October 28.

VOLUME I. NUMBER 52

NARBERTH, PA., THURSDAY, OCTOBER 7, 1915

PRICE TWO CENTS

NOTED ENGINEER TO EXPLAIN MAIN LINE ELECTRIC SERVICE

Ernest R. Hill, Who Planned and Constructed The New System, Will Speak at Presbyterian Church Next Monday Evening—Free To All

Why has the Pennsylvania Railroad electrified its "Main Line?"

Will the change help the people of Narberth and other suburban towns, and if so, how?

How will it help the company?

What problems were met and overcome in the two and one quarter years that the work was under way?

These and other questions of interest to every rider on the electric trains will be answered in a lecture that is to be given at the Men's Club of the Presbyterian Church by Ernest R. Hill, of the electrical engineering firm of Gibbs & Hill, of New York City, who planned the work and carried it through to completion. This will be the first public talk upon the subject by anyone who took part in the work.

The lecture, which will be given at eight o'clock, Monday evening, October 11, will be free to all and will mark the first meeting of the Men's Club for the present season. All men and women of Narberth are invited. The lecture will be free.

Mr. Hill will speak as the guest of the club and at its invitation. The lecture will not be technical but will deal with the subject in a way that everyone can understand.

Mr. Hill will, at the conclusion of his talk, gladly answer any questions that may be asked and clear up any points in regard to the electrification that the audience may be in doubt upon.

Everyone in Narberth must have been puzzled at one time or another about some feature of this work. Let Mr. Hill explain it to you.

Who Mr. Hill Is.

Ernest R. Hill is one of the foremost electrical engineers of America. He was born in Pompton, N. J., in 1872 and received his technical education at Cornell University from which he was graduated in 1893. He spent the next two years in general shop training at the works of the Westinghouse Electric and Manufacturing Company. From 1895 to 1901 he was special engineer at the Westinghouse plant, working under the personal direction of George Westinghouse in perfecting the electrically controlled air brake, for which he invented a number of improvements. During this period he also supervised the installation of all heavy railroad work by the Westinghouse Company and prepared the complete plans, contracts and specifications for other important engineering projects.

In 1901 Mr. Hill was sent to London as engineer-in-chief of the British Westinghouse Electric and Manufacturing Company, in charge of all the company's electric, steam, mechanical and civil engineering work in connection with the conversion of steam railroads to electric power. He also had charge of the company's work on water supply projects, and the engineering work in connection with industrial plants, mines, mine haulage and steam railways, including the design and construction of complete power stations, sub-stations, transmission lines, revision of track work, signal system and the ventilation of tunnels.

From 1906 to 1912 Mr. Hill was in the service of the Pennsylvania Railroad, engaged in the electrification of the New York terminal and tunnels. He had special charge of the design and construction of the power stations, track, line and cable equipment, electric locomotives, car equipment, signals, lighting, service power plant and service facilities of all kinds for the Pennsylvania station and yards. At the same time he was engaged in the extension of the electrification of the Long Island Railroad.

Will Our Town Suspend Publication?

This is the 52nd issue of Our Town—marking the first anniversary—and it may be the last!

With this issue the present editors resign. You'll find a brief statement from them on the editorial page.

For one month the Executive Committee of the Board of Directors of the Civic Association, which has in charge the management of the paper, has been endeavoring to find a new editor—or editors—and work out a plan for a co-operative editorial or reportorial board.

Up to the time of sending this issue to press the Committee has not been successful.

If some one, or several of the residents of Narberth do not volunteer immediately to edit OUR TOWN for a period of six months or one year, the paper will suspend publication to-day. George M. Henry, president of the Civic Association, and chairman of the Executive Committee, is the man with whom you should communicate.

What Is Needed.

An editor, or two of them.

Definite co-operation from every organization in Narberth.

Have you any idea of how many various organizations there are in the borough? Consider this list:

Churches.

Methodist.
Catholic.
Presbyterian.
Baptist.
Episcopal.

And all the various societies, associations and clubs affiliated with these churches.

Athletic Activities.

Football.
Basketball.
Baseball.
Tennis.

Official Borough Interests.

Council.
Board of Health.
Board of Education.
Public School.
Fire Company.

Civic Association.

Board of Directors and general membership.
Park Development Committee.
Women's Community Club.

Y. M. C. A.

General activities.
Athletics.
Religious.
Library.
Juniors.

Miscellaneous Interests.

Child Welfare League.
Fortnightly Club.

Woman Suffrage Party.
Automobile activities.
Narberth Assembly.
Young Folks' Sorority.
Private Schools.
Needlework Guild.

Every one of these organizations and activities is the source of news every week. Will the directing head of each take the responsibility of appointing one member to collect and write the news of his or her respective organization—and see to it that that person fulfills his or her duties?

If OUR TOWN is to continue publication it must be upon a co-operative basis—an actual and active co-operative basis.

During the past year a half a dozen individuals have taken upon themselves, personally, the responsibilities of collecting and writing the news and advertisements.

From some of our borough's organizations the editors have received generous co-operation, but for the most part it has been a straight newspaper job of "digging up the news."

Now that's all very well for newspapers that are commercial enterprises, but OUR TOWN is not in that class. It is a town—a civic enterprise, purely and simply. It is YOUR PAPER just the same as your house furniture is yours.

The Philadelphia newspaper cannot, and should not be expected to publish any Narberth news other than those happenings which are of general interest to Philadelphia and suburban readers. If you want all the Narberth news—all that concerns Narberth folks—you'll have to look to a home town paper.

Do you want such a paper? Have you enjoyed reading OUR TOWN; have you been interested in what has been printed in the last 52 issues?

