D. RIPLEY JACKSON BEST OF POETS, JUDGES DECIDE

Progressive Club Members
In Rain of Rhymes,
Grow Hilarious

By ART SHERBORNE
A mean advantage of spring was taken last night in the banquet room of the Glen Inn by members of the Glendale Progressive Club who waited until her back was turned and summer is upon the village before turning loose the flood gates of original "poetry."

A mean advantage also was taken of thirty-five unsophisticated and innocent pullets, who were dressed for the occasion in one hour, according to his own watch and chain, by Claude Caswell, proprietor of the butcher shop in the Gateway Market.

The reciting of the poems was a mournful event. There was considerable danger of a number laughing themselves to death. However, several physicians were present and mirth and hilarity were allowed to continue unrestrained. The "poems" ranged from limericks to blank verse. Some had meter and some had rhyme and some were just words.

What Rhymes With—
Miss Erato, muse of amatory poetry, was much flattered by the attention. It is also understood that Shelley, Keats and Wordsworth turned over in their graves. It was agreed that as poets members of the Progressive Club were fine business men.

Judges of the contest were Mrs. D. Ripley Jackson, Mrs. B. Sutton and Mrs. H. G. Westphal. They retired to the lobby of the Chamber of Commerce to examine the entries and to deliberate upon their decision. They returned a verdict of "guilty" to first degree murder of the English language.

The offender was—none other than Postmaster D. Ripley Jackson, whose presence had been very conspicuous during the evening. Mrs. Jackson stated most emphatically that she had refused to vote on the third ballot.

Mr. Jackson, however, was immediately accused of having bribed Mrs. Sutton. It was moved that he should be fined \$5. An amendment was made that this should be split between the two parties who seemed most interested.

Return Home From
Rim of World Trip
Mr. and Mrs. John Chudley and Miss L. Chudley of 908 East Elk avenue returned Sunday evening from an eight-days' motor trip on the "Rim of the World" drive. They visited Pine Crest, Arrowhead lake and took sunny hikes in the mountains. Being familiar with the beauty spots of the old country they were able to make a comparison and had to admit that California's vast mountain scenery surpassed anything they had previously seen.

Mr. and Mrs. Chudley and Miss Chudley returned via the Foothill boulevard, passing the attractive foothill cities. However, they returned to this city convinced that Glendale, the city of their adoption, surpassed them all. Mr. Chudley recently underwent a serious operation at the Glendale Sanitarium and Hospital and is now convalescing.

E. D. Hamlin Family
Return From Island
The past month has been a very pleasant one for the E. D. Hamlin family of 315 North Louise street, for they have been living in a summer cottage at Catalina. They returned home last evening and after a few days' stay they plan to return to the island for the month of July. Mr. and Mrs. B. W. Hepburn are sharing the cottage with the Hamlins. Mr. Hamlin and Mr. Hepburn are business partners and while business keeps them in Glendale during the week they spend every Friday and Monday with their families at Catalina.

Mr. Hamlin reports that fishing is unusually fine at Catalina this summer and that they have returned from each expedition with fine catches of barracuda and mackerel.

Mrs. John Neithardt
Gives Bridge Affair
There were three honorees at the bridge breakfast given this morning by Mrs. John C. Neithardt of 208 1-2 Hawthorne street, Mrs. Stevens of Chicago, Ill.; Mrs. C. A. Anderson of South Bend, Ind., and Mrs. John Trewek of Salt Lake City, Utah.

Large bouquets of Brown-eyed Susans were artistically used by Mrs. Neithardt in decorating for the bridge games and the 12 o'clock luncheon.

Other guests were Mrs. C. A. Davey of Pasadena, Mrs. Margaret Wentworth and Mrs. Charles Lilly of Los Angeles, and Mrs. Jasper Garst, formerly of South Bend, but now of Glendale.

Pretty Expensive Poetry

D. RIPLEY JACKSON
This country has many surprises
From the east coast to the west,
But the surprise that has them all guessing,
And the one that goes over the best,
Is the wonderful city of Glendale,
That has leaped ahead of the rest.

We sprang from a beautiful village
To a city of national fame;
And visitors coming among us,
Naturally spring on us,
"What is the game?"

That the query may be well answered,
And others may follow the step,
Just say that the people of Glendale,
Are brimming over with PEP.

If a proposition comes up that looks tough
And they can't bring the thing to a head,
They just look up the "Progressives,"
And, believe me, "they knock 'em dead."

We meet every week at a luncheon,
And peddle a whole lot of bull,
And then get down to real business,
When the space near the belt line gets full.

It sometimes occurs that the soup may go wrong,
And decorate somebody's coat;
Then we pass out the books and burst into song,
And go after somebody's goat.

We need some things like a sewer,
The tracks on the boulevard dropped,
And talk of proposed annexation
Forever and immediately stopped.

Come out to this wonderful city
And spend a few days in our midst,
Then you may go away and return some day,
To find out what you have missed.

Now that I've gotten this out of my system,
And my speaking time is about up,
Don't bother to ask any questions,
But simply hand over the cup.

ARTHUR C. BROWN IS REAPPOINTED WORK STARTS ON OFFICE BUILDING

Well-Known Educator Is West Broadway Structure
Again, Honored; Record Will Be Finished In
Very Gratifying About Sixty Days

Arthur C. Brown, well known educator, who resides at 291 West Milford street, was signally honored yesterday when the Los Angeles county board of supervisors reappointed him to the board of education, on which he has served the past two years as president. He also is president of the Schoolmasters' Club of Southern California, which numbers many Glendale teachers in its membership.

Mr. Brown is preparing for the county teachers' examinations next week at which time he expects there will be an unusually large class of applicants for teachers' certificates. It is a big task and follows immediately upon the close of the McKinley Junior high school, of which he is principal, graduating about 180 students.

This marks Mr. Brown's twentieth successful year in the Los Angeles school system and he is gratified to know that the McKinley school is the second largest west of the Rocky mountains in which he has made quite a reputation for efficiency.

His wife also is honored for his wife, Mrs. Nettie C. Brown, has served both as president and clerk of the Glendale city board of school trustees, after having been the first president of the Parent-Teacher Association federation here. During the war she was chairman of the social service section of the local Red Cross chapter and still is actively interested in the work.

Both Mr. and Mrs. Brown have a large circle of friends here who will be glad to learn of the honors they have received for the long years of faithful endeavor they have given to educational work here in southern California and in the middle west.

Regimental Adjutant
Here on Thursday
Captain Beverly Eskridge of Los Angeles, Regimental Adjutant of the 16th National Guards, is to be in Glendale Thursday night at the organization of the Third Battalion Headquarters company here. Harold Alexander is the first lieutenant commanding the new company.

At the third Thursday night the non-commissioned officers and first-class privates will be appointed.

It is understood that further plans for the Guard camp at Monterey this summer will be announced at that time.

SUNDAY SCHOOL PICNIC
The swimming pool at Brookside Park proved one of the big attractions yesterday of the party to be in Glendale Thursday night at the organization of the Third Battalion Headquarters company here.

Harold Alexander is the first lieutenant commanding the new company. At the third Thursday night the non-commissioned officers and first-class privates will be appointed.

It is understood that further plans for the Guard camp at Monterey this summer will be announced at that time.

PETER FERRY WILL SPEND TIME AT SCOUT CAMP

Outline Fine Program for
Boys This Summer on
Catalina Island

Peter L. Ferry, 614 East Acacia avenue, chairman of the district Boy Scout camping committee, has arranged to attend the entire Boy Scout camp at Catalina this summer. Mr. Ferry postponed a projected trip to New York, according to H. F. Benner, local scout executive, in order to attend the camp, which will be open from July 20 to 29, inclusive.

Mr. Ferry will actively engage in camp activities, and with the other leaders, will see that every boy has a good time while maintaining strict supervision over the general health and safety of the Scouts.

Tallman H. Trask, Scout executive of Pasadena council, is to spend the first day in camp, says Mr. Benner. At the first camp fire, that evening, Mr. Trask will tell the Scouts of the traditions of the camp and the legends of Catalina Island.

Once Used By Pirates
The camp is to be located at Howling's Landing at the west end of the island. This place was at one time used by pirates as a harbor, it is said, and is also the site of an ancient Indian burial ground. Recently, according to Mr. Benner, scientists have exhumed many of the Indian graves, and in the past few years Scouts have uncovered graves.

One of the features of the camp is the treasure hunt, which is held in the evening by the light from one lantern. An old parchment giving directions, and which the boys are told was lost by a famous pirate, will be used in the hunt, and the boys will try their skill at tracing down a location given on a map.

In charge of each tent in camp will be an adult leader, and these leaders will form the camp executive council. They will supervise the activities of the Scouts in such a manner that no parents need fear for the safety of their boys.

On the last evening in camp it is planned to celebrate with a watermelon jubilee when once and for all the capacity of a boy will be determined.

Arrangements have been made for a special Pacific Electric train to leave Glendale early on the morning of July 20 for Wilmington. This train will take the Scouts to the dock where they will embark on the S. S. Avalon for Avalon, Catalina Island. From Avalon the yacht Betty O has been chartered to take the Scouts over the twenty-three miles to the camp, including in the trip a view of the submarine gardens.

H. E. Betz has been awarded the excavating and brick contract, and it is expected that the foundation will be ready and brick work will be started immediately after the Fourth of July. Mr. Nesselroad has awarded no other contracts, and expects to do the carpenter work himself. He expects that the building will be completed within sixty or seventy days from the start of construction work.

The building is rated as a class C brick and steel two-story store and office building. It will have a total frontage of 67 feet and a depth of 60 feet.

The front of the building is to be of golden ruffe brick trimmed with terra cotta. On the extreme west front will be the entrance to the stairway, and the rest of the first floor will be devoted to three store rooms 21 feet 8 inches wide and 60 feet deep. These will have plate glass display windows, and a similar window is to be installed on the east side facing the alley, and extending back about ten feet.

Ten Office Suites
On the second floor will be ten office suites. They will consist of an office room 12 feet 11 inches by 16 feet, and an ante-room 12 feet 11 inches by 8 feet 6 inches. The entire upstairs is to have hardwood floor of the best quality oak, and specifications call for woodwork trimming of Southern gum.

Retiring rooms on this floor will be finished in marble and tile. The wall finish in the office rooms has not yet been decided upon by Mr. Nesselroad, but it will probably be either stippled or tinted. All windows in the entire building, says Mr. Nesselroad, are to be of plate glass.

No arrangements have yet been made as to the leasing of the store or office rooms. The store rooms, the owner believes, will be taken up quickly, and he expects that the offices will soon be taken.

Fordson Tractor Is Working for City
A Fordson tractor from Jesse E. Smith's Ford agency arrived on the "municipal playground" behind the city hall this morning to take up its duties hauling sand for the street department. It is said to be extraordinarily healthy and to be most economical of operation. Its purchase was approved recently by the city council. Mayor Spencer Robinson and City Manager W. H. Reeves this morning expressed themselves well pleased with the efficiency of tractors as proven by past experience.

M. WALTERS TO SPEAK
M. Walters, salesmanager for Ruddick & Driver, subdividers of Meeker's Orange Manor, will be the speaker at the Glendale Realty Board luncheon tomorrow noon, it is announced.

