  3. A business entity public adjuster license may be suspended, revoked, or denied if the commissioner finds, after notice and hearing, that a violation committed by an individual licensee providing services through the business entity was known or should have been known by one or more of the partners, officers, or managers acting on behalf of the business entity and the violation neither was reported to the commissioner nor was corrective action taken in relation to the violation.
  4. In addition to or in lieu of an applicable denial, suspension, or revocation of a license, a person violating this chapter may, after notice and hearing, be subject to an administrative fine of not more than ten thousand dollars per violation. A fine may be enforced in the same manner as civil judgments. A person charged with a violation of this chapter may waive the right to a hearing and consent to the discipline the commissioner determines is appropriate. Chapter 28-32 governs all hearings held pursuant to this subsection.
  5. The commissioner may enforce this chapter and impose a penalty or remedy authorized by this chapter against a person under investigation for or charged with a violation of this chapter even if the person's license has been surrendered or lapsed by operation of law. A disciplinary proceeding may not be instituted against a person after three years from the termination of the person's license.

#### **26.1-26.8-11. Proof of bond or insurance.**

1. At the time of issuance of a resident public adjuster license or a nonresident public adjuster license and for the duration of the license, an applicant shall maintain a surety bond or proof of insurance satisfactory to the commissioner for the use and benefit of the commissioner for insureds that have remitted fees, retainers, compensation, deposits, or other things of value to the public adjuster in the course of the public adjuster's business. The bond:
  - a. Must be a minimum of twenty thousand dollars; and
  - b. May not be terminated by the surety company or public adjuster unless written notice has been filed with the commissioner and submitted to the public adjuster at least sixty days before the termination.
2. The commissioner may request the evidence of financial responsibility at any time the commissioner deems relevant.
3. A public adjuster immediately shall notify the commissioner if evidence of financial responsibility terminates or becomes impaired. The authority to act as a public adjuster automatically terminates if the evidence of financial responsibility terminates or becomes impaired.

#### **26.1-26.8-12. Continuing education.**

1. Except as otherwise provided in this section, an individual who holds a resident public adjuster license or a nonresident public adjuster license shall satisfactorily complete a minimum of twenty-four credits of continuing education, including three credits of ethics, reported on a biennial basis in conjunction with the license renewal cycle. Credits for continuing education courses attended in any one year over the minimum number of hours of education required, not to exceed twelve hours, may be credited to the year next preceding the year in which the credits were earned or to the year next following the year in which the credits were earned. Report of continuing education must be made at the end of a two-year period. The commissioner may provide a one-time extension of the two-year reporting requirement, not to exceed thirty-six months, if additional time is necessary to implement the transition to reporting continuing education by birth month.
2. The requirements of subsection 1 do not apply to a nonresident public adjuster who has met the continuing education requirements of the adjuster's home state and whose home state gives credit to residents of this state on the same basis.
3. The commissioner shall provide by rule for reporting by birth month of compliance with the continuing education requirements of this section.
4. The commissioner shall adopt by rule criteria for the accreditation of courses for continuing education. Applications for accreditation of a continuing education course offered in this state must be submitted to the commissioner within the time provided by rule and on forms established by rule and with a fee of fifty dollars. The commissioner shall make a final determination as to accreditation and assignment of credit-hours for continuing education courses.

#### **26.1-26.8-13. Contract between public adjuster and insured.**

1. A contract for a public adjuster's services must be in writing and contain the following terms:

- a. Legible full name of the public adjuster signing the contract, as specified in commissioner records;
  - b. Home state, business address, and telephone number;
  - c. Public adjuster license number;
  - d. Title of "Public Adjuster Contract";
  - e. Insured's full name and street address, insurer name, and insurance policy number, if known or upon notification;
  - f. Description of the loss and the location of the loss, if applicable;
  - g. Description of services to be provided to the insured;
  - h. Signatures of the public adjuster and the insured;
  - i. The date the contract was signed by the public adjuster and the date the contract was signed by the insured;
  - j. Attestation language stating the public adjuster is fully bonded pursuant to state law; and
  - k. The specific amount of compensation, including the full salary, fee, commission, or other consideration the public adjuster is to receive for services.
2. The contract may specify the public adjuster must be named as a copayee on an insurer's payment of a claim.
  3. If the compensation is based on a share of the insurance settlement, the exact percentage must be specified in the contract.
  4. Initial expenses to be reimbursed to the public adjuster from the proceeds of the claim payment must be specified by type and the dollar estimates must be set forth in the contract. Additional expenses must be approved in writing by the insured.
  5. Compensation provisions in a public adjuster contract may not be redacted in a copy of the contract provided to the commissioner.
  6. If the insurer, not later than three days after the date on which the loss is reported to the insurer, either pays or commits in writing to pay to the insured the policy limit of the insurance policy, the public adjuster:
    - a. May not receive a commission consisting of a percentage of the total amount paid by an insurer to resolve a claim;
    - b. Shall inform the insured the loss recovery amount might not be increased by the insurer; and
    - c. Is entitled only to reasonable compensation from the insured for services provided by the public adjuster on behalf of the insured, based on the time spent on a claim and expenses incurred by the public adjuster, until the

claim is paid or the insured receives a written commitment to pay from the insurer.

7. A public adjuster contract may not contain a contract term that:
  - a. Allows for balance billing of the insured;
  - b. Allows a percentage fee to be collected by the public adjuster if money is due from an insurer, but not paid, or allows a public adjuster to collect the entire fee from the first check issued by an insurer, rather than a percentage of each check issued by an insurer;
  - c. Requires the insured to authorize an insurer to issue a check only in the name of the public adjuster;
  - d. Imposes collection costs or late fees; or
  - e. Precludes a public adjuster from pursuing civil remedies.
  
8. Before the signing of the contract the public adjuster shall provide the insured with a separate disclosure document regarding the claim process which states:
  - a. Property insurance policies obligate the insured to present a claim to the insurer for consideration.
  - b. The following three types of adjusters could be involved in the claim process:
    - (1) "Company adjuster" means an insurance adjuster who is an employee of an insurer. A company adjuster represents the interest of the insurer, is paid by the insurer, and will not charge the insured a fee.
    - (2) "Independent adjuster" means an insurance adjuster who is hired on a contract basis by an insurer to represent the interest of the insurer in the settlement of the claim. An independent adjuster is paid by the insurer and will not charge the insured a fee.
    - (3) "Public adjuster" means an insurance adjuster who does not work for an insurer. A public adjuster works for the insured to assist in the preparation, presentation, and settlement of the claim. The insured hires a public adjuster by signing a contract agreeing to pay a fee or commission based on a percentage of the settlement or other method of compensation.
  - c. The insured is not required to hire a public adjuster to help the insured meet the insured's obligations under the policy, but has the right to do so.
  - d. The insured has the right to initiate direct communications with the insured's attorney, the insurer, the company adjuster, and the insurer's attorney, or any person regarding the settlement of the insured's claim.
  - e. The public adjuster is not a representative or employee of the insurer.

- f. The salary, fee, commission, or other consideration to be paid to a public adjuster is the obligation of the insured, not the insurer.
9. The contract must be executed in duplicate to provide an original contract to the public adjuster and to the insured. The original contract retained by the public adjuster must be available at all times for inspection without notice by the department.
10. The public adjuster shall provide the insurer a notification letter signed by the insured, authorizing the public adjuster to represent the insured's interest. The notification letter must include a copy of the signed contract.
11. The public adjuster shall give the insured written notice of the insured's rights as provided in this section.
12. Within three days after the claim is submitted to the insurer, the insured has the right to rescind the contract. The rescission must be in writing and mailed or delivered to the public adjuster at the address in the contract within the three business-day period.
13. If the insured exercises the right to rescind the contract, anything of value given by the insured under the contract must be returned to the insured within fifteen days following the receipt by the public adjuster of the rescission notice.
14. The commissioner may require a public adjuster to file a contract with the department in a manner prescribed by the commissioner.

**26.1-26.8-14. Record retention.**

1. A public adjuster shall maintain a complete record of each transaction as a public adjuster. The records required by this section include:
  - a. The name of the insured;
  - b. The date, location, and amount of the loss;
  - c. A copy of the contract between the public adjuster and the insured;
  - d. The name of the insurer, amount, expiration date, and policy number for each policy carried with respect to the loss;
  - e. An itemized statement of the amount recovered for the insured;
  - f. An itemized statement of all compensation received by the public adjuster, from any source, in connection with the loss;
  - g. A register of all money received, deposited, disbursed, or withdrawn in connection with a transaction with an insured, including fees, transfers, and disbursements from a trust account and all transactions concerning all interest-bearing accounts;
  - h. The name of the public adjuster who executed the contract;
  - i. The name of the attorney representing the insured, if applicable, and the name of the claims representative of the insurer; and

- j. Evidence of financial responsibility in a format prescribed by the commissioner.
2. A public adjuster shall maintain the records for at least six years after the termination of the transaction with an insured and shall open the records to examination by the department at all times.

### **26.1-26.8-15. Standards of conduct of public adjuster.**

1. A public adjuster shall serve with objectivity and complete loyalty to the interest of the insured and in good faith shall render to the insured such information, counsel, and service, as within the knowledge, understanding, and opinion of the public adjuster will best serve the insurance claim needs and interest of the insured.
2. A public adjuster may not solicit or attempt to solicit an insured during the progress of a loss-producing occurrence, as defined in the insured's insurance contract.
3. A public adjuster may not permit an unlicensed employee or representative of the public adjuster to conduct business for which a license is required under this chapter.
4. A public adjuster may not have a financial interest in any aspect of the claim, other than the salary, fee, commission, or other consideration established in the written contract with the insured. A financial interest includes ownership of, employment by, or other consideration received from an individual or business entity that performs work pertaining to damage related to the insured loss.
5. A public adjuster may not acquire an interest in salvage of property subject to the contract with the insured unless the public adjuster obtains written permission from the insured after settlement of the claim with the insurer.
6. A public adjuster may not refer or direct the insured to obtain needed repairs or services in connection with a loss from a person:
  - a. With which the public adjuster has a financial interest; or
  - b. From which the public adjuster may receive compensation or other consideration for the referral.
7. A public adjuster may not undertake the adjustment of a claim if the public adjuster is not competent and knowledgeable as to the terms and conditions of the insurance coverage or if the loss or coverage otherwise exceeds the current expertise of the public adjuster.
8. A public adjuster may not knowingly make a false oral or written material statement regarding a person engaged in the business of insurance to an insured client or potential insured client.
9. A public adjuster, while licensed pursuant to this chapter, may not represent or act as a company adjuster or independent adjuster in any circumstance.
10. A public adjuster may not enter a contract or accept a power of attorney that vests in the public adjuster the effective authority to choose the person that will perform repair work.

11. A public adjuster may not agree to a loss settlement without the insured's knowledge and consent.

#### **26.1-26.8-16. Public adjuster fees.**

1. A public adjuster may charge the insured a reasonable fee for public adjuster services.
2. A person may not accept a commission, service fee, or other valuable consideration for investigating or settling claims in this state if the person is required to be licensed under this chapter and is not licensed.
3. A public adjuster may not charge, agree to, or accept as compensation or reimbursement a payment, commission, fee, or other thing of value equal to or more than ten percent of an insurance settlement or proceeds resulting from a catastrophic disaster.
4. A public adjuster may not require, demand, or accept a fee, retainer, compensation, deposit, or other thing of value before settlement of a claim, unless the loss is being handled by the public adjuster on a time-plus-expense basis.

#### **26.1-26.8-17. Rulemaking authority.**

The commissioner may adopt rules to carry out this chapter.

#### **26.1-26.8-18. Investigation by commissioner.**

Within a reasonable time after receipt of a properly completed application for a license under this chapter, the commissioner may conduct an investigation and propound interrogatories concerning the applicant's qualifications, residence, business affiliations, and any other matter the commissioner believes necessary or advisable to determine compliance with this chapter or for the protection of the public.

#### **26.1-26.8-19. Approval of examination by commissioner - Contents.**

Each examination must be approved for use by the commissioner and must reasonably test the applicant's knowledge as to the policies and transactions to be handled under the license applied for, the duties and responsibilities of the licensee, and the pertinent insurance laws of this state.

#### **26.1-26.8-20. Vendor authority.**

The commissioner may contract with nongovernmental entities, including the national association of insurance commissioners or any affiliate or subsidiary the national association of insurance commissioners oversees, to perform any ministerial functions, including the collection of fees, related to public adjuster licensing.

#### **26.1-26.8-21. Commissioner may make examinations and investigations.**

Whenever the commissioner believes this chapter has been violated, the commissioner, at the expense of the public adjuster involved, may examine, at the offices of the public adjuster, whether located within or outside this state, all books, records, and papers of the public adjuster or the company with which the public adjuster is affiliated and any books, records, and papers of any insured within this state, and may examine under oath, the officers, managers, and public adjusters or the insured as to the violation.

**26.1-26.8-22. Statute of limitations.**

After the effective date of this Act, a civil action for the recovery of damages resulting from negligence or breach of contract brought against any person licensed under this chapter by any person claiming to have been injured as a result of the providing of public adjusting services or the failure to provide public adjusting services of a licensee may not be commenced in this state unless the action is commenced on or before the earlier of:

1. Two years from the date the alleged act, omission, or neglect is discovered or should have been discovered by exercise of reasonable diligence; or
2. Six years after performance of the service for which the claim for relief arises, unless discovery was prevented by the fraudulent conduct of the licensee.

**SECTION 3.** Chapter 26.1-39.2 of the North Dakota Century Code is created and enacted as follows:

**26.1-39.2-01. Definitions.**

As used in this chapter:

1. "Residential contractor" means a person in the business of contracting or offering to contract with an owner or possessor of residential real estate to:
  - a. Repair or replace a roof system or perform other exterior repair, replacement, construction, or reconstruction work on residential real estate;
  - b. Perform interior or exterior cleanup services on residential real estate; or
  - c. Arrange for, manage, or process the work referred to in subdivision a or b.
2. "Residential real estate" means a new or existing building, including a detached garage, constructed for habitation by at least one but no more than four families.
3. "Roof system" includes roof coverings, roof sheathing, roof weatherproofing, and insulation.

**26.1-39.2-02. Contract to be paid from proceeds of property and casualty insurance policy - Right to cancel - Duties.**

1. A person that enters a written contract with a residential contractor to provide goods or services to be paid from the proceeds of a property and casualty insurance policy may cancel the contract before midnight on the later of the fifth business day after the person has:
  - a. Entered the written contract; or
  - b. Received written notice from the person's insurer that all or part of the claim or contract is not a covered loss under the insurance policy.
2. The written contract must include a statement that the insured homeowner has the right to cancel the contract in accordance with subsection 1.

3. The person seeking to cancel the contract shall evidence the cancellation by giving the residential contractor a signed and dated copy of written notice of the cancellation.
  - a. The notice of cancellation may be delivered or mailed to the address of the residential contractor's place of business as stated in the contract.
  - b. The notice of cancellation must include a copy of the written notice from the person's insurer, if applicable, to the effect that all or part of the claim or contract is not a covered loss under the insurance policy.
  - c. Notice of cancellation given by mail is effective upon deposit in the United States mail, postage prepaid, if properly addressed to the residential contractor.
  - d. Notice of cancellation is not required to be in a particular form and is sufficient if the notice indicates the intent of the insured not to be bound by the contract.
4. Within ten days after a contract to provide goods or services to be paid from the proceeds of a property and casualty insurance policy has been canceled by notification pursuant to this section, the residential contractor shall tender to the person canceling the contract any payments, partial payments, or deposits made by the person and any note or other evidence of indebtedness, except if the residential contractor has provided goods or services agreed to by the person in writing to be necessary to prevent damage to the premises, the residential contractor is entitled to be paid the reasonable value of those goods or services. A contract provision to provide goods or services to be paid from the proceeds of a property and casualty insurance policy requiring the payment of a fee that is not for those goods or services is not enforceable against a person that has canceled a contract pursuant to this section.

#### **26.1-39.2-03. Prohibited acts.**

A residential contractor may not promise to rebate a portion of an insurance deductible as an inducement to the sale of goods or services. A promise to rebate a portion of an insurance deductible includes granting an allowance or offering a discount against the fees to be charged or paying an insured or a person associated with the residential real estate a form of compensation, except for an item of nominal value.

#### **26.1-39.2-04. Post-loss assignment of rights or benefits.**

A post-loss assignment of rights or benefits to a residential contractor under a property and casualty insurance policy insuring residential real estate is subject to each of the following:

1. The assignment may authorize a residential contractor to be named as a copayee for the payment of benefits under a property and casualty insurance policy covering residential real estate.
2. The assignment must be provided to the insurer of the residential real estate within five business days after execution.

3. The assignment must include a statement that the residential contractor made no assurances the claimed loss will be fully covered by an insurance contract and must include the following notice in capitalized fourteen-point type:

"YOU ARE AGREEING TO ASSIGN CERTAIN RIGHTS YOU HAVE UNDER YOUR INSURANCE POLICY. THE ITEMIZED DESCRIPTION OF THE WORK TO BE DONE SHOWN IN THIS ASSIGNMENT FORM HAS NOT BEEN AGREED TO BY THE INSURER. PLEASE READ AND UNDERSTAND THIS DOCUMENT BEFORE SIGNING.

THE INSURER MAY ONLY PAY FOR THE COST TO REPAIR OR REPLACE DAMAGED PROPERTY CAUSED BY A COVERED PERIL, SUBJECT TO THE TERMS OF THE POLICY."

4. The assignment may not impair the interest of a mortgagee listed on the declarations page of the property and casualty insurance policy that is the subject of the assignment.
5. The assignment may not prevent or inhibit an insurer from communicating with the named insured or mortgagee listed on the declarations page of the property and casualty insurance policy that is the subject of the assignment.
6. The assignment must include a statement that the insured homeowner has the right to cancel the assignment in accordance with subsection 1 of section 26.1-39.2-02.

#### **26.1-39.2-05. Itemized description of work.**

Before commencement of repair or replacement work, a residential contractor shall furnish the insured and insurer with an itemized description of the work to be done and the materials, labor, and fees for repair or replacement of the damaged residential real estate and the total itemized amount agreed to be paid for the work to be performed, except the description may not limit the insured or residential contractor from identifying other goods and services necessary to complete repairs or replacement associated with a covered loss.

#### **26.1-39.2-06. Notice required.**

A written contract, repair estimate, or work order prepared by a residential contractor to provide goods or services to be paid from the proceeds of a property and casualty insurance policy must include the following notice of the prohibition contained in section 26.1-39.2-03 in capitalized fourteen-point type which must be signed by the named insured and sent to the named insured's insurer before payment of proceeds under the applicable insurance policy:

"IT IS A VIOLATION OF THE INSURANCE LAWS OF NORTH DAKOTA TO REBATE ANY PORTION OF AN INSURANCE DEDUCTIBLE AS AN INDUCEMENT TO THE INSURED TO ACCEPT A RESIDENTIAL CONTRACTOR'S PROPOSAL TO REPAIR DAMAGED PROPERTY. REBATE OF A DEDUCTIBLE INCLUDES GRANTING AN ALLOWANCE OR OFFERING A DISCOUNT AGAINST THE FEES TO BE CHARGED FOR WORK TO BE PERFORMED OR PAYING THE INSURED HOMEOWNER THE DEDUCTIBLE AMOUNT SET FORTH IN THE INSURANCE POLICY.

THE INSURED HOMEOWNER IS PERSONALLY RESPONSIBLE FOR PAYMENT OF THE DEDUCTIBLE. THE INSURANCE FRAUD STATUTES AND

NORTH DAKOTA CRIMINAL STATUTES PROHIBIT THE INSURED HOMEOWNER FROM ACCEPTING FROM A RESIDENTIAL CONTRACTOR A REBATE OF THE DEDUCTIBLE OR OTHERWISE ACCEPTING AN ALLOWANCE OR DISCOUNT FROM THE RESIDENTIAL CONTRACTOR TO COVER THE COST OF THE DEDUCTIBLE. VIOLATIONS MAY BE PUNISHABLE BY CIVIL OR CRIMINAL PENALTIES."

**26.1-39.2-07. Violation of the chapter.**

A contract entered with a residential contractor is void if the residential contractor violates this chapter.

**26.1-39.2-08. Rulemaking authority.**

The commissioner may adopt rules to carry out this chapter.

### HOUSE BILL NO. 1391

(Representatives Keiser, Bosch, Dockter, Lefor, Louser, Nathe)  
(Senators Burckhard, Klein, Meyer)

AN ACT to create and enact chapter 26.1-26.9 of the North Dakota Century Code, relating to regulation of self-service storage insurance.

#### BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

**SECTION 1.** Chapter 26.1-26.9 of the North Dakota Century Code is created and enacted as follows:

##### **26.1-26.9-01. Definitions.**

For purposes of this chapter, unless the context otherwise requires:

1. "Location" means any physical location in this state or any website, call center site, or similar location directed to residents of this state.
2. "Occupant" means the person who rents a space at a self-service storage facility under a rental agreement, or a sublessee, successor, or assignee of the renter.
3. "Owner" means any person who owns, leases, subleases, manages, or operates a self-service storage facility and receives rent from an occupant under a rental agreement.
4. "Personal property" means movable property not affixed to land, including merchandise and household goods.
5. "Rental agreement" means a written agreement between the owner and the occupant which establishes or modifies the terms and conditions of the occupant's use of a space at a self-service storage facility.
6. "Self-service storage facility" means any real property used for renting or leasing individual spaces in which occupants customarily store and remove their personal property. The term does not include a garage used principally for parking motor vehicles; any property of a financial institution which contains vaults, safe deposit boxes, or other receptacles for the purpose and benefit of the financial institution's customers; or a warehouse where warehouse receipts, bills of lading, or other documents of title are issued for the personal property stored.
7. "Self-service storage insurance" means personal property insurance offered in connection with and incidental to the rental of a space at a self-service storage facility and which provides coverage to occupants at the self-service storage facility where the insurance is transacted for the loss of or damage to personal property occurring at the facility or when the property is in transit to or from the facility during the period of the rental agreement.

8. "Supervising entity" means a person that is a licensed insurer or insurance producer appointed by an insurer to supervise the administration of a self-service storage insurance program.

#### **26.1-26.9-02. Licensure of owners.**

1. An owner shall obtain from the insurance commissioner and hold a limited lines license under this section if the owner sells, solicits, or offers coverage for self-service storage insurance. This section does not require an owner to be licensed solely to display and make available to occupants and prospective occupants brochures and other promotional materials created by or on behalf of an authorized insurer or surplus lines insurer.
2. A limited lines license issued under this section is limited to authorizing an owner and the owner's employees and authorized representatives to sell, solicit, and offer coverage for self-service storage insurance to occupants.
3. A limited lines license issued under this section authorizes an owner and the owner's employees and authorized representatives to sell, solicit, and offer self-service storage insurance coverage at each location at which the owner conducts business.
4. The owner or supervising entity shall maintain a registry of owner locations authorized to sell, solicit, or offer self-service storage insurance coverage in this state. Upon request by the commissioner, and with five days' notice, the owner or supervising entity shall provide the registry to the commissioner for inspection and examination.
5. Notwithstanding any other provision of law, a license issued under this section authorizes the licensee and the licensee's employees and authorized representatives to engage only in activities permitted by this chapter in connection with the business of insurance unless authorized to do so under another license issued by the commissioner.

#### **26.1-26.9-03. Sale of self-service storage insurance - Requirements.**

1. At every location where self-service storage insurance is offered to occupants, the owner shall make available to occupants brochures or other written or electronic materials that:
  - a. Disclose that self-service storage insurance may provide a duplication of coverage already provided by an occupant's homeowner's insurance policy, renter's insurance policy, or other source of coverage.
  - b. State the purchase by the occupant of the self-service storage insurance offered by the owner is not required to lease a space at the self-service storage facility.
  - c. Provide the actual terms of the self-service storage insurance coverage, or summarize the material terms of the insurance coverage, including:
    - (1) The identity of the insurer;
    - (2) The identity of the supervising entity, if any;

- (3) The amount of any applicable deductible and how the deductible is to be paid;
  - (4) Benefits of the coverage; and
  - (5) Key terms and conditions of the coverage.
- d. Summarize the process for filing a claim.
  - e. State an occupant that purchases self-service storage insurance may cancel enrollment for the occupant's coverage at any time, and the person paying the premium shall receive a refund of any applicable unearned premium.
2. The written materials required by this section are not subject to filing or approval requirements with the commissioner.
  3. Self-service storage insurance may be provided under an individual policy or a commercial, corporate, group, or master policy. Form, policy, and rate filings for self-service storage insurance must be made with the commissioner in accordance with this chapter and section 26.1-30-19.
  4. Eligibility and underwriting standards for occupants electing to purchase self-service storage insurance coverage must be established for the self-service storage insurance program.
  5. The owner is exempt from the examination and education requirements in chapter 26.1-26.

**26.1-26.9-04. Authority of owners.**

1. Employees and authorized representatives of an owner may sell, solicit, and offer self-service storage insurance to occupants and are not subject to licensure as an insurance producer under this chapter if:
  - a. The owner obtains a limited lines license to authorize the owner's employees and authorized representatives to sell, solicit, and offer self-service storage insurance under this chapter.
  - b. The owner files an acknowledgment with the commissioner in a form and manner directed by the commissioner that the owner's counter sales employees and authorized representatives act on the owner's behalf and the owner is responsible for any representations made by the counter sales employees or authorized representatives relating to the self-service storage insurance offered through the owner. The acknowledgment must state the commissioner may take any administrative action included in this title.
  - c. The insurer issuing the self-service storage insurance or a supervising entity supervises the development of a training program for employees and authorized representatives of the owner. The training required by this subdivision:
    - (1) Must be delivered to employees and authorized representatives of the owner who are engaged directly in the activity of selling, soliciting, or offering self-service storage insurance, and the training materials must

- be maintained by the owner and made available to the commissioner for inspection upon request.
- (2) Must include providing each employee and authorized representative with basic instruction about the self-service storage insurance offered to customers and the disclosures required under section 26.1-26.9-03; and
  - (3) May be provided in electronic form, provided the owner or supervising entity implements a supplemental education program regarding the self-service storage insurance conducted and overseen by a licensed producer.
- d. An employee or authorized representative of an owner may not advertise, represent, or otherwise be held out to the public as a nonlimited lines-licensed insurance producer, unless otherwise licensed.
2. An owner's employees and authorized representatives may not be paid directly by an insurance company, or be paid a commission or any other compensation for the sale of self-service storage insurance. This section does not prevent an owner from including the results of selling, soliciting, or offering self-service storage insurance in an overall performance compensation incentive program for employees and authorized representatives.
  3. The owner may bill and collect charges for self-service storage insurance coverage. Any charge to the occupant for coverage not included in the cost of the rental of a space must be separately itemized on the occupant's bill. If the self-service storage insurance coverage is included with the lease of a space, the owner clearly and conspicuously shall disclose to the occupant, on the rental invoice or elsewhere, any self-service storage insurance coverage included with the rental of a space. An owner billing and collecting the charges is not required to maintain the funds in a segregated account if the owner is authorized by the insurer to hold the funds in an alternative manner. All premiums received by an owner from an occupant for the sale of self-service storage insurance must be considered funds held by the owner in a fiduciary capacity for the benefit of the insurer. An owner may receive compensation for billing and collection services.

#### **26.1-26.9-05. Application for license and fees.**

1. An owner selling, soliciting, or offering self-service storage insurance shall apply to the commissioner.
2. In lieu of providing the information for all officers, directors, and shareholders owning more than ten percent of the applicant, the applicant shall provide the name, residential address, and other information required by the commissioner for an employee or officer of the owner or supervising entity designated by the applicant as the person responsible for the owner's compliance with the requirements of this chapter. However, if the owner derives more than fifty percent of the owner's revenue from the sale of self-service storage insurance, the information required under this subsection must be provided for all officers, directors, and shareholders of record having beneficial ownership of ten percent or more.
3. Each owner licensed under this chapter shall pay to the commissioner a fee as prescribed by the commissioner.

4. An owner selling, soliciting, or offering self-service storage insurance before the effective date of this Act shall apply for licensure within ninety days of the application being made available by the commissioner. An applicant that begins to sell, solicit, or offer self-service storage insurance after the effective date of this Act shall obtain a license before selling, soliciting, or offering self-service storage insurance.

#### **26.1-26.9-06. Authority of commissioner to investigate.**

Within a reasonable time after receipt of a properly completed application for a license under this chapter, the commissioner may conduct investigations and propound interrogatories concerning the applicant's qualifications, residence, business affiliations, and any other matter the commissioner believes necessary or advisable to determine compliance with this chapter or for the protection of the public.

#### **26.1-26.9-07. Examination and investigation by commissioner.**

7. An insurer may apply to the commissioner for a deferral of all or part of an assessment imposed by the association under this section. If all or part of the assessment is deferred, the amount deferred must be assessed against other insurers in a proportionate manner consistent with this section. The insurer that receives a deferral remains liable to the association for the amount deferred and is prohibited from reinsuring any person through the association until such time as the insurer pays the assessments.

**26.1-36.7-10. Rulemaking.**

The commissioner may adopt rules for the implementation and administration of this chapter.

**SECTION 3. LEGISLATIVE MANAGEMENT STUDY - HEALTH INSURANCE PREMIUM TREND.** During the 2019-20 interim, the legislative management shall study ways the state may be able to positively affect the current trend of health insurance premium rates increasing, with a focus on the high-risk and subsidized markets. The study must be solution based to reduce costs and may include consideration of whether a strict managed care model might be effective. The legislative management shall report its findings and recommendations, together with any legislation necessary to implement the recommendations, to the sixty-seventh legislative assembly.

    - (a) In providing the substitute coverage required under this paragraph, the association may offer either to reissue the terminated coverage or to issue an alternative policy or contract at actuarially justified rates, subject to the prior approval of the commissioner.

  - (6) Any alternative policy or contract issued by the association shall provide coverage of a type similar to that of the policy or contract issued by the impaired or insolvent insurer, as determined by the association.
  - (7) If the association elects to reissue terminated coverage at a premium rate different from that charged under the terminated policy or contract, the premium must be actuarially justified and set by the association in accordance with the amount of insurance or coverage provided and the age and class of risk, subject to prior approval of the ~~domiciliary insurance commissioner and the receivership court.~~
  - (8) The association's obligations with respect to coverage under any policy or contract of the impaired or insolvent insurer or under any reissued or alternative policy or contract shall cease on the date ~~such~~the coverage or policy or contract is replaced by another similar policy or contract by the policy or contract owner, the insured, the enrollee, or the association.

  6. The protection provided by this chapter does not apply when any guaranty protection is provided to residents of this state by the laws of the domiciliary state or jurisdiction of the impaired or insolvent insurer other than this state.

7. In carrying out its duties under subsection 2, the association may:
  - a. Subject to approval by a court in this state, impose permanent policy or contract liens in connection with any guarantee assumption or reinsurance agreement, if the association finds that the amounts which can be assessed under this chapter are less than the amounts needed to assure full and prompt performance of the association's duties under this chapter, or that the economic or financial conditions as they affect member insurers are sufficiently adverse to render the imposition of such permanent policy or contract liens, to be in the public interest.
  - b. Subject to approval by a court in this state, impose temporary moratoriums or liens on payments of cash values and policy loans, or any other right to withdraw funds held in conjunction with policies or contracts, in addition to any contractual provisions for deferral or cash or policy loan value. In addition, in the event of a temporary moratorium or moratorium charge imposed by the receivership court on payment of cash values or policy loans, or on any other right to withdraw funds held in conjunction with policies or contracts, out of the assets of the impaired or insolvent insurer, the association may defer the payment of cash values, policy loans, or other rights by the association for the period of the moratorium or moratorium charge imposed by the receivership court, except for claims covered by the association to be paid in accordance with a hardship procedure established by the liquidator or rehabilitator and approved by the receivership court.
8. A deposit in this state, held according to law or as required by the commissioner for the benefits of creditors, including policy or contract owners, not turned over to the domiciliary liquidator upon the entry of a final order of liquidation or order approving a rehabilitation plan of ~~an~~ a member insurer domiciled in this state or in a reciprocal state, under section 26.1-06.1-50, must be paid promptly to the association. The association may retain a portion of any amount received equal to the percentage determined by dividing the aggregate amount of policy or contract owners' claims related to that insolvency for which the association has provided statutory benefits by the aggregate amount of all policy or contract owners' claims in this state related to that insolvency and shall remit to the domiciliary receiver the amount so paid to the association and, less the amount retained pursuant to this subsection. Any amount paid to the association ~~less the amount~~ and retained by it is treated as a distribution of estate assets pursuant to section 26.1-06.1-43 or similar provision of the state of domicile of the impaired or insolvent insurer.
9. If the association fails to act within a reasonable period of time with respect to an insolvent insurer, as provided in subsection 2, the commissioner shall have the powers and duties of the association under this chapter with respect to insolvent insurers.
10. The association may render assistance and advice to the commissioner, upon request, concerning rehabilitation, payment of claims, continuance of coverage, or the performance of other contractual obligations of any impaired or insolvent insurer.
11. The association shall have standing to appear or intervene before any court or agency in this state with jurisdiction over an impaired or insolvent insurer

The association shall also have the right to appear or intervene before a court or agency in another state with jurisdiction over an impaired or insolvent insurer for which the association is or may become obligated or with jurisdiction over any person or property against whom the association may have rights through subrogation or otherwise.

