THANKSGIVING PROCLAMATION ISSUED BY PRESIDENT WILSON

Washington, Nov. 12.—President Wilson issued his Thanksgiving proclamation last night, saying that "in plenty, security and peace, our virtuous and self-reliant people face the future," and setting aside Thursday, Nov. 25, for the usual observance. The text follows:

"The season approaches when it behooves us to turn from the distractions and preconceptions of our daily life, that we may contemplate the mercies which have been vouchsafed to us, and render heartfelt and unfeigned thanks unto God for His manifold goodness. This is an old observance of the American people, deeply imbedded in our thoughts and habit. The burdens and the stresses of life have their own insistence. We have abundant cause for thanksgiving. The lessons of the war are rapidly fading. The great army of free men, which America sent to the defense of liberty, returning to the grateful embrace of the nation, has resumed the useful pursuits of peace, as simply and as promptly as it rushed to arms in obedience to the country's call. The equal justice of our laws has received steady vindication in the support of a law-abiding people against various and sinister attacks, which have reflected only the lesser agitations of war, now happily passing. In plenty, security and peace, our virtuous and self-reliant people face the future, its duties and its opportunities. May we have vision to discern our duties, the strength, both of hands and resolve, to discharge them and the soundness of heart to realize that the trust opportunities are those of service. In the spirit, then, of devotion and stewardship, we should give thanks in our hearts and dedicate ourselves to the service of God's merciful and loving purposes to His children. Wherefore, I, Woodrow Wilson, president of the United States of America, do hereby designate Thursday, the twenty-fifth day of November, as a day of thanksgiving and prayer, and I call upon my countrymen to cease from the ordinary tasks and avocations upon that day, giving it up to the remembrance of God and His blessings, and their dutiful, grateful acknowledgment."

"I Became Well and Felt Better Than I Had in Years."

MRS. ANDREW LINDE, Larimore, North Dakota, January 12th, 1920. Dr. Paul J. Wentworth, 2021 West Superior Street, Duluth, Minnesota. Dear Doctor Wentworth: In November, 1919, I came from Larimore, N. D., in hope of finding some doctor who might be able to cure me of my disease.

I went to several persons, considered as good doctors, only to find myself growing worse day by day. They said I had liver and kidney trouble, rheumatism and nervousness, and advised an operation. A friend of mine—Mrs. Thomas Peterson, 2503 Gilbert street, Duluth—advised me to have an interview with you, which I finally did. The first treatment which you gave me seemed to do good. I slept that night as I had not slept for a long time. And as I continued to take the treatments, I could feel myself growing better every day. My appetite grew, I relished my food, my bowels became active and normal, I slept soundly, my nervousness disappeared—in short, I became well, and felt better than I had in years. I took not a single drop of medicine during my entire course of treatment, as you used only NATURAL METHODS. I feel very grateful, and am writing this in the hope that it may be the cause of some other sufferer finding someone who will cure their troubles. Sincerely and gratefully yours, MRS. ANDREW LINDE.

Mrs. Linde's letter speaks for itself. She is only one of the many who leave my office daily—well and feeling fine. If you are suffering from ANY DISEASE, do not delay, but come to see me at once, and I shall tell you frankly if you will be healed. MORE STORIES OF SHIP GRAFT

Witness Also Refers to Reports of Alleged Political Activity.

New York, Nov. 13.—Alleged "political activity" previously referred to in testimony and reports before the Walsh committee investigating facilities of the United States shipping board was again touched on in testimony presented here yesterday.

Congressman Israel M. Foster, deputy chief of the board's bureau of investigation, asked if there had been any loss to the government through "political influence."

The witness replied that he could not say that there had. Asked if there had been any complaints of such influence, the witness said that he had heard some criticism of William R. McAdoo after he had resigned the office of secretary of the treasury. It was charged, or rather complained of, the witness added, that Mr. McAdoo had appeared before the board on behalf of the "Morse interests."

"I do not want to be understood," the witness continued, "as saying that it is even inferred that Mr. McAdoo has interfered with or has been harmful to the board in any way."

He explained he was testifying only as to criticisms he had heard.

McAdoo also said that while most of the investigations of his department had been of the activities of minor employees his department "had not overlooked officials."

Case "Very High." He added they had gone "very high" in the board's personnel. He repeated previous testimony that no irregularities had been discovered among the board's officers, but that department heads, particularly in Southern district shipyards, were dismissed and taken place at his recommendation. One of these dismissals was brought about, he said, by what he termed undue and unnecessary delay as well as exorbitant expense in rebuilding a vessel.

Going into details of alleged graft among shipyard officials, the witness said that on this ship, he testified, three of its officers, including the captain, had managed to conceal the presence of 400 tons of fuel oil when it arrived from Rotterdam.

At Norfolk more oil was taken aboard for a voyage to Rio de Janeiro. At this port the officers paid for the delivery of 1,000 tons of oil, the witness asserted, but through connivance with an employee of an oil delivery company, only 400 tons were delivered. The difference between the value of the 600 tons delivered and the 1,000 tons paid for—amounting to about \$200,000—"split" between the parties, implicated in the transaction. The officers of the ship, in addition to the captain, also took the usual "percentage" for sale.

The witness also testified that the ship was repaired at a cost of \$200,000, but that the captain received \$200,000.

The captain, the witness added, received \$500 from the contract as his "bribe."

It was afterward ascertained that a reasonable price for the repairs would have been about \$200,000. Before sailing, the ship took aboard sufficient fuel to last nine months, much of which was later thrown overboard, he said.

McAdoo testified that the captain, chief engineer and another officer were indicted. The chief engineer and another officer received light sentences from the court. The captain was released on bond and he is due to appear here for trial Nov. 15.

The witness said he had been informed, however, that the captain and his wife, and "fourteen trustees" had sailed from New York for Buenos Aires. The shipping board is now seeking him.

Details of alleged irregularities in overcharges to shipping lines and many other officials have been run down, McAdoo asserted, and in some cases restitution made and in others prosecution instituted.

REACH AGREEMENT ON GERMAN REPARATIONS

Paris, Nov. 13.—A definite agreement concerning the procedure to be followed with regard to the reparations due by Germany was reached yesterday between the French and British governments.

The agreement calls for a meeting at Brussels of Allied technical experts with the Germans and also a meeting of the Allied premiers in Geneva in the first half of February to discuss the total amount due and Germany's capacity for payment.

M. Lyautey, the French premier, in a note to the British ambassador, the earl of Derby, notified the ambassador of the agreement between France and Great Britain, based on the four points "previously arrived at."

The agreement referred to are as follows: A Brussels conference of experts; second, a meeting at Geneva between representatives of the Allies for consideration of the findings of the first two conferences; and fourth, a meeting of the premiers to consider the decisions of the reparations commission.

The note shows that the Geneva conference of the Allied ministers will be held after a plebiscite has been taken in Upper Silesia, or, at the latest, in the first fortnight of February. It also indicates that the fourth stage of the meeting of the premiers will discuss the plebiscite and sanctions, and that steps will be taken to obtain the consent of other interested states to the procedure arranged.

RED LAKE COUNTY TO SELL MORE ROAD BONDS

Red Lake Falls, Minn., Nov. 13.—(Special to The Herald.)—Red Lake county will be bonded to the limit for road work on the Jefferson highway as the result of a unanimous vote taken by the board of county commissioners Wednesday night to sell \$177,000 more bonds, making a total of \$250,000. All this money will be spent on the Jefferson highway between Red Lake Falls and Trail, the road being part of the Babcock trunk highway system, but the county will be reimbursed in full by the state for all money spent on this road as the work is being done in accordance with state and Federal specifications.

