Asahi Chemical Industry Co., Ltd.

Authorized Capital: ¥ 54,400,000.

Paid-up Capital: ¥ 45,320,000.

| Area | Place | Class | % of Business to Company total | Name of Manager | Position Concurrently head |
|---|---|---|---|---|---|
| Tokyo-To. | Yaesu Building, No. 1, 2-chome, Marunouchi, Kojimachi-Ku, Tokyo-To. | Branch Office. | About 10 person were stationed as liaison men ~~with one~~ to receive instructions from the government. Accordingly, no business transaction was done at this office. | UTSUMI, Yasuzo. (Jan. 1944 - Feb. 1946) Permanently stationed in Osaka, concurrently chief of Tokyo office. | Managing Director. |

This is apparently a business office only comparable to so-called company liaison office maintained by many Co's at present. The mgr. has no standing as an independent official of the Co.

REMARKS:

(1). The business area of Himeji-branch office was transferred to the Kansai Electric Supply Co., and on Oct. 1, 1942 we have closed the branch office.

(2). The enclosed figures show the results of the time, when Himeji-branch Office was acting under our company.

(3). As temporary measure from Jan. 1, 1944 to May 25, 1945 the business of the Hiroshima and the Tottori-branch office was carried on directly by the head office, and between that time the branch office was closed.

**Statement**

1. We have not any office legally known as a "branch", keeping separate accounting independently. Our offices are only mere offices (they are of same class with each of other mills & offices) and not registered as legal branch.

2. Among our offices (other than the Business Headquarters), there is none that is called "controlling branch", all of them (namely, mills, offices, etc.) having equal status under supervision of the Business Headquarters.

3. Our offices abroad were established in order to take care of the sale of goods manufactured at the mill or mills concerned, and handling matters relating to business, such as the receiving of Business Headquarters' orders or instructions or of the authorities concerned, and the forwarding of such orders or instructions to the mills, etc., they being under the direct control of the president in Japan (Gengo Kodera, from Dec. 1936 to Sept. 1946), or under the supervision of the managing director stationed in China (Takasaburo Kuroda, from about 1939 to Dec. 1940, and Shigeru Nomoto, from Dec. 1940 to Dec. 1945).
The term in which each of the above mentioned two directors stayed in office in China is as mentioned above in brackets. Of the two, Managing Director Kuroda resigned from directorship in December, 1943 and at the same time retired from the company, whilst Managing Director Nomoto retired from both the post and the company on January 13,1947, and later, namely, on April 24, 1947, was designated as a person who came under the category of the Purge Directive.

4. The manager of each of the offices abroad was not different from any of the managers of the mills or offices or section chiefs in Japan in his qualification, being not an executive

officer but merely a staff member of the company.

5. With the exception of his own office, the manager of an office is not entitled to control any of the mills, offices, etc. in the neighbourhood of the place in which his office is located.

6. The Philipine Office (founded in April, 1943), the Celebes Office (founded in March, 1944) and the Siam Office (founded in February, 1944) did not business transaction.

7. The Tokyo and Nagoya offices transact only inter-office business concerning office management and look after the sale & purchase of goods under the instructions of the Business Headquarters, and do not carry on independent accounting. The scope of their activities is mainly confined to being intermediaries.