We're not looking for bouquets—OUR TOWN is looking for an editor and a co-operative reportorial board.

If the editor or editors, and the reporters, with the co-operative plan for supplying the news of the town, do not materialize between now and next Monday night—this will be the last issue of OUR TOWN.

Do you want the paper to continue? It's up to you; Narberth folks—and especially you who have the capacity, by virtue of your special experience in newspaper and publishing work, to take up the job.

WOULD IT BE MISSED?

(To be sung to the tune of "Our Town.")

The real test of any publication is "How many readers would miss it if it ceased publication?"

Usually one turns to one or two or three local papers if one should go out of business.

Not so with the Upper Darby Herald. Were it to cease publication there is no paper now in existence that could replace it.

It is the only paper devoted to Upper Darby Township. It is in a position to do more constructive work vitally affecting the lives of its readers than any other paper published.

The Upper Darby Herald looms larger in the affairs of more homes in Upper Darby Township than any paper published.

We "take care" of Upper Darby Township only—but do that capably and well.—From The Upper Darby Herald.

STRUCK BY AN AUTOMOBILE.

Miss Frances Diamond, of Woodside avenue, met with a painful accident last Friday afternoon, in front of her home. She had been playing with some children and swinging on a rope, which made her dizzy. Before she realized it she lost her balance and fell into the street. An automobile happened to be passing on the north side of Woodside avenue. The driver could not change his course quickly enough and one of the mud guards struck Miss Diamond on the forehead, inflicting a severe cut. She was attended by Dr. Farles. Her many friends will be glad to know that she is very much improved.

Since 1912 Mr. Hill has been a member of the firm of Gibbs & Hill, consulting electrical engineers for the Pennsylvania Railroad System, the Chicago Association of Commerce, the Norfolk & Western Railway, the Public Service Commission for the First District of the State of New York, and the New York Connecting Railway.

BAZAAR AND ENTERTAINMENT AT ELM HALL, OCTOBER 22

An entertainment and bazaar is being planned by the Ladies' Aid Society of the Narberth Presbyterian Church. It will be held on October 22, in Elm Hall. Mrs. Lester W. Nickerson is president of the society, and she and the members are working hard to make the affair a big success.

Various organizations in the Presbyterian Church will have charge of the booths.

Mr. Poor's class will be in charge of the parcels post booth; the Mary and Martha Club will sell popcorn and candy; the senior members of the Ladies' Aid Society will have charge of the fancy tables; the Thimble Club will be in charge of the apron table, and Miss Maude Wipf and the younger ladies will sell grab-bags, balloons and other novelties.

There will be a home bake table, and lunch and supper will be served at individual tables between 5 and 7 P. M.

BURGESS HENRY HAS NARROW ESCAPE IN AUTO ACCIDENT.

Burgess George M. Henry and Mrs. Henry had a thrilling experience last Friday night near Collegeville. They were in their automobile on their way to Harrisburg. It had been raining and as they were crossing a trolley track on the outskirts of Collegeville the machine skidded on the wet rails, and stopped running. Mr. Henry saw that the rear of the car had not cleared the tracks and told Mrs. Henry to get out and go down the track and signal an approaching trolley freight. The motorman evidently did not see Mrs. Henry, or hear her calls, and before he could stop his train it had struck the auto.

Mr. Henry, with one eye on the approaching train, had remained in the auto trying to get his engine started. This he was unable to do and had to jump from the car to keep from being caught in the smash. He escaped injury but his auto was badly damaged.

NARBERTH'S FOOTBALL SEASON STARTS NEXT SATURDAY

Local Boys Will Meet the Strong Grace A. A., of Philadelphia, at Narberth and Price Avenues—Come Out and Cheer.

The first foot ball game of the season will be played on the Narberth base ball field with the strong Grace A. A. next Saturday at 3.30 P. M.

It will be remembered that this team held Narberth to a 6-6 game last year, and the members of our home team feel sure they will get full revenge.

Manager Jones has arranged a good schedule and has had the candidates practicing. He assures the patronizers of the gridiron sport that he will have a strong team on the field next Saturday.

The boys will appear on the field with brand new togs and will make a very nice appearance. This is the first year Narberth will have started the season in suits of like kind. This feature will make the game very much more interesting to their followers, and also enable them to distinguish their own boys.

This is one of the many advantages resulting from the work of the newly organized central physical committee at the Y. M. C. A. Communter Center.

It is hoped that a large crowd will be on hand at the initial game of the season and "be generous."

ATHLETIC FIELD ASSURED FOR USE OF SCHOOL CHILDREN.

A. C. Shand Buys Land Adjoining Schoolhouse and Grants Use to School Board.

The public-spirited act of A. C. Shand, of North Narberth avenue, makes the athletic field for the use of the school children an assured fact.

Mr. Shand has purchased the large area of ground adjoining the schoolhouse, and has granted its use for recreative purposes to the Narberth School Board until such time as the people of Narberth authorize them to purchase the land for their requirements.

The land has been in the open market, and some such far-vised act was necessary by some individual, lest it be lost for all time. Mr. Shand met the situation of his own will, and thereby once more puts himself on record—as he did in the development of Narbrook—as a believer in the New Narberth that is fast developing—a year-round home town that is in the vanguard of progressive action.

Surely, no thinking person can but feel happy because of Mr. Shand's action. We must not neglect to make this land our own when the opportunity is offered. It is necessary for the proper conduct of the school, and is good business.

In Newark, N. J., the City Commission is condemning eight to twelve acres of land around each schoolhouse to guarantee play and athletic grounds, as well as plenty of air and sunshine. Have we not one-tenth their vision?