Work on ten miles of the stretch has been going on for some months and \$12,000 of bonds have already been sold by the county to pay for the road. By the method of issuing bonds the county commissioners decided to build twenty-eight miles of Red Lake county's portion of the Babcock highway system now and let the state pay for it later rather than let the state take its own time.

The county will thus have the use of the road several years sooner in all probability and will be out only the interest on the money for that time. The county board also decided to advertise for bids for graveling two and one-half miles of the state road extending north from Okie.

Lives to See the Prescription He Wrote in 1892 the Worlds Most Popular Laxative Remedy

DR. W. B. CALDWELL TODAY Born Shelbyville, Mo., March 27, 1839 Began the manufacture of his famous prescription in 1892

Founder of Dr. Caldwell's Syrup Pepsin, the largest selling liquid laxative in the world, long past Biblical age, but hale and hearty—Still sees patients daily—Wonderful achievement of a "country doctor."

WHEN I started to practice medicine, back in 1875, there were no pills or tablets or salt waters for the relief of constipation, and no artificial remedies made from coal tar.

The prescription for constipation that I used early in my practice, and which I put in drug stores in 1892 under the name of Dr. Caldwell's Syrup Pepsin, is a liquid remedy, and I have never had reason to change it. I intended it for women, children and elderly people, and these need just such a mild, safe, gentle bowel stimulant as Syrup Pepsin.

I am gratified to say that under successful management my prescription has proven its worth and is now the largest selling liquid laxative in the world. The fact that over eight million bottles were sold by druggists last year proves that it has won the confidence of mothers whose chief interest is the health of their children.

Pharmacopoeia. I consider Syrup Pepsin today in the serious 82nd year of my age, as I did in 1892, the best remedy a family can have in the house for the safe relief of constipation and its accompanying ills, such as headaches, biliousness, flatulence, indigestion, loss of appetite and sleep, bad breath, dyspepsia, colds and fevers.

Millions of families are now never without Dr. Caldwell's Syrup Pepsin, and I believe if you will once start using it you will also always have a bottle handy for emergencies.

Send me your name and address and I will send you a free trial bottle of my Syrup Pepsin. Address me Dr. W. B. Caldwell, 513 Washington Street, Monticello, Illinois. Everybody now and then needs a Laxative, and it is well to know the best. Write me today.

It is particularly pleasing to me to know that the biggest half of those eight million bottles were bought by mothers for themselves and the children, though Syrup Pepsin is just as valuable for grownups. The price of a bottle holding 50 average treatments is sixty cents; such a bottle will last a family several months.

I have never made a secret of what is in Dr. Caldwell's Syrup Pepsin. It is a compound of Egyptian Senna and other simple laxative herbs with pepsin and pleasant-tasting aromatics. These ingredients are endorsed in the U. S.

JUST A FEW WORDS ABOUT THE UNION DENTISTS' PLATES

NATURAL FORM TRUBYTE TEETH

We have made more plates or artificial teeth than any other dental company in the Twin Ports or the Northwest, and we venture to say that nowhere can be found more pleased patients than Union patients.

Several things are necessary to please a patient who is to wear artificial teeth, and we have one of the few offices which can supply them all.

Here is the most important advancement in mechanical dentistry in sixty years. They are exact duplication, inside and out, of the formation of the natural mouth space for tongue, clearness of speech, proper mastication and absolute comfort, combined with strength and perfect appearance. You are invited to call and examine for yourself these wonderful teeth.

EXPERIENCED GRADUATE DENTISTS—We hire no dentists on a commission basis. One of the members of the firm will always see you personally.

CLEANLINESS AND SANITATION—Our offices are large, clean and perfectly ventilated—all instruments are carefully and thoroughly sterilized. It will pay you to visit us and learn about our splendid system of service, and the broad guarantee that perfectly protects the work.

SCIENTIFICALLY CONSTRUCTED TEETH—We do not do our work in a haphazard way, but only in the latest tested, scientific manner. If you have a set of teeth which won't stay up, let us make you a set, using the Hall method of impression-taking. You will be surprised at the natural appearance of our teeth, how they will fill out your cheeks and take the wrinkles out of the corners of your mouth. Besides the natural beauty of your teeth, you will have something you can chew with. Perfect articulation.

REASONABLE PRICES—This is something that will appeal to all thrifty people in these days of high prices. By our large volume of business and expert buying we can save you from 25 to 50 per cent on what you would pay elsewhere for the same quality of work.

TRUBYTE TEETH—(Shown above) with our special featherweight rubber, makes a plate that cannot be beaten. Ask to see this plate when you come in.

Other \$10 and \$15 Values at **\$5 and \$8**

Out-of-town patients will be given special time, so that their work will be finished as soon as possible, usually one day.

JUNIOR STOCK SHOW IS HELD AT CROOKTON

Crookton, Minn., Nov. 13.—(Special to The Herald.)—Seventy-one boys and girls from Duluth and surrounding counties are here for the first regional junior livestock show held in the state, which opened yesterday and will close today.

The opening day centered in the judging in the pig and sheep class in the morning and the baby heaves and dairy calves in the afternoon.

The winners of the high awards Friday were: Market class, Edwin Rowan, Wadena county; pure bred, Carl Lehner, Red Lake county; sheep, Amos Kaseberg, Polk county. The championship prize went to Carl Lehner.

Last evening all of the exhibitors were the guests at a banquet at which the silver cup offered by the South (District) Bankers' association in the baby beef class was presented.

BANKING AT PUBLIC AND PAROCHIAL SCHOOLS SHOWS STEADY INCREASES

CHILDREN AT PAROCHIAL SCHOOL, SECOND AVENUE WEST AND FOURTH STREET.

School banking is becoming more and more popular in public and parochial schools. Three hundred and seventy-nine of the 407 pupils enrolled in the Cathedral Elementary school bank regularly. The eighth grade class particularly has made a fine record in school banking. The cathedral children prophesy that the parochial school pennant, which was won by the children of St. Peter and Paul's school for the months of September and October, will be surrendered to them in November.

Following is a list of the Duluth public and parochial schools showing what percentage of the children present banked weekly at school during the month.

The public elementary schools have been divided into groups according to size, and a banner is awarded to the winning group each month. The prizes are awarded at the close of school to the schools making the best record for the year. Parochial schools and high schools form another group with separate prizes.

In the Washington junior high, Lincoln junior high and Morgan Park junior high schools enthusiastic thrift campaigns are being conducted, with good results.

During September and October, ac-

ording to the report of the Duluth Banks School Thrift association, Duluth school children saved and banked at school \$13,812.15, 32,432 deposits were made, and 2,758 children opened new bank accounts.

To show that the interest in school banking is steadily increasing the following figures are given:

Largest number of deposits in any one month last year, \$14,465; October, this year, \$23,531.

Largest number of new accounts opened in any one month last year, 1,004; October, this year, 1,863.

Largest amount of money deposited

Hot Water Supply and Low-Cost Radiator Heat for All Homes

The IDEAL-Arcola is a heating boiler which circulates hot water to radiators in adjoining rooms. It is also arranged for the introduction of a hot water pipe into the fire chamber so that a plentiful supply of running hot water may be constantly in the range boiler for domestic uses. The IDEAL-Arcola installation is quickly made and is the most satisfactory and profitable investment in the small, cellarless house. Lasts forever and saves costly fuel every year!