MORE PROSPERITY ARRIVES DAILY IN GLENDALE

These Snappy Paragraphs
Prove Horn of Plenty
Is Overflowing Here

A local shortage of skilled labor!
More business than many of the mercantile establishments can properly care for!

A greater number of summer tourists in Southern California and Glendale than ever before!
Development projects being planned on a scale not even dreamed of in years gone by!

Construction this month here to exceed \$300,000 easily!
That is how prosperity smiles in Glendale with the warm weather, cooling sea breezes and a contented people enjoying life.

Encouraging Report
And today over the International News Service leased wire comes the most encouraging report in many months issued by John Perrin, federal reserve agent for the Twelfth district, with headquarters at San Francisco. High spots on the way to prosperity recounted in the report follow:

"In May, for the first month this year, the dollar value of sales of 32 representative department stores and mail order houses was greater than in the corresponding month a year ago, sales in May, 1922, being 15.5 per cent greater in value than in May, 1921."

"In May, lumber mills operated at 100 per cent of normal capacity for the first time in two years. Orders received exceeded the output and unfilled orders on hand at the close of the month were nearly twice as large as one year ago."

Production Record
"May set a petroleum production record of 357,376 barrels per day. Stored stocks of petroleum in California, 42,041,461 barrels, stand at the highest figure reached in the past five years."

"The crops of the district made favorable progress during May and normal yields are expected in most sections."

"New clip wool has recently been purchased for 35 to 45 cents per pound compared with prices of 15 to 17 cents paid at this time last year."

"Building activity continues at record figures, the number of permits issued during May having exceeded only in one month, October 1921. Permits issued were 22.1 per cent greater in number and 59.1 per cent greater in value than in May 1921."

"Savings deposits in the principal cities of the district have increased in each of the past seven months, except April. On May 31, 1922, they were 4.4 per cent greater than on May 31, 1921."

Representatives of the Southern Pacific railroad today are conferring with members of the Glendale Chamber of Commerce railroad committee, seeking local endorsement of the resolution adopted by several of the larger chambers asking that the Central Pacific and Southern Pacific remain as a single unit, the supreme court's decision notwithstanding.

The Union Pacific is valiantly striving to maintain the Central Pacific as a free agent and give competitive freight rates to those parts of California and Nevada in the Central Pacific territory. It has been pointed out that Glendale has gained little recognition from the Southern Pacific from a civic standpoint, although it would have been possible for that company to give this city a station fitting the 30,000 population.

It is expected that the Union Pacific will have its representatives before the local committee soon to tell the other side of the question.

Rev. Robert Shuler
Before Kiwanis Club
Rev. Robert Shuler, pastor of the Trinity Methodist church of Los Angeles, will be the speaker Friday noon before the Glendale Kiwanis club. He is known as "Fighting Bob Shuler."

RETURN FROM OUTING
Mr. and Mrs. George H. Moore of 321 West Elk avenue and Mr. Moore's sisters, Mrs. Joseph Spencer of Champaign, Ill., and Miss Lucy Moore of Long Beach, have returned from a pleasant three days' motor trip to San Diego. They also visited Coronado, Point Loma and other places of interest.

HERE FROM SPOKANE
Mr. and Mrs. C. H. Ambrosch of 644 North Pacific avenue are being visited by Mr. and Mrs. J. B. Wager and daughter, Miss Irma Wager of Spokane, Washington. Mr. Ambrosch, who is proprietor of the Glendale Monument Works at 1727 South Brand boulevard, had not seen his sister for sixteen years.

The dinner will be the third of a series of various industries, steel and rail men already having been entertained at the White House. Back of the meeting looms the desire of President Harding to dispel opposition to the Harding-Lasker ship subsidy bill in agricultural sections of the country.

ONE HOUR PARKING ORDER ON BRAND, RULES COUNCIL

Change Is Made In District
From Wilson to Harvard
Result of Petitions

Amendments will be made to the auto parking ordinance as the result of petitions and discussions before the city council last night. Three members of the council present, Mayor Spencer Robinson, A. H. Lapham and Dwight W. Stephenson, voted unanimously to amend the parking ordinance so that cars will not be permitted to stand more than one hour on Brand boulevard, Wilson to Harvard, between the hours of 9 a. m. and 5 p. m.

Also the ordinance will be changed to permit parking on Brand from Wilson to California at all hours during the day, this action being taken on petition from merchants of that section.

And, too, on request of the police department, no cars will be permitted to park anywhere in the city between the hours of 1 a. m. and 5 a. m.

The two-hour parking law will remain in effect on West Broadway and East Broadway, Central to Louise, unless merchants in those sections petition for a change.

Urge Ban Be Removed
The two-hour limit will remain on Brand from Harvard to Colorado, although today Mayor Robinson and W. H. Reeves, city manager, suggested that the ban be taken off entirely.

Daniel Kelly, Jr., with a majority petition signed by business men on Brand between Broadway and Harvard, urged the council to make the parking limit one hour in that section. He declared the business men suffered losses through auto congestion and all-day parking.

A. G. Spohr, with a majority petition signed by business men on Brand between Broadway and Wilson, also pleaded for a one-hour parking law in that territory.

E. C. Pendroy declared he was opposed to any parking law at present. He said the city had not reached the stage where it needed one and he asserted, also, that a committee could easily get cars now "hogging" the parking places out of the way. He further declared the parking law would keep trade away from Glendale.

Suggests Clear Corners
A. T. Cowan also opposed the parking ordinance, saying that it would injure business instead of improving it. He declared Glendale has not yet reached the point where a drastic parking law is required. He said that an order keeping the four corners at Brand and Broadway clear of cars would be an improvement.

Mayor Robinson and Councilman Lapham have from the start been in favor of the ordinance and last night Councilman Stephenson said he would vote as requested by the petitioners as they showed a big majority. He also said he would vote for any other changes in the ordinance upon being shown a majority petition from the business men affected.

The police department and the city manager are preparing signs to show the different sections for parking, and the time limits, and as soon as these warnings are placed the strict enforcement of the law will follow, it is stated at the city hall today.

Merchants' Association
Discusses Parking Measure
Parking was the principal topic of discussion at yesterday noon's session of the Glendale Merchants' Association. There were sixty-four members in attendance, a new high mark, and H. M. Butts of the Monarch Auto Supply company was awarded honors for captaining the team obtaining seven-teen while W. P. Potter of the Bentley-Schoeneman Lumber company let his crew stop at eleven.

A. G. Spohr, druggist, brought up a petition for presentation to the council, as did A. G. Cornwall, hardware dealer, while E. C. Pendroy of the department store bearing his name, opposed the measure and talked generally on the subject.

At the conclusion of the argument, also of the meeting, a committee of five was named to draft resolutions for presentation to the association and then to the council, but it appears that the action last night on the part of the council nullifies the work to have been done by Messrs. Butts, Spohr, Cornwall, Pendroy and Max Green, the latter two opposing the parking ordinance. Mr. Butts, the chairman, was presumed to be neutral, but Judge Owen C. Emery, who presides over the luncheon discussions.

Auto Is Scratched
Result of Collision
Onifrey Dobrowski of 1601 South Brand boulevard about 5 o'clock last night objected to having his car scratched in a collision at the intersection of Los Feliz and San Fernando Roads. The opposing car was driven by Lynn F. Reynolds of Hollywood. No one was injured.

DISSOLUTION FOR STATUE OF AMERICAN ARTIST RAILROADS HITS HARD BLOWS

Split of Central and Southern Pacific Is Hard on Shipping

By ELLIS H. MARTIN, Staff Correspondent International News Service
SAN FRANCISCO, June 23.—If the order of the United States Supreme Court recently entered ordering dissolution of the Central Pacific and Southern Pacific railroads is carried out, it will mean the greatest unscrambling process ever carried out in railroad history.

In the more than half century that the common control of the two roads has existed they have become so inextricably interwoven that their physical dissolution will strike a heavy blow to shippers in the Far West.

When the Southern Pacific secured control of the Central Pacific the two lines were pioneering practically in a territory which has grown in that period to one of the largest shipping districts in the United States. The lines linked together under common management form a network from Oregon to Mexico.

Not only will local traffic and freight routings be demoralized, but through train routings will be seriously interfered with. On account of the highly perishable nature of much of the freight handled, the establishment of numerous junctions is causing fruit and commission men serious concern.

Must Reconcile Business. So seriously is the decree of the highest court of the land regarded among business men that the San Francisco Chamber of Commerce has appointed a State-wide committee of leading business men to safeguard the interests of the public and to seek a means of reconciling the urgent traffic demands of the State with the drastic provisions of the court order.

Some of the results of the separation of the two lines will be: Three changes from San Francisco to Portland. Addition of fifty miles to the routing of transcontinental trains. Creation of at least one big junction on the valley lines to Los Angeles—probably at Goshen. Seventeen junction points will have to be established in California and Oregon, at which both passengers and freight will have to transfer.

Many points now on main lines will have to branch-line service. Hundreds of points now having Southern Pacific service will be cut off entirely from that road and vice versa.

Shops employing hundreds of men will be cut off from the roads they were established to serve.

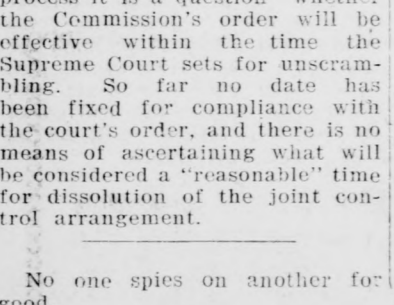

Scores of important shipping points will no longer have through service of any sort.

Regrouping May Be Remedy. The only remedy that appears in sight for the situation is the fact that the Interstate Commerce Commission is now engaged in a grouping of the railroads of the country into a limited number of enlarged systems. According to railroad men, the Transportation act of 1920 authorizing this plan of consolidation supersedes all former laws, and any relief to be had must come through the regrouping of Western transcontinental roads by the Commission.

In view of the huge amount of detail involved in the grouping process it is a question whether the Commission's order will be effective within the time the Supreme Court sets for unscrambling. So far no date has been fixed for compliance with the court's order, and there is no means of ascertaining what will be considered a "reasonable" time for dissolution of the joint control arrangement.

No one spies on another for good.

Goes from Michigan Country Town, Works In New York, London and Paris

PARIS, JUNE 27.—The talk of the Salon des Artistes Français, which has just opened its doors to art lovers, is the work of an American sculptor, Jesse S. Anderson, of New York City.

This important work is called "Memories" and is an old woman's head, with pictures in relief figuring in her hair—dream-pictures of an old lady looking back over a full life.

Twenty figures cover the head. On the upper part, in the hair just drawn away from the forehead, are girlish ones representing her childhood. Then comes young maidenhood, a young couple kissing, placed very near the ear, as if the old lady were listening back for the sound of this very kiss. Another couple is entwined about the other ear, this time figures of later life.

On the side are middle-aged couples, with children, and rural country, running into the nape of the neck, are grandparents, with their offspring.

The face itself is an interesting one, with figures within it which must be carefully studied out like the faces in the moon.

The sculptor, familiarly known as "Vet" Anderson, has done important work as a caricaturist. Readers of American newspapers will remember the clever cartoons he made to illustrate the articles of John Kendrick Bangs, always signed by a little rooster, with "Vet" written in the tail feathers.

