# COMPLETE ANNUAL CATALOG 1918

UNITED STATES FOOD ADMINISTRATION  
LICENSE NO. E-7588 LICENSE NO. G-35887

**F**OLLOWING are prices in effect on above date, and, where differences occur, cancel prices shown in our Annual Catalog for 1918. Supplements are issued at frequent intervals, and latest issue will be mailed on request. Prices of some articles are liable to fluctuate, and we cannot make prices which will apply all the year without allowing more margin than would be fair to our customers. If incorrect amount is remitted, unless otherwise instructed, we will ship the quantity of goods which the remittance will cover at prices in effect at the time the order is received.

Prices do not include transportation charges except when so specified. If goods are to be shipped by parcel post, or by express or freight to a station at which there is no agent, a sufficient amount must be remitted to pay transportation charges. Remittance in full is required with all orders. Please do not ask us to ship goods C. O. D. or on account.

We exercise every precaution to grow and secure only the very best seeds, but give no warranty, express or implied, as to description, productiveness, or any other matter of any seeds, bulbs, roots or plants sent out, and will not be in any way responsible for the crops.

## Vegetable Seeds

Asparagus