New IDEAL-Arcola Radiator-Boiler

Hot water radiator heat may now be enjoyed by the owner of the small cottage, bungalow, store, office, shop, etc., because the IDEAL-Arcola Heating Outfit is designed for all-on-one-floor heating. No cellar or water pressure is required. The system is self-acting. It is run like a stove, and circulates hot water heat to the radiators located in the adjoining rooms. The piping is simple and no valves or other accessories are used. It may be installed quickly in any building. Heats the whole house with one fire and uses no more fuel than the old-fashioned method of heating one room!

BLOOD STATUS ROLL APPROVED BY MORRIS

Peris Falls, Minn., Nov. 13.—The legal standing of 6,000 Indians on the White Earth reservation in Minnesota was determined late yesterday when Judge Page Morris in United States district court here approved a "blood status roll" prepared by a commission authorized by congress. The action is expected to end much litigation pertaining to land sold by the Indians.

Under the Clark act, mixed blood Indians were authorized to sell their lands while full-bloods are not allowed to make such sales. Following passage of the act there was a rush to buy lands owned by the Indians in Northern Minnesota. The government finally instituted about 1,500 suits against the purchasers of these lands, claiming that the Indians were full-bloods and had no right to sell. Most of these suits have been settled.

In order to determine the legal standing of the Indians in the future, the commission named by congress took testimony of the Indians relative to their blood status. This testimony, the commission said, was generally found to be irrefutable and it was agreed to by Alex Hrdlicka, anthropologist of

SEAPLANE CREW PROBABLY LOST

Milwaukee, Wis., Nov. 12.—All hope of finding the crew of three of the missing naval seaplane from the Great Lakes naval training station was abandoned by searchers along the west coast of Lake Michigan late Friday. The last of the coast guard boats to give up the search, the Two Rivers, Wis., crew, returned to its station last night.

Searchers said that there was no hope that any of the crew of three were alive if they had remained on the lake. The weather has been bitter cold ever since they were last seen off Centerville, Wis., Wednesday afternoon. A northwest gale has been blowing most of the time since then. Tugs which searched Thursday for the seaplane could not leave port yesterday.

THE

NASH FOUR

\$1395 with Cord Tires

F. O. B. MILWAUKEE

The new Nash Four, a product of expert engineering and expert manufacture, is now shown for your inspection.

It is a quality motor car, light in weight but strongly and finely built to endure the hardest service.

Like the Nash Six, it has two conspicuous and outstanding features—unusual power, due to its Nash Perfected Valve-in-Head Motor and really exceptional beauty of design and finish.

Notable, too, is the low operating cost of this car.

Tests covering many thousands of miles have demonstrated that the Nash Four is unusually saving of gasoline, oil and tires.

The character of the Nash Four may be judged not only by sturdy excellence of construction but in the fineness of the many important details which make for superior comfort and convenience.

It will be produced in a new Nash factory at Milwaukee, a plant specially constructed and equipped to produce this car.

When operating at full capacity, this new plant will equal in volume of output the present big Nash factory at Kenosha, where 50,000 Nash Sixes are being built this year.

We will welcome the opportunity to show you the Nash Four at your earliest convenience.

Drama, Vaudeville and Photoplays

By JAMES WATTS.

Duluth does not often have an opportunity of being host to such a rare artist as Mme. Luisa Tetrazzini. The Queen of Song has been in this city for nearly a week in order to give a concert here, and the complaint often heard that famous artists do not trouble themselves to make friends with the people in the smaller cities, does not fit in her case. In fact, her manager, William Davis, rearranged Tetrazzini's entire Northwest schedule so as to take in the Duluth City. What profit such an engagement will net this great artist will necessarily be small when one considers that she has had to maintain her private car here for several days and traveled way out of her course to come here.

Making sacrifices has played a big part in the life of this famous artist and money to her steadily means doing something for her friends, her country, or the unfortunate. One of her proposed projects now is to establish educational facilities in Italy for persons who are to emigrate to America. She not only aids American women in this country, but would also prepare her countrymen who wish to return to their native land to become good citizens in the land of their adoption.

She has been and of Mme. Tetrazzini's voice that there is little left of it. But it is her personality that has made her beloved. Her voice has that sympathetic, lyrical quality that is so characteristic of John McCormack. She is a wonderful woman, past the meridian of life, who still retains the sweetness and youth of a child.

Sex Plays No Longer Popular in the U. S. A.

The appeal of sex is no longer strong enough to draw theatergoers to the playhouses and the lure of the flesh is giving way to the charm of refinement and art. That is not saying that all sex plays of the stage, but that the most successful producers of current plays and musical comedies are those who select titles of refinement and do not cater to the flesh and jazz type. A recent survey of the managers of the country's theaters shows that facts along this line.

There has been a change in the taste of the country since the war, and it is not surprising that the most successful producers of current plays and musical comedies are those who select titles of refinement and do not cater to the flesh and jazz type. A recent survey of the managers of the country's theaters shows that facts along this line.

Readjustment Coming In Show Business

"Dramatic shows may abandon orchestras," this startling headline in a theatrical paper this week is worthy of notice and investigation. Shall the theater-going public go without music? The news article reveals rather astounding conditions. It says: "The operation of the musical scale for New York for houses which did not start the season with an orchestra was made plain this week when one of the theaters in that group, in taking on a four-piece orchestra, was required to pay \$60 per man weekly, with the leader \$119 weekly. The scale calls for a minimum of at least four weeks. For anything under that the daily scale applies, \$7.2 weekly for 281 performances and \$144 for the leader."

Managers predict that numberless rules of the musical union will eventually force theaters to be definitely classified. This would mean that certain houses will be confined strictly to dramatic attractions and others to musical shows, with the dramatic houses having no orchestras.

It is during these prosperous times cannot afford an orchestra, something must be radically wrong. It would seem that readjustment must be made all along the line and conditions brought back to normal.

We look back to 1914. We shall see that acts are higher, salaries are higher, and everything else the theater owner buys is higher. The result is that admissions are necessarily higher. This advance in expense must end somewhere and with prices falling in all other lines, it looks as if a readjustment would have to begin in the show business. There is no satisfaction in holding more money unless it has more real value.

The problem of balancing the ledger must be solved, and admissions cannot be lowered with costs going up continually. In fact, net profits decline. The question is then how can a readjustment be made? Shall the scale of wages go up steadily to exorbitant figures, until the orchestras be eliminated, or shall the managers regulate costs and receipts so that their entertainment can be kept up to the regular standard? Under normal conditions the standard of entertainment can be maintained.

Theatrical managers in the East believe that the salary schedules named in the foregoing news story are excessive. The belief that a readjustment is necessary is prompted by other factors than advanced salaries. Railroad transportation has forced scores of shows to close, throwing thousands of men out of employment temporarily. The closing of factories and other industries in the East is causing a slump in the show business. It looks as if the rain and reign of dollars were passing and that things must go back to normal.

NEW ASTOR.