At an early age he traveled from a small country town in Michigan to New York, where he worked on the World, the Telegram and the New York Herald. The Columbian exposition at Chicago, in 1893, set his mind to working along art lines, and he decided to take a studio in New York.

The Spanish war and later the last European war interrupted his studies until the spring of 1919, when he once more started cartoon work in London and then came to Paris to study at the Julian academy.

Anderson has done many statues, the most famous of which is probably the one of Billy Sunday, done in Philadelphia. At present he is busy with a head which will be called "Happiness," and he intends to keep on doing this symbolistic work, making figures which express human emotions.

Lynching Tree Is Felled at Santa Rosa on Memorial Day

SANTA ROSA, Cal.—When Memorial Day exercises were held recently at the old rural cemetery, the famous hangman's tree, a stately locust, on which the three slayers of Sheriff James Petray and Miles Jackson were lynched, had disappeared. In its place was a pile of stove wood. It was cut down on orders of the cemetery association in response to protests from the Grand Army of the Republic. It overlooked the G. A. R. monument at which annual memorial services are held. There was a grand rush for souvenirs and the huge pile of stove wood quickly disappeared, persons motoring for miles to secure a piece when news spread the tree had been chopped down.

Present Parliament Smashes Tradition

LONDON.—Members of Parliament aren't following in the grand-naming footsteps of their predecessors, according to George Wilsner, manager of the Parliamentary restaurant.

In the old days members of parliament were connoisseurs on food and wine, Wilsner says, but the modern legislator doesn't seem to care what or when he eats.

Scientists Carry ON INQUIRY OF IMPORTANCE

Nitrogen Research Work Is Being Conducted at the National Laboratory

By J. L. MEDVEDOFF, For International News Service, WASHINGTON, June 27.—One of the least-heralded yet most important co-ops in the government's peace and wartime machinery is the Fixed Nitrogen Research Laboratory here, born of the world war.

When the United States entered the conflict it was seriously unprepared in the matter of nitrogen. The war department undertook to remedy the situation as quickly as possible, but found itself greatly handicapped, because only a few men in the country were familiar with the nitrogen process.

The war department immediately called into consultation some of the ablest scientists available, following which a nitrogen commission was formed. The commission recommended the building of plants for the fixation of atmospheric nitrogen, so that ammonium nitrate could be secured for explosives during the war and for the production of fertilizer materials as well as nitrogen compounds useful in the arts during peace time.

The laboratory today has a personnel of 107, occupies seventeen buildings and owns equipment valued at approximately \$1,000,000.

Has Special Machinery. It has, in addition to the equipment and supplies of standard design, a great quantity of specially constructed apparatus, among which is a high-pressure catalyst testing plant. This plant has been in successful and continuous operation for more than two years and is believed to be the only catalyst testing plant outside of Germany ever to be operated continuously for more than a few weeks at a time.

Of vital importance to the United States both in war and in peace is the problem of nitrogen fixation. The element forms an essential constituent of explosives, fertilizers and dyesuffs. In time of war, the necessity of importing Chilean saltpetre, with its attendant uncertainties, and fear of carrying capacity, is very serious. In time of peace the use of nitrogen in fertilizers is limited only by the supply, and if available, larger quantities would be used for increasing the food and other crops necessary to the country's welfare.

The laboratory was established primarily to co-ordinate the knowledge which had been obtained concerning nitrogen fixation by the war department; to obtain further information essential to peace-time utilization of the government's nitrate

Telegraph Briefs

SAMUEL B. BURNETT DIES. FORT WORTH, Texas, June 27.—Samuel Burk Burnett, Texas pioneer cattleman, and one of the largest ranchers in the state, died at his home here early today. The town of Burnett is named after Burnett and he owned oil and ranch property in that section worth millions of dollars.

ATTACK NOT FEARED. SPRINGFIELD, Ill., June 27.—"We have no reports of a possible attack upon the twelve wounded men in the Herrin hospital," Adjutant-General Carlos Black declared today when informed of reports coming from Herrin that the men were in danger.

General Black said the only information he had of a repetition of the massacre in Southern Illinois was the newspaper accounts of the alleged murder plot.

SHOOTS AND KILLS MAN. TOLEDO, Ohio, June 27.—Ralph Beckett was shot through the brain and instantly killed today by George W. Shaffer, 30. Shaffer then walked to police headquarters and surrendered and told of the killing.

He declared Beckett had paid attentions to his wife which he resented. Mrs. Shaffer was also detained by the police.

KILLED BY STRIKERS. BRIDGEPORT, Ohio, June 27.—One man was instantly killed and another seriously wounded early today at Lafferty, a small mining village near here, in which half a dozen men were riding to work at the strip mines of the Catherine Coal company at Uniontown, according to word telephoned Coroner C. C. Hardsyly, of Belmont county. Only meager details have reached here. An investigation is under way. The man killed, according to the report reaching here, was John H. Major, of Fairview. The Catherine Coal company is a Youngstown concern.

LEADERS PROMISE DELAY. WASHINGTON, June 27.—No further attempt to urge the Republicans to apply cloture to the tariff bill in the senate will be made until the "latter part of the week," administration spokesmen announced.

\$5,000,000 FOR CLAIMS. WASHINGTON, June 27.—A bill to authorize the United States shipping board and emergency fleet corporation to reimburse wooden shipbuilders for losses sustained by cancellation of contracts was introduced in the senate by Senator McNary, Republican, Oregon. The bill would set aside a fund of \$5,000,000 to pay off the claims.

OCCUPATION JUSTIFIED. WASHINGTON, June 27.—American occupation of Haiti was completely justified in a report submitted to the senate by a committee which visited the island republic to investigate the serious charges brought against the rule of the United States marines.

The report made by Senator McCormick, Republican, Illinois, declared American occupation of the islands was "absolutely necessary" to uphold the Monroe doctrine and to prevent military intervention by Germany and France. The committee urged retention of marines in Haiti, but asserted military courts should be abolished.

LOSS BY FIRE \$100,000. MEXICALI, Lower Calif.—Officials today endeavored to learn the origin of the fire that wiped out an entire business block and razed an additional ten residences here. Total damage was placed at \$100,000. The business block destroyed consisted of a saloon, wholesale liquor house, prize fight arena, a harness factory and a cabinet shop.

Of the \$400,000 estimated loss, whiskey, wines, beer and other liquors said to be worth \$150,000 were destroyed. Half of the entire loss was covered by insurance.

PERMANENT INJUNCTION. PORTLAND, Ore., June 27.—Federal Judge Wolverton has granted a permanent injunction to the Brookings State Bank of Brookings, Ore., against the Federal Reserve bank of San Francisco which will prevent the reserve bank from coercing small non-member banks to clear its checks at par. The practice is "unlawful," and must cease, Judge Wolverton ruled.

The court held that banks which are not members of federal reserve system have the right to charge reasonable exchange on remittances.

MINUS ARMS, LEGS, EYES. SAN FRANCISCO, June 27.—The ghastly cost at which the world war was won was brought startlingly home to San Francisco today as the last of the 10,000 delegates to the second annual convention of the Disabled American Veterans of the World War arrived for the opening session.

Minus arms, legs, eyes and there a sightless one, the boys who were America's pride, such a short time ago, met as representatives of their all-too-fast growing ranks to demand that justice be done those who paid with their bodies and health for victory.

Governor W. D. Stephens welcomed the "Daddies" at the first informal session of the convention today. Sightseeing and entertainment claimed the rest of the day in order to permit committees to work out reports for the convention.

plants, and to continue the investigation of nitrogen processes in general. Most of the laboratory's work has been devoted to the peace-time utilization of the Muscle Shoals (Alabama) cyanamid plant and to the securing of information necessary to successfully operate the Sheffield (Alabama) Haber plant.

Radio Proves Joy

Alexander Graham Bell, finding the telephone—his own invention—a great source of annoyance to him, had it removed from his home, but on the other hand finds his new radiophone set a source of pleasure and entertainment. Pipe in hand, sitting comfortably in his home, Mr. Bell, who is said to be the most ardent radio enthusiast, is shown here with his radio set.

Hobo Poodle Steals Fast Train Ride

POPULAR BLUFF, Mo.—Missouri's championship list has increased. In addition to her champion pie eater, horseshoe pitcher, hay pitcher, hog and mule, she now boasts a "champeen" poodle hobo.

When Mrs. J. J. Free boarded a train at Cape Girardeau to journey to Libburn, her poodle dog barked his intimation that he would like to accompany his mistress; but Mrs. Free ruled otherwise.

Imagine her surprise, when she alighted from the train at Libburn, to be greeted by her diminutive poodle! He had carefully selected a place on a truck under one of the cars and "bummed" his transportation to Libburn.

'Eyes' for Hoover

Christian A. Herter, private secretary to Secretary of Commerce Hoover, will sail next week for Russia to make a special study of conditions in the Volga valley famine area. Before returning to this country he will represent the commerce secretary at the European conference of the department in Berlin in July.

Air Service School Better Efficiency

WASHINGTON, D. C.—Rapid strides have been made by the Trade Test Department of the Army Air Service in reducing the number of failures at the Chanute Field (Illinois) Air Service Mechanics' School, according to reports to the War Department.

From December, 1919, to July, 1921, the reports show, the department succeeded in reducing the failures of this school by approximately 30 per cent. Only 2.2 per cent of the students were dropped during this period for ineptitude, as compared with 32 per cent prior to December, 1919.

Season Cantaloupe Yield Is Plentiful

WASHINGTON.—Cantaloupes will be plentiful in the United States this year, according to the department of agriculture.

Reports of the department show the acreage of this luscious fruit in sixteen of the late-producing states to be 53,310 acres, as compared with 47,230 acres in 1921.

Colorado has the largest acreage, with 16,000 acres. Arkansas, with 8,610 acres; California, with 7,380 acres, and Maryland, with 6,210 acres, are next in the order named.

Chorus Girl Wins for Wearing Little

LONDON.—Here is one for American theatrical producers of girly girl shows.

Miss Doris Thomas was awarded \$500 damages in a London court for having been dismissed from a touring "A-gar" company.

The manager, who dismissed Miss Thomas attempted to show that she had been dismissed for wearing too few clothes during her performance. He didn't succeed.

Four-Legged Chicken Mascot of Brood

CLAREMONT, N. H.—Archie Van Dyke, of this city, is the proud owner of a chicken in the form of a Plymouth Rock that was hatched with four legs and four feet in perfect form.

According to the owner, the chicken is doing nicely and was probably born so that it could scratch on his sidehill farm without difficulty.

Mr. Van Dyke hopes to raise the chicken, as it eats well and seems to be as lively as the rest. He terms the chick as the mascot of the hatch. It was hatched from an incubator with 150 eggs, 115 of which hatched chickens.

Hubby Too Handsome, Wife Gets a Divorce

DETROIT.—Only one woman in 25,000 didn't want Charles W. Kane for a husband, Mrs. Genevieve Kane told Judge Wayne in asking for a divorce.

"He told me he was so handsome that 25,000 women wanted to wed him," Mrs. Kane declared. The decree was granted.

