New Head

Lovett Appointed to Fill Vacancy Made by the Death of Mr. E. H. Harriman

Judge Robert Scott Lovett, the new chairman of the executive committee of the Union Pacific railroad, has for several years been the right hand man of the late E. H. Harriman, whom he succeeds. In the Union Pacific this office is superior to that of president of the company. As vice president and general counsel of the road Judge Lovett, it is said, shared the confidence of his predecessor to a greater extent than any other man. Judge Lovett's close connection with Mr. Harriman's policies really dates from 1906. He had been the head of the legal department of the Union Pacific and Southern Pacific for some time previously. Born on a

ROBERT S. LOVETT.

farm near Shepard, Tex., in the first year of the civil war, he became a railroad man before he was a lawyer. He began his railroad career as station agent of the Houston East and West Texas railroad in his native town, and it was while he was a forty dollar a month freight clerk for the road at Houston that he studied law. When he was admitted to the bar he formed a partnership with former Representative Charles Stewart, but soon returned to the railroad field as local counsel of the road which had first employed him. He eventually became general counsel of the road and was soon afterward appointed assistant general counsel and then general counsel of the Texas and Pacific, remaining with the Gould road until he became a member of the firm representing the Southern Pacific.

One of the first results of his association with E. H. Harriman was his election to the presidency of the Houston, East and West Texas. He then became counsel for the Southern Pacific, with offices in Houston, and it was from there that E. H. Harriman brought him to New York.

Policing London's Streets.

There are fewer mounted men in the London police in proportion to the force than in New York, and it is no criticism of the London police to say that neither the men nor the mounts appeared to me as good or attractive looking as those we have, nor are they used as freely or as advantageously, if I may be permitted to say it, as in New York.

It requires vigilance and activity on the part of the pedestrian to cross London streets in safety. Indeed, in many respects they are even more dangerous than those of New York, and to this condition the swarming omnibuses contribute generously. The taxicab is rapidly replacing the hansom and the four wheeled vehicle. To my great surprise this vehicle is run through the crowded streets at a comparatively high rate of speed, and as there are a great number of them I am astonished that there are not more accidents.—William McAdoo in Century.

Portola Float

Wednesday the Secretary of the San Jose Chamber of Commerce and the City Superintendent of Schools visited Campbell to get support for the county float in the Portola Festival at San Francisco. They want us to get a representative girl between the ages of 12 and 15 years from Campbell to sit in the float with ten other girls from the towns of the county. The schoolchildren are asked to gather flowers, and so are the older people, and we are asked to raise \$25 or \$50 as our share. Here is a great chance to advertise Campbell. We should commence WORK at once and Pres. Sawyer should call a meeting of the Improvement Club and DO something. What are you going to do about it?

Wonderful Improvement of Bobby Byrne Since Joining the Pirates

Bobby Byrne, whose major league experience was limited to his engagement with the St. Louis Nationals previous to the swap that sent him to the Pirates, has been putting up a wonderful game on the far corner since Commander Clarke annexed him. Byrne had performed at only an

average gait for the Cardinals. In 105 games he turned thirty-seven misuses and was swatting 209.

Since Clarke has acquired Robert the Wee he made but two errors in fifteen games, while his assists total seventy-eight and put-outs forty-five. Throughout the Pirates' invasion of the east Byrne's playing was the feature. While he hasn't been belting the sphere any too harshly, he is sticking in his hits at the right time.

A mouthpiece like that of a telephone takes the place of a knob on the door, and this is provided with the usual style of needle which travels in a groove in the sound record of the phonograph cylinder. Before the safe can be unlocked the password must be spoken into the cylinder by the one who made the original record.

The Financial

Backer of Cook

Discoverer of North Pole Secured Aid through his Friend J. R. Bradley

John R. Bradley, the man who financed Dr. Cook's polar expedition, is a wealthy New Yorker who devotes much of his time to the pursuit of big game in various quarters of the globe. In fact, it was a desire on his part to bag a few polar bears that resulted in the now famous expedition. In 1906 he suggested to Dr. Cook that the latter become his guest on an arctic trip to hunt big game. It was finally agreed that they start the following year, and in the spring of 1907 the

JOHN R. BRADLEY.

party was outfitted. While storing equipment it was suggested that the supply was ample for a dash to the pole. "Let's do it," said Cook. Mr. Bradley declined to take part in the venture, but told Dr. Cook that he would take him to the arctic in his vessel and turn over the equipment for a try for the pole.

Mr. Bradley is highly elated over the success of Dr. Cook. He is a native of Pennsylvania, stands six feet high and weighs about 200 pounds. His life in the open has kept him in athletic trim. With his strong constitution and store of energy he could doubtless have made the northward march with Dr. Cook without falling by the wayside. Mr. Bradley has written big game stories for the magazines and, it is said, is preparing a book on that subject.

Hines' Triple Play.