Up at Ardmore, the Lower Merton Township School Board is now spending more than \$70,000 for land and grading of an athletic field which, when first proposed, about three years ago, could have been purchased for much less. Are we to make this mistake? Why should we? Ours is a small investment and will never be less than now—bound to be more.

Thanks to Mr. Shand this property is held in trust for the public good. Now, let the people as a whole awaken to the present opportunity and cash in on it before individual patience wears out. Let's do the right thing by our School Board this year!

The Evangel Circle of King's Daughters have decided to postpone their fair, which was to have been held the latter part of October, in favor of the Presbyterian Fair. The date of the King's Daughters' Fair is to be announced later.

OUR TOWN

Owned and Published every Thursday by the Narberth Civic Association.

E. A. MUSCHAMP,
W. ARTHUR COLE,
Managing Editors.
MAIZIE J. SIMPSON,

Police 1250.

EDITORIAL NOTES

"THE LAST CALL"

OUR TOWN will gladly print any news item about any subject that is of interest to Narberth folks, but in order to meet the printing schedule, all "copy"—manuscripts—must reach the editors by 6 P. M. Monday each week.

PLEASE OMIT FLOWERS.

This issue marks the retirement of the present editors of Our Town. They have enjoyed the work and hope that their services have done something toward making Narberth a better Year 'Round Home Town.

They have not grown fat nor rich at the job, but they have found many new friends, and they take this opportunity to thank all who have assisted in any way in getting out the paper.

ASHES—ONCE MORE!

Last Monday housewives of the southside were treated by the vision of empty ash wagons parading by their homes.

All summer long the collections have been every other week on Tuesdays. No notice of change having been given, they were not prepared for the Monday visitation.

When the telephones were used to make inquiry as to the change, the street commissioner replied that he had other work he wanted to do Tuesday, so he sent the teams around Monday.

When, oh, when, shall a schedule be planned that shall be regular?

This is really important, Borough Council.

THE NARBERTH VISION.

Suggestion for Chestnut Street Improvement by Narberth Man.

"Arcades for Chestnut Street.

"To the Editor of Public Ledger:

"Sir—While noticing paving on Chestnut street lately, I wondered why it would not be profitable to property owners and merchants, as well as to the city of Philadelphia, to spend enough on the street to make it one of the finest thoroughfares in America. This could be done by broadening the street so that the sidewalk on each side would be included in the street proper. This would necessitate remodeling all the buildings on both sides after the manner of the Commercial Trust Company at Fifteenth and Market streets. That is, the upper stories would remain as they are now, but the lower story would be cut back 15 feet, allowing the sidewalk to run under the covered archway. The result would be a beautiful wide street and protected sidewalks from, say, Ninth street to Broad street. This is probably a wild suggestion, but, once accomplished, would be an advertisement for Chestnut street and for the city that would pay mightily.

"CARL T. MATTISON.
"Narberth, Pa., Sept. 29, 1915."

WHEN CAN A YOUNG MAN AFFORD TO MARRY?

By Rev. Chris G. Koppel.
First Sermon in the Series: "Home—Its Making, Building and Breaking."

"Many waters cannot quench love, neither can the floods drown it. If a man would give all the substance of his house for love, it would utterly be condemned."—Song of Solomon. 8-7.

The ideal condition of man is to be happily married. Home, with love, and children, is the divinely appointed means for man's happiness. The longer I live the more I am impressed that the home problem is the greatest problem of our country. The home is the centre of everything. If the home life is pure, all is pure. The home is the foundation of morality, the chief educational institution, and the source of nearly all the real contentment among men. To create a maximum number of happy families is the end of all statesmanship. All other aims sink into insignificance when the stability of the family is at stake.

Hard times are always marked by a downward curve in the percentage of marriages. In our country the decline has become chronic for some years past. Men marry late, and when the mating season for youth is once past, many never marry at all. The number of unmarried men and women between the age of 25 and 44 who ought to be enjoying a home and rearing children is cause for concern.

Now the attraction between men and women is just as fundamental a fact in social life as the attraction of the earth is in physics, and the only way in which that tremendous force of desire can be prevented from wrecking lives is to make it build lives by home contentment. The existence of a large class of voluntary celibates in society is a more threatening fact even than the increase of divorce. The slums are aggregations of single men and women. If the monastic celibates of the Middle Ages, who had the powerful incentive of religious enthusiasm and all the preventives of isolation and supervision, could not keep thousands in the freedom of modern life will maintain their own purity and respect the purity of others?

Every young man who is physically fit and has fair prospects should marry. That is the divine and human law. Enforced celibacy has proven a curse.

Preparation for marriage is more necessary to-day than ever before, because home itself is at once more simple and more complete. A mother has to learn to guard the family against adulteration of food, moral poison often found in schools, the contamination of disease, amusement places, and numerous other things. Much trouble comes from the lack of knowing how to cook properly—to prevent waste and utilize the less expensive grades of food.

I think the teaching of domestic science in the advanced grades of our public schools would be of great practical value. So many girls stop attending school at the age of 17 to enter business and various industries that when they marry they have not had opportunity to learn housekeeping. While domestic science should be taught in our schools, the principles can only be practiced properly in the home—home should be the domestic laboratory.

To often girls expect to be supported in idleness until young men are fearful to attempt home making.

Many parents endeavor to promote a marriage for their daughters with men of some wealth, and so called social standing, although it is known that they are living an immoral life. The girl who weds for riches alone is little better than the white-slave. Instead of women cultivating the double standard between men and women, they should shut the door in the face of any man who is deliberately pursuing an evil life.

