

# Pictures for beginners

Anyone can add pictures to Wikimedia Commons. Then anyone, anywhere in the world can use those pictures to improve Wikipedia pages or for anything else!

## Go to the Wikimedia Commons site & click Upload

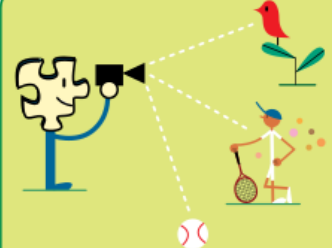

Check you can upload your file (you can if it's your own photo!) then press Next.

### What can I upload to Wikimedia Commons?

You may upload works that you created entirely yourself 

This includes photos and videos of:

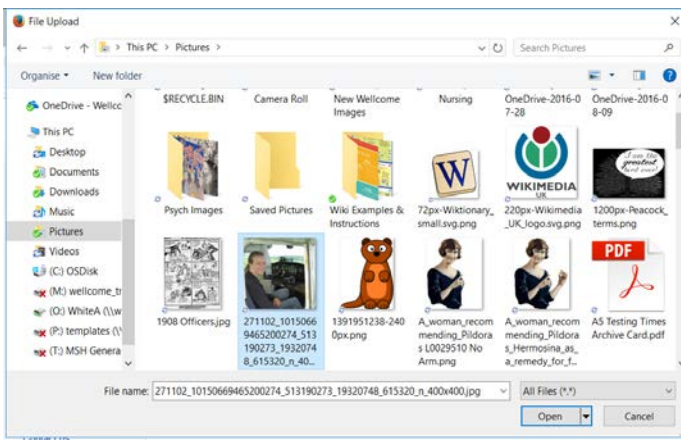

- natural landscapes, animals, plants.
- public figures and people photographed in public places

Remember: By sharing your work on Wikimedia Commons, you grant anyone permission to use, copy, modify, and sell it without notifying you.

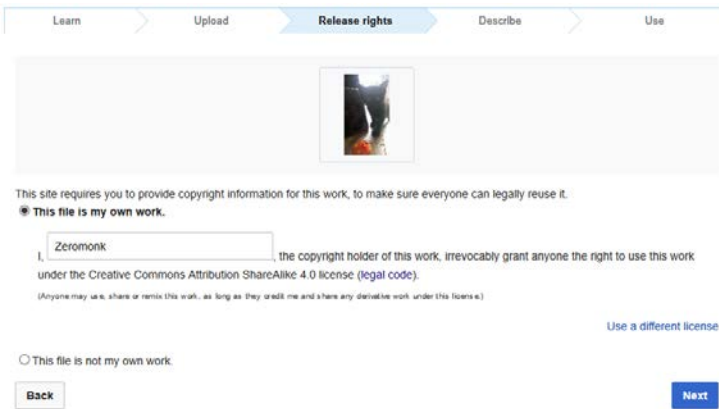

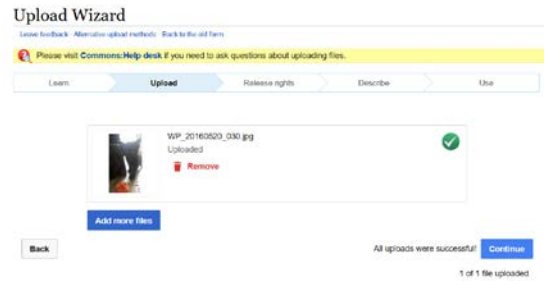

Click the button to choose your file:

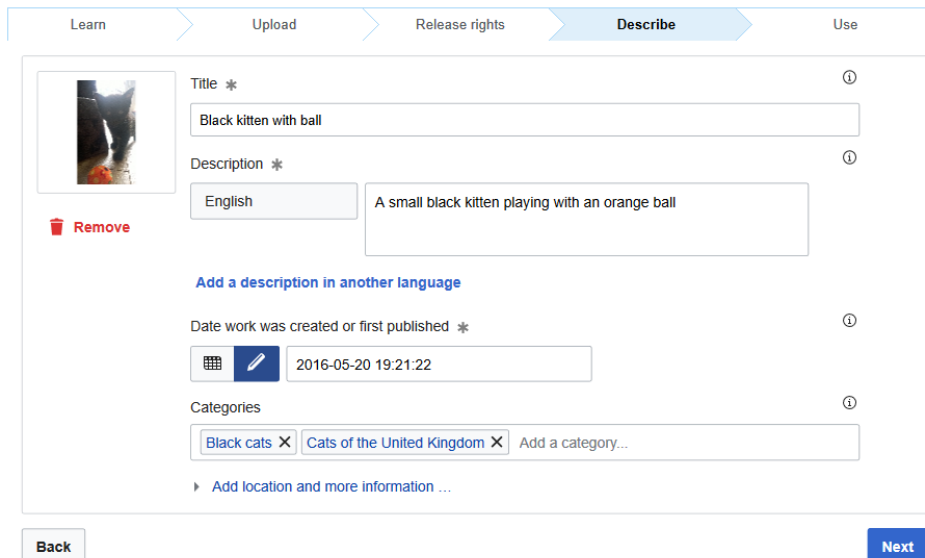

Find your photo on your computer and click open to upload the file

Click continue when it has finished uploading.

Click to say it's your work you're uploading and then click Next.

Give your picture a name and description, and say when it was taken.

Add categories to help people to find it – suggestions will appear as you type.

Click Next...

That's it! You'll now see links to share your work or put it into Wikipedia!
