SUBJECT: Release of Former Japanese Army and Navy Installations

TO : Commanding Officer,
Tokai-Hokuriku Mil Govt Region, APO 710

1. Per Par. 4, ltr, your Hq., subject as above, the following report is submitted.

(a) Inclosure 1 to the above letter listing 42 installations within this prefecture is correct. There are no additions, deletions, or corrections to be made to the list.

(b) As to disposition of the 42 installations the following is reported.

(1) Installations numbered 2 4 5 6 8 9 20 22 37 totalling 9 and underlined with red pencil are presently being used by occupation forces and will not be released.

(2) Applications have been received from the Japanese on the remaining installations and processed through this Headquarters but release is pending.

SUBJECT: Inspection of Former Japanese Installations Returned to the Home Ministry

TO : See Distribution

1. Reference is made to paragraph 17e, Operational Directive 28/14, dated 27 February 1947, which requires inspections of arsenals, military laboratories and other installations having war potential that have been released to the Japanese Government.

2. Reports indicate that numerous inspections are being carried out in excess of specific requirements.

3. Inspections called for in reference 1, above, are necessary for only the specific installations mentioned therein and not for each and every facility released.

4. Paragraph 5c. (1) of Annex 10 to Administrative Order No. 25, this headquarters, will be amended to conform with the policy outlined above.

GIFU
MILITARY GOVERNMENT TEAM
APO 25, Unit 2 (Gifu, Honshu)

24 September 1947

SUBJECT: Release of Former Military Installations

THROUGH: Japanese Liaison Office

TO : The Governor
Gifu Prefecture

1. Although a period of two years has now passed since the end of hostilities, the property books of this unit include entries of large quantities of captured enemy property and real estate. This headquarters is highly desirous of completing, at the earliest possible date, release of all installations in excess to the needs of occupation forces. To accomplish this, Gifu Prefectural officials must conscientiously apply themselves to this task and make a determined effort to expedite release of every excessive installation within this prefecture.

2. In the past, non-adherence to established procedures governing submission of applications for release of enemy installations, has resulted in many irregularities. These irregularities have caused, needless expenditures of time and energy on the part of Gifu Military Government Team, and have delayed completion of de-militarization in this area. Some of the more common errors noted are:

a. Failure to submit the required three (3) copies of application.

b. Submission of applications for individual parts of an installation, when one application for the entire installation would suffice.

c. Information contained in the application is often incomplete (ie. proposed use, present use, military grid coordinates lacking, name of installation, etc.).

d. Non-submission of required map sketches over-lays.

e. Maps and/or map sketches often lack sufficient detail.

f. Submission of applications for installations which are not properly enemy installations.

3. Failure on the part of the Japanese officials to display interest in the release of enemy installations, has been reflected in the response of the Gifu Office of the Nagoya Finance Bureau. It has been noted that

SUBJECT: Release of Former Military Installations

frequently Home Ministry officials are wholly or partially ignorant of occupation policies regarding the release of former Military installations. It is desired, therefore, that you take the necessary measures to insure that the applications for release of all excessive installations be submitted to this headquarters by 1 December 1947.

C. E. GEISER

AG 382 - EA

SUBJECT: Release of Former Military Installations

TO: See Distribution

1. Attention is directed to Annex 10, Administrative Order Number 25, this headquarters, dated 25 Augu. 1947.

2. Above reference governs the procedure for release of former Japanese Army and Navy installations to the Japanese Home Ministry.

3. In the past, non-adherence to established procedures governing submission of applications for release of enemy installations, has resulted in many irregularities. These irregularities have caused needless expenditure of time and energy on the part of several echelons of this command, and have delayed completion of the demilitarization of Japan. Some of the more common errors noted are:

a. Failure to submit the required 3 copies of applications with the cover letter.

b. Submission of applications for individual parts of an installation, when one application for the entire installation would suffice.

c. Information contained in the application is often incomplete (ie. mil. grid coor. lacking, name of installation lacking, etc.).

d. Non-submission of required map sketches and over lays.

e. Maps and/or map sketches often lacking sufficient detail.

f. Applications are frequently forwarded through improper channels.

g. Non-submission of clearance certificates from bomb and mine disposal officers in instances where such certificates were required.

h. Submission of applications for installations which are not properly enemy installations as defined in above reference.

8

4. Failure on the part of military government officers to display

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

interest in the release of enemy installations, has been reflected in the response of responsible Japanese officials. It has been noted that frequently Home Ministry officials are wholly or partially ignorant of occupation policies regarding release of former military installations.