CURVE WARNING SIGNAL

The Pennsylvania State Highway department proposes to test mirror danger signals to warn motorists of bad curves at night.

The signal consists of a huge red "bulls-eye" with a strong reflector behind the glass. No light is placed in warning signal, but when the light from a motor vehicle strikes it, it reflects a red signal to the approaching motorist.

Homing pigeons travel at the rate of 70 miles an hour.

Mr. and Mrs. E. L. Parke of 377 West Lexington drive and Harry LeRoy Redd attended the social evening given by the Los Angeles Matrons and Patrons' association of the Eastern Star at Moneta chapter, at 61st street and Moneta, last night.

Dr. and Mrs. R. L. Young of 1007 North Brand boulevard were guests at a house party over the week-end of Lewis Wank at Seal Beach. Dr. and Mrs. Young are entertaining at dinner tonight Alfred Parks of San Francisco and sister, Miss Ethel Parks, of Hermosa Beach.

Complimenting her schoolmate, Miss Margaret Wilson, who leaves shortly for a summer visit in New York, Miss Sarah Allen of 352 West Lomita avenue entertained with an informal luncheon party today. Misses Georgiana, Doncken and Marie Hearnshaw were also guests.

Rev. W. E. Edmonds, pastor of the Presbyterian church, went to Los Angeles this morning to attend the day's session of the Presbytery at the Boyle Heights Presbyterian church. In addition to the routine business, reports were heard from the commissioners who attended the general assembly at Des Moines, Ia.

Laguna Beach people had the pleasure Saturday evening of hearing a program at the Laguna Artists' club by Miss Mildred Pray, Glendale pianist, and Robert Bias, baritone of Los Angeles. The program was given in the Laguna art gallery for the artists' club. Miss Pray returned home Sunday evening.

The members of the Saint Mark's Episcopal church Sunday school enjoyed an outing and picnic at Brookside Park in Pasadena yesterday. The young people spent the day from ten to four there and enjoyed swimming, tennis, other sports, and a picnic lunch. The older people came over to the park later in the evening.

Miss Phyllis Kuehny of 703 North Jackson street entertained a party of school friends at a luncheon party at her home last week. The guests included Anna Moss, Marie Grigg, Elsie May Forsythe, Jo Ruth Clarke, Alice Houston and the hostess. Table decorations were carried out in a color scheme of pink and lavender. Following luncheon games and music were enjoyed.

Mrs. Helen L. Sadler, who has been visiting friends in Long Beach since June 1, will return to Glendale on Friday of this week. She will stay at the home of her daughter, Mrs. E. L. Young, 325 Milford street, for a few days and then go to Santa Monica where she will make a short visit. In the very near future, Mrs. Sadler will make the trip to San Francisco, and while there she will visit her daughter, Mrs. D. Arthur Edwards of Berkeley, formerly of Glendale.

The members of the Tuesday Afternoon club met yesterday afternoon at the home of Mrs. C. E. Hutchinson, 246 North Orange street. Mrs. Daniel Campbell, chairman of the special finance committee, reported that the \$10,000 advancement on the guarantee fund had been secured from the business men of the city. An executive committee of five was elected to serve with Mr. Priest, the architect, for the new club-house, the members being Mrs. C. E. Hutchinson, chairman, Mrs. A. P. Findlay, Mrs. Daniel Campbell, Mrs. H. E. Bartlett and Mrs. A. M. Hunt.

Deaths and Funerals

DR. D. WINSLOW HUNT Funeral services for Dr. D. Winslow Hunt, who passed away at his home, 644 West Myrtle street, Sunday night, will be held tomorrow afternoon at 2 o'clock at the parlors of Pulliam-Kiefer and Eyerick Undertaking company. Reverend Hugh Cornell of St. Marks Episcopal church will officiate. Interment is to be at Evergreen Cemetery, Los Angeles.

CHARLES O. GOLDEN Funeral services for Charles O. Golden, 42, a veteran of the Spanish-American war, who died in Gardena Sunday morning, are to be held at 2:30 o'clock this afternoon in Forest Lawn cemetery. Mr. Golden, although a resident of Los Angeles, will be remembered by Glendale residents as the operator of the ferris wheel at the recent fiesta here. It is he who said, when asked how long a ride he gave the children who patronized his wheel: "Oh, I haven't any time limit. I let 'em ride as long as they enjoy it."

While he was taking down his wheel at Gardena at 11 o'clock Sunday morning Mr. Golden suddenly collapsed. Doctors announced that he died instantly from heart failure.

Mr. Golden was a life member of the Spanish War veterans, and of the Eagles' lodge. His body is at the Booth & Boylson parlors in Los Angeles, and the Eagles are to have charge of the services. When the body is brought to Glendale this afternoon for burial, the Roosevelt Camp of the Spanish War veterans will assist in the service.

After his recent visit in Glendale, Mr. Golden decided to move here, and had already made application to be transferred to the local Veterans' camp at the time of his death. It is probable his widow, who is now in Los Angeles, will come here to reside.

HOME FROM SAN DIEGO Mr. and Mrs. Ferd Goodfellow of 705 South Adams street, motored to San Diego Saturday and returned home Monday morning.

Mrs. Goodfellow's mother, Mrs. F. P. Allen, who has been spending the winter in Glendale has returned to her home in Lisbon, North Dakota.

ROTARY CLUB ON TRIP Members of the Glendale Rotary club will go to Burbank tomorrow, Wednesday night, to aid in a Boy Scout mass meeting. They will gather at the front of the Burbank grammar school on San Fernando road at 7:45 o'clock for a singing entrance to the meeting.

GIVES CROQUET PARTY Miss Thelma Wise of 232 North Maryland avenue entertained Miss Irma Stanley and Miss Stella Bolan of Oakland and Misses Rita, Jessie and Elsie Levey of Glendale at a croquet party at her home last evening, after which refreshments were served.

LUNCHEON IS POSTPONED The regular Tuesday luncheon meeting of the Glendale Chamber of Commerce board of directors was not held today because a quorum could not be obtained. A special meeting has been called for Friday night.

POISON CARROTS, SO LONG, GOPHER!
Three Hard Shelled Citizens Find Home In South Glendale
Mike, Pat and Jerry are new arrivals in Southern Glendale. They make their headquarters at 1430 South San Fernando road in the shoe repair shop of J. B. Murphy. They are "hard-shelled" citizens and, when anything displeases them, they pull into their shells. They don't care how hot it gets because they live in a basin of water.
Have you guessed it yet? They are turtles. Mr. Murphy is hoping that they will grow up soon so that he can make shoe leather out of their hides. However, they seem to prefer beauty to avoidropis.

Industries to Feel Coal Shortage Soon
WASHINGTON, June 27.—Within five weeks the nation's great basic industries will begin to feel the pinch of coal shortage. The country, as represented in communications from commercial organizations and individuals in many states, is beginning to demand action from the federal government that will end the three months' strike.
Confronted with this situation and these facts, President Harding took up with his cabinet today consideration of measures that will end the present "intolerable situation" as one cabinet officer described it.
The President met with his cabinet fresh from his conference with John L. Lewis, president of the United Mine Workers, and the administration's two first lieutenants in seeking settlement of the controversy, Secretary of Commerce Herbert Hoover and Secretary of Labor Davis.
What measures the administration is prepared to advance and what methods the federal government has under consideration for the future control of the industry were not disclosed, but apparently, officials said, the only course open to the government is the summoning of the operators and miners into a joint national parley to fix a national wage scale, as demanded by the miners when they first dropped their tools some thirteen weeks ago.

Purchases Site for Sash and Door House
A new site for the Glendale Sash and Door House of 1426 South San Fernando Road was purchased yesterday from Harry Tobias of 1633 South San Fernando Road. It is located on the south side of Gardena avenue about a block east of Los Feliz Road. C. S. Jordan and J. M. Murray are now busy making plans for their new cabinet shop and hope to have their new plant under construction inside of two weeks.

S. W. FENTON ON TRIP
S. W. Fenton of 530 Oak street spent the week-end at Big Bear. He makes his "night" quarters at 460 West Los Feliz road with the Bentley-Schoeneman Lumber company.

Auto Trip Hostess
Mrs. George Postle of 501 West Patterson avenue entertained a party of Glendale friends yesterday with a motor trip to Pasadena where they visited a few of the new buildings that were designed by her husband, a local architect. One was a court of nine units, of English half-timber which is quite unique. This is located on Euclid avenue. Another is a handsome salesroom and garage built for an automobile agency at Catalina and Colorado which is being universally admired. Of Spanish design, with archstone entrance, Granada tile roof, flagstone floor and rough timber finish, modeled after old types, with a plate-glass window of the unusual size of twenty-two feet long, besides two windows each of eighteen feet length, contributing the modern touch and finish, the combination is altogether most pleasing and original. The general offices are arranged on an upper balcony, fitted with casement windows, hung with draperies, and it is a very unusual type of business house.

Giving Things Away Getting to Be Habit
In California people get accustomed to about anything. One of the freaks of the season is that merchants, real estate men and others have the habit of giving things away.
Charles Sterzing, formerly of Glendale, who has just opened a confectionery and soda fountain at 732 East Colorado boulevard in the new Guthrie building, which he has named "The Bright Spot," was seen giving away 15-cent cigars and oodles of candy Saturday.
About everyone in Eagle Rock got a coca-cola for a nickel and a 15-cent cigar for nothing. Then there was E. E. Brown of the Park Avenue Pharmacy in Glendale who gave away ice cream last Saturday. That made a great hit, too, with his patrons.

Patriotic Picnic On July 4 at Sycamore
Sycamore Grove park, Los Angeles, will be the scene of a patriotic picnic on July 4, it is announced by Thomas Hull of the N. P. Banks post, G. A. R., who attended a meeting of the post officers in Patriotic hall last Saturday afternoon.
Veterans from all parts of Southern California are expected to attend and those from Glendale may get to the picnic place without going through Los Angeles' business section by taking the Glendale and Montrose line to Eagle Rock, the Eagle Rock line to 28th street where a transfer may be made to the Garvanza line.

TRAFFIC IS GREAT BUT NO CRASHES
Officer G. C. Delgado Is Being Complimented on Efficient Methods
No automobile collisions occurred Sunday at the intersection of Los Feliz and San Fernando roads despite the large volume of automobile traffic.
W. E. Anderson, proprietor of the service station at 1340 South San Fernando Road, believes that Officer G. C. Delgado is to be complimented for the manner in which he handled the situation from "the button."
Mr. Anderson does not believe that the warmth of the day was a deterrent to speed.
"I think," he said, "that everybody went as fast as the law would allow."

New Owners Take Over Variety Store
The South Glendale Variety store at 1413 1-2 South San Fernando road has been purchased by J. N. Richards of Montrose and S. L. Smith of 514 Palmer street. They expect to make no changes in its stock. B. V. Brasher of 1017 Melrose street, former proprietor, was ill for a number of weeks the first part of the year and thought a change of occupation desirable.

Two Scotch Terriers Gain Blue Ribbons
Mr. and Mrs. A. N. Fairchild of 1033 Boynton street returned Sunday night from Coronado where two of their Scotch terriers won blue ribbons at the dog show. The two pets have never been beaten. Their names are Wee MacGregor and El-Kil-a-dad Meg of Kilda. A pleasant excursion was reported, although the temperature was somewhat "upish."