Any person receiving benefits under this chapter must be deemed to have assigned the rights under, and any causes of action against any person for losses arising under, resulting from, or otherwise relating to, the covered policy or contract to the association to the extent of the benefits received because of this chapter, whether the benefits are payments of or on account of contractual obligations, continuation of coverage, or provision of substitute or alternative policies, contracts, or coverages. The association may require an assignment to it of such rights and causes of action by any enrollee, payee, policy or contract owner, beneficiary, insured, or annuitant as a condition precedent to the receipt of any right or benefits conferred by this chapter upon such person.
13. The subrogation rights of the association under this section have the same priority against the assets of the impaired or insolvent insurer as that possessed by the person entitled to receive benefits under this chapter.
14. In addition to subsections 12 and 13, the association shall have all common-law rights of subrogation and other equitable or legal remedy that would have been available to the impaired or insolvent insurer or owner, beneficiary, enrollee, or payee of a policy or contract with respect to such policy or contract, including, in the case of a structured settlement annuity, any rights of the owner, beneficiary, or payee of the annuity, to the extent of benefits received under this chapter, against a person originally or by succession responsible for the losses arising from ~~or payment for~~ the personal injury relating to the annuity or payment for the personal injury, except any such person responsible solely by reason of serving as an assignee in respect of a qualified assignment under section 130 of the Internal Revenue Code.
15. If subsections 12, 13, and 14 are invalid or ineffective with respect to any person or claim for any reason, the amount payable by the association with respect to the related covered obligations must be reduced by the amount realized by any other person with respect to the person or claim that is attributable to the policies or contracts or portion of the policies or contracts covered by the association. If the association has provided benefits with respect to a covered obligation and a person recovers amounts as to which the association has rights as described in the preceding paragraphs of this subsection, the person shall pay to the association the portion of the recovery attributable to the policies or contracts or portion of the policies or contracts covered by the association.
16. In addition to any other rights and powers under this chapter, the association may:

- a. Enter into such contracts as are necessary or proper to carry out the provisions and purposes of this chapter;
  - b. Sue or be sued, including taking any legal actions necessary or proper to recover any unpaid assessments under section 26.1-38.1-06 and to settle claims or potential claims against it;
  - c. Borrow money to effect the purposes of this chapter and any notes or other evidences of indebtedness of the association not in default shall be legal investments for domestic member insurers and may be carried as admitted assets;
  - d. Employ or retain such persons as are necessary or appropriate to handle the financial transactions of the association, and to perform such other functions as become necessary or proper under this chapter;
  - e. Take such legal action as may be necessary or appropriate to avoid or recover payment of improper claims;
  - f. Exercise, for the purposes of this chapter and to the extent approved by the commissioner, the ~~power~~powers of a domestic life ~~or~~insurer, health insurer, or health maintenance organization, but in no case may the association issue insurance policies or annuity contracts other than those issued to perform its obligations under this chapter;
  - g. Organize itself as a corporation or in other legal form permitted by the laws of this state;
  - h. Request information from a person seeking coverage from the association in order to aid the association in determining its obligations under this chapter with respect to the person, and the person promptly shall comply with the request; ~~and~~
  - i. Unless prohibited by law, in accordance with the terms and conditions of the policy or contract, file for actuarially justified rate or premium increases for any policy or contract for which the association provides coverage under this chapter; and
  - j. Take other necessary or appropriate action to discharge its duties and obligations under this chapter or to exercise its powers under this chapter.
17. The association may join an organization of one or more state associations of similar purposes, to further the purposes and administer the powers and duties of the association.
  18. At any time within one year after the date on which the association becomes responsible for the obligations of a member insurer, the association may elect to succeed to the rights and obligations of the member insurer which accrue on or after this coverage date and which relate to contracts covered in whole or in part by the association under any indemnity reinsurance agreement entered by the member insurer as a ceding insurer and selected by the association. However, the association may not exercise an election with respect to a reinsurance agreement if the receiver, rehabilitator, or liquidator of the member insurer previously and expressly has disaffirmed the reinsurance agreement. The election is effected by a notice to the receiver, rehabilitator, or

liquidator and to the affected reinsurers. If the association makes an election, subdivisions a through d apply with respect to the agreements selected by the association.

- a. The association is responsible for all unpaid premiums due under the agreements, for periods both before and after the coverage date, and is responsible for the performance of all other obligations to be performed after the coverage date, in each case which relate to contracts covered, in whole or in part, by the association. The association may charge contracts covered in part by the association, through reasonable allocation methods, the costs for reinsurance in excess of the obligations of the association.
  - b. The association is entitled to any amounts payable by the reinsurer under the agreements with respect to losses or events that occur in periods after the coverage date and that relate to contracts covered by the association, in whole or in part, provided that, upon receipt of any of these amounts, the association is obliged to pay to the beneficiary under the policy or contract on account of which the amounts were paid a portion of the amount equal to the excess of the amount received by the association, over the benefits paid by the association on account of the policy or contract less the retention of the impaired or insolvent member insurer applicable to the loss or event.
  - c. Within thirty days following the association's election, the association and each indemnity reinsurer shall calculate the net balance due to or from the association under each reinsurance agreement as of the date of the association's election, giving full credit to every item paid by the member insurer or its receiver, rehabilitator, or liquidator, or the indemnity reinsurer during the period between the coverage date and the date of the association's election. The association or indemnity reinsurer shall pay the net balance due the other within five days of the completion of the aforementioned calculation. If the receiver, rehabilitator, or liquidator received any amounts due the association pursuant to subdivision b, the receiver, rehabilitator, or liquidator shall remit the amounts to the association as promptly as practicable.
  - d. If the association, within sixty days of the election, pays the premiums due for periods both before and after the coverage date that relate to contracts covered by the association, in whole or in part, the reinsurer may not terminate the reinsurance agreements, to the extent the agreements relate to contracts covered by the association, in whole or in part, and may not set off any unpaid premium due for periods before the coverage date against amounts due the association.
19. If the association transfers its obligations to another insurer, and if the association and the other insurer agree, the other insurer shall succeed to the rights and obligations of the association under subsection 18 effective as of the date agreed by the association and the other insurer and regardless of whether the association made the election, provided that:
- a. The indemnity reinsurance agreements automatically terminate for new reinsurance unless the indemnity reinsurer and the other insurer agree to the contrary;

- b. The obligations described in the proviso to subdivision b of subsection 18 no longer apply on and after the date the indemnity reinsurance agreement is transferred to the third-party insurer; and
  - c. This subsection does not apply if the association previously expressly determined in writing that it will not exercise the election referred to in subsection 18.
20. Subsections 18 and 19 supersede the provisions of any law of this state or of any affected reinsurance agreement~~contract~~ that provides for or requires any payment of reinsurance proceeds, on account of losses or events that occur in periods after the coverage date, to the receiver, rehabilitator, or liquidator, of the insolvent member insurer. The receiver, rehabilitator, or liquidator remains entitled to any amounts payable by the reinsurer under the reinsurance agreement with respect to losses or events that occur in periods before the coverage date, subject to applicable setoff provisions.
21. Except as otherwise expressly provided in this section, this section does not alter or modify the terms and conditions of the indemnity reinsurance agreements of the insolvent member insurer. This section does not abrogate or limit any rights of any reinsurer to claim that it is entitled to rescind a reinsurance agreement. This section does not give a policy owner, contract owner, enrollee, certificate holder, or beneficiary an independent claim for relief against an indemnity reinsurer which is not otherwise set forth in the indemnity reinsurance agreement.
22. The board of directors of the association has discretion and may exercise reasonable business judgment to determine the means by which the association is to provide the benefits of this chapter in an economical and efficient manner.
23. If the association arranged or offered to provide the benefits of this chapter to a covered person under a plan or arrangement that fulfills the association's obligations under this chapter, the person is not entitled to benefits from the association in addition to or other than those provided under the plan or arrangement.
24. Burleigh County is the venue in a course of action against the association arising under this chapter. The association is not required to give an appeal bond in an appeal that relates to a cause of action arising under this chapter.
25. ~~Subject to approval of the receivership court, the~~The association, in carrying out association duties in connection with guaranteeing, assuming, reissuing, or reinsuring policies or contracts under subsections ~~21~~ and ~~32~~, may issue substitute coverage for a policy or contract that provides a rate of interest, crediting of a rate of interest, or similar factor determined by using an index or other external reference stated in the policy or contract which is employed in calculating returns or changes in value by issuing an alternative policy or contract if:
  - a. Instead of the index or other external reference provided for in the ~~replaced~~original policy or contract, the alternative policy or contract provides for a fixed interest rate, payment of dividends with minimum guarantees, or different method for calculating interest or changes in value;

- b. There is no requirement for evidence of insurability, a waiting period, or other exclusion that would not have applied under the replaced policy or contract; and
- c. The alternative policy or contract is substantially similar to the replaced policy or contract in all other material terms.

**SECTION 6. AMENDMENT.** Section 26.1-38.1-06 of the North Dakota Century Code is amended and reenacted as follows:

**26.1-38.1-06. Assessments.**

1. For the purpose of providing the funds necessary to carry out the powers and duties of the association, the board of directors shall assess the member insurers, separately for each account, at such time and for such amounts as the board finds necessary. Assessments must be due not less than thirty days after prior written notice to the member insurers and must accrue interest at eighteen percent per annum on and after the due date.
2. There must be two classes of assessment, as follows:
  - a. Class A assessments must be authorized and called for the purpose of meeting administrative and legal costs and other expenses. Class A assessments may be authorized and called whether or not related to a particular impaired or insolvent insurer.
  - b. Class B assessments must be authorized and called to the extent necessary to carry out the powers and duties of the association under section 26.1-38.1-05 with regard to an impaired or insolvent insurer.
3. The amount of any class A assessment must be determined at the discretion of the board of directors and must be authorized and called on a non-pro rata basis.
4. The amount of any class B assessment, except for assessments related to long-term care insurance, must be allocated for assessment purposes amongbetween the accounts and among the subaccounts of the life insurance and annuity account, pursuant to an allocation formula which may be based on the premiums or reserves of the impaired or insolvent insurer or any other standard deemed by the board in its sole discretion as being fair and reasonable under the circumstances.
5. The amount of the class B assessment for long-term care insurance written by the impaired or insolvent insurer must be allocated according to a methodology included in the plan of operation and approved by the commissioner. The methodology must provide for fifty percent of the assessment to be allocated to accident and health member insurers and fifty percent to be allocated to life and annuity member insurers.
6. Class B assessments against member insurers for each account and subaccount must be in the proportion that the premiums received on business in this state by each assessed member insurer on policies or contracts covered by each account for the three most recent calendar years for which information is available preceding the year in which the member insurer became insolvent or, in the case of an assessment with respect to an impaired insurer, the three most recent calendar years for which information is available

preceding the year in which the member insurer became impaired, bears to such premiums received on business in this state for such calendar years by all assessed member insurers.

- 6-7. Assessments for funds to meet the requirements of the association with respect to an impaired or insolvent insurer may not be authorized or called until necessary to implement the purposes of this chapter. Classification of assessments under subsection 2 and computation of assessments under this section must be made with a reasonable degree of accuracy, recognizing that exact determinations may not always be possible. The association shall notify each member insurer of its anticipated pro rata share of an authorized assessment not yet called within one hundred eighty days after the assessment is authorized.
- 7-8. The association may abate or defer, in whole or in part, the assessment of a member insurer if, in the opinion of the board, payment of the assessment would endanger the ability of the member insurer to fulfill its contractual obligations. In the event an assessment against a member insurer is abated, or deferred in whole or in part, the amount by which such assessment is abated or deferred may be assessed against the other member insurers in a manner consistent with the basis for assessments set forth in this section. Once the conditions that caused a deferral are removed or rectified, the member insurer shall pay all assessments that were deferred pursuant to a repayment plan approved by the association.
- 8-9. a. Subject to subdivision b, the total of all assessments authorized by the association with respect to a member insurer for each subaccount of the life insurance and annuity account and for the health account may not in any one calendar year exceed two percent of that member insurer's average annual premiums received in this state on the policies and contracts covered by the subaccount or account during the three calendar years preceding the year in which the member insurer became an impaired or insolvent insurer.
- b. If two or more assessments are authorized in one calendar year with respect to member insurers that become impaired or insolvent in different calendar years, the average annual premiums for purposes of the aggregate assessment percentage limitation referenced in subdivision a must be equal and limited to the higher of the three-year average annual premiums for the applicable subaccount or account as calculated pursuant to this section.
- c. If the maximum assessment, together with the other assets of the association in an account, does not provide in one year in either account an amount sufficient to carry out the responsibilities of the association, the necessary additional funds must be assessed as soon after as permitted under this chapter.
- 9-10. The board may provide in the plan of operation a method of allocating funds among claims, whether relating to one or more impaired or insolvent insurers, when the maximum assessment will be insufficient to cover anticipated claims.
- 10-11. If the maximum assessment for any subaccount of the life and annuity account in any one year does not provide an amount sufficient to carry out the responsibilities of the association, then pursuant to subsection 74, the board

shall assess the other subaccounts of the life and annuity account for the necessary additional amount, subject to the maximum stated in subsection 89.

- 44-12. The board may, by an equitable method as established in the plan of operation, refund to member insurers, in proportion to the contribution of each member insurer to that account, the amount by which the assets of the account exceed the amount the board finds is necessary to carry out during the coming year the obligations of the association with regard to that account, including assets accruing from assignment, subrogation, net realized gains, and income from investments. A reasonable amount may be retained in any account to provide funds for the continuing expenses of the association and for future claims.
- 42-13. It is proper for any member insurer, in determining its premium rates and policy owner dividends as to any kind of insurance or health maintenance organization business within the scope of this chapter, to consider the amount reasonably necessary to meet its assessment obligations under this chapter.
- 43-14. The association shall issue to each member insurer paying an assessment under this chapter, other than a class A assessment, a certificate of contribution, in a form prescribed by the commissioner, for the amount of the assessment so paid. All outstanding certificates must be of equal dignity and priority without reference to amounts or dates of issue. A certificate of contribution may be shown by the member insurer in its financial statement as an asset in such form and for such amount, if any, and period of time as the commissioner may approve.
- 44-15. a. A member insurer that wishes to protest all or part of an assessment shall pay when due the full amount of the assessment as set forth in the notice provided by the association. The payment must be available to meet association obligations during the pendency of the protest or any subsequent appeal. Payment must be accompanied by a statement in writing that the payment is made under protest and must set forth a brief statement of the grounds for the protest.
- b. Within sixty days following the payment of an assessment under protest by a member insurer, the association shall notify the member insurer in writing of its determination with respect to the protest unless the association notifies the member insurer that additional time is required to resolve the issues raised by the protest.
- c. Within thirty days after a final decision was made, the association shall notify the protesting member insurer in writing of that final decision. Within sixty days of receipt of notice of the final decision, the protesting member insurer may appeal that final action to the commissioner.
- d. In the alternative to rendering a final decision with respect to a protest based on a question regarding the assessment base, the association may refer protests to the commissioner for a final decision, with or without a recommendation from the association.
- e. If the protest or appeal on the assessment is upheld, the amount paid in error or excess must be returned to the member insurer. Interest on a refund due a protesting member insurer shall be paid at the rate actually earned by the association.

~~45-16.~~ The association may request information of member insurers in order to aid in the exercise of its power under this section and member insurers shall comply promptly with a request.

**SECTION 7. AMENDMENT.** Section 26.1-38.1-08 of the North Dakota Century Code is amended and reenacted as follows:

**26.1-38.1-08. Duties and powers of the commissioner.**

In addition to the duties and powers enumerated elsewhere in this chapter:

1. The commissioner shall:
  - a. Upon request of the board of directors, provide the association with a statement of premiums in this and any other appropriate states for each member insurer;
  - b. When an impairment is declared and the amount of the impairment is determined, serve a demand upon the impaired insurer to make good the impairment within a reasonable time; notice to the impaired insurer constitutes notice to its shareholders, if any; and the failure of the impaired insurer to promptly comply with such demand does not excuse the association from the performance of its powers and duties under this chapter; and
  - c. In any liquidation or rehabilitation proceedings involving a domestic insurer, be appointed as the liquidator or rehabilitator.
2. The commissioner may suspend or revoke, after notice and hearing, the certificate of authority to transact insurance business in this state of any member insurer which fails to pay an assessment when due or fails to comply with the plan of operation. As an alternative, the commissioner may levy a forfeiture on any member insurer which fails to pay an assessment when due. Such forfeiture may not exceed five percent of the unpaid assessment per month, but no forfeiture may be less than one hundred dollars per month.
3. Any final action of the board of directors or the association may be appealed to the commissioner by any member insurer if such appeal is taken within sixty days of the member's receipt of notice of the final action being appealed. Any final action or order of the commissioner is subject to judicial review in a court of competent jurisdiction in accordance with the laws of this state which apply to the action or orders of the commissioner.
4. The liquidator, rehabilitator, or conservator of any impaired or insolvent insurer may notify any interested persons of the effect of this chapter.

**SECTION 8. AMENDMENT.** Section 26.1-38.1-09 of the North Dakota Century Code is amended and reenacted as follows:

**26.1-38.1-09. Prevention of insolvencies.**

1. To aid in the detection and prevention of member insurer insolvencies or impairments, it is the duty of the commissioner:

- a. To notify the commissioners of all the other states, territories of the United States, and the District of Columbia when the commissioner takes any of the following actions against a member insurer:
    - (1) Revokes its license;
    - (2) Suspends its license; or
    - (3) Makes any formal order that ~~such company~~the member insurer restrict its premium writing, obtain additional contributions to surplus, withdraw from the state, reinsure all or any part of its business, or increase capital, surplus, or any other account for the security of policy owners, contract owners, certificate holders, or creditors.
    - (4) Such notice must be mailed to all commissioners within thirty days following the action taken or the date on which such action occurs.
  - b. To report to the board of directors when the commissioner has taken any of the actions set forth in subdivision a or has received a report from any other commissioner indicating that any such action has been taken in another state. Such report to the board of directors must contain all significant details of the action taken or the report received from another commissioner.
  - c. To report to the board of directors when the commissioner has reasonable cause to believe from any examination, whether completed or in process, of any member insurer that such insurer may be an impaired or insolvent insurer.
  - d. To furnish to the board of directors the national association of insurance commissioners insurance ~~regulation~~regulatory information system ratios and listings of companies not included in the ratios developed by the national association of insurance commissioners and the board may use the information contained therein in carrying out its duties and responsibilities under this section. Such report and the information contained therein must be kept confidential by the board of directors until such time as made public by the commissioner or other lawful authority.
2. The commissioner may seek the advice and recommendations of the board of directors concerning any matter affecting the commissioner's duties and responsibilities regarding the financial condition of member insurers ~~and companies of insurers or health maintenance organizations~~ seeking admission to transact insurance business in this state.
  3. The board of directors, upon majority vote, may make reports and recommendations to the commissioner upon any matter germane to the solvency, liquidation, rehabilitation, or conservation of any member insurer or germane to the solvency of any ~~company~~insurer or health maintenance organization seeking to do an insurance business in this state. Such reports and recommendations may not be considered public documents.
  4. The board of directors, upon majority vote, may notify the commissioner of any information indicating any member insurer may be an impaired or insolvent insurer.

5. The board of directors, upon majority vote, may make recommendations to the commissioner for the detection and prevention of member insurer insolvencies.

**SECTION 9. AMENDMENT.** Section 26.1-38.1-10 of the North Dakota Century Code is amended and reenacted as follows:

**26.1-38.1-10. Credits for assessments paid - Tax offsets.**

1. A member insurer may offset against its premium tax liability to this state an assessment described in section 26.1-38.1-06 to the extent of twenty percent of the amount of such assessment for each of the five calendar years following the year in which such assessment was paid. In the event a member insurer should cease doing business, all uncredited assessments may be credited against its ~~premiums~~premium tax liability for the year it ceases doing business.
2. A member insurer that is exempt from taxes referenced in subsection 1 may recoup that member insurer's assessments by a surcharge on that member insurer's premiums in a sum reasonably calculated to recoup the assessments over a reasonable period of time, as approved by the commissioner. Amounts recouped may not be considered premiums for any other purpose, including the computation of gross premium tax, the medical loss ratio, or agent commission. If a member insurer collects excess surcharges, the insurer shall remit the excess amount to the association, and the excess amount must be applied to reduce future assessments in the appropriate account.
3. Any sums ~~which~~that are acquired by refund, pursuant to section 26.1-38.1-06, from the association by member insurers, and which have ~~theretofore~~ been offset against premium taxes as provided in subsection 1, must be paid by ~~such~~the member insurers to this state in such manner as the tax authorities may require. The association shall notify the commissioner that such refunds have been made.

**SECTION 10. AMENDMENT.** Section 26.1-38.1-11 of the North Dakota Century Code is amended and reenacted as follows:

**26.1-38.1-11. Miscellaneous provisions.**

1. This chapter does not reduce the liability for unpaid assessments of the insured of an impaired or insolvent insurer operating under a plan with assessment liability.
2. Records must be kept of all meetings of the board of directors to discuss the activities of the association in carrying out its powers and duties under section 26.1-38.1-05. The records of the association with respect to an impaired or insolvent insurer may not be disclosed before the termination of a liquidation, rehabilitation, or conservation proceeding involving the impaired or insolvent insurer, except upon the termination of the impairment or solvency of the member insurer, or upon the order of a court of competent jurisdiction. Nothing in this subsection limits the duty of the association to render a report of its activities under section 26.1-38.1-12.
3. For the purpose of carrying out its obligations under this chapter, the association must be deemed to be a creditor of the impaired or insolvent insurer to the extent of assets attributable to covered policies reduced by any

amounts to which the association is entitled as subrogee pursuant to subsections 12, 13, and 14 of section 26.1-38.1-05. Assets of the impaired or insolvent insurer attributable to covered policies must be used to continue as covered policies and pay all contractual obligations of the impaired or insolvent insurer as required by this chapter. Assets attributable to covered policies or contracts, as used in this subsection, are that proportion of the assets which the reserves that should have been established for such policies or contracts bear to the reserves that should have been established for all policies of insurance or health benefit plans written by the impaired or insolvent insurer.

4. As a creditor of the impaired or insolvent insurer as established in subsection 3 and consistent with chapter 26.1-06, the association and other similar associations are entitled to receive a disbursement of assets out of the marshaled assets, from time to time as the assets become available to reimburse it, as a credit against contractual obligations under this chapter. If the liquidator, within one hundred twenty days of a final determination of insolvency of ana member insurer by the receivership court, does not apply to the court for the approval of a proposal to disburse assets out of marshaled assets to guaranty associations having obligations because of the insolvency, the association is entitled to apply to the receivership court for approval of its own proposal to disburse these assets.
5. Prior to the termination of any liquidation, rehabilitation, or conservation proceeding, the court may take into consideration the contributions of the respective parties, including the association, the shareholders, any contract owners, certificate holders, enrollees, and policy owners of the insolvent insurer, and any other party with a bona fide interest, in making an equitable distribution of the ownership rights of such insolvent insurer. In making such a determination, consideration must be given to the welfare of the policy owners, contract owners, certificate holders, and enrollees of the continuing or successor member insurer.
6. No distribution to stockholders, if any, of an impaired or insolvent insurer may be made until and unless the total amount of valid claims of the association with interest thereon for funds expended in carrying out its powers and duties under section 26.1-38.1-05 with respect to sue the member insurer have been fully recovered by the association.
7.
  - a. If an order for liquidation or rehabilitation of ana member insurer domiciled in this state has been entered, the receiver appointed under the order has the right to recover on behalf of the member insurer, from any affiliate that controlled its capital stock, the amount of distributions, other than stock dividends paid by the member insurer on its capital stock, made at any time during the five years preceding the petition for liquidation or rehabilitation subject to the limitations of subdivisions b, c, and d.
  - b. No such distribution is recoverable if the member insurer shows that when paid the distribution was lawful and reasonable, and that the member insurer did not know and could not reasonably have known that the distribution might adversely affect the ability of the member insurer to fulfill its contractual obligations.
  - c. Any person who was an affiliate that controlled the member insurer at the time the distributions were paid is liable up to the amount of distributions

the person received. Any person who was an affiliate that controlled the member insurer at the time the distributions were declared is liable up to the amount of distributions the person would have received if payment had been made immediately. If two or more persons are liable with respect to the same distributions, they are jointly and severally liable.

- d. The maximum amount recoverable under this subsection is the amount needed in excess of all other available assets of the insolvent insurer to pay the contractual obligations of the insolvent insurer.
- e. If any person liable under subdivision c is insolvent, all its affiliates that controlled it at the time the distribution was paid, are jointly and severally liable for any resulting deficiency in the amount recovered from the insolvent affiliate.

**SECTION 11. AMENDMENT.** Section 26.1-38.1-13 of the North Dakota Century Code is amended and reenacted as follows:

**26.1-38.1-13. Tax exemptions.**

The association is exempt from payment of all fees and all taxes levied by this state ~~on~~ any of its subdivisions, except taxes levied on real property.

**SECTION 12. AMENDMENT.** Section 26.1-38.1-14 of the North Dakota Century Code is amended and reenacted as follows:

**26.1-38.1-14. Immunity.**

There is no liability on the part of and no cause of action of any nature may arise against any member insurer or its agents or employees, the association or its agents or employees, members of the board of directors, or the commissioner or the commissioner's representatives, for any action or omission by them in the performance of their powers and duties under this chapter. ~~Such~~This immunity extends to the participation of any organization of one or more other state associations of similar purposes and to any such organization and its agents or employees.

**SECTION 13. AMENDMENT.** Section 26.1-38.1-16 of the North Dakota Century Code is amended and reenacted as follows:

**26.1-38.1-16. Prohibited advertisement of Insurance Guaranty Association Act in insurance sales - Notice to policy owners.**

1. No person, including ~~an~~ a member insurer, insurance producer, or affiliate of ~~an~~ a member insurer, may make, publish, disseminate, circulate, or place before the public, or cause directly or indirectly, to be made, published, disseminated, circulated, or placed before the public, in any newspaper, magazine, or other publication, or in the form of a notice, circular, pamphlet, letter, or poster, or over any radio station or television station, or in any other way, any advertisement, announcement or statement, written or oral, which uses the existence of the insurance guaranty association of this state for the purpose of sales, solicitation, or inducement to purchase any form of insurance or other coverage covered by chapter 26.1-38.1. ~~Provided, however, that~~However, this section does not apply to the North Dakota life and health insurance guaranty association or any other entity that does not sell or solicit insurance or coverage by a health maintenance organization.

2. Before January 1, 1990, the association shall prepare a summary document describing the general purposes and current limitations of the chapter and complying with subsection 3. This document should be submitted to the commissioner for approval. Sixty days after receiving approval, no member insurer may deliver a policy or contract to a policy owner, contract owner, certificate holder, or enrollee unless the summary document is delivered to the policy owner, contract owner or, certificate holder, or enrollee at the time of delivery of the policy or contract. The document should also be available upon request by a policy owner, contract owner, certificate holder, or enrollee. The distribution, delivery, or contents or interpretation of this document does not mean that either the policy or contract or the policy owner thereof would be, contract owner, certificate holder, or enrollee is covered in the event of the impairment or insolvency of a member insurer. The description document must be revised by the association as amendments to the chapter may require. Failure to receive this document does not give the policy owner, contract owner, certificate holder, enrollee, or insured any greater rights than those stated in this chapter.
3. The document prepared under subsection 2 must contain a clear and conspicuous disclaimer on its face. The commissioner shall establish the form and content of the disclaimer. The disclaimer must:
  - a. State the name and address of the life and health insurance guaranty association and insurance department;
  - b. Prominently warn the policy owner or, contract owner, certificate holder, or enrollee that the North Dakota life and health insurance guaranty association may not cover the policy or contract, or, if coverage is available, it will be subject to substantial limitations and exclusions and be conditioned on continued residence in this state;
  - c. State the types of policies or contracts for which guaranty funds will provide coverage;
  - d. State that the member insurer and its insurance producers are prohibited by law from using the existence of the North Dakota life and health insurance guaranty association for the purpose of sales, solicitation, or inducement to purchase any form of insurance or health maintenance organization coverage;
  - e. Emphasize that the policy owner or, contract owner, certificate holder, or enrollee should not rely on coverage under the North Dakota life and health insurance guaranty association when selecting an insurer or health maintenance organization coverage;
  - f. Explain rights available and procedures for filing a complaint to allege a violation of any provisions of this chapter; and
  - g. Provide other information as directed by the commissioner, including sources for information about the financial condition of insurers provided the information is not proprietary and is subject to disclosure under the state's public records law.
4. A member insurer shall retain evidence of compliance with subsection 2 for so long as the policy or contract for which the notice is given remains in effect.

**SECTION 14. REPEAL.** Section 26.1-38.1-17 of the North Dakota Century Code is repealed.

**SECTION 15. APPLICATION.** This Act applies to an insolvent insurer that is placed under an order of liquidation with a finding of insolvency after July 31, 2019.

### HOUSE BILL NO. 1181

(Representative Keiser)  
(Senator Klein)

AN ACT to create and enact chapter 26.1-57 of the North Dakota Century Code, relating to the regulation of guaranteed asset protection waivers; to provide a penalty; and to provide for application.

#### BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

**SECTION 1.** Chapter 26.1-57 of the North Dakota Century Code is created and enacted as follows:

##### **26.1-57-01. Definitions.**

As used in this chapter:

1. "Administrator" means a person, other than an insurer or creditor, which performs administrative or operational functions pursuant to guaranteed asset protection waiver programs.
2. "Borrower" means a debtor, retail buyer, or lessee, under a finance agreement.
3. "Creditor" means the lender in a loan or credit transaction; the lessor in a lease transaction; a dealer that provides credit to a motor vehicle retail buyer; the seller in a commercial retail installment transaction; or an assignee of any of the these persons.
4. "Dealer" has the same meaning as provided under section 39-01-01.
5. "Finance agreement" means a loan, lease, or retail installment sales contract for the purchase or lease of a motor vehicle.
6. "Free-look period" means the period of time from the effective date of the guaranteed asset protection waiver until the date the borrower may cancel the contract without penalty, fees, or costs to the borrower. This period of time may not be shorter than thirty days.
7. "Guaranteed asset protection waiver" means a contractual agreement in which a creditor agrees for a separate charge to cancel or waive all or part of amounts due on a borrower's finance agreement if there is a total physical damage loss or unrecovered theft of the motor vehicle, which agreement must be part of, or a separate addendum to, the finance agreement.
8. "Insurer" means an insurance company licensed, registered, or otherwise authorized to do business under the insurance laws of this state.

9. "Motor vehicle" has the same meaning as provided under section 39-01-01, except the term includes a snowmobile and a trailer for a snowmobile, motorcycle, boat, camper, or personal watercraft.

**26.1-57-02. Scope.**

1. This chapter does not apply to:
  - a. An insurance policy offered by an insurer under the insurance laws of this state;
  - b. A debt cancellation or debt suspension contract offered in compliance with title 12, Code of Federal Regulations, part 37 or title 12, Code of Federal Regulations, part 721, or other federal law; or
  - c. A debt cancellation or debt suspension contract offered by a bank or credit union chartered under the laws of this state.
2. Guaranteed asset protection waivers are not insurance and, except as provided under this chapter, are exempt from the insurance laws of this state. A person marketing, selling, or offering to sell guaranteed asset protection waivers to borrowers which complies with this chapter is exempt from the insurance requirements of this state.

**26.1-57-03. Requirements for offering guaranteed asset protection waivers.**

1. A guaranteed asset protection waiver may be offered, sold, or provided to a borrower in this state in compliance with this chapter.
2. A guaranteed asset protection waiver may, at the option of the creditor, be sold for a single payment or may be offered with a monthly or periodic payment option.
3. Notwithstanding any contrary provision of law, any cost to the borrower for a guaranteed asset protection waiver entered in compliance with the federal Truth in Lending Act [15 U.S.C. 1601 et seq.], and related implementing regulations, must be separately stated and is not a finance charge or interest.
4. A dealer shall insure the dealer's guaranteed asset protection waiver obligations under a contractual liability or other insurance policy issued by an insurer. A creditor, other than a dealer, may insure the creditor's guaranteed asset protection waiver obligations under a contractual liability policy or other such policy issued by an insurer. Any such insurance policy may be obtained directly by a creditor or dealer, or may be procured by an administrator, to cover a creditor's or dealer's obligations. However, a dealer that is a lessor on a motor vehicle is not required to insure obligations related to guaranteed asset protection waivers on that leased vehicle.
5. The guaranteed asset protection waiver remains a part of the finance agreement upon the assignment, sale, or transfer of that finance agreement by the creditor.
6. Neither the extension of credit, the term of credit, nor the term of the related motor vehicle sale or lease may be conditioned upon the purchase of a guaranteed asset protection waiver.

