SISSON'S

# PEONIES

1927 List

W. A. Sisson, Owner and Manager

LIBRARY

Grown by Wilbur A. Sisson and Wilbur A. Lawson, on Mr. Lawson's Elmway Guernsey Farm of 200 acres, Rosendale, Wis.

MEMBER OF

- The American Peony Society
- The American Gladiolus Society
- The American Iris Society
- Commercial Peony and Iris Growers Association

## THE PEONY

Peony derives its Latin name, paeonia from paeon, a celebrated physician, supposed to be the same as Apollo, the sun God. He cured the Gods of their diseases, and healed their wounds by means of its root and magical powers. It drove away tempests, dispelled enchantments, and cured epilepsy.

In ancient times people made beads turned from the plant and placed them on the necks of their children to keep them from convulsions and assist them in cutting their teeth.

They also protected the houses near which they grew from evil.

It is a native of Asia.

## STATEMENT

Rosendale is on a triangle with Oshkosh and Fond du Lac at the intersection of Highways 26 and 23. Sixteen miles from Oshkosh on 26 and twelve miles from Fond du Lac on 23. Oshkosh and Fond du Lac are eighteen miles apart on Highway 15.

The home garden is in the village of Rosendale, at the home of W. A. Sisson, where the exhibition garden is displayed. Tulips in May, Peonies in June and Gladioli and other flowers for the balance of the season.

The farm garden is located on W. A. Lawson's farm, one mile north of the village on No. 26. There are two hundred acres with an old-fashioned comfortable house with a wide sweep of lawn and trees which attract attention. The farm is named Elmway on account of the approach being lined with elm trees. Mr. Lawson owns a herd of Guernsey cattle.

## ORDERS TAKEN

Orders may be placed at any time during the year and paid for when the goods are shipped. Credit cheerfully extended to responsible parties.

There is absolutely but one time to plant peonies and that is from the last of August until freeze-up when the roots are in a dormant condition and can be handled without damage. Or they may be dug in the fall and kept in cold storage over winter and planted in early spring. We ship in fall only.

## SIZE OF ROOTS

We furnish but one size of root and that is a well-balanced root with not less than two eyes and may have many, but it will be a natural division and one we will stand back of to produce best results.

## PATIENCE

With peonies you must have patience. The largest sized planting root will not bring anything but pretty blooms the first year. Typical blooms will not show under five years of good cultivation and care. And please do not cast a vote on any variety until you have watched it carefully for ten years. If you do not do this, or heed this advice, you are not only handicapping your own life with this flower, but you are inflicting a great loss on the public. Because most flowering plants throw perfect blooms the first year, people look for the same with peonies. Thus we have such great confusion that many of the growers call a white a pink or a red or a yellow or any color. A peony will not bloom true until it has had time to grow a strong system of roots deep into the ground and this cannot be done under five years. Then it is well to wait another five years to see if the plant blossoms true each year. If you do not follow this advice you will probably never know the true color of a variety or will you know even if it's a single or double. Mr. E. J. Shaylor, who passed away recently and who was perhaps the greatest American peony introducer, once wrote me that it was too bad that he could not grow peonies by steam.

I have grown peonies for a good many years and have a list that will perhaps compare with that of any grower. There are very few that I feel I know real well and so have refrained from voting. I feel that the majority of members who have voted have had no mature knowledge of the peony and so we do not use the percentage system as gotten out by the peony society.

## PEONY AND IRIS ASSOCIATION

We have quite recently joined the Commercial Peony and Iris Growers' Association. The rules

of this organization do not permit us to furnish gratis roots or to prepay carriage on shipments. These rules will take effect from now on. Dealers may have a twenty per cent discount.

### **PRICES QUOTED**

Prices quoted are subject to change without notice and our ability to fill orders on depleted stock.

### **THE AMERICAN PEONY SOCIETY**

All people interested in the peony should join the American Peony Society and receive their printed matter. Three dollars per year. Apply through us or send to the secretary, Mr. W. F. Christman, Robbinsdale, Minn.

### **THE FLOWER GROWER**

The Flower Frower, a monthly magazine devoted to all kinds of flowers, published at Calcium, New York, will interest you. Two dollars the year. Send through us.

A new Gladiolus list will be gotten out this early Fall. The Iris list will not be out until next year.

Reference—Rosendale State Bank.

### **SISSON'S PEONIES,**

W. A. Sisson, Mgr.

Rosendale, Wis.

## SISSON'S PEONIES

---

List No. 1—Price, \$1 each

- Achille (Calot 1855) Blush  
Agida (Unknown) Red