Although record books dispute the triple play made by Paul Hines of the Providence club in a game with the Boston in Providence, R. I., May 8, 1878, there is no doubt, in view of the evidence of eyewitnesses like T. H. Murnane, George Wright and Jack Manning, who were players in the game, that Hines made the play. The play was so extraordinary that the official scorer failed to record it properly, and that fact led the late Henry Chadwick to dispute it. The bases were full at the time, and, with the infielders playing in, the Boston batsman hit a Texas leaguer which every one, including the base runners, felt sure was safe. The men on third and second ran home, and the man on first was almost down to third when Hines made a wonderful catch. He ran to third and by touching the base doubled up the two runners who had gone home. There the real play ended, but Sweeney of Providence, seeing a base runner trying to get back to second, called to Hines to throw to him, and this fact led to the confusion of the official scorer. It was of course wholly unnecessary to throw to Sweeney.

To Send Trotters Abroad.

The trotting horse exhibitions given by C. K. G. Billings in Russia have already had their effect, and recently four great trotting stallions were shipped from New York to the Imperial Trotting club of Russia at Moscow. With them went six brood mares belonging to the Russian government which were sent to this country several weeks ago to be bred to Peter the Great, the great Kentucky sire. Russia made several efforts to purchase Peter the Great and recently offered \$75,000 for him, but he was not for sale.

The horses that went abroad were Horace Wilson, 2:10 1/4, a nine-year-old trotting stallion, by Onward, dam Georgia S., by Nutwood; Might A., two-year-old bay colt, by Mighty Onward, dam Margaret A. (dam of Margaret O., 2:05 1/4), by Axtell; a two-year-old bay colt by Peter the Great, 2:07 1/4, dam Honey H., by Onward, and a yearling bay colt by Peter the Great, dam Grace Appleton, by Onward.

Improvement Club

Other Engagements Take Most of The Members and Bed Takes the Rest

Owing to the fact that few of the business men turned out Monday night, there was no meeting of the Improvement Club. Other business was too pressing it seems. The next meeting night is Monday October 18th.

The lack of interest of the businessmen of this town in their own betterment is very apparent and it is a regrettable fact. If the businessmen do not care enough about banding together for the betterment of business conditions they have no reason to kick because people trade in San Jose and elsewhere. Where enough interest cannot be mustered in the business section for improvements, there is no reason for the town progressing. The businessmen of Campbell are as good as they are anyplace but

PITHY RESUME OF EVENTS OF ENTIRE WORLD

Brief Paragraphs That Give
Busy Readers Review of
Week's Happenings.

Summary of News Gathered by Cor-
respondents Located in Every
Quarter of the Globe.

Columbus, O.—Uhlen, the famous gelding trotter has been sold by Charles Sanders of Salem, Mass., to Frank Jones, the horseman of Memphis, Tenn., for \$35,000.

New York—Nine farmers from Texas, Arkansas, Louisiana and Oklahoma, are making an automobile tour of the Eastern and New England States to study road systems.

Toronto, Ont.—A dispatch from Fort Saskatchewan says severe bush fires are raging within three miles of Elk Park, in which are still some of the buffaloes brought by the dominion government from Pablo.

Chicago—A "diamond room," an apartment aimed to live up to its name, will be a feature of the Auditorium hotel in the near future. Suites will cost \$50 a day and \$20 will be charged for dinners served on gold plates by gold-bedecked waiters.

Manila.—After running amuck and attacking the officers and hospital stewards of the United States hospital ship Relief, John Ransom, a fireman of the ship, was shot and killed by Civilian Mate Heinke. Heinke killed the crazed man on orders from the commander of the Relief.

New York—Miss Rose L. Fritz made a new typewriting record recently, writing 1,425 words in 15 minutes from dictation. Not an error was found in her copy by judges at the business show in Madison Square Garden. She wrote at the rate of 95 words a minute for fifteen consecutive minutes.

Seoul, (Corea).—Cholera has become epidemic, over 500 cases having been reported since the disease made its appearance in this city. Thus far no foreigners have been attacked by the cholera. The authorities are sparing neither money nor work to stop the further progress of the disease.

New York.—New York is airship crazy. Everybody wants to fly. A few years ago New Yorkers scoffed at flying machine experiments. Now those same persons are buying airships. An automobile firm of 1743 Broadway which recently established an aeronautical department has sold several machines.

London.—The house of lords passed the second reading of the Irish land bill, but promised to introduce drastic amendments when it reached committee. It was stated in the lobby that if the lords omit or weaken the powers of the provision for the compulsory purchase of land the nationalists will refuse to accept it, whatever may be the view of the government.

New York.—Floretta Whaley, who two years ago eloped with Rev. Jere K. Cook, will eventually receive \$5,000 from the estate of her uncle, the late Anthony Whaley, whose will was filed a few days ago at Mineola, L. I. The use of the estate, which is valued at \$45,000, goes to Whaley's widow and, upon her death, is to be divided among nieces and nephews. Floretta Whaley and Cook are in California.

Chicago.—Mrs. William Franklin Ernst, who is about to sue Count Sauti Eulalia for \$10,000 for services rendered in bringing about the marriage of the Count to Mrs. John B. Stenson, widow of the millionaire hater, declares she wrote every love letter the Count ever mailed in courting the wealthy widow. Mrs. Ernst declared that she engineered the match and that without her assistance the Count's quest for a wealthy wife would have come to naught.

