink, a very interesting reading by Mrs. A. P. Merrill a five minute speech by F. M. Righter and a debate on the subject "Resolved that city life is more advantageous than country life." Charles Berry as principal on the affirmative was ably assisted by Royal Turney and Rev. Wm. Angwin while F. M. Righter took the negative of the question with Mr. D. Coats and E. E. White as assistants. The question was warmly contested both sides using strong arguments in support of their positions. The verdict of the judges was, however, given in favor of the affirmative the arguments of the champions of city life, in their judgment, being best sustained.

THE PIONEER PAINT SHOP.

The Pioneer Painter, C. A. Sutter, Located in His New Quarters.

A few weeks ago the foundations of a building were laid opposite the post office on Campbell avenue which have since grown into a very commodious business house known as the Pioneer Paint Shop. The building was built to meet the demands of the growing patronage of our popular house and carriage painter C. A. Sutter who for the past five years has been carrying on a successful business in his line in our progressive village. Coming here when the town was in its infancy Mr. Sutter has the honor of being the first painter to establish a business among our people and is therefore justly entitled to the name which adorns this new establishment. He has lately had the good fortune to secure the services of Mr. R. Sylvester of New York who has been employed in some of the foremost carriage shops of the East and whose work cannot be excelled by any brush artist on the coast. That the work being done in the Pioneer Paint Shop is appreciated is evident in the fact that the work rooms are crowded with buggies and wagons and many other customers are wait-

ing to get their conveyances into the shop. The Pioneer Shop boasts one of the finest varnish rooms to be found in the state and the work which is sent out from it the proprietor would willingly compare with the production of any shop in the country. Anyone wishing a conveyance painted or anything in the line of house painting, paper hanging or fancy decorating should not fail to call and inspect the work and get prices at the Pioneer Paint Shop. Remember the location, Campbell avenue, opposite the post office.

THE VISITOR AS AN ADVERTISING MEDIUM.

That the VISITOR has great value as an advertising medium will not be questioned by those who know the class of people among whom it circulates. The citizens of Campbell and the country tributary thereto are very widely known as the most prosperous and enterprising people of the banner county of the State. They are a thrifty people, not given to extravagance, but as a rule able to buy and pay for what they need. The merchants who secure their trade get their best customers. The VISITOR, being the only local paper, is by far the best means of reaching and securing their trade and no where will your advertising bring you better returns for the money invested. Write for rates to the CAMPBELL WEEKLY VISITOR, Campbell, Cal.

AFTER another short dry spell the refreshing rain again put in an appearance on Wednesday and brought the rainfall at Campbell to probably something like 11 inches. With this and the season not yet over we need not worry about an insufficient water supply yet awhile.

The Agricultural Department of the University of California will furnish the farmers of the State the following varieties of seeds for the mere cost of postage and packing: Small clover, square pod pea, seven different kinds of grasses, including the Texas blue grass, Australian salt bush, sacalene, flat peas, modiola, paper mulberry tree, guavas, tobacco, sugar cane, the best varieties of wheat and barley, flax, buckwheat, and a variety of other useful plants.

THERE is going on in Campbell a steady and, we believe, a very healthy growth. New enterprises are springing up as the way seems to open for them. They are not, we believe, forcing themselves on the people but are begun because of a demand for something of that character in the town. We should give those who cast their lots among us in these new lines a welcome—and do all we can to assist them in building up a trade. If our business men will but work in harmony for the welfare of the town and the best interests of its citizens and the people in turn stand by the business

houses, there is no reason why ours should not continue to be the most prosperous community in the state of California. "Let peace and harmony reign supreme" and success must follow. But where discord, jealousies and disruption prevail disaster is the inevitable consequence. If this fact could but be burned upon the minds of every citizen that in patronizing and encouraging in every possible way home industries they are but making their own success more of a possibility—that part of the money expended will in all probability return to them by their employment by the merchant patronized or by the employment of someone else who will in turn give them employment, or possibly in some more indirect though just as acceptable a manner—the lot of every one in the town would be made comparatively easy.