New Tire Shipment for A. F. Barrett
A new shipment of Ajax tires and tubes has just been received by A. F. Barrett in his filling station at 1799 South San Fernando road, known as the Triangle Service Station. Mr. Barrett considers this tire especially durable and particularly reasonable in price.

Blinky Weather, So Dad Anderson Says
This is "blinky" weather! "Dad" Anderson says so. He paused in his store at 1429 South San Fernando road yesterday long enough to remark that the drowsy temperature surely made him blink.
"I don't know anything about regulating this weather," he added, "because I'm not running the furnace."

JOURNEY TO LAKE TAHOE
Lake Tahoe is being visited for the next couple of weeks by George H. McLean of 1531 South Central avenue, Frank W. Murphy of 1529 1-2 South San Fernando road, and Elmer E. Rucker of 1513 South San Fernando road. They expect to bring back an automobile full of fish. Meanwhile, Mrs. McLean has dominion at 1525 South San Fernando road over the Triangle garage.

TWO KILLED IN CRASH
GETTYSBURG, Pa., June 27.—Captain George B. Hamilton of Washington, D. C., and his mechanic, Sergeant Martin, were killed here when their airplane went into a nose dive at a height of 2,000 feet. The plane, of the DIF-4 type, was wrecked. Both were members of the marine corps.

P. E. MAXWELL IS BACK
P. E. Maxwell of 129 Burchett street has returned to his duties at 460 West Los Feliz road as manager of the roofing department for the Bentley-Schoeneman Lumber company. He enjoyed a week's vacation.
H. G. ROSS TAKEN ILL
H. G. Ross, Southern Glendale optometrist, was ill yesterday at his home, 1522 South San Fernando road.

George B. Karr's Torture Chair Gets Them Away Quick
George B. Karr of the Baldwin Shirt factory in the Gateway building, San Fernando and Brand boulevards, believes in brevity on the part of salesmen. He likes them to come in, sit down, say their say and get up and go out.
So he has installed what might be called "the uncomfortable chair," a straight back, bust your back seat, for the benefit of the worthy person, and "we know whereof we speak."

BUSINESS BETTER THAN VISUALIZED
San Fernando and Brand Corner Proves Popular As Trading Center
When the real estate man a little more than a year ago predicted that the corner of San Fernando Road and Brand boulevard was a good business proposition for a market, he was "pooh poohed" by some of the old timers who "couldn't see it."
It took George B. Karr from Parsons, Kan., to come in and build the Gateway block, Claude Caswell to lease the market, etc. Now Mr. Karr, or Mr. Caswell, or Mr. Franklin of the grocery department, or Mr. Tompkins, the druggist, or Wilson-Bell Hardware company, or Mr. Danrosch of the Glendale Monument Works wouldn't trade with others in supposedly more favored spots.
Business is better than expected by the Gateway Market people and six months of pioneering sees practically all of them succeeding. They would do even better if much of the property in that vicinity was not held by speculators for, with the exception of C. J. and Corinne Orff, they are not improving the valuable sites. The Griff building will be ready for occupancy August 1.

Jazz Dining Room Furniture Feature
"Who says jazz is dying out?" is the query of J. M. Wilson, manager of the jazz at 1728 South San Fernando Road, owned by the Wilson-Bell Hardware company.
A stock of dining-room ware has been placed on display by him. Several of the sets are ornamented with jazz designs.

THEY GET WET ALL OVER
"Charlie" Comfort, estimate man at 460 West Los Feliz road for the Bentley-Schoeneman Lumber company, was host yesterday to a bathing party at Bimini. He said that he happened to be going in there himself and picked up a bunch of friends who looked warm. And that ain't all! Saturday afternoon he was at Venice.

SAYS BUSINESS IS GOOD
The Sunset Fair, which opened recently in Tujunga, is doing a good business already, according to S. Lipson. He also operates an establishment at 1410 South San Fernando road under the name of the Modern Cleaners and Tailors.

AUTO TRIP IS ENJOYED
An automobile trip to Santa Monica was enjoyed Sunday by Mr. and Mrs. Ed Gabel and their two children, Ed Junior and Russell, of 1412 1-2 South San Fernando road, and Mr. and Mrs. Charles Pittman of 1365 South San Fernando road.

DIRECTS LUNCH COUNTER
The Jack O'Lantern Lunch Counter at 444 West Los Feliz road is now under the direct management of Mr. and Mrs. F. B. Root of 109 North Brand boulevard. Their son and daughter-in-law, Mr. and Mrs. John McKittrick, who are professional musicians, have gone to Balboa Beach to fill an engagement at a new hotel.

LIKE HOME COOKED FOOD
The demand for home-cooked food continues strong, according to Mrs. G. C. Pearce, chief chef of the lunch counter at 463 West Los Feliz road in the Green Hill tavern. She says that the public has taken a positive liking for baked Virginia ham, home-made potato salad and home-made mayonnaise dressing.

CATCH GOOD TIME ON TRIP, ANYWAY
Lumber Company Officials Invade Big Bear for Week-end Outing
Some of Glendale's most confirmed fishermen went fishing at Big Bear lake over the week-end, and while not so many fish were caught, a good time was reported by the following Bentley-Schoeneman Lumber company executives and employees: George, Ray, Roger and John Bentley, Park Arnold and Al Sullivan.
Commenting on the trip, George Bentley says that a great number of new homes are being built along the entire route of travel. And the beauty of these newer places is manifested in their architecturally correct appearance.
The Bentley-Schoeneman company realize the great necessity for better built homes and are furnishing free plans to customers in order that the home builder may know that his house is architecturally correct in every detail, according to Mr. Bentley.

Dr. and Mrs. Cruise Visiting in Glendale
Dr. and Mrs. J. P. Cruise of Chicago arrived recently to spend a month at 1514 Gardena avenue in the home of Mr. and Mrs. F. B. Reichenbach. Dr. Cruise is attending the dental convention at the Ambassador hotel and vacationing at the same time. Both are much attracted to Glendale and have given an invitation to locate here some consideration.

Furniture Display Attracting Attention
A new set of bedroom furniture decorated with Brill design and finished in meerschaum is now being displayed at 1531 South San Fernando Road in the show room of the Russell-Pierce Furniture company. It is considered quite an attraction for anyone who likes "chic" furniture.

HE FELSLS WILD WAVES
Jimmy, 2-year-old son of Mr. and Mrs. J. A. Malch of 414 Fernando court, is too young to pay much attention to what the wild waves are saying. However, he learned Sunday at Topanga beach that he will get wet if he stands too near the shore. Fortunately, he was enclosed in a bathing suit. He was accompanied by his two brothers, "Joe" and "Bob" and his "ma" and "pa."

HOSPITAL PATIENTS ARE SAFE, SAYS HERRIN MAYOR

Wounded Men Are Immune From Slaughter, Asserts Town's Official

By JAMES L. KILGALLEN
For International News Service.
HERRIN, Ill., June 27.—"I do not expect new violence. I will die fighting, if necessary, to prevent the shedding of another drop of blood in Herrin."
Mayor A. T. Pace of Herrin made this grim statement at 3 o'clock this morning, when, accompanied by Chief of Police Robert Herring and the correspondent of International News Service, he made a personal investigation of the sinister reports late last night that the twelve wounded non-union men were to be taken from the Herrin hospital and deliberately slain so as to prevent their telling of their story to the world.

This startling report, emanating from the hospital late last night, was transmitted, it was said, to Adjutant-General Carlos Black at Springfield with the information that at least a dozen men in military uniforms he sent post haste to Herrin to convey the patients from the city.

Adjutant-General Black, it was understood, will attempt to get in touch this morning with State Senator William J. Sneed of this district and Mayor Pace.

Personal Inquiry
At 2:30 o'clock this morning the writer went to the home of Senator Sneed and was informed by Mrs. Sneed that the senator was in Springfield.

Mayor Pace was at his home, however. He hastily put on his clothes and declared he would make an immediate personal investigation.

"I am taking no chances," he said. "I will gladly run this down."
Taking a pistol from a drawer the mayor went to the telephone and summoned Chief of Police Robert Herring. In the mayor's car the three investigators drove through the dimly-lighted streets in the direction of the hospital.

As the machine turned into the street where the hospital is located a man suddenly arose from the weeds. Another came swiftly across the lawn.

"It is me, Pete, it's Pace," said the mayor, quickly.

A heavy set miner in a blue shirt and overalls muttered a recognition.

"Any trouble in sight?" asked the mayor.

Neither of the men had noted anything unusual. Just like other nights, they reported.

The mayor inquired concerning other men. They had "gone for a cup of coffee."

"These men," Mayor Pace explained, "are plain clothes men I have guarding our hospital."

Under a flickering arc light the mayor's face was seen to set grimly. Then he spoke slowly:

"Should we have trouble at this hospital—and God forbid—I can muster a small army of men who believe in Herrin, men who do not want any further disgrace cast upon our town. Many of them are business men. They are the type of men you saw digging the graves at the cemetery last Sunday."

The machine came to an abrupt halt before the home of Dr. J. T. Black, head of the hospital, who, according to reports, had expressed himself a few hours before that unless some protection was afforded his patients other killings were inevitable. It had been suggested that the patients be removed at night.

Dr. Black, a thin, stooped, elderly man, came to the front porch in his bare feet and bathrobe.

"Yes," Dr. Black admitted, "some of the patients are mighty scared."

Asked if he had heard reports of threatened killings, he said he had, but he did not take much stock in them.

Questioned as to the effect of the incoming of troops, Dr. Black said that would be about the worst thing that could happen, as it might immediately provoke hostilities.

No Trouble Expected
"Let a good guard such as yourself, mayor, and a few men of your type escort them to the station, or as far as Carbondale, and none of these men will be attacked," Dr. Black suggested.

Mayor Pace then said: "I am convinced that there is no likelihood of further bloodshed. There is, of course, always the possibility that some fanatic, who wants a last lick, will start something. For this reason, I promise you, gentlemen, that I shall personally escort these men from the hospital. There has been enough stigma on the name of Herrin. I know my people. I was not in town when the other terrible tragedy occurred, but I have since talked to the men of this town and I know they intend no harm. They have fittingly buried the dead, they have been solicitous of the welfare of the wounded, and I know that their present intentions are right, reports to the contrary notwithstanding. I am willing to sleep in the hospital from now on and take my chances."

The mayor added that he would strongly counsel against sending of troops into the district.

The lotus of the ancients is believed to be the date palm of southern Europe.

'FAIR LADY' NOW T. D. L. FEATURE

Rex Beach Romance in Film Adapted From Famed Novel, 'The Net'

Thrills, romance and mystery in a setting of exquisite artistry; action, heart-interest and a dash of history, are the ingredients that make up the splendid offering at the T. D. & L. theatre today, where Rex Beach's "Fair Lady" is holding rapt attention.

"Fair Lady" is a romance, but nevertheless a typically smashing Rex Beach story. It is an adaptation from the famous novel, "The Net," with much new material added at Mr. Beach's suggestion, and the result is a screen drama that meets every requirement of an exacting public. It is entertainment of the highest order, superbly put on in sumptuous sets and played by an exceptionally well-balanced cast.