Girls—don't look forward to marriage that is made for revenue only—there are worse things in life than being an old maid—single blessedness is better than double unhappiness.

Young men—don't fall in love with a girl simply because she is a good-looker, or a good dresser. The other day I was going down Broadway and just ahead of me was a fine-looking figure, high-heeled slippers, tight skirt, big hat on the back of the head. She looked like a winner; but when I passed her, I saw she was somebody's grandmother. You cannot count on externals these days.

This leads us to the thought of our industries pay enough to encourage matrimony and the family life? I think the chief cause in the decreasing number of marriages is economic fear.

Annual Rally Next Sunday

EVANGEL BAPTIST CHURCH

Bible School Rally at Morning Worship.

MISS DAISY DEAN
Will Give the Address

MR. H. E. DAVIS
Will Lead the Young People's Service.

General Church Rally in evening with talks by Presidents of all departments.

WE INVITE YOU!

The home cannot be happy where there is such lack or uncertainty of income that life has to be lived in continual strain and worry for the necessities of life. Wherever the economic condition of any class is hopeful and improving there is an increase in marriage. Wherever there is economic disaster there is decline. The American people who suffer by the competition of the immigrants and who feel the tightening grip of an industrial development, refuse to bring children into a world which threatens them with poverty.

The student of industrial conditions is discerning that the wage system is on trial. We hear much of the term "living wage." Legislative and industrial co-operation is devoted to all phases of the labor problem. The "living wage" is analyzed and discussed everywhere. Many States and countries are finding it necessary to fix by law a "minimum wage."

Government statistics show that at least 60 per cent. of the male workers in the cities of the United States are to-day receiving less than \$600 annually. This applies to manufacturing everywhere.

United States Bulletin of the Department of Labor No. 29, relating to agricultural wages in the State of Pennsylvania, shows that, without board the farm hand receives \$21.74 the year around, with board \$13.84. Wages per day during harvest are \$1.51 without board and \$1.20 with board.

John Mitchell, in 1907, estimated that the minimum wage that would sustain a miner and his family in the coal regions was \$600.

Now consider the rising cost of living. In twenty years wholesale prices have risen 49.2 per cent. above the average price. Farm products have risen 95.5 per cent. since 1897. Thus, to-day, prices are nearly 2-2 times above the average prices of 1897. So prices to-day are 100 per cent. more than they were fifteen years ago.

Examine the rise in cost of living during the last twenty years and the existing wage scale to-day. No wonder young men are fearful to take up the responsibility of home building!

There are two kinds of wages, unorganized and organized. The latter are higher and often double. There can be no stronger argument for organization of labor. How far wages are affected by trade unionism is thus clearly shown. Low wage to-day means less income than the cost of living, therefore one sees how trade union is one effective barrier against low wages. It is thus perfectly clear why the workingman should stand by the trade union. It also shows very plainly, the folly and ignorance of those who try to break up trade union in favor of the "open shop." This does not mean that every defense of the trade union is justified. Does not give the right to beat the so-called "scab," nor the right to commit violence upon a man's property. And yet this is just what happens, sooner or later, when a trade union is broken up.

Neither employer or trade union are perfect. What is needed is to make both better, but we cannot do away with either. Where a trade union can be organized, that is the best way to raise wages.

It remains, however, true that under modern conditions a large number of unskilled industries are not, and cannot be organized. What then, is to be done for these millions of persons for whom the trade unions cannot bring relief? We think the best way is for the State to enact a general law as to a "minimum wage." No wage should be allowed in this country that will not support a man or woman in decency and respectability. A number of States have introduced laws looking to this end.

How can the "minimum wage" law be worked in industries employing children and foreigners?

If an employer is not willing to pay such a low wage, he finds himself in competition with men who will pay low wages, and sooner or later will be undersold and driven out of business. Here is a condition where a modern employer cannot pay "minimum wage." This is where the State must step in and forbid the payment of less than the minimum wage. If this were the law, and the law were enforced, employers willing to pay less than the minimum wage could not do so, and hence those employers desiring to pay good wages would be free from disastrous competition and heartless greed.

The application of this principle may be difficult at first, but it is the stand of the Church in urging legislation in favor of the "minimum wage." Here comes in an important branch of Christianity, the recognition of the community as a family, and the Government as an expression of the unity and good-will of the family, seeing to it that the lowliest members of the family, at least, have opportunity.

Christ did not tell us what wages we must pay. He only lays down principles and leaves His followers to work out their application. But if we will hold fast to the principle of brotherhood, that wages must be paid upon that principle, and that the law should forbid less than the minimum wage, the working out of the principle would not be so difficult.

We have found that the high cost of living is the greatest factor in the declining number of marriages; another is the cost of living high.

The social nature of man makes him an imitative creature. The instinct of imitation may be a powerful lever for good if individuals and classes set up a real example of refinement of manners and taste.

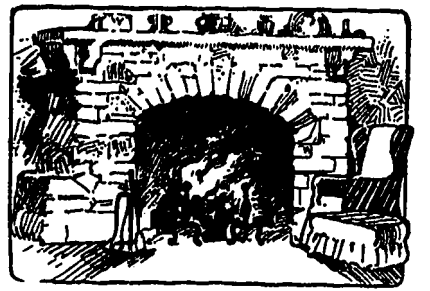

But the process of competitive industry has poured vast wealth into the hands of a few, and has set a pace of unparalleled extravagance. This has infected all classes.

Fashions operate downward. Each class tries to imitate the one higher up. And so all classes are worried to keep up in the "procession." The man who lives only on his labor is brought into social competition with people who have additional income through rents and profits, and must break his back merely to keep his wife and children on a level with others.