5. It is the responsibility of military government team commanders to inform the Japanese of these policies, and to insure that applications for release of enemy installations are forwarded to this headquarters. Although a period of two years has now passed since the end of hostilities, the property books of many units include entries of large quantities of captured enemy property and real estate. This headquarters is highly desirous of completing, at the earliest possible date, release of all installations in excess to the needs of the occupation forces. To accomplish this, military government officers must conscientiously apply themselves to this task, and make a determined effort to expedite release of every excessive installation within their prefecture.

6. Commanding generals of the 24th and 25 Infantry Divisions are directed to expedite inspection of installations by troops under their command, to facilitate the clearance of installations by bomb and mine disposal officers, and to insure the processing of applications and release forms through tactical channels with the least practicable delay.

7. It is desired that military government team commanders insure that applications for release of all excessive installations be submitted by the Japanese prior to 1 January 1948. It is further desired that division commanders expedite the processing of both pending and new applications, and take appropriate action to effect release of unrequired installations prior to 1 April 1948.

NOTE

AG 602 - BA

SUBJECT: Survey of Enemy Installations

TO: See Distribution

1. References:

a. Letter, Headquarters Eighth Army, AG 300.6 (MG-P), subject: "Release of Japanese Supplies and Facilities", dated 17 February 1947.

b. Operational Directive No. 28/12, Headquarters Eighth Army, dated 8 July 1946.

c. Operational Directive No. 28/14, Headquarters Eighth Army, dated 27 February 1947.

2. a. The release of an installation to the Japanese will be recognized only if it falls within one of the following categories:

(1) Releases made in accordance with the provisions of reference 1b or 1c, above, which contain the approval of Commanding General, Eighth Army or this headquarters.

(2) Releases made by a special directive of the Supreme Commander for the Allied Powers or Commanding General, Eighth Army, to the Imperial Japanese Government.

(3) Releases made in writing by a tactical unit of the Occupation Forces having jurisdiction over the area in which the installation is located and which are dated prior to 31 January 1946. Such releases must be signed by a responsible officer of the unit concerned and must be in the possession of the Japanese authorities.

b. All former military installations other than those in the above categories are considered to be still in the custody of the Allied Occupation Forces (even though physically they are in the hands of the Japanese, and not under the guard or surveillance of the Occupation Forces).

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Ltr, Hq I Corps, AG 602 - BA, subj: "Survey of Enemy Installations", dtd 20 Mar 47.

3. a. It is desired that all Military Government teams accomplish the following:

(1) Contact the Japanese prefectural authorities and require them to submit a list of all former enemy installations in their prefecture (Enemy installation - an installation as defined in subparagraph 4d, Operational Directive No. 28, Headquarters Eighth Army, dated 18 November 1945).

(2) Have the Japanese submit a list, complete with supporting documents, as evidence of all such installations which have been validly released by the Occupation Forces to them in accordance with the provisions of subparagraph 2a, above. Determine the accuracy of this list and force it to reach this headquarters not later than 25 April 1947.

(3) Prepare a list of the remaining installations in the prefecture that have not as yet been validly released. Refer the list back to the Japanese prefectural authorities with the notation that if they desire to obtain those installations (other than those installations required by the Occupation Forces for operational needs), they must submit applications for release in accordance with the provisions of subparagraph 17f, reference 1b, above. It is desired that this list, together with the notation as to the action being taken on each installation (i.e. Have the Japanese applied for its release or not? — Includes installations already applied for at the time of receipt of this letter), be submitted to reach this headquarters not later than 25 April 1947.

b. It is pointed out that some former enemy installations are also included in the list of plants held for reparations. In these cases applications for release should request only those portions not required for the care and custody of reparations machinery.

4. This letter supersedes and rescinds all other requests for such surveys by this or subordinate headquarters. Further it is desired that all information obtained from this survey be forwarded direct to this headquarters for proper assimilation and verification before being passed to tactical units.

AG 386.3 ~~—~~ BA

SUBJECT: Enemy Installations in Gifu Prefecture

THRU: Commanding Officer, Tokai-Hokuriku Military Government Region, APO 710

TO: Commanding Officer, Gifu Military Government Team, APO 25

1. With reference to telephone conversation between Lt. Callery Carry, your headquarters, and Lt. Smith, this headquarters, authorization is granted for the following action:

a. Retention of the former Gifu Kempei Tai installation (coordinates 1176.8 - 1384.2) by the 24th Infantry Regiment for operational purposes.

b. Razing of a building on the grounds of the former 51st Air Flying Division, Gifu City (coordinates 1174.7 - 1383.0) by the Gifu Military Government Team, now occupying that installation.

2. Correspondence from your headquarters concerning these installations will be returned without action.