7. A creditor that offers a guaranteed asset protection waiver shall report the sale of, and forward funds received on all such waivers to the designated party, if any, as prescribed in any applicable administrative services agreement, contractual liability policy, other insurance policy, or other specified program documents.
8. Funds received or held by a creditor or administrator and belonging to an insurer, creditor, or administrator, pursuant to the terms of a written agreement, must be held by the creditor or administrator in a fiduciary capacity.

#### **26.1-57-04. Contractual liability or other insurance policies.**

1. Contractual liability or other insurance policies insuring guaranteed asset protection waivers must state the obligation of the insurer to reimburse or pay to the creditor any sums the creditor is legally obligated to waive under the guaranteed asset protection waivers issued by the creditor and purchased or held by the borrower.
2. Coverage under a contractual liability or other insurance policy insuring a guaranteed asset protection waiver also must cover any subsequent assignee upon the assignment, sale, or transfer of the finance agreement.
3. Coverage under a contractual liability or other insurance policy insuring a guaranteed asset protection waiver must remain in effect unless canceled or terminated in compliance with applicable insurance laws of this state.
4. The cancellation or termination of a contractual liability or other insurance policy may not reduce the insurer's responsibility for guaranteed asset protection waivers issued by the creditor before the date of cancellation or termination and for which premium has been received by the insurer.

#### **26.1-57-05. Disclosures.**

A guaranteed asset protection waiver must disclose, as applicable, in writing and in clear, understandable language that is easy to read, the following:

1. Neither the extension of credit, the terms of the credit, nor the terms of the related motor vehicle sale or lease, may be conditioned upon the purchase of the guaranteed asset protection waiver.
2. The name and address of the initial creditor and the borrower at the time of sale, and the identity of any administrator if different from the creditor.
3. The purchase price and the terms of the guaranteed asset protection waiver, including the requirements for protection, conditions, or exclusions associated with the guaranteed asset protection waiver.
4. The borrower may cancel the guaranteed asset protection waiver within a free-look period as specified in the waiver, and is entitled to a full refund of the purchase price, if no benefits have been provided.
5. The procedure the borrower shall follow, if any, to obtain guaranteed asset protection waiver benefits under the terms and conditions of the waiver, including a telephone number and address at which the borrower may apply for waiver benefits.

6. The procedure for canceling the guaranteed asset protection waiver and for requesting any refund due.
7. To receive any refund due in the event of a borrower's cancellation of the guaranteed asset protection waiver agreement or early termination of the finance agreement after the free-look period of the guaranteed asset protection waiver, the borrower, in accordance with terms of the waiver, shall provide a written request to cancel to the creditor, administrator, or such other party. If the request to cancel is a result of the early termination of the finance agreement the borrower shall provide the written request to cancel within ninety days of the occurrence of the event terminating the finance agreement.
8. The methodology for calculating any refund of the unearned purchase price of the guaranteed asset protection waiver due, in the event of cancellation of the guaranteed asset protection waiver or early termination of the finance agreement.

#### **26.1-57-06. Cancellation.**

1. A guaranteed asset protection waiver agreement is cancellable. A guaranteed asset protection waiver must provide if a borrower cancels a waiver within the free-look period, the borrower is entitled to a full refund of the purchase price, if benefits have not been provided. If a borrower cancels the waiver after the free-look period and no benefits have been provided, the creditor, administrator, or other authorized party shall provide the borrower a refund of the purchase price, calculated in a manner at least as favorable as using the sum-of-the-digits method, less any cancellation fee no greater than fifty dollars.
2. To receive a refund, the borrower, in accordance with any applicable terms of the waiver, shall provide a written request to cancel to the creditor, administrator, or other party. If the request to cancel is a result of the early termination of the finance agreement the borrower shall provide the written request to cancel within ninety days of the occurrence of the event terminating the finance agreement.
3. If the cancellation of a guaranteed asset protection waiver occurs as a result of a default under the finance agreement or the repossession of the motor vehicle associated with the finance agreement, or any other termination of the finance agreement, any refund due may be paid directly to the creditor or administrator and applied as set forth in subsection 4.
4. Any cancellation refund under subsection 1, 2, or 3 may be applied by the creditor as a reduction of the amount owed under the finance agreement, unless the borrower can show that the finance agreement has been paid in full.

#### **26.1-57-07. Commercial transactions exempted.**

Subsection 3 of section 26.1-57-03, section 26.1-57-05, and section 26.1-57-06, are not applicable to a guaranteed asset protection waiver offered in connection with a lease or retail installment sale associated with a commercial transaction.

**26.1-57-08. Enforcement - Penalty.**

1. The commissioner may take action as necessary or appropriate to enforce this chapter and to protect guaranteed asset protection waiver holders in this state.
2. After proper notice and opportunity for hearing, the commissioner may:
  - a. Order the creditor, administrator, or any other person not in compliance with this chapter to cease and desist from further guaranteed asset protection waiver-related operations that are in violation of this chapter.
  - b. Impose a penalty of not more than five hundred dollars per violation and no more than ten thousand dollars in the aggregate for all violations of a similar nature. For purposes of this chapter, violations are of a similar nature if the violation consists of the same or similar course of conduct, action, or practice, regardless of the number of times the conduct or practice determined to be a violation of the chapter occurred.
  - c. Order the creditor, administrator, or any other person not in compliance with this chapter to pay restitution of the guaranteed asset protection waiver purchase price.

**SECTION 2. APPLICATION.** This Act applies to all guaranteed asset protection waivers that become effective on or after the effective date of this Act.

#### **27-20.1-11. Appointment of guardian of a child.**

1. The court may appoint a guardian of a child if the court finds by clear and convincing evidence that the appointment is in the child's best interest and:

The court shall give due consideration to other factors that may have affected the child's preference, including whether the child's preference was based on undesirable or improper influences.
3. The court may appoint a guardian as a dispositional alternative if a child has been adjudicated as deprived, unruly, or delinquent under chapter 27-20.

#### **27-20.1-12. Findings on petition to appoint guardian of a child - Order of appointment.**

After hearing the evidence on the petition or after a waiver of the hearing, the court shall make and file its findings as to whether the requirements of section 27-20.1-06 have been met, whether the guardian is a fit and willing person, and whether the appointment of the guardian is in the child's best interest.

  - a. The name, address, and telephone number of the guardian.
  - b. Notice of the right to appeal the guardianship appointment and of the right to seek modification or termination of the guardianship at any time.

The guardian shall file with the court and serve a copy of the beginning inventory on the child if the child is fourteen years of age or older, and any interested persons designated by the court in its order.
  - e. The date on which the first annual report is due and the requirement to file annually thereafter.
  - f. The length of time the order is effective. An order appointing or reappointing a guardian under this chapter is effective for up to one year unless the court, upon a showing of good cause, sets a different time frame. An order may not be effective for more than three years.

### **27-20.1-13. Effect of order appointing a guardian.**

1. An order appointing a guardian of a child suspends any authority of a parent that is granted to the guardian under that order. A parent subject to such an order is entitled to treatment as a party at any subsequent juvenile court proceeding regarding the child.
2. While a guardianship is in effect, the parent has the following rights:
  - a. Parenting time, contact, and information, to the extent delineated in the guardianship order issued by the court. A parent may petition the court for specific enforcement provisions of the order relating to contact, parenting time, or information; and
  - b. Inheritance from the child.
3. The parent has the primary responsibility to financially support the child.

### **27-20.1-14. Acceptance of appointment - Consent to jurisdiction - Letters of guardianship.**

1. By accepting the appointment, a guardian submits personally to the jurisdiction of the court in any proceeding relating to the guardianship that may be instituted by any interested person.
2. By accepting the appointment, a guardian acknowledges the duty to file an annual report under section 27-20.1-15.
3. Upon the guardian's acceptance of the appointment, the court shall issue letters of guardianship. The letters of guardianship must contain:
  - a. The name, address, and telephone number of the guardian;
  - b. The full name of the child;
  - c. Any limitations on the guardian's authority to make decisions on behalf of the child;

- d. The expiration date of the appointment; and
- e. The date by which the guardian must file the annual report required under section 27-20.1-15.

**27-20.1-15. Powers and duties of guardian of a child.**

1. A guardian of a child has the powers and responsibilities of a legal custodian if there is a parent with remaining parental rights. If there is no parent with remaining parental rights, the guardian has the rights of a legal custodian and the authority to consent to the child's adoption, marriage, enlistment in the armed forces of the United States, and surgical and other medical treatment. A guardian is not liable to third persons by reason of the parental relationship for acts of the child.
2. A guardian has the following powers and duties:
  - a. The guardian must take reasonable care of the child's personal effects and commence protective proceedings if necessary to protect other property of the child.
  - b. The guardian may receive money payable for the support of the child to the child's parent, guardian, or custodian under the terms of any statutory benefit or insurance system, or any private contract, devise, trust, conservatorship, or custodianship.
    - (1) The guardian may receive money or property of the child paid or delivered by virtue of section 30.1-26-03. Any sums received must be applied to the child's current needs for support, care, and education.
    - (2) The guardian must exercise due care to conserve any excess sum for the child's future needs unless a conservator has been appointed for the estate of the child, in which case the excess sum must be paid over at least annually to the conservator. Sums so received by the guardian are not to be used for compensation for the guardian's services except as approved by order of the court or as determined by a duly appointed conservator other than the guardian.
    - (3) The guardian may not use funds from the child's estate for room and board that the guardian or the guardian's spouse have furnished to the child unless a charge for the service is approved by order of the court made upon notice to at least one of the child's next of kin, if notice is possible.
    - (4) A guardian may institute proceedings to compel the performance by any person of a duty to support the child or to pay sums for the welfare of the child.
  - c. To facilitate the child's education, social, or other activities.
  - d. To authorize medical or other professional care, treatment, or advice. A guardian is not liable by reason of this consent for injury to the child resulting from the negligence or acts of third persons unless it would have been illegal for a parent to have consented.

- e. A guardian shall file an annual report with the court regarding the exercise of powers and duties under this subsection.
- (1) The report must describe the status or condition of the child, including any change of residence and reasons for the change, any medical treatment received by or withheld from the child, the child's educational progress, any expenditure and income affecting the child, and any exercise of legal authority by the guardian affecting the child.
  - (2) The report must include changes that have occurred since the previous reporting period and an accounting of the child's estate.
  - (3) The guardian shall report whether the child continues to require a guardianship.
  - (4) The report must be filed with the court.
  - (5) The filing of the report does not constitute an adjudication or a determination of the merits of the report nor does the filing of the report constitute the court's approval of the report.
  - (6) The court shall review the report and a hearing may be set.
  - (7) The office of the state court administrator shall provide forms that may be used to fulfill reporting requirements. Any report must be similar in substance to the state court administrator's form.
  - (8) Copies of the guardian's annual report and of any other reports required by the court must be mailed to the child, if the child is age fourteen or older, the child's parents, unless the parents' rights have been terminated or the parents are deceased, and any interested persons designated by the court in its order.
  - (9) If a guardian fails to file a complete annual report as required by this subdivision, fails to file a report at other times as the court may direct, or fails to provide an accounting of an estate, the court, upon its own motion or upon petition of any interested person, may issue an order compelling the guardian to show cause why the guardian should not immediately make and file the report or account, or be found in contempt for failure to comply. A copy of the order to show cause must be provided to the child, if the child is age fourteen or older, the child's parents, unless the parents' rights have been terminated or the parents are deceased, any interested persons designated by the court in its order, and the juvenile court director.
- f. The guardian shall inform the court of any change in the child's residence within thirty days of the change, but must seek prior authorization of the court to establish or move the child's residence outside of the state.
- g. In determining what is in the child's best interest, the guardian shall take into account the child's preferences to the extent actually known or reasonably ascertainable by the guardian.
- h. To the extent reasonable, the guardian shall delegate to the child responsibilities for decisions affecting the child's well-being.

- i. The guardian may not delegate authority as a guardian under a power of attorney without prior approval from the court.

**27-20.1-16. Procedure for modification, resignation, or termination of a guardianship.**

1. A guardian may petition for permission to resign. A petition for permission to resign must include a request for appointment of a successor guardian unless continuation of the guardianship is no longer necessary. Resignation of a guardian does not terminate the guardianship unless specifically ordered by the court.
2. Any party to the proceeding in which the child's status was adjudicated, the director, the child, if fourteen or more years of age, or any interested person, may petition for removal or modification of a guardian on the grounds the removal or modification would be in the best interest of the child. A petition for removal or modification must include a request for appointment of a successor guardian unless continuation of the guardianship is no longer necessary.
3. Any party to the proceeding in which the child's status was adjudicated, the director, the child, if fourteen or more years of age, or any interested person, may petition for termination of the guardianship due to:
  - a. The child's death, adoption, marriage, or attainment of majority;
  - b. The withdrawal of the parent's consent; or
  - c. The basis for the guardianship no longer exists.
4. The person seeking modification, resignation, removal, or termination of the guardianship shall file a supporting affidavit with the petition demonstrating the basis for the petition, and serve the petition and affidavit on the child, if the child is age fourteen or older, the child's parents, unless the parents' rights have been terminated or the parents are deceased, and any interested persons designated by the court in its order. The petition must be reviewed by the court to determine whether to set an evidentiary hearing. If an insufficient showing has been made, the court shall issue an order denying the petition.
5. If, at any time in the proceeding, the court determines it is in the best interest of the child, the court may appoint a guardian ad litem.
6. If, at any time in the proceeding, the court determines the interests of the child are or may be inadequately represented, the court may appoint an attorney to represent the child.

**27-20.1-17. Expiration and termination of guardianship of a child.**

1. An order appointing or reappointing a guardian under this chapter is effective for up to one year unless the court, upon a finding of good cause, sets a different time frame. An order may not be effective for more than three years. At least sixty days before the expiration of the initial order of appointment or any following order of reappointment, the court shall request and consider information submitted by the guardian, the child, if fourteen years of age or older, the child's attorney, if any, the child's parents, and any interested persons regarding whether the need for a guardianship continues to exist. The court, at its discretion, may appoint a guardian ad litem in accordance with

section 27-20.1-08, before the hearing. The court shall hold a hearing on whether the guardianship should continue. Following the hearing and consideration of submitted information, the court may:

- a. Terminate the guardianship if shown by clear and convincing evidence that the circumstances that led to the guardianship no longer exist;
  - b. Reappoint the guardian for up to three years; or
  - c. Appoint a new guardian.
2. A guardian's authority and responsibility terminates upon the death, resignation, or removal of the guardian, or upon the child's death, adoption, marriage, or attainment of majority, but termination does not affect the guardian's liability for prior acts or the guardian's obligation to account for funds and assets of the child. For cases arising under section 27-20-30.1, the age of majority is age twenty-one.
  3. The supreme court, by rule or order, shall provide for the regular review of guardianships in existence on August 1, 2019.

#### **27-20.1-18. Appointment of emergency guardian of a child.**

1. Upon petition by a person interested in the child's welfare, the court may appoint an emergency guardian if the court finds that compliance with the procedures of this chapter will likely result in substantial harm to the child's health, safety, or welfare. Immediately upon receipt of the petition for an emergency guardian, the court shall appoint a guardian ad litem to advocate for the best interests of the child.
2. An emergency guardian may be appointed without hearing or notice to the child, the child's parent or legal custodian, or the child's guardian ad litem only if the court finds from affidavit or other sworn testimony that the child will be substantially harmed before a hearing can be held. If the court appoints an emergency guardian without hearing or notice to the child, the child's parent or legal custodian, or the child's guardian ad litem, the child, the child's parent or legal custodian, and the child's guardian ad litem must be given notice of the emergency appointment by the petitioner within forty-eight hours after the emergency appointment. The court shall hold a hearing on the appropriateness of the emergency appointment within ninety-six hours after the emergency appointment or filing of the petition.
3. Reasonable notice, either oral or written, stating the time, place, and purpose of the hearing must be given to the child, if fourteen years of age or older, and, to the child's parents or legal custodian, if they can be found. If oral notice is provided, the petitioner must file an affidavit stating that oral notice including the time, place, and purpose of the hearing has been provided.
4. The court shall determine if there is probable cause to believe the emergency appointment is in the best interest of the child and one of the provisions of subsection 1 of section 27-20.1-11 is met.
5. If the emergency guardian is found to be appropriate, the court may order the emergency guardian remain in place for no more than sixty days from the date of the hearing. The court may extend the emergency order for up to six months.

6. A request for an emergency guardian may be included in a petition for appointment of a guardian of a child under section 27-20.1-05.

#### **27-20.1-19. Attorney's fees.**

If the court determines an action brought under section 30.1-27-07 or this chapter is frivolous, the court may award reasonable, actual, and statutory costs, including reasonable attorney's fees, incurred by or on behalf of the child.

#### **27-20.1-20. Protective order.**

1. At any stage of the proceedings, upon application of a party or on the court's own motion, the court may make an order restraining or otherwise controlling the conduct of an individual if the court finds the conduct:
  - a. Is or may be detrimental or harmful to the child; or
  - b. Will tend to defeat the execution of an order of disposition; and
2. Due notice of the application or motion and the grounds therefor and an opportunity to be heard have been given to the person against whom the order is directed.

#### **27-20.1-21. Orders for evaluation.**

1. The court may order a party or a proposed guardian to submit to a chemical dependency, parental capacity, mental health, domestic violence, anger management, or other relevant evaluation by a suitably licensed or certified examiner. The court may request other persons having regular contact with the child submit to a chemical dependency, parental capacity, mental health, domestic violence, anger management, or other relevant evaluation by a suitably licensed or certified examiner. Failure to submit to an evaluation will be taken into consideration by the court.
2. The order may be made only on motion for good cause by a party or guardian ad litem, or on the court's own motion, and on notice to all parties and the person to be evaluated. The order must:
  - a. Specify the type of evaluation and the type of professional or entity to perform the evaluation;
  - b. Include the deadline for performing the evaluation;
  - c. Include the date by which the evaluation must be filed with the court; and
  - d. Specify the party that must pay the costs of the evaluation. If the party is unable to pay the costs, the court may direct the costs to be paid, in whole, or in part, by the county. The court may direct the party to reimburse the county, in whole or in part, for the payment.
3. The evaluation must be in writing and must set out in detail the evaluator's findings, including diagnoses, conclusions, and the results of any tests. The evaluator must file a copy with the court.
4. The evaluation reports and any addendums are confidential. The public or the parties may not read or copy the evaluation reports or addendums unless the

court, in its discretion, gives permission. The guardian ad litem may read the evaluation reports and addendums but may not copy the evaluation reports and addendums unless the court, in its discretion, gives permission. A party, proposed guardian, or other person requested to submit to an evaluation by the court under this section is entitled to a copy of the report of evaluation and any addendum, upon request.

**27-20.1-22. Confidentiality.**

Except as provided by section 27-20-51, all files and records under this chapter are closed to the public and confidential.

**SECTION 8. REPEAL.** Sections 27-20-48.2, 27-20-48.3, and 27-20-48.4 of the North Dakota Century Code are repealed.

**30.1-27-09. (5-209) Powers and duties of guardian of minor.**

~~A guardian of a minor has the powers and responsibilities of a parent who has not been deprived of custody of the parent's minor and unemancipated child, except that a guardian is not legally obligated to provide from the guardian's own funds for the ward and is not liable to third persons by reason of the parental relationship for acts of the ward. In particular, and without qualifying the foregoing, a guardian has the following powers and duties:~~

- ~~1. The guardian must take reasonable care of the ward's personal effects and commence protective proceedings if necessary to protect other property of the ward.~~
- ~~2. The guardian may receive money payable for the support of the ward to the ward's parent, guardian, or custodian under the terms of any statutory benefit or insurance system or any private contract, devise, trust, conservatorship, or custodianship. The guardian also may receive money or property of the ward paid or delivered by virtue of section 30.1-26-03. Any sums so received shall be applied to the ward's current needs for support, care, and education. The guardian must exercise due care to conserve any excess for the ward's future needs unless a conservator has been appointed for the estate of the ward, in which case excess shall be paid over at least annually to the conservator. Sums so received by the guardian are not to be used for compensation for the guardian's services except as approved by order of court or as determined by a duly appointed conservator other than the guardian. A guardian may institute proceedings to compel the performance by any person of a duty to support the ward or to pay sums for the welfare of the ward.~~
- ~~3. The guardian is empowered to facilitate the ward's education, social, or other activities and to authorize medical or other professional care, treatment, or advice. A guardian is not liable by reason of this consent for injury to the ward resulting from the negligence or acts of third persons unless it would have been illegal for a parent to have consented. A guardian may consent to the marriage or adoption of the ward.~~
- ~~4. A guardian shall file an annual report with the court informing the court of the status or condition of the ward and provide a copy of the report to the ward. The report must include changes that have occurred since the previous reporting period and an accounting of the ward's estate. The guardian shall~~

~~report whether the ward has resided in an institution, whether the ward continues to require guardianship, and whether any powers of the guardian should be increased or limited. The filing of a report and its acceptance by the court or clerk of district court does not constitute an adjudication or a determination of the merits of the report nor does the filing of the report constitute the court's approval of the report. The court may approve a report and allow and settle an accounting only upon notice to the ward's guardian ad litem and other interested persons who have made an appearance or requested notice of proceedings. The office of state court administrator shall provide printed forms that may be used to fulfill reporting requirements. Any report must be similar in substance to the state court administrator's form. The forms must be available in the office of clerk of district court or obtainable through the supreme court's internet website~~

The powers and duties of a guardian of a minor under this chapter are defined under section 27-20.1-15.

**30.1-27-11. (5-211) Proceedings subsequent to appointment approval or findings - Venue Transfer to juvenile court.**

- ~~2. If the court located where the ward resides is not the court in which acceptance of appointment is filed, the court in which proceedings subsequent to appointment are commenced shall in all appropriate cases notify the other court, in this or another state, and after consultation with that court determine whether to retain jurisdiction or transfer the proceedings to the other court, whichever is in the best interest of the ward. A copy of any order accepting a resignation or removing a guardian shall be sent to the court in which acceptance of appointment is filed.~~The juvenile court under section 27-20.1-02 has exclusive jurisdiction for any filings or proceedings subsequent to approval and issuance of the letters of guardianship.

## CHAPTER 276

### HOUSE BILL NO. 1378

(Representatives Magrum, Karls, K. Koppelman, Laning, J. Nelson, Rohr, Satrom)  
(Senators Dever, Dotzenrod, Heckaman, Hogan, Krebsbach)

AN ACT to create and enact a new chapter to title 30.1 of the North Dakota Century Code, relating to supported decisionmaking, a process for making well-informed, voluntary decisions by methods less restrictive than guardianship or conservatorship.

#### BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

**SECTION 1.** A new chapter to title 30.1 of the North Dakota Century Code is created and enacted as follows:

##### Definitions.

As used in this chapter:

1. "Intentional misconduct" means conduct by a supporter with actual knowledge at the time of the conduct that the conduct is unnecessarily harmful to the health or well-being of a named individual.
2. "Named individual" is the individual identified in a supported decisionmaking agreement who is to receive decisionmaking assistance.
3. "Supported decisionmaking" means assistance from a person of a named individual's choosing:
  - a. To identify, collect, and organize documents that apply to a decision the named individual is considering;
  - b. To identify, collect, and organize information that may be helpful to the named individual when making a decision;
  - c. To help the named individual understand documents;
  - d. To identify choices available for a responsible decision;
  - e. To identify advantages and disadvantages of available choices;
  - f. To communicate any decision by the named individual to others at the request of the named individual; or
  - g. To explain the decisionmaking process allowed under this subsection to the court in any proceeding to create or modify a guardianship or conservatorship for the named individual.
4. "Supported decisionmaking agreement" means a written, signed, dated, and witnessed understanding between a named individual and a trusted adult who agrees to provide assistance for decisionmaking to maximize the named

individual's ability to make informed, voluntary choices, including choices within:

- a. Health care.
- b. Residence.
- c. Finances.
- d. Education.
- e. Legal affairs.
- f. Vocation.

5. "Supporter" is a person that has signed a supported decisionmaking agreement, agreeing to provide assistance to the named individual.

### **Confidential information.**

1. The named individual may sign separate authorizations when appropriate to allow others to disclose confidential documents, records, and information to a supporter identified in the authorization. An authorization may allow an individual to provide copies of the documents, records, and information to the supporter.
2. A supporter may obtain information about the named individual only by having written authorization that complies with the applicable federal or state law.

### **Supporter - Liability.**

A supporter is not liable to the named individual and has not engaged in professional misconduct for acts performed as a supporter in good faith unless the supporter has been recklessly or grossly negligent or has intentionally committed misconduct.

### **Formalities - Effects.**

1. It is presumed the named individual has capacity to enter a supported decisionmaking agreement. This presumption may be rebutted only by clear and convincing evidence.
2. A named individual's use of uncommon methods of communication does not affect the named individual's capacity to enter a supported decisionmaking agreement.
3. A named individual may have more than one supported decisionmaking agreement in effect at the same time. If any two of a named individual's supported decisionmaking agreements are incompatible, the more recent agreement prevails.
4. Two supported decisionmaking agreements are not incompatible solely due to enabling the named individual to get decisionmaking assistance from more than one supporter at the same time for the same decision.

5. A supported decisionmaking agreement does not prevent the named individual from:
  - a. Getting decisionmaking assistance from someone who is not a supporter in a supported decisionmaking agreement;
  - b. Making decisions independently without consulting a supporter; or
  - c. Getting access to and copies of documents and records about the named individual.
6. The existence or contents of a supported decisionmaking agreement may not be used as evidence of incapacity or incompetence.
7. A supported decisionmaking agreement does not give a supporter the ability to act as a surrogate decisionmaker. A supported decisionmaking agreement does not give a supporter the authority to sign documents on behalf of the named individual.

### **Termination.**

1. A supported decisionmaking agreement may be terminated by the named individual by giving notice to the supporter orally, in writing, through an assistive technology device, or by any other act showing a specific intent to terminate the agreement.
2. A supported decisionmaking agreement may be terminated by a supporter by providing written notice of the supporter's resignation to the named individual. If a supported decisionmaking agreement includes more than one supporter, any supporter can terminate the agreement only as to that supporter.
3. A supported decisionmaking agreement is terminated as to a specific supporter when:
  - a. A court has convicted the supporter of a crime involving abuse, neglect, or exploitation;
  - b. A restraining order has been issued by a court to protect the named individual from the supporter; or
  - c. A court has determined the supporter lacks capacity to make or communicate responsible decisions concerning residential or educational matters, medical treatment, legal affairs, or vocational, financial, or other matters affecting the health or safety of the named individual.
4. A supported decisionmaking agreement may be terminated by any additional method specified in the supported decisionmaking agreement.

### **Confidential documents, records, and information.**

A supporter may not allow unauthorized access to, use of, or disclosure of any confidential documents, records, and other information about the named individual, unless the named individual has otherwise directed.

### **Witnesses.**

1. A notary public or two qualified witnesses must verify in writing the signatures to a supported decisionmaking agreement.
2. To be a qualified witness, the witness must:
  - a. Not be a party to the agreement;
  - b. Be at least eighteen years of age;
  - c. Be competent;
  - d. Not be an employee or agent of a supporter in the agreement; and
  - e. Not be a creditor of the named individual.

**Reliance on agreement - Limitation of liability.**

1. Any third person who receives a copy of a supported decisionmaking agreement shall rely on the agreement, unless:
  - a. The third person has cause to believe the named individual is being abused, neglected, or exploited by the supporter;
  - b. The third person has actual knowledge or notice the supported decisionmaking agreement is invalid; or
  - c. The third person has actual knowledge or notice the supported decisionmaking agreement has been terminated.
2. A third person is not subject to criminal or civil liability and has not engaged in professional misconduct for an act or omission if the act or omission is done in good faith and in reliance on a supported decisionmaking agreement.
3. An entity, custodian, or organization that discloses personal information about a named individual to a supporter who has written authorization to access, collect, or obtain, or to assist a named individual to access, collect, or obtain that information, is immune from any action alleging the entity, custodian, or organization improperly or unlawfully disclosed information to the supporter unless:
  - a. The entity, custodian, or organization had actual knowledge or notice the named individual had revoked the authorization;
  - b. The entity, custodian, or organization had actual knowledge or notice the supported decisionmaking agreement is invalid; or
  - c. The entity, custodian, or organization knowingly or recklessly disclosed information beyond the scope of the authorization.
4. A third person is not protected from charges of professional misconduct and is not immune from liability for:
  - a. Acting inconsistently with the known expressed wishes of a named individual; or

- b. Failing to provide documents, records, or other information to either a named individual or a supporter who has written authorization for lawful access to or copies of the information.
- 5. A supported decisionmaking agreement does not relieve a person of legal obligations to provide services to an individual with a disability.

### SENATE BILL NO. 2205

(Senator Holmberg)

AN ACT to create and enact section 32-19-23.1 of the North Dakota Century Code, relating to abandoned property; and to amend and reenact sections 28-23-11, 32-19-18, 32-19-19, 32-19-23, and 32-19-27 of the North Dakota Century Code, relating to foreclosure of real estate.

#### BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

**SECTION 1. AMENDMENT.** Section 28-23-11 of the North Dakota Century Code is amended and reenacted as follows:

##### **28-23-11. Purchaser's right - Sheriff's certificate.**

1. The purchaser of real property under execution is substituted for the judgment debtor and acquires all the right, title, interest, and claim of the debtor to the property. If the estate is a leasehold less than two years' unexpired term, the sale is absolute. Otherwise, the real property is subject to redemption under this title. The officer shall give to the purchaser a certificate of sale containing:
  - a. A particular description of the real property sold;
  - b. A statement of the price bid for each distinct lot or parcel;
  - c. A statement of the whole price paid;
  - d. If subject to redemption, a statement to that effect, including the applicable redemption period; and
  - e. The name of each plaintiff and defendant named in the foreclosure action or served in the foreclosure by the advertisement.
2. The officer shall execute the certificate and acknowledge or prove the certificate as required for deeds of real property.

**SECTION 2. AMENDMENT.** Section 32-19-18 of the North Dakota Century Code is amended and reenacted as follows:

##### **32-19-18. Redemption.**

A party in a foreclosure action or the successor of a party may redeem from the foreclosure sale within sixty days after the sale, except for abandoned property as provided in section 32-19-19 and agricultural land. Agricultural land may be redeemed within three hundred sixty-five days after the filing of the summons and complaint in the office of the clerk of district court or the time of the first publication of the notice by advertisement. The final date for redemption of agricultural land may not be earlier than sixty days after the sheriff's sale. The owner of the property has a paramount right to redeem upon paying the amount bid at the sheriff's sale plus interest on that amount at the same rate as the obligation secured by the mortgage. Persons holding

subordinate liens on the property may redeem in the order of priority as determined by the order of attachment to the property. This redemption has the effect of a redemption as of the date of deposit, subject to the subsequent payment of any additional amount, if any, determined to be due as of that date.

**SECTION 3. AMENDMENT.** Section 32-19-19 of the North Dakota Century Code is amended and reenacted as follows:

**32-19-19. Injury to property restrained - Abandoned real property.**

The court, by injunction, on good cause shown, may restrain the party in possession from doing any act to the injury of real property during the existence of the lien or foreclosure of a mortgage thereon ~~on the real property~~ and until the expiration of the time allowed for redemption. If at the time of the commencement of the foreclosure action and at any time before the sheriff's sale the mortgagee, or after the sheriff's sale the holder of the sheriff's certificate of sale, reasonably believes that the property is abandoned, the mortgagee or holder of the sheriff's certificate may allege abandonment in the complaint or petition the court to determine abandonment. Alf by petition, a notice of hearing must be sent by mail to the last-known address of the mortgagor or the party entitled to possession of the real property at least ten days prior to the date of the hearing to determine abandonment. Service by mail is complete upon mailing. If the court determines that the real property is abandoned, the court may eliminate the redemption period in the foreclosure judgment or, upon petition, grant the mortgagee or holder of the sheriff's certificate immediate possession and use of the property and all benefit and rents from the property until expiration of the redemption period. The court may proceed at the hearing to consider remedies to prevent waste in a foreclosure action or upon a petition for abandonment. The provisions of this section concerning abandoned real property do not apply to agricultural property as defined by section 57-02-01.

**SECTION 4. AMENDMENT.** Section 32-19-23 of the North Dakota Century Code is amended and reenacted as follows:

**32-19-23. When notice not required.**

1. If the record title to real estate is in the name of a deceased person, notice before foreclosure need not be served unless a personal representative of the estate is appointed in the county in which the real estate is situated. The certificate of the judge or clerk of the district court serving the county in which the real estate is situated stating that a personal representative has not been appointed is sufficient evidence of that fact.
2. Actual service of the notice before foreclosure is not required if the property is abandoned as provided under section 32-19-23.1, or if service by mail as provided in this chapter has been attempted three times and the attempted service is returned as refused or unclaimed.

