Nr: X-06-36 6 May 1945.

The blockade established at Kobe, Osaka 3rd May was strengthened and additional blockades across the Inland Sea at Shodo Shima and Bingo Nada were established which are expected to last from one to two weeks unless the Japanese are willing to accept expensive losses. Attrition fields were also laid at Tokuyama, Aki Nada, Hiroshima, Kure, Nagoya and Tokyo. All of these fields are expected to harrass, sink and damage Japanese shipping for several weeks. At this time the Japanese are faced with a tremendous clearing problem in that mines, many of them unsweepable, are laid at strategic points in the shipping lanes throughout the entire inland sea as well as at Nagoya and Tokyo.