Charles Ray is the basical country boy, salesman of auto trucks in "Atom Clock Andy," another of his inimitable screen comedy-dramas in which he comes to the New Astor tomorrow. Comedies in "Sensational" and the current "Traded by Three" story will close this evening. Atom Clock Andy Ray has a touch time making headway in the business world with his devices and his excessive shyness. Meeting and falling in love with the daughter of his boss gives him a new incentive to make a fresh and better start. The opportunity comes when Atom's assistant makes a big blunder and making a good impression, he appropriates the name of the firm's star salesman, proceeding to close a big order. Complications result when the man he is impersonating appears on the scene, but Andy gets out of him by a clever ruse, and the final outcome is that he wins the day and the girl. The role he said to fit Ray like a glove, and Tom Cruise, Miller, are above the average. The picture is a Thomas H. Lee production.

Opera of "Passion Flower."

"The Passion Flower," now on the road with Nance O'Neil, is to be the basis for a grand opera. The piece is of the grand star attraction, where its engagement was twice extended.

Drag Harlan Meets His Equal

Seven dogs, so small that they appear to be more toys than actual canines, are the principals in Hillman's Comedy Pets. This is an act which is pleasing the children and the adults too, for the little fellows are regular clowns.

NEW LYRIC.

One expects much from Allen Holubar since he flashed across the screen (Hollywood) with such notable productions as "The Heart of Humanity" and "The Right of Happiness." That he has duplicated these efforts is proof positive that he knows how to write stories and present them in terms of interesting screen dramas. He comes to Every Woman, which comes to the New Lyric today featuring a new program, is an absorbing story so well-produced and well-acted that there isn't a moment when it does not claim the closest attention.

WILLIAM FARNUM AND JACKIE SAUNDERS.

Author-Actress at the Orpheum

EMILY ANN WELLMAN. Miss Wellman, who has just returned to the stage after a period devoted to the writing of plays and playlets, is now seeking new laurels. She will come to the Orpheum tomorrow for a week's engagement in "The Actor's Wife," which is described as a theatrical storm in ten dramatic flashes.

The Show Calendar

ORPHEUM.

Heading the Orpheum bill of the coming week, followers of the two-day headliner are going to see a young woman who has by sheer ability, husband herself to the top as both actress and playwright, and is going to be the attraction of the week. This young woman is Emily Ann Wellman, and she has just returned to the stage after a period devoted to writing playlets and plays. For an actress is never content to stand on the stage, and the writing of plays did not fall fully into her hands until she had written and acted her first play, "The Actor's Wife," which she made the hit of her career. NEW GARRICK.

The screen force makers having made nymphs, neriads and other females of daring revelation the sine qua non of comedy shows, the producers of the serious branch seem now to be rushing pell mell into what a wag has called the P. V. D. drama. Impending are serious screen melodramas that have come to such extremes that the price for boldness will be hard to equal.

NEWS NOTES OF THEATERS

Two pretentious vaudeville offerings are in store for Orpheum-goers in the near future. Thanksgiving week Manager Furl will bring "The Dance Shop."

"The Evolution of Yankee Doodle" M. L. Lake's selection, which is to be one of the features of the tenth concert by the New Garriek Symphony orchestra at the New Garriek theater tomorrow afternoon, is a remarkable fantasy depicting the idea conveyed in the title. Slowly through "A Storm at Sea," "The Landing of the Pilgrims," "Dance of the Redoubt Indians," "The Minuet" and "On the Levee" the melody is developed until there emerges the "Waltz Period."

Sam Kramer, a member of the team of physical culture experts who appear on the New Grand bill for the last half of the week, starting Thursday, and said to be one of the most wonderfully developed men in the country, will give a special treat each performance. It will be of essential interest to parents, telling them how to make their children strong and healthy.

Nazimova, the famous star to be seen here shortly in what is said to be her greatest picture, "Madame Benecock," has a new leading man in the person of George Fennell, well-known on the speaking stage, and with several picture successes to his credit. He has appeared with William Gillette, Pauline Frederick, Margaret Smith and also Eugene O'Brien in "The Wonderful Chance," in which he is soon to be seen in Duluth. Best of all those who head him in the purely sentimental characterizations are said to be "going wild over him" in the new departure.

A brilliant array of talent, a most unusual one, in fact, is to be seen in "The Best of Luck," the Allan Dwan production looked for an early showing here. Among the stars are Kathryn Adams, Jack Holt, Lillie Leslie, Fred Maline, Frances Raymond, Donnell King, Robert Dunbar, Billie Dove and Jack Buchanan. The deal is a picturization of the famous Drury Lane melodrama of the same name.

Loew Opens \$1,000,000 Theater. Marcus Loew, film and vaudeville magnate, was at Ottawa, Can., Nov. 8, and opened a new \$1,000,000 theater as a new link in his chain of playhouses. This is said to be the largest theater in Canada and also the largest on the Loew circuit. Ground was broken for this enterprise about a year ago and the work was rushed at record speed.

This playlet of music, comedy and girls will come to the New Grand tomorrow and will headline the vaudeville bill for the next four days.

BIG FOUR AND FIRST NATIONAL MAY UNITE

Marcus Loew Joins in Fight on "Big Four." Making First National's Task Easy.

There are indications that upon Hiram Abrams' return to New York from England the negotiations begun prior to his sailing, tending to an amalgamation of the United Artists with the First National Exhibitors' circuit, may be consummated. The deal was on the verge of being closed when Abrams was called abroad. At that time a price of \$100,000 was placed on the Fairbanks and Pickford productions by the United and the First National stood ready to meet the figures, on the production of those two stars at least. The hitch, it is reported, occurred over the price on account of the other stars. The United Artists is in the future to be the first-run house in New York for the Douglas Fairbanks and the Mary Pickford productions. The first of these is to be "The Curse Caspreno," with Fairbanks as the star. The date is early in December. The first-run figure for the Capitol week is said to be \$100,000 per picture. Outside of the Capitol date there is very little in New York at present for the Big Four productions. The entire membership of the Theater Owners' Chamber of Commerce has laid off the United entirely for the last eight weeks, and not a single contract has been signed by the owners of any of the 500 theaters represented in that body. The Loew theaters still hold contracts for two United productions, but as Marcus Loew is now a member of the T. O. C. of C. it is believed that after those contracts are played he will side with the association in its stand against the United Artists. This will practically bar the productions from Greater New York as far as the straight picture houses are concerned and will only leave the Keith exchange and Fox theaters open. The first call made by the first road man resulted in negotiations for a contract with a combination of fifteen houses, and Esburg was immediately telegraphed to come on and close the deal.

TWO MAJOR LEAGUES ASSURED WITH LANDIS AS BASEBALL CHIEF

Peace Reigns Following Conference of All Club Owners; New Head of Commission Has Been Picturesque Figure on Federal Bench.

Chicago, Nov. 12.—Peace reigned in baseball circles today following yesterday's agreement between the opposing factions in the reorganization of the game. The sixteen club owners of the two major leagues were in accord on every issue which today left the same eight clubs in the National and the same eight in the American League, and the threatened war was averted.

Judge K. M. Landis of the Federal court, Chicago, accepted the chairmanship of the baseball commission and will act as a committee of one as a final court of appeal in all cases of dispute between the two major leagues and any minor league which may join the majors in reorganizing the game.

To Hold Both Jobs. Judge Landis will conduct on the bench the federal cases in 1921. He stipulated that this stipulation would be subject to the approval of the club owners and so on salary as chairman of the national league will be \$12,500 a year. The salary for which he is chosen is seven years.

Landis is a national figure, for the important cases he has passed upon and his wit and sarcasm some times amused and some times annoyed the nation. He is a picturesque figure on the bench and his decisions are always interesting.

