ART + FEMINISM

What is **ART+FEMINISM**?

OK, here's the **situation...**

Less than **10%** of Wikipedia's editors identify as cis or trans women.

And the editors that do identify as women are **more likely** than men to have their edits reverted.

OK, here's the **situation...**

Only about 11% of open source contributors are women.

26% of computing workforce who were women in 2014.

3% of computing workforce who were African-American women in 2014.

5% of computing workforce who were Asian women in 2014.

1% of computing workforce who were Hispanic women in 2014.