Washington.—American manufacturers will be able to find a good market for their products in South Africa if they take the trouble to look over the field and send representatives there, according to Consul-General Louis K. Lay of Cape Town, Johannesburg, according to the Consul-General, will furnish an excellent market for American goods in the next two years. The total exports into South Africa for the first six months of 1909, exclusive of specie and articles for the South African Government, amounted to \$61,308,808.

HORSE WRANGLER HAS LEG BROKEN FIFTEEN TIMES

Been Rolled, Stamped and Danced on
by Kicking and Biting Cayuses.

San Francisco.—John Douglas broke his leg a few days ago for the fifteenth time in almost as many years.

"Droke again" was all the horse wrangler said, as he was carried into the Mission emergency hospital.

Douglas was driving a wild colt. At California and Eugenia avenues a car came whizzing along; the colt leaped across the track in front of it, there was a crash and Douglas rolled out into the street.

"That makes nine times for that leg," he remarked, musingly, as bystanders rushed to aid him. "The other leg has got it six times."

Douglas' employment among wild horses has brought about his injuries, and quadrupeds have rolled, stamped and danced on the unfortunate wrangler, besides biting him, kicking him and bucking him into the surgical wards of various hospitals.

Slot Machines Must Go.

Oakland.—Sept. 30th, all nickel-in-the-slot machines disappeared in this city, an ordinance prohibiting their operation becoming effective at that time. This ordinance was passed by the City Council some months ago, and was patterned after the law in effect in San Francisco. By enforcing the ordinance approximately \$80,000 is cut off from the city's revenue, that sum representing the licenses paid on the machines which had been in operation here in cigar stores, saloons and other places.

Californian Shot for Coyote in Oregon.

Klamath Falls, Or.—Mistaken for a coyote by Emil Lafoure, a hunter, H. W. Laybourne of Santa Monica, Cal., was shot in the back near Lakeview and instantly killed. Laybourne has been employed on an irrigation project near Lakeview, and was in the habit of putting in his Sundays prospecting for gold. He was so engaged when Lafoure, who was some distance away, shot him. Laybourne fell dead without a word. Lafoure is held in jail at Lakeview.

Oppose Unsightly Billboards.

San Francisco.—The Outdoor Art League sent a petition to the supervisors asking the removal of the numerous signs along the tops and sides of the buildings facing the water front. The memorial set forth that many thousand visitors will enter San Francisco during the next few weeks, especially for the Portola festival, and the league objects to the disfigurement caused by the signs.

Steamship Line Earnings Increase.

Berlin.—The financial report of the North German Lloyd steamship company for the first six months of 1909 shows net earnings, less general expenses and interest charges, of \$1,250,000, as against losses for the corresponding period of 1908 amounting to \$1,750,000. This improvement is due chiefly to the emigrant business to the United States.

Zoologist With Roosevelt is Ill.

Nairobi, British East Africa.—Colonel Roosevelt, who was expected to arrive here October 15 from his hunting trip in the Mweru district, probably will not come in until the 23rd. The delay is caused by the indisposition of Edmund Heller, the zoologist of the expedition, who is suffering slightly from the pressure of work.

"Jack the Hugger" in Marysville.

Marysville.—A "Jack the Hugger" is at large in Marysville. Mrs. Bernard Bredimus is the latest victim. She was returning home in the evening when the man stopped her, told her he loved her and grabbed her in his arms. She managed to escape. When the police arrived no trace of the man could be found.

Mountain Fued Revived.

Hot Springs, Ark.—A mountain fued was revived in the Circuit Court room here, when William MacDaniels shot E. L. Walker in the presence of Judge Evans, while the latter was instructing the newly impaneled Grand Jury. Walker's condition is not serious.

Boy Falls Fifty Feet Without Injury.

Quincy.—George Penman, aged 14, a water boy for a Western Pacific construction gang near Spanish Creek, fell from a trestle 50 feet to the bottom of the canyon, and did not suffer even a broken bone.

Old Counterfeiter Again in the Cage.

San Francisco.—George Stockton, 75 years old, was sentenced to 22 months in San Quentin for counterfeiting. This is the old man's fifth term in prison.

For Five Days Joy Will Reign in Rebuilt San Francisco

San Francisco.—The executive committee of the Portola festival has completed a tentative programme of the events of Portola week, from October 19th to 23rd. Some changes are likely to be made before the opening of the festival, but in the main the programme as outlined will be carried out. It follows:

Tuesday, October 19th.
Morning—Don Gasper de Portola lands at foot of Market street; parade starts up Market street; keys of city given to Portola by the Mayor at Marshall square; noon, President's toast to be drunk around the world.

Will Urge Congress to Spend Millions for West

Washington.—An expenditure of \$18,000,000 annually in completing the arid land reclamation projects in the west and in installing additional projects in states which have not received their quota is under contemplation by the administration.