Landis always has been one of his kind. In the little town of Leominster, Mass., where he was reared, the judge played an amateur and semi-professional baseball. His brilliant play brought him many offers to turn professional, but he always declined, saying he played merely for sport and love of the game.

Landis presided in the legal battle which resulted from the fight of the Federal league against the National and American leagues. The judge never rendered a decision in this case, however, for it was settled out of court while he was still forming his official opinion. While studying the national agreement and other documents, Landis received information concerning baseball. The knowledge gained during this period made him legal authority on the administration of the game's affairs.

Judge Landis attends many major league games in a year and seldom misses a world's series. At the annual fall classic he generally may be found in a black back with his own black slouch hat pulled down over his eyes, and a long black cape falling from his shoulders. He is usually talking during a game, but still every play counts as he analyzes the strategy used by the opposing players. One of his hobbies at a game is to try to guess the score.

Landis was born in Millville, Ohio, Nov. 20, 1868, and was named for Kingway Mitchell, a friend of his father's. His father was wounded in the Civil war. He attended the University of Cincinnati and was a member of the Phi Kappa Phi honor society. He was a member of the Phi Kappa Phi honor society. He was a member of the Phi Kappa Phi honor society.

Princeton All Astir; Captain "Tim" of Yale to Play Left Guard. Princeton, N. J., Nov. 13.—Ideal football weather was in prospect today for the annual gridiron battle of Yale and Princeton. The day broke clear and cool with every indication that when the two teams face each other in Palmer stadium there would be nothing to complain about from the player's point of view so far as the weather is concerned.

The Yale squad arrived early in the day and was sent through a brief signal drill in the stadium where the players and quarterbacks were given an opportunity to become accustomed to the treacherous air currents that blow over the big concrete structure. Princeton had its last workout yesterday.

MILWAUKEE FIGHTER SCORES KNOCKOUT

Milwaukee, Wis., Nov. 13.—Ritchie Mitchell, local lightweight boxer, knocked out Joe Benjamin of San Francisco, in the ninth round of a 10-round contest here last night. The final score was Navy, 21; Georgetown, 6. This photograph shows Flavin just as he got free and started his run.

DULUTH HOCKEY PLAYERS TRAIN

Local Squad of Puck Chasers Preparing for Busy Season.

Eight training identical with that pursued by local club members has been adopted in whipping candidates for Duluth's 1920-1921 hockey team into shape. Pre-season gymnasium and road work is the program at this stage of the game, and it is the first time in the history of the sport here that training has been started so early, so vigorously and so completely.

While a biting wind snapped at their ears and faces, more than a score of men last night from the Central "Y" at Third Avenue west out to Twenty-first Avenue east and back again, a total distance of forty-eight blocks, and they staggered into the "Y" dressing room last night an exhausted crew.

Greenie Will Pilot.
Andy Greenie, trainer of athletic teams, is the man at the helm again this season.

"It's had enough getting up in the morning, but it's better to start the downhill slide last night at the conclusion of the track running, all of which is merely evidence of the fact that the boys are not falling into the old routine of training as no hockey team ever trained in Duluth before.

The reason for all this seriousness, of course, is the desire to develop a sound, well-balanced team of real local talent, not a motley collection of imported high-priced professional stars, such as many American cities feature. Duluth is going to endeavor to show the hockey world this year that a team can be developed from ordinary talent, chiefly through conditioning and team work. That was the campaign which brought world-beating success to the Duluth Boat club in rowing for many years.

Local Control Team.
The hockey team will be under the jurisdiction of the American League this year, managed by legion men without profit, for the benefit of the ex-service men's organization. With the cold weather which has descended so rapidly in the last few days, it is expected that there soon will be real winter work and the track running will be supplanted by the honest-to-gosh business.

Finally all of the well-known local stars are in the game this year. An interesting note about the squad last week was "Vic" Johnson, stroke last season, who, with a tremendous effort, is expected to prove a most useful defensive man, if he can show any ability with the stick and puck.

CLUBS CAN HOLD THEIR PLAYERS

American League Has No Claim on Men of "Reform" Teams.

Chicago, Nov. 13.—The American league has no claim on the players of the three clubs which have joined the new National league, and every member of the league has agreed to play in the new organization given this week by Alfred Austrian, attorney for the two Chicago major league clubs and advisor in the drafting of the league plan.

Mr. Austrian's opinion was rendered in response to statements from representatives of the five clubs which are backing Dan Johnson in the baseball war, that the league owned all its players, and that the White Sox, the Yankees and the Red Sox consequently could "take only their ball parks into the new league."

"The players belong to the clubs and their contracts are made with the clubs," said Mr. Austrian. "The league is merely a voluntary organization which has no contract power over the men other than to prescribe certain clauses which may be put into contracts. I do not care to say at present whether even this power, which voluntarily has been given the league, is lawful."

"There is no doubt, however, that the Chicago, New York and Boston clubs, formerly of the American league, may

take their entire playing personnel into the new National league, regardless of claims to the contrary which may be made by Mr. Johnson and his five backers.

"The new National league, however, is preparing for extensive court action and expects numerous injunctions to be applied for by Johnson's 'loyal five' before they permit the players on the other three clubs to be taken from the American league, according to representatives of the new organization.

"We expect bitter court battles," said one club owner, "but we have proceeded carefully and have no doubt as to the outcome. The new league is composed of the money making clubs and they are ready to spend every cent necessary to win."

