My dear Sir

Yours to Mr Preston was handed me by him requesting me to reply fully to it - The honey sample, I examined, and should report it to be of good quality, not quite as pungent or positive a flavor, as could wish but believe would nevertheless satisfy the trade. But the cost would prevent our using it at any such figures, as quoted you - Do not see how we could pay over about 2/6 per Gall - as we must pay 20% duty making a cost of 70% outside of freight, ought to little less to make it profitable - again - if we had now a darker honey we could use it for Jew trade, as during Lent, they are obliged by their religious customs to drink sweetened water, made principally of Honey - but as soon as Lent closes - we have no further use for dark goods until another season comes again 1893 - Though such goods as sample

We should use the year round for an entire
different purpose - With Jews quality is no object
unless exceedingly poor -

I await the shipment you refer to - Want Wax
had here refused to buy in St Louis in
order to use all you can procure in
Jamaica want a few tons now -
Keep in this shipment we shall see the
Native Honey: if cost is low it will I think
fill the bill - but only for Jews -
But want it at once -

Yours truly
Edward McMillan

Dear Sir

You seek arhond — The quality of the first 100 lbs wax was fine — the last 2 Bbls, were good, but not like first — The dam will work, not as nice, or by itself, but mixing with the light, will go very well, at less cost can work it in. — The market varies in value of dam, as to quantity obtainable. Sometimes it has been 5 or 6¢ less than light, and other times, half that.

Empty Bbls the cost of them is 50¢ if we had order for 10.0 in advance, could doubtless save you something — When in want shall be pleased to secure them for you — Credit Honey all OK

Dear Sir:

Yours of
Mch 30th at hand. We send by this
steamer five more empty casks as
you suggest. The one True Creole Honey
is very fair and we see no reason
why it won't work all right, it is
not as clear as the bottle of Mr
Laudanore product, but will answer
for some purposes if you can
get it at a little less cost. The duty
is twenty cents per gallon, now if
you could buy it so it would
cost us 75¢ duty paid or less, could
we a batch of it. Did this True
stand us 9¢ or in less 7¢ which
is too high to handle a lot of, of this
grade.

Will show up Mr Laudanore honey

on arrival and see what can
be done, think could sell his
in bond, will ascertain in regard
to this later.

Dear Sir. Yours of March 31st at hand, on Honey we can use say 25 barrels honey, provided price there does not exceed 2^{sh} 6. pr gallon, we really expected to buy at 2^{sh}, quality and color to be fully up to the 3 barrels we had from you. Barrels we are trying to get some 25. good barrels to ship you, as it requires the very best of barrels to hold honey, the last leaked somewhat, we may not be able to get all on today's steamer, but shall probably next boat, on Beeswax your price is too high, 26 cent Boston is the best we can do, could use two or three tons at that price provided quality is like sample barrel, New York parties are now selling our trade here, the fat there was from Cuba exactly like yours, at less price, we must be in position to sell trade here as cheap as the can, or stay out, yours Alexander Bros

Report of the Executive Committee
 OF THE
 American Academy
 OF
 Political and Social Science
 For the Year 1893.

TO THE MEMBERS OF THE ACADEMY :

The work of the past twelve months has been successful in spite of the generally unfavorable conditions of the latter half of the year—conditions which have reacted strongly on all educational and scientific effort.

The usual scientific sessions were held. They were as follows :

NO.	DATE.	SUBJECT.
17	January 12.	<i>The Banking Question.</i> Paper by Hon. Horace White, of the New York <i>Evening Post</i> .
18	February 23.	<i>Educational Problems.</i> Paper by President Isaac Sharpless, of Haverford College.
19	April 27.	<i>Political Ideas of Herbert Spencer.</i> Paper by Prof. Lester F. Ward, of Washington, D. C.

NO.	DATE.	SUBJECT.
20	November 17.	<i>The International Monetary Conference.</i> Paper by Prof. Roland P. Falkner, of Philadelphia.
21	December 20.	<i>Municipal Government.</i> Paper by Dr. Leo S. Rowe, of Philadelphia.

The annual meeting of the Council was held in the Girard Building, Philadelphia, on February 4, 1893. The report of the Executive Committee was read and approved, as was also that of the treasurer having been duly audited; after which officers were elected for the ensuing year.

The Executive Committee has held six meetings during the year, at which the routine business of the Society has been regularly transacted, and the administration of its affairs examined and directed.

The six regular numbers of the ANNALS have been issued during the year, averaging 158 pages each, making a total of 952 pages. Three Supplements have been sent with the ANNALS during the year. They were:

Constitution of the Republic of Colombia. Translated by Bernard Moses, Ph. D. January, 1893. Pp. 70.

Constitutional and Organic Laws of France. Translated by C. F. A. Currier. March, 1893. Pp. 78.

Inland Waterways, Their Relation to Transportation. By Emory R. Johnson, Ph. D. September, 1893. Pp. 164.

Together, ANNALS and Supplements form a total of 1264 pages, which have been sent to each member of the Academy.

Sixty-nine papers have been submitted during the year; fifty-eight from the United States and eleven from foreign countries. Thirty-two papers have been reprinted in separate editions.

The number of papers printed in separate editions to the close of the year 1893 was one hundred and seven. These papers, taken together, constitute a noteworthy addition to the literature of the political and social sciences. Many of these papers have produced a marked effect in the direction of

arousing and educating public sentiment regarding important political and economic questions ; while others have been of material aid to men engaged in the work of investigation and in teaching in our schools and colleges.

A special edition of five hundred copies of Meitzen's STATISTICS, bound in cloth, was issued, of which one hundred and ninety-two have been sold, leaving three hundred and eight still in stock. Also a special edition of the papers published in the ANNALS for March on the Banking Question was printed and widely distributed.

Members will have noticed during the last year that a very considerable extension has been made in the department of the ANNALS devoted to Book Reviews and Notes. This has been rendered possible by the willingness of many prominent scholars in the field of economics and politics to assist in this useful, though often onerous work.

The attention of our members is called to the fact that it is desirable to encourage research in economic and political questions by the offering of prizes for the investigation of specific questions and problems. The Academy will be glad to undertake the management of funds given it for this purpose.

Your committee begs to call special attention to the unusual opportunity which the members of the Academy now have to do a great service to the cause of economic and political progress. It is in times like these—times of great industrial depression, of social unrest, of political uncertainty—that public attention may be directed most easily to the serious consideration of our economic and social problems.

Whether our civilization is to move forward regularly and steadily with that uniform rate of progress which insures the preservation of all that is good in present conditions at the same time that it secures an uninterrupted acquisition of all that is possibly good in the future ; or whether it is to advance by spasmodic efforts, inviting possibly such fundamental upheavals as those which characterized the French Revolution, with the widespread ruin and havoc which ever follow in the wake of such movements, will depend primarily upon the possibility of educating public opinion along economic and political lines.

65

Every citizen of the United States should feel that a special duty rests upon him to interest his friends and neighbors—men and women alike—in the serious and continuous study of our great public questions. The first step in this work is for the citizen himself to become interested and to ally himself with those who are of like mind as to the necessity of such education.

There has never been a time in the history of our country when larger results could be accomplished along these lines with a smaller effort than to-day. The problems of Municipal Government, of Representation, of Poverty and Crime, of Wages and Profits, of Transportation, of Laws, of Public Administration in every department, are all attracting attention in every part of the civilized world as never before. The steady and permanent progress of *science* in this field, as in every other department of modern life, is of fundamental necessity to the welfare of modern society; the diffusion of the results of science throughout the community, the causing of them to enter the very life currents of our body, social and politic, the making of them into a part of the unconscious life of society, are equally necessary to our welfare. In both tasks the Academy may become of the most powerful assistance if our members will unite in the effort to make it so.

EXECUTIVE COMMITTEE,

EDMUND J. JAMES, *Chairman*.

Dear Sir

I have your favor of the 19th before

me

I have seen Capt Morris on the Morant Bay landings and he informs me and I consider his information correct, that owing to the exposed position of your wharf he is often unable to land cargo and it is consequently carried on to Port Morant, (at the same time the sea is not sufficiently bad to prevent landings at Mr Marshall's Wharf.)

This is being the case it is not the Company's fault that the cargo is not duly delivered, nor an act of God, but owing to the exposed position of your wharf - and I cannot but think that as long as it is ordinary weather the cargo should be delivered to the consignees at the ordinary charges, you bearing such other expenses as is made necessary owing to the peculiar position of your landing accommodation.

If the Atlas Co have to pay any charges on the cargo (local) we should have to give up carrying it as

My dear Sir

I have your letter of the 26th inst
confirming telegrams re fruit
You are aware of the difficulties we have
had with Mr James and no doubt heard
of the low grade fruit he has been supplying
us with, the last ship brought things to a
climax he bought about 500 First & 9-
and then threw in 6 of 4 boxes, Bleston
Hill has been yielding in a most ex-
traordinary way our month the fruit is
scarce and the next plentiful re re re.

I can not stand in any longer especially
now that we have given up calling at
Annatts Bay and cannot call at a
North Side Port if we don't go there ac-
cording to our arrangement with Stamford.

I decided not to allow James
to buy any more fruit for us and would
you if you could supply 3000 re. with
having an answer owing to the wires
being down I wired again (hearing of a
horse messenger going between the break.)

telephoned me of the mistake the operator had made in the figures making 3000 into 8000 so I promptly wired P^E Morant only to prepare 3000 and also wired you at P^E Antonio to the same effect - and I trust the corrected message will be in time to stop the error of 8000.-

Spool are unaware of this change but I don't anticipate any opposition to my plans, and they are to ask you if you could supply us with say 2500 stams I would not ask you to make a contract as it would not suit either of us, I would say though that I see nothing in the way at present of my asking you to supply us with 2500 to 3000 bunches for each fortnightly steamer from now until the end of this year at least, and I would further ask you to take the ships at Bowden and do the usual Customs work; all I see to trouble us is James putting on board from over the ships side from Boats the miserable production of Blyton Hill to obviate all the difficulty I saw in this direction I will so arrange

Judham informs me you wish everything put on the book you sent by him. It was Mr Swett's request that all of Capt Baker's bills be sent to the Boston Fruit Co the first of every month, as he wished them settled monthly. Every bill has been sent regularly including your own private bills. Now I presume they are in Boston now. If you wish duplicates ^{for the house} of these bills, we will make them for you, the only amount not sent is from Sept 1st. The bills were all approved by Mr John Swett.