**SECTION 5.** Section 32-19-23.1 of the North Dakota Century Code is created and enacted as follows:

**32-19-23.1. Abandoned property - Prima facie evidence.**

1. An affidavit under this section is prima facie evidence of abandonment if the affidavit is made by:
  - a. The sheriff or sheriff's deputy of the county in which the mortgaged premises is located, or of a building inspector, zoning administrator,

- housing official, or other municipal or county official having jurisdiction over the mortgaged premises, and the affidavit states the mortgaged premises are not actually occupied; or
- b. **SECTION 3. AMENDMENT.** Section 38-08-04.8 of the North Dakota Century Code is amended and reenacted as follows:

**38-08-04.8. Recovery for costs of plugging and reclamation.**

If the commission, its agents, employees, or contractors, plugs or replugs a well or reclaims a well site, pipeline facility, production facility, saltwater handling facility, or treating plant under the provisions of sections 38-08-04.4, 38-08-04.5, 38-08-04.7, 38-08-04.8, 38-08-04.9, and 38-08-04.10, the state has a cause of action for all reasonable expenses incurred in the plugging, replugging, or reclamation against the operator of the well at the time the well is required to be plugged and the well or facility is required to be abandoned or any or all persons who own a working interest in the well, pipeline facility, production facility, saltwater handling facility, or treating plant at the time the well is required to be plugged and the well, pipeline facility, production facility, saltwater handling facility, or treating plant abandoned as a result of the ownership of a lease or mineral interest in the property on which the well, pipeline facility, production facility, saltwater handling facility, or treating plant is located. The term "working interest owner" does not mean a royalty owner or an overriding royalty interest owner. The commission shall seek reimbursement for all reasonable expenses incurred in plugging any well or reclaiming any well site, pipeline facility, production facility, saltwater handling facility, or treating plant through an action instituted by the attorney general. The liability of any working interest owner under this section shall be limited to that proportion of the reasonable expenses incurred by the commission that the interest of any such working interest owner bears to the entire working interest in the well. Any money collected in a suit under this section must be deposited in the state abandoned oil and gas well plugging and site reclamation fund. Any suit brought by the commission for reimbursement under this section may be brought in the district court for Burleigh County, the county in which the plugged well or reclaimed well site, pipeline facility, production facility, saltwater handling facility, or treating plant is located, or the county in which any defendant resides.

**SECTION 4. AMENDMENT.** Section 38-08-04.9 of the North Dakota Century Code is amended and reenacted as follows:

**38-08-04.9. Confiscation of equipment and salable oil to cover plugging and reclamation costs.**

When the commission intends to exercise or has exercised its right to plug a well or reclaim a well site, pipeline facility, production facility, saltwater handling facility, or treating plant, the commission, as compensation for its costs, may confiscate any ~~production-related~~ equipment and salable oil at the well site, pipeline facility, production facility, saltwater handling facility, or treating plant. The equipment subject to confiscation is limited to that owned by the well's operator, former operator, or working interest owner. If the commission exercises its authority under this section and there is salable oil at the well site, that oil must be confiscated. The commission shall pay the mineral owners the royalty interest in the oil confiscated at the well site. In determining the mineral owners and their royalty interests, the commission may rely upon the most recent division order it is able to obtain. If one is unavailable or the commission finds the order unreliable, the commission may rely upon any other source of information the commission deems reasonable to determine and pay mineral owners. A confiscation must be by an order of the commission after notice and hearing. A confiscation order transfers title to the commission.

### SENATE BILL NO. 2344

(Senators Unruh, Cook, Schaible)  
(Representatives Kempenich, Porter)

AN ACT to create and enact section 47-31-09 of the North Dakota Century Code, relating to injection or migration of substances into pore space; and to amend and reenact sections 38-08-25, 38-11.1-01, and 38-11.1-03 of the North Dakota Century Code, relating to pore space and oil and gas production.

#### BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

**SECTION 1. AMENDMENT.** Section 38-08-25 of the North Dakota Century Code is amended and reenacted as follows:

#### **38-08-25. Hydraulic fracturing - Use of carbon dioxide - Designated as acceptable recovery processes.**

1. Notwithstanding any other provision of law, the legislative assembly designates hydraulic fracturing, a mechanical method of increasing the permeability of rock to increase the amount of oil and gas produced from the rock, and the use of carbon dioxide for enhanced recovery of oil, gas, and other minerals acceptable recovery processes in this state.
2. It is in the public interest to promote the use of carbon dioxide to benefit the state, to help ensure the viability of the state's coal and power industries, and to benefit the state economy. Carbon dioxide is a potentially valuable commodity, and increasing its availability is important for commercial, industrial, or other uses, including enhanced recovery of oil, gas, and other minerals.
3. It is in the public interest to encourage and authorize cycling, recycling, pressure maintenance, secondary recovery operations, and enhanced recovery operations utilizing carbon dioxide for the greatest possible economic recovery of oil and gas.
4. It is in the public interest for a person conducting operations authorized by the commission under this chapter to use as much of a subsurface geologic formation as reasonably necessary to allow for unit operations for enhanced oil recovery, utilization of carbon dioxide for enhanced recovery of oil, gas, and other minerals, disposal operations, or any other operation authorized by this chapter.
5. Notwithstanding any other provision of law, a person conducting unit operations for enhanced oil recovery, utilization of carbon dioxide for enhanced recovery of oil, gas, and other minerals, disposal operations, or any other operation authorized by the commission under this chapter may utilize subsurface geologic formations in the state for such operations or any other permissible purpose under this chapter. Any other provision of law may not be construed to entitle the owner of a subsurface geologic formation to prohibit or demand payment for the use of the subsurface geologic formation for unit

operations for enhanced oil recovery, utilization of carbon dioxide for enhanced recovery of oil, gas, and other minerals, disposal operations, or any other operation conducted under this chapter. As used in this section, "subsurface geologic formation" means any cavity or void, whether natural or artificially created, in a subsurface sedimentary stratum.

6. The commission may adopt and enforce rules and orders to effectuate the purposes of this section.

**SECTION 2. AMENDMENT.** Section 38-11.1-01 of the North Dakota Century Code is amended and reenacted as follows:

**38-11.1-01. Legislative findings.**

The legislative assembly finds the following:

1. It is necessary to exercise the police power of incumbent on the state to protect the public welfare of North Dakota which is largely dependent on agriculture and to protect the economic well-being of individuals engaged in agricultural production, while at the same time preserving and facilitating exploration through the utilization of subsurface pore space in accordance with an approved unitization or similar agreement, an oil and gas lease, or as otherwise permitted by law.
2. Exploration for and development of oil and gas reserves in this state interferes with the use, agricultural or otherwise, of the surface of certain land.
3. Owners of the surface estate and other persons should be justly compensated for injury to their persons or property and interference with the use of their property occasioned by oil and gas development.
4. This chapter may not be construed to alter, amend, repeal, or modify the law concerning title to pore space under section 47-31-03.

**SECTION 3. AMENDMENT.** Section 38-11.1-03 of the North Dakota Century Code is amended and reenacted as follows:

**38-11.1-03. Definitions.**

In this chapter, unless the context or subject matter otherwise requires:

1. "Agricultural production" means the production of any growing grass or crop attached to the surface of the land, whether or not the grass or crop is to be sold commercially, and the production of any farm animals, including farmed elk, whether or not the animals are to be sold commercially.
2. "Drilling operations" means the drilling of an oil and gas well and the production and completion operations ensuing from the drilling which require entry upon the surface estate and which were commenced after June 30, 1979, and oil and gas geophysical and seismograph exploration activities commenced after June 30, 1983.
3. "Land" means the solid material of earth, regardless of ingredients, but excludes pore space.

4. "Mineral developer" means the person who acquires the mineral estate or lease for the purpose of extracting or using the minerals for nonagricultural purposes.
- 4.5. "Mineral estate" means an estate in or ownership of all or part of the minerals underlying a specified tract of land.
- 5.6. "Minerals" means oil and gas.
7. "Pore space" means a cavity or void, naturally or artificially created, in a subsurface sedimentary stratum.
- 6.8. "Surface estate" means an estate in or ownership of the surface of a particular tract of land.
- 7.9. "Surface owner" means any person who holds record title to the surface of the land as an owner estate on which a drilling operation occurs or is conducted.

**SECTION 4.** Section 47-31-09 of the North Dakota Century Code is created and enacted as follows:

**47-31-09. Injection of substances to facilitate production of oil, gas, or other minerals.**

1. This chapter may not be construed to limit the rights or dominance of a mineral estate to drill or recomplete a well under chapter 38-08. Injection or migration of substances into pore space for disposal operations, for secondary or tertiary oil recovery operations, or otherwise to facilitate production of oil, gas, or other minerals is not unlawful and, by itself, does not constitute trespass, nuisance, or other tort.
2. This section and chapter 38-08 may not be construed to impair the obligations of any contract for use of the surface estate for disposal operations, provided the contract was entered before the effective date of the unit approved by the commission pursuant to sections 38-08-09 through 38-08-09.17, and provided the disposal well is located within the unit area of the approved unit.
3. This section and chapter 38-08 may not be construed to allow the operator of a disposal well where the contract has expired after the effective date of the unit approved by the commission pursuant to sections 38-08-09 through 38-08-09.17 to claim the surface owner should not be compensated as if the new contract for the disposal well on which the contract has expired had been entered after the effective date of the approved unit.
4. The owner of the surface estate upon which the surface location of a disposal well is located does not lose, and may not be deemed to have lost, a claim for trespass, nuisance, or other tort if the operator of the disposal well commences or continues operations of the disposal well in violation of subsections 2 or 3.

As used in this chapter:

1. "Commission" means the industrial commission.
2. "High-level radioactive waste" means:
  - a. Highly radioactive material resulting from the reprocessing of spent nuclear fuel, and other highly radioactive material, containing fission products in sufficient concentrations to require permanent isolation, including liquid waste produced directly in reprocessing and any solid material derived from the liquid waste; or
  - b. Highly radioactive material that the commission, consistent with existing law and rules, determines requires permanent isolation.
3. "High-level radioactive waste disposal" means the emplacement in a repository of high-level radioactive waste with no foreseeable intent of recovery.
4. "High-level radioactive waste facility" means a premises, building, structure, fixture, or improvements used or operated for the storage or disposal of high-level radioactive waste.
5. "High-level radioactive waste storage" means the retention of high-level radioactive waste with the intent to recover the waste for subsequent use, processing, or disposal.

### **38-23-03. Jurisdiction of the commission and duties.**

1. The commission has jurisdiction and authority over any person or property, public or private, necessary to enforce this chapter. The commission may investigate and determine whether facts exist justifying action by the commission. The state geologist shall act as a supervisor charged with the duty of enforcing the regulations and orders of the commission applicable to this chapter.
2. The commission acting through the state geologist may:
  - a. Serve as the point of contact for the federal department of energy or any other federal agency on any matter related to the long-term or temporary storage or permanent disposal of high-level radioactive waste.
  - b. Issue a notice of disapproval regarding a proposed high-level radioactive waste facility in accordance with federal law when the legislative assembly is not in session. Before issuing a notice of disapproval, the commission shall consult with the high-level radioactive waste advisory council and the local government entities with jurisdiction over the area where the proposed high-level radioactive waste facility is to be located.
3. Only the legislative assembly may issue a notice of disapproval during a legislative session.

4. The commission, acting through the state geologist, may:
- a. Take any action necessary to assert the state's rights relating to the exploration of a suitable location for a high-level radioactive waste facility within the state, including providing comments to a federal agency or initiating litigation.
  - b. Enter agreements with the federal government regarding high-level radioactive waste regulation and facility siting and accept available funds for deposit into the high-level radioactive waste fund.
  - c. Adopt and enforce rules and orders to effectuate the purpose and intent of this chapter.
  - d. Require:
    - (1) Identification of ownership of all high-level radioactive waste facilities and equipment used for high-level radioactive waste storage or disposal.
    - (2) The delivery to the state geologist of basic exploration data collected, within thirty days of field collection of such data, free of charge. Data includes:
      - (a) Sample cuts, core chips, or whole cores;
      - (b) Sample logs, radioactivity logs, resistivity logs, or other types of electrical or mechanical logs;

    - (3) The filing of monthly reports in the manner prescribed by the commission and any other reports deemed necessary by the commission.
    - (4) The conducting of all exploration, storage, and disposal operations in a manner to prevent pollution of freshwater supplies and to provide for the protection of the environment, public safety, and economic interests.
    - (5) The reclamation of all land disturbed by operations regulated by this chapter to a condition consistent with prior land use and productive capacity. A permanent marker is to be erected and maintained over the disposal site.
    - (6) The furnishing of a reasonable bond with good and sufficient surety, conditioned upon the full compliance with this chapter, and the rules and orders of the commission. The person required to furnish the bond may elect to deposit under such terms as the commission may prescribe a collateral bond, cash, or any alternative form of security approved by the commission, or combination thereof, by which an operator assures faithful performance of all requirements of this chapter and the rules and orders of the commission.

(7) The payment of fees for services performed by the commission, including costs associated with the investigation, review, and processing of the application; monitoring and inspection of the exploration site; monitoring and inspection of the facility; and environmental and monetary impact of the facility. The commission shall set the amount of the fee based on the anticipated actual cost of services rendered and impact to the state and local area. The commission shall set the annual operating fee for a facility permit to be dependent on the size and scope of the facility, but the fee may not be less than one million dollars. Unless otherwise provided by statute, fees collected by the commission must be deposited in the high-level radioactive waste fund, according to procedures established by the state treasurer.

e. Regulate:

(1) The drilling, boring, excavating, and abandonment of all exploration holes drilled for the purpose of obtaining information regarding high-level radioactive waste storage or disposal.

(2) The drilling, boring, excavating, construction, and operation of all high-level radioactive waste facilities.

(Representatives K. Koppelman, Hanson, Paur)  
(Senators Dwyer, Rust)

AN ACT to amend and reenact subsections 1 and 2 of section 39-08-01, section 39-20-01, and subsection 1 of section 39-20-14 of the North Dakota Century Code, relating to driving under the influence of intoxicating liquor or any other drugs or substances, implied consent, and screening tests; and to declare an emergency.

#### BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

<sup>131</sup> **SECTION 1. AMENDMENT.** Subsection 1 of section 39-08-01 of the North Dakota Century Code is amended and reenacted as follows:

1. A person may not drive or be in actual physical control of any vehicle upon a highway or upon public or private areas to which the public has a right of access for vehicular use in this state if any of the following apply:

    - (1) A chemical test, or tests, of the individual's blood, breath, or urine to determine the alcohol concentration or presence of other drugs, or combination thereof, in the individual's blood, breath, or urine, at the direction of a law enforcement officer under section 39-06.2-10.2 if the individual is driving or is in actual physical control of a commercial motor vehicle; or
    - (2) A chemical test, or tests, of the individual's blood, breath, or urine to determine the alcohol concentration or presence of other drugs, or combination thereof, in the individual's blood, breath, or urine, at the direction of a law enforcement officer under section 39-20-01.

---

<sup>131</sup> Section 39-08-01 was also amended by section 5 of House Bill No. 1050, chapter 186.

- f. Subdivision e does not apply to an individual unless the individual has been advised of the consequences of refusing a chemical test consistent with the Constitution of the United States and the Constitution of North Dakota.

The fact that any person charged with violating this section is or has been legally entitled to use alcohol or other drugs or substances is not a defense against any charge for violating this section, unless it is an affirmative defense that a drug which predominately caused impairment was used only as directed or cautioned by a practitioner who legally prescribed or dispensed the drug to that person. If the individual violated subdivisions a, b, c, or d of this subsection and subdivision e of this subsection and the violations arose from the same incident, for purposes of suspension or revocation of an operator's license, the violations are deemed a single violation and the court shall forward to the department of transportation only the conviction for driving under the influence or actual physical control.

**SECTION 2. AMENDMENT.** Subsection 2 of section 39-08-01 of the North Dakota Century Code is amended and reenacted as follows:

2. a. An individual who operates a motor vehicle on a highway or on public or private areas to which the public has a right of access for vehicular use in this state who refuses to submit to a chemical test, or tests, required under section 39-06.2-10.2; or 39-20-01; or 39-20-14, is guilty of an offense under this section.
- ~~b. An individual is not subject to an offense under this section for refusal to submit to an onsite screening test under section 39-20-14 if the person submits to a chemical test under section 39-20-01 or 39-06.2-10.2 for the same incident. Upon the individual's refusal to submit to an onsite screening test, the police officer shall inform the individual that the individual may remedy the refusal if the individual takes a chemical test under section 39-20-01 or 39-06.2-10.2 for the same incident.~~

**SECTION 3. AMENDMENT.** Section 39-20-01 of the North Dakota Century Code is amended and reenacted as follows:

**39-20-01. Implied consent to determine alcohol concentration and presence of drugs.**

1. Any individual who operates a motor vehicle on a highway or on public or private areas to which the public has a right of access for vehicular use in this state is deemed to have given consent, and shall consent, subject to the provisions of this chapter, to a chemical test, or tests, of the blood, breath, saliva, or urine for the purpose of determining the alcohol concentration or presence of other drugs, or combination thereof, in the individual's blood, breath, saliva, or urine. As used in this chapter, the word "drug" means any drug or substance or combination of drugs or substances which renders an individual incapable of safely driving, and the words "chemical test" or "chemical analysis" mean any test to determine the alcohol concentration or presence of other drugs, or combination thereof, in the individual's blood, breath, or urine, approved by the director of the state crime laboratory or the director's designee under this chapter.
2. The test or tests must be administered at the direction of a law enforcement officer only after placing the individual under arrest ~~and informing that~~

~~individual that the individual is or will be charged with the offense of driving or being in actual physical control of a vehicle upon the public highways while under the influence of intoxicating liquor, drugs, or a combination thereof for violation of section 39-08-01 or an equivalent offense.~~ For the purposes of this chapter, the taking into custody of a child under section 27-20-13 or an individual under twenty-one years of age satisfies the requirement of an arrest. The law enforcement officer shall determine which of the tests is to be used.

3. a. ~~The law enforcement officer shall inform the individual charged that North Dakota law requires the individual to take a chemical test to determine whether the individual is under the influence of alcohol or drugs and that refusal of the individual to submit to a test directed by the law enforcement officer may result in a revocation of the individual's driving privileges for a minimum of one hundred eighty days and up to three years. In addition, the law enforcement officer shall inform the individual refusal to take a breath or urine test is a crime punishable in the same manner as driving under the influence. If the officer requests the individual to submit to a blood test, the officer may not inform the individual of any criminal penalties until the officer has first secured a search warrant.~~
- b. ~~A test administered under this section~~If an individual refuses to submit to testing under this section, proof of the refusal is not admissible in any criminal or administrative proceeding to determine a violation of section ~~39-08-01 or under~~ this chapter if the law enforcement officer fails to inform the individual charged as required under subdivision a.
4. When an individual under the age of eighteen years is taken into custody for violating section 39-08-01 or an equivalent ordinance, the law enforcement officer shall attempt to contact the individual's parent or legal guardian to explain the cause for the custody. Neither the law enforcement officer's efforts to contact, nor any consultation with, a parent or legal guardian may be permitted to interfere with the administration of chemical testing requirements under this chapter. The law enforcement officer shall mail a notice to the parent or legal guardian of the minor within ten days after the test results are received or within ten days after the minor is taken into custody if the minor refuses to submit to testing. The notice must contain a statement of the test performed and the results of that test; or if the minor refuses to submit to the testing, a statement notifying of that fact. The attempt to contact or the contacting or notification of a parent or legal guardian is not a precondition to the admissibility of chemical test results or the finding of a consent to, or refusal of, chemical testing by the individual in custody.

**SECTION 4. AMENDMENT.** Subsection 1 of section 39-20-14 of the North Dakota Century Code is amended and reenacted as follows:

1. Any individual who operates a motor vehicle upon the public highways of this state is deemed to have given consent to submit to an onsite screening test or tests of the individual's breath for the purpose of estimating the alcohol concentration in the individual's breath upon the request of a law enforcement officer who has reason to believe that the individual committed a moving traffic violation or a violation under section 39-08-01 or an equivalent offense, or was involved in a traffic accident as a driver, and in conjunction with the violation or the accident the officer has, through the officer's observations, formulated an opinion that the individual's body contains alcohol.

**SECTION 5. EMERGENCY.** Sections 1 and 2 of this Act are declared to be an emergency measure.

**43-17-02.3. Practice of medicine or osteopathy by holder of permanent, unrestricted license - Exceptions.**

The practice of medicine is deemed to occur in the state the patient is located. A practitioner providing medical care to a patient located in this state is subject to the licensing and disciplinary laws of this state and shall possess an active North Dakota license for the practitioner's profession. Notwithstanding anything in this chapter to the contrary, any physician who is the holder of a permanent, unrestricted license to practice medicine or osteopathy in any state or territory of the United States, the District of Columbia, or a province of Canada may practice medicine or osteopathy in this state without first obtaining a license from the North Dakota board of medicine under one or more of the following circumstances:

1. As a member of an organ harvest team;
2. On board an air ambulance and as a part of its treatment team;
3. To provide one-time consultation on a diagnosis for a patient to a physician licensed in the state, or teaching assistance for a period of not more than twenty-four hours seven days; or
4. To provide consultation or teaching assistance previously approved by the board for charitable organizations.

**SECTION 4.** Section 43-17-44 of the North Dakota Century Code is created and enacted as follows:

**43-17-44. Standard of care and professional ethics.**

A licensee is held to the same standard of care and same ethical standards, whether practicing traditional in-person medicine or telemedicine. The following apply in the context of telemedicine:

1. Professional ethical standards require a practitioner to practice only in areas in which the practitioner has demonstrated competence, based on the practitioner's training, ability, and experience. In assessing a licensee's compliance with this ethical requirement, the board shall give consideration to board certifications and specialty groups' telemedicine standards.
2. A licensee practicing telemedicine shall establish a bona fide relationship with the patient before the diagnosis or treatment of a patient. A licensee practicing telemedicine shall verify the identity of the patient seeking care and shall disclose, and ensure the patient has the ability to verify, the identity and licensure status of any licensee providing medical services to the patient.
3. Before initially diagnosing or treating a patient for a specific illness or condition, an examination or evaluation must be performed. An examination or evaluation may be performed entirely through telemedicine, if the examination or evaluation is equivalent to an in-person examination.
  - a. An examination utilizing secure videoconferencing or store-and-forward technology for appropriate diagnostic testing and use of peripherals that would be deemed necessary in a like in-person examination or evaluation meets this standard, as does an examination conducted with an appropriately licensed intervening health care provider, practicing within the scope of the provider's profession, providing necessary physical findings to the licensee. An examination or evaluation consisting only of a static online questionnaire or an audio conversation does not meet the standard of care.
  - b. Once a licensee conducts an acceptable examination or evaluation, whether in-person or by telemedicine, and establishes a patient-licensee relationship, subsequent followup care may be provided as deemed appropriate by the licensee, or by a provider designated by the licensee to act temporarily in the licensee's absence. In certain types of telemedicine utilizing asynchronous store-and-forward technology or electronic monitoring, such as teleradiology or intensive care unit monitoring, it is not medically necessary for an independent examination of the patient to be performed.
4. A licensee practicing telemedicine is subject to all North Dakota laws governing the adequacy of medical records and the provision of medical records to the patient and other medical providers treating the patient.
5. A licensee must have the ability to make appropriate referrals of patients not amenable to diagnosis or complete treatment through a telemedicine encounter, including a patient in need of emergent care or complementary in-person care.

**SECTION 5.** Section 43-17-45 of the North Dakota Century Code is created and enacted as follows:

**43-17-45. Prescribing - Controlled substances.**

1. A licensee who has performed a telemedicine examination or evaluation meeting the requirements of this chapter may prescribe medications according to the licensee's professional discretion and judgment. Opioids may only be prescribed through telemedicine if prescribed as a federal food and drug administration approved medication assisted treatment for opioid use disorder or to a patient in a hospital or long-term care facility. Opioids may not be prescribed through a telemedicine encounter for any other purpose.
2. A licensee who, pursuant to this chapter, prescribes a controlled substance, as defined by North Dakota law, shall comply with all state and federal laws regarding the prescribing of a controlled substance, and shall participate in the North Dakota prescription drug monitoring program.

**SECTION 6. AMENDMENT.** Subsection 1 of section 43-17.1-02 of the North Dakota Century Code is amended and reenacted as follows:

  - b. The conduct of the physician, ~~or physician assistant, or fluoroscopy technologist~~ does not warrant further proceedings but the investigative panel determines ~~that possible errant conduct occurred that could lead to significant consequences if not corrected.~~ In such a case, a confidential letter of concern may be sent to the physician, ~~or physician assistant, or fluoroscopy technologist;~~ or
  - c. The conduct of the physician, ~~or physician assistant, or fluoroscopy technologist~~ indicates ~~that the physician, or physician assistant, or fluoroscopy technologist~~ may have committed any of the grounds for

The board members who have served on the investigative panel may not participate in any proceeding before the board relating to ~~said~~ the complaint. The complaint must be prosecuted before the board by the attorney general or one of the attorney general's assistants.
3. If an investigative panel finds ~~that~~ there are insufficient facts to warrant further investigation or action, the complaint must be dismissed and the matter is closed. The investigative panel shall provide written notice to the ~~individual or entity~~ person filing the original complaint and the ~~person~~ individual who is the subject of the complaint of the investigative panel's final action or recommendations, if any, concerning the complaint.

**SECTION 8. AMENDMENT.** Section 43-17.1-05.1 of the North Dakota Century Code is amended and reenacted as follows:

**43-17.1-05.1. Reporting requirements - Penalty.**

A medical licensee or any institution from which the medical licensee voluntarily resigns or voluntarily limits the licensee's staff privileges shall report that licensee's action to the investigative panel of the board if that action occurs while the licensee is under formal or informal investigation by the institution or a committee of the institution for any reason related to possible medical incompetence, unprofessional conduct, or mental or physical impairment.
2. Upon receiving a report concerning a licensee an investigative panel shall, or on its own motion an investigative panel may, investigate any evidence that appears to show a licensee is or may have committed any of the grounds for disciplinary action provided by law or by rules adopted by the board.
3. A person required to report under this section ~~whethat~~ makes a report in good faith is not subject to criminal prosecution or civil liability for making the report. For purposes of any civil proceeding, the good faith of any person ~~whothat~~ makes a report pursuant to this section is presumed. A physician who obtains information in the course of a professional peer review pursuant to chapter 23-34 is not required to report pursuant to this section. A physician who does not report

information obtained in a professional peer review is not subject to criminal prosecution or civil liability for not making a report. For purposes of this section, a person has actual knowledge if that person acquired the information by personal observation or under circumstances that cause that person to believe there exists a substantial likelihood that the information is correct.

4. An agency or health care institution that violates this section is guilty of a class B misdemeanor. A physician, or physician assistant, ~~or fluoroscopy technologist~~ who violates this section is subject to administrative action by the board as specified by law or by administrative rule.

<sup>146</sup> **SECTION 9. AMENDMENT.** Section 43-17.1-06 of the North Dakota Century Code is amended and reenacted as follows:

The board's investigative panels may:

1. Subpoena witnesses and physician and hospital records relating to the practice of any physician, or physician assistant, ~~or fluoroscopy technologist~~ under investigation. The confidentiality of the records by any other statute or law does not affect the validity of an investigative panel's subpoena nor the admissibility of the records in board proceedings; however, the proceedings and records of a committee ~~that~~which are exempt from subpoena, discovery, or introduction into evidence under chapter 23-34 are not subject to this subsection.
2. Hold preliminary hearings.

### SENATE BILL NO. 2173

(Senators J. Lee, Anderson, Mathern)  
(Representatives Lefor, Schneider, Westlind)

AN ACT to create and enact a new section to chapter 43-17 and a new chapter to title 43 of the North Dakota Century Code, relating to the interstate medical licensure compact and the payment of fees under the compact.

#### BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

**SECTION 1.** A new section to chapter 43-17 of the North Dakota Century Code is created and enacted as follows:

Fees levied under subsection 1 of article XIII of the interstate medical licensure compact by the interstate medical licensure compact commission to the state of North Dakota must be paid by the board through the board's funding mechanism, and the board may not request funds deposited in the general fund for the fee.

**SECTION 2.** A new chapter to title 43 of the North Dakota Century Code is created and enacted as follows:

#### **ARTICLE I - PURPOSE**

In order to strengthen access to health care, and in recognition of the advances in the delivery of health care, the member states of the interstate medical licensure compact have allied in common purpose to develop a comprehensive process that complements the existing licensing and regulatory authority of state medical boards and provides a streamlined process that allows physicians to become licensed in multiple states, thereby enhancing the portability of a medical license and ensuring the safety of patients. The compact creates another pathway for licensure and does not otherwise change a state's existing medical practice act. The compact also adopts the prevailing standard for licensure and affirms that the practice of medicine occurs where the patient is located at the time of the physician-patient encounter, and therefore, requires the physician to be under the jurisdiction of the state medical board where the patient is located. State medical boards that participate in the compact retain the jurisdiction to impose an adverse action against a license to practice medicine in that state issued to a physician through the procedures in the compact.

#### **ARTICLE II - DEFINITIONS**

In this compact:

1. "Bylaws" means those bylaws established by the interstate commission pursuant to article XI for its governance, or for directing and controlling its actions and conduct.
2. "Commissioner" means the voting representative appointed by each member board pursuant to article XI.

3. "Conviction" means a finding by a court, that an individual is guilty of a criminal offense through adjudication, or entry of a plea of guilt or no contest to the charge by the offender. Evidence of an entry of a conviction of a criminal offense by the court must be considered final for purposes of disciplinary action by a member board.
4. "Expedited license" means a full and unrestricted medical license granted by a member state to an eligible physician through the process set forth in the compact.
5. "Interstate commission" means the interstate commission created pursuant to article XI.
6. "License" means authorization by a state for a physician to engage in the practice of medicine, which would be unlawful without the authorization.
7. "Medical practice act" means laws and regulations governing the practice of allopathic and osteopathic medicine within a member state.
8. "Member board" means a state agency in a member state which acts in the sovereign interests of the state by protecting the public through licensure, regulation, and education of physicians as directed by the state government.
9. "Member state" means a state that has enacted the compact.
10. "Offense" means a felony, gross misdemeanor, or crime of moral turpitude.
11. "Physician" means any individual who:
  - a. Is a graduate of a medical school accredited by the liaison committee on medical education, the commission on osteopathic college accreditation, or a medical school listed in the international medical education directory or its equivalent;
  - b. Passed each component of the United States medical licensing examination (USMLE) or the comprehensive osteopathic medical licensing examination (COMLEX-USA) within three attempts, or any of its predecessor examinations accepted by a state medical board as an equivalent examination for licensure purposes;
  - c. Successfully completed graduate medical education approved by the accreditation council for graduate medical education or the American osteopathic association;
  - d. Holds specialty certification or a time-unlimited specialty certificate recognized by the American board of medical specialties or the American osteopathic association's bureau of osteopathic specialists;
  - e. Possesses a full and unrestricted license to engage in the practice of medicine issued by a member board;
  - f. Has never been convicted or received adjudication, deferred adjudication, community supervision, or deferred disposition for any offense by a court of appropriate jurisdiction;

- g. Has never held a license authorizing the practice of medicine subjected to discipline by a licensing agency in any state, federal, or foreign jurisdiction, excluding any action related to nonpayment of fees related to a license;
  - h. Has never had a controlled substance license or permit suspended or revoked by a state or the United States drug enforcement administration; and
  - i. Is not under active investigation by a licensing agency or law enforcement authority in any state, federal, or foreign jurisdiction.
12. "Practice of medicine" means the clinical prevention, diagnosis, or treatment of human disease, injury, or condition requiring a physician to obtain and maintain a license in compliance with the medical practice act of a member state.
13. "Rule" means a written statement by the interstate commission promulgated pursuant to article XII of the compact, that is of general applicability, implements, interprets, or prescribes a policy or provision of the compact, or an organizational, procedural, or practice requirement of the interstate commission, and has the force and effect of statutory law in a member state, and includes the amendment, repeal, or suspension of an existing rule.
14. "State" means any state, commonwealth, district, or territory of the United States.
15. "State of principal license" means a member state where a physician holds a license to practice medicine and which has been designated as such by the physician for purposes of registration and participation in the compact.

### **ARTICLE III - ELIGIBILITY**

1. A physician must meet the eligibility requirements as defined in subsection 11 of article II to receive an expedited license under the terms and provisions of the compact.
2. A physician who does not meet the requirements of subsection 11 of article II may obtain a license to practice medicine in a member state if the individual complies with all laws and requirements, other than the compact, relating to the issuance of a license to practice medicine in that state.

### **ARTICLE IV - DESIGNATION OF STATE OF PRINCIPAL LICENSE**

1. A physician shall designate a member state as the state of principal license for purposes of registration for expedited licensure through the compact if the physician possesses a full and unrestricted license to practice medicine in that state, and the state is:
  - a. The state of primary residence for the physician;
  - b. The state where at least twenty-five percent of the practice of medicine occurs;
  - c. The location of the physician's employer; or

- d. If no state qualifies under subdivision a, b, or c, the state designated as state of residence for purpose of federal income tax.
2. A physician may redesignate a member state as state of principal license at any time, as long as the state meets the requirements in subsection 1.

