considers to be in the interest of the occupation.

'From an examination of the record it is clear that the FEC has not taken any action denying SCAP the auth to approve Jap intercourse with the outside world. In fact under the broad policies of the FEC, SCAP is correctly allowing Jap internatl relationships of a limited character. Not only will the Jap thru such participation acquire direct experience and knowledge of democratic practices but also the vestiges of hatred and suspicion of the Jap left over from the war will tend to be dissipated.

'It is not the legal auth of the FEC which is important but rather the assumption of enlightened leadership by the FEC member govts. No matter what position the FEC takes, any govt may still refuse to enter into relationships with Jap or deny Jap access to its territory. Likewise the determination of whether or not Jap should be invited to participate in internatl orgs or conferences lies with the member govts concerned.

'Almost 4 years after the war it is obvious that increased participation by Jap in internatl relationships under the control of SCAP will be a measurable step toward achievement of the allied objective to foster the growth of a democratic and peaceful Jap"

Statement received various press interpretations. Wash. Post Aug 19, reported briefly Gen MacArthur going ahead with plans to allow Jap limited contact with other countries. New York Times Aug 19 quoted above statement in part and futher commented as fols:

"The State Dept indicated today that it was fully supporting Gen Douglas MacArthur in his encouragement of the Jap to resume semi-dipl relations with outside world. The FEC, it is understood, has been sharply divided on the advisability of this policy.

'The US proposed to the Comm several months ago that Gen MacArthur be authorized to permit Jap participation in internatl conventions and mtgs, and to conclude consular and other bilateral accords with such countries as were willing to reestablish relations of a commercial nature.

'The FEC however has not concurred in the US suggestion.

'A State Dept spokesman took the position today that, since the Comm has not taken action to deny Gen MacArthur this auth (an action it cld not take over the veto of the US rep) he is "correctly allowing Jap internatl relationships of a limited character."

'It was explained that there was no present intention of

permitting the Jap to establish dipl missions abroad or to set a full fledged consular system. What was in mind, it was said, was an arrangement similar to that now permitted to the Gers, under which trade missions travel about the world seeking export opportunities.

'An early attempt to secure Jap participation in the Internatl Communications Conference in Paris failed when the conferences council ruled that Gen MacArthur had no auth to accredit the Jap as participating members and declined to seat them."

For URINFO US proposed policy still under consideration FEC which is not mtg during Aug. Dept taking no further action pending receipt and consideration concrete plan (URTEL 264 Jul 28) which you report now under study by hdqrs.

Considering above press statement not formal release and given for general info purposes, wide press coverage and emphasis received not anticipated. Unfortunately some press accounts gave impression US acting unilaterally without further consideration interests FEC.

Privately owned Hsin Min Pao and Nanking Jen Pao Aug 13 feature Hsin Hua Aug 12 release entitled "US imperialists fearful of rapidly increasing Japanese democratic force."

Summary follows:

US reactionaries plan tighter grip on Japan to transform it into US base in Far East as replacement for their lost position in China.

Reliable sources from Tokyo state SCAP experts have mapped out report entitled "US and the Japanese problem." Polit section of report expresses alarm over rapid growth Jap democratic force, believes Communist influence has reached "threatening proportions." Report suggested scope of polit activities of leftist elements be reduced through admin measures, expressed dissatisfaction over impotence of "US fostered Jap reactionary government" stating Jap polit parties had no definite polit platform, no real polit followers. Thus, report demands Japan organize

strong, powerful government absorbing into it Jap leaders of Second World War that they might lead struggle against leftist elements. Report also suggested all Jap Government organs install US advisory groups.

Economic section of report advocates rebuilding Jap economy to create firm foundation for US-Japanese cooperation. This will assure US monopolistic, capitalistic interests in Asia. It suggests establishment of US-Jap company in Tokyo to export goods to southeast Asia, also enlargement of Marshall Plan. Results such measures would be increased dependency of Jap economy on US.

In section called "peaceful adjustment," report suggests establishment of former "polit cooperation between US, Japan." This obviously connected with US plans to delay signing Jap Peace Treaty and prolong occupation. According UP Aug 4 New York dispatch, article concludes, US Naval circles advocate permanent US control of Sasebo, Yokosuka.

Overnight info Policy Guidance 268 Aug 16.

1. Germany East Zone. Watch for leaks Soviet Zone production figures wwhich will provide useful pegs for exposing falsifications of economic situation in Soviet Zone.

2. United Nations.

ECOSOC meeting should receive good play as truly substantial session.

Cautions.

1. Media should not imply funds available immediately or after next meeting of council. FYI UK and several other countries can not appropriate funds until spring 1950.

2. Agreement is reached on a program but that program has not yet been achieved.

3. Avoid treating technical assistance as coming from US alone. Some underdeveloped areas expect seek assistance from semi developed areas as more practical than from US. Emphasize multiple character of interchange of technical assistance rather than bilateral between US and others.

4. Technical assistance requires buttressing of capital investment, but ECOSOC is not yet ready proceed that direction.

5. Avoid unduly emphasizing of participation of international bank in technical assistance program.

3. Cuba Day Ceremonies in Miami Florida (August 21) include: Arrival of the Jose Marti Aug 19; unveiling of bust of Dr Carlos Finley Aug 20; visit of Carlos Romero Cuban Minister Health, and dinner given by Mayor of Miami Aug 21.

4. Japan:

Stories of decrease of military government in Japan do not mean military govt is being eliminated. Military govt control is simply less intensive and there is greater Democratic internal control. This will not change fact that Japs will not resume international relations prior to establishment of peace treaty.

pared retreat from principle that there shld be no distinction re right strike between workers in govt enterprises and workers in private enterprises. He added he thought it useful to clarify difference between FEC-318/20 which attempted deal with only one specific aspect labor problem and to do so in correct and dignified manner and Sov proposal which had been reintroduced at each successive level of discussion and had been accompanied by numerous statements dealing with such questions as repressive measures by Jap police no discussion of Sov proposal.