SIR,

At a meeting of the Directors of the above Company held at the Office of the Company, on the 27th ultimo, it was determined to make a further call of 5/ a share (to make 15/ paid up) to be paid into the Colonial Bank to the credit of the Company on or before THE 2ND OF AUGUST NEXT. This will enable the Directors to complete the purchase and erect the Machinery so that operations may commence at an early date.

You are requested to lodge such amount as will cover the call on the number of shares owned by you.

By order of the Directors.

Yours faithfully,

The Consumers Ice Manufacturing Company, Limited.

Office, No. 44 Port Royal Street.

KINGSTON, 4TH DECEMBER, 1895.

THE Second Ordinary General Meeting of the Shareholders was held at the Office of the Company, No. 44, Port Royal Street, Kingston, this day.

PRESENT:

L. P. Branday, Esq., presiding: A. Delisser, G. H. Wales, C. A. Malabre, A. Munro, C. W. Tait, T. N. Aguilar, M. Martellier, E. X. Leon, Lewis Johnson, S. Soutar, and Justin McCarthy, Esquires, and Miss M. Gordon.

The advertisement calling the Meeting and the Report and Balance Sheet, having been read, the Chairman moved the adoption of the Report, which was seconded by S. Soutar, Esq., and unanimously agreed to.

REPORT,

PRESENTED AT AN ORDINARY MEETING OF THE SHAREHOLDERS OF THIS COMPANY, HELD AT THE OFFICE OF THE COMPANY, ON WEDNESDAY THE 4TH DECEMBER, 1895, AT 1 O'CLOCK P.M.

The Directors, in presenting their Second Report to the 31st October last, have much pleasure in informing the Shareholders that they have imported from the Frick Company, of Waynesboro, U. S., an "Eclipse" 10-Ton Ice-Making Plant, which is now being erected on the Company's premises, No. 1, Gold Street, and it is confidently expected that the manufacturing of Ice will commence about the end of the present month, when the Directors hope to complete arrangements to supply the Shareholders and the public through branches established in the most favourable localities.

They regret that an unavoidable delay occurred in starting operations, but they now again express their firm belief that the result will prove profitable to the Shareholders and beneficial to the community in general.

They have to report that 5,955 shares have been taken, upon which the sum of £3,944 2s. have been paid up to the 31st October last.

The Directors have found it necessary to make a further call of 2/6 per share (which will make 17/6 paid up) payable on the 6th inst., and which they hope will be promptly responded to so as to enable them to meet the immediate expenses contingent on completing the building and erecting the plant.

The Directors have to inform the Shareholders that the sum of \$10,000, equal to £2,061 17s. 2d., was transferred to the Colonial Bank Agency, New York, to cover the first instalment payable on account of the Plant, the first cost of which, (including Galloway Boiler, Pump and Pipes for Artesian Well) is £3,256 5s. 6d.

It is confidently hoped that gentlemen who have subscribed their names for shares to start the Company and who have not yet made lodgments to cover such shares, will now do so without further delay, as the Directors calculate on the issue of at least 8,000 shares to enable them to fully equip the manufactory and have in hand a sufficient sum to provide for current contingencies.

The Share List is open at the Office of the Company where applications will be received.

As the dates for holding the Half-yearly General Meetings of the Shareholders have to be fixed by the Company in General Meeting, the Directors recommend that in future the accounts be made up to the 30th June and 31st December in each year, and that the General Meetings of the Shareholders be held at the Company's office not later than the fourth Wednesday in the months of February and August in future; but that the next meeting be held in August 1896.

Annexed is a Statement of the Company's transactions from date of incorporation to 31st October last. At the request of the Directors Messrs. C. W. Tait and C. A. Malabre have audited the present accounts, and they recommend them to the Shareholders for election as Auditors of the Company.

During the past year a vacancy occurred at the Board of Directors by the death of Mr. K. J. Spicer, whose place was filled by the Directors calling Mr. T. N. Aguilar.

By agreement the following Directors retire, viz:—Messrs. G. H. Wales, Andrew Delisser and Justin McCarthy, but who are eligible for re-election.

L. P. BRANDAY, CHAIRMAN.

EML. X. LEON, ACTING SECRETARY.

On motion of C. A. Malabre, Esq., seconded by C. W. Tait, Esq., it was resolved—

That in future the accounts of the Company be made up to the 30th June and 31st December, and that the General Meetings of the Shareholders be held at the Company's Office, not later than the fourth Wednesday in the months of February and August in each year but that the next meeting be held in August 1896.

On motion of Lewis Johnson, Esq., seconded by M. Martellier, Esq., it was resolved—

That the retiring Directors, Messrs. Geo. H. Wales, A. Delisser and J. McCarthy be re-elected.

On motion of A. Munro, Esq., seconded by S. Soutar, Esq. it was resolved—

That Messrs. C. W. Tait and C. A. Malabre be elected Auditors of the Company.

On motion of C. W. Tait, Esq., seconded by Lewis Johnson, Esq., the thanks of the Shareholders were tendered to the Directors and Acting Secretary for starting the Company, and the interest taken by them in its management.

On motion of E. X. Leon, Esq., seconded by G. H. Wales, Esq., the Chairman was asked to leave the Chair, and A. Munro, Esq., was requested to occupy same, when a vote of thanks was tendered to L. P. Branday, Esq., for presiding at the meeting and for his general good services to the Company as its Chairman.

L. P. BRANDAY, CHAIRMAN.

Dear Sir,

At a Meeting of the Directors held on the 30th ultimo, it was unanimously resolved that a call of 2/6 per share (to make 17/6 paid up) be made, payable on the 6th December next. I have to request that you will lodge in the Colonial Bank, not later than the 6th December, the sum of

£ 1. 5. 0, being 2/6 per share now called on 10 shares held by you

The Company's Ice Making Plant (Frick's Echpse) has arrived, and is now being erected at 1 Gold Street. Shareholders are invited to visit and inspect the premises.

The Share List is still open, and intending subscribers will please apply early, &c.

REPORT,

TO BE PRESENTED AT THE ORDINARY MEETING OF SHAREHOLDERS, TO BE HELD
AT THE COMPANY'S OFFICE ON WEDNESDAY, THE 23RD FEBRUARY, 1898,
AT 1 P. M.

THE Directors have now to present to the SHAREHOLDERS their Sixth Half-yearly Report covering the period ending the 31st December, last.

During the Six Months under review the nett amount received for sale of Ice including receipt on account of outstanding cash reported was £1,195 14. 6., and there remained outstandings to the amount of £142 7. 8. (most of which have been since collected)

The Directors regret that they again have to record a loss which amounts to £315. 10. 11. this has been caused by the continued ruinous competition. Within the last month covered by this Report the Directors have re-arranged the working of the Factory and the delivery department, with great advantage to the Company; by this and further contemplated improvements they hope to be able to show better results.

They desire again to impress on the SHAREHOLDERS the advantage to themselves and Company of using the Ice Checks or Tickets (sold at the Company's Office) which is the only guarantee that their servants buy at the Factory or the Branches, flying the BLUE FLAG.

51 Branches are still maintained for the convenience of Customers : viz., 43 in Kingston and the Suburbs, 4 in St. Andrew, 3 in Spanish Town and 1 in Port Royal.

The Engineer reports the Plant, Machinery and Freehold Property in good order.

The retiring Directors are Messrs. Eml. X. Leon, S. Soutar and G. E. Burke, who are eligible for re-election.

The Auditors Messrs. C. W. Tait and C. A. Malabre who retire in accordance with Regulation, but are eligible for re-election.

WEDNESDAY, THE 25TH AUGUST, 1897, AT 1 P.M.

THE Directors beg to present to the Shareholders their Fifth Half-yearly Report for the six months, ending the 30th June last.

During the period under review the nett amount received for Ice sold has been £1210 4s. 5d., which, with £139 2s. 8d. outstanding in current accounts (the greater part of which has since been collected), make a total nett sales of £1349 7s. 1d. from 1st January to 30th June.

The Directors in submitting the usual Half-yearly Accounts regret that the working accounts show a loss of £242 11s. 7d., but as this occurred principally in the earlier months of the half-year, they hope that notwithstanding the present ruinous prices, with the continued patronage of the Shareholders and the public in general, to show a more favourable result in future statements.

In order to assist in accomplishing this they earnestly desire to call the attention of the Shareholders and other supporters of the Company to the system of the Ice Checks or Tickets established by the Company and to impress upon them that their systematic use is the only guarantee that servants buy from the Branches to which they are sent.

These check are taken at all the Branches and are to be procured at the Company's Office and other establishments as advertised.

Fifty-one Branches are still maintained for the convenience of Customers, viz.—Forty-eight in Kingston and the suburbs and three in St. Andrew.

The Engineer reports the Plant, Machinery and Freehold Property in good order.

The Directors again avail themselves of this opportunity to express their appreciation of the support given to the Company by their numerous customers and the public in general and to ask for a continuance of same.

The Consumers Ice Manufacturing Company, Ltd.

Office:—No. 44, Port Royal Street.

FACTORY:—No. 1, GOLD STREET, KINGSTON.

REPORT,

To be presented at an Ordinary Meeting of the Shareholders to be held at the Company's Office, on Friday, 5th March, 1897, at 1 o'clock p.m.

THE Directors in presenting their fourth Report, covering the half year ending the 31st December, 1896, have to inform the Shareholders that they have added to the Plant a Second Boiler of the Galloway type so as to secure the continuous working of the Machine without any stoppage.

During the half year, under review 122 new shares were registered, making a total of 6,045 shares, on which 17s. 6d. have been called up, to which is to be added 91 shares fully paid, and 3,800 on "Special Terms," making a total of 9,936 shares issued.

The Statements appended, show net cash receipts for the sales of Ice to be £1,210 2s. 10d., to which is to be added £114 7s. 6d., outstanding in current accounts (the most part having been since received), making a total of £1,324 10s. 4d. from July to December.