Miss Betty Blythe is seen in the leading feminine role supported by Robert Elliott, Thurston Hall, Gladys Hulette, Florence Auer, Arnold Lucy, Macey Harlan, Walter James, Henry Leone and Effingham Pinto. It is a Whitman production directed by Kenneth Webb and released by the United Artists.

Forty U. S. Citizens Prisoners In Mexico

WASHINGTON, June 27.—Forty American citizens and property valued at \$250,000 owned by the Cortez Oil company are being held for ransom near Tampico, Mexico, by the Mexican general, Gorozabe, the state department was advised today. The general has twenty-four well armed men under his command.

The dispatch to the state department came from Consul Shaw at Tampico. He said the general was holding the Americans and the property for 15,000 pesos ransom, giving them forty-eight hours to get the money. The capture took place at Aguade, near Tampico.

The state department has instructed the charge d'affaires at Mexico City to make vigorous representations to the Mexican government to obtain the release of the American prisoners and property.

Consul Shaw was also instructed to make representations to the local authorities at Tampico, demanding the immediate release of the Americans. It is understood that there are no regular Mexican troops in the vicinity of Tampico.

Labor Heads Plan Course of Action

CHICAGO, June 27.—Definite announcement of the course of action to be pursued by the policy committee of the railway employees' department of the American Federation of Labor in connection with the strike vote now being taken is expected to be made Thursday. B. M. Jewell, head of the department, announced that an important statement would be issued at that time.

Cavass of the strike ballots sent in by the membership of the shop crafts unions continued today and is expected to be completed by Thursday. Conferences of the policy and executive committees continued also, but no announcement of what transpires is being made.

It was reported unofficially that if a strike is ordered the date will be fixed for July 15. J. C. Smock, vice-president of the maintenance of way employees, is reported to have predicted the July 15 strike. Smock is also quoted as saying that a meeting of the executives of the standard railway unions will be held in Chicago within the next few days to discuss a plan of action.

Pretty Girls Offer Green Hill Drinks

A replica of the Green Hill beverage plant, mounted on a Ford chassis, made its appearance on the streets of Glendale yesterday with two beautiful girls dispensing Green Hill drinks for the benefit of the war mothers.

SULPHUR IS BEST TO CLEAR UP UGLY, BROKEN OUT SKIN

Any breaking out or skin irritation on face, neck or body is overcome quickest by applying Mentho-Sulphur, says a noted skin specialist. Because of its germ destroying properties, nothing has ever been found to take the place of this sulphur preparation that instantly brings ease from the itching, burning and irritation. Mentho-Sulphur heals eczema right up, leaving the skin clear and smooth. It seldom fails to relieve the torment or disfigurement. A little jar of Rowles Mentho-Sulphur may be obtained at any drug store. It is used like cold cream.—Advertisement.

GEORGE E. JEFFRIES TELLS OF TIME IN YOSEMITE

Says There's Plenty to Do In the Valley; Coming Home This Week

The Glendale Evening News is in receipt of the following letter from George E. Jeffries of 329 Salem street, who, with Mrs. Jeffries, has been spending the past month at Yosemite National park and anticipate arriving in Glendale Thursday evening.

Editor Glendale Evening News: Those of the Spickerman and Jeffries camps here thank you very much for the News, as through it we have been permitted to keep in touch with the growth and business of our flourishing city since our visit here. We are now looking forward to the time, possibly Monday, June 26, when we will pull up stakes and start for Glendale.

"We have been here almost four weeks, and every day as we view this wonderful valley with its rolling hills, its great rock domes and spires, pointing heavenward for so many thousands of feet, its great lakes still further up in the Sierras, our faith in some higher power is much strengthened.

While the falls of the valley are somewhat diminishing, the time of the year brings out the beauties of the wild flowers, one of which is the snow plant, a beautiful red in color. Each day one can see something new in the valley. We have a nature guide here that can acquaint one of many things of interest.

Lets No Fish Pass
"This is a fine morning. We find C. W. Spickerman getting his net rigged up to pull in the fish that might be swimming past the Glendale camp, for we are tenting on the banks of the Merced river. It is often said that it is easy to say things to one's back rather than to their face. Well, it is so in this case, for Mrs. Jeffries and I join in telling you that if you want some real chums for campers you will make no mistake in choosing the Spickermans for they will show you a fine time.

"The crowd in the valley this week is estimated at about 3,500. There are two large hotels in the valley, and about 200 pack horses and mules, some donkeys, possibly thirty large sight-seeing cars, three postoffices, one express office, and still the manager at Camp Curry announced that they were taxed to their limit.

"The streets of the valley are well sprinkled, also the rangers are on the alert. The speed laws tell us to only drive fifteen miles on curves or twenty miles on the straight road. If we step on it harder they say 'we want to see you at the rangers' stations.' May-

'SCHOOL DAYS' IN FILM IS GREAT

Freckles Barry Wins With Happy Smile Patrons for Glendale's Show

The freckle-faced movie celebrity, Wesley Barry, once more graces the screen as a luminary in Gus Edwards' "School Days," which is shown for the last times at the Glendale Theatre today. The picture is sponsored by Warner Brothers, and it was produced by Harry Rapf and directed by William Nigh.

It is no reflection on the ability of Wesley Barry's past performances to say that in "School Days" he is seen in a part that will undoubtedly endear him to his countless admirers. For the picture has an appeal that is irresistible. It is irresistible because every mother who has boys, every man who remembers his boyhood will glory in the pranks of Speck Brown.

And today is the final opportunity for enjoying this screen classic. Tomorrow will see the "Four Horsemen of the Apocalypse" as the drawing card.

Lewis Davis Moves to 210 E. Broadway

The constant growth of the linoleum business has made it necessary for Lewis C. Davis to seek larger quarters than were afforded at 417 East Broadway, so he will be found henceforth at 210 East Broadway. Additional lines of linoleum and some rugs have been added to his stock and there will be someone in the store all day while Mr. Davis is away personally putting down the linoleum, which he sells, a big service to the purchaser.

FACES MURDER CHARGE

FREEPORT, N. Y., June 27.—In an impromptu court held just before daylight in a room adjoining that in which Edythe Lavoy, 22 years old, school teacher of Tupper Falls, N. Y., died by a bullet, William Creasy, 30, of Covington, Ky., was arraigned on a charge of murder in the first degree. Creasy pleaded not guilty and was held for the grand jury. He was taken to the Mincola jail to await trial.

he they will house your car for you while you stay in the valley. They are clever fellows.

"So, our Glendale friends, we expect to spend one day in Fresno with friends on our way home. We will reach Glendale about Thursday evening if all is well.

"Even after a month's stay in the valley we are not tired of the place. We have fine neighbors and get acquainted with new ones every day. The weather is somewhat warmer now, and it is nothing to see from one to a half dozen deer standing near.

GEORGE E. JEFFRIES."

Attractive Issue Closed

Due to the unprecedented sale of Edison Common Capital Stock, during the past several months, Southern California Edison Company, as of this date, announce the closing of their offering of this attractive security.

During the past year, the people of Southern and Central California have taken advantage of the company's offer to become partners in this stable utility, in such number, and with such enthusiasm—knowing the benefits accruing from such an investment—that no more of this stock is now available for distribution.

The confidence of the general public in securities of this organization is evidenced by the fact that over 47,000 stockholders are now benefiting by investment in Edison Capital Stock.

NEED SIGNATURES FOR CREDIT ACT IMMEDIATELY

American Legion Leaders Urge Quick Action to Secure Enough Names

The ten million dollar farm and home loan credit act for the benefit of ex-soldiers and sailors in the state of California must be abandoned unless a great many signatures are obtained in the next two weeks to petitions now being circulated throughout the state.

A decision of the supreme court of California last week declared a certain portion of the act which was passed by the state legislature unconstitutional. At a dramatic all-night meeting of American Legion officials in San Francisco recently it was decided to have the legislation validated and approved by the people at the next general election in November.

In order that every name may be checked up on the election registers, petitions must be turned in two weeks from last Friday night. To lose no time in getting started with them, they were printed about 2 o'clock in the morning and dispatched to Southern California by airplane.

600 Names in Glendale The quota of names for Los Angeles county is 60,000 and for Glendale 600. These petitions are being circulated today by members of the local post of the American Legion.

The ten million dollar farm and home loan credit act proposed a bond issue for \$10,000,000 to be used as capital by the state in granting a loan of \$7,500 on farms and \$5,000 on homes both of which must be appraised and approved by a regularly appointed state department. Soldiers and sailors, who enlisted from California are eligible for these loans. Five per cent of the amount they borrow must be paid down and the balance of the loan is repaid in monthly installments. Five per cent interest is paid on the unpaid balance.

Although this proposed measure seems to be approved generally, signing one of the petitions does not signify that the signer endorses the project. It merely means that he is willing to have the measure placed on the ballot for popular approval or rejection.

Benefits Pointed Out Among the benefits of this legislation as seen by the American Legion is the fact that it affords veterans an opportunity to secure a home or farm of his own at a low rate of interest and will afford relief to those who have faced the reconstruction period with limited capital.

The measure is expected to add to state prosperity through the creation of new homes and the cultivation of vast and fertile undeveloped acreage. The taxable wealth of California is to be increased by many millions of dollars. Owing to the fact that every cent of the loan is to be repaid to the state with interest, it has been pointed out that the measure will not add to state tax burdens.

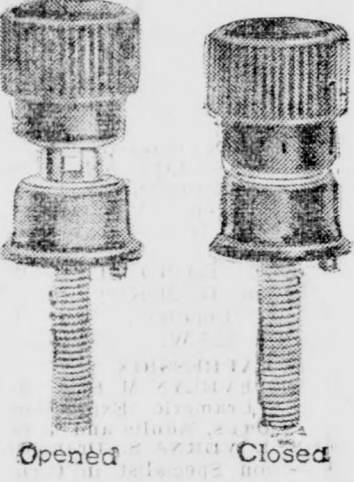

Pythian Drill Team At Hollywood Lodge The drill team of the Glendale lodge, "Knights of Pythias, were visitors at the Hollywood lodge Thursday night. They assisted in conferring the Knight rank on the Hollywood candidates, and afterwards enjoyed a social hour.

The Knights of Pythias and the Dramatic Order of Knights of Khorrassan are to enjoy their annual picnic at Kenosha park, Pomona, on July the Fourth. Varied athletic and other entertainment will be provided, and the drill teams will perform. A baseball game between the Long Beach and Pomona lodge teams has been arranged for, and a general good time is promised.

Pythians and D. O. K. K.'s from all lodges in this district are to be present at the affair.