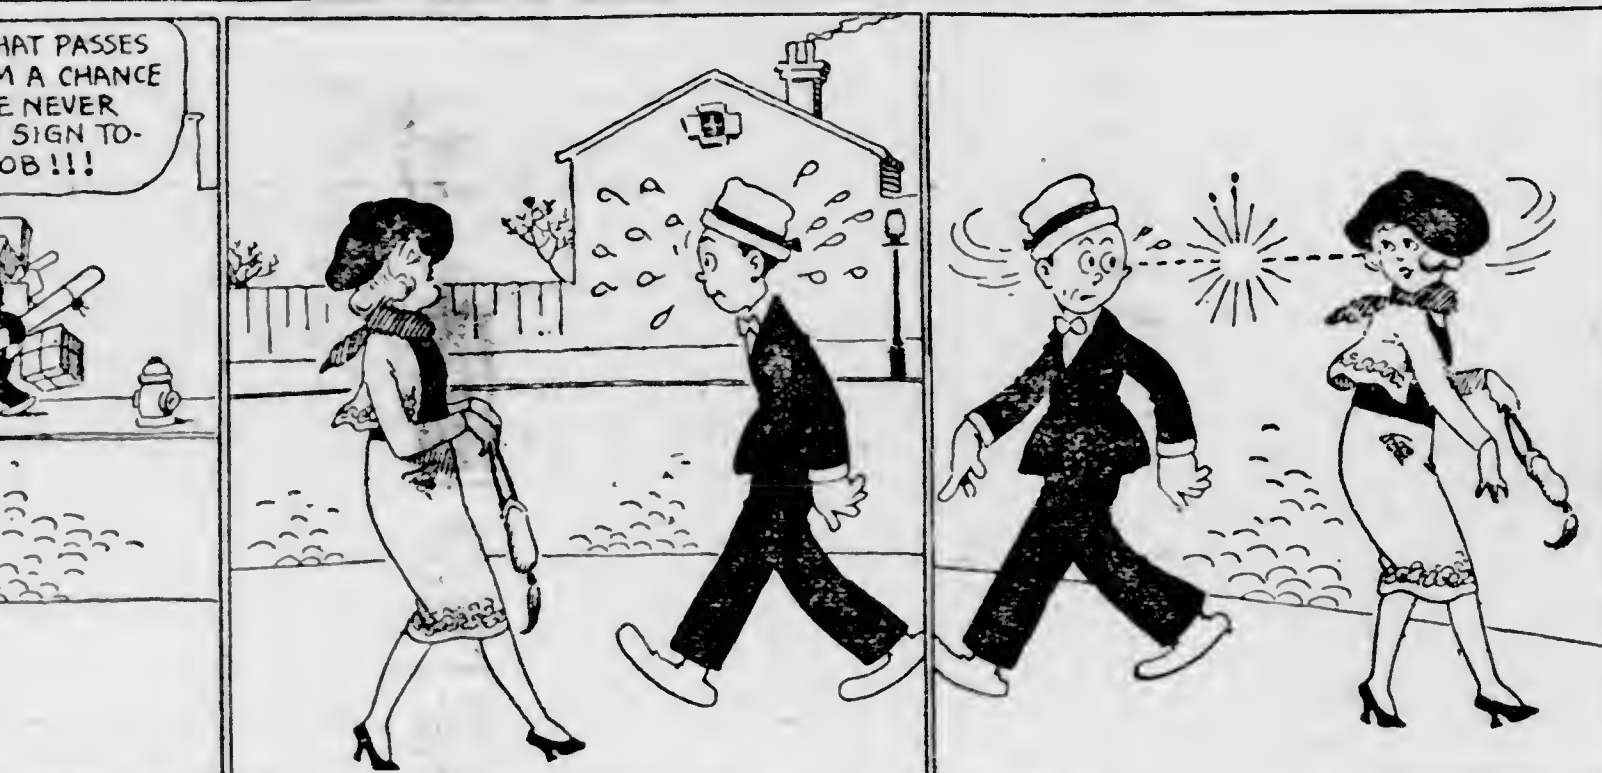

This club owner pointed out that if necessary the Chicago, New York and Boston clubs could put teams of amateurs in the field as their representatives in the American league if they failed to do so.

HUNTERS LEAVE TO SHOOT GAME
All trains leaving Duluth this morning were crowded to the vestibules in preparation for the deer and moose hunt which starts next Monday and continues until Dec. 7. The Duluth and Iron Range, the Duluth, Winnipeg & Pacific and the Northern Pacific and Great Northern lines were particularly heavily patronized.

Most of the hunters will be in camp by tonight and get everything in readiness to slay the deer and the moose when the first signs of daylight appear next Monday morning. Many parties are going into the forests to camp for a week or more regardless of whether they get a deer or a moose the first day or not.

It is expected that by Monday evening the first trophies of the chase will begin to reach the city.

FREAK PITCHING REDUCED HITTING IN BIG LEAGUES

Only One No-Hit Game in Majors in 1920 Season.

Abolition of freak pitching showed its effect in the major leagues this year in the reduction of low hit hurling performances. The effects were not as pronounced as were anticipated last winter, but still were apparent.

Only one no-hit game was pitched in the big circuits during 1920, and that was by Walter Johnson, the veteran who had been denied a place on the no-hit tablet of fame by hard luck in several nervous games during his long career. Johnson attained his goal on July 1 against the Red Sox. No National league hurler blanked his opponent without a safety this year.

Last year there was one no-hit game in each major league, with Hod Lister and Ray Caldwell as the performers.

In the matter of slump performances there was also a change in 1920. There were three of them in the National league and two in the American circuit in 1919. The one-hit hurlers of this season were Jim Vaughn, Bill Doak and Art Nehf in the National league, and Warren Collins and Guy Morton in the American.

There was a big falling off in the number of two-hit games in the National league this year, only seven against nineteen of them in 1919—but in the American league there was a slight increase from thirty-two to thirty-nine. The 1920 record follows:

BARRED BOXERS ARE GIVEN AIR

Clubs in Three Eastern States Will Respect Suspensions.

Chicago, Ill., Nov. 12.—A step in the right direction is being made in the boxing ring in the East, according to information received this way by the Chicago wires. It has to do with the way the boxing commissions in various states handle the boxers, but more particularly concerns the recognition of action taken in one state by the officials of other states.

There long has been a concerted but futile effort on the part of some men connected with the boxing game to get together and form some sort of a governing body which would have jurisdiction in things pugilistic in every state where the sport is permitted.

A national commission in the lines of the national commission in baseball was suggested. It looked like a good idea, but got nowhere, because those who mingled in the glove sport apparently did not care to waste the time or effort to accomplish the formation of such an organization.

Three States in Understanding.
What we started out to say here concerns the benefit that boxing should get out of the way Eastern promoters are handling the sport. It is learned that at least three states, New York, New Jersey and Massachusetts, have reached an amicable understanding which should help to keep boxing clean and above criticism.

For instance, we are informed that in recent months New York, New Jersey and Massachusetts have barred certain boxers, but got nowhere because they failed to live up to the letter of their contracts, which means they did not give the promoters or the public

what they contracted to give in the way of entertainment.

There has been a noteworthy lack of mention of the word "fraud" in the suspension notices which were handed to the newspapers for promulgation, and this is one thing which saves the game from a black eye and for which everybody who has the interest of boxing at heart should be thankful.

Recognize Suspensions.
Such suspensions undoubtedly are a good thing for the game, but what great good would they accomplish if a pair of boxers could "game" through ten or twelve rounds in one state and be barred, then move over to another state and pull the same stuff, which is termed in a milder way, "not performing their best." So, at all, but a great deal of good will come of such suspensions if the ruling powers of New Jersey, for instance, recognize the suspensions handed down in New York, and the boxers ruled out in one state find themselves also ruled out in another.

It seems that this state of conditions has developed in the East, and it will be a good thing for pugilism, if it could be improved, however, if the same sort of an alliance could be gotten up over the states of the East and states of the West.

Should Be Extended.
For instance, the suspensions of New Jersey, New York and Massachusetts commissions, or vice versa? Perhaps it will work out this way in time, which should please boxing fans.

It would be one way to make amends for the failure of boxing authorities to get together and form a national governing body.

HEYDLER SATISFIED WITH ARRANGEMENT
Chicago, Nov. 13.—President John Heydler of the National league made the following statement:
"I am very happy over this solution of the baseball problem, which is an upward step for baseball and forever settles the question of the national game. One of the chief worries of a league president is to vote fairly in national politics from the national standpoint to be relieved of the responsibility."

OKLAHOMAN LEADER IN MISSOURI VALLEY
Kansas City, Mo., Nov. 13.—With Oklahoma retaining a firm grasp on the 1920 Missouri valley conference football title the attention of observers here turned today to the game between Washington and Missouri universities at Columbia, for if Missouri and Kansas universities should win the respective titles of the conference and Oklahoma drop out the three schools will find themselves in a triple tie for first place.

HIGH SCHOOL ATHLETES TO COMPETE AT ITHACA
Ithaca, N. Y., Nov. 13.—School boys from various Eastern preparatory and high schools will compete in Ithaca today in the annual interscholastic cross country race to be run off under the auspices of the Cornell University Athletic association. About thirteen schools have entered about 100 athletes in this meet.