President Taft in his speech at Spokane gave impetus to the plan of effecting a \$10,000,000 loan to be expended in completion of the projects now under way. Director F. H. Newell of the reclamation service, who returned to Washington a few days ago, disclosed the fact that members of the senate irrigation committee, whom he has accompanied on an inspection tour to the government irrigation systems, had expressed the hope that congress would not only see the benefit of giving the secretary of the interior authority to make this bond issue, but would annually authorize a loan of this size until the great reclamation scheme was fully worked out.

"We can count on from \$6,000,000 to \$8,000,000 annually from the sale of public lands," said Director Newell today. "This amount, added to the sum of \$10,000,000 which congress may possibly grant authority to raise, will make up a fund which will send the various reclamation projects rapidly forward to completion. Of course, the idea of issuing the bonds which shall

be secured by the reclamation projects themselves, and the irrigable land under them, is as yet in embryo, but President Taft has cordially taken it up, and there is no doubt that he will present it carefully to congress in his forthcoming message."

"During our recent trip of investigation," said he, "we met western bankers and capitalists who assured us that not a dollar of the loans would have to be placed in any eastern community. I feel certain that the citizens of the west and even farmers who are located under or near the present reclamation systems will come forward with all the money that is needed."

Newell said that the hints that he might be asked to leave the service would have no effect on his course until it was certain that his resignation was desired.

Newell has won many of the critics over to his side, and Secretary Ballinger himself since his inspection of the reclamation projects in the northwest has reached the conclusion that admirable work has been done upon them.

Newell said there was no truth in the report that the reclamation work in the Sacramento valley had been stopped by Secretary Ballinger. The field work has been merely suspended for the summer.

Taft Says Congress Must Save America's Ocean Trade

The gradual disappearance of the American flag from the high seas and the decline of the American merchant marine undoubtedly will receive the attention of the next Congress. President Taft, in his speech at Seattle, spoke of the necessity of a ship-subsidy law and said he would urge its adoption in his next message. In substance, he said:

"I need not tell you of the inadequacy of the American shipping marine on the Pacific coast and of the growing power for commercial purposes in this regard of the empire of Japan. Japan is one of the most active and generous countries in the matter of subsidies to its merchant marine that we have, and the effect is only too visible in an examination of the statistics. For this reason it seems to me that there is no subject to which congress can better devote its attention in the coming session than the passage of a bill which shall encourage our merchant marine in such a way as to establish American lines directly between New York and other eastern ports and South American ports and between our Pacific coast ports and the Orient and the Philippines."

"We earn a profit from our foreign mails from \$6,000,000 to \$8,000,000 a year. The application of that amount would be quite sufficient to put on a satisfactory basis two or three Oriental lines and several lines from the East to South America."

President Taft entered California Monday morning, escorted by Governor Gillett, United States Senator Perkins, and other distinguished officials, he reached Sacramento in the evening, making a few short stops and car-end speeches on the way. At Sacramento he delivered an address at the State Capitol grounds. This was followed by a banquet. Tuesday morning he reached Berkeley, where an immense crowd greeted him. At 10 a. m. he spoke on the shores of Lake Merritt, in Oakland, and at 12:30 arrived in San Francisco. Here there was a grand parade in his honor, ending with the President laying the cornerstone of the Y. M. C. A. building. After this he attended a reception at the Union League Club. In the evening there was a reception and banquet in his honor at the Fairmont. By 11 o'clock the President retired after one of the most strenuous days of his tour.

Wednesday morning he departed for the Yosemite, to remain the balance of the week, resting and viewing nature's handiwork in the beautiful valley.

PORTUGUESE AND RUSSIANS TO REPLACE JAPS IN HAWAII

Unreliability of Brown Men Prompts
Planters to Import Caucasians.

Honolulu.—Cabled advices have been received by the immigration authorities here that a specially chartered steamer with 1,200 Portuguese laborers and their families will sail from the Azores for Hawaii to work on the Hawaiian plantations. This is to be the first of several lots of Portuguese to be sent here by A. J. Campbell, Hawaii's special representative in the Portuguese islands.

Campbell has had his work cut out in securing permission from the Portuguese authorities to drum up labor recruits, because former Hawaiian immigration officers who went to Portuguese territory picked out young men who had not served their military course.

It is expected that the first lot of Russian laborers for the islands will leave Harbin, Manchuria, in a few days.

Vicious Bull Runs Wild.

Woodside.—A vicious bull ran wild on the Woodside road while being driven with a band of cattle from the Dingle pasture to the Hind & Langley slaughter house near Redwood City. For several hours he imperilled the lives of pedestrians. The vaquero went in pursuit and succeeded in lassoing the recalcitrant animal. The bull turned on him furiously and horned his horse. G. H. Yount, an expert rifle shot of Redwood City, was summoned and after dodging around a few trees killed the brute.

Famous Indian Medicine Man Killed.

Spokane.—Filled with white man's whiskey old Bat East, the last of the medicine men of the Colville tribe of Indians, lay down on the new railway track at Oroville. A little later an engine backed up the "Y," running over the aged Indian, cutting off both arms and a leg and fracturing his skull. Death was instantaneous. Bat, who was more than 80 years of age, could tell many thrilling tales of fighting with other tribes and battles with the white men half a century ago.

Thrusts Her Head Into Lion's Cage.