The statement showing the financial position of the Company discloses a loss of £253 3s. 1d. during the half year, which added to loss previously reported, places to the debit of Profit and Loss Account the sum of £454 2s. 2d. The Directors regret that the undue competition forced on this Company prevents their showing a statement that would be more satisfactory, and they desire to impress on the Shareholders that they have it in their own hands to ensure the ultimate success of the Company by supporting the Factory, asking their friends to do the same, and seeing that their servants buy from the Company's Branches.

They desire again to call the attention of Shareholders and the Public to the system of "Ice Checks" instituted by the Company, the use of which is the only guarantee that servants buy from the Branches to which they are sent.

For the convenience of customers, 59 Branches are maintained for the sale of Ice, viz.: 54 in Kingston and the suburbs, 4 in St. Andrew, and 1 in Port Royal.

The Engineer reports the Plant, Machinery and Freehold in good order.

The following Directors retire by rotation, and are eligible for re-election, viz., Messrs. L. P. Branday, J. Kennedy, and T. N. Aguilar

The Auditors, Messrs. C. W. Tait and C. A. Malabre retire in accordance with Regulations, and are eligible for re-election.

KINGSTON, 10th August 1898,

Mr. *L. D. Baker Jr*

DEAR SIR,

At a meeting of the Directors held on the 5th instant, it was unanimously resolved,—

“ That a further call of 1/3 per share (to make 18/9 paid-up) be made, the same to be payable into the Colonial Bank to the credit of the Company, on or before the 1st September next.”

This call is necessary to enable the Company to discharge its liabilities and redeem Debentures so as to give a legal transfer of property to the Kingston Ice Making Company, Limited, and to liquidate the Company.

You are requested *as early as possible* to make your lodgment of £.....^{17/6}.....being 1/3 per share now called on¹⁰.....shares held by you in the Company : and forward Bank receipt to me, with certificate to be endorsed.

By Order,

Dear Mr. Parker

I have just read your letter. I regret to learn the wine cups did not come as they should. The Mountebank cup had a racer as you thought. Mr. Smith wrote me before you sailed asking if I packed the saucer. I wrote him I did and was sure of it as I packed it myself and distinctly remember had I looked and to find it or get a new one. I will look into the matter. It does seem as though it was about impolite for the cups to be made right, ^{if} hope if we have noticed it in some time, sooner as it should. Mr L L Baker

Dear Sir

Your letter of Dec 1st reached me on time. I was busy Christmas time and it was laid aside and forgotten. About the papers I wrote to Mr. Smith, and sent your address. His reply was that he would at once send it to you. I presume you have it. If not let me know. I often think of your blue skirt and fine waister and think I should like to be with you. We have had some cold rough weather although on the whole it has not been a bad winter. We have had it cold enough to fall all the Dec hours so ice will be plenty next Summer. The time is not far distant when you will be at work getting the Aravaik in trim.

I am afraid the present will place
the Yacht Club in the rear of the proposition
I have been in correspondence with Mr. Small
the designer about a new boat. He tells me
he hardly thinks a new boat would do the
work but a boat and stern he thinks would
make her as fast as any of the new ones
as she has as good a bottom as a boat can
have. The new boats are 23 ~~or~~ all with 16 ft
natives, large pair plan. If I can sell,
may build. We still continue the Yacht
Club with about the same design. The subject
of town landing is before the town I am on
a committee of five to find a suitable
place and the answer. Yesterday we were down
in the beach looking at the various places.

I had a letter from Reuben saying he had been in to see the Eclipse Cycle people and tried to make a deal with them but found it would be to his advantage to deal with me and ordered a cycle 54 D. I think he must mean No 54 B as he says 75 grade, as he does not mention year, or color. I write to you to know if you can give me the information, the price and the cycle and bill to Boston Fruit Co. Please tell me how to make it - also his Jamaica Address, when last we went away if you remember I rec'd his bill and when he arrived in Boston he was to send me check I would not have you think I write having any uneasiness about the matter only on a business

Dear Mr. Baker

I want to thank you very much for the box of oranges you so kindly gave me when I was at Boston. I received them all right, and have been enjoying them at breakfast every morning. I arrived in town last Thursday morning at about 5 o'clock, after quite a rough trip. In fact I was the only passenger who took his three meals a day, and that with comfort. Generally I enjoyed the trip very much, but the majority of the passengers thought different. After leaving Boston on the "Kalgwin", we got round to Port Antonio at about 5.30 and were dropped at the mouth of the harbour by the steamer, and finally landed at the wharf about 6 o'clock. I went to the Company's Office and found the "Banstable" gone, and I must ride to St. Margaret's Bay. Leaving Port Antonio at 12.15 the next morning, I arrived at Hope Bay, where the driver took me by mistake, at about 2 o'clock. The "Banstable" was expected at about 3, but did not put in an appearance until 7.30. Quite a tedious wait, all night in the...

Finally got on board of *Danforth*, and we loaded what
 bananas we had, and started for St. Marguette Bay, where
 I found my baggage and the oranges. There I felt better
 and after a good breakfast on the boat, settled down to enjoy
 the voyage. But when we came right back to Port Antonio
 harbor, I regretted the drive to St. Marguette Bay but the loss
 of sleep the night before. After we finally left Jamaica
 made a fine trip for two days, passing Cuba at
 at 2.30 Sunday morning, and Castle Island, at 4.30
 & Fortune Island, the last land we saw until we got to
 Cape Cod at 1.45 P.M. Towards night it began to blow
 & rain hard. Sunday it was quite rough, and quite
 a number of the passengers vanished. We passed very fine
 views on the way up, and finally reached South Sea
 Lightship at 7.15 Monday night, and I went to bed with
 the expectations of seeing Boston in the morning, I awoke
 at about 3 o'clock Thursday morning, and found that
 it was snowing hard. I went back to my berth, thinking it
 was quite a cold reception, after such a nice time I
 had just been through. The weather is quite cold here
 and tonight looks like more snow. I must pack I don't
 quite a little, they were so constant in their attention to
 me. Hoping that you are well, and everything is
 going smoothly. I am

My Dear Mr. Baker.

I received yours of the 17th inst this morning and was very glad to hear from you. I am very sorry to hear that your brother was so sick, but am glad that he is on the road to recovery. I did not have so much time to make his acquaintance, as I had to make yours, consequently I did not feel so well acquainted with him. From the little what I saw of him I was very much pleased with, and next year I hope to know him better. The weather here has been very disagreeable. One week hot, the next, cold. Today is a regular "dog-day," such as we have in August. The killing of dogs, reminds me of Jamaica, and the good times, Jack and Bob, and I used to have, on the wharf. Nice dogs both of them, and I should like to be where I could play with them, and jump out of the way, just in time to escape a "shower bath" once more. We are surrounded by dogs at my home. Big dogs and little ones, all kinds & colors. Edwards Brooks a large fancier, has a large kennel just above us with about 50 dogs. He sends to all the dog shows all over the country and captures a good many prizes. Well the interest in the Camp news.

is beginning here. The "Defender" will be the swiftest yacht
that ever sailed in these waters, and if money can make
races, the Cup should stay here. However, I am very much
afraid that the Cup will take a trip to 1000 this year.
"Val Kepe III." was launched yesterday, and proves to be
no mean antagonist, if we can judge from Press reports.
Nelson has gone to the American idea in designing this year
making a very beamy, & not too deep boat. I don't like the water
she is like a "top" and ought to be very quick in stays.
Another American idea. "Dunroan" has copied is that of
making "Val Kepe III" a racing machine, than no inside fittings
at all, and has a steam yacht chartered for the crew
accommodations. Well may the best boat mid. is my hearty
wish. The "Ailsa" the new Scotch boat is having very
hard luck in breaking down at a critical time in races,
but I guess she is a good boat too. Possibly we may
have both "Ulla" & "Val Kepe III" over here this fall,
which would make great times for the yachtsman
and landlubber. I send you in charge of Capt. Anderson
a very good picture of "Ailsa", together with some other
illustrations of 2 1/2 raters, which are quite a novelty.
I hope you haven't seen these before. All is, if you have,
why do be afraid to say so. I must close now, with my best wishes.

Yours very truly

is the same old New England style, very changeable,
but not very good for general trade, as when the

of the tornado that occurred in St. Louis recently.
The photographs show an unusual state of affairs
and will probably interest you. It seems almost incredible
to us here in the East, that wind can attain such
tremendous force as is shown in the photographs, and
I am very glad that I live in Boston and not
in the West. I suppose you are thinking of coming
north soon, and enjoying your new boat. I hope that
it will be all your desire as to speed, and fine cruising
abilities. I should judge from the papers that Watson

has been defeated but once, and shows up very well
in light wind. Perhaps we may have His Royal Highness

busy since I returned from Jamaica, that I have not had a chance to write and thank you for the many kindnesses that you showed me while at Port Morant, but I have not forgotten them. I like Jamaica so much that I shall try and come back again next year. When I was there Mr Hopkins wife was very sick. Did she recover? I did not quite like to write him, as I know he was very busy and anxious about her. My photo that I took came out very well. I got 102 out of 108. a very good average I think. Bowden,

Dear Loren,

I reached here safely at last even if I did not have a "horse" according to your opinion. I reached Bolts place a little after seven and made a long stay there and reached Boston about eleven and took breakfast with Jenouere. Tell Adams he would have won that bet as I only had eleven letters instead of twelve. I got all my fruit on board all right and will sail tonight about ten o'clock. Give my regards to the boys and tell Adams I have taken his care etc.

Yours truly

My dear Sir:

Your of the 27th
was duly received & in answer
there to I will say that I expect-
ed when I left Boston to visit St
Antonio & still hope to do so but
the uncertainty as to whether any
given steamer of your line will
leave Kingston or in her return to
Boston or go thence from Port Anto-
nio, an uncertainty which seems
not capable of being removed by
Mr Loom till very near the time
of departure, makes me feel in
some doubt as to realizing that

Nippon. For instance it was un-
 derstood up to this forenoon that
 the Brookline was to be & depart
 from here to-morrow so three
 of those who were my fellow
 passengers on the Barnstable desir-
 ing to go back on the Brookline
 made arrangements to be taken
 over to Port Munt at considera-
 ble expense & were only prevented
 from starting by my happening to
 be at Mr. Linn's when the telegram
 came announcing the change where-
 upon, knowing where my friends
 were as Mr. L. did not, I had
 him telephone the change to them.