NEW APPARATUS AND DEVICES By RALPH BROWN RADIO ENGINEER, CUTTING AND WASHINGTON RADIO CORP

A UNIQUE BINDING POST Such a plebeian thing as a binding post might not be thought worthy of much consideration when such things as regenerative receivers and radio frequency amplifiers are being designed. Sometimes, however, a small thing will cause a set to stand out above

pin to be readily held without marring or damaging it. Outwardly, the post is quite similar to others in design, but the interior construction is quite different. It is really made in three parts, all of which are accurately machined. There is a main body, a sliding shoe and a knurled screw cap. The cap is insulated. When it is turned in one direction the sliding shoe is moved down until it clamps the wire or connector against the base. There is also a sharp point to cut the wire. Turning the knob in the opposite direction raises the shoe and releases the wire. Spade terminals may be used as easily as pin terminals or wire. The base is insulated with a material which does not easily chip from constant use or rough handling. The same material is used in the insulated knob. The posts illustrated have dowels in their bases, which prevent the posts from turning after being mounted. The posts, however, may be had without these dowels if desired. There are various sizes, so that any size wire or terminal may be accommodated. The threaded extension may be had in either an 8-32 or a 10-32 thread. While not a cheap post, it is efficient, durable and economical in the long run and will probably meet with considerable favor where care is given to small details in the construction of radio equipment.

RADIO EXPLAINED By E. H. LEWIS INSTRUCTOR NEW YORK Y.M.C.A. RADIO SCHOOL

It has been pointed out that under certain conditions the plate current can be made to alternate above and below a certain steady value without changing its direction of flow. That is, that under these conditions an alternating potential applied to the grid will cause a rising and falling plate

current. Suppose that with a given variation of the voltage applied to the grid from a generator the plate current varies ten units above and below its normal value. Then suppose that the same variation of plate voltage is caused by putting the generator in the plate circuit in series with the plate battery. The plate voltage will rise and fall about a steady value as the generator alternately adds to and subtracts from the battery voltage. At the same time, the plate current will also increase and decrease about its steady or normal value, but this time the variation is only one unit above and below normal. It is seen that the same alternating voltage applied to the grid caused greater plate current variation. This is where the value of the grid comes in. It acts as a trigger or control valve and produces a relay action, so that very small potential fluctuations on the grid cause comparatively large plate current fluctuations.

ORGANIZATION OF HUNDRED THOUSAND DOLLAR LAD BRITTON-LEONARD

QUOT PITCHERS IS PROPOSED

Peggers Will Convene at Des Moines for Iowa State Fair

DES MOINES, Iowa, June 27.—Horseshoe pitching, that delicate art indulged in by unorganized fashion for years back of barns, on the front lawns and in the open prairies, soon is to be put on a strongly organized national basis.

A "national league" or horseshoe pitchers, or something to that effect, is about to be formed. Consolidation of the various horseshoe-pitching associations now in existence is to be effected at a convention of the quot peggers in Des Moines during the Iowa State Fair, August 23 to September 1.

It is estimated that there are approximately 1,000,000 men and women horseshoe players in America today.

In every State in the Union horseshoe pitching is going on furiously, and while there is no immediate danger that this game will supplant baseball as the national pastime, horseshoes have become so popular that it has been deemed advisable to establish, on a self-sustaining basis, a central and controlling body, reorganized as the "National Organization," devoted to the welfare of the ancient and honorable game of horseshoe tossing.

At the suggestion of B. G. Leighton, president of the National Horseshoe Pitchers' Association, Charles Roy Cox, of Columbus, O., has drawn up a constitution and by-laws for the new national organization to be formed by the horseshoe pitchers during State fair week.

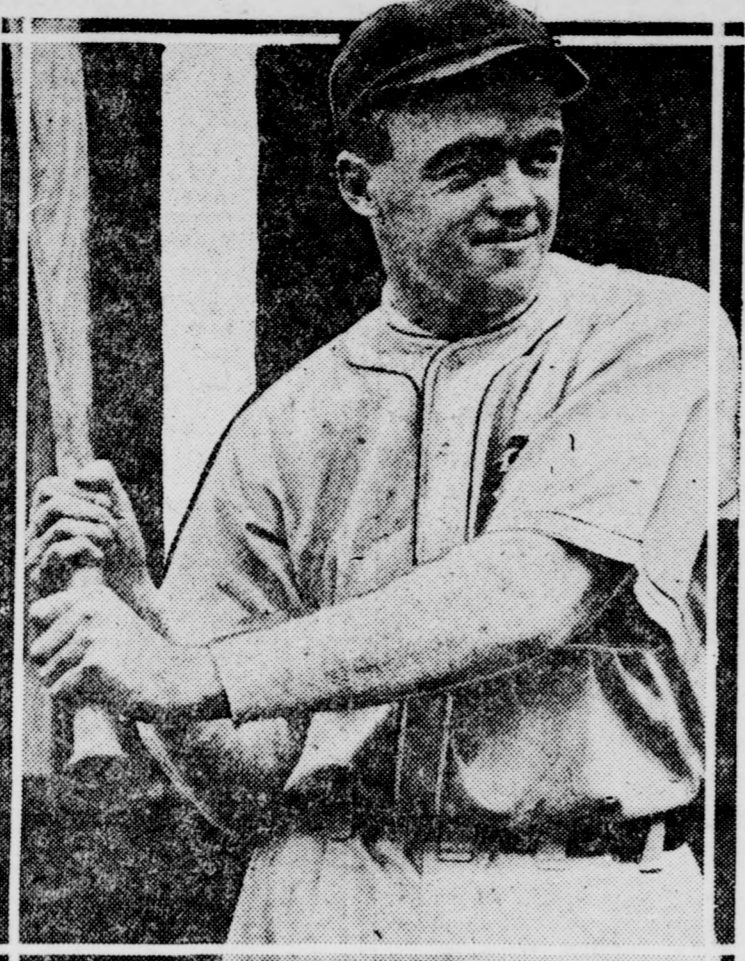

Cox's idea on what should be done is substantially as follows: Divide the country into four sections. Hold tournaments in each division, as well as in each State. Send winners of State division tournaments to the national meet. Submit all elections and important matters to affiliated clubs for a vote by mail or telegraph. Keep the interest in the game alive.

Questions, such as "When is a ringer not a ringer?" and other problems that perplex the uninitiated, would be settled by the national "grievance committee," and definite rules would be laid down for all "big league" contestants, so that they may enter the great tournaments of the future with as accurate knowledge of what ought not to be done as is possessed by the great "Eabe" Roth when he dons his spangles and enters the baseball arena.

Number of Arrests Result of Warning

LONDON, June 27.—Colonial Secretary Winston Churchill's warning that the Irish provisional government must clear out of the headquarters of the irregular faction of the Irish provisional government in Dublin was followed today by a number of arrests, including that of Commandant Henderson, one of the chief aides of "Tory" O'Connor, commander-in-chief of the republican faction of the Republican army.

The Irish police are more active than they have been at any time since the creation of the Irish free state.

Willie Kamm, star third baseman of the San Francisco baseball team, who has been bought by the Chicago White Sox for \$100,000 and two players valued at \$25,000.

The Sport Crucible

By Davis J. Walsh International News Service Sports Editor

NEW YORK, June 27.—It is presumed that the New York state athletic commission knows what it is about when it orders Jack Dempsey to accept the challenge of Harry Willis by July 10, under pain of ex-communication from the heavyweight title.

The date set is a trifle more than two weeks away and the commission, if it has thought about it at all, will realize that that is scant time in which to put through a proposition of that magnitude.

West Wins Honors At Tennis Tourney

PHILADELPHIA, June 27.—Fans see at the tennis tournament here one of the most successful invasions western racquet wielders have ever staged on eastern courts.

Richard Binkley, the 19-year-old wonder from Leland Stanford university, is the recipient of much praise for his victory over Harold Gossip, former national boys' doubles champion.

Wray Brown of Washington university has shown his ability by handling Gerald Emerson, captain of the Columbia university team, with ease.

Great Showing Made By Washington Crew

POUGHKEEPSIE, N. Y., June 27.—The wonderful performance of the University of Washington crew, which came out of the far west to force the Navy, probably the greatest eight of all time, to the new world's record time of 13 minutes 33.5 seconds for three miles, furnished all the gossip for the rowing fraternity today.

Premium of \$23,580 On High School Bonds

Satisfaction over the sale of the \$500,000 high school bonds for a premium of \$23,580 was expressed last night by George U. Moyle, principal of Glendale Union High school.

Hastings Bidwell Is Here on Brief Visit

Hastings Bidwell, widely known here eight or nine years ago for his physical prowess and baseball playing with the high school and town teams, was a visitor at the Glendale Evening News office yesterday to have the paper sent to him at Fresno.

Charge of Reckless Driving; \$1000 Bail

Bail of \$1000 cash or \$2,000 in property was fixed by Judge F. H. Lowe for H. P. Blackstock, who was arrested Saturday night on a charge of reckless driving while under the persuasion of "strong waters."

Finger of Suspicion Is Well Directed Toward Lightweight Champion

By DAVIS J. WALSH Sporting Editor International News Service NEW YORK, June 27.—The gentle art of fisticuffs, New York state model, received a body blow more painful than Jack Britton received last night and was fouled more heinously than Jack Britton was fouled when he was smacked with a left hook by Benny Leonard as he knelt on one knee near the end of the thirteenth round.

This writer, having no occult gift, doesn't know what was in Leonard's mind as he pushed past Referee Haley as the latter was starting his count and cuffed Britton on the side of the head with a left hook. For the same reason the writer cannot account for the actions of one of Leonard's handlers, who jumped into the ring almost immediately, thus making disqualification certain.

For instance, if Leonard was determined to lose, it wasn't necessary to gain his point by fouling. He was a badly worsted fighter at the stage of the proceedings, anyhow.

Roberta Hopping Weds in Garden

Announcement has been received in Glendale of the marriage Friday morning, June 23, 1922, in Coachella, of Miss Roberta B. Hopping, daughter of Mr. and Mrs. Theodore Hopping, well known here, to Frederic Thomason. Twenty-five relatives and friends attended the ceremony, which was performed by Mr. Hopping in the garden of the family home.

Mrs. Earl Hitchcock Not Seriously Hurt

The accident was a peculiar one and happened when Mrs. Hitchcock had stepped off the Glendale car and started towards the curb in front of the Hayward hotel. In approaching the curb she went between two automobiles and before she stepped onto the sidewalk the front car was backed by the driver and Mrs. Hitchcock pinned between, receiving painful injury to her right knee.

Wanda Hawley's Haled to Court

A bench warrant for the arrest of Wanda Hawley, film star, has been issued in Eagle Rock because the young actress failed to appear there to answer a charge of speeding, it became known today.

Charge of Reckless Driving; \$1000 Bail

Bail of \$1000 cash or \$2,000 in property was fixed by Judge F. H. Lowe for H. P. Blackstock, who was arrested Saturday night on a charge of reckless driving while under the persuasion of "strong waters."

Mother's Wedding Gown

Miss Hopping and Mr. Thomason walked to the porch together. Miss Hopping wore her mother's wedding gown of white lawn trimmed with lace caught with a heart-shaped turquoise pin, which had been her grandmother's. Her veil of illusion lace was held by a chaplet of pearls and the bridal bouquet of pink flowers was tied with a long scarf of Spanish lace.

Entertains for Sister

Mrs. Jens Danielson of 412 West Maple street is entertaining as her guest her sister, Mrs. T. A. DuBois, who arrived recently from Chicago. Mrs. DuBois expects her husband to arrive very shortly and they plan to make their home in Southern California.

Move to This City

Charles Keeran and Frank Lanier, who were here with companions at the recent fiesta, have moved with their families to this city and expect to make their permanent homes here.