#### **ARTICLE V - APPLICATION AND ISSUANCE OF EXPEDITED LICENSURE**

1. A physician seeking licensure through the compact shall file an application for an expedited license with the member board of the state selected by the physician as the state of principal license.
2. Upon receipt of an application for an expedited license, the member board within the state selected as the state of principal license shall evaluate whether the physician is eligible for expedited licensure and issue a letter of qualification, verifying or denying the physician's eligibility, to the interstate commission.
  - a. Static qualifications, which include verification of medical education, graduate medical education, results of any medical or licensing examination, and other qualifications as determined by the interstate commission through rule, may not be subject to additional primary source verification if already primary source verified by the state of principal license.
  - b. The member board within the state selected as the state of principal license shall, in the course of verifying eligibility, perform a criminal background check of an applicant, including the use of the results of fingerprint or other biometric data checks compliant with the requirements of the federal bureau of investigation, with the exception of federal employees who have suitability determination in accordance with title 5, Code of Federal Regulations, section 731.202.

4. After receiving verification of eligibility under subsection 2 and any fees under subsection 3, a member board shall issue an expedited license to the physician. This license must authorize the physician to practice medicine in the issuing state consistent with the medical practice act and all applicable laws and regulations of the issuing member board and member state.
5. An expedited license must be valid for a period consistent with the licensure period in the member state and in the same manner as required for other physicians holding a full and unrestricted license within the member state.

6. An expedited license obtained through the compact must be terminated if a physician fails to maintain a license in the state of principal licensure for a nondisciplinary reason, without redesignation of a new state of principal licensure.
7. The interstate commission may develop rules regarding the application process, including payment of any applicable fees, and the issuance of an expedited license.

#### **ARTICLE VI - FEES FOR EXPEDITED LICENSURE**

1. A member state issuing an expedited license authorizing the practice of medicine in that state may impose a fee for a license issued or renewed through the compact.
2. The interstate commission may develop rules regarding fees for expedited licenses.

#### **ARTICLE VII - RENEWAL AND CONTINUED PARTICIPATION**

1. A physician seeking to renew an expedited license granted in a member state shall complete a renewal process with the interstate commission if the physician:
  - a. Maintains a full and unrestricted license in a state of principal license;
  - b. Has not been convicted or received adjudication, deferred adjudication, community supervision, or deferred disposition for any offense by a court of appropriate jurisdiction;
  - c. Has not had a license authorizing the practice of medicine subject to discipline by a licensing agency in any state, federal, or foreign jurisdiction, excluding any action related to nonpayment of fees related to a license; and
  - d. Has not had a controlled substance license or permit suspended or revoked by a state or the United States drug enforcement administration.
2. Physicians shall comply with all continuing professional development or continuing medical education requirements for renewal of a license issued by a member state.
3. The interstate commission shall collect any renewal fees charged for the renewal of a license and distribute the fees to the applicable member board.

5. Physician information collected by the interstate commission during the renewal process must be distributed to all member boards.

**ARTICLE VIII - COORDINATED INFORMATION SYSTEM**

1. The interstate commission shall establish a database of all physicians licensed, or who have applied for licensure, under article V.
2. Notwithstanding any other provision of law, member boards shall report to the interstate commission any public action or complaints against a licensed physician who has applied or received an expedited license through the compact.
3. Member boards shall report disciplinary or investigatory information determined as necessary and proper by rule of the interstate commission.
4. Member boards may report any nonpublic complaint, disciplinary, or investigatory information not required by subsection 3 to the interstate commission.
5. Member boards shall share complaint or disciplinary information about a physician upon request of another member board.
6. All information provided to the interstate commission or distributed by member boards must be confidential, filed under seal, and used only for investigatory or disciplinary matters.
7. The interstate commission may develop rules for mandated or discretionary sharing of information by member boards.

**ARTICLE IX - JOINT INVESTIGATIONS**

1. Licensure and disciplinary records of physicians are deemed investigative.

3. A subpoena issued by a member state must be enforceable in other member states.
4. Member boards may share any investigative, litigation, or compliance materials in furtherance of any joint or individual investigation initiated under the compact.
5. Any member state may investigate actual or alleged violations of the statutes authorizing the practice of medicine in any other member state in which a physician holds a license to practice medicine.

**ARTICLE X - DISCIPLINARY ACTIONS**

1. Any disciplinary action taken by any member board against a physician licensed through the compact must be deemed unprofessional conduct, which may be subject to discipline by other member boards, in addition to any violation of the medical practice act or regulations in that state.
2. If a license granted to a physician by the member board in the state of principal license is revoked, surrendered, or relinquished in lieu of discipline or

suspended, all licenses issued to the physician by member boards must automatically be placed, without further action necessary by any member board, on the same status. If the member board in the state of principal license subsequently reinstates the physician's license, a license issued to the physician by any other member board must remain encumbered until that respective member board takes action to reinstate the license in a manner consistent with the medical practice act of that state.

3. If disciplinary action is taken against a physician by a member board not in the state of principal license, any other member board may deem the action conclusive as to matter of law and fact decided, and:
  - a. Impose the same or lesser sanction against the physician so long as such sanctions are consistent with the medical practice act of that state; or
  - b. Pursue separate disciplinary action against the physician under its respective medical practice act, regardless of the action taken in other member states.
4. If a license granted to a physician by a member board is revoked, surrendered, or relinquished in lieu of discipline, or suspended, any license issued to the physician by any other member board must be suspended, automatically and immediately without further action necessary by the other member board, for ninety days upon entry of the order by the disciplining board, to permit the member board to investigate the basis for the action under the medical practice act of that state. A member board may terminate the automatic suspension of the license it issued before the completion of the ninety-day suspension period in a manner consistent with the medical practice act of that state.

#### **ARTICLE XI - INTERSTATE MEDICAL LICENSURE COMPACT COMMISSION**

1. The member states hereby create the interstate medical licensure compact commission.
2. The purpose of the interstate commission is the administration of the interstate medical licensure compact, which is a discretionary state function.
3. The interstate commission must be a body corporate and joint agency of the member states and must have all the responsibilities, powers, and duties set forth in the compact, and such additional powers as may be conferred upon it by a subsequent concurrent action of the respective legislatures of the member states in accordance with the terms of the compact.
4. The interstate commission must consist of two voting representatives appointed by each member state who shall serve as commissioners. In states where allopathic and osteopathic physicians are regulated by separate member boards, or if the licensing and disciplinary authority is split between multiple member boards within a member state, the member state shall appoint one representative from each member board. A commissioner must be:
  - a. An allopathic or osteopathic physician appointed to a member board;
  - b. An executive director, executive secretary, or similar executive of a member board; or

- c. A member of the public appointed to a member board.
5. The interstate commission shall meet at least once each calendar year. A portion of this meeting must be a business meeting to address such matters as may properly come before the commission, including the election of officers. The chairperson may call additional meetings and shall call for a meeting upon the request of a majority of the member states.
6. The bylaws may provide for meetings of the interstate commission to be conducted by telecommunication or electronic communication.
7. Each commissioner participating at a meeting of the interstate commission is entitled to one vote. A majority of commissioners constitutes a quorum for the transaction of business, unless a larger quorum is required by the bylaws of the interstate commission. A commissioner may not delegate a vote to another commissioner. In the absence of its commissioner, a member state may delegate voting authority for a specified meeting to another individual from that state who must meet the requirements of subsection 4.
8. The interstate commission shall provide public notice of all meetings and all meetings must be open to the public. The interstate commission may close a meeting, in full or in portion, if it determines by a two-thirds vote of the commissioners present that an open meeting would be likely to:
- a. Relate solely to the internal personnel practices and procedures of the interstate commission;
  - b. Discuss matters specifically exempted from disclosure by federal statute;
  - c. Discuss trade secrets, commercial, or financial information that is privileged or confidential;
  - d. Involve accusing a person of a crime, or formally censuring a person;
  - e. Discuss information of a personal nature if disclosure would constitute a clearly unwarranted invasion of personal privacy;
  - f. Discuss investigative records compiled for law enforcement purposes; or
  - g. Specifically relate to the participation in a civil action or other legal proceeding.
9. The interstate commission shall keep minutes that fully describe all matters discussed in a meeting and shall provide a full and accurate summary of actions taken, including record of any roll call votes.
10. The interstate commission shall make its information and official records, to the extent not otherwise designated in the compact or by its rules, available to the public for inspection.
11. The interstate commission shall establish an executive committee, which must include officers, members, and others as determined by the bylaws. The executive committee must have the power to act on behalf of the interstate commission, with the exception of rulemaking, during periods when the interstate commission is not in session. If acting on behalf of the interstate

commission, the executive committee shall oversee the administration of the compact, including enforcement and compliance with the provisions of the compact, its bylaws and rules, and other such duties as necessary.

12. The interstate commission may establish other committees for governance and administration of the compact.

## **ARTICLE XII - POWERS AND DUTIES OF THE INTERSTATE COMMISSION**

The interstate commission has the duty and power to:

1. Oversee and maintain the administration of the compact;
2. Promulgate rules that must be binding to the extent and in the manner provided for in the compact;
3. Issue, upon the request of a member state or member board, advisory opinions concerning the meaning or interpretation of the compact, its bylaws, rules, and actions;

8. Borrow, accept, hire, or contract for services of personnel;
9. Purchase and maintain insurance and bonds;
10. Employ an executive director who must have such powers to employ, select, or appoint employees, agents, or consultants, and to determine their qualifications, define their duties, and fix their compensation;
11. Establish personnel policies and programs relating to conflicts of interest, rates of compensation, and qualifications of personnel;
12. Accept donations and grants of money, equipment, supplies, materials, and services, and to receive, utilize, and dispose of it in a manner consistent with the conflict of interest policies established by the interstate commission;
13. Lease, purchase, accept contributions or donations of, or otherwise to own, hold, improve, or use, any property, real, personal, or mixed;
14. Sell, convey, mortgage, pledge, lease, exchange, abandon, or otherwise dispose of any property, real, personal, or mixed;
15. Establish a budget and make expenditures;

16. Adopt a seal and bylaws governing the management and operation of the interstate commission;
17. Report annually to the legislatures and governors of the member states concerning the activities of the interstate commission during the preceding year. Such reports must also include reports of financial audits and any recommendations that may have been adopted by the interstate commission;
18. Coordinate education, training, and public awareness regarding the compact, its implementation, and its operation;
19. Maintain records in accordance with the bylaws;
20. Seek and obtain trademarks, copyrights, and patents; and
21. Perform such functions as may be necessary or appropriate to achieve the purposes of the compact.

### **ARTICLE XIII - FINANCE POWERS**

1. The interstate commission may levy on and collect an annual assessment from each member state to cover the cost of the operations and activities of the interstate commission and its staff. The total assessment must be sufficient to cover the annual budget approved each year for which revenue is not provided by other sources. The aggregate annual assessment amount must be allocated upon a formula to be determined by the interstate commission, which shall promulgate a rule binding upon all member states.
2. The interstate commission may not incur obligations of any kind before securing the funds adequate to meet the same.
3. The interstate commission may not pledge the credit of any of the member states, except by, and with the authority of, the member state.
4. The interstate commission must be subject to a yearly financial audit conducted by a certified or licensed public accountant and the report of the audit must be included in the annual report of the interstate commission.

### **ARTICLE XIV - ORGANIZATION AND OPERATION OF THE INTERSTATE COMMISSION**

1. The interstate commission shall, by a majority of commissioners present and voting, adopt bylaws to govern its conduct as may be necessary or appropriate to carry out the purposes of the compact within twelve months of the first interstate commission meeting.
2. The interstate commission shall elect or appoint annually from among its commissioners a chairperson, a vice chairperson, and a treasurer, each of whom must have such authority and duties as may be specified in the bylaws. The chairperson, or in the chairperson's absence or disability, the vice chairperson, shall preside at all meetings of the interstate commission.
3. Officers selected in subsection 2 shall serve without remuneration from the interstate commission.

4. The officers and employees of the interstate commission must be immune from suit and liability, either personally or in their official capacity, for a claim for damage to or loss of property or personal injury or other civil liability caused or arising out of, or relating to, an actual or alleged act, error, or omission that occurred, or that such individual had a reasonable basis for believing occurred, within the scope of interstate commission employment, duties, or responsibilities; provided that such individual may not be protected from suit or liability for damage, loss, injury, or liability caused by the intentional or willful and wanton misconduct of such individual.
  - a. The liability of the executive director and employees of the interstate commission or representatives of the interstate commission, acting within the scope of such individual's employment or duties for acts, errors, or omissions occurring within such individual's state, may not exceed the limits of liability set forth under the constitution and laws of that state for state officials, employees, and agents. The interstate commission is considered to be an instrumentality of the states for the purposes of any such action. This subsection may not be construed to protect such individual from suit or liability for damage, loss, injury, or liability caused by the intentional or willful and wanton misconduct of such individual.
  - b. The interstate commission shall defend the executive director, its employees, and subject to the approval of the attorney general or other appropriate legal counsel of the member state represented by an interstate commission representative, shall defend such interstate commission representative in any civil action seeking to impose liability arising out of an actual or alleged act, error, or omission that occurred within the scope of interstate commission employment, duties, or responsibilities, or that the defendant had a reasonable basis for believing occurred within the scope of interstate commission employment, duties, or responsibilities, provided that the actual or alleged act, error, or omission did not result from intentional or willful and wanton misconduct on the part of such individual.
  - c. To the extent not covered by the state involved, member state, or the interstate commission, the representatives, or employees of the interstate commission must be held harmless in the amount of a settlement or judgment, including attorney's fees and costs, obtained against such individuals arising out of an actual or alleged act, error, or omission that occurred within the scope of interstate commission employment, duties, or responsibilities, or that such individuals had a reasonable basis for believing occurred within the scope of interstate commission employment, duties, or responsibilities, provided that the actual or alleged act, error, or omission did not result from intentional or willful and wanton misconduct on the part of such individuals.

#### **ARTICLE XV - RULEMAKING FUNCTIONS OF THE INTERSTATE COMMISSION**

1. The interstate commission shall promulgate reasonable rules in order to effectively and efficiently achieve the purposes of the compact. Notwithstanding the foregoing, if the interstate commission exercises its rulemaking authority in a manner that is beyond the scope of the purposes of the compact, or the powers granted under the compact, such an action by the interstate commission must be invalid and have no force or effect.

2. Rules deemed appropriate for the operations of the interstate commission must be made pursuant to a rulemaking process that substantially conforms to the model state administrative procedure act of 2010, and subsequent amendments thereto.
3. Not later than thirty days after a rule is promulgated, any person may file a petition for judicial review of the rule in the United States district court for the District of Columbia or the federal district where the interstate commission has its principal offices, provided that the filing of such a petition may not stay or otherwise prevent the rule from becoming effective unless the court finds that the petitioner has a substantial likelihood of success. The court shall give deference to the actions of the interstate commission consistent with applicable law and may not find the rule to be unlawful if the rule represents a reasonable exercise of the authority granted to the interstate commission.

#### **ARTICLE XVI - OVERSIGHT OF INTERSTATE COMPACT**

1. The executive, legislative, and judicial branches of state government in each member state shall enforce the compact and shall take all actions necessary and appropriate to effectuate the compact's purposes and intent. The provisions of the compact and the rules promulgated under the compact must have standing as statutory law but may not override existing state authority to regulate the practice of medicine.
2. All courts shall take judicial notice of the compact and the rules in any judicial or administrative proceeding in a member state pertaining to the subject matter of the compact which may affect the powers, responsibilities, or actions of the interstate commission.
3. The interstate commission must be entitled to receive all service of process in any such proceeding, and must have standing to intervene in the proceeding for all purposes. Failure to provide service of process to the interstate commission renders a judgment or order void as to the interstate commission, the compact, or promulgated rules.

#### **ARTICLE XVII - ENFORCEMENT OF INTERSTATE COMPACT**

1. The interstate commission, in the reasonable exercise of its discretion, shall enforce the provisions and rules of the compact.
2. The interstate commission may, by majority vote of the commissioners, initiate legal action in the United States district court for the District of Columbia, or, at the discretion of the interstate commission, in the federal district where the interstate commission has its principal offices, to enforce compliance with the provisions of the compact, and its promulgated rules and bylaws, against a member state in default. The relief sought may include both injunctive relief and damages. If judicial enforcement is necessary, the prevailing party must be awarded all costs of such litigation including reasonable attorney's fees.
3. The remedies in this chapter may not be the exclusive remedies of the interstate commission. The interstate commission may avail itself of any other remedies available under state law or the regulation of a profession.

**ARTICLE XVIII - DEFAULT PROCEDURES**

1. The grounds for default, include failure of a member state to perform such obligations or responsibilities imposed upon it by the compact or the rules and bylaws of the interstate commission promulgated under the compact.
2. If the interstate commission determines a member state has defaulted in the performance of its obligations or responsibilities under the compact, or the bylaws or promulgated rules, the interstate commission shall:
  - a. Provide written notice to the defaulting state and other member states, of the nature of the default, the means of curing the default, and any action taken by the interstate commission. The interstate commission shall specify the conditions by which the defaulting state must cure its default; and
  - b. Provide remedial training and specific technical assistance regarding the default.
3. If the defaulting state fails to cure the default, the defaulting state must be terminated from the compact upon an affirmative vote of a majority of the commissioners and all rights, privileges, and benefits conferred by the compact must terminate on the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of the default.
4. Termination of membership in the compact must be imposed only after all other means of securing compliance have been exhausted. Notice of intent to terminate must be given by the interstate commission to the governor, the majority and minority leaders of the defaulting state's legislature, and each of the member states.
5. The interstate commission shall establish rules and procedures to address licenses and physicians that are materially impacted by the termination of a member state or the withdrawal of a member state.
6. The member state that has been terminated is responsible for all dues, obligations, and liabilities incurred through the effective date of termination, including obligations the performance of which extends beyond the effective date of termination.
7. The interstate commission may not bear any costs relating to any state that has been found to be in default or which has been terminated from the compact, unless otherwise mutually agreed upon in writing between the interstate commission and the defaulting state.
8. The defaulting state may appeal the action of the interstate commission by petitioning the United States district court for the District of Columbia or the federal district where the interstate commission has its principal offices. The prevailing party must be awarded all costs of such litigation including reasonable attorney's fees.

**ARTICLE XIX - DISPUTE RESOLUTION**

1. The interstate commission shall attempt, upon the request of a member state, to resolve disputes that are subject to the compact and which may arise among member states or member boards.
2. The interstate commission shall promulgate rules providing for both mediation and binding dispute resolution as appropriate.

**ARTICLE XX - MEMBER STATES, EFFECTIVE DATE, AND AMENDMENT**

1. Any state is eligible to become a member state of the compact.
2. The compact must become effective and binding upon legislative enactment of the compact into law by no less than seven states. Thereafter, the compact must become effective and binding on a state upon enactment of the compact into law by that state.
3. The governors of nonmember states, or their designees, must be invited to participate in the activities of the interstate commission on a nonvoting basis before adoption of the compact by all states.
4. The interstate commission may propose amendments to the compact for enactment by the member states. An amendment may not become effective and binding upon the interstate commission and the member states unless and until it is enacted into law by unanimous consent of the member states.

**ARTICLE XXI - WITHDRAWAL**

1. Once effective, the compact must continue in force and remain binding upon each and every member state, provided that a member state may withdraw from the compact by specifically repealing the statute that enacted the compact into law.
2. Withdrawal from the compact must be by the enactment of a statute repealing the same, but may not take effect until one year after the effective date of such statute and until written notice of the withdrawal has been given by the withdrawing state to the governor of each other member state.
3. The withdrawing state shall immediately notify the chairperson of the interstate commission in writing upon the introduction of legislation repealing the compact in the withdrawing state.
4. The interstate commission shall notify the other member states of the withdrawing state's intent to withdraw within sixty days of its receipt of notice provided under subsection 3.
5. The withdrawing state is responsible for all dues, obligations, and liabilities incurred through the effective date of withdrawal, including obligations, the performance of which extend beyond the effective date of withdrawal.
6. Reinstatement following withdrawal of a member state must occur upon the withdrawing state reenacting the compact or upon such later date as determined by the interstate commission.

7. The interstate commission may develop rules to address the impact of the withdrawal of a member state on licenses granted in other member states to physicians who designated the withdrawing member state as the state of principal license.

#### **ARTICLE XXII - DISSOLUTION**

1. The compact shall dissolve effective upon the date of the withdrawal or default of the member state which reduces the membership in the compact to one member state.
2. Upon the dissolution of the compact, the compact becomes null and void and must be of no further force or effect, and the business and affairs of the interstate commission must be concluded and surplus funds must be distributed in accordance with the bylaws.

#### **ARTICLE XXIII - SEVERABILITY AND CONSTRUCTION**

1. The provisions of the compact must be severable, and if any phrase, clause, sentence, or provision is deemed unenforceable, the remaining provisions of the compact must be enforceable.
2. The provisions of the compact must be liberally construed to effectuate its purposes.
3. The compact may not be construed to prohibit the applicability of other interstate compacts to which the states are members.

#### **ARTICLE XXIV - BINDING EFFECT OF COMPACT AND OTHER LAWS**

1. This chapter does not prevent the enforcement of any other law of a member state that is not inconsistent with the compact.
2. All laws in a member state in conflict with the compact are superseded to the extent of the conflict.
3. All lawful actions of the interstate commission, including all rules and bylaws promulgated by the commission, are binding upon the member states.
4. All agreements between the interstate commission and the member states are binding in accordance with their terms.
5. If any provision of the compact exceeds the constitutional limits imposed on the legislature of any member state, such provision must be ineffective to the extent of the conflict with the constitutional provision in question in that member state.

### HOUSE BILL NO. 1362

(Representatives Monson, Headland, Mitskog)  
(Senators Bekkedahl, Burckhard, Robinson)

AN ACT to create and enact chapter 49-09.1 of the North Dakota Century Code, relating to the right of utilities to cross over or under a railroad right of way; and to provide for application.

#### BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

**SECTION 1.** Chapter 49-09.1 of the North Dakota Century Code is created and enacted as follows:

#### **49-09.1-01. Definitions.**

As used in this chapter:

1. "Crossing" means the construction, operation, repair, or maintenance of a facility over, under, or across a railroad right of way by a utility. The term includes the construction, operation, repair, or maintenance of a facility that runs adjacent to and alongside the lines of a railroad for no more than one mile, or another distance agreed to by the parties, after which the facility crosses the railroad lines, terminates, or exits the railroad right of way. The term does not include longitudinal occupancy of a railroad right of way.
2. "Facility" means any item of personal property placed over, across, or under a railroad right of way for use in connection with the storage or conveyance of:
  - a. Water;
  - b. Sewage;
  - c. Electronic, telephone, data, or telegraphic communications;
  - d. Fiber optics;
  - e. Cablevision;
  - f. Electric energy;
  - g. Liquid hydrocarbons;
  - h. Gas;
  - i. Hazardous liquids; or
  - j. Other substances, including pipes, sewers, conduits, cables, valves, lines, wires, manholes, or attachments.

3. "Railroad" means any association or corporation or other entity engaged in operating a common carrier by rail or any other entity responsible for the management of crossings or collection of crossing fees.
4. "Special circumstances" includes the railroad crossing's relationship to other property, location of the crossing in urban or other developed areas, the existence of unique topography or natural resources, or other dangers inherent in the particular crossing.
5. "Utility" means cooperative electric association, electric utility, public utility, transmission company, gas utility, municipal utility, municipal power agency, municipality, joint action agency, pipeline company, rural water system, or telephone, telegraph, telecommunications, cable, or fiber optic carrier. The term includes contractors and agents.

#### **49-09.1-02. Right of utilities to cross over or under railroad right of way.**

A utility may cross over or under the railroad right of way for the placement of facilities, subject to payment of the crossing fee in section 49-09.1-05 and reasonable regulation and negotiation in good faith as to location, placement, and compensation, when the placement of facilities is outside the public right of way.

#### **49-09.1-03. Notice and application for placement.**

1. A utility that intends to place a facility across a railroad right of way shall provide notice of the placement to the railroad at least thirty days before the placement.
2. The notice must include a completed crossing application, including a drawing showing the location of the proposed crossing and the railroad's property, tracks, and wires the utility will cross.
3. The utility shall submit the crossing application on a form provided or approved by the railroad, if available.
4. The crossing application must be sent to the railroad by registered mail.
5. The application must be accompanied by the crossing fee in section 49-09.1-05, and a certificate of insurance as required in section 49-09.1-06.

#### **49-09.1-04. Commencement of construction across railroad right of way.**

Thirty-five days after the receipt by the railroad of the completed crossing application, crossing fee, and certificate of insurance, the utility may commence the construction of the crossing, unless the railroad notifies the utility in writing that the proposed crossing is a serious threat to the safe operations of the railroad or to the current use of the railroad right of way. In all other instances, the utility is deemed to have authorization to commence construction of the facility.

#### **49-09.1-05. Crossing fee - Flagging expense.**

1. Unless otherwise agreed by the parties, a utility that crosses a railroad right of way, other than a crossing within the public right of way, shall pay the railroad a one-time standard crossing fee of seven hundred fifty dollars for each crossing.

2. The crossing fee is in lieu of any license, permit, application, processing fee, or any other fees or charges to reimburse the railroad for the direct expenses or diminution of land value incurred by the railroad as a result of the crossing.
3. No other fee may be assessed by the railroad or by any railroad agent, contractor, or assignee to the utility or to any agent or contractor of the utility.
4. A crossing fee is not required if the crossing is located within a public right of way.
5. In addition to the standard crossing fee and based on the railroad traffic at the crossing, a utility shall reimburse the railroad for any reasonable and necessary flagging expense associated with a crossing.
6. If the railroad alleges a crossing will cause a diminution in land value in an amount greater than the crossing fee provided in subsection 1, the railroad shall notify the utility and provide a certified appraisal demonstrating the diminution in value of the entire parcel of railroad property caused by the crossing before the date for commencement of construction provided in section 49-09.1-04.
7. If the parties are unable to resolve the issue of compensation under subsection 6, the dispute must be resolved in accordance with section 49-09.1-08.
8. The placement of a single conduit and its content is a single facility. No additional fees are payable based on the individual fibers, wires, lines, or other items contained within the conduit.

#### **49-09.1-06. Certificate of insurance or coverage.**

1. The certificate of insurance or coverage submitted by a municipality must include commercial general liability insurance or equivalent form with a limit of not less than one million dollars for each occurrence and an aggregate of not less than two million dollars.
2. The certificate of insurance or coverage submitted by any other utility other than a gas and hazardous materials pipeline utility must include commercial general liability insurance or an equivalent form with a limit of not less than two million dollars for each occurrence and an aggregate limit of not less than five million dollars.
3. The certificate of insurance submitted by a gas or hazardous materials pipeline utility must include commercial general liability insurance with a combined single limit of a minimum of five million dollars for each occurrence and an aggregate limit of at least ten million dollars.
4. The railroad may require protective liability insurance with a combined single limit of not less than two million dollars for each occurrence and an aggregate limit of not less than five million dollars. The coverage may be provided by a blanket railroad protective liability insurance policy if the coverage, including the coverage limits, applies separately to each individual crossing.
5. The coverage is required only during the period of construction, repair, or replacement of the facility.

6. The insurance obligations required under this section may be satisfied by the utility using any combination of primary, excess, or self insurance.

#### **49-09.1-07. Notice of objection by railroad - Appeal.**

1. If a railroad objects to the proposed crossing due to the proposal being a serious threat to the safe operations of the railroad or to the current use of the railroad right of way, the railroad shall provide notice of the objection and the specific basis of the objection to the utility by registered mail.
2. If the parties are unable to resolve the objection, either party may petition the commission for resolution of the disputed crossing application within thirty days from receipt of the objection.
3. Before filing a petition, the parties shall confer in good faith in an attempt to resolve the objection.
4. If a petition is filed, the commission shall issue a notice of hearing or notice of opportunity for hearing within fifteen days of filing of the petition, and shall issue an order within thirty days after the hearing or, if a hearing is not held, after expiration of the period during which a hearing could be requested, during which time the crossing must be stayed. The order may be appealed in accordance with chapter 28-32. The commission shall assess its costs associated with a petition equitably against the parties. The parties shall pay the costs within thirty days after receipt of a bill for payment from the commission. Amounts collected by the commission under this subsection must be deposited in a special account within the commission.

#### **49-09.1-08. Additional requirements imposed by railroad - Objection and petition to commission.**

1. If, in writing by registered mail, a railroad asserts special circumstances exist, other than the proposed crossing being a serious threat to the safe operations of the railroad or to the current use of the railroad right of way, or imposes additional requirements on a utility for crossing its lines, the utility may object to one or more of the requirements.
2. If a utility objects under subsection 1, the utility shall provide notice of the objection and the specific basis of the objection to the railroad by registered mail.
3. If the parties are unable to resolve the objection, either party may petition the commission for resolution of the objection within thirty days from receipt of the objection.
4. Before filing a petition, the parties shall confer in good faith in an attempt to resolve the objection.
5. If a petition is filed, the commission shall issue a notice of hearing or notice of opportunity for hearing within fifteen days after the filing of the petition, and shall determine, within thirty days after the hearing or, if a hearing is not held, after expiration of the period during which a hearing could be requested, whether special circumstances exist which necessitate additional requirements for the placement of the crossing. The order may be appealed in accordance with chapter 28-32. The commission shall assess its costs associated with a petition equitably against the parties. The parties shall pay

the costs within thirty days after receipt of a bill for payment from the commission. Amounts collected by the commission under this subsection must be deposited in a special account within the commission.

#### **49-09.1-09. Operational relocation.**

1. A railroad may require a utility to relocate a facility if the railroad determines relocation is essential to accommodate railroad operations, and the relocation is not arbitrary or unreasonable. Before agreeing to the relocation, a utility may require a railroad to provide a statement and supporting documentation identifying the operational necessity for requesting the relocation. A utility shall perform the relocation within a reasonable period of time following the agreement.
2. The relocation must be to a location mutually agreed upon by the railroad and utility, within the railroad right of way.
3. Relocation is at the expense of the utility. The crossing fee under section 49-09.1-05 may not be imposed for relocation.

#### **49-09.1-10. Removal of equipment.**

Upon completion of any facility, the utility shall remove, or cause to be removed, all tools, equipment, or other property used in the construction of the facility and, if railroad property was moved or disturbed, restore that property to the condition of the property before being moved or disturbed.

#### **49-09.1-11. Assignment.**

1. A utility may assign or otherwise transfer any rights to cross a railroad right of way to any financially responsible entity controlled by, controlling, or under common control of the utility or to any entity into or with which the utility is merged or consolidated or which acquires ownership or control of all or substantially all of the transmission assets of the utility.
2. Notice of the assignment or transfer must be given to the railroad within thirty days. Any other transfer or assignment may not take place without the written permission of the railroad, which permission may not be unreasonably withheld.

#### **49-09.1-12. Prohibition against mechanic's liens.**

1. A utility may not create, permit, or cause a mechanic's lien or other lien to be created or enforced against the railroad's property for any work performed by the utility in connection with the utility's facilities located in the railroad's right of way.
2. A railroad may not create, permit, or suffer a mechanic's lien or other lien of any kind or any nature to be created or enforced against a utility's property located in the railroad's right of way for any work performed by the railroad in connection with the railroad's facilities.

#### **49-09.1-13. Taxes.**

A utility promptly shall pay or discharge all taxes and charges levied upon the utility's facilities located in the railroad's right of way. If any taxes or charges can not

be separately made or assessed to the utility, but are included in the taxes or charges assessed to the railroad, the utility shall pay to the railroad an equitable portion of the taxes, determined by the value of the utility's facilities located on the railroad right of way as compared with the entire value of the railroad property.

**49-09.1-14. Existing agreements - Eminent domain.**

1. This chapter does not prevent a railroad and a utility from continuing under an existing agreement or otherwise negotiating the terms and conditions applicable to a crossing or the resolution of any disputes relating to the crossing.
2. This chapter does not impair the authority of a utility to secure crossing rights by easement pursuant to the exercise of the power of eminent domain.

**SECTION 2. APPLICATION.** This Act applies to any:

1. Crossing existing before August 1, 2019, if an agreement concerning the crossing has expired or is terminated. In such instance, if the collective amount of seven hundred fifty dollars has been paid to the railroad during the existence of the crossing, no additional fees are required; and
2. Crossing commenced after July 31, 2019.

---

<sup>149</sup> Section 49-22-16 was also amended by section 6 of House Bill No. 1383, chapter 56.