The very spirit of democracy which has wiped out the old class lines in modern life makes the rivalry keener. The whole country is feverishly affected. The maid wants to dress as well as the mistress. The working girl, like the wealthy, the wage-earner like the banker. The whole process is because of the unearned money at the top. The embezzlements of business men, the nervous breakdown of women, the ruin of girls, the neglect of house and children are largely caused by the unnatural cost of living high.

It is the cost of living high that is ruining and making unhappy homes. The desire to go one better than our neighbors is bringing us to the breaking point.

God help us to get back to the more simple life!

THE FIRESIDE

By Lady Narberth

Miss Wade Howenstein has returned to her home on Chestnut avenue, after an extended trip through Maryland.

Fred L. Rose has gone to Jamestown, N. Y., on a business trip.

Don't forget the Wynnewood Fete, October 9. Visit our neighbors and help along inter-community interests.

Secretary Samuel Atherholt, of the Civic Association, has recently received several communications asking about the various enterprises promoted by the association. Outside people watch Narberth and expect much of us.

Miss Estelle Cotic, of Merion avenue, entertained a number of her friends at "500" on Saturday. Those present were Misses Sydnet Bolick, Virginia Downes, Margaret Eyre, Marian Haws, Edith Humphreys, Ruth Jones, Jane Laird, Madeline McCoy, Agnes Rose, Hilda Smedley, Elizabeth Speakman, Marian Trotter, Eleanor Wilson, Augusta Witherow, Katharine Street.

Rev. and Mrs. J. E. Nidecker, of Woodside avenue, are away on a two weeks' vacation.

Mr. and Mrs. Robert McCoy entertained Dr. and Mrs. Lawrence McCoy, of Norfolk, Va., at dinner one evening last week. Dr. McCoy is a brother of our own Mr. McCoy, and he and Mrs. McCoy stopped off at Narberth on their honeymoon. They were married in Norfolk on September 25.

NEW BOARD OF MANAGERS OF WOMEN'S COMMUNITY CLUB

Chairman—Mrs. C. T. Moore.
Financial Manager—Mrs. Roy E. Clark.
Library Manager—Miss Grace Haight.
House Manager—Mrs. Alexander Chambley.
Social Manager—Mrs. F. W. Stites.
Membership Manager—Mrs. David D. Stickney.
Athletic Manager—Mrs. Walter Dothard.

News of the Churches

EVANGEL BAPTIST CHURCH.

Emerson L. Swift, Pastor.

The annual Bible School Rally will be held Sunday morning. The school will assemble at 10.30. The service in the main auditorium will begin promptly at 10.45. The speaker, Miss Daisy Dean, Philadelphia, is an expert Sunday school worker of the Publication Society.

The Young People's Society will meet at 7 P. M. The leader will be Mr. D. E. Davis, and the subject, "The Dead Boy Who Saw Jesus." This will be a rally of the young people.

General rally of the church at 7.45. The various departments of the church will present their present and prospective work. We will use the revival hymnal.

The young people will hold their annual business meeting Monday evening at the home of Miss Helen Jones. Officers will be elected and the "Group Plan" arranged. This will put every member at work.

Fifth study in the book of Philipians Wednesday evening next week. Subject, "Acceptance in Christ." Phil. 3: 1-11. These have been very helpful.

The Woman's Mission Circle will give a progressive dinner this week, Friday evening at 6.30. The first course will be served at the home of Mrs. J. C. Simpson; second, Mrs. J. P. Rowbotham; third, Mrs. A. A. Chalker; fourth, Mrs. W. H. Horner. Tickets may be obtained from Miss Laura Hopper and Miss Mazie Simpson.

METHODIST EPISCOPAL CHURCH.

The Little Church on the Hill?

Rev. C. G. Koppel, Pastor.

Sunday, October 10:

9.45—Sunday school. The attendance of rally day exceeded all past records. Three new teachers were in charge of their classes—Miss Bruce Myers, Mr. Edward H. Dilke, Mr. Charles W. Clewell.

11.00—Public worship. Sermon by the pastor.

6.45—Epworth League. Miss Eleanor Ward, leader.

7.45—Happy Sunday evening service. The second of the sermon series on "The Home—Its Making, Building and Breaking." Subject, "The Divorce Problem." The pastor will read answers received from the questionnaire as to "What are the causes of divorce?" "On what grounds is divorce morally permissible?" "Has a woman a right to divorce from a drunkard, and vice versa?" "What should be the position of the Church on this question?" A gospel song service will precede the address. Soprano soloist, Miss Ruth Prescott.

New Members.

Nine new members were welcomed at the morning service. Three were received on profession of faith and six by letter.

Japanese Tea.

Do not forget the tea and entertainment given by the League this Friday evening. Among the good things on the program will be selections by Isabella Moss, who is recognized as the youngest elocutionist on the platform. Eight recitals in her eighth year, each one a record maker, gives her prestige, such as rarely falls to the lot of any child. Refreshments will be served by girls in costume.

ST. MARGARET'S CHURCH.

Early Mass on Sunday from April 1st to October 31st at 6.30 A. M. From November 1st to March 31st at 7 A. M. Late Mass, 9.30 A. M. throughout the year. Masses on holidays, 6.30 and 8.30 A. M. Weekdays at 8. Evening devotions and other services at regular times.

MERION MEETING HOUSE.

Montgomery Avenue and Meeting House Lane.

Merion Meeting House is opened for worship every First-day at 10.30 A. M. Visitors are cordially welcome.

The old meeting house and the grounds surrounding give the appearance of restful seclusion which is very helpful to the spirit in its quiet communion with God.