To Visit Santa Monica

A three months' stay at Santa Monica is being anticipated by the W. A. Kensill family of 340 West Elk avenue. They plan to leave Saturday afternoon and will not return to their Glendale home until the first of October.

Spous Chatter

For the first time in the history of rowing that a Pacific coast variety crew has gone east, the eastern experts have given the coastal entry a chance prior to the race. The University of Washington crew now on the Hudson has all the experts guessing and the far western representatives are having all sorts of nice things said about them.

The World Over By Franklin B. Morse Pacific Sports Service

The attempt of the various polo organizations in the last two years to popularize the game with the public evidently is not meeting with the success that was anticipated. This seems evident from the fact that the leading figures in this sport have hung out an SOS sign to the various colleges to come to the rescue of the game by providing the material for future players.

Sports Chatter By Bill Unmack Pacific Sports Service

When Stanford first sent a crew east the oarsmen were classed as a lot of dubs. Then Washington went east twice and again the crews were adversely commented on and again Stanford went east and again Stanford went east and again Stanford went east.

OLD DOBBIN VISITS DENTIST AND HAS TEETH FILED DOWN

Food Nowadays Isn't What It Used to Be and Laws of Nature Broken, Claimed

PITTSBURGH, Pa., June 27.—Pittsburgh has a horse dentist; he is Dr. Lee Beachey. Modernism is working havoc with horses' teeth. The food nowadays isn't what it used to be and as a consequence the feed and the teeth of the horses don't work out according to the laws of nature.

Dr. Beachey explains that in the wild state and even down on the farm the animals had healthy teeth because they cat unground grains and other tough articles of horse diet. In that way the teeth are worn down as fast as they grow.

But the city horses are given chopped corn, bran and hay and all sorts of fancy and foolish food which fails to grind the teeth down as nature intended and the molars keep growing until soon the old "hoss" has "so much teeth" he can't get 'em all in his mouth. Then every so often Dr. Beachey has to file them down

so the poor animal can eat with a degree of comfort.

Remember the last time you were at the dentist's office and he filed and rasped away at your teeth? Hurt a powerful lot, didn't it? Well, it doesn't hurt horses to have their teeth filed down. Dr. Beachey says. The horse tooth is unlike the human molar. In the case of the horse the nerve only goes to the edge of the gum; above that the dentist can file off all he see fit without causing pain.

Most of Dr. Beachey's work is filing off teeth. But now and then he pulls one. No pain killer dope for poor old Dobbin when he has to have a tooth yanked out. Not even a bridle or a rope is used to hold the patient. Kindness is the best way to hold a horse, Dr. Beachey declares. The horse is made to understand he is in good hands and then he loses all fear and come what may he apparently realizes what is to be done is for his own good and he makes no resistance.

In Los Angeles

THREATS AGAINST PRISONER

LOS ANGELES, June 27.—Arnold Thomas, 31, was in the city jail here today after being hurried away from the San Pedro jail following rumblings and mutterings and reports to lynch him for an alleged attack upon his little eight-year-old half brother, Jack Thomas. The older Thomas is said to have administered a severe beating to Young Thomas with laths, a leather strap and finally a severe kick in the stomach when the little fellow wanted to take some of his savings, accumulated by selling papers, and attend a picnic. As a result of the beating the boy went into convulsions and was in a serious condition. Thomas was arrested on a battery charge pending the outcome of the youngster's case.

MAN FALLS ON KNIFE

LOS ANGELES, June 27.—While lifting a quarter of beef to a meat cutting block today, George Ralph, 27, slipped and fell on a long knife which he was holding in his hand. The knife ran into his abdomen to such depth that it is feared he will die.

TOOK TAX FUNDS, CHARGE

LOS ANGELES, June 27.—Charles H. Dieks, a deputy in the office of County Tax Collector W. C. Welch, was held in the county jail today following his arrest on charges of misappropriation of three sums of money turned in for taxes. His bail was fixed at \$1500. Dieks, it was said, has been in the employment of the tax collector's office for more than eighteen years.

DRY RAID UNDER WAY

LOS ANGELES, June 27.—Ten persons were arrested today, a large quantity of illicit whiskey was seized by federal prohibition agents and police officers in a sweeping round-up of dry violations in Los Angeles begun under instructions of H. H. Dole, prohibition agent in charge of this office.

LOVE BANDIT IS BUSY

LOS ANGELES, June 27.—A lone bandit, disguised as a waiter while attempting to gain entrance to a Hollywood boulevard cafe, probably fatally injured a night watchman who discovered him, captured two citizens when they sought to aid the officer, and bound them with rope, after which he dragged them into the restaurant while he looted the safe and made his escape.

BIGAMY IS CHARGED

LOS ANGELES, June 27.—Seven indictments, naming fourteen men and women, will be

combed, trustee for A. H. Seecomb—Part lot 13, tract 2737, 22-8 maps, Instal. 12 per cent, \$500.

Mincing Microbes Done by Machine

LONDON.—An extraordinary machine for mincing microbes has been erected in the Research Laboratories of St. Paul's Hospital, London.

Microbes which are invisible to the sight are cut into bits in the machine mincing machine. The machine has two discs, one of which is stationary, while the other rotates. The stationary disc has seventy tiny steel knives and the rotating disc eighty cutting edges. The microbes, suspended in an alkaline liquid, are forced against these cutting edges at a speed of sixty miles an hour. The machine is used in the making of anti-toxins.

Many Radios Give News to Farmers

WASHINGTON.—Forty one radiohone broadcasting stations are used by the department of agriculture in transmitting to farmers weather, crops and market news, according to department officials here.

This service has expanded rapidly since it was inaugurated eighteen months ago, the four latest additions to the department's list of stations being Memphis, Tenn.; Jacksonville, Fla.; Roswell, New Mexico, and Milwaukee, Wis.

MANCHESTER, N. H.—H. Ernest Smith, of Manchester, a veteran of the World War, recently received a packet containing thirty-five letters which had been mailed to him in the fall of 1919 while serving with the United States army in France.

Although the envelopes were badly soiled the packet was tightly sealed and the contents uninjured.

asked of the county grand jury when it begins this week its investigation of bigamous marriages contracted across the border in Mexico, it was revealed today.

That this number may be materially increased was indicated by the announcement of Deputy District Attorney James P. Costello that the grand jury investigation could not begin today because the district attorney's office has not had time to investigate all of the numerous complaints which have been made.

BARHAM'S BODY ARRIVES LOS ANGELES, June 27.—Plans for the funeral of Guy Brinton Barham, late president of the Los Angeles Evening Herald Publishing company, were near completion, following the arrival of the body from the east.

Mrs. Marie Barham and daughter, Millicent, who accompanied the body from London, England, where Mr. Barham's death followed a throat operation, were met at San Bernardino by Dr. Frank P. Barham, brother of the deceased, and Arthur Holliday.

SHOT BY POLICEMAN

LOS ANGELES, June 27.—James Williams, a negro, was shot through the leg by Patrolman T. A. Alsup, after he was alleged to have attacked the officer with a razor while being searched. He was sent to the jail ward of the county hospital on a charge of assault with a deadly weapon.

JULIAN REFUSES TO ACCEPT YOUR MONEY UNLESS YOU CAN AFFORD TO LOSE!

Widows and Orphans, This Is No Investment For You!

I cannot conscientiously tell you that there is no element of chance in my project for I have learned through my fifteen years of drilling that sometimes they do go wrong.

I don't tell you I am offering you a "Gold Bond" backed by a ten-million-dollar deposit in the Bank and if you are drawing out little savings account that you cannot afford to lose, to support me, my advice to you is, leave it in the Bank.

My appeal is addressed to the people who can legitimately afford to take a chance. "And, Mr. Thoroughbred," I have tried to offset this element of risk, in my offer to you, by laying my cards face up upon the table and offering you the cleanest, squarest opportunity that any human ever made to another.

WHAT HAVE I GOT?

Santa Fe Springs

4 acres in the very heart of the biggest production in the greatest oil field in America, bounded on four sides by the Standard Oil Company, The Petroleum Midway, The Dutch Shell and the General Petroleum Corporation and practically offsetting the big 4000-barrel Agee well of the latter Company, which came in two weeks ago today, and since when I have refused

\$100,000.00 for My Lease

And where do you come in? I am calling for \$175,000.00 to insure the completion of this well and my incentive in asking this amount is to be in a position to protect your investment no matter what conditions may arise. And for your support I am assigning 70% of my total net production to you from this well together with one-third of my holdings at Santa Fe Springs, and this assignment to be held in trust by one of the leading Banks of Los Angeles for a period of 25 years. They will receive the proceeds of this 70% of my production direct from the Pipeline Company and same will be distributed to you pro rata every thirty days by this Bank.

Every \$100.00 you shoot with me will bring you an assignment, legally executed, of one 1750th part of 70% of my total net production and should bring you a return of not less than 100% each month. I am not asking you to place a bet on something that I have not already bet mine on. For I want to tell you here and now that when I stepped up and laid \$30,000.00 cash on the "Come Line" to the Globe Petroleum Corporation, it took every dime that I could beg, borrow and scrape together.

I have fifteen husky drillers, every one a picked man, all drawing top wages and a \$2000.00 cash bonus to have my well on production 90 days from July 1st. And I want to tell you that each and every one will stand behind me, like a stone wall, to make good my promises to you.

My rig is up. My sump holes are dug. My boilers will be set up Monday. My brand new Rotary drilling machinery is ready to be delivered, but all this costs real money.

I have to be spudded in by July 4th. If you feel I am worthy of your confidence and support I want to here promise you that until my well is on production, I will extend every ounce of energy and ability that I possess to protect your investment, and will stick by you until the last "dog is hung."

AGENTS WARN OF GERMAN GOODS AND PRICES

Industry Being Conducted on Speculative Basis, Report Declares

By W. H. ATKINS, For International News Service. WASHINGTON, June 27.—American trade agents in Germany have hoisted a danger signal for American buyers of German goods.

When it comes to a point in law there is serious doubt in the writer's mind that any general parking ordinance for Brand boulevard will stand in a higher court when it is shown that parking does not impede traffic, endanger lives, or otherwise call for the exercise of police power.

Miss Agnes Krachey Weds A. D. Timmons

Another romance of several years' duration has culminated in a June wedding. Miss Agnes L. Krachey, daughter of Mr. and Mrs. Joseph J. Krachey of 806 South Maryland avenue, was united in marriage on June 22, 1922, at Riverside, to Arthur D. Timmons, son of Mr. and Mrs. William Timmons of 538 East Windsor road, with Mr. and Mrs. George H. Starbuck attending the couple.

Offers Aid to Police Officers on Outing

An invitation has been extended to members of the police department going on vacations to make use of the information and map service of the Automobile Club of Southern California.

Summer Course in Singing Instruction

Mme. Felicia Romanowska, pupil of the famous Maestro Lambertini, who is internationally known as a prima donna and vocal teacher, will begin a summer course of instruction in singing at her studio, 405 West Windsor road on July 1.

RUINS OF ROMAN CITY SEEN BY WORKING MEN

PARIS.—Glimpses of a Roman city, buried far under ground, but in many details perfectly preserved—tombs, sculptures, columns and entire buildings—were caught by workmen rebuilding the fallen city of Amiens.