~~unreasonably restrictive in view of existing technology, factors of cost or economics, or needs of consumers regardless of location. Without such a finding by the commission, a route may not be designated which violates a local land use, zoning, or building rule, regulation, or ordinance.~~

- ~~e. Before a gas or liquid transmission facility is approved, the commission shall require the applicant to comply with the road use agreements of the impacted political subdivision. A permit may supersede and preempt the requirements of a political subdivision if the applicant shows by a preponderance of the evidence the regulations or ordinances are unreasonably restrictive in view of existing technology, factors of cost or economics, or needs of consumers regardless of their location, or are in direct conflict with state or federal laws or rules.~~
- ~~d. When an application for a certificate for a gas or liquid transmission facility is filed, the commission shall notify the townships with retained zoning authority, cities, and counties in which any part of the proposed corridor is located. The commission may not schedule a public hearing sooner than forty-five days from the date notification is sent by mail or electronic mail. Upon notification, a political subdivision shall provide a listing to the commission of all local requirements identified under this subsection. The requirements must be filed at least ten days before the hearing or the requirements are superseded and preempted.~~
- ~~e. An applicant shall comply with all local requirements provided to the commission pursuant to subdivision d, which are not otherwise superseded by the commission.~~
3. Utilities subject to this chapter shall obtain state permits that may be required to construct and operate electric energy conversion facilities and electric transmission facilities. A state agency in processing a utility's facility permit application shall be bound to the decisions of the commission with respect to the site designation for the electric energy conversion facility or the corridor or route designation for the electric transmission facility and with respect to other matters for which authority has been granted to the commission by this chapter.
4. ~~No~~A site or route ~~shall~~may not be designated which violates the rules of any state agency. A state agency with jurisdiction over any aspect of a proposed facility shall present the position of the agency at the public hearing on an application for a certificate, a permit, or a waiver, which position ~~shall~~must clearly state whether the site, corridor, or route being considered for designation will be in compliance with such agency's rules. For purposes of this chapter it ~~shall~~be presumed that a proposed facility will be in compliance with a state agency's rules if ~~such~~the agency fails to present its position on the proposed site, corridor, or route at the appropriate public hearing.

**SECTION 4. AMENDMENT.** Section 49-22.1-01 of the North Dakota Century Code is amended and reenacted as follows:

  - a. Conducted wholly within the geographic location for which a utility has previously obtained a certificate or permit under this chapter, or on which a facility was constructed before April 9, 1975, if:
    - (1) The activities are for the construction of the same type of facility as the existing type of facility as identified in subsection 5 or 12 and the activities are:

    - (3) The activities are for the construction:
      - (a) Of a new gas or liquid energy conversion facility;
      - (b) Of a new gas or liquid transmission facility;

No person, other than the parents, may assume the permanent care and custody of a child, unless authorized so to do by an order or decree of a court having jurisdiction, except that a parent, upon giving written notice to the department of human services and human service zone, may place that person's own child in the home of the child's grandparent, uncle, or aunt for adoption or guardianship by the person receiving the child. The child must be considered abandoned if proceedings for the adoption or guardianship of the child are not initiated by such relative within one year following the date of notice of placement. No parent may assign or otherwise transfer the parent's rights or duties with respect to the care and custody of the parent's child. Any such transfer or assignment, written or otherwise, is void. This section does not affect the right of the parent to consent in writing to the legal adoption of the parent's child, but such written consent does not operate to transfer any right in the child in the absence of a decree by a court having jurisdiction. Any person who violates the provisions of this section is guilty of a class A misdemeanor.

1. Has not at any time before or after making application for medical assistance made an assignment or transfer of property for the purpose of rendering that person eligible for assistance under this chapter. For the purposes of making any determination or redetermination of eligibility, the phrase "assignment or transfer" includes actions or failures to act which effect a renunciation or disclaimer of any interest which the applicant or recipient might otherwise assert or have asserted, or which serve to reduce the amounts which an applicant or recipient might otherwise claim from a decedent's estate, a trust or similar device, or a person obligated by law to furnish support to the applicant or recipient.
2. Has applied or agrees to apply all proceeds received or receivable by that person or that person's eligible spouse from ~~automobile accident medical benefits coverage and private health care~~third-party medical coverage, including health care coverage, accident insurance, and automobile insurance, to the costs of medical care for that person and that person's eligible spouse and children. The department of human services may require from any applicant or recipient of medical assistance the assignment of any rights accruing under ~~automobile medical benefits coverage or private health care~~third-party medical coverage. Any rights or amounts so assigned must be applied against the cost of medical care paid on behalf of the recipient under this chapter. The assignment is not effective as to any carrier before the receipt of notice of assignment by such carrier.
3. Is eligible under rules and regulations established by the department of human services.

**SECTION 8. AMENDMENT.** Section 50-24.1-02.1 of the North Dakota Century Code is amended and reenacted as follows:

Each applicant or recipient of benefits under this chapter must be deemed to have assigned, to the department of ~~human services~~, any right of recovery the applicant or recipient may have for medical costs incurred under this chapter not exceeding the amount of funds expended by the department for the care and treatment of the applicant or recipient. The applicant or recipient, or other person empowered by law to act in the applicant's or recipient's behalf, shall execute and deliver an assignment of claim, assignment of rights, or other authorizations as necessary to secure fully the right of recovery of the department. The assignment:
  - a. Is effective as to both current and accrued medical support recovery obligations.
  - b. Takes effect upon a determination that an applicant is eligible for assistance under this chapter.
2. The department of ~~human services~~ may compromise claims arising out of assignments made under this section on such terms as it may deem just and appropriate. The department of ~~human services~~ may not be compelled to compromise any claim.

An applicant or recipient designates a prepayment or deposit for that applicant's or recipient's burial by providing funds that are to be used for the funeral or burial expenses of the applicant or recipient. If an applicant's or recipient's burial is funded by an insurance policy, the amount considered set-aside for burial is the lesser of the cost basis or the face value of the insurance policy. In addition, the applicant or recipient may designate all or a portion of the three thousand dollar asset limitation for funeral pre-need contracts, prepayments, or deposits.   - b. The annuity is purchased from an insurance company or other commercial company that sells annuities as part of the normal course of business;
  - c. The annuity is irrevocable and neither the annuity nor payments due under the annuity may be assigned or transferred;
  - d. The annuity provides substantially equal monthly payments of principal and interest and does not have a balloon or deferred payment of principal

## CHAPTER 422

### HOUSE BILL NO. 1339

(Representative M. Johnson)  
(Senator Sorvaag)

AN ACT to create and enact a new section to chapter 51-07 of the North Dakota Century Code, relating to reimbursement for warranty.

#### BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

**SECTION 1.** A new section to chapter 51-07 of the North Dakota Century Code is created and enacted as follows:

#### **Parts, equipment, and accessory dealers reimbursed for warranty repair.**

1. As used in this section:

- a. "Commercial equipment dealer" means a person that engages in the business of:
- (1) Selling, at retail, parts for any new or used commercial motor vehicle, truck, or semitrailer, or vehicular implements, commercial equipment, or accessories, or attachment units, designed and used primarily for transporting commodities, merchandise, or commercial cargo; or
  - (2) Repairing new or used commercial motor vehicle, truck, or semitrailer parts, or vehicular implements, commercial equipment or accessories, or attachment units, designed and used primarily for transporting commodities, merchandise, or commercial cargo.
- b. "Commercial distributor" means any person that offers for sale, sells, or distributes to a dealer parts for any new commercial motor vehicle, truck, or semitrailer, or vehicular implements, commercial equipment, or accessories, or attachment units, designed and used primarily for transporting commodities, merchandise, or commercial cargo.
- c. "Commercial manufacturer" means any person engaged in the business of manufacturing or assembling parts for any new commercial motor vehicle, truck, or semitrailer, or vehicular implements, commercial equipment, or accessories, or attachment units, designed and used primarily for transporting commodities, merchandise, or commercial cargo.
- d. "Parts" includes essential and nonessential commercial motor vehicle, truck, or semitrailer components.

2. A commercial manufacturer shall include reasonable compensation for diagnostic work, as well as repair service, parts, and labor, in warranty work

compensation. In addition, a commercial manufacturer shall provide adequate time allowances for diagnosis and performance of warranty work and service for the work performed. The hourly labor rate paid by a commercial manufacturer to the commercial equipment dealer for warranty services may not be less than the average rate charged by the commercial equipment dealer for like service to nonwarranty customers for nonwarranty service. A commercial manufacturer may not reimburse a commercial equipment dealer for parts used in the performance of warranty repair at a lower rate than the average retail rate customarily charged by the commercial equipment dealer for these parts as provided under subsection 5.

3. A commercial manufacturer shall pay a commercial equipment dealer on a claim made by a commercial equipment dealer under this section within thirty days of the approval of the claim. The commercial manufacturer either shall approve or disapprove a claim within thirty days after the claim is submitted to the commercial manufacturer. The commercial manufacturer may prescribe the manner in which and the forms on which the commercial equipment dealer must present the claim. A claim not specifically disapproved in writing within thirty days after the commercial manufacturer receives the claim must be construed to be approved and the manufacturer shall pay the claim within thirty days.
4. A commercial manufacturer, commercial distributor, or commercial distributor branch shall compensate fully its commercial equipment dealers licensed in this state for warranty parts, work, and service specified in this section. Failure to fully compensate includes a reduction in the amount due to the commercial equipment dealer or imposing a separate charge, surcharge, or other imposition by which the commercial manufacturer seeks to recover the costs of complying with this section from the commercial equipment dealer.
5. The retail rate customarily charged by the commercial equipment dealer for parts is established by the commercial equipment dealer submitting to the commercial manufacturer or commercial distributor one hundred sequential nonwarranty customer-paid service repair orders that contain warranty-like parts or ninety consecutive days of nonwarranty customer-paid service repair orders that contain warranty-like parts, whichever is less, covering repairs made no more than one hundred eighty days before the submission and declaring the average percentage markup.
6. The retail rate customarily charged by the commercial equipment dealer for labor must be established using the same process as provided under subsection 5 and declaring the average labor rate. The average labor rate must be determined by dividing the amount of the dealer's total labor sales by the number of total hours that generated those sales. If a labor rate and parts markup rate are simultaneously declared by the commercial equipment dealer, the commercial equipment dealer may use the same repair orders to complete each calculation as provided under subsection 5.
7. In calculating the retail rate customarily charged by the commercial equipment dealer for parts and labor, the following work may not be included in the calculation:
  - a. Repairs for commercial manufacturer or commercial distributor special events, specials, or promotional discounts for retail customer repairs;

- b. Parts sold at wholesale; and
  - c. Nuts, bolts, fasteners, and similar items that do not have an individual part number.
8. The average of the parts markup rates and labor rate is presumed to be fair and reasonable and must become effective thirty days following the commercial manufacturer's approval. Not later than thirty days after submission, a commercial manufacturer or commercial distributor may rebut the presumption by reasonably substantiating that a rate is unreasonable in light of the practices of all other commercial equipment dealers in an economically similar area of the state offering the commercial equipment dealer's declaration of the same part, or vehicular implement, equipment, accessory, or attachment unit. If the average parts markup rate or average labor rate, or both are rebutted, the commercial manufacturer or commercial distributor shall propose an adjustment of the average percentage markup based on that rebuttal not later than thirty days after submission.
9. Each commercial manufacturer, in establishing a schedule of compensation for warranty work, shall rely on the commercial equipment dealer's written schedule of hourly labor rates and parts and may not obligate any commercial equipment dealer to engage in unduly burdensome or time-consuming documentation of rates or parts, including obligating commercial equipment dealers to engage in transaction-by-transaction or part-by-part calculations.
10. A commercial dealer or commercial manufacturer may demand the average parts markup or average labor rate be calculated using the process provided under subsections 5 and 6; however, the demand for the average parts markup may not be made within twelve months of the last parts markup declaration and the demand for the average labor rate may not be made within twelve months of the last labor rate declaration. If a parts markup or labor rate is demanded by the commercial equipment dealer or commercial manufacturer, the commercial equipment dealer shall determine the repair orders to be included in the calculation under subsections 5 and 6.

### HOUSE BILL NO. 1041

(Legislative Management)  
(Taxation Committee)

AN ACT to amend and reenact section 57-02-08.3 of the North Dakota Century Code, relating to the homestead tax credit for special assessments; to provide for application; and to provide an effective date.

#### BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

**SECTION 1. AMENDMENT.** Section 57-02-08.3 of the North Dakota Century Code is amended and reenacted as follows:

#### **57-02-08.3. Homestead credit for special assessments - Certification - Lien.**

1. Any person who has qualified for the property tax credit provided for in section 57-02-08.1 may elect to also qualify for an additional homestead credit against that person's homestead for the portion of any special assessment levied by a taxing district which becomes due for the same year. The total amount of credits allowed for any one property must not exceed six thousand dollars, adjusted annually on January first of each year after December 31, 2019, by the consumer price index, excluding any interest charged by the body levying the special assessment. This credit may be granted only at the election of the qualifying person. The person making the election shall do so by filing with the county auditor a claim for the special assessment credit on a form prescribed by the tax commissioner. The claim must be filed with the county auditor on or before February first of the year in which the special assessment installment thereof becomes payable. For purposes of this subsection, "consumer price index" means the percentage change in the consumer price index for all urban consumers in the midwest region as determined by the United States department of labor, bureau of labor statistics, for the most recent year ending December thirty-first.
2. a. By March first of each year, the county auditor of each county shall certify to the state tax commissioner, on forms prescribed by the tax commissioner, the following information:
  - (1) The name and address of each person for whom the special assessment credit provided for in subsection 1 was allowed for the preceding year.
  - (2) The amount of credit allowed for the special assessment installment thereof due for the preceding year.
  - (3) The total amount of the special assessment credits due in each special assessment district.
  - (4) Other information that the tax commissioner requires.

- b. The tax commissioner shall audit the certifications, make such corrections as may be required, and certify to the state treasurer for payment to each county by June first of each year the sum of the amounts computed by adding the credits allowed for portions of special assessments which were due for each homestead in the county for the preceding year. No more than the portion of special assessments due for the preceding year shall be allowed as a credit for any homestead in any year.
  - c. The county treasurer upon receipt of the payment from the state treasurer shall forthwith apportion and distribute the payment to each special assessment district in the county according to the total credits allowed for each respective special assessment district.
  - d. Supplemental certifications by the county auditor and by the state tax commissioner and supplemental payments by the state treasurer may be made after the dates prescribed herein to make such corrections as may be necessary because of errors therein.
3. a. Any credit allowed under subsection 1, plus interest in the amount of ~~ninesix~~ percent per year from June first of the year for which the special assessment installment for which a credit is taken becomes payable, creates a lien in favor of the state against the property upon which the special assessment credit is allowed and remains a lien upon the property from the time the credit is allowed until the lien is fully satisfied by depositing the amount of the lien in the state general fund. If the amount of the lien exceeds the market value of the property, the state may accept the amount of the market value of the property as payment in full on the lien.
  - b. (1) Except as otherwise provided in this subdivision, a transfer of title to the homestead because of sale, death, or otherwise may not be made without the lien being satisfied. When a credit under subsection 1 is allowed, the county auditor shall cause a notice of lien of record to be filed against subject property with the recorder.  
(2) The recorder may not record any deed for property on which the county auditor has determined that there is an unsatisfied lien created under this section, except for a transfer between spouses because of the death of one of them as provided in paragraph 3.  
(3) When a transfer occurs between spouses because of the death of one of them, the lien allowed by this section need not be satisfied until the property is again transferred.
  - c. This lien has precedence over all other liens except general tax liens and prior special assessment liens and shall not be divested at any judicial sale. A mistake in the description of the property covered by this lien or in the name of the owner of the property does not defeat the lien if the property can be identified by the description in the special assessment list.

**SECTION 2. APPLICATION.** This Act applies to credits granted after the effective date of this Act.

**SECTION 3. EFFECTIVE DATE.** This Act is effective for taxable years beginning after December 31, 2018.

2. ~~A model 2, model 3, or model 4 seller may elect to be registered in one or more states as a seller which anticipates making no sales into the state or states if it has not had sales into the state or states for the preceding twelve months. This election does not relieve the seller of its agreement under section 401(B) to collect taxes on all sales into the states or its liability for remitting to the proper states any taxes collected.~~ certified service provider may require a seller registering under the agreement to register in all of the full-member states as a condition of receiving certified service provider services.
3. The member states agree not to require the payment of any registration fees or other charges for a seller ~~to register~~ registering through the central registration system in a state in which the seller has no legal requirement to register.
4. A written signature from the seller is not required.
5. An agent may register a seller under uniform procedures adopted by the member states.
6. A seller may cancel its registration under the system at any time under uniform procedures adopted by the governing board. Cancellation does not relieve the seller of its liability for remitting to the proper states any taxes collected.
7. Nothing in this section shall be construed to relieve a seller of any legal obligation it may have under a state's laws to register in that state or its obligation to collect and remit taxes for at least thirty-six months in a state and meet all other requirements for amnesty set out in section 402 of the agreement in order to be eligible for amnesty in the state.
8. Whenever a state joins the agreement, sellers already registered under the agreement shall be ~~registered in the new~~ notified by the governing board and the sellers may elect to also be registered in the new state as follows:
  - a. ~~Model 1 sellers will be automatically registered in such state.~~
  - b. ~~Model 2, model 3, and model 4 sellers will be automatically registered in the new state but may elect to be registered as a seller which anticipates making no sales into the new state.~~
9. ~~Upon registration, the~~ The governing board shall provide to the seller make information available regarding the requirements and options for filing a simplified electronic return and for filing remittances in any member state. ~~Member states~~ A member state may provide information to sellers concerning other tax return filing options in that state.
10. The governing board shall cause the system for registering under the agreement to include a feature that allows sellers registered under the agreement to update relevant registration data in the system and have such updated data provided to all ~~member~~ affected states utilizing the system. The governing board shall establish conditions and procedures to allow states which are not members of the agreement to participate in the registration system.

**SECTION 10. AMENDMENT.** Subsections 6 and 7 of section 57-39.4-06 of the North Dakota Century Code are amended and reenacted as follows:

6. Provide and maintain a database that assigns the proper tax rates and jurisdictions to each five-digit and nine-digit zip code within a member state to ~~the proper tax rates and jurisdictions~~. The state must apply the lowest combined tax rate imposed in the zip code area if the area includes more than one tax rate in any level of taxing jurisdictions. If a nine-digit zip code designation is not available for a street address or if a seller or certified service provider is unable to determine the nine-digit zip code designation applicable to a ~~purchase transaction~~ after exercising due diligence to determine the designation, the seller or certified service provider may apply the rate for the five-digit zip code area. For the purposes of this section, there is a rebuttable presumption that a seller or certified service provider has exercised due diligence if the seller has attempted to determine the ~~nine-digit zip code designation~~ tax rate and jurisdiction by ~~utilizing~~ using software approved by the governing board that makes this ~~designation~~ assignment from the street address and the five-digit zip code information applicable to a ~~purchase~~ the transaction.
7. Have the option of providing address-based boundary database records for assigning taxing jurisdictions and their associated rates which shall be in addition to the requirements of subsection 6. The database records must be in the same approved format as the database records under subsection 6 and must meet the requirements developed pursuant to the federal Mobile Telecommunications Sourcing Act [4 U.S.C. 119(a)]. The governing board may allow a member state to require sellers that register under this agreement to use an address-based database provided by that member state. If any member state develops address-based assignment database records pursuant to the agreement, a seller or certified service provider may use those database records in place of the five-digit and nine-digit zip code database records provided for in subsection 6. If a seller or certified service provider is unable to determine the applicable rate and jurisdiction using an address-based database record after exercising due diligence, the seller or certified service provider may apply the nine-digit zip code designation applicable to a ~~purchase transaction~~. If a nine-digit zip code designation is not available for a street address or if a seller or certified service provider is unable to determine the nine-digit zip code designation applicable to a ~~purchase transaction~~ after exercising due diligence to determine the designation, the seller or certified service provider may apply the rate for the five-digit zip code area. For the purposes of this section, there is a rebuttable presumption that a seller or certified service provider has exercised due diligence if the seller or certified service provider has attempted to determine the tax rate and jurisdiction by ~~utilizing~~ using software approved by the governing board that makes this assignment from the address and zip code information applicable to the ~~purchase~~ transaction.

**SECTION 11. AMENDMENT.** Section 57-39.4-19 of the North Dakota Century Code is amended and reenacted as follows:

**57-39.4-19. (318) Uniform tax returns.**

Each member state shall:

1. Require that only a single tax return for each taxing period for each seller be filed for the member state to include all the taxing jurisdictions within the member state.

2. a. Require that returns be due no sooner than the twentieth day of the month following the month in which the transaction occurred.
- b. When the due date for a return falls on a Saturday or Sunday or legal holiday in the subject member state, the return shall be due on the next succeeding business day. If the return is filed in conjunction with a remittance and the remittance cannot be made under subdivision b of subsection 5 of section 57-39.4-20, the return shall be accepted as timely filed on the same day as the remittance under that subsection.
3. Make available to all sellers, whether or not registered under the agreement, except sellers of products qualifying for exclusion from the provisions of section 57-39.4-09 of this agreement, a simplified return that is filed electronically as follows:
  - a. The simplified electronic return hereinafter SER shall be in a form approved by the governing board and shall contain only those fields approved by the governing board. The SER shall contain two parts. Part 1 shall contain information relating to remittances and allocations and part 2 shall contain information relating to exempt sales.

  - c. Returns shall be required as follows:
    - (1) Certified service providers must file an SER in all member states in which the model 1 seller is registered under the agreement, on behalf of model 1 sellers. Certified service providers, on behalf of these sellers, shall file the audit reports provided for in article V of the rules and procedures of the agreement for the states, and in addition, shall be required to file part 1 of the SER each month for each member state in which the model 1 seller is registered under the agreement. A state shall allow a model 1 seller to file both part 1 and part 2 of the SER. A model 1 seller which chooses to file both part 1 and part 2 of the SER shall still be required to file the audit reports provided for in article V of the rules and procedures of the agreement.
    - (2) Model 2 and model 3 sellers must file an SER in all member states ~~other than states for which they have indicated that they anticipate making no sales~~ in which they are registered under the agreement. These sellers shall file part 1 of the SER every month for all states in which they anticipate making sales are registered under the agreement. These sellers ~~need not file part 2 information until January 1, 2012.~~ After this date, they shall have the following options for meeting their obligation to furnish part 2 information:
      - (a) File part 2 of the SER together with part 1 of the SER every month;  
or
      - (b) File part 2 of the SER at the same time part 1 of the SER for the month of December is due. Part 2 information filed under this option shall cover the month of December and all previous months

of the same calendar year and shall only require annual and not monthly totals. The sellers shall only be required to file part 2 of the SER for any state which has notified the governing board that it will require the submission of the part 2 information under subdivision b.

- (3) Every member state shall allow model 4 sellers to file an SER. The sellers shall file part 1 of the SER every month unless a state allows less frequent filing. Model 4 sellers which have a legal requirement to register in the state shall have the following options for meeting their obligation to furnish part 2 information:

- (a) File part 2 of the SER together with part 1 of the SER; or
- (b) File part 2 of the SER at the same time part 1 of the SER for the month of December is due. Part 2 information filed under this option shall cover the month of December and all previous months of the same calendar year and shall only require annual and not monthly totals.

These sellers shall only be required to file part 2 of the SER for any state which has notified the governing board that it will require the submission of the part 2 information under subdivision b.

Model 4 sellers which elect not to file an SER shall file returns in the form under schedules afforded to sellers not registered under the agreement according to the requirements of each member state.

- (4) ~~No later than January 1, 2013, every~~ Every member state shall allow sellers not registered under the agreement that are registered in the state to file an SER. These sellers shall file part 1 of the SER every month unless a state allows less frequent filing and shall have the following options for meeting their obligation to furnish part 2 information:

- (a) File part 2 of the SER together with part 1 of the SER; or
- (b) File part 2 of the SER at the same time part 1 of the SER for the month of December is due. Part 2 information filed under this option shall cover the month of December and all previous months of the same calendar year and shall only require annual and not monthly totals.

These sellers shall only be required to file part 2 of the SER for any state which has notified the governing board that it will require the submission of the part 2 information under subdivision b.

- d. A state which requires the submission of part 2 information under paragraph 2 may provide an exemption from this requirement to a seller under terms and conditions set out by the state.
- e. A state may require a seller which elects to file an SER to give at least three months' notice of the seller's intent to discontinue filing an SER.

4. ~~Not require the filing of a return from a seller registered under the agreement which has indicated at the time of registration that it anticipates making no sales which would be sourced to the state under the agreement. A seller shall lose this exemption upon making any taxable sales into the state and shall file a return in the month following the sale. A state may, but is not required to, allow a seller to regain such filing exemption upon such terms and conditions as the state may impose.~~
5. Adopt web services as the standardized transmission process that allows for receipt of uniform tax returns and other formatted information as approved by the governing board. The process must provide for the filing of separate returns for multiple legal entities in a single transmission for each state and will not include any requirement for manual entry or input by the seller of any of the aforementioned information. This process will allow a certified service provider, tax preparer, or any other authorized person to file returns for more than one seller in a single electronic transmission. However, sellers filing returns for multiple legal entities may only do so for affiliated legal entities.
- 6.5. Give notice to a seller registered under this agreement which has no legal requirement to register in the state, of a failure to file a required return and a minimum of thirty days to file thereafter prior to establishing a liability amount for taxes based solely on the seller's failure to timely file a return provided a member state may establish a liability amount for taxes based solely on the seller's failure to timely file a return if such seller has a history of nonfiling or late filing.
- 7.6. Nothing in this section shall prohibit a state from allowing additional return options or the filing of returns less frequently.

**SECTION 12. AMENDMENT.** Subsection 1 of section 57-39.4-23 of the North Dakota Century Code is amended and reenacted as follows:

1. If a member state allows for temporary exemption periods, commonly referred to as sales tax holidays, the member state shall:

including all products and services listed in the rules, appendices, and interpretive opinions adopted by the governing board. The requirements of this section shall only apply to part III(B) definitions to the extent such definitions are used in the administration of a sales tax holiday. A member state is not in compliance with the agreement if the member state excludes any product or service that is included within a product definition or includes a product or service that is excluded from a product definition.

- (3) Not requiring either the purchaser or seller to produce documentation to claim the exemption.

b. (1) "Product category" means:

- (d) Subcategories of subparagraph c that are taxed differently than the product category as a whole, such as printed materials, newspapers, and catalogs.

- (2) The term does not include any individual product that properly falls within any product category in a state, such as shirts, reusable thermometers, ultrasound machines, bread, tables, chairs, automobiles, or motorcycles, unless the individual product is taxed differently than any other products within that product category; or "tangible personal property".

Tangible personal property used to replace an existing system to compress, gather, collect, store, transport, or inject carbon dioxide for secure geologic storage or use in enhanced recovery of oil or natural gas does not qualify for exemption under this section unless the replacement creates an expansion of the system.
2. To receive the exemption under this section at the time of purchase, the owner of the gas compressing, gathering, collecting, storing, transporting, or injecting system must receive from the tax commissioner a certificate that the tangible

personal property used to construct or expand a system used to compress, gather, collect, store, transport, or inject carbon dioxide for secure geologic storage or use in enhanced recovery of oil or natural gas qualifies for the exemption. If a certificate is not received before the purchase, the owner shall pay the applicable tax imposed by this chapter and apply to the tax commissioner for a refund.

3. If the tangible personal property is purchased or installed by a contractor subject to the tax imposed by this chapter, the owner of the gas compressing, gathering, collecting, storing, transporting, or injecting system may apply to the tax commissioner for a refund of the difference between the amount remitted by the contractor and the exemption imposed or allowed by this section. Application for a refund must be made at the time and in the manner directed by the tax commissioner and must include sufficient information to permit the tax commissioner to verify the sales and use taxes paid and the exempt status of the sale or use.
4. This chapter and chapter 57-40.2 apply to the exemption under this section.

**SECTION 3. AMENDMENT.** Subsection 3 of section 57-51.1-03 of the North Dakota Century Code is amended and reenacted as follows:

3. a. The incremental production from a secondary recovery project which has been certified as a qualified project by the industrial commission after July 1, 1991, is exempt from any taxes imposed under this chapter for a period of five years from the date the incremental production begins.
- b. The incremental production from a tertiary recovery project which has been certified as a qualified project by the industrial commission is exempt from any taxes imposed under this chapter for a period of ten years from the date the incremental production begins. Incremental production from a tertiary recovery project from a horizontal well drilled and completed within the Bakken and Three Forks formations which has been certified as a qualified project by the industrial commission is not exempt from July 1, 2015, through June 30, 2017, and is thereafter exempt from any taxes imposed under this chapter for a period of five years from July 1, 2017, or the date the incremental production begins, whichever is later.
- c. The incremental production from a tertiary recovery project that injects more than fifty percent carbon dioxide produced from coal and has been certified as a qualified project by the industrial commission is exempt from any taxes imposed under this chapter for a period of twenty years from the date the incremental production begins or from the date the project is certified by the industrial commission as meeting the fifty percent or more carbon dioxide produced from coal injection requirement, whichever is later. To qualify for the exemption under this subsection, the project must be located outside the Bakken or Three Forks formations and must use carbon dioxide produced from coal. The incremental production that has been certified by the industrial commission under this section must be used to calculate the exemption under this subdivision.
- d. The incremental production from a tertiary recovery project that injects more than fifty percent carbon dioxide produced from coal and has been certified as a qualified project by the industrial commission is exempt from any taxes imposed under this chapter for a period of ten years from the date the incremental production begins or from the date the project is

certified by the industrial commission as meeting the fifty percent or more carbon dioxide produced from coal injection requirement, whichever is later. To qualify for the exemption under this subsection, the project must be located within the Bakken or Three Forks formations and must use carbon dioxide produced from coal. The incremental production that has been certified by the industrial commission under this section must be used to calculate the exemption under this subdivision.

e. For purposes of this subsection, incremental production is defined in the following manner:

- (1) For purposes of determining the exemption provided for in subdivision a and with respect to a unit where there has not been a secondary recovery project, incremental production means the difference between the total amount of oil produced from the unit during the secondary recovery project and the amount of primary production from the unit. For purposes of this paragraph, primary production means the amount of oil which would have been produced from the unit if the secondary recovery project had not been commenced. The industrial commission shall determine the amount of primary production in a manner which conforms to the practice and procedure used by the commission at the time the project is certified.
- (2) For purposes of determining the exemption provided for in subdivision a and with respect to a unit where a secondary recovery project was in existence prior to July 1, 1991, and where the industrial commission cannot establish an accurate production decline curve, incremental production means the difference between the total amount of oil produced from the unit during a new secondary recovery project and the amount of production which would be equivalent to the average monthly production from the unit during the most recent twelve months of normal production reduced by a production decline rate of ten percent for each year. The industrial commission shall determine the average monthly production from the unit during the most recent twelve months of normal production and must upon request or upon its own motion hold a hearing to make this determination. For purposes of this paragraph, when determining the most recent twelve months of normal production the industrial commission is not required to use twelve consecutive months. In addition, the production decline rate of ten percent must be applied from the last month in the twelve-month period of time.
- (3) For purposes of determining the exemption provided for in subdivision a and with respect to a unit where a secondary recovery project was in existence before July 1, 1991, and where the industrial commission can establish an accurate production decline curve, incremental production means the difference between the total amount of oil produced from the unit during the new secondary recovery project and the total amount of oil that would have been produced from the unit if the new secondary recovery project had not been commenced. For purposes of this paragraph, the total amount of oil that would have been produced from the unit if the new secondary recovery project had not been commenced includes both primary production and production that occurred as a result of the secondary recovery project that was in existence before July 1, 1991. The

industrial commission shall determine the amount of oil that would have been produced from the unit if the new secondary recovery project had not been commenced in a manner that conforms to the practice and procedure used by the commission at the time the new secondary recovery project is certified.

- (4) For purposes of determining the exemption provided for in subdivision b and with respect to a unit where there has not been a secondary recovery project, incremental production means the difference between the total amount of oil produced from the unit during the tertiary recovery project and the amount of primary production from the unit. For purposes of this paragraph, primary production means the amount of oil which would have been produced from the unit if the tertiary recovery project had not been commenced. The industrial commission shall determine the amount of primary production in a manner which conforms to the practice and procedure used by the commission at the time the project is certified.
- (5) For purposes of determining the exemption provided for in subdivision b and with respect to a unit where there is or has been a secondary recovery project, incremental production means the difference between the total amount of oil produced during the tertiary recovery project and the amount of production which would be equivalent to the average monthly production from the unit during the most recent twelve months of normal production reduced by a production decline rate of ten percent for each year. The industrial commission shall determine the average monthly production from the unit during the most recent twelve months of normal production and must upon request or upon its own motion hold a hearing to make this determination. For purposes of this paragraph, when determining the most recent twelve months of normal production the industrial commission is not required to use twelve consecutive months. In addition, the production decline rate of ten percent must be applied from the last month in the twelve-month period of time.
- (6) For purposes of determining the exemption provided for in subdivision b and with respect to a unit where there is or has been a secondary recovery project and where the industrial commission can establish an accurate production decline curve, incremental production means the difference between the total amount of oil produced from the unit during the tertiary recovery project and the total amount of oil that would have been produced from the unit if the tertiary recovery project had not been commenced. For purposes of this paragraph, the total amount of oil that would have been produced from the unit if the tertiary recovery project had not been commenced includes both primary production and production that occurred as a result of any secondary recovery project. The industrial commission shall determine the amount of oil that would have been produced from the unit if the tertiary recovery project had not been commenced in a manner that conforms to the practice and procedure used by the commission at the time the tertiary recovery project is certified.
- (7) For purposes of determining the exemption provided for in subdivisions c and d, and with respect to a unit where a tertiary recovery project was in existence, and where the industrial

commission cannot establish an accurate production decline curve. incremental production means the difference between the total amount of oil produced from the unit during a new tertiary recovery project and the amount of production which would be equivalent to the average monthly production from the unit during the most recent twelve months of normal production reduced by a production decline rate of ten percent for each year. The industrial commission shall determine the average monthly production from the unit during the most recent twelve months of normal production and shall upon request or upon its own motion hold a hearing to make this determination. For purposes of this paragraph, in determining the most recent twelve months of normal production the industrial commission is not required to use twelve consecutive months. In addition, the production decline rate of ten percent must be applied from the last month in the twelve-month period of time.