Rose Carnival Committee.

The Committee recently appointed to arrange an exhibit for the Rose Carnival met at the hall yesterday afternoon and organized with E. N. Parr President and Dr. C. N. Cooper Secretary. A vote was taken on the matter of arranging a float for the Carnival parade and unanimously carried. Dr. Cooper was appointed a committee of one to confer with the people of San Tomas district in reference to uniting with Campbell in the booth. The committee decided that the float should contain a camel and that Lena Swope should be the "oriental queen." Mrs. Turney was appointed to select pages for the queen. A committee to select the booth and ascertain what would be required to decorate it was appointed consisting of D. Coates Mrs. Moore and Mrs. Turney. As a committee on float D. Coates, Mr. Rodell and Jas. Kennedy were appointed. The ladies of the general committee were appointed to look after booth decorations. A finance committee was appointed as follows: Mesdames, Call and Righter and J. C. Ainsley and F. M. Righter. The committee decided to invite the Campbell Band to participate in the parade. An adjournment was then taken and another meeting appointed for April 4th at 2 P. M. at the same place.

After the entertainment on Tuesday night a short meeting was held in the interest of the Rose Carnival. The following were appointed as a committee to look after arranging a proper representation of Campbell at the Carnival: Mesdams H. S. Foote, C. C. Call, Wm. Moore, F. M. Righter, W. W. Turney, E. H. W. C. T. U. COLUMN.

The members of the W. C. T. U. of Campbell cordially invite a perusal of this column the matter for which is furnished by members of the society.

One's duty to self, home and race are inseparable. Be a good workman and you are a good citizen. Be a good citizen and you are fitting yourself for heaven.—*Rev. Jenkin Loyd Jones.*

At the close of the last speech that the noted John B. Gough ever made he said: "Young man, keep your record clean." Good advice, even from a dying man—as it was in his case.

In the light of eternity we shall see that what we desired would have been fatal to us, and that what we would have avoided was essential to our well being.—*Fenelon.*

When bad men conspire for wicked purposes, good men must combine to save the individual and secure the welfare of society.—*Bishop Mallieu.*

Lucy Stone used to say, "Boys are like vinegar; the more mother they have in them, the sharper they are."

Dr. Keeley says mothers and nurses by giving soothing syrup, opium and drugs are making drunkards of babies.

All the pastors of the churches of Columbus, Ohio, spoke against the saloon at their last Sunday evening service.

No new licenses can be granted for saloons in New York State within two hundred feet of a church or school. Thus saith the Court of Appeals.

The State of Washington is almost a prohibitory State. Under local option seventy per cent of her counties have voted against licensing saloons.

The corrupting influence of the saloon on politics in New York can be understood when it is known that 633 primaries were held in these places.

Patronize Home Industry.

The White Star Laundry will in a short time be located on Harrison avenue just north of the Ainsley cannery. The people of Campbell should remember that they can get all kinds of laundry work done right at home in the very best manner. In patronizing home industry you are making it possible for such industries to exist. If you fail to patronize them you are not only helping to drive them out but are injuring your own prospects of success by taking elsewhere the trade which would help in the prosperity of your own town. The White Star Laundry Company have lately put in new machinery for doing gentleman's fine shirts, collars and cuffs and the work is guaranteed equal to any San Jose Laundry. Add your name to their list of patrons if you have not already done so and place yourself on record as one who desires to make Campbell the most prosperous village in the state.

Dear Sirs:—My Acme Light Roadster arrived yesterday morning and not only myself, but everyone that has seen it pronounces it a strictly first-class wheel and a beauty. I am very well pleased with the same, and will do all I can to get a great many more to buy your wheel.

Dear Sirs:—Having given my wheel a good trial, am ready to say I am exceedingly well pleased and thank you very kindly for the favor and privilege you have given me. I showed the wheel to one of our prominent bicycle agents, who did his best to sell me a wheel, and he said after taking a short ride on it that it was a fine wheel; and I know if the material is as good as the finish, I will never regret my bargain.

Yours truly