Japanese reparations and level of industry (FEC-340).

Chi member made statement to effect US reply of Jun 10 had in no way changed Chi views on matter. He desired to place on record comment that US statement particularly those passages where it interprets Para 11 of Potsdam Declaration are not convincing enough to meet points raised in Chi statement. His delegation had decided to defer fuller observations in order hear views other delegations on recent US statement, but resvd right to make another comprehensive statment of its position.

US member in reply Sov query of Jul 13 stated "The US in its statement of May 12 on Jap Reparation Issue concluded that: 'The deficit Jap economy shows little prospect of being balanced in near future and, to achieve eventual balance, will require all resources at its disposal'. It is the view of US that until Japan can regain a self-supporting status at reasonable standards of living-not likely, even according to most optimistic estimates, for some years to come, it will have no resources surplus to its peaceful needs available for reparations. Considering almost 4 years already elapsed since surrender and considering interest of all FEC nations in restoration of normal economic relationships throughout Far East at earliest possible time, exaction additional industrial reparations from Japan wld not now or at any future date be either feasible or desirable". Further consideration postponed. Soviet statement re alleged manufacture of armaments in Japan.

Sov member requested explanation of report in Agency France Press that Gen Niblo made statement that Ordnance Supply Service is manufacturing large quantity tanks and other military equipment in Jap plants with purpose of stockpiling supplies and Jap labor is being used in production of tanks and other mil equipment.

On Jul 29 US Delegation circulated reply to Sov query

This message in 2 parts.
Part 1 to BCOF.

A. Reference:
(1) URLTR QG/463/Maint, 25 May 49, subj: Surplus watercraft
(2) URLTR QG 555.11/5/Maint, 5 May 49, Subject: Procurement demands JPNO 1414 and 1913.

B. Reference A:
(1) CM-959 and CM-810 will be transferred to Chief Chugoku CAFF Region, Kure, Japan. Other craft listed will be disposed of in accordance with current procedures covering release of indigenously procured property (Circular 74, this headquarters, 20 October 48).

C. Representative this headquarters recently at your headquarters recommends immediate release of all craft listed on your Annexure 4, to Appendix B, above reference A (2), except serial numbers 2, 3, 14, and 27. Request comment and/or concurrence earliest.

D. Reports to this headquarters indicate offers for sale of material number of BCOF floating craft considered surplus. Understand engines are being removed from certain craft and hulls only are being offered for sale.

E. Imperative that each indigenous craft retained be fully justified because of impact on Japanese economy, and Eighth Army budgetary limitations JFY 49. Immediate nominations for release of each indigenous craft capable of being replaced by your service (Army or Navy) craft are requested. Further disposition instructions will be issued prior 15 August.

INFO : CSUSA WASH DC

NR : 30320 Z (MSG FROM STATE DEPT DTG 292350 Z) (STATE SRL 307, JULY 29, 5 PM SIGNED ACHESON)

Subj summary steering committee mtg July 26, 1949.

Fishing and aquatic industries in Jap (SC-271/22). US member submitted fol amendment to supersede US position as exprossed in US statement of May 24, 1949: That all of Para 2 [illegible] word "FEC" in 5th line be deleted and replaced with fol: "Asserts a direct concern in respect to fishing or other commercial aquatic acitvities. SCAP will attempt to secure consent of such country to an agreement reasonably calculated to benefit the Jap economy and to protect the legitimate interests of such country."

Chi member stated he could not accept US amendment restore fishing area near Chi coast. Indian and Phil members expressed sympathy with Chi position. Sov member took position expansion fishing area shld be left to competence FEC. Ch proposal to leave US amendment on Agenda in order enable comite have further discussion defeated by vote 3 to 2. US amendment accepted by vote 7 in favor, 3 opposed (Chi, Phil, USSR) and 1 abstention (India).

Re US amendment to add new Para 5 providing that "nothing in this paper shall be interpreted to apply to Jap whaling activities," Austral member took position that once whaling was mentioned conservation measures proviced for in Para 4 might be interpreted as not applying to whaling industry. UK, Indian and NZ members suggested that in place of US amendment fol understanding might be read into minutes: "This policy is without prejudice to position of the several members of the FEC re Jap

NR : 171540 Z

Tropical Forecast Number 12 for Typhoon Faye. Warning Northern Kyushu, Honshu west of 134 degs east longitude, Southern Korea, all clear for Honshu between Osaka and 134 degs east longitude, Shikoku, and Southern Kyushu: Advisory all others.

Typhoon Faye centered few miles west of Nagasaki which is about 70 miles southwest of Itazuke AFB at 172200 K in vicinity 32.8 north 129.8 east with maximum winds 65 knots. Faye moving north at 11 knots.

Faye forecast to move northward into Sea of Japan then northeast and be centered 50 miles north north west of Oki-Retto at 182200 K in vicinity 37.0 north 132.8 east. Maximum winds estimated 60 knots.

Typhoon Faye weakening rapidly tonight because of the terrain features of Kyushu, and as it moves into Sea of Japan it will continue to weaken and become storm intensity.

24 hour forecast for Northern Kyushu and Southwestern Honshu follows: Continued generally squally conditions with heavy rain along mountain ranges and high winds especially where terrain permits funneling of wind currents for maximum gustiness. Winds will shift from easterly to southeasterly as Faye moves northward. Kyushu weather will improve after 181200 K. Caution still advised against heavy rains and high winds especially through Island Sea between Kyushu and Southwestern Honshu.