I am to return by
 one of your steamers for which
 I have a pass through the Mut-

Republic S.S. Co. and I should
 like as I have said to do so
 from Port Antonio or in some
 way to see West American town
 & perhaps you can advise me
 reasonable of the place of de-
 parture of a steamer. I expect
 to stay a fortnight longer but
 if I find it expedient to ~~go~~
 in a shuttle or receive a longer
 time I will let you know. ^{then}
 I go to Philadelphia ^{or Baltimore} instead of
 to Boston. I do not know that
 your steamer running to those
 places have accommodations
 for passengers but presume they
 have. I hope that in some way
 I may call at Port Moresby
 again for I'd like to meet you
 again & also, if possible, pay
 my respects to your mother.

In looking over Mrs Hart-
 man's letter I see she re-
 quests me to ascertain when
 your sisters are & inform her
 when let me know.

Yours truly

John Jameson

If you can do so please let
 me know when the Barnstaple

Dear Sir:

I came down
 from Mandeville yesterday expect-
 ing that the Brooklyn was to be here
 to day & that I could take her for
 St. Annant but I have just learn-
 ed from Mr. Kennedy that she will
 not come to Kingston. Mr. K. says
 a steamer will be here for
 Philadelphia which has fair good
 accommodations & I'd like to go by
 her. Will you kindly see that my
 ticket which is from Boston to St.
 A. & return to Boston may be
 made to cover that the changed
 return. I also am told by Mr.
 Kennedy that your mother will be

over here on Friday. I shall
take pleasure in calling on her if
you can inform me when I may
find her. Perhaps you could
send that package by her.

I shall be
sorry not to see you again but
it seems not likely to be until
you come to Boston when I shall
hope to meet you.

of yesterday is just at hand
I have scant time to an-

Mr Jones informed me by
telegram a few days ago
that I could not exchange
for Phil. so now I wish to
go to Boston by next ss. I
had yesterday a telegram from
Mr Jones stating that Barn-
stable will be in K. Ins. P.M.
and on this minute in an-
swer to one sent by me stating
that he reserved berth for

me in her, also a letter
 from him stating "Next week's
 steamer the "Barnstable" will prob-
 ably be at Port Antonio on Mon-
 day, leaving Monday night for
 Antigua and Bowden, from
 which ^{letter} place she will clear
 finally Tuesday afternoon as
 early as possible after 4 o'

In the P.O. ^{was yesterday} ~~was~~
 a notice to the effect that mails

I received your letter yesterday P.M. just after having written you a few lines, with order for check enclosed which I have drawn this morning and paid for policy enclosed, which I forward to you by mail this P.M. as I understand the ship that takes the mail sails today. I presume by this time you have received the other policy all right. There is one request the company requests that is that the premium be paid in this country, which I presume you can arrange without any trouble. The notes will be sent to your address they but I would recommend that you keep a memo of when it comes due in case

Your father tells me he has written you upon the subject of Assurance in his Corporation. & that you will call & see me upon the subject.

I think it well to say that if you will fill up the enclosed form & return it to me. I can arrange for your examination by the Doctor who is nearest to you at St. George.

I send you also a prospectus, & strongly recommend you to consider carefully the last table the book of rates contains - You will see by it that you can take out a policy payable at the ages of 50. 55 or 60 - or at death if that should take place sooner - so that every prem. you pay is really money saved which is paid back to you on attaining the required age - or if you die meanwhile the money is paid to your survivors as you may by will direct -

The cash Bonus is always $2\frac{1}{2}$ % on the prem. paid - declared every 5 years. —

Introduction

The purpose of this study is to investigate the effects of various factors on the growth and development of plants. The study is divided into several sections, each focusing on a different aspect of plant biology.

The first section discusses the basic requirements for plant growth, including light, water, and nutrients. The second section explores the role of hormones in plant development, and the third section examines the impact of environmental stressors on plant health.

The fourth section focuses on the genetic control of plant growth, and the fifth section discusses the application of plant biology in agriculture and horticulture. The final section provides a summary of the findings and conclusions of the study.

The study is based on a combination of laboratory experiments and field observations. The results of the experiments are presented in the following chapters, and the field observations provide additional context for the findings.

The study is intended for students and researchers in the field of plant biology. It provides a comprehensive overview of the current state of knowledge in this area and offers insights into the underlying mechanisms of plant growth and development.

Dear Mr. Baker:-

Some few days ago I recd. a fine lot of Jamaican views, for which accept many, many thanks.

It was indeed, very kind of you to remember me in this way, and I assure you I heartily appreciate it, as also the the numerous kindnesses and favours shown me by yourself, and all of your good people.

When I came down to Jamaica, last winter, I came to you comparatively, an entire stranger, and was accorded a kind and generous welcome by you all, such as strangers I think seldom, receive at any home, except at yours, and by your kind people; and I have to thank you all for, many of the pleasantest times, I ever had.

John was up here with me for a few days the first of the month.

Was very sorry that you and your good mother were unable to attend the Brattleboro, Fair.

Please remember me kindly to her, also Miss Mottis and Capt. Baker; also to Joshua & Mrs. Baker, your Uncle Richard, Mrs. E. B. Hopkins, and to any of my

as to ask after me.

I have heard from Reuben twice since his return, and

The Columbias winning the cup, I am sure has
pleased you all, as well as all true Americans.

Kindly tell Miss. Hyatt, Miss Clark and not attend
Brookings, Sam, and expressed deep regret at not
seeing her with her people, in Northampton.

Heaven's had my "hog-pie" lately.

I saw Maj. Childs the 12th, while he was in North-

as well then as when he left the Cape. He and
his Miss. Childs asked after you.

I saw Mrs. Childs for just a moment the day
Miss. Childs came to Northampton.

Hoping this will find you, mother, yourself and

I may hear from you and your people again soon,
and again thanking you, I am,

LIFE DEPARTMENT.

THE LONDON ASSURANCE and another Corporation, whose charters were granted at the same time, are the two oldest Life Assurance Institutions in existence; the first Life Policy issued by this Corporation bore date the 7th June, 1721.

It has been the study of the Court of Directors to introduce into their practice all the real improvements which have been suggested from time to time during this long experience. In pursuance of this object, they have had new rates of premium computed from the most recent experience of the mortality amongst assured lives. They have materially simplified the forms of Policy, all the conditions usually endorsed on such documents having been omitted. They have widely extended the limits allowed for foreign travel and residence without extra charge, and **have fixed a uniform rate of extra premium for all other parts of the world**, a practice peculiar to this Corporation. The bonus to the Assured is increased, owing to the arrangement by which, in consideration of a fixed percentage of the *gross* profits of the Life Assurance business, **the Corporation bears all the expenses of management**. This is another advantage peculiar to this Corporation, which it is enabled to offer from carrying on a Marine and Fire as well as Life business; and one which no exclusively Life Assurance Society, Mutual or Proprietary, can give.

DIVISION OF PROFITS.

Two-thirds of the gross profits of the participating Series of Policies are allotted every Five Years to the Assured, every Policy in force at the date of the valuation being entitled to participate. The Assured have the option of receiving their share of the profits in cash, or of appropriating it in increase of the sum assured, or in reduction of the future Annual Premiums.

The following are examples of the Bonus for the Quinquennial Period ending 31st December, 1885, declared on Policies of £1,000, on which five Annual Premiums had been paid.

Age at Entry.	Cash Bonus.	Addition to Sum Assured.	Rate per Cent. per Annum on Sum Assured.
20	£ 27 8 0	£ 73 1 0	£ 1 9 3
30	34 1 0	77 14 0	1 11 1
40	44 13 0	85 8 0	1 14 2
50	62 17 0	101 0 0	2 0 5

SURRENDER OF POLICIES.

An allowance will be made for the surrender of any Policy issued by the Corporation under the Tables of this Prospectus, provided that three annual premiums at least have been paid thereon.

RATES OF PREMIUM.

The Rates of Premium in the Tables of this Prospectus allow of residence in any part of the World, and a reduction of £1 5s. per cent. per annum will be made whenever the person whose life is assured is resident North of 33° of North Latitude or South of 31° of South Latitude.

The following Tables show the Rates of Premium for Assurances WITH PROFITS. The Rates for Assurances without profits, and further information may be obtained on application to the Agent,

THE LONDON ASSURANCE CORPORATION,

JAMAICA AGENCY.

Nov 1898

SIR,

I am desired to inform you, that the Renewal Premium on this Policy will become due as above-mentioned, and must be paid within Thirty Days from that day, otherwise the Policy will be void.

This notice is sent, in order that the Benefit of the Policy may not be lost by the omission to pay the Premium, although such Notice is not required by the terms of the Policy, nor can the want thereof be accepted as an excuse for Non-payment.

I am, Sir,

Your obedient Servant,

OSCAR MARESCAUX, *Agent*
Colonial Bank,
AGENT FOR
JAMAICA

THE EQUITABLE LIFE ASSURANCE SOCIETY

OF THE UNITED STATES,

120 BROADWAY.

NEW YORK, October 7th, 1898.

TO THE POLICYHOLDERS OF THE SOCIETY :

The value of an absolutely safe investment has been strongly emphasized by the late issue of Government Bonds, and the policyholders of the Equitable Society may well find cause for congratulation in the fact. The large subscription for these bonds at the time of their issue may have been partly due to patriotism. Now that the war is over, however, these bonds still sell at a premium above par. *Why?* Because of their security. Because the investor knows that his investment is absolutely safe and sure. Because principal and interest will surely be paid, and paid promptly and in full.

The Equitable's policies are to the assured what Government Bonds are to the investor, and as the absolute security of Government Bonds causes them to sell above par, so the *unequaled* financial strength of the Equitable Society consequently makes its contracts *worth more than those of any other company*.

Another lesson from the Bond issue. How many persons who *might* have subscribed for Government Bonds, at par, are regretting—now that the Bonds are at a premium—that they did not.

How many persons there are who regret—now that it is too late—that they *did not* assure their lives—or that they *did* allow their policies to lapse—while they were still assurable.