A registry book is kept for visitors. All are asked to register their names after meeting.

THE PRESBYTERIAN CHURCH.

Rev. John Van Ness, Minister.

10 A. M.—Sabbath school. The entire school is graded, and there is a place and a welcome for all.

11 A. M.—Public worship. Celebration of the Sacrament of the Lord's Supper and public reception of new members.

7 P. M.—Young People's Meeting. Leaders, Sydnie Bolich and Dorothy Durbin.

8 P. M.—Public worship. The pastor will begin a series of sermons on the "Beatitudes."

These are busy days for this church. On Wednesday evening of this week there will be a preparatory meeting, looking forward to the coming Communion. The sermon will be delivered by Rev. W. B. Anderson, D. D. All intending to commune next Sabbath are expected to be present.

On Friday night of this week there will be a most interesting meeting, under the auspices of the Women's Missionary Society, to which all are invited. Mrs. Anderson, assisted by young ladies in costume, will give a sketch, entitled "An Evening in a Zenana." Mrs. Anderson's long residence in India has peculiarly fitted her for this presentation.

On next Monday evening the Men's Club will hold its opening fall meeting. The Program Committee promises a rare treat. See fuller notice elsewhere in this paper.

The beautiful flower basket, which adorned the pulpit last Sunday, is the gift of the "Mary-Marthas," a girls' club of this church.

All previous records in attendance were broken last Sunday in the Sunday school. There were 230 in attendance, 93 of whom were in the primary department. There were 222 present at the morning worship.

EPISCOPAL CHURCH NEWS.

The services at All Saints' P. E. Church, Montgomery and Wynnewood avenues, for next Sunday are as follows:

8.00 A. M.—Holy Communion.

9.45 A. M.—Sunday school.

11.00 A. M.—Morning prayer and sermon.

4.00 P. M.—Evening prayer.

The rector, Rev. Andrew S. Burke, officiated at all the services last Sunday.

The quartette choir, under the leadership of Mr. J. P. Rowland, is rendering some excellent music.

The free bus leaves Wynnewood Station every Sunday morning after the arrival of the 10.36 train. This train leaves Narberth at 10.34 A. M.

The Church Guild resumed meetings for the fall and winter last Monday afternoon, the first meeting being held at the residence of Mrs. A. S. Burke, on Montgomery avenue.

The church was well filled last Sunday, and it is hoped the congregation will increase so rapidly that it will be necessary to enlarge the building. Resolve you will be one to help bring this about.

NEW SERIES OF BUILDING AND LOAN STOCK STILL OPEN.

Although the people of Narberth know that the Narberth Building and Loan Association is a thriving organization, it is doubtful if many, aside from those connected with the association, are aware of its scope and magnitude. With monthly receipts past the \$5,000 mark, it has assets amounting to nearly \$300,000, secured by gilt-edged collateral, namely, loans to the members on their own stock and mortgage loans on real estate (principally right here in Narberth).

In its eight and a half years of operation the association has not lost a dollar through bad investments. In fact, it is hardly possible for it to lose, all loans being on safe margins.

The association has recently adopted the policy of allowing its stockholders to borrow or withdraw at any time without waiting for the monthly meeting.

A new series opened in September and new shares may be taken out at the meeting on Thursday evening, October 7th, by paying the back dues for September.

The association has money available to lend to reliable persons on good Narberth real estate, affording our residents an opportunity to purchase homes without too severe a tax on their incomes.

BIDS WANTED FOR

WYNNEWOOD ROAD

Pennsylvania State Highway Department, Harrisburg, Pa. Sealed proposals will be received at said office until 10 A. M., November 4, 1915, when bids will be publicly opened and scheduled, and contract awarded as soon thereafter as possible, for the reconstruction of 1756 lineal feet of bituminous or cement concrete pavement, 16 feet wide, situated in Narberth Borough, Montgomery county. Plans and specifications may be seen at office of State Highway Department, Harrisburg; 1001 Chestnut street, Philadelphia, and 903 Hartje Building, Pittsburgh, Pa. Full particulars and information on application to R. J. Cunningham, State Highway Commissioner.

TO BASEBALL FANS—AND PLAIN FOLKS

Last summer twenty-one young men gave up twenty-three Saturday afternoons or holidays to give Narberth clean-cut amusement—at the nominal cost of fifteen cents each game.

They received no pay, nor do they expect any—they worked for the good name of Narberth. They were successful in their labors, and we are all proud of them and the kind of sportsmanship they represent.

A large group of citizens have felt that suitable trophies should be granted them on behalf of the community at large as tokens of appreciation. A banquet is soon to be given them, and it is the plan to present the trophies at that time.

Somewhere in your pocket, desk pigeon-hole or on the living-room table you have a self-addressed, stamped envelope which the secretary-treasurer of this Citizens' Committee, H. T. Miller, should have received long ago.

Dig it out to-night—now—and send in your contribution. Any amount, so long as it comes right away!

BASEBALL BANQUET DATE

At a well-attended meeting of the Citizens' Committee on the base ball banquet, held in the Y. M. C. A. Community Center, Monday evening, it was definitely decided to hold the banquet on the evening of October 28—a Thursday night.

Ring a circle around this date on your calendar, men and boys, and reserve a plate to be set for you. Show your interest and appreciation of the boys' work by being present at this event.

THEY DO SAY.

As seen in the "Upper Darby Herald" last week:

That Narberth will have a Minstrel Show under the management of Bill Dennis. Well, Bill, you have the best wishes of the Do Say writer.

That the name of that Drexel Hill goat is now "Dennis;" "all Butt."