- (8) For purposes of determining the exemption provided for in subdivisions c and d, and with respect to a unit where a tertiary recovery project was in existence, and where the industrial commission can establish an accurate production decline curve, incremental production means the difference between the total amount of oil produced from the unit during the new tertiary recovery project and the total amount of oil that would have been produced from the unit if the new tertiary recovery project had not been commenced. For purposes of this paragraph, the total amount of oil that would have been produced from the unit if the new tertiary recovery project had not been commenced includes both primary production and production that occurred as a result of the tertiary recovery project that was previously in existence. The industrial commission shall determine the amount of oil that would have been produced from the unit if the new tertiary recovery project had not been commenced in a manner that conforms to the practice and procedure used by the commission at the time the new tertiary recovery project is certified.

d.f. The industrial commission shall adopt rules relating to this exemption ~~that~~which must include procedures for determining incremental production as defined in subdivision ee.

**SECTION 4. AMENDMENT.** Section 57-60-06 of the North Dakota Century Code is amended and reenacted as follows:

**57-60-06. Property classified and exempted from ad valorem taxes - In lieu of certain other taxes - Credit for certain other taxes.**

Each coal conversion facility and any carbon dioxide capture system located at the coal conversion facility, and any equipment directly used for secure geologic storage of carbon dioxide or enhanced recovery of oil or natural gas must be classified as personal property and is exempt from all ad valorem taxes except for taxes on the land on which the facility, capture system, or equipment is located. The exemption provided by this section may not be interpreted to apply to tangible personal property incorporated as a component part of a carbon dioxide pipeline but this restriction does not affect eligibility of such a pipeline for the exemption under section 57-06-17.1. The taxes imposed by this chapter are in lieu of ad valorem taxes on the property so classified as personal property.

**SECTION 5. EFFECTIVE DATE.** Section 3 of this Act becomes effective on July 1, 2019. Sections 1 and 4 of this Act are effective for taxable years beginning after December 31, 2018. Section 2 of this Act is effective for taxable events occurring after June 30, 2019.

### HOUSE BILL NO. 1040

(Legislative Management)  
(Taxation Committee)

AN ACT to create and enact a new section to chapter 57-38 and a new subdivision to subsection 7 of section 57-38-30.3 of the North Dakota Century Code, relating to the provision of an income tax credit for purchases of manufacturing machinery and equipment to automate manufacturing processes; to provide an effective date; and to provide an expiration date.

#### BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

**SECTION 1.** A new section to chapter 57-38 of the North Dakota Century Code is created and enacted as follows:

##### Twenty-first century manufacturing workforce incentive.

1. A taxpayer that is a primary sector business is allowed a nonrefundable credit against the tax imposed under section 57-38-30 or 57-38-30.3 for purchases of manufacturing machinery and equipment for the purpose of automating manufacturing processes in this state to improve job quality or increase productivity. The amount of the credit under this section is twenty percent of the cost of the manufacturing machinery and equipment purchased in the taxable year. Qualified expenditures under this section may not be used in the calculation of any other income tax deduction or credit allowed under this chapter.
2. For purposes of this section:
  - a. "Improved job quality" means a five percent increase in average wages or a five percent improvement in workplace safety as documented through participation in workforce safety and insurance safety incentive programs.
  - b. "Increased productivity" means no less than a five percent increase in output or a five percent increase in the number of units produced per automated line per time period.
  - c. "Manufacturing machinery and equipment for the purpose of automating manufacturing processes" means new or used automation and robotic equipment used to upgrade or advance a manufacturing process. The term does not include replacement automation and robotic equipment that does not upgrade or advance a manufacturing process.
  - d. "Primary sector business" has the meaning provided in section 1-01-49.
  - e. "Purchase" includes manufacturing machinery and equipment acquired under a capital lease only for the taxable year in which the lease is executed. A capital lease is a lease which meets generally accepted accounting principles. The qualifying costs of the equipment acquired

- under a capital lease is the fair market value of the equipment at the inception of the lease.
3. The taxpayer shall claim the total credit amount for the taxable year in which the manufacturing machinery and equipment are purchased. The credit under this section may not exceed the taxpayer's liability as determined under this chapter for any taxable year.
  4. If the amount of the credit determined under this section exceeds the liability for tax under this chapter, the excess may be carried forward to each of the next five succeeding taxable years.
  5. The aggregate amount of credits allowed each calendar year under this section may not exceed one million dollars. However, if the maximum amount of allowed credits are not claimed in any calendar year, any remaining unclaimed credits may be carried forward and made available in the next succeeding calendar year. If the aggregate amount of credits claimed under this section exceeds the amount available in a calendar year, the tax commissioner shall prorate the credits among the claimants.
  6. If a taxpayer entitled to the credit provided by this section is a member of a group of corporations filing a North Dakota consolidated tax return using the combined reporting method, the credit may be claimed against the aggregate North Dakota tax liability of all the corporations included in the North Dakota consolidated return.
  7. A passthrough entity entitled to the credit under this section must be considered to be the taxpayer for purposes of calculating the credit. The amount of the allowable credit must be determined at the passthrough entity level. The total credit determined at the entity level must be passed through to the partners, shareholders, or members in proportion to their respective interests in the passthrough entity. An individual taxpayer may take the credit passed through under this subsection against the individual's state income tax liability under section 57-38-30.3.

      - (2) The amount paid for each item of machinery or equipment if the amount paid for the machinery or equipment is being used as a basis for calculating the credit; and

(3) The date on which payment for the purchase was made.

9. Within one year after claiming a tax credit under this section, a taxpayer shall file with the tax commissioner a report that documents the improved job quality or increased productivity required under this section and any other information the tax commissioner determines is necessary for administration of this section. Failure to document the improved job quality or increased productivity requirements is cause to disallow the credit attributable to the noncompliance. The tax commissioner shall provide notice of the disallowed credit to the taxpayer. Within ninety days after the date of the notice, the taxpayer shall file an amended return for each taxable year in which the disallowed credit reduced the taxpayer's tax liability and pay the amount due. If an amended return is not filed timely, the tax commissioner shall disallow the credit and assess any tax due. An assessment of tax made under this subsection is final and irrevocably fixed.
10. Notwithstanding the time limitations contained in section 57-38-38, this section does not prohibit the tax commissioner from conducting an examination of the credit claimed and assessing additional tax due under section 57-38-38.

- c. "Base amount" means base amount as defined in section 41(c) of the Internal Revenue Code [26 U.S.C. 41(c)], except it does not include research conducted outside the state of North Dakota.
- b.d. "Director" means the director of the department of commerce division of economic development and finance.
- e.e. "Primary sector business" has the meaning provided in section 1-01-49.
- d.f. "Qualified research" means qualified research as defined in section 41(d) of the Internal Revenue Code [26 U.S.C. 41(d)], except it does not include research conducted outside the state of North Dakota.
- e.g. "Qualified research and development company" means a taxpayer that is a primary sector business with annual gross revenues of less than seven hundred fifty thousand dollars and which has not conducted new research and development in North Dakota.
- f.h. "Qualified research expenses" means qualified research expenses as defined in section 41(b) of the Internal Revenue Code [26 U.S.C. 41(b)], except it does not include expenses incurred for basic research conducted outside the state of North Dakota.
- 5-6. The credit allowed under this section for the taxable year may not exceed the liability for tax under this chapter.
- 6-7. In the case of a taxpayer that is a partner, shareholder, or a member in a passthrough entity, the credit allowed for the taxable year may not exceed an amount separately computed with respect to the taxpayer's interest in the trade, business, or entity equal to the amount of tax attributable to that portion of the taxpayer's taxable income which is allocable or apportionable to the taxpayer's interest in the trade, business, or entity.
- 7-8. Except as provided in subsection 1, if the amount of the credit determined under this section for any taxable year exceeds the limitation under subsection 56, the excess may be used as a research credit carryback to

each of the three preceding taxable years and a research credit carryover to each of the fifteen succeeding taxable years. The entire amount of the excess unused credit for the taxable year must be carried first to the earliest of the taxable years to which the credit may be carried and then to each successive year to which the credit may be carried and the amount of the unused credit which may be added under this subsection may not exceed the taxpayer's liability for tax less the research credit for the taxable year. A claim to carry back the credit under this section must be filed within three years of the due date or extended due date of the return for the taxable year in which the credit was earned.

8-9. A taxpayer that is certified as a qualified research and development company by the director may elect to sell, transfer, or assign all or part of the unused tax credit earned under this section. The director shall certify whether a taxpayer that has requested to become a qualified research and development company meets the requirements of subsection 45. The director shall establish the necessary forms and procedures for certifying qualifying research and development companies. The director shall issue a certification letter to the taxpayer and the tax commissioner. A tax credit can be sold, transferred, or assigned subject to the following:

- a. A taxpayer's total credit assignment under this section may not exceed one hundred thousand dollars over any combination of taxable years.
- b. If the taxpayer elects to assign or transfer an excess credit under this subsection, the tax credit transferor and the tax credit purchaser jointly shall file with the tax commissioner a copy of the purchase agreement and a statement containing the names, addresses, and taxpayer identification numbers of the parties to the transfer, the amount of the credit being transferred, the gross proceeds received by the transferor, and the taxable year or years for which the credit may be claimed. The taxpayer and the purchaser also shall file a document allowing the tax commissioner to disclose tax information to either party for the purpose of verifying the correctness of the transferred tax credit. The purchase agreement, supporting statement, and waiver must be filed within thirty days after the date the purchase agreement is fully executed.
- c. The purchaser of the tax credit shall claim the credit beginning with the taxable year in which the credit purchase agreement was fully executed by the parties. A purchaser of a tax credit under this section has only such rights to claim and use the credit under the terms that would have applied to the tax credit transferor, except the credit purchaser may not carry back the credit as otherwise provided in this section. This subsection does not limit the ability of the tax credit purchaser to reduce the tax liability of the purchaser, regardless of the actual tax liability of the tax credit transferor.
- d. The original purchaser of the tax credit may not sell, assign, or otherwise transfer the credit purchased under this section.
- e. If the amount of the credit available under this section is changed as a result of an amended return filed by the transferor, or as the result of an audit conducted by the internal revenue service or the tax commissioner, the transferor shall report to the purchaser the adjusted credit amount within thirty days of the amended return or within thirty days of the final determination made by the internal revenue service or the tax

commissioner. The tax credit purchaser shall file amended returns reporting the additional tax due or claiming a refund as provided in section 57-38-38 or 57-38-40, and the tax commissioner may audit these returns and assess or issue refunds, even though other time periods prescribed in these sections may have expired for the purchaser.

- f. Gross proceeds received by the tax credit transferor must be assigned to North Dakota. The amount assigned under this subsection cannot be reduced by the taxpayer's income apportioned to North Dakota or any North Dakota net operating loss of the taxpayer.
- g. The tax commissioner has four years after the date of the credit assignment to audit the returns of the credit transferor and the purchaser to verify the correctness of the amount of the transferred credit and if necessary assess the credit purchaser if additional tax is found due. This subdivision does not limit or restrict any other time period prescribed in this chapter for the assessment of tax.
- h. The tax commissioner may adopt rules to permit verification of the validity and timeliness of the transferred tax credit.

9-10. If a taxpayer acquires or disposes of the major portion of a trade or business or the major portion of a separate unit of a trade or business in a transaction with another taxpayer, the taxpayer's qualified research expenses and base period must be adjusted in the manner provided by section 41(f)(3) of the Internal Revenue Code [26 U.S.C. 41(f)(3)].

40-11. If a taxpayer entitled to the credit provided by this section is a member of a group of corporations filing a North Dakota consolidated tax return using the combined reporting method, the credit may be claimed against the aggregate North Dakota tax liability of all the corporations included in the North Dakota consolidated return. This section does not apply to tax credits received or purchased under subsection 89.

44-12. An individual, estate, or trust that purchases a credit under this section is entitled to claim the credit against state income tax liability under section 57-38-30.3.

42-13. A passthrough entity entitled to the credit under this section must be considered to be the taxpayer for purposes of calculating the credit. The amount of the allowable credit must be determined at the passthrough entity level. The total credit determined at the entity level must be passed through to the partners, shareholders, or members in proportion to their respective interests in the passthrough entity. An individual taxpayer may take the credit passed through under this subsection against the individual's state income tax liability under section 57-38-30.3.

43-14. For any taxable year in which the federal research tax credit provisions of section 41 of the Internal Revenue Code are ineffective, the provisions of section 41 of the Internal Revenue Code [26 U.S.C. 41] referenced in this section have the same meaning and application as provided in section 41 of the Internal Revenue Code, as amended through the most recent taxable year in which the provisions were in effect.

- 
15. If a taxpayer claims a credit under this section on the taxpayer's original return, the taxpayer's election to calculate the credit under subsection 1, 2, 3, or 4 is binding for the taxable year in which the election is made. A taxpayer claiming a credit for tax years beginning before January 1, 2019, may not file an amended return for the purpose of calculating the credit under subsection 4.

Where the tax commissioner audits the marketplace facilitator, the tax commissioner is prohibited from auditing the marketplace seller for the same retail sales unless the marketplace facilitator seeks relief under subsection 4.

(Representatives Boschee, Headland, Pollert)

#### BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

**SECTION 1.** Chapter 57-39.9 of the North Dakota Century Code is created and enacted as follows:

##### **57-39.9-01. Authority to enter state-tribal sales, use, and gross receipts tax agreements.**

The governor, in consultation with the tax commissioner, may enter separate agreements on behalf of the state with the governing body of the Three Affiliated Tribes of the Fort Berthold Reservation, Sisseton-Wahpeton Oyate of the Lake Traverse Reservation, Spirit Lake Tribe, Standing Rock Sioux Tribe, and Turtle Mountain Band of Chippewa Indians, which comply with this chapter relating to the collection, administration, enforcement, and allocation of state sales, use, and gross receipts taxes imposed and collected within the exterior boundaries of the Fort Berthold Reservation, that portion of the Lake Traverse Reservation located in this state, the Spirit Lake Reservation, that portion of the Standing Rock Reservation located in this state, or the Turtle Mountain Reservation. The tax commissioner shall conduct a review of any proposed agreement under this chapter to determine if its provisions can be administered and enforced. An agreement under this chapter must include the sales tax, use tax, farm machinery gross receipts tax, and the alcoholic beverages gross receipts tax.

##### **57-39.9-02. Agreement requirements.**

The governor may enter an agreement with a tribe or tribes if the agreement complies with this section.

1. The taxes subject to an agreement under this chapter are the state's sales, use, and gross receipts taxes under chapters 57-39.2, 57-39.5, 57-39.6, and 57-40.2, as may be amended subsequently by the legislative assembly, for taxable transactions and activities occurring exclusively within the exterior boundaries of the Fort Berthold Reservation, that portion of the Lake Traverse Reservation located in this state, the Spirit Lake Reservation, that portion of the Standing Rock Reservation located in this state, or the Turtle Mountain Reservation.

2. Except as otherwise provided in this chapter, the state's sales, gross receipts, and use taxes under chapters 57-39.2, 57-39.5, 57-39.6, and 57-40.2, must apply to all transactions and activities by all persons and entities occurring within the boundaries of the reservation.
3. A tribe or tribes shall impose taxes equal to the state's taxes which conform in all respects with regard to the taxable or exempt status of transactions and activities under chapters 57-39.2, 57-39.5, 57-39.6, and 57-40.2, but must be applied only to those taxable transactions and activities occurring within the exterior boundaries of a reservation which are exempt from state taxes because the transactions or activities occur within the tribe's or tribes' jurisdiction.
4. Chapters 57-39.2, 57-39.5, 57-39.6, and 57-40.2, and title 81 of the North Dakota Administrative Code govern the administration of the taxes subject to an agreement under this chapter.
5. Except as provided in subsection 6, tribally owned and tribal member-owned business entities operating within the boundaries of a reservation are subject to the state's tax or taxes contained in the agreement.
6. Any tax subject to an agreement may not be imposed on a tribally owned entity that solely performs a governmental function or provides essential government services that directly impact the health, welfare, or safety of the tribe and its members, if the tribal entity is identified as such in the agreement. Any other tribally owned business enterprise whose moneys are used, in whole or in part, to fund governmental functions or services, is not subject to the exemption provided under this subsection.
7. The governor and the tribe or tribes must agree the tribe or tribes may not impose any direct or indirect tribal tax or fee on retailers, transactions, or activities subject to the tax agreement. This subsection does not apply to tribal employment rights office fees.

The tax commissioner retains authority to collect, administer, and enforce the taxes as provided in chapters 57-39.2, 57-39.5, 57-39.6, and 57-40.2, including the authority to audit, assess, refund, credit, or determine the exempt or nonexempt status of any transaction, for taxes collected within the reservation under an agreement.
9. Any controversy or claim between the tribe or tribes and the state, arising out of or relating to an agreement under this chapter, is subject to binding arbitration in accordance with the processes and procedures provided in the agreement between the tribe or tribes and the state. 10. The amount of state sales, use, and farm machinery gross receipts tax revenue allocated to a tribe or tribes under an agreement must be calculated as follows:
  - a. Fifty percent of the taxes collected from retailers within the exterior boundaries of the reservation. The state shall receive the remainder.

- b. An amount of estimated use taxes paid or collected from enrolled tribal members residing within the exterior boundaries of the reservation determined by multiplying the enrolled membership of the tribe by the estimated per capita use tax. The estimated per capita use tax is ten percent of the per capita sales tax burden. The per capita sales tax burden is determined by multiplying the state tax rate factor by one third of the sales tax burden reported by the most recent "Tax Rates and Tax Burdens in the District of Columbia - A Nationwide Comparison", published by the government of the District of Columbia office of revenue analysis, for a family of three living in the largest city in North Dakota, and earning fifty thousand dollars per year. The state tax rate factor is a fraction representing the state general sales tax rate as a share of the combined state and local sales tax rate for the North Dakota city referenced in this subdivision.
  - c. Except as provided in subdivision d, the enrolled membership of the tribe must be certified to the state by September thirtieth of each year during the term of the agreement. The enrolled membership of the tribe must consist of the number of enrolled members of the tribe physically residing within the exterior boundaries of the portion of the tribe's reservation located in this state. The enrolled membership of the tribe must be based on the tribe's enrollment office records, the bureau of Indian affairs enrollment records, or other records maintained by the tribe. 11. The amount of alcoholic beverages gross receipts tax allocated to the tribe under an agreement must be equal to an amount determined by multiplying the enrolled membership of the tribe by the state alcohol revenue per capita.
- a. The state alcohol revenue per capita is the monthly collections of the state's alcoholic beverages gross receipts tax designated for deposit in the state general fund divided by the state's total population as determined in the most recent actual or estimated census data published by the United States census bureau.
  - b. The enrolled membership of the tribe must be certified to the state by September thirtieth of each year during the term of the agreement.     - (3) Both parties shall defend the agreement from attack by third parties.

#### BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

**SECTION 1. AMENDMENT.** Subsection 5 of section 57-40.3-01 of the North Dakota Century Code is amended and reenacted as follows:

5. "Purchase price" means the total amount paid for the motor vehicle whether received in money or otherwise. The purchase price excludes the amount of a manufacturer's incentive or discount that reduces the amount paid by the purchaser to the seller at the time of purchase. If a motor vehicle or other tangible personal property that will be subject to a sales or use tax imposed by chapter 57-39.2 or 57-40.2 when sold or used is taken in trade as a credit or as part payment on a motor vehicle taxable under this chapter, the credit or trade-in value allowed by the person selling the motor vehicle shall be deducted from the total selling price to establish the purchase price of the vehicle being sold and the trade-in allowance allowed by the seller on a motor vehicle accepted as a trade-in shall constitute the purchase price of a motor vehicle accepted as a trade-in. If a motor vehicle is purchased by an owner who has had a motor vehicle stolen or totally destroyed, a credit or trade-in credit shall be allowed against one or more replacement motor vehicle purchases in a cumulative amount not to exceed the total amount the purchaser has been compensated by an insurance company for the loss plus the amount of the purchaser's deductible at the time of the loss. For a leased vehicle that is stolen or totally destroyed, the credit may not exceed the total amount of motor vehicle excise tax paid. The purchaser must provide the director of the department of transportation with a notarized statement from the insurance company within three years from the date of issuance verifying the fact that the original vehicle was a total loss and stating the amount compensated by the insurance company for the loss and the amount of the purchaser's deductible at the time of the loss. The statement from the insurance company must accompany the purchaser's application for a certificate of title for the replacement vehicle. If the full amount of the credit under this subsection has not been used, the director of the department of transportation shall record on the face of the notarized statement the necessary information to identify the partial use of the credit and shall retain a copy and return the original to the purchaser. In instances in which a licensed motor vehicle dealer places into the dealer's service a new vehicle for the purpose of renting, leasing, or dealership utility service, the reasonable value of the vehicle replaced shall be included as trade-in value provided the vehicle replaced has been subject to motor vehicle excise tax under section 57-40.3-02 and if the new vehicle is properly registered and licensed. "Purchase price" when the motor vehicle is acquired by gift or by any other transfer for a nominal or no monetary consideration also includes the average

value of similar motor vehicles, established by standards and guides as determined by the director of the department of transportation. "Purchase price" when a motor vehicle is manufactured by a person who registers it under the laws of this state means the manufactured cost of such motor vehicle and manufactured cost means the amount expended for materials, labor, and other properly allocable costs of manufacture except that, in the absence of actual expenditures for the manufacture of a part or all of the motor vehicle, manufactured cost means the reasonable value of the completed motor vehicle.

1. By November thirtieth of each even-numbered year, starting in 2022, a city that receives a grant from the fund shall provide a report to the state treasurer on the use of the funding. The state treasurer shall notify cities of the reporting requirement by November first of each even-numbered year, starting in 2022. Upon request, the state treasurer may provide an extension of up to fifteen days for a city to submit the report. The state treasurer shall determine the format of the report. 1. "Board" means the sovereign lands advisory board.
2. "Board of university and school lands" means that entity created by section 15-01-01.
3. "Navigable waters" means waters that were in fact navigable at the time of statehood, and that are used, were used, or were susceptible of being used in their ordinary condition as highways for commerce over which trade and travel were or may have been conducted in the customary modes of trade on water.
4. "Sovereign lands" means those areas, including beds and islands, lying within the ordinary high water mark of navigable lakes and streams. Lands established to be riparian accretion or reliction lands pursuant to section 47-06-05 are considered to be above the ordinary high water mark and are not sovereign lands.
- 4-5. "State engineer" means the person appointed by the state water commission pursuant to section 61-03-01.

**SECTION 2.** A new section to chapter 61-33 of the North Dakota Century Code is created and enacted as follows:

##### **Navigability determinations.**

1. Before making a determination that a body of water or portion of a body of water is navigable, the state engineer shall:

---

<sup>251</sup> Section 61-33-01 was also amended by section 1 of Senate Bill No. 2211, chapter 514.

- a. Develop and deliver to the state water commission a preliminary finding regarding the navigability of the body of water or portion of a body of water and the legal rationale for the preliminary finding; and
  - b. Consult with the state water commission in an open meeting and demonstrate the public need and purpose for the determination to be made.
2. After completing the requirements of subsection 1, the state engineer may proceed with making a final determination of navigability by:
- a. Providing reasonable public notice of the preliminary finding, legal rationale for the preliminary finding, and opportunity for the public to provide comments for no less than sixty days. The notice must:
    - (1) Include the address and electronic mail address to which public comments may be sent and the deadline by which public comments must be received;
    - (2) Clearly identify the specific body of water or portion of a body of water for which the finding of navigability is sought;
    - (3) State the state engineer will hold a public hearing regarding the preliminary finding before a final determination of navigability is made, and provide the date, time, and location of the public hearing;
    - (4) Be provided to the governing body of each soil conservation district, water resource district, and county adjacent to the body of water or portion of a body of water for which the preliminary finding was made;
    - (5) Be published in the official county newspaper for each county adjacent to the body of water or portion of a body of water for which the preliminary finding was made; and
    - (6) Briefly state the purpose of the hearing and describe the impact or effect a determination of navigability will have on the property rights of persons who own property adjacent to the body of water or portion of a body of water for which the determination of navigability may be made; and
  - b. Holding a public hearing regarding the preliminary finding.
3. After completing the requirements of subsection 2 and making a determination of navigability, the state engineer shall prepare a report regarding the determination, including summaries of the information provided to the state water commission, the public hearings held, and the public comments received. The state engineer shall provide the report to the state water commission, send the report by certified mail to any person that appeared at the public hearing required under subsection 2 or provided written comments by the deadline, make the report available to the public, including on the website for the office of the secretary of state, and provide public notice of the report's availability. The report is final on the date it is provided to the state water commission.

- e. ~~Subsection 3 of section~~Section 61-33-01 and section 47-06-05, which provide all accretions are presumed to be above the ordinary high water mark and are not sovereign lands. Accreted lands may be determined to be within the ordinary high water mark of the historical Missouri riverbed channel based on clear and convincing evidence. Areas of low-lying and flat lands where the ordinary high water mark may be impracticable to determine due to inconclusive aerial photography or inconclusive vegetation analysis must be presumed to be above the ordinary high water mark and owned by the riparian landowner.

**SECTION 4. REVIEWS OF NAVIGABILITY DETERMINATIONS DURING 2019-20 INTERIM.** During the 2019-20 interim, the state engineer may review any determinations of navigability of a body of water or portion of a body of water made solely by the state engineer before the effective date of this Act. However, if a court of competent jurisdiction has determined a body of water or portion of a body of water is navigable or non-navigable, the state engineer does not need to review any state agency determination regarding the body of water or portion of a body of water. If the state engineer elects not to begin review of any determination of navigability of a body of water or portion of a body of water made solely by the state engineer before the effective date of this Act during the 2019-20 interim, the determination must be vacated without prejudice to a subsequent determination of navigability under section 2 of this Act. ## CHAPTER 514

### SENATE BILL NO. 2211

(Senators Bekkedahl, Dwyer, Unruh)  
(Representatives Keiser, Porter)

AN ACT to create and enact section 61-33-01.1 and a new subsection to section 61-33.1-03 of the North Dakota Century Code, relating to the determination of the ordinary high water mark; to amend and reenact sections 61-33-01 and 61-33.1-02, subdivision e of subsection 3 of section 61-33.1-03, sections 61-33.1-04, 61-33.1-05, and 61-33.1-07 of the North Dakota Century Code, relating to sovereign lands, determining the ordinary high water mark, and the ownership of mineral rights of land subject to inundation by Pick-Sloan Missouri basin project dams; to provide for application; and to declare an emergency.

#### BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

<sup>253</sup> **SECTION 1. AMENDMENT.** Section 61-33-01 of the North Dakota Century Code is amended and reenacted as follows:

##### **61-33-01. Definitions.**

As used in this chapter, unless the context otherwise requires:

1. "Board" means the sovereign lands advisory board.
2. "Board of university and school lands" means that entity created by section 15-01-01.
3. "Ordinary high water mark" means that line below which the presence and action of the water upon the land is continuous enough so as to prevent the growth of terrestrial vegetation, destroy its value for agricultural purposes by preventing the growth of what may be termed an ordinary agricultural crop, including hay, or restrict its growth to predominantly aquatic species.
4. "Sovereign lands" means those areas, including beds and islands, lying within the ordinary high water mark of navigable lakes and streams. Lands established to be riparian accretion or reliction lands pursuant to section 47-06-05 are considered to be above the ordinary high water mark and are not sovereign lands.
- 4.5. "State engineer" means the person appointed by the state water commission pursuant to section 61-03-01.

**SECTION 2.** Section 61-33-01.1 of the North Dakota Century Code is created and enacted as follows:

##### **61-33-01.1. Ordinary high water mark determination - Factors to be considered.**

---

<sup>253</sup> Section 61-33-01 was also amended by section 1 of House Bill No. 1202, chapter 513.

The state engineer shall maintain ordinary high water mark delineation guidelines consistent with this section.

1. When determining the ordinary high water mark for delineating the boundary of sovereign lands, vegetation and soils analysis must be considered the primary physical indicators. When considering vegetation, the ordinary high water mark is the line below which the presence and action of the water is frequent enough to prevent the growth of terrestrial vegetation or restrict vegetation growth to predominately aquatic species. Generally, land, including hay land, where the high and continuous presence of water has destroyed the value of the land for agricultural purposes must be deemed within the ordinary high water mark.
2. When feasible, direct hydrological and hydraulic measurements from stream gauge data, elevation data, historic records of water flow, high resolution light detection and ranging systems, prior elevation and survey maps, and statistical hydrological evidence must be considered when determining the ordinary high water mark. The state engineer shall establish appropriate guidelines, technical standards, and other criteria, including use of light detection and ranging systems or other future technological advancements, as necessary, for conducting hydrologic and hydraulic modeling required by this section.
3. Secondary physical indicators, including litter, debris, or staining, may be considered to supplement the analysis of the ordinary high water mark investigation but may not supersede primary physical indicators unless primary physical indicators are deemed inadequate or inconclusive. Physical indicators directly affected by influent non-navigable tributaries, adjoining water bodies, or wetlands may not be used to delineate the sovereign land boundary of a navigable body of water.

**SECTION 3. AMENDMENT.** Section 61-33.1-02 of the North Dakota Century Code is amended and reenacted as follows:

**61-33.1-02. Mineral ownership of land ~~inundated~~subject to inundation by Pick-Sloan Missouri basin project dams. (Retroactive application - [See note](#))**

The state sovereign land mineral ownership of the riverbed segments ~~inundated~~subject to inundation by Pick-Sloan Missouri basin project dams extends only to the historical Missouri riverbed channel up to the ordinary high water mark. The state holds no claim or title to any minerals above the ordinary high water mark of the historical Missouri riverbed channel ~~inundated~~subject to inundation by Pick-Sloan Missouri basin project dams, except for original grant lands acquired by the state under federal law and any minerals acquired by the state through purchase, foreclosure, or other written conveyance. Mineral ownership of the riverbed segments ~~inundated~~subject to inundation by Pick-Sloan Missouri basin project dams which are located within the exterior boundaries of the Fort Berthold reservation and Standing Rock Indian reservation is controlled by other law and is excepted from this section.

<sup>254</sup> **SECTION 4. AMENDMENT.** Subdivision e of subsection 3 of section 61-33.1-03 of the North Dakota Century Code is amended and reenacted as follows:

---

<sup>254</sup> Section 61-33.1-03 was also amended by section 3 of House Bill No. 1202, chapter 513.

- e. Subsection 34 of section 61-33-01 and section 47-06-05, which provide all accretions are presumed to be above the ordinary high water mark and are not sovereign lands. Accreted lands may be determined to be within the ordinary high water mark of the historical Missouri riverbed channel based on clear and convincing evidence. Areas of low-lying and flat lands where the ordinary high water mark may be impracticable to determine due to inconclusive aerial photography or inconclusive vegetation analysis must be presumed to be above the ordinary high water mark and owned by the riparian landowner.

**SECTION 5.** A new subsection to section 61-33.1-03 of the North Dakota Century Code is created and enacted as follows:

Upon adoption of the final review findings by the industrial commission, the board of university and school lands may contract with a qualified engineering and surveying firm to analyze the final review findings and determine the acreage on a quarter-quarter basis or government lot basis above and below the ordinary high water mark as delineated by the final review findings of the industrial commission. The acreage determination is final upon approval by the board.