Paris.—A young woman committed suicide in a frightful manner here recently. Having had a quarrel with her sweetheart, who is a lion tamer in a theatre in which three lions are introduced during a melodrama, the woman went behind the scenes and leaned forward into the cage. The animals were wild with rage and with a few blows of their claws tore her head and breast to pieces.

Virginia Mayor Goes to Prison.

Philadelphia.—Abraham C. Eby, formerly Mayor of Burkeville, Va., who was convicted recently of using the mails to extort money from the Pennsylvania Railroad Company, was sentenced to eighteen months in the Government prison at Atlanta, Ga. Eby threatened to dynamite property of the Norfolk and Western Railroad unless he was paid \$45,000.

Money Needed for Stockton Canal.

Stockton.—The discovery has been made that owing to a mistake in the engineer's estimates on the amount of cubic yards of earth to be excavated for the Stockton diverting canal the appropriation of \$225,000 will be insufficient to make the canal effective. It will require \$100,000 more. It is believed a clerical error was made.

Plans to Widen Sacramento.

Sacramento.—The Jobbers' association went on record as favoring the proposal that Sacramento raise \$75,000 for the fund to widen the river. They favor putting the matter to the vote of the people at the next general election. The election feature of the project is now in the hands of legal authorities.

Indians Settle on Farms.

Spokane.—The wanderings of the Kalispell Indians have ended. The remnant of the tribe, which from days beyond tradition has occupied the fertile Pend d'Oreille valley, in North-eastern Washington, has decided to take farms like white men.

Only Legal Saloon in State Burned.

McMinnville, Tenn.—Tennessee's only legal saloon, the Oasis, situated on a mountain top near here in such a position that it was more than four miles distant from any schoolhouse, was burned several days ago.

Will Vote on Sunday Saloon.

Stockton.—The saloons recently petitioned the city council to call an election for Sunday opening. The election has been set for October 11.

Slope Presented in Com-
pendious Array.

Passing Events Among Your Neigh-
bors Briefly Told in Short,
Newsy Paragraphs.

Reno.—The Southern Pacific will spend \$35,000 making improvements in the railroad shops at Sparks.

Stockton.—From October 26th. to October 30th this city will hold an elaborate celebration to be known as "The Rush of '49."

Visalia.—A. S. Smith, a young electrician, is the constructor of an aeroplane in which he has just made several successful flights near Exeter.

San Francisco.—There is joy among the mules and consternation among the army officers stationed at the Presidio here. An order was received from Washington instructing officers that they must not ride stallions while on duty.

Port Costa.—The Solano, the largest train ferry in the world, which conveys the Southern Pacific trains across the Carquinez straits between Port Costa and Benicia, broke its main shaft, and as a result all overland trains were routed via Stockton for two or three days.

Chico.—During the past few years nearly all the large tracts in this vicinity have been subdivided and sold in small farms, causing rapid development and improvement in the community. Capitalists have just purchased another large tract to be cut up for forty-acre farms.

Visalia.—It is generally understood that several firms in what is called the Alta district and around Selma and Kingsburg, are making tests to ascertain if the sugar from raisins or raisin grapes will crystallize. If this can be accomplished, the making of sugar from grapes will be assured.

San Francisco.—The Santa Fe is planning to engage in the passenger business between San Francisco and Los Angeles. An arrangement made between President Ripley and the late E. H. Harriman will enable the Santa Fe to use the tracks of the Southern Pacific company between Bakersfield and Mojave and Los Angeles.

Olympia, Wash.—On the first ballot Judge W. W. McCredie of Vancouver, Clarks county, was nominated as Republican candidate in the Second Congressional District by a vote of 123 to 103 for James N. Ashton. Judge McCredie is the owner of the Portland Pacific Coast League baseball team and also of the Portland Pacific Northwest League team.

San Francisco.—The death roll of the United Railroads' victims for the months of April, May and June was filed last week with the board of supervisors by General Manager Black. In addition to the seven persons killed by the cars during the quarter, Black reported a total of 473 injured, being an increase of 140 over the first quarter of the year. The number of killed was the same.

Sacramento.—The Appellate Court sustained the judgment of the Superior Court at San Francisco in deciding adversely to Mrs. Ida H. Frese, who sued the Mutual Life Insurance Company of New York to recover money upon a policy held by her late husband, William Frese. Frese borrowed \$1,930 on the \$5000 policy. His failure to pay this back caused him to forfeit the policy, for which Mrs. Frese sued after his death.

Sacramento.—The Board of City Trustees has prepared an election proclamation calling for the placing on the November ballot the question of whether or not the city of Sacramento shall raise \$75,000 toward the fund necessary to widen the mouth of the Sacramento river below Rio Vista. The State has appropriated \$400,000, and the Federal Government a like amount. The widening of the river will greatly reduce the flood difficulties experienced every winter.

Red Bluff.—Over a month ago while walking past the Southern Pacific roundhouse in this city, James Clifton found a woman's pocketbook containing several valuable brooches, a draft for \$100 on the Chicago bank and \$40 in currency. Clifton wrote to the Chicago bank on which the draft was drawn and ascertained that the valuables belonged to Miss F. Elma Bell, a school teacher of Chicago, who had been at Seattle. When she arrived home she was notified and has now recovered her valuables, which she had considered lost forever.