You can sell a Government Bond, and you can always replace it by buying another. But if you give up your life assurance policy, you may *never* be able to secure another. You can *always* buy Government Bonds—at some price. A time comes in every man's life when he cannot buy life assurance—at any price.

At the commencement of the war, in spite of all temptation to secure temporary advantage through seeking to gain public applause by hastily adopting unscientific measures, the officers of the Society declined to accept hazardous risks without extra premium. In this connection it seems in place to give a few ex-

tracts from a letter written at that time to a general agent who strongly urged that the Society issue *free permits* to all who wished to enter the army.

"The regular premium rates charged in the life assurance business are based on scientific principles and the tabulated experience of many peoples during long periods of years, but they are founded on the average rate of mortality among those who are engaged in ordinary employments and not upon the exceptional exposure to death incurred by those actually engaged in active service in war.

"In order to secure average results, we must not lose sight of these scientific methods and the teachings of practical experience. The assurance of lives is the most serious business which civilization has yet developed, and has therefore to be most carefully safeguarded. If scientific methods and practical experience are disregarded, every safeguard is immediately swept away, and the assurance is reduced to a condition of uncertainty, and possibly to worthlessness. The ordinary premium tables are based upon the risks of peace only, and any company, no matter how strong financially, which agrees to cover all the risks of universal war at ordinary rates is undertaking a dangerous experiment. The laws of average mortality are to all intents and purposes immutable, and to be absolutely within the safeguards of science and experience, a life company must not guarantee the same amount of assurance to hazardous lives at ordinary rates without regard to extra risk, but must charge an extra premium where the risk is appreciably greater than normal.

"It is our belief that we have taken the most liberal position consistent with the due protection of *the whole body of our policyholders*; and we are sure that they will recognize that such is our object, and that even under the pressure of a hasty and not well considered rivalry those in charge of their interests have the firmness and decision to refuse to give away their money without their consent.

"The Equitable Society will ever lead in the upholding of the right, but will decline to follow others in questionable or improper steps, however alluring for the moment, and we are convinced that the assuring public will approve our course, and argue from it that the Equitable is the best company in whose keeping to confide sacred interests, which may need watching for many years to come."

The war is now over, and while the hostilities have been of short duration, and the actual casualties on the field have been few, yet the constantly occurring deaths from disease, among the members of the United States army, render superfluous any words in justification of the Society's course at the commencement of the war, as outlined above.

While policyholders of the Society may congratulate themselves that their interests have been thus carefully guarded, they should also realize that while the Equitable Society has stood like a rock against all such measures as the above, which had for their object temporary popularity at the expense of future profit and security, yet all the really necessary and practical reforms in life assurance during the past quarter of a century have originated with the Society.

The Equitable was the first company to simplify and liberalize the policy contract.

It was the first company to introduce a policy giving the assured the choice of various methods of settlement after a stipulated term of years, thus adapting the contract to the changing circumstances of the holder.

It was the first company to introduce into its policies, old and new, a clause rendering the contract indisputable after three years.

It was the first company to reduce this term to a period of two years.

It was the first company to still further reduce this term to a period of one year.

It was the first company to pay its policies immediately upon the death of the assured, thus protecting widows and orphans against the vexatious delays which had been universal under the previous method of conducting the business in this and in other countries.

This last reform has been, and is, of special value to assurers, because many investments of great intrinsic value cannot be immediately converted into ready money, and it often happens that a life assurance policy is the only asset on which an estate can realize cash at once.

The Society pays its death claims promptly, no matter whether they are for large or small amounts. These two letters received during September are representative of hundreds of others.

POLICY No. 432,123.

WINONA, WIS.

I beg to acknowledge receipt this day of draft for \$100,000, being the amount of policy held by my father in your company. Although my father had policies in two or three other companies, and for very much less amounts, the Equitable is the first to pay.

POLICY No. 359,152.

DENVER, COL.

I am in receipt of your check for \$1,035, and thank you for the very prompt settlement of this claim. The papers were sent to you on August 27th, and the check was dated New York, August 31, which shows that you have settled the claim as soon as you received the papers.
Sept. 3d, 1898.

MARY E. HANKS.

If you have not received a copy of the pamphlet entitled GROWTH AND PRESENT CONDITION OF THE EQUITABLE SOCIETY, we shall take pleasure in sending you a copy, upon application. Moreover, if there are any of your acquaintances whose interest in life assurance, and in the Society of which you are a member in particular, might be quickened by reading this pamphlet, which contains a brief history of the remarkable progress of the Society from its organization and a concise statement of its present condition as compared with other companies, we shall be glad to send copies to any persons whose names and addresses you may see fit to send us on the coupon attached to this letter. Do not forget that the business of your Society is conducted on the mutual plan; that what is of advantage to the Society as a whole is of advantage to the individual member; that any effort you may put forth to aid in advancing its interests will necessarily be of advantage to you personally.

The officers of the Society desire to remind the policyholders that it is their wish to give attention to inquiries which may be addressed to them at any time by

policyholders. Those who hold policies in this and other companies sometimes receive advice from outsiders suggesting the propriety of abandoning old assurance to invest in something offering novel attractions. The expediency of requesting information from headquarters before considering any such change needs no argument, for such suggestions are on their face open to suspicion, because it is well known that a policy of life assurance increases in value as it increases in age, and the instances are very rare where any policy issued by a solvent and well conducted company which has been in force even for a single year, can be exchanged for new assurance without sacrifice.

Yours truly,
W. ALEXANDER,
Secretary.

Dear Sir:-

The cups have arrived and we have seen a party who does sponge plating, and he can take out the letter N, sponge plate it, and we can have it engraved with a W, and make a very nice job of it so that it would never be known but what it was engraved all right in the first place; this will cost 50¢ each piece. Or we can have the N made into a W, but it will not be a good job and will look very poorly. We will do whichever one you wish us to. Of course, having the N engraved over as it is now will not cost you anything. Please let us know which we shall do and if we shall hold the goods here for the party to call for them, or shall we ship them to you.

Dear Mr. Baker:-

I have yours advising shipments of the sample package of each of

- Penguin
- Karatas
- Dagger Plant and
- Sauseviera leaves,

by the Steamer "Ethelred". She arrived this morning but the weather has been so cold that the ship has not been opened so I have not seen them. I have no doubt they will prove what is wanted to get a satisfactory test of their value for fibre.

Since you left here I have personally seen the operation of getting the fibre from the coccoanut husk, and for economy and thoroughness of work I am even more favorably impressed than when you were here. I am also satisfied that we can send you at any time a Columbian Baling Press made by the

Sheet No. 2 L. G. BURNHAM & CO. to L. D. Baker, Jr.

Date Dec. 12, 93.

Dederick Company, of Albany, N. Y., which will enable you to put the cocoanut husks in a convenient shape for shipment. I am shipping by the "Ethelred" an old pattern Dederick Press which will answer our purposes at present until we get under way, and will be convenient to leave at one station after setting up where there are considerable many cocoanut husks.

Having provided for this and the preparation of fibre the most important thing now seems to be to find a sale for it and that is what I am taking up.

We are preparing from the fifty bags sent some fibre for two mattresses on an order from a Mattress Manufacture~~r~~ and I hope to have this the beginning of a larger trade.

Yours very truly,

Friend Baker

Do you think I could get any kind of a good situation if I should come out to Jamaica. I have been working with the above Firm for over a year now. I but I do not see much chance for advancement. I have had a good deal of experience in shipping and receiving, and have every reason to think I have given satisfaction, but I don't like the business and I want to get out of it. and think there would be a better chance to get ahead in some of (out of the way) place, than there is here. If you will write me your idea of the subject at your earliest convenience you will greatly oblige

The first part of the book is devoted to a general history of the world, from the beginning of time to the present day. The author discusses the various civilizations that have flourished on the earth, and the progress of human knowledge and industry. He also touches upon the political and social changes that have shaped the course of history.

The second part of the book is a detailed account of the history of the United States, from its early settlement to the present. The author describes the struggles of the colonies for independence, the formation of the Constitution, and the growth of the young nation. He also discusses the various wars and conflicts that have marked the country's history, and the progress of its science, literature, and art.

The third part of the book is a history of the world from the year 1776 to the present. The author discusses the various revolutions and wars that have shaped the modern world, and the progress of human knowledge and industry. He also touches upon the political and social changes that have shaped the course of history.

I hope you are having better weather in Jamaica than we are having here. for it has been, first snow and then rain, steady, for this last four weeks and now the slush is about 6 inches deep on the level, and still raining. Dear Mr. Baker

My young man, Mr. Dinklage, the bearer of this is desirous of getting through his work with as little delay as possible. Therefore I would beg you to let him go to work at once and deliver him in the evening yet to either of the 3 gentlemen, Dr. Girard at Mt. Bay, J.H. Ramsay or Mr. Fowler of Belvidere. I think the doctor would be the nearest & safest, as I know he is not in town at the Races.

For my own sake I am sorry to say I only got these 4 jobs for him, and if it was not for the promise I have given you I would not have sent him.

You will be kind enough I am sure to give him some dinner, before sending him to Mount Bay.

Our idea is that he will do the Doctors Pianos this same evening yet & the remaining two to-morrow Friday & thus be able to return to-morrow night yet or rather Saturday morning. If you don't facilitate him as requested, he will have to idle away Saturday Sunday & Monday at Mt. Bay & I am sure you would not like me to suffer thus.

He will receive the monies & give receipt in my name.

Always, trying to oblige

Dear Sir:-

With the assistance of the most eminent American writers, I have for some time been preparing a National Cyclopaedia of American Biographies, which is intended to be to this country what the great National Biographies are to Europe. The great fault with previous American works is, that their scope, either excludes the living, or is limited to the well-known few in the centers of activity. The aim is to make this Cyclopaedia National, reflecting the spirit, genius and life of the entire Republic, and, while it preserves all that is valuable in the past, to have it contain the lives of the men and women who are doing the work and moulding the thought of the present time.

Your name is entitled to a place in this work, and I beg to ask if you can prepare, or will have prepared, a biographical sketch, which shall contain the salient and interesting features of your life. As every man knows more of himself than anyone else, it is proper that he should state the facts; but the character portrait can probably be better prepared by another hand. This sketch will be revised by the editors, and arranged to fill the space proportionate to its importance.