**SECTION 6. AMENDMENT.** Section 61-33.1-04 of the North Dakota Century Code is amended and reenacted as follows:

**61-33.1-04. Implementation. (Retroactive application - [See note](#))**

1. Within six months after the adoption of the final review findings acreage determination by the industrial commission board of university and school lands:
  - a. Any royalty proceeds held by operators attributable to oil and gas mineral tracts lying entirely above the ordinary high water mark of the historical Missouri riverbed channel on both the corps survey and the state phase two survey must be released to the owners of the tracts, absent a showing of other defects affecting mineral title; and
  - b. Any royalty proceeds held by the board of university and school lands attributable to oil and gas mineral tracts lying entirely above the ordinary high water mark of the historical Missouri riverbed channel on both the corps survey and the state phase two survey must be released to the relevant operators to distribute to the owners of the tracts, absent a showing of other defects affecting mineral title.
2. Upon adoption of the final review findings acreage determination by the industrial commission board of university and school lands:
  - a. The board of university and school lands shall begin to implement any acreage adjustments, lease bonus and royalty refunds, and payment demands as may be necessary relating to state-issued oil and gas leases. The board shall complete the adjustments, refunds, and payment demands within two years after the date of adoption of the final review findings approving the acreage determination.
  - b. Operators of oil and gas wells affected by the final review findings final acreage determination immediately shall begin to implement any acreage and revenue adjustments relating to state-owned and privately owned oil

and gas interests. The operators shall complete the adjustments within two years after the date of adoption of the review findings the board approves the acreage determination. Any applicable penalties, liability, or interest for late payment of royalties or revenues from an affected oil or gas well may not begin to accrue until the end of the two-year deadline. The filing of an action under section 61-33.1-05 tolls the deadline for any oil and gas well directly affected by the action challenging the review finding or final acreage determination.

**SECTION 7. AMENDMENT.** Section 61-33.1-05 of the North Dakota Century Code is amended and reenacted as follows:

**61-33.1-05. Actions challenging review findings or final acreage determinations. (Retroactive application - See note)**

1. An interested party seeking to bring an action challenging the review findings or recommendations or the industrial commission actions under this chapter shall commence an action in district court within two years of the date of adoption of the final review findings by the industrial commission. The plaintiff bringing an action under this section may challenge only the final review finding for the section or sections of land in which the plaintiff asserts an interest. The state and all owners of record of fee or leasehold estates or interests affected by the finding, recommendation, or industrial commission action challenged in the action under this section must be joined as parties to the action. A plaintiff or defendant claiming a boundary of the ordinary high water mark of the historical Missouri riverbed channel which varies from the boundary determined under this chapter bears the burden of establishing the variance by clear and convincing evidence based on evidence of the type required to be considered by the engineering and surveying firm under subsection 3 of section 61-33.1-03.
2. An interested party seeking to bring an action challenging the final acreage determination under this chapter shall commence an action in district court within two years of the date the acreage determinations were approved by the board of university and school lands. The plaintiff bringing an action under this section may challenge only the acreage determination for the section or sections of land in which the plaintiff asserts an interest. The state and all owners of record of fee or leasehold estates or interests affected by the final acreage determination challenged in the action under this section must be joined as parties to the action. A plaintiff or defendant claiming a determination of the acreage above or below the historical Missouri riverbed channel which varies from the final acreage determination under this chapter bears the burden of establishing the variance by clear and convincing evidence based on evidence of the type required to be considered by the engineering and surveying firm contracted by the board of university and school lands under subsection 2 of section 61-33.1-04.
3. Notwithstanding any other provision of law, an action brought in district court under this section is the sole remedy for challenging the final review, recommendations, and determination of the ordinary high water mark, and final acreage determination under this chapter, and preempts any right to rehearing, reconsideration, administrative appeal, or other form of civil action provided under law.

**SECTION 8. AMENDMENT.** Section 61-33.1-07 of the North Dakota Century Code is amended and reenacted as follows:

**61-33.1-07. State engineer regulatory jurisdiction. (Retroactive application - [See note](#))**

This chapter does not affect the authority of the state engineer to regulate the historical Missouri riverbed channel, minerals other than oil and gas, or the waters of the state, provided the regulation does not affect ownership of oil and gas minerals in and under the riverbed or lands above the ordinary high water mark of the historical Missouri riverbed channel ~~inundated~~subject to inundation by Pick-Sloan Missouri basin project dams.

**SECTION 9. APPLICATION.** Sections 1 and 2 of this Act do not apply to the ordinary high water mark study required for the historical Missouri riverbed channel in chapter 61-33.1. This Act does not affect or limit the authority of the state engineer to regulate waters of this state.

After the initial medical examination, an employer shall require at least a periodic medical examination as follows: for one to ten years of service, every five years; for eleven to twenty years of service, every three years; and for twenty-one or more years of service, every year. The periodic medical examination, at a minimum, must consist of a general medical history of the individual and the individual's family; an occupational history including contact with and an exposure to hazardous materials, toxic products, contagious and infectious diseases, and to physical hazards; a physical examination including measurement of height, weight, and blood pressure; and laboratory and diagnostic procedures including a nonfasting total blood cholesterol test and ~~papanicolaou smear for women~~. If the medical examination reveals that an employee falls into a recognized risk group, the employee must be referred to a qualified health professional for future medical examination. If a medical examination produces a false positive result for a condition covered under this section, the organization shall consider the condition to be a compensable injury. In the case of a false positive result, neither the coverage of the condition nor the period of disability may exceed fifty-six days. This section does not affect an employee's responsibility to document that the employee has not used tobacco as required under section 65-01-15. <sup>273</sup> **SECTION 4. AMENDMENT.** Section 65-02-21.1 of the North Dakota Century Code is amended and reenacted as follows:

Health care providers shall submit medical bills and supporting documentation to the organization by this electronic method no later than July 1, 2021.

**SECTION 6. AMENDMENT.** Section 65-05-09 of the North Dakota Century Code is amended and reenacted as follows:

**65-05-09. Temporary total or permanent total disability - Weekly and aggregate benefit.**

If an injury causes temporary total or permanent total disability, the fund shall pay to the disabledinjured employee during that disability a weekly benefit equal to sixty-six and two-thirds percent of the gross weekly wage of the injured employee, subject to a minimum of sixty percent and a maximum of one hundred twenty-five percent of the average weekly wage in the state. If an injured employee is disabled due to an injury, that injured employee's benefits will be based upon the injured employee's wage and the organization benefit rates in effect on the date of first disability.

1. ~~Unless otherwise provided in this subsection, if an injured employee suffers disability but is able to return to employment for a period of three consecutive~~

<sup>273</sup> Section 65-02-21.1 was also amended by section 6 of Senate Bill No. 2184, chapter 523.

calendar months or more, that injured employee's benefits will be based upon the wage in effect received at the time of the recurrence of the disability ~~or upon the wage that employee received prior to the injury, whichever is higher.~~ If the wage received at the time of the recurrence of the disability is lower than the wage received before the injury and the lower wage is due to the physical limitations of the compensable injury, the injured employee's benefits must be based upon the wage the injured employee received before the injury. It is the burden of the injured employee to show the inability to earn as much as the injured employee earned before the injury is due to the physical limitation related to the injury. The organization benefit rates are those in effect at the time of that recurrence.

2. The disability benefit or the combined disability benefit and dependency award may not exceed the weekly wage of the injured employee after deductions for social security and federal income tax.
3. When an injured employee is permanently and totally disabled, must be maintained in a nursing home or similar facility, and has no dependent parent, spouse, or children, as much of that injured employee's weekly benefit as is necessary may be used by the organization to help defray the cost of the nursing home care.

**SECTION 7. AMENDMENT.** Section 65-05-10 of the North Dakota Century Code is amended and reenacted as follows:

**65-05-10. Partial disability - Weekly benefit.**

If the injury causes temporary partial disability resulting in decrease of earning capacity, the disability benefit is sixty-six and two-thirds percent of the difference between the injured employee's average weekly wages before the injury and the injured employee's wage-earning capacity after the injury in the same or another employment. Partial disability benefits are subject to a maximum of one hundred twenty-five percent of the average weekly wage in the state. The combined partial disability benefits, dependency allowance, and postinjury wage-earning capacity may not exceed ninety percent of the preinjury weekly wage of the injured employee after deductions for social security and federal income tax.

1. The benefits provided by this section are available to any otherwise eligible worker, providing the loss of earning capacity occurs after July 1, 1989. Partial loss of earning capacity occurring prior to July 1, 1989, must be paid at a rate to be fixed by the organization.
2. Benefits must be paid during the continuance of partial disability, not to exceed a period of five years. The organization may waive the five-year limit on the duration of partial disability benefits in cases of catastrophic injury as defined in section 65-05.1-06.1 or when the injured worker is working and has long-term restrictions verified by clear and convincing objective medical and vocational evidence that limits the injured worker to working less than twenty-eight hours per week because of the compensable work injury. This subsection is effective for partial loss of earnings capacity occurring after June 30, 1991.
3. The employee's earnings capacity may be established by expert vocational evidence of a capacity to earn in the statewide job pool where the worker lives. Actual postinjury earnings are presumptive evidence of earnings capacity if the job employs the employee to full work capacity in terms of

hours worked per week, and if the job is in a field related to the employee's transferable skills. The presumption may be rebutted by competent evidence from a vocational expert that the employee's actual earnings do not fairly reflect the employee's earnings capacity in the statewide job pool, considering the employee's capabilities, education, experience, and skills.

274 **SECTION 8. AMENDMENT.** Subsection 4 of section 65-05-28 of the North Dakota Century Code is amended and reenacted as follows:

4. If an injured employee, or the injured employee's representative, refuses to submit to, or in any way intentionally obstructs, any examination or treatment, or refuses to reasonably participate in medical or other treatments or examinations, ~~the injured employee's right to claim compensation under this title is suspended until the refusal or obstruction ceases. No compensation is payable while the refusal or obstruction continues, and the injured employee is medically noncompliant. If the organization determines an injured employee is medically noncompliant without good cause, the organization shall discontinue disability and vocational rehabilitation benefits. At any time the injured employee is medically noncompliant, efforts by the injured employee to come into compliance are not considered successful compliance until the injured employee has been compliant for a period of at least sixty days. If the period of medical noncompliance continues for sixty days following the date disability and vocational rehabilitation benefits are discontinued, or a second instance of medical noncompliance occurs without good cause, the organization may not pay any further disability and vocational rehabilitation benefits, regardless of whether the injured employee sustained a significant change in medical condition due to the work injury. The period of the refusal or obstruction noncompliance~~ must be deducted from the period for which compensation is payable to the injured employee.

**SECTION 9. REPEAL.** Section 65-02-07 of the North Dakota Century Code is repealed.

**SECTION 10. APPLICATION.** Sections 1, 2, 4, 6, 7, and 8 of this Act apply to all claims regardless of date of injury.

### HOUSE BILL NO. 1188

(Representatives Keiser, Jones)

AN ACT to amend and reenact section 65-05-09.3 of the North Dakota Century Code, relating to the termination of benefits upon retirement; and to provide for application.

#### BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

**SECTION 1. AMENDMENT.** Section 65-05-09.3 of the North Dakota Century Code is amended and reenacted as follows:

#### **65-05-09.3. Retirement presumption - Termination of benefits upon retirement.**

1. An employee who has retired or voluntarily withdrawn from the labor force and who, at that time, was not eligible to receive temporary total disability, temporary partial disability, or permanent total disability benefits or to receive a rehabilitation allowance from the organization is presumed retired from the labor market. The presumption may be rebutted by a preponderance of the evidence; however, the subjective statement of an employee that the employee is not retired is not sufficient in itself to rebut objective evidence of retirement.
2. An injured employee who begins receiving social security retirement benefits or other retirement benefits in lieu of social security retirement benefits or who attains retirement age for social security retirement benefits, unless the employee proves the employee is not eligible to receive social security retirement benefits or other benefits in lieu of social security retirement benefits, is considered retired. The organization may not pay any disability benefits, rehabilitation benefits, or supplementary benefits to an employee who is considered retired; however, the employee remains eligible for medical benefits, permanent partial impairment benefits, and the additional benefit payable under section 65-05-09.4.
3. The organization retains liability for disability benefits, rehabilitation benefits, permanent partial impairment benefits, and medical benefits for an injured employee who is receiving social security retirement benefits or other retirement benefits in lieu of social security retirement benefits or who attains retirement age for social security retirement benefits, unless the employee is not eligible to receive social security retirement benefits or other benefits in lieu of social security retirement benefits, and who is gainfully employed and who suffers an injury arising out of and in the course of that employment. The organization may not pay disability or rehabilitation benefits under this subsection for more than three years, subject to section 65-05-09.2, for injuries occurring after August 1, 1997.
4. If an employee is injured within the two years preceding the employee's presumed retirement date, the organization shall pay disability benefits, rehabilitation benefits, or a combination of both benefits for no more than two

years. If the duration of disability benefits, rehabilitation benefits, or a combination of both benefits extends beyond the presumed retirement date, the organization shall convert the benefit to an additional benefit payable at the date the disability ends or when two years of benefits have been paid, whichever occurs first.

5. This section applies to an individual who begins receiving social security retirement benefits or other retirement benefits in lieu of social security retirement benefits or who attains retirement age for social security retirement benefits unless the employee proves the employee is not eligible to receive social security retirement benefits or other benefits in lieu of social security retirement benefits, after July 31, 1995.
6. An injured employee who has received disability benefits that have been discontinued before retirement in accordance with this section is eligible to receive disability benefits after retirement if the injured employee meets the reapplication criteria under subsection 1 of section 65-05-08. Disability and rehabilitation benefits received under this subsection may not exceed three years.

**SECTION 2. APPLICATION.** This Act applies to reapplications filed after July 31, 2019.

### SENATE BILL NO. 2244

(Senators Dwyer, Bakke, G. Lee, Sorvaag)  
(Representatives Nathe, Zubke)

AN ACT to amend and reenact section 39-06-49, subsection 1 of section 39-06.2-07, subsection 2 of section 39-06.2-08, subdivision c of subsection 3 of section 39-06.2-09, sections 39-06.2-09.1, 39-06.2-13.1, and 39-06.2-19, subsections 5 and 6 of section 39-08-13, and subsection 3 of section 39-16-03 of the North Dakota Century Code, relating to driver's license fees.

VETO

March 21, 2019

The Honorable Brent Sanford  
President of the Senate  
North Dakota Senate  
State Capitol  
Bismarck, ND

Re: Senate Bill 2244

Dear President Sanford:

Pursuant to Article V, Section 9 of the North Dakota Constitution, I have vetoed Senate Bill 2244 and return it to the Senate unsigned.

Senate Bill 2244 doubles the fees for noncommercial and commercial driver's licenses, impacting more than 163,000 North Dakotans every biennium. The additional \$5.5 million collected by this bill comes directly out of the pockets of state citizens and imposes an unnecessary additional burden on our residents.

This fee increase was not requested in the executive budget. Throughout our strategic review and budgeting process, agencies focused on innovation and reinvention to find ways to fund priorities without exceeding ongoing revenues. Within this framework, the executive budget recommended \$22.5 million to transition our driver's license system from an outdated mainframe. With technology advancements and new methods of service delivery, the transactional cost of providing driver's licenses can be reduced.

Before any fee increase is adopted, especially a fee that doubles the price of a monopolized service essential to nearly all North Dakotans, further study is

warranted. Senate Bill 2130 was signed into law on March 8, 2019, requiring a comprehensive study of state agency fees, including department of transportation fees. Senate Bill 2130 will enable significant information gathering on these fees, to identify a more holistic approach.

Until then, I remain unconvinced that this 100% fee increase is necessary.

Sincerely,

Doug Burgum  
Governor

VETO

May 2, 2019

The Honorable Brent Sanford  
President of the Senate  
North Dakota Senate  
State Capitol  
Bismarck, ND 58505

Re: Senate Bill 2015

Dear President Sanford:

Pursuant to Article V, Section 9 of the North Dakota Constitution, I have vetoed Section 19, Recognition of legacy fund earnings for budget purposes, of Senate Bill 2015. Section 19 circumvents constitutional requirements for Legacy Fund earnings and ignores all generally accepted accounting principles by failing to recognize the earnings in the biennium in which they are received. The people of North Dakota spoke clearly when they approved the Legacy Fund measure in 2010, instructing, as outlined in Article X, Section 26 of the North Dakota Constitution that the "state treasurer shall transfer earnings of the North Dakota legacy fund accruing . . . to the state general fund at the end of each biennium."

Section 19 manipulates the recognition of state revenues which artificially reduces the balance of the general fund by hundreds of millions of dollars. It misleads legislators tasked with voting on appropriation bills and taxpayers who deserve to know the true financial status of the state.

For the reasons stated above, Section 19 of Senate Bill 2015 is vetoed.

Sincerely,

Doug Burgum  
Governor

VETO

April 9, 2018

The Honorable Brent Sanford  
President of the Senate  
North Dakota Senate  
State Capitol  
Bismarck, ND

Dear President Sanford:

Pursuant to Article V, Section 9 of the North Dakota Constitution, I have vetoed Senate Bill 2055 and return it to the Senate unsigned.

Last year, the North Dakota Supreme Court reaffirmed the separation of powers and resolved a dispute between the legislative and executive branches in North Dakota Legislative Assembly v. Burgum, 916 N.W.2d 83. The Court held the legislative assembly "may not delegate to another body the power to make law - to legislate." The Constitution grants the legislative body the authority to create law and appropriate funds. These duties cannot be delegated to a subset of legislators, such as the budget section, which consists of 42 of the legislature's 141 members.

---

Senate Bill 2055 is fundamentally flawed because it disregards the Supreme Court's ruling and enshrines the budget section's unconstitutional practice of acting as a mini-legislature.

The purpose, powers and duties of the budget section, as proposed in Section 15 of Senate Bill 2055, ignore the Supreme Court's guidance and further undermine the constitutional duty of the executive branch to carry out laws passed by the full legislature.

Instead of addressing the issue raised in *Assembly v. Burgum* and properly balancing authority between the branches of government, Senate Bill 2055 makes the problem worse. For the reasons explained herein, I return Senate Bill 2055 to the Senate, unsigned.

Regards,

Doug Burgum  
Governor

This initiated measure would add a new section to chapter 39-04 of the North Dakota Century Code requiring the Department of Transportation to issue red personalized vehicle plates to volunteer emergency responders. The plates would be provided at no cost to the volunteers and would serve as an entrance pass to all North Dakota state parks. Qualifications and verification procedures for the plates would be designated by the Department of Transportation in cooperation with the volunteer organizations.

#### **BE IT ENACTED BY THE PEOPLE OF THE STATE OF NORTH DAKOTA:**

**SECTION 1.** A new section to chapter 39-04 of the North Dakota Century Code is created and enacted as follows:

#### **Special vehicle license plates for volunteer emergency responders.**

Upon application, the director shall issue red personalized plates to volunteer emergency responders at no initial or annual cost to the volunteers. Volunteers shall include fire fighters and emergency medical responders. Qualified applicants are eligible to receive one set of plates. Plates may not be displayed on a vehicle with a registered gross weight exceeding 20,000 pounds. The first three digits of the plate are the last three digits of the zip code where the volunteer's department is located. The remaining space may contain up to three characters of the volunteer's choosing. This plate serves as an entrance pass to all North Dakota state parks. In cooperation with the volunteer organizations, the director shall designate qualifications and verification procedures for the plates issued under this section.

## CHAPTER 533

### LEGALIZATION OF MARIJUANA

This initiated measure would amend the North Dakota Century Code by removing hashish, marijuana, and tetrahydrocannabinols from the list of schedule I controlled substances in section 19-03.1-05; adding penalties for individuals under the age of twenty-one in possession of, or attempting to distribute, marijuana; and adding penalties for individuals who distribute marijuana to anyone under the age of twenty-one. It would amend the definition for drug paraphernalia in section 19-03.4-01 to only apply to non-marijuana controlled substances. It would amend section 25-03.1-45 to create a process to automatically expunge the record of an individual who has a drug conviction for a controlled substance that has been legalized; create an appeals process for an individual who believes the state did not expunge a record properly; and eliminate the state's sovereign immunity for damages resulting from expungement lawsuits. It would create chapter 66-01 to define the terms marijuana and marijuana paraphernalia; to prevent prosecution for non-violent marijuana related activity; and to nullify and repeal any North Dakota Century Code language which conflicts with chapter 66-01.

## CHAPTER 534

### ETHICS COMMISSION

This initiated measure would add a new article to the North Dakota Constitution establishing a North Dakota ethics commission. The commission, using funds provided by the legislature, would be responsible for adopting rules related to corruption, elections, and lobbying and for reporting and investigating alleged violations of those rules and related state laws. The measure would provide for prohibitions for lobbyists related to gift giving and delivery of campaign contributions and prohibitions for public officials against lobbying, use of campaign contributions, and conflicts of interest in certain proceedings. The measure would direct the legislative assembly to enact laws that require electronically accessible public disclosure of the source of funds spent (in any medium and in an amount greater than two hundred dollars) to influence statewide and legislative elections and statewide ballot measures or to lobby or otherwise influence state government action.

#### BE IT ENACTED BY THE PEOPLE OF THE STATE OF NORTH DAKOTA:

**SECTION 1.** A new article of the Constitution of the State of North Dakota is created and enacted as follows:

##### **Section 1. Transparency.**

1. The people of North Dakota need information to choose candidates for office, vote on ballot measures, and ensure that their representatives are accountable. This transparency must be sufficient to enable the people to make informed decisions and give proper weight to different speakers and messages. The people therefore have the right to know in a timely manner the source, quantity, timing, and nature of resources used to influence any statewide election, election for the legislative assembly, statewide ballot-issue election, and state government action. This right is essential to the rights of free speech, assembly, and petition guaranteed by the First Amendment to the United States Constitution and shall be construed broadly.
2. The legislative assembly shall implement and enforce this section by enacting, no more than three years after the effective date of this article, laws that require prompt, electronically accessible, plainly comprehensible, public disclosure of the ultimate and true source of funds spent in any medium, in an amount greater than two hundred dollars, adjusted for inflation, to influence any statewide election, election for the legislative assembly, statewide ballot-issue election, or to lobby or otherwise influence state government action. The legislative assembly shall have an ongoing duty to revise these laws as necessary to promote the purposes of this section in light of changes in

technology and political practices. The legislative assembly shall vest by law one or more entities with authority to implement, interpret, and enforce this section and legislation enacted thereunder. If the laws or rules enacted or an implementation, interpretation, or enforcement action taken under this section fail to fully vindicate the rights provided in this section, a resident taxpayer may bring suit in the courts of this state to enforce such rights.

## **Section 2. Lobbyists and Conflicts of Interest.**

1. A lobbyist may not knowingly give, offer, solicit, initiate, or facilitate a gift to a public official. A public official may not knowingly accept a gift from a lobbyist. These prohibitions do not apply if the lobbyist is an immediate family member of the public official. "Gift," as used in this subsection, means any item, service, or thing of value not given in exchange for fair market consideration, including gifts of travel or recreation. However, "gift" does not mean any purely informational material, campaign contribution, or, in order to advance opportunities for North Dakota residents to meet with public officials in educational and social settings inside the state, any item, service, or thing of value given under conditions that do not raise ethical concerns, as determined by rules adopted by the ethics commission. Such rules must be adopted within two years after the effective date of this article. So as to allow for the adoption of these rules, these prohibitions shall take effect two years after the effective date of this article. Appropriate civil and criminal sanctions for violations of this subsection shall be set by the legislative assembly.
2. An elected public official may not be a lobbyist while holding office or for two years after holding office. Appropriate civil and criminal sanctions for violations of this subsection shall be set by the legislative assembly.
3. A lobbyist may not knowingly deliver a campaign contribution made by another individual or entity. "Deliver," as used in this subsection, means to transport, transfer, or otherwise transmit, either physically or electronically. This prohibition does not apply to a person who delivers a campaign contribution to the person's own campaign, or to the campaign of the person's immediate family member. This prohibition shall not be interpreted to prohibit any person from making a campaign contribution or from encouraging others to make a campaign contribution or to otherwise support or oppose a candidate. Appropriate civil and criminal sanctions for violations of this subsection shall be set by the legislative assembly.
4. A statewide candidate, candidate for the legislative assembly, or public official may not knowingly use a campaign contribution for personal use or enrichment. Appropriate civil and criminal sanctions for violations of this subsection shall be set by the legislative assembly.
5. Directors, officers, commissioners, heads, or other executives of agencies shall avoid the appearance of bias, and shall disqualify themselves in any quasi-judicial proceeding in which monetary or in-kind support related to that person's election to any office, or a financial interest not shared by the general public as defined by the ethics commission, creates an appearance of bias to a reasonable person. The legislative assembly and the ethics commission shall enforce this provision by appropriate legislation and rules, respectively. So as to allow for the adoption of such legislation or rules, this subsection shall take effect three years after the effective date of this article.

6. Governments of foreign countries, foreign nationals not lawfully admitted for permanent residence in the United States, and corporations organized under the laws of or having their principal place of business in a foreign country, are prohibited from making contributions or expenditures in connection with any statewide election, election for the legislative assembly, or statewide ballot-issue election.

### **Section 3. North Dakota Ethics Commission.**

1. In order to strengthen the confidence of the people of North Dakota in their government, and to support open, ethical, and accountable government, the North Dakota Ethics Commission is hereby established.
2. The ethics commission may adopt ethics rules related to transparency, corruption, elections, and lobbying to which any lobbyist, public official, or candidate for public office shall be subject, and may investigate alleged violations of such rules, this article, and related state laws. The ethics commission shall maintain a confidential whistleblower hotline through which any person acting in good faith may submit relevant information. The legislative assembly shall provide adequate funds for the proper carrying out of the functions and duties of the commission.
3. The ethics commission shall consist of five members, appointed for four-year terms by consensus agreement of the governor, the majority leader of the senate, and the minority leader of the senate. No member of the ethics commission may hold other public office or be a lobbyist, candidate for public office, or political party official.

### **Section 4. General Provisions.**

1. This article is self-executing and all of its provisions are mandatory. Laws may be enacted to facilitate, safeguard, or expand, but not to hamper, restrict, or impair, this article. This article shall take effect sixty days after approval.
2. For the purposes of this article, "public office" or "public official" means any elected or appointed office or official of the state's executive or legislative branch, including members of the ethics commission, or members of the governor's cabinet, or employees of the legislative branch, and "agency" means each board, bureau, commission, department, or other administrative unit of the executive branch of state government, including one or more officers, employees, or other persons directly or indirectly purporting to act on behalf or under authority of the agency.
3. If any provision of this article is held to be invalid, either on its face or as applied to any person, entity, or circumstance, the remaining provisions, and the application thereof to any person, entity, or circumstance other than those to which it is held invalid, shall not be affected thereby. In any case of a conflict between any provision of this article and any other provision contained in this constitution, the provisions of this article shall control.

### CITIZENSHIP REQUIREMENTS FOR VOTING

This initiated measure would amend Article II of the North Dakota Constitution to state that "only a citizen" of the United States is a qualified elector, instead of the current provision that states "every citizen" of the United States is a qualified elector. The measure also would state that only a qualified elector may vote in any general, special, or primary election for a federal, statewide, state legislative, district, county, township, city, or school district office or ballot measure.

#### BE IT ENACTED BY THE PEOPLE OF THE STATE OF NORTH DAKOTA:

No elector shall lose his residency for voting eligibility solely by reason of his absence from the state.

The legislative assembly shall provide by law for secrecy in voting, for absentee voting, for administration of elections and for the nomination of candidates.

### HOUSE CONCURRENT RESOLUTION NO. 3004

(Representative Toman)

A concurrent resolution requesting the Legislative Management to study the potential benefit value of blockchain technology implementation and utilization in state government administration and affairs.

**WHEREAS**, blockchain is a decentralized distributed ledger technology which allows creation, validation, and encrypted transaction of digital assets to happen and be recorded in an incorruptible way; and

**WHEREAS**, blockchain allows peer-to-peer and business-to-business transactions to be completed without the need for a third party, which is often a bank, effectively reducing transaction costs; and

**WHEREAS**, recording transactions through blockchain virtually eliminates human error and protects the data from possible tampering; and

**WHEREAS**, a hyperconnected government enables unprecedented transparency and efficiency where services are tailored to an individual's needs; and

**WHEREAS**, new blockchain systems could focus on other types of transactions, such as exchanging titles for houses or cars, essentially decentralizing the infrastructure for these sales and making them faster and cheaper compared to what would normally be a slow complicated trudge through bureaucracy; and

**WHEREAS**, Arizona, California, Hawaii, Maine, Maryland, Nebraska, Nevada, New Jersey, New York, Tennessee, Vermont, Virginia, and Wyoming have introduced legislation for possible implementation of blockchain in state government; and

**WHEREAS**, West Virginia and Utah have begun blockchain pilot projects related to voting at primary elections, Delaware and Illinois have sponsored initiatives on blockchain, and the Governor of Colorado has created a blockchain-related council;

**NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:**

That the Legislative Management consider studying the potential benefit value of blockchain technology implementation and utilization in state government administration and affairs, including a comprehensive assessment of government areas in which blockchain technology can assist with agency affairs and administration, accounting and budgeting, transactions, creating necessary audit trails, authorizing a decision, authenticating authority, and establishing a system of record; and an analytical evaluation of implementing smart contracts to improve efficiencies in contract enforcement, the cost-effectiveness and increased security of utilizing a blockchain technology electronic voting system, and the exploration of other eGovernment services and applications, such as identity management, tax collection, land registry, distribution of benefits, and digital exchanges; and

**BE IT FURTHER RESOLVED**, that the Legislative Management report its findings and recommendations, together with any legislation required to implement the recommendation, to the Sixty-seventh Legislative Assembly.

**WHEREAS**, as technology continues to evolve the number of robocalls and "call spoofing" continues to grow and although the Federal Communications Commission has initiated new policy initiatives to combat illegal robocalls and "call spoofing", more needs to be done;

**WHEREAS**, the United States of America takes in more legal immigrants than any nation in the world and the legal immigrants have overwhelmingly proven to be assets to the communities in which they settle, and North Dakotans welcome all races, religions, and creeds to our beloved state who immigrate legally to North Dakota to mix with and to add to our great American melting pot; and

**WHEREAS**, high-deductible health plans have become the fastest growing product in the insurance market and health savings accounts (HSAs) insure tens-of-millions of Americans in the employer market and millions more who shop within each state's individual market; and

**WHEREAS**, HSAs are regulated primarily by the Internal Revenue Service (IRS), with one critical feature of qualification being the prohibition of covering medical expenses that are not preventive in nature without cost-sharing; and

**WHEREAS**, pursuant to federal law, states regulate the business of insurance and thus the quality and quantity of health insurance products available within each state's borders and states decide what benefits must be covered by a policy of insurance within their borders; and

**WHEREAS**, by enacting first-dollar insurance mandates or coverage requirements for benefits other than preventive care, states risk disqualifying otherwise HSA-qualified fully insured plans; and

### HOUSE CONCURRENT RESOLUTION NO. 3048

(Representatives Magrum, Fegley, Johnston, Karls, Satrom, Simons)

A concurrent resolution directing the Legislative Management to consider studying the feasibility and desirability of establishing a wind reclamation fund and whether the statutorily required minimum wind turbine setback distances provide adequate protections to nonparticipating landowners and their property.

**WHEREAS**, wind power is the fastest-growing source of electricity in the world and North Dakota is a leading state within wind power generation, with 21.5 percent of all in-state generated electricity in 2016 powered by wind; and

**WHEREAS**, wind energy can be a very environmentally, economically, and socially sustainable source of energy when careful decommissioning planning is undertaken to ensure the costs and benefits are shared equitably and there are no lasting impacts on the physical and cultural landscape; and

**WHEREAS**, the type of land used for wind energy generation often is agriculture, grazing, recreation, open space, scenic areas, wildlife habitat, and forest management and is typically suitable to areas of grazing or agricultural uses; and

**WHEREAS**, the agricultural and grazing land uses are disturbed by the construction of a wind turbine, and some intensive agriculture may be adversely impacted during operation; and

**WHEREAS**, without additional financial assurance requirements, property owners would be burdened with the financial responsibility of restoring land to the original condition after the decommissioning of a wind turbine; and

**WHEREAS**, establishing a wind reclamation fund would assist property owners with the excess costs associated with removal of a wind turbine, foundation and road removal, site remediation, abandonment, and repairing damage caused during decommissioning; and

**WHEREAS**, minimum wind turbine setback distance requirements are codified safety measures enacted to protect the land, property, and health of nonparticipating landowners; and

**WHEREAS**, noise, shadow flickering, ice fall, and turbine failure, produce risks to a nonparticipating landowner's land, property, and health which can be reasonably mitigated, minimized, or eliminated by requiring effective and feasible setback distances;

**NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:**

**WHEREAS**, with over 97 percent of inmates returning to the streets, equipping inmates with the tools and job skills necessary to be productive and successful upon release reduces the cost of transition and retraining on society; and

**WHEREAS**, Roughrider Industries does not use tax dollars to support correctional programs, and all salaries, equipment, capital improvements, and operating expenses are paid from revenues generated from the sale of the products and services; and

**WHEREAS**, Roughrider Industries may sell directly to nonprofit organizations, political subdivisions, and governmental agencies, including federal, state, and tribal agencies, but may not sell directly to the general public; and

**WHEREAS**, a comprehensive review and assessment of whether the quality goods and services produced by Roughrider Industries should be expanded to cover additional noncompetitive goods and services, including clothing or computer hardware, is necessary to determine whether a mechanism allowing wholesaling of these additional noncompetitive goods and services directly to the general public would aid inmates in their successful rehabilitation and reintegration into society upon their release;

**NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:**