Strain to Keep Up Appearances.

There are plenty of people, in all our large cities, who do not allow themselves enough to eat, and practice all sorts of pinching economy at home for the sake of keeping up appearances in society.

What terrible inconvenience, hardship and suffering we endure on account of other people's eyes and opinions! What slaves, what fools we make of ourselves because of what other people think! How we scheme and contrive to make them think we are other than we really are.

It is other people's eyes that are expensive. It is other people's eyes that make us unhappy and discontented with our lot, that make us strain, and struggle, and slave, in order to keep up false appearances.

The suit, the hat must be discarded, not because they are badly worn, but because others will think it strange that we do not change them.

The effect of all this false living, this constant practice of deception in appearances, in our manner of living, our dress, is undermining the American character, ruining our genuineness, making us superficial, unreal false.

No man can really respect himself when he is conscious that he is suffering under false colors.

If you are wearing clothes and living in luxury which you cannot afford, these things label you all over with falsehood, and are perpetual witnesses against you. There is only one possible result upon the character of falsehood, whether acted or spoken, and that is perpetual deterioration. It does not matter whether you wear lies, tell lies, or act lies, the effect upon your character is the same—Orison Swett Marden in Success Magazine.

Extravagant Living and the Unemployed.

Some of these wealthy people attempt to justify their extravagance on the ground that it gives employment to a great many, says Orison Swett Marden in Success Magazine. No greater delusion ever crept into a human brain than that wanton extravagance is justified on the ground that it gives employment, for the demoralizing and debauching influence of it all upon those uselessly employed infinitely outweighs any possible good it may do.

It is true that many poor women, girls and children are enabled to eke out a miserable existence by spending years of precious time and energy working upon a piece of lace embroidery, or a thousand-dollar gown to be worn only once or twice by a rich woman. But is there no better destiny for human beings made in God's image than to wear their lives out and ruin their eyesight, as is done in numerous instances, in making that which appeals only to the vanity of women, many of whom, in all their lives, never earned the equivalent to the food which they consume in a single month?

The vulgar flaunting of wealth, which we see on every hand, is a constant suggestion, a perpetual temptation to the poorer classes to strain every nerve to keep up appearances, "to keep up with the procession" at all hazards.

THE LIMIT OF EFFICIENCY.

The Yale tradition spoken of below must be of nineteenth century origin, for the Connecticut divines of the days when Yale was founded would hardly have got to their "secondly" in the time allowed.

President Hadley, a writer in the Bohemian says, is as witty as he is learned. The Sunday services at Yale are conducted by prominent clergymen of many denominations and from many cities. When these visiting preachers occasionally ask President Hadley how long they shall speak he invariably replies:

"There is no limit, sir, upon the time you may preach; but there is a Yale tradition that the most souls are saved during the first twenty minutes."

DOG PAYS OWN LICENSE.

Max, a black-and-tan dog owned by Charles C. Fitzhugh, a Flint pharmacist, has come through with a dollar to pay his annual license and thus insure safety from the city dog catcher for another year. And Max earned all this money himself. In the rear of the store where his owner works Max, who is a trick dog, has a box full filled with excelsior, in which he hides pennies and nickels earned by doing tricks. When a customer comes into the store the dog starts his repertoire of stunts, plays dead, walks lame, says his prayers, "talks" to the best of his ability, walks erect on his front legs and then on his hind legs, sits up and does numerous other tricks for the entertainment of visitors. The majority of the patrons of the store know the dog and always when he has finished his act he is given a penny or a 5-cent piece, which he hides in his box. When the animal's owner decided that the license should be paid he sent the dog back to the box time after time until the canine had brought to him a dollar in pennies and nickels, and placing the cash in an envelope, the owner started for the office of the city clerk, the dog carrying the envelope in his mouth. Whenever the dog wants a piece of candy from the showcase he gets the money from his box, tramps up to where his master is and exchanges it for chocolates.

Habitual Constipation

May be permanently overcome by proper personal efforts with the assistance of the one truly beneficial laxative remedy, Syrup of Figs & Elixir of Senna, which enables one to form regular habits daily so that assistance to nature may be gradually dispensed with when no longer needed, as the best of remedies when required are to assist nature, and not to supplant the natural functions, which must depend ultimately upon proper nourishment, proper efforts, and right living generally. To get its beneficial effects, always buy the genuine.

FAMILY COUGH SYRUP

Cures Any Cough in Five Hours.
NEW PRESCRIPTION HERE.

Here is given the most effective cough prescription known to the medical world. It is a mild laxative, too, and this is what a body needs when suffering with cough and cold on the lungs. A cough or cold indicates poisons in the system, causing inflammation and congestion. Nearly all cough syrups relieve, but make the trouble worse by their constipating effects. This prescription not only relieves quickly, but it cures any cough that is curable. Get one-half ounce fluid wild cherry bark, one ounce compound essence cardiol and three ounces syrup white pine compound. Mix in a bottle. Take for acute cough or bronchitis twenty drops every half hour for four hours. Then one-half to one teaspoonful three or four times daily. Give children less according to age. A few hours' treatment will cure and heal the throat and lungs of all but consumptives. Cut this out and give it to some friend who may need it to be saved from an early death by consumption.