An innovation in the nature of the course to be covered has been arranged for this year. Instead of a three and one-half mile cross country run, as in former years, the contest will be a three-mile steep chase, with the usual natural obstacles of such a race, fences, ditches, water jumps, fields,

Weddings Continue to Interest Society

Weddings continue to hold a place of prominence in the social calendar and during the ensuing week society will focus its attention on two especially interesting ones. That of Miss Marian Robena Bridgeman, daughter of Mr. and Mrs. Henry Bridgeman, London road, and Herbert Nordal, son of Mr. and Mrs. Herman Nordal of this city. The marriage ceremony will be performed by Rev. J. C. Berger of Lakeside Presbyterian church, at the home of the brides parents, at 3 o'clock Friday afternoon.

Miss Bridgeman will have for her attendants her sister-in-law, Mrs. H. E. Bridgeman of Grand Forks, N. D., who will be matron of honor, and two bridesmaids, Miss Margaret Nevill of Superior and Miss Beatrice Holm of this city. Mr. Nordal will have for his best man his brother, Joseph Nordal.

Among the pre-nuptial entertainments for Miss Bridgeman is a dinner and box party at the Ypohum Wednesday evening at which Mr. and Mrs. Mack Hudson will be hosts to members of the bridal party.

Sacred Heart cathedral will be the scene for the marriage ceremony of Miss Marian Robena Bridgeman, daughter of Mr. and Mrs. Henry Bridgeman, London road, and Herbert Nordal, son of Mr. and Mrs. Herman Nordal of this city. The ceremony will be performed at 3 o'clock Friday afternoon by Rev. J. C. Berger, pastor of the cathedral. A pre-nuptial entertainment for Miss Bridgeman is a dinner and box party at the Ypohum Wednesday evening at which Mr. and Mrs. Mack Hudson will be hosts to members of the bridal party.

Following the wedding ceremony, the bride and groom will be entertained at a reception at the home of the bride's parents, at 3 o'clock Friday afternoon. The bride will be accompanied by her mother, Mrs. H. E. Bridgeman, and her sister-in-law, Mrs. H. E. Bridgeman. The groom will be accompanied by his brother, Joseph Nordal.

In celebration of their nineteenth wedding anniversary, Mr. and Mrs. Charles Berwick were surprised by friends at their home at 433 West Sixth street. Cards were played during the evening and honors were taken by Fritz Tallor, H. N. Desair and Mrs. A. J. Houle.

Miss Frances Wolover was the honor guest at a shower given Tuesday afternoon at her home on West Seventh street. Games were played and lunch was served to forty of Miss Wolover's friends.

In compliment to Miss Mabel Gustafson, a bride-elect, daughter of Mr. and Mrs. V. J. Gustafson, Ninth street, west, entertained at her home Tuesday evening. Sixteen friends were guests.

The Parent Teachers' association of the Emerson school met in the assembly room Wednesday afternoon with an unusually large number present. An interesting program was given, with a collection by the school orchestra and a solo by the direction of Miss Peterson. At the close of the meeting refreshments were served and a social half-hour enjoyed by all.

"Contributions of the Various Racial Groups Toward the Making of the America of the Future" is the title of a talk to be made before the Open Forum of the Swedish Mission church Wednesday evening by Albert B. Clifford, E. S. L. B. A. M.

A shower was given by proxy Thursday evening by a group of friends of Miss Norma Elischer of Yafima, Wash., who were entertained at the home of Mrs. C. E. Schuler, 1012 East Seventh street. Fifteen guests were entertained, Miss Elischer formerly lived in Duluth. She will be a December bride.

One hundred reservations have been made for the annual luncheon of the Twentieth Century club which will be held Monday at 1 o'clock at the Northland Country club. An interesting musical program has been planned, and members of the Federated homes in Duluth and Superior are availing themselves of the opportunity to hear Mrs. I. O. Bach, the principal speaker. For the afternoon, who has chosen as her topic "The New Renaissance." The members attending this meeting are asked to be at the Third avenue transfer point in time for the Lester Park car leaving Third avenue at 12:06 or at 12:26 o'clock.

COAL REQUIREMENTS TO BE FULLY COVERED

Hard and soft coal requirements of West Duluth for the season will be fully covered, in the opinion of Duluth coal dealers. They confirmed statements yesterday that arrangements have been made by the different coal companies to meet all the needs of residents in that part of the city. "We have done our full share in supplying coal to West Duluth, and we are continuing the shipping of coal to them right along," said one of our own customers who is shipping coal to dealers who in turn sell it to the residents. SLASH ON FOREIGN MONEY ORDERS TO BE EFFECTIVE NOV. 15, CONDENSE ANNOUNCES.

Values of foreign money as handled in international money orders by the Duluth postoffice, have been revised sharply downward under an order received today by Postmaster Arthur O'Brien. The order, dated Nov. 15, continued depreciation of foreign money. Mr. Condense said, has made necessary the revision although exchange values were slashed by the postoffice department as recently as Aug. 15. Switzerland is the one country mentioned whose money has not lost ground in the last three and a half months. The value of the Swiss franc is now the dollar to 13 francs, and that of the Italian lire to a basis of twenty lire to the dollar. Despite the reduction, postal exchange values of the foreign money are shown by comparison with money market values in commercial and banking circles. This is indicated by the following table:

TWO TADS SEEK LICENSES TO SHOOT RABBITS; EQUIPPED

Two 6-year-old youngsters, each armed with leather coats, red visored caps, game bags and other up-to-date hunting paraphernalia, visited the county auditor's office in court house this morning in quest of hunting licenses. They were accompanied by their father for license favors who have shown up at the courthouse this season. "These mister, I want to get a 5-cent rabbit license," volunteered a bright little fellow, who acted as spokesman. I. G. Wollan, deputy county auditor, had the boys come over to his desk while he interviewed them on the rabbit license situation. "Well, give us a license," the youngster said in a pleading voice. "I want to get a 5-cent license," the other boy said. Mr. Wollan assured the juvenile rabbit hunters that they would get their licenses to go out and hunt rabbits. SIMPLICITY IS MAIN FEATURE HERE Dutch Colonial House Finds Popularity

IF YOU want to build a home as an investment you will do well to study this Dutch Colonial plan.

Perhaps the best word that explains the popularity of Dutch Colonial style is the word "simplicity" both in design and in construction.

From the sun porch, which may be either glassed or screened, is an entrance to a small hall with a closet adequate for coats and outer wraps.

The outside dimensions of this home are 28x10 ft. It is estimated that to build this house, under present conditions and current prices of materials, it will cost \$6,562.

The plans, specifications, complete working drawings and details for this

home are ready to use and offered to home builders by the Architects' Small House Service Bureau of Minnesota, Inc., 716 4th ave. s. Duluth office, 411 Exchange building.

Contractors are making every effort to push work now in hand to completion and it is hoped that other structures included, upon which foundation work is proceeding in order that interfering work may be carried through during the winter months.

McLeod & Smith, contractors for the proposed new water and light department building on West First street is pushing through the excavating for the foundation by steam shovel.

Charles Anderson is building a frame store and dwelling at 494 West Fifth street to cost \$5,000.

The Northwest is making a better showing than other parts of the country in building operations, according to the F. W. Dodge company of Chicago.

October building contracts in Minnesota and North and South Dakota amounted to \$8,726,000, an increase of 24 per cent over the September figure.

October building contracts in Minnesota and North and South Dakota amounted to \$8,726,000, an increase of 24 per cent over the September figure.