It is the achievement of individual effort that makes up the true history of this Republic. No man ever did a manly work without taking a manly pride in it, and he owes it to himself, to his family, and to the community that his work be preserved in the pages of history for the encouragement and help of his fellow men. (See Prospectus and Specimen pages).

As the work is almost completed, will you give this your immediate attention; and, at the earliest possible moment, either forward your biography, or indicate some one competent to prepare it.

The National Cyclopaedia will command an enormous sale, for it will be full of interest to every one, from the thorough representation it will give to every section of the country. Never before has a Historical Biography of such magnitude been attempted. An immense sum has been expended by the publishers in personally collecting and verifying this information. The work will be published in six Royal Octavo Volumes, with steel engravings and vignette portraits of representative men, and will be produced in the highest style of printing and binding.

Asking an immediate reply, I am,

Sincerely yours,

James R. Gimre

The page on which your name would go is now in type. Please let me hear from you at once. J. R. G.

CHAPIN, Alfred C., Mayor of Brooklyn, N. Y., b. at South Hadley, Mass., March 8, 1843. In Stearns Park, Springfield, Mass., stands a striking statue, modelled by Augustus St. Gaudens, the young American sculptor who has recently so successfully executed a statue of Abraham Lincoln for the city of Chicago. It is the figure of a tall, stalwart man, past middle life, and clad in the Puritan garb of two hundred and fifty years ago—a broad-brimmed, steeple-crowned hat; a long, close-fitting doublet; bagged breeches, fastened at the knees; and over all, the enormous cloak of that period. The thrown-back folds of this cloak

Alfred C. Chapin

reveals, in the statue's left hand, a large Bible with brass nails and iron clasps, and in its right hand a ponderous oak staff, planted firmly on the ground as the statue seems to be moving forward. This is the figure and costume of the man who is intended to be represented, according to the tradition now current among his descendants; but of his face and features there is neither portrait, nor oral or written record, in existence. In their absence the artist has formed a composite face, from the features of some of the old Puritan's living posterity. The result is a striking physiognomy—no doubt a true conception of that grand race of men who "feared God, and kept their powder dry." The face is massive, the nose straight and prominent, the chin broad and determined, the mouth large and compressed, and so much as can be seen of the forehead is bold and protruding. He clutches tightly his oaken staff, and as he strides forward there is a fixed, resolute look in his face and downcast eyes, as if the weight of the colony were on his shoulders, but he felt fully able to support it.

This statue is intended to represent Samuel Chapin, who emigrated to New England prior to 1636, and settled at Agawam, now Springfield, in 1641. From him were descended Calvin Chapin, D.D., one of the organizers of the American Board of Commissioners for Foreign Missions, and for thirty-two years its secretary; the Rev. Dr. Edwin H. Chapin, the eloquent New York preacher; the late Chester W. Chapin, the railroad magnate of Massachusetts; Dr. Aaron L. Chapin, President of Beloit College, Wisconsin; and the subject of this sketch, Alfred C. Chapin, at present (1890) Mayor of Brooklyn, N. Y. The last-named is also descended, on his mother's side, from Lieutenant William Clark, who emigrated to New England in 1630, settled at Northampton in 1657, and became the ancestor of a family which has occupied an honorable position in the Connecticut Valley for nearly two and a half centuries. Alfred C. Chapin was taken by his parents when an infant to Springfield, Mass., whence they removed in 1852 to Keene, N. H., and thence, after ten years, to Rutland, Vt. In these two latter places he attended various private and public schools until 1865, when he entered Williams College, where he was graduated in 1869. He then pursued a course of law studies at the Harvard Law School, where he was graduated in 1871. The following year he spent in a lawyer's office in New York City, and was there admitted to the bar in 1872.

Mr. Chapin took up his residence in Brooklyn in 1873, and was soon elected the first president of the Young Men's Democratic Club of that city. But,

though holding this position, he took no more than a citizen's interest in politics, devoting himself closely to his profession and becoming noted for his industry, honorable methods, and attention to the interest of his clients. He was fast attaining a highly honorable position at the bar, when, in 1881, he received the Democratic nomination for Assemblyman from the Eleventh District of Kings County; and was

CORNELL, Alonzo B., b. at Ithaca, Tompkins County, N. Y., Jan. 22, 1832. He received an academic education, and at an early age engaged in the telegraph business. His first employment was at Troy, N. Y.; and since his first connection with that office Mr. Cornell has been continuously occupied, either as operator, manager, superintendent, director, vice-president, or acting president of the Western Union Telegraph Company or its predecessor companies, from 1846 to the present time.

Alonzo B. Cornell

His father, the late Honorable Ezra Cornell, founder of the Cornell University, was associated with Prof. Morse in the early development of the electric telegraph; and in 1843 was appointed by the Secretary of the Treasury as the Superintendent of Construction of the first line of telegraph in America, between Baltimore and Washington. The Western Union Telegraph Company was organized in 1854 by the union of several of the original telegraph companies, located chiefly in Ohio, Indiana, and Michigan. Ezra Cornell, the late Hiram Sibley, of Rochester, and Jephtha H. Wade, of Cleveland, O., were the practical founders of the company.

On his accession to the Presidency, in 1869, General Grant appointed Mr. Cornell as Surveyor of Customs for the Port of New York. He performed the duties of that office with such satisfaction that President Grant, in 1870, nominated him to the Senate for Assistant Treasurer of the United States at New York, to succeed Charles J. Folger, who had been elected to the Court of Appeals. Mr. Cornell preferred the customs service, and declined to accept the Treasuryship, whereupon Thomas Hillhouse was appointed to that office.

In the performance of duty as Surveyor of Customs, Mr. Cornell was associated with Moses H.

CROSBY, Howard, clergyman and educator, b. in New York City, Feb. 27, 1826. He is a great-grandson of William Floyd, one of the signers of the

Howard Crosby

Declaration of Independence (q. v.), and also a grandson of Dr. Ebenezer Crosby, who was surgeon to Washington's life-guards during the Revolutionary War, and subsequently a professor in Columbia College. His father, William B. Crosby, having inherited from Col. Henry Rutgers nearly the whole of the present Seventh Ward of New York, was, until John Jacob Astor accumulated his vast landed property, one of the largest real-estate owners of his time. He devoted himself to the care of his property, and to deeds of public benevolence and private charity. Of him it was truly said that "He delivered the poor when he cried, the fatherless, and him that had none to help him." And so "the blessing of him that was ready to perish came upon him," and he made the widow's heart to sing for joy." His son Howard, instead of giving himself to fashion and frivolity, after the manner of many wealthy men's sons, devoted his youth to study and his manhood to works that, in other directions, have emulated the good deeds of his father. Entering the University of the City of New York at the age of fourteen, he was graduated there at eighteen, and at twenty-five appointed to the professorship of Greek in that institution. In the following year he was elected President of the Young Men's Christian Association of New York, and in 1859 professor of Greek in Rutgers College, New Brunswick, N. J., then under the presidency of the Hon. Theodore Frelinghuysen (q. v.), and to which his great-uncle, Colonel Henry Rutgers, of the Revolutionary Army, had given his name and liberal donations. During a portion of the time that he filled that office he was pastor of the First Presbyterian Church of New Brunswick, but in 1863 he resigned both positions to accept the pastorate of the Fourth Avenue Presbyterian Church of New York. In the following year he was selected as one of the council of the University of the City of New York, and not long afterward was chosen its Vice-President, a position he still holds. In 1870 he was elected Chancellor of the University, and, still retaining his pastorate, he served in that capacity until 1881, meanwhile, from 1873 to 1881, acting as one of the American Company of Revisers of the Bible. In 1873 he was chosen Moderator of the General Assembly of the Presbyterian Church, and in 1877 its delegate to the Pan-Presbyterian Council in Edinburgh.

In addition to his clerical and educational work, Dr. Crosby has been active in benevolent and reformatory affairs of a public character. In 1877 he founded, and he has since acted as President of, the Society for the Prevention of Crime, an organization which seeks to restrict the use of spirituous liquors by means of State and municipal legislation, and his work in that direction has received such general approval that in 1888 he was appointed by the Legislature a member of the State Commission to revise the Excise Laws. These various clerical and educational employments would be enough to engross the entire thought of most men, but, in addition, Dr. Crosby has found time to write commentaries on the Books of Joshua and Nehemiah, as well

as on the entire New Testament; a volume of Yale Lectures, as well as several other works of a religious, or semi-religious, character; besides scores of pamphlets, and almost innumerable articles for the reviews. A busier, or more beneficent, life is not lived by any man in this country. The degree of D. D. was awarded him by Harvard in 1859, that of LL. D. by Columbia in 1871.

DEPEW, Chanucy M., railroad manager, b. April 23, 1834. He is of mingled Puritan and Huguenot ancestry, his mother having been a grand-niece of Roger Sherman, the signer of the Declaration of Independence, and his father a lineal descendant of one of the French refugees who founded the Huguenot colony at New Rochelle, about the middle of the seventeenth century. A later ancestor removed to the village of Peekskill, N. Y., not far from two hundred years ago, and built there a roomy colonial mansion, and in this old house Chanucy M. was born. He had the usual educational advantages afforded by the village schools of the period, but, owing to the moderate circumstances of his parents, was not able to enter college until his eighteenth year. He was graduated at Yale four years later, and at once began the study of the law in his native town. It was 1856, the year of John C. Frémont's candidacy for the Presidency, and the young law-student soon caught the political enthusiasm that attended the birth of the Republican party. His first public speech is said to have been delivered at this time from the village platform, and to have been a glowing eulogium upon the manifold merits of the adventurous Pathfinder. But he did not neglect his legal studies for such honors as may be won by a political orator in a small community. Applying himself diligently to his profession, in two years he was admitted to the bar, and entered upon the practice of the

Chanucy M. Depew

law. Every one knew him, and every one trusted him, but clients did not at first rush upon him in a tidal wave. They gave him time to study politics, and to follow his natural bent for public speaking, for, then as well as now, he was nowhere so much at home as when addressing a popular assemblage. He soon acquired so wide a reputation as a political orator that in 1860—only two years after his admission

BOUND VOLUMES, COVERS, BINDING, ETC.

THE CENTURY MAGAZINE.