Restorative Treatment for Nervous Men

Coming from a source of unquestioned authority on the ailments of men it is presumed to be infallible, while the profession generally endorses its ingredients and prescribes them in many different forms of various diseases. The following treatment is highly efficient in quickly restoring in nervous exhaustion, melancholia, anxiety, timidity in venturing, dizziness, heart palpitation, trembling limbs, insomnia, thinness, cold extremities, tired-all-in feeling and general inability to do those natural and rational acts upon which depends a man's success and happiness in social and every-day life.

The instructions for mixing at home secretly so that no embarrassment may be felt are as follows: First get three ounces of syrup sarsaparilla compound and one ounce compound of iron and quinine; mix and let stand two hours. Then add one ounce compound essence cardiol and one ounce tincture cadomone compound (not cardamon), and mix all together. The directions are to take one teaspoonful of each meal and one when retiring, until bounding health and full strength are restored. In a few weeks will witness most wonderful results.

Astonishing physical force and equilibrium follow the treatment, no matter how serious the case. This contains no opiates whatever and may be taken by all women who suffer with their nerves with absolute certainty of prompt and lasting benefit.

Headache

"My father has been a sufferer from sick headache for the last twenty-five years and never found any relief until he began taking your Cascarets. We should not forget that soon it will be time to start planning for "Old Settlers' Day" to be held February 22nd. Everybody can help in this, in fact they always can help on anything if they have a mind to. Get your ground ready for gardens. Commence mentioning the fact in your correspondence and conversation. Put your shoulder to the wheel and lend a helping hand.

Boosting is one of the duties of the Press, and subscribing is one of yours.

Without subscribers we cannot boost and without boosting Campbell cannot prosper. Are you a subscriber?

DO YOU "STRIKE OUT"?

There are people all over this glorious country of ours, who make a great gusto when they pick up the bat, but somehow they always manage to "strike out." In other words they are "quitters." They will be talking one minute about supporting home industry, and the next minute you will see them in the postoffice writing out a money order to some Chicago mail order house; they will tell all the things they have done for the town but are "quitters" when anything comes up for them to take hold of and put either a little money or time in; they will applaud the local paper when it stands firm on some question but will "Peter out" when asked to subscribe; they will talk prohibition when in public, and go home and dig a "cold bottle" out of the cellar; they will come to the Improvement Club banquets and then fail to appear the rest of the year. In short, they are hypocrites. Are you one?

A hypocrite is almost a hopeless case, but while their life there is hope. Better reform before it is too late.

You have probably noticed the falling off in the advertising patronage in the Press since the fruit season. If you ask some of these non advertisers why they have quit they will tell you they don't need to advertise. The fact is the need for advertising was never greater. **There is over \$500 a week going from this town to Chicago** mail order houses in post office money orders for goods which can be bought here or in San Jose. And WHY do they do it? Because the home merchants don't know how to advertise. They see the good advertising does so they resolve to try it on a very small scale. They get a small space and insert copy like this, "John Jones, Shoes" or "Sam Smith, General Merchandise". Does a mail order house do this? Since newspapers refuse to take their ads they get out advertising matter describing their BARGAINS, and send them thru the mails. They spend hundreds of thousands of dollars every year in this way and GET THE BUSINESS. The local merchants, that is to say merchants in this valley, don't know how to advertise. Not enough time is spent in preparing copy, not enough space is taken in the weekly papers to show their goods, or advertising is not kept up long enough to bring results. A good sized ad. with the copy changed every issue, if kept up long enough will pay in the long run. Now you can have some of that \$500 a week if you want it. Every dollar sent away from California makes the state that much poorer. \$500 a week going out of this town to the east is a serious matter. What are YOU going to do about it?

We have just added some new type and equipment to our plant and have gotten things straightened out finally. Now we are ready for your jobwork. And we want it all. Quality is our motto and promptness from now on will be our aim.

President Taft is a queer proposition. He seems to stand for conservation, ship subsidy and all the other good things we need, and yet, every once in a while he lets out something, some word or action, which makes many feel doubtful. Still, seeing is believing, and he is aware that most of us "have to be shown."

San Jose wants us to help in the Santa Clara County float for the Porto-LAH festival in San Francisco. Well, it's up to you. What are you going to do about it?

Say, do you happen to know in order to boost this town and make it better in every way it will be necessary to incorporate?

A man said to us the other day that if this town incorporated he intends to put up a new business building.

Another man said if this town incorporated he knew ten men right now who would come here and build.

Let's incorporate.

W. C. T. U.

The W. C. T. U. will meet with Mrs. Sargent on Wednesday October 13th at 2:30 p. m. The California W. C. T. U. is holding a convention at Pacific Grove. Today Mrs. Sara J. Dorr will read her annual address as president. Sunday morning W. C. T. U. speakers will fill the local pulpits. Sunday afternoon a Loyal temperance legion rally will be held under the direction of Mrs. M. F. Gilley of San Francisco and Mrs. Ellen Dayton Blair of the national organization. More than 30 new unions have been organized during the last year.