That the Narberth Ball Club will have their full line-up for the game with the Old-Timers next Saturday, and the following week will play a team composed of veterans from the G. A. R. Home at Sixty-fifth and Vine streets—that is, providing they win from the Old-Timers.

That it would be very pleasing if Drexel Hill had a lady "rooter" like Maizie Simpson, of Narberth, and that it is a pity she was not "rooting" for the winners.

That the fellow who threw the lemon on the diamond at the Drexel Hill-Narberth game is very sorry he did it. This is an apology. (Mr. Gilmore please note.)

That Billie Katz is the most active "non-worker" on the Hill.

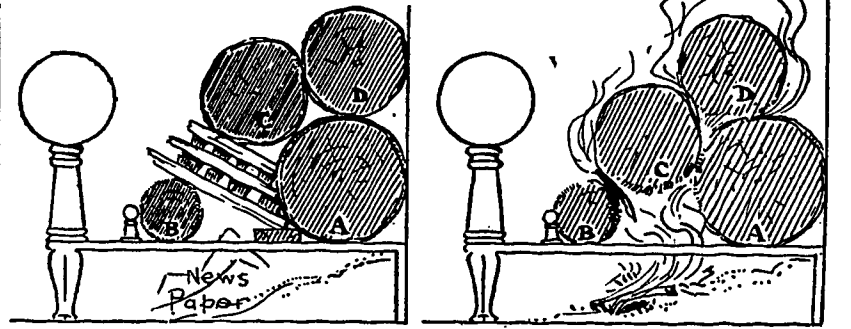

And then they had the nerve to print a picture of our goat and put this legend under it: "The Goat Narberth Did Not Get."

"How do you manage to get along since your husband lost his money?" inquired an old friend of a young lady whose marriage had, a few years before, been considered a "fortunate" one.

"Oh! just sew, sew," replied the victim of adverse circumstances.

A Blaze in Your Fireplace

THE accompanying diagrams show an easy method of laying a fire that will burn successfully. By the time the smaller sticks of kindling have burned through, the larger log C has been ignited and falls into position in the wedge between A and B, where it burns satisfactorily. Close contact between the larger logs, with proper air space between the kindling to allow for a draft, will make a fire burn properly. Tall andirons are perhaps ornamental in some fireplaces, but they make it difficult to place large logs on the fire. M. T.

A Good Way to Lay the Logs to Create the Necessary Draft
(From the Country Gentleman.)

Y. M. C. A. NOTES.

Community Bible Study Class.

Don't forget that this class meets every Tuesday evening. This is an unusually interesting class and you can't afford to miss it. The first session of the course was held on Tuesday evening, a large number were present.

The subject discussed was "Is the Bible Inspired and What Does That Mean?" The discussion was an exceedingly interesting one and, from present indications, the people of Narberth who are interested in Bible study will headquarter on Tuesday night—for the next ten weeks—at the Y. M. C. A.

Glee Club Notes.

The Y. M. C. A. Glee Club will rehearse this Saturday evening instead of on the regular evening—Friday. Rehearsals started last week and, judging by the attendance at the first get-together, there will be fully forty men on the stage at the rise of the curtain.

Homer McKee will operate at the piano—and he can tickle the ivories some. The boys are glad to have him with the club this year.

Gene Dunn, our park surveyor, lends aid with his strong basso voice.

Allen Kirk, ever popular with the boys, is a strong worker, and his well-balanced tenor voice fits in to a nicety.

Bob Savill and Jesse Harris were with us, and, believe us, they are some tenors. We sincerely hope they will continue. Tip Turner, the well-known shortstop of the Narberth base ball team, will appear in this year's show. Tip is some comedian. Nuf sed.

Business Men's Gym Class.

Do you remember how it rained last Friday night? Well, judging by the noise (enthusiasm and fun) in our gymnasium, which was caused by the ten business men who had come for the first class of the season, you would have said, "Let it rain." The feeling that existed inside was just the opposite of the cold, chilly atmosphere of the outside.

Volley ball and indoor base ball continue to be the main attractions. We can't write here the many funny things that happened, but you may be assured there were several. We have now gotten started—the ice is broken—so come next Friday and get into the game. You'll have the time of your life. Which will it be—Fat at Forty or Fit at Fifty? Don't worry if you come to the Business Men's Gym Class—it will be the latter. Ask any of the following men what kind of a time they had: Messrs. Savill, Cole, Foote, Seymour, Orr, Rose, Nash, Atherholt or Harris. If you are interested, stop in and talk it over with Secretary Hampton. Old trousers and sneakers are plenty of equipment—don the uniform and help swell the ranks!

Boys' Gym Class.

We plan on having two classes each week for the boys. We will start the first class Saturday morning, October 23. Don't forget the date.

Young Men's Gym Class.

Plans are being made for a Young Men's Gym Class. Already a dozen of the fellows have said "count me in," but before final arrangements are made we must have about twenty-five. Are you one of the remainder? Don't forget the electric sign. You

Educational.
In our program for this year, we have made arrangements for some work along educational lines. Are you interested in a course in salesmanship or advertising? In a reading club or a camera club—for both men and women? If you are interested, call Narberth 694 W and tell Secretary Hampton. (Do it now). Either of these courses would make several very interesting evenings this winter.

Older Boys' Conference.
The Eastern Pennsylvania Older Boys' Conference will be held this Friday, Saturday and Sunday at the Ardmore Y. M. C. A. The topics to be considered will be: The Opportunity of the Older Christian Boy in the Home, the Church and Sunday School, at Work at High School, in Leisure Hours, and in the Y. M. C. A.