1. We cannot bind or exchange copies of our magazines the edges of which have been trimmed by machine.

2. **Cloth Covers for Binding** will be sent, post-paid, for 50 cents; either the gold-cloth covers, or olive-green covers, with the new design stamped in blank, that is, without color. With either will be included, without extra charge, cover-linings of rich design, printed in gold and brown.

The local binder can put on these covers at slight expense. Full directions will accompany each cover. It is desirable in binding that the edges be trimmed *very slightly*, only the rough leaves being touched by the machine. All CENTURY covers are made large for this purpose. Volumes bound with the gilt-cloth covers should have a gilt top.

3. **Binding "The Century" in cloth.** We will receive unbound volumes of THE CENTURY, if in good condition, with leaves untrimmed by machine, and send in exchange the corresponding bound volumes, with the gold cover and gilt top, for \$1.00 each. We will send volumes bound in olive-green, without the gilt top, for 75 cents, in exchange. In both cases subscribers should pay charges both ways (35 cents additional to be included, if volume is to be returned by mail).

4. **Binding "The Century" in Half Russia.** We will receive unbound volumes of THE CENTURY, if in good condition, leaves uncut by machine, and send in exchange the corresponding volumes, bound in half Russia (*i. e.*, Russia leather backs and corners), with gilt top and edges slightly trimmed, for \$2.25 each, subscribers paying charges both ways. The back is stamped in gold with a rich and beautiful design.

5. **When the Numbers sent us are not in Perfect Condition**, we cannot exchange, but will bind them for the same price as that charged for the exchange. The binding requires about two weeks.

6. **Volumes of "The Century Magazine"** begin with November and May (two volumes of six numbers each to the year). We bind by the volume only.

7. **The Price of Bound Volumes** is \$2.75 each in green cloth, \$3.00 in gold cloth, gilt top, and \$4.00 in half Russia. Unbound volumes are \$2.00 each.

UNDER THE NAME "SCRIBNER'S MONTHLY."

8. **Cloth-bound Volumes of "Scribner's Monthly,"** dark olive-green, will be bound by the publishers for 75 cents per volume; or in half morocco, with marbled sides and edges, for \$2.00 a volume.

9. **Covers for Binding "Scribner's Monthly"** (which may be put on by any local binder at slight expense) will be sent for 50 cents each, by mail, post-paid.

ST. NICHOLAS.

10. **The Numbers of "St. Nicholas"** are not exchangeable; the earlier volumes will be bound in our uniform red-and-gold binding for 75 cents per volume.

11. **The Volumes of "St. Nicholas" for 1880 and thereafter** are larger than the preceding volumes, and are bound in two parts of six numbers each; the charge for binding is 75 cents for each part, \$1.50 for the volume complete. We cannot bind them in one part. Volumes begin with November, and the parts in November and May.

12. **Bound Volumes of "St. Nicholas,"** in red-and-gold cloth, \$4.00 each for the earlier volumes (in one part), and for the volumes for 1880 and later (in two parts).

13. **Cloth Covers for Binding "St. Nicholas,"** in red and gold, will be sent at 50 cents each, postage paid. For volumes previous to 1880 but one cover is required; but for 1880 and thereafter two covers are needed; price \$1.00 for the two.

14. **Volumes I. to VI., inclusive, of "St. Nicholas" are out of print,** and cannot be supplied, either bound or unbound. It is not probable that either of the volumes will ever be reprinted.

GENERAL DIRECTIONS.

15. **Missing Numbers** to complete volumes will be supplied at 35 cents each for "The Century" and "Scribner's Monthly," and 25 cents each for "St. Nicholas."

16. **It usually requires about two or three weeks** to fill an order for binding, except during the pressure of the winter season, when more time is required. All numbers sent for binding or exchange should be marked with the sender's name.

17. **Binding can be done most conveniently** and promptly during the spring and summer. During the busy season in the winter, especially near the holidays, the pressure on the binders is very great.

18. **The Postage on each bound volume** of THE CENTURY MAGAZINE is 35 cents, and on each bound volume of "St. Nicholas" (about) 25 cents per part, or 50 cents for the volume. In cases where subscribers desire the volumes returned by mail, they should remit an amount sufficient to cover this charge. Otherwise the volumes will be sent by express.

19. **We would suggest** that, in all cases where possible, persons order covers sent to them, and thereby save transportation charges on the volumes to and from New-York.

TRUE ARISTOCRACY.

In an address delivered at Chautauqua, August 6th, 1890, Col. T. W. Higginson says:—"The aristocracy of birth is dying out. Three-quarters of the English peerages date back no farther than the American Revolution. The principle of hereditary legislation, and the laws of entail and primogeniture, are giving place to the aristocracy of achievement. This new aristocracy has marked advantages. European castles speak of human suffering, concentrated cruelty and oppression. *The American System represents things that bring people together—railroads, steamboats, factories, inventions—the works of peace, and not of hostility.* It represents good deeds, helps the world; while the aristocracy of birth threatens to destroy it by violence."

Harvard University has just conferred the degree of A.M. on Mr. Alfred T. White, of Brooklyn, not for any literary or professional attainments, but because he had erected magnificent improved tenement houses in Brooklyn; thus writing a practical treatise upon one of the crying social needs of the day with pen of brick and in ink of mortar, and publishing it at a cost to himself of \$1,500,000. Such are the men to be sought out, and their record given to the world through the pages of this NATIONAL CYCLOPEDIA OF AMERICAN BIOGRAPHY.

My Dear Sir

I Received from you
some weeks since a Box of Oranges and also
the nuts packed into the same box.

The Oranges were unfortunately frozen on
the way up by Express from Boston or while on
storage at Boston. No fault of yours there
was about 20 not touched by the frost and
was very fine.

Some few days since I received a second
box of Oranges from you. All came in good
Order & of splendid quality, this is more
than kind in you and if you will
present bill or amt due it will afford me
pleasure to remit for the same. Also for
the trouble of getting the nuts, they are just
what is wanted I had arranged to of late time

for Jamaica yesterday or today but ¹²
Sickness & probable death of My Wife Sister
& must stay at home. but the party has
gone down and will have a splendid time
as they are nice men & this is their first

I have taken the liberty to give Mr Lee & Mr
Gilpatrick a letter of introduction to you &c.

I hope this will find you in good health.
& far from any ill effects from your visit
north. Also the Mother & hope she and
Father will give us a call on their visit
to the States next Season.

I hope they and your self will come
up early & not forget us we will try to
make your stay pleasant.

If you can send me a box of Pine Apples &
another box or Oranges in this Season provided
I can pay for them I would like them
Very much. Many thanks for your kindness

Pleasant time. I trust your heart
has improved from when I saw you in
Boston with Heat fearful cold.

As you do not say but what you
wish & for them are well I conclude
they are in good health please give
them my kind regards,

I last week sent you a paper
printed here giving particulars of the
deaths of much John Taylor. he has gone
the way of all,

Some two weeks ago I made him
a visit at Acubunde, he went
into Boston with me, and visited
the New Steamer Brookline. he was
very much pleased with the arrangements
of the ship. And felt persuasive he would
go with me, on one of the cruises
to Jamaica this next winter
Mr Preston showed us about 4 or
got a good idea about the boat.

Mr John Spoke full of confidence
about the coming trip and was so
much impressed by the visit made
felt some of benefit in the next trip &c

About 4 or 5 days previous to his death his Son-in-law carried him to the depot for him to take a trip down the Harbor while waiting for train, in walking along the platform he became faint and fell down onto the track. Striking on his forehead cutting a fearful gash lengthwise of his nose and quite deep & badly bruising his face & forehead. but soon came to, & rode home. had his wounds dressed and a careful examination made by his doctor who pronounced him all safe & no broken bones, and though he would be about in a few days.

He did improve & was about the house the doctor made him his last visit, cutting out the stitches taken in dressing the wounds, bid him good bye & left, his daughter Mrs. Palmer went to pick an air egg which he wanted leaving her sitting up and healing very chipper, wanted them to write me saying he would be up to see me in a few days &c
A young lady in next room had some strange noises & visit in common room in his chair but in great distress called Mrs. Wain & he died within 10 minutes.

213
Mr. Tyler had a very severe attack of Grip's last winter, here in Northampton lasting from some 12 weeks and had never been as well since.

He had just had a nice monument erected in his plot at Auburndale & fairly put in order. & the next day after I came home, he went up to St. Gross of his Father & Mother & said on his return at Auburndale that all things were completed & nothing to worry him & he could now take a rest &c.

Uncle John Tyler, was a noble hearted man, generous to a fault, and has passed a way just as he has always hoped to, without a long sickness often saying he wished he would go in a moment he did go in that way. I can only say peace be to his ashes.

I also sent your Mother a Boston paper having some Cape news which I thought would interest her & your Father,

But let me be disappointed this season
Yours truly
D. M. Co. all.

The Promoters of this Company herewith submit a report of
their progress in the matter of establishing an Ice and Electric
Light Plant at Port Antonio, Jamaica, as outlined in subscription
list which bears your esteemed signature. A portion of shareholders
to this stock was obtained some time since, at which time
immediate action was intended, but for various reasons, principal-
ly that the Railroad terminal had not been fully determined, it
was deemed wise to await further developments.

All matters of doubt having been settled, it was again
taken up and a Company styled the "North Side Ice Company, Limited"
organized under the laws of Jamaica, with an authorized capital of
£5,000. In shares of £10. each, and the following Directors were
registered:--

Jamaica Division.

Cable Address, "BAKER," Jamaica.

Port Antonio, Jamaica, April 30, 1898.

My dear Sir:

Enclosed I hand you Statement of the Northside Ice Co., Ltd., showing its financial condition to March 31, 1898.

Par value of its Stock		£10. 0. 0 per share
You paid in originally	£8. 0. 0	pr share
Dividend, 1st year's business	16. 0	" "
" 2nd " "	8. 0	" "
" 3rd " "	0. 0	" "

	9. 4. 0	" "

Leaving due to Capital Stock

to make it full paid - - - - -	16. 0	" "	£10. 0. 0	" "
--------------------------------	-------	-----	-----------	-----

The Company has at credit of Reserve Fund £741--6--2. Deducting £400., or 16--0 per share to make the Capital Stock full paid, would leave at credit of Reserve Fund £341--6--2 to be applied to depreciation of Plant or any other purpose that might seem desirable.