Friendly Pants

A large heading in the San Jose Times of October 7, says, "Says Dr. Cook Wore His Pants and That They Parted the Best of friends." This may mean that Dr. Cook and his pants parted or, well it may mean something else.

Wedding Bells

Last Sunday evening Miss Ora Forbes and William Rubell were united in marriage at the home of Miss Forbes' mother on Central av. After the ceremony the young couple left on their honeymoon to the southern part of the state. When they return they will occupy the house on Central av. Mrs. Forbes will move to Dutch Flat.

Mr. Rubell is a young man of Campbell employed in the San Jose offices of the Southern Pacific and has a good opportunity for rapid advancement. It has been reported that when they return a chivari will be given them. So?

Grange

The annual session of the State Grange is taking place at Petaluma.

Dr. Guth Will Preach

Just as we go to press we learn that Dr. Guth of the University Pacific will lead the Union Service at the Congregational church Sunday evening.

CAMPBELL
(THE ORCHARD CITY)

Lies 50 miles south of San Francisco, on the Santa Cruz Division of the Southern Pacific Railway, and is the central point of the most fruitful, diversified and scenic section of the famous Santa Clara Valley. Superb electric car service places it within but a few minutes' ride of San Jose, the metropolis of the valley. Los Gatos, the Gem City of the foothills, Congress Springs, the medicinal virtue of which waters is unexcelled; Saratoga another beautiful foothill city, and as you ride past and through the thousands of orchard and vineyard homes, and merge into the picturesque canyons of the foothills of the evergreen Santa Cruz Mountains, you can but exclaim: "This is a goodly heritage!"

SCENERY SUPERB
With the Santa Cruz Mountains to the west and south and the Coast Range to the east, a majestic amphitheater is formed, the beauty of which cannot be excelled anywhere. Campbell has an attitude of 195 feet. The cool breezes from San Francisco bay at the north insure an even and comfortable temperature throughout the summer months, while the winters are warm and pleasant. Flowers bloom out of doors the year around.

FINE ROADS AND RESORTS
The Santa Clara Valley boasts of the finest roads to be found in the State. It has over 350 miles of sprinkled rural highways. In attractions for tourists the Santa Clara Valley can not be surpassed. Thirty-two miles eastward over a magnificent mountain road is the famous Lick Observatory on Mt. Hamilton, 4,444 feet above sea level. There are numerous mountain retreats within two hours' drive for those who love the camp and the sparkling brook. The sea beach to the southward 27 miles by rail or carriage drive, and through the most beautiful mountain scenery in the world.

A trip to the Big Trees, twenty feet in diameter and two thousand years old, will furnish a delightful day's outing.

EDUCATIONAL ADVANTAGES
Campbell has a population of about 600. It maintains a (third class) postoffice which distributes to 3,000 patrons, covering over 30 square miles of orchard homes. There are two churches—Methodist and Congregational, a first-class High School and Graded School, and within a few miles are two Universities, two Colleges, a State Normal School and several Business Colleges and private schools. The Stanford University, with its marvelous architecture, is only 20 miles away.

NO SALOONS
Campbell has a complete water system of its own. It has electric lights and power for mechanical purposes, which is distributed throughout the orchard district. A telephone exchange serves over 40,000 people. A prohibitory clause in all deeds to property within the town limits, prevents the saloon from being established.

BUSINESS INTERESTS
Campbell has the largest fruit packing and drying establishment in the world, the best equipped cannery on the coast, catering to the highest class export trade, a fruit syrup establishment, lumber yards, planning mill and stores of all kinds. It also has a weekly newspaper and modern job printing plant. The Bank of Campbell, with individual deposits amounting to a quarter of a million dollars, is a fair indication of the prosperity of the community.

FRUIT CENTER
Campbell is pre-eminently a fruit center, and offers unusual opportunities for profitable investment, whether it be a large commercial orchard, a chicken ranch, or a small orchard home adapted to those who want to earn a few hundred dollars a year to supplement a limited income or annuity. The Campbell fruit district is noted for the quality of its fruit, and for this reason has become a trade center. The man with a few boxes of fruit has the same opportunities for selling his products as the man with many tons. Our large packing and drying establishments will have their agents at your door before the fruit begins to color.

INTERURBAN CONDITIONS
Campbell is neither urban nor suburban, but is in fact, as well as in name, an Orchard City—a city of orchard homes, with all the conveniences necessary for 20th century comfort. The demand for intelligent labor is increasing every year, and families dependent for profitable employment in orchards, packing houses and canneries find this an ideal home.

LAND VALUES MODERATE
Acreage can be secured at various prices. Bare land, land under chicken ranch, hay, grain or vineyard, can be secured for \$100 per acre. Productive orchards sell for from \$300 to \$500 per acre, depending on the record of the orchard for productivity.

In buying an orchard here you do not buy a "pig in a poke"—facts and figures will be given you, showing what returns can reasonably be expected from your investment.