MUCH WORK IN PROSPECT

Actual Show for Week Slight; Architects to Figure on Schools.

While only ten permits for improvements estimated to cost \$16,725 were issued at the building inspectors' office during the last week, architects reported that considerable work is in prospect, and that from present appearances, they are counting upon considerable activity developing after the beginning of the new year.

Frederick W. Armstrong, secretary of the Duluth Builders' Exchange, asserted that a number of plans for schools and other public buildings at outside points would be filed at the exchange by architects within the next few weeks.

It is expected that local contractors generally will take advantage of the opportunity to figure upon them, included in the list is a high school at Frederick, Wis., a union passenger and freight depot for the Great Northern and Northern Pacific railroads at Cloquet, Minn.

REALTY TRADE MORE ACTIVE

Fourth Avenue West Frontage Sold; House Properties in Demand.

Improved inquiry, both for houses and business frontages, was noted by real estate operators during the last week. A fair list of transactions for the season were put through and operators seemed that they are working upon other deals that are expected to reach the closing up stage shortly.

Among the central property transactions put through was a sale of forty feet frontage on Fourth avenue west between First and Second streets at a consideration of \$15,000.

H. H. Hyndmann, sales manager for the following sales during the week, reported the following: 1000 East Seventh street, for Ross Block to E. J. Johnson for \$5,000; house and lot in the east hillside district for Axel E. Halverson to John A. Craig for \$5,000; in Waverly Park for R. Drummond to John Richardson for \$7,000; lot in Kenilworth to Axel R. Solon, and house and lot at 1620 Eighth street for J. E. Coll to Ralph Morrison for \$5,800.

N. J. Upham, president of the International Realty association, reported that the highest priced residence property in St. Petersburg is now being sold for \$100,000.

While down there, Mr. Upham let contracts for grading streets, laying water mains and sidewalks, and the building of a fifty-room hotel as part of the initial improvement to be undertaken.

Outlining the project, Mr. Upham said: "The St. Petersburg Beach property consists of 2,000 lots on Long Key island having four miles of water front on the Gulf of Mexico and Long Key bay. It is connected with St. Petersburg, Fla., by a one-mile bridge. It has tropical vegetation and a very fine beach for bathing and automobile driving."

St. Petersburg, Fla., between the gulf and Tampa bay, Mr. Upham says, is conceded to have the best climatic conditions in Florida, being cooler in summer and warmer in winter. It is especially known for its sunshine, weather reports showing that during ten years there have only been fifty-seven days that the sun has not shone some time during each day. The afternoon sun there gives away its effluence each day the sun does not shine. The surrounding country has fine, automobile trails, among orange and grapefruit groves and truck gardens and it is the most productive section of Florida.

The waters about St. Petersburg are famous for the best fishing grounds in the United States, abounding with all kinds of fish from 150-pound tarpon to many smaller species. St. Petersburg has a permanent population of 15,000 showing an increase of 251 per cent in ten years according to the U. S. census. Forty thousand to 50,000 tourists go there in the winter months and each year thousands are turned away for lack of accommodations.

St. Petersburg started a few years ago as a health resort, physicians sending people there from all parts of the country. Since then it has become one of the most popular places for winter tourists. Though having much greater natural advantages, it has lacked two factors that have hindered the development of the Florida east coast cities. First, large fashionable hotels, and second, a beach development. In spite of the lack of big hotels, the weather classes are now pouring into St. Petersburg in rapidly increasing numbers, overcrowding the better hotels at \$7 to \$15 a day rates, and having \$2,500 and upwards for the better class of furnished houses for the winter season. Negotiations are

now pending for a \$1,500,000 fireproof hotel, and the development of its beach is now assured by the associates who expect their property to become the highest priced residence property in St. Petersburg as similar properties are in the east coast cities.

The Florida east coast cities are a result of the intensive development of the Flagler railroads, in the building of the Flagler railroad system and its very large and fashionable hotels, together with the tremendous publicity campaigns they carry on throughout the country to create patronage therefor.

Palm Beach has a permanent population of only 8,000, and Miami 25,000 while St. Petersburg has 15,000 without any of this publicity and intensive wealth development. Business property in Palm Beach sells for \$2,000 a front foot, in Miami \$4,000 a front foot, and in St. Petersburg at \$1,000 a

There is an enormous demand for houses in St. Petersburg, notwithstanding the fact that the building cost for the winter season alone.

Some Duluth people are now forming a syndicate to build houses for sale at St. Petersburg Beach this winter if they can be made there.

ON THE IRON RANGES

EVELETH PROTEST TO BE PRESENTED

Eveleth, Minn., Nov. 12.—(Special to The Herald.)—The protest against the increase of 50 per cent in the valuation of real estate in Eveleth, Minn., was presented to the court of the city hall on Tuesday afternoon at 2 o'clock. The Rev. F. A. Schwartz officiating. Intention will be made at Lakeside cemetery. The funeral will be in charge of the White-Bennett Post at Taconite which is named for the deceased soldiers of that village.

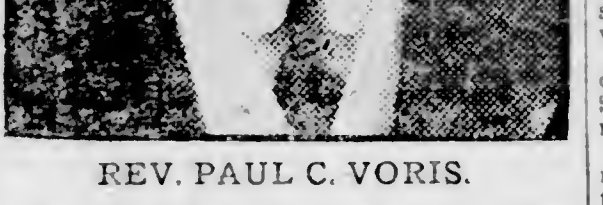

Clarence Bennett came to the Chisholm mining district at the beginning of developments here in 1906. His father, Philip Bennett, was a mining engineer. Clarence graduated from the Greenway high school in 1908. For several years he worked for the American Iron & Steel Co. at Taconite. He married Miss Matta Jones, daughter of a prominent family in Taconite, who is also a graduate of the Greenway high school. A daughter, Edith May, was born to them. The father has never seen the child. Mr. Bennett's mother was an invalid for several years and was serving in France his father passed away, leaving behind a large estate of some \$50,000. Clarence and his daughter, Gertrude.

TWO HARBORS PASTOR TO DO STATE MISSION WORK

Mr. Richardson made the following comment on weather conditions: A further but generally slight drop in temperature has occurred in nearly all districts east of the Rocky mountains. The weather is still very unsettled and slightly below last night in South Dakota, North Dakota, Montana, Alberta, Saskatchewan, Manitoba, Ontario and West Canada and states east of the Rocky mountains. During the last twenty-four hours snow showers and fresh to strong west winds occurred on the coast. Snow or rain fell during Friday or last night over Southwest Montana, Idaho, Utah, Colorado, Oregon and Washington. In connection with low pressure, heavy fog and rain fell over the Washington coast.

INJURED BOY HAS FIGHTING CHANCE

Eveleth, Minn., Nov. 12.—(Special to The Herald.)—Leo Smigel, 13, who had his right arm broken by a train engine over by a locomotive on the railroad tracks leading to the Mesaba Mountain pit in Virginia, has a fighting chance to recover. The boy falls a little, but has not regained sufficient control of his right arm to be able to do anything as to the circumstances connected with the accident. The boy has been injured, and as a result of which his right arm is broken. The boy was taken to Virginia for medical treatment.

THAT'S MY FARM

It seems to be every one's ambition, and a good one, to some day own a farm. Abraham Lincoln said: "No other occupation opens so wide a field for the profitable and agreeable combination of labor and cultivated thought as agriculture."