In ordinary course, it would have been advisable to have declared a dividend for the year just closed, sufficient to make the Capital Stock paid up in full, and issued certificates of stock to stockholders; but your Directors deemed it unadvisable to do so at this time, for the reason that the two Ice Companies in Kingston are still fighting each other, with results of an average yearly loss of £1,000. to each, and it did not seem wise to attract further attention and competition by declaring any dividend; which action we hope you will approve of.

Our earnings are much reduced by the Kingston competition, and we are selling our product at less price, I think, than we ought to sell Ice for in the tropics.

There is some prospect of the two competing Companies consolidating, in which case we probably would be able to show larger gains on the same amount of business than we are now doing. In the meantime we shall probably be obliged to do business at about the same rate of profits as shown during the past year.

I am, dear Sir,

Yours very truly,

L. D. Baker
Manager

 for you and I hope it
 will reach you in good

 factory. I had a great
 time to get it. Went to
 about every furniture store
 in Boston and could not find
 one. I found it would
^{cost} to make the cheapest
 possible one, \$70 without
 its being painted. I then
 went to Roxbury and found
 the one I have sent you

58 Inch.....	8	9	10	11	12	14	16					

For parks, we make gates of any desired height, and for convenience in handling and shipping, gates to be used with our high park fence are made in two sections, firmly bolted together by means of malleable castings, thus forming one large gate, very much stronger than if made in one section, containing as it does, the double weight of iron through the center.

ORNAMENTAL LAWN FENCE.

36 inch high, including posts, per running foot..... 50c
We carry in stock only the 36 inch high fence, and in panels of the following lengths: 6 ft., 6½ ft. and 7 ft. These lengths include the width of one post to each panel. Other lengths and heights are made to order only.

The above gates are used with the Ornamental Lawn Fence, but with different attachments.

TOOLS FOR STRETCHING.

A complete set of tools consists of two stretchers, two, stretcher chains, two anchor chains, clamp bar, single wire stretcher, single wire clamp, Russell staple puller, wrench and splicer. Our stretchers are the most complete and powerful of their kind, being capable of exerting a strain of FOUR TONS. A full roll of 40 rods, and often very much more is stretched at one pull. Then comes our greatest difficulty—to furnish an end post that will hold this immense strain. We furnish printed instructions for putting up, but will give here our method of securing ends.

Use a large post with cross pieces not less than three feet long, spiked on, or better, framed in near the bottom and floored over. When planted deep this prevents its pulling up or turning around. A stiff brace is then run from three-fifths the height of this post to the ground line of the second post; a No. 9 wire is then drawn from same height of the second to the ground line of the end post, as shown below.

Better set these end posts RIGHT, than have the fence get slack and fail to give satisfaction for lack of proper setting.

Wellsfleet, Mass-

Your very kind letter enclosing P. O. order for \$10. came duly. The bill was only \$7.50 so I enclose my O. for \$7.50 to make it right, and shall be pleased to have your further orders.

We enjoyed our Jamaican trip so much, and not the least part our fortunate landing in spite of our loved family - My wife will now cease extolling the virtues of your dear good Mother - Our little visit to you just before we left was like a "brook by the way"

We remember how lovingly dear little Mattie and Reubie met us in the Hare and accompanied us to the "crook in the path" down the hill. We have been hoping all summer we should have a visit from some of you

We have talked so many times about you, and your kindness to us in so many ways - How vividly the scene of "the old gig" with the straps & strings

the rain approaching and your servant^{2.2}
following us that night with waterproofs
and umbrellas —

The next time we go to Jamaica we
propose to carry our harnesses and make
our friends a little less anxious on our
excursions — We learn that the Townsends
are now in Iowa also Mr. Sharpless is there
to — Please excuse this very hasty letter as I am
doing up a number of last things this afternoon
preparatory to ^a little vacation — Tomorrow morning
early my wife and I are to take a short western
trip — We go through Phil^a - Baltimore, Washington
Cincinnati - Richmond Ind. and possibly when
we get to Chicago we may go to Kansas, but
hope to return in four to six weeks —

We still feel a deep interest in the little
mission at Hector's Row and should really
like to visit it again some time —

With many thanks for your kind invitation
and loving regards to you and your
family in which my wife joins —
I remain your sincerely

MOMBASSA, E. AFRICA,

20TH OCTOBER, 1898.

FROM THE CHIEF ENGINEER,
UGANDA RAILWAY,
TO THE MANAGING MEMBER,
UGANDA RAILWAY COMMITTEE,
FOREIGN OFFICE, LONDON.

SIR,

It is with the greatest regret I have to confirm the sad news conveyed in my telegram No. 229 of the 15th instant regarding the death of Mr. Harrison, Senior Assistant Engineer, which occurred at Fort Smith on October 12th as the result of being mauled by a lioness.

It appears that Mr. Harrison was out shooting on October 8th in the Kedong Valley, and wounded a lioness, which sprang upon him and badly mauled both his arms.

He was conveyed to Fort Smith and attended by Dr. Waters, who on the 11th October, amputated his right arm: gangrene however set in and he died on the following day.

By the untimely death of Mr. Harrison, the Railway loses one of the best officers in the service and one who for upwards of a year had worked most zealously.

He had for some months been in charge of the second survey party, locating the permanent line down the Kedong Escarpment, a particularly arduous and difficult task; and one which he had carried out most successfully.

I trust that when conveying the sad news to his relations, you will express the great regret universally felt by all who knew Mr. Harrison in Africa, at his early death.

I have the honour to be,

Sir,

Your obedient servant,

(Signed)

F. RAWSON,

For Chief Engineer, Uganda Railway.

In regard to the bargain between
you and me I understood that
our passage was to be paid
home the way I put it was this
~~way~~ we to take the boat there for \$25
and find our selves and passage
paid home so if we was gon a
wreck we would get \$10 a piece
for we mint be longer if so would
not get so much out of it and
sure I would not undertake
such a job unless I could
get some where that amount
that is what I told the man that
went with me so it shows I
understood it as I have stated

Dear Sir,
Friendship

We duly received the telegram yesterday from Port Antonio advising us to offer a sum of £100 and £1500 for the purchase.

We have since had a conference with Mr. Harvey on the subject. He has no power to deal with any offer but he to submit there all to his client's order, I as to ascertain if possible what other offers had been received we told him we would be willing to give 10 years purchase on the lot after before him and after some offering and reference to the papers he told us that that

would bring the price up to over £2000. From what we are sent of his offers we believe he has an offer at present of £120 per annum but we do not care about exceeding our instructions to such an extent and we have thought of how to leave it for 7 years at £100 with the option of purchasing for £1000. This offer goes on by the "Baracca" 5-day but we can of course supplement it and we shall be glad to hear from you on the subject.

April 25. 92

Messrs Wolfe & Mulholland

Dear Sirs

In reply to yours of April 7, 1892 about Mr S.C. Burke's claim of £40 for use of a Road I beg to inform you that I do not consider myself responsible in the matter for I pointed out a way (to Mr C. Sullivan the Boston Fruit Coys Overseer) by which the Company's field could be reached by the Potosi River Course which is the road used now by the Company's labourers but for some reason of his own he went through the Rhyme.

If I hold the plans of the two Estates by me I would give you a correct sketch.

The road which the Boston Fruit Coys are now using leaves the main Road at the Rhyme works yard and goes on thro the property for a distance of about half a mile when it hits the Plantain Garden River and then it strikes the Stepwell Stall Estate.

Your company then turn up the River Course for a few chains and then get to their Banana walk -

The public have been using this Road as far as Stepwell Stall Estate & then on to Belmont (where the Parson lives and then on to Arcadia -

Mr Chisolme the late owner of the Rhyme contested the right of way with the people in

the Court at Bath & Mr L. C. Burke was the peoples Advocate
and he succeeded in upholding that claim (the peoples) so I
fail to see how he can charge for the part on to the F. G. River
and if he wished to insist upon any charge for the use of
the short piece remaining it ought to be a very small sum
indeed.

I was always under the impression that Mr
Peinado (Mr L. C. Burkes Overseer) was quite willing to let
the Boston Fruit Co use the road and the claim now made
surprised me very much. —

If you wish to have the Records searched you
might find the papers at Port Antonio as all the Bath
papers were sent there a short time ago. I would suggest Mr
L. S. Baker asking Mr O'Sullivan what arrangement (or
whether any claim was made by the Rhine) was
entered into between himself & Mr Peinado

Believe me Dear Sirs

Yours faithfully yours

Your favor to hand. In regard to the chair, would say that I cannot explain how the mistake happened that it was sent without being upholstered. I will have the desk chair upholstered and ship same on next Saturday's steamer.

Dear Mr. Baker:

Your favor of the 29th ult is received and noted. In regard to the 2753B Antique Oak bookcase for Dr. Geo. J. Neish, will say that the catalogue from which he made his selection was an issue three years old. The bookcase was not in stock and I so wrote Dr. Neish, and at the same time sent him the latest catalogue and asked him to select from that a bookcase to replace the No. 2753B which he had ordered.

Regarding the 3287A and 7928A rockers, will say that they have been shipped. The extra towel racks were supposed to have been put in one of the bureaus shipped to your Father. If they are not found, let me know and I will send two more by next boat.

In relation to the white iron crib for C. C. Langlois: this crib was not in stock and when it came in from the factory it was minus the canopy support. This has now been received and the crib will be sent on next week's steamer. You are correct in regard to the sides of the crib not letting down.

I would like very much to go to Jamaica in January, if it did not cost too much, and I may have a chance to go at that time.

Yours very truly,

Dear Sir:-

We have at hand your favor of May 4th in regard to the repairs on your organ which was returned through the Boston Fruit Co. The organ received some days ago, but it was in such condition that we could not immediately go to work on repairs. We have examined it carefully and find that it will necessitate an outlay of from \$16. to \$18. to put it in satisfactory order.

In regard to the stool, it is useless to try and do anything with it, as it would cost more than a new stool, which could be furnished for \$2. We will go ahead with the work on the organ and have ready to return as early as possible; in the meantime you will advise us if we shall put in a stool at the figure mentioned.