A few of the speakers announced in advance are: E. M. Robinson, International Secretary for Boys' Work of the Y. M. C. A.; C. C. Robinson, International Secretary for Employed Boys, and J. A. Whitmore, former football star, now secretary with the Federated Churches of America. Arrangements are being made for free entertainment by the citizens of Ardmore, but as they can't accommodate all the delegates, Narberth is making arrangements to accommodate about twenty-five boys, and also be in a condition to accommodate more if need be.

It may be possible that YOU, who are reading this, may be glad to accommodate a boy or two. Call Secretary Hampton for the details.

MEETING OF THE NEEDLEWORK GUILD

On Wednesday last the Narberth Branch of the Needlework Guild met at the home of Mrs. A. J. Loos, to sew for the Guild, and prepare for their annual meeting, to be held in the second week of November.

The Narberth Branch was organized in 1904, and up to this time has collected and distributed 9246 garments to various charities, mostly in Philadelphia and vicinity. The directors are very anxious to have more of the ladies in Narberth take part in this organization, as there is a constant need for garments in the hospitals and homes of Philadelphia. To become a member, it is only necessary to contribute two garments per annum. Mrs. Loos, the secretary, will gladly furnish anyone with literature, explaining the purposes and methods of the organization. Garments may be sent to any of the following directors, before the second week of November: Miss L. M. Beatty, Mrs. R. L. Beatty, Mrs. C. N. Beddall, Mrs. A. A. Brown, Miss L. F. Birnbaum, Mrs. E. D. Bolich, Mrs. E. E. Bossert, Mrs. G. W. Bottoms, Mrs. C. E. Caldwell, Mrs. J. A. Caldwell, Mrs. J. B. Caldwell, Mrs. Kennedy Duff, Miss Miriam Eyre, Mrs. H. C. Gara, Mrs. John Gilroy, Mrs. W. F. S. Hackett, Mrs. W. J. Hamilton, Mrs. F. J. Harjes, Jr., Mrs. E. S. Haws, Mrs. I. P. Humphries, Mrs. A. L. Jacoby, Mrs. E. Krell, Mrs. A. J. Loos, Mrs. M. R. Marville, Mrs. C. A. S. McClellan, Mrs. M. M. Meredith, Mrs. A. H. Mueller, Mrs. Anna M. Owens, Mrs. W. J. Peebles, Mrs. R. E. Plank, Mrs. A. P. Redifer, Mrs. Wm. Selfridge, Mrs. W. B. Smith, Mrs. E. C. Town, Mrs. G. D. Van Derzee, Jr., Mrs. John VanNess, Miss Lurena Wallace, Mrs. R. H. Wallace, Mrs. A. C. Warner, Mrs. Carden Warner, Mrs. J. P. Witherow, Mrs. W. E. Yost.

"FORTUNATE FORTESCUERS."

It requires pleasant weather to fish at Fortescue, and the last party of the Main Line Fishing Club consisting of Messrs. Savill, Claghorn, Verna and Harbert were well favored.

The day was fair and mild, with the tide high at noon, and the sea trout began to bite as soon as Capt. Garrison anchored the "Fredora," two miles from shore.

The catch of a round hundred fish, consisted of weakfish, king fish, spots, flounders, etc. The prize for the largest fish went to Robt. Savill for a four pound weakfish.

The auto run to Fortescue, and return, was made without accident of any kind and the party returned almost in time to have supper in Narberth.

A REQUEST TO POST OFFICE BOX RENTERS

Caseing up mail into nearly six hundred Post Office Boxes is a considerable job, especially when two, three, four, or, as in some cases, half a dozen people of different names get mail in the same box.

The Narberth Post Office has an unusually large number of rented boxes and while the office force do their best to get each person's mail properly placed, they could be assisted greatly if the box renters, and more especially those who get their mail through boxes rented by others, would cultivate the habit of having their mail directed to their respective box numbers. Quite a number of patrons do this, and it is greatly appreciated.

To those who do not now use their box numbers we would request that they "get the habit" of having their mail directed to their box number—whether letters, newspapers, magazines or parcels post packages, and this refers especially to those who receive their mail in boxes rented by someone else.

GAME BIRDS KILLED OFF.

Formerly migratory waterfowl frequented the United States in enormous numbers, and the supply appeared to be inexhaustible. During the last seventy-five years, however, the growth of population and the vast increase in the number of hunters, combined with greatly improved firearms and an extraordinary increase in the facilities for rapid transportation to the most remote haunts of wild life, have resulted in an appalling reduction in their numbers. It is believed to be a conservative estimate that the gross number of migratory game birds of all kinds existing today in the United States does not exceed 10 per cent. of the number which existed here seventy-five years ago.

HELPING MONTGOMERY COUNTY ALIENS.

All citizens of Narberth, as residents of Montgomery County, will be interested in the following news received from the Bureau of Naturalization, United States Department of Labor:

Mr. W. W. Rupert, superintendent of schools of Pottstown, has been in communication with the Bureau of Naturalization of the Department of Labor, relative to the nation-wide movement promulgated and fostered by the bureau, having for its object the Americanization of alien residents of this country. This movement has been inaugurated with a view to the instruction of aliens in the English language and the principles of government, so that when citizenship has been acquired they will be producing rather than dependent members of the community. Mr. Rupert has expressed his keen interest in the plan, and has signified his desire cordially to cooperate with the Bureau of Naturalization in the furtherance of its education program.

Referring to the instruction of aliens who have signified their intention to become citizens, Mr. Rupert says in his letter:

	Pottstown.	Montg'mry County.	St. of Pennsylvania.
